DIRECTORS' REPORT

Dear Shareholder,

The Directors present the Thirty Fifth Annual Report of the Company for the year ended March 31, 2026.

FINANCIAL RESULTS

(Rs. in Lakh)

Particulars	2025-26	2024-25
Total Income	**43.85**	57.53
Profit/(Loss)Before tax and Depreciation	**21.48**	(18.42)
Depreciation	**-**	-
Profit/(Loss) Before Tax	**21.48**	(18.42)
Profit /(Loss) After Tax	**21.48**	(18.42)

State of Company's affairs

For the year under review, the Company's total income is Rs. 43.85 lakh compared to Rs. 57.53 lakh in the previous year. The Company's profit /(loss) before tax is Rs. 21.48 lakh (previous year, Rs. (18.42) lakh) and profit/ (loss) after tax of Rs. 21.48 lakh (previous year Rs. (18.42) lakh).

The Company does not have any order balance as on March 31, 2026.

Change in nature of business

There is no change in nature of business during the year under review.

Material changes affecting financial position of the Company

No material changes and commitments have occurred after the close of the year till the date of this report, which affect the financial position of the Company.

Health and Safety

Health and Safety at project sites is of paramount importance to the Company. The Company strives for continuous improvement and its objective is to establish world class safety practices at sites. Safety culture is inculcated as part of day to day operations by site managers.

Dividend

The Board of Directors of your Company did not recommend any dividend during the financial year 2025-26.

Amount proposed to be carried to Reserves

The Company does not propose to carry any amount to reserves.

Share Capital

The Paid-up Share Capital of the Company is Rs. 450 lakhs. During the year under review, the Company has not issued shares with differential voting rights nor has granted any stock options or sweat equity.

Subsidiaries

Thermax Engineering Construction FZE (TEC FZE) Nigeria, a wholly owned subsidiary of the Company is primarily catering to the Erection & Commissioning and supervision of HRSG, Utility boilers, Flue gas coolers and Construction & commissioning of Hot Oil heater supplied to Dangote Petroleum Refinery and Petrochemical Free Zone Enterprise and Dangote Oil Refinery Co. Ltd., Lagos Nigeria. For the year ended March 31, 2026, TEC FZE has recorded operational revenue of Mn USD 0.30 with operating profit/(loss) of Mn USD (0.69).

Annual accounts of the subsidiary company and related detailed information are available to the shareholders of the holding and subsidiary company as well as to the statutory authorities. On request, these documents will be made available for inspection at the Company's Corporate Office.

Deposits

During the financial year 2025-26, the Company has not accepted any deposits under Chapter V of the Companies Act, 2013.

Particulars of Loans, Guarantees or Investments

During the year under review, the Company did not give any loan or make an investment pursuant to the provisions of Section 186 of the Companies Act, 2013.

Restriction on purchase by Company or giving of Loans by it for purchase of its shares

Pursuant to the provisions of Section 67(3)(c) of the Companies Act, 2013, and rules made thereunder, the Company has not given any loan exceeding the limit mentioned therein, to persons in the employment of the Company or Directors for purchase or subscribe shares of the Company.

Business Risk Management

In order to reduce impact of business risks of the Company, the management has identified key risks affecting the business adversely. The key risks identified are as under:

- Delay in execution due to default of contractors.
- Delay in execution due to unforeseen site conditions including natural calamities.
- Delay in recovery of retention amounts from customers.
- Cost overrun due to delays as well as unforeseen site related factors such as access, approach roads, soil condition etc.

The Company has put in place several mitigation measures such as:

- Vendor evaluation and analysis prior to awarding the contract.
- Site visit prior to making a quotation.
- Frequent review of retention obligations.

Adequacy of Internal Financial Controls

The Company has adequate internal financial controls and those are operating effectively.

Directors

In accordance with the provisions of the Companies Act, 2013 and the Company's Articles of Association, Mr. Sandeep Deshpande (DIN: 09748806) retires by rotation, and being eligible, offers himself for re-appointment as Director.

The Members of the Company at their 34th Annual General Meeting held on July 21, 2025 approved the appointment of Mr. Sandeep Deshpande (DIN: 09748806). Further, the Board of Directors at their meeting held on July 29, 2025, appointed Mr. Niranjan Pawgi (DIN: 11218972) as an Additional Director of your Company. Mr. Niranjan Pawgi (DIN: 11218972) holds office as an Additional Director up to the date of ensuing Annual General Meeting and subject to the approval of Members at 35th Annual General Meeting, it is proposed to appoint Mr. Niranjan Pawgi as Director of the Company, liable to retire by rotation.

Further, Mr. Pravin Karve (DIN: 06714708), Director resigned from the Board of your Company effective July 31, 2025.

Board Meetings

The Board met four times during the year. The intervening gap between the Meetings was within the period prescribed under the Companies Act, 2013. Attendance details of the Board are as follows:

Name	Board Meetings			
	April 30, 2025	July 29, 2025	November 6, 2025	January 30, 2026
Mr. B.C. Rajesh	P	P	P	P
Mr. Sandeep Deshpande	P	P	P	P
Mr. Niranjan Pawgi*	NA	NA	P	P
Mr. Pravin Karve**	A	A	NA	NA

* Mr. Niranjan Pawgi appointed as Additional Director w.e.f. July 29, 2025

** Mr. Pravin Karve ceased to be a Director of the Company w.e.f. July 31, 2025

Directors' Responsibility Statement

Pursuant to the requirement under Section 134(3)(c) of the Companies Act, 2013 with respect to Directors' Responsibility Statement, it is hereby confirmed that:

(a) In the preparation of the annual accounts, the applicable accounting standards have been followed along with proper explanation relating to material departures;

(b) The Directors have selected such accounting policies and applied them consistently and made judgments and estimates that are reasonable and prudent so as to give a true and fair view of the state of affairs of the Company at the end of the financial year and of the profit and loss of the Company for that period;

(c) The Directors have taken proper and sufficient care for the maintenance of adequate accounting records in accordance with the provisions of this Act for safeguarding the assets of the Company and for preventing and detecting fraud and other irregularities;

(d) The Directors have prepared the annual accounts on a going concern basis; and

(e) The Directors have devised proper systems to ensure compliance with the provisions of all applicable laws and that such systems were adequate and operating effectively.

Secretarial Standards

Your Company is in compliance with the Secretarial Standards on Meetings of the Board of Directors (SS-1) and Secretarial Standards on General Meetings (SS-2) issued by the Institute of Company Secretaries of India (ICSI) as may be amended from time to time.

Details regarding frauds reported by Auditors under section 143(12)

During the year under review, there were no frauds reported by the auditors to the Board under section 143(12) of the Act.

Corporate Social Responsibility

In compliance with Section 135 of the Companies Act, 2013 and as part of its initiatives under CSR, the Company has contributed Rs. 6.34 lakh to Thermax Foundation. A Report on CSR activities is annexed as "Annexure 1".

Related Party Transactions

All Related Party Transactions (RPTs) that were entered into during the financial year were on an arm's length basis and were in the ordinary course of business. There are no materially significant RPTs made by the Company with Directors, Key Managerial Personnel, if any, or other designated persons which may have a potential conflict with the interest of the Company at large. Therefore, requirements of disclosure of RPTs in Form AOC-2 are not attracted.

During the year, RPTs were placed before the Board for its review. A statement showing the disclosure of transactions with related parties as required under IND AS 24 is set out separately in the Financial Statements.

Financial Statements

The financial statements for the year ended March 31, 2026, have been prepared as per Schedule III to the Companies Act, 2013, as amended from time to time.

Conservation of Energy

The Company's Head Office is situated at Energy House, Chinchwad, owned by the holding company which undertakes various measures to conserve energy. At sites, the Company uses energy saving bulbs for lighting of stores & site offices and the construction power through grid is sought from the customer, wherever practically possible instead of deploying costly and polluting DG sets for power generation.

Technological Absorption

There was no technology acquisition and absorption during the year under review.

Foreign Exchange Earnings and Outgo

The net foreign exchange earnings during the year is Rs. 163.31 lakhs received from TEC FZE, for reimbursement of employee salary.

Particulars of Employees

None of the employees are covered by the provisions contained in Rule 5(2) of the Companies (Appointment and Remuneration of Managerial Personnel) Rules, 2014 framed under the Companies Act, 2013.

Significant and material orders passed by the Regulators or Courts

There are no significant or material orders passed by the Regulators / Courts which would impact the going concern status of the Company and its future operations.

Disclosure under Sexual Harassment of Women at Workplace (Prevention, Prohibition and Redressal) Act, 2013

The Company is committed to provide a safe and conducive work environment to its employees. There is a duly constituted Internal Committee and there were no cases pending at the beginning of the year/ filed during the year, pursuant to the Sexual Harassment of Women at Workplace (Prevention, Prohibition and Redressal) Act, 2013.

A. Number of Sexual Harassment Complaints received: Nil

B. Number of Sexual Harassment Complaints disposed off: Nil

C. Number of Sexual Harassment Complaints beyond 90 days: Nil

The Insolvency and Bankruptcy Code, 2016

Your Board confirms that there is no proceeding pending under the Insolvency and Bankruptcy Code, 2016.

Details of difference between the amounts of valuation at the time of one time settlement and the valuation done at the time of taking a loan from the banks or financial institutions along with the reasons thereof:

During the year under review, there is no instance of onetime settlement with any Bank or Financial Institution.

Auditors

The Board of Directors at its meeting held on May 4, 2026 has recommended appointment of M/s. B.K. Khare & Co. (Firm Registration: 105102W) as the Statutory Auditors of the Company for term of one year from the conclusion of Thirty Fifth Annual General Meeting until the conclusion of the Thirty Sixth Annual General Meeting for the approval of the shareholders of the Company.

The auditors have confirmed that they hold a valid certificate issued by the Peer Review Board of the Institute of Chartered Accountants of India.

Cost Records Applicability

The provisions relating to maintenance of cost records under sub section (1) of section 148 of the Companies Act, 2013 were not applicable on the Company during the financial year.

INDEPENDENT AUDITORS' REPORT

To the members of Thermax Engineering Construction Company Limited

Report on the audit of the Financial Statements

Opinion

We have audited the accompanying Financial Statements of **Thermax Engineering Construction Company Limited** ("the Company"), which comprise the Balance Sheet as at March 31, 2026, the Statement of Profit and Loss including Other Comprehensive Income, the Statement of Cash Flows and the Statement of Changes in Equity for the year then ended, and a summary of material accounting policies and other explanatory information (hereinafter referred to as "the Financial Statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid Financial Statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under Section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended ("Ind AS") and other accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2026, its profit and total comprehensive income, its changes in equity and its cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit of the Financial Statements in accordance with the Standards on Auditing specified under Section 143(10) of the Act (SAs). Our responsibilities under those Standards are further described in the 'Auditors' Responsibilities for the Audit of the Financial Statements' section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India ("the ICAI") together with the ethical requirements that are relevant to our audit of the Financial Statements under the provisions of the Act and the Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence obtained by us is sufficient and appropriate to provide a basis for our audit opinion on the Financial Statements.

Information other than the Financial Statements and Auditors' Report thereon

The Company's Board of Directors is responsible for the other information. The other information comprises the Directors' Report and the related annexures but does not include the Financial Statements and our Auditors' Report thereon.

Our opinion on the Financial Statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the Financial Statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the Financial Statements, or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of management for the Financial Statements

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Act with respect to the preparation of these Financial Statements that give a true and fair view of the financial position, financial performance including other comprehensive income, cash flows and changes in equity of the Company in accordance with the accounting principles generally accepted in India.

This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Financial Statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the Financial Statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditors' Responsibilities for the audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the Financial Statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit.

We also:

- Identify and assess the risks of material misstatement of the Financial Statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal financial control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under Section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the management.

- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the Financial Statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Company to cease to continue as a going concern.

- Evaluate the overall presentation, structure and contents of the Financial Statements, including the disclosures, and whether the Financial Statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the Financial Statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the Financial Statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the Financial Statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal controls that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Report on other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2020 ("the Order"), issued by the Central Government of India in terms of sub-section (11) of Section 143 of the Act and on the basis of such checks of the books and records of the Company as we considered appropriate and according to the information and explanations given to us, we give in Annexure B, a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.

2. As required by Section 143(3) of the Act, we report that:

   (a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.

   (b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.

   (c) The Balance Sheet, the Statement of Profit and Loss including Other Comprehensive Income, the Statement of Changes in Equity and the Statement of Cash Flows dealt with by this report are in agreement with the books of account.

   (d) In our opinion, the aforesaid Financial Statements comply with the Accounting Standards specified under Section 133 of the Act.

   (e) On the basis of the written representations received from the directors as on March 31, 2026 taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2026 from being appointed as a director in terms of Section 164(2) of the Act.

   (f) With respect to the adequacy of the internal financial controls with reference to Financial Statements of the Company and the operating effectiveness of such controls, refer to our separate report in Annexure A. Our report expresses an unmodified opinion on the adequacy and operating effectiveness of the Company's internal financial controls with reference to Financial Statements.

   (g) Based on the records examined by us and according to information and explanations given to us, the Company has not paid/provided for managerial remuneration. Hence, the provisions of Section 197 of the Act related to managerial remuneration are not applicable.

   (h) With respect to the other matters to be included in the Auditors' Report in accordance with the requirements of Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as amended, in our opinion and to the best of our information and according to the explanations given to us:

      (i) The Company has disclosed the impact of pending litigations on its financial position in its Financial Statements – Refer Note 20(A) to the Financial Statements;

      (ii) The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses;

      (iii) There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Company;

   (iv) (a) The management has represented that, to the best of its knowledge and belief, no funds have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Company to or in any other person(s) or entity(ies), including foreign entities ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, whether, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Company ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries;

      (b) The management has represented that, to the best of its knowledge and belief, no funds have been received by the Company from any person(s) or entity(ies), including foreign entities ("Funding Parties"), with the understanding, whether recorded in writing or otherwise, that the Company shall, whether, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries;

      (c) Based on such audit procedures that we considered reasonable and appropriate in the circumstances, nothing has come to our notice that has caused us to believe that the representations under sub-clauses (a) and (b) contain any material misstatement;

   (v) The Company has not declared/paid/declared and paid any dividend during the year; and

      i) Based on our examination which included test checks, the Company has used an accounting software for maintaining its books of account which has a feature of recording audit trail (edit log) facility and the same has operated throughout the year for all relevant transactions recorded in the software. Further, during the course of our audit, we did not come across any instance of audit trail feature being tampered with. Additionally, the audit trail has been preserved by the Company as per the statutory requirements for record retention.

Annexure A to the Independent Auditors' Report

[Referred to in paragraph 2(f) under 'Report on Other Legal and Regulatory Requirements' section of our report of even date]

Report on the Internal Financial Controls with reference to financial statements under Clause (i) of sub-section (3) of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls with reference to financial statements of **Thermax Engineering Construction Company Limited** ("the Company") as of March 31, 2026 in conjunction with our audit of the Financial Statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business including adherence to the Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls with reference to financial statements of the Company based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting ("the Guidance Note") issued by the Institute of Chartered Accountants of India and the Standards on Auditing prescribed under Section 143(10) of the Act, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to financial statements was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system with reference to financial statements and their operating effectiveness. Our audit of internal financial controls with reference to financial statements included obtaining an understanding of internal financial controls with reference to financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system with reference to financial statements.

Meaning of Internal Financial Controls with reference to financial statements

A company's internal financial control with reference to financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control with reference to financial statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorisations of management and directors of the Company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the Company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls with reference to financial statements

Because of the inherent limitations of internal financial controls with reference to financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to financial statements to future periods are subject to the risk that the internal financial control with reference to financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial controls system with reference to financial statements and such internal financial controls with reference to financial statements were operating effectively as at March 31, 2026, based on the criteria for internal financial control with reference to financial statements established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Annexure B to the Independent Auditors' Report

[Referred to in paragraph 1 under 'Report on other Legal and Regulatory Requirements' section of our report of even date]

(1) (a) According to the information and explanations given to us, the Company does not have any Property, Plant and Equipment and Intangible assets hence reporting under clause 3((i)(a) and (b) is not applicable to the Company.

(c) According to the information and explanations given to us, the Company does not have any immovable properties. Hence reporting under clause 3((i)(c) is not applicable to the Company.

(d) According to the information and explanations given to us, the Company has not revalued any of its Property, Plant and Equipment (including Right of Use assets) or intangible assets or both during the year. Hence reporting under clause 3((i)(d) is not applicable to the Company.

(e) Based on the audit procedures performed by us and according to the information, explanations and representations given to us, no proceedings have been initiated or are pending against the Company for holding any benami property under the Benami Transactions (Prohibition) Act, 1988 (45 of 1988) and rules made thereunder.

(ii) (a) The Company is in the business of rendering services and consequently, does not hold any inventory. Accordingly, the reporting under Clause 3(ii)(a) of the Order is not applicable to the Company.

(b) According to the information and explanations given to us, the Company has not been sanctioned working capital limits in excess of five crore rupees, in aggregate, from banks or financial institutions on the basis of security of current assets at any point of time during the year.

(iii) According to the information and explanations given to us, the Company has not made investments in or provided any guarantee or security or granted any loans or advances in the nature of loans, secured or unsecured, to companies, firms, Limited Liability Partnerships or any other parties during the year. Accordingly, the reporting under Clauses 3(iii)(a) to 3(iii)(f) of the Order is not applicable to the Company.

(iv) According to the information and explanations given to us, the Company has not granted any loans or made any investments or provided any guarantees or security to the parties covered under Sections 185 and 186 of the Act. Accordingly, the reporting under Clause 3(iv) of the Order is not applicable to the Company.

(v) According to the information and explanations given to us, the Company has not accepted deposits under the provisions of Sections 73 to 76 or any other relevant provisions of the Act and the rules framed thereunder. Accordingly, the reporting under Clause 3(v) of the Order is not applicable to the Company.

(vi) The Central Government has not specified the maintenance of cost records under sub-section (1) of Section 148 of the Act for any of the products of the Company. Accordingly, the reporting under Clause 3(vi) of the Order is not applicable to the Company.

(vii) (a) According to the information and explanations given to us and on the basis of our examination of records of the Company, the amounts deducted / accrued in the books of account in respect of undisputed statutory dues including Goods and Services Tax, Provident Fund and Income-tax, have generally been regularly deposited during the year by the Company with the appropriate authorities though there has been a slight delay in a few cases. According to the information and explanations given to us and on the basis of our examination of records of the Company, there were no undisputed statutory dues payable in respect of Employees' State Insurance, Sales tax, Service tax, Duty of Customs, Duty of Excise and Value Added Tax, Cess and other material statutory dues.

According to the information and explanations given to us and on the basis of our examination of records of the Company, there were no arrears of outstanding statutory dues in respect of Goods and Services Tax, Provident fund, Employees' State Insurance, Income-tax, Sales tax, Service tax, Duty of Customs, Duty of Excise, Value Added Tax, Cess and other material statutory dues as on the last day of the financial year for a period of more than six months from the date they became payable.

(b) According to the information and explanations given to us and on the basis of our examination of records of the Company, there are no statutory dues in respect of Provident Fund, Employees' State Insurance, Sales tax, Service tax, Duty of Customs, Duty of Excise, Cess and any other material statutory dues as at March 31, 2026, which have not been deposited with the appropriate authorities on account of any dispute. According to the information and explanations given to us and records of the Company examined by us, the particulars of dues of Goods and Services Tax Profession Tax and Income Tax which have not been deposited as on March 31, 2026 on account of disputes are as under:

Name of the Statute	Nature of the dues (Including Interest and Penalty as applicable)	Amount (In Rs. Lakhs)	Period to which the amount relates	Forum where the dispute is pending
Maharashtra Goods and Service Tax Act ,2017	Dispute regarding in-eligible ITC claimed	52.46*	FY 2017-18, FY 2018-19	Asst. Commissioner of State Tax.
Income Tax Act, 1961	Dispute regarding Contribution equalization and provision of liquidated damage	87.45	FY 2016-17	Commissioner of Income Tax [Appeals]
Income Tax Act, 1961	Dispute regarding Contribution equalization	5.21	FY 2017-18	Commissioner of Income Tax [Appeals]

*Including interest of Rs.23.04 lakhs and penalty of Rs.3.44 lakhs

(viii) According to the information and explanations given to us, there are no transactions not recorded in the books of account which have been surrendered or disclosed as income during the year in the tax assessments under the Income-tax Act, 1961. Accordingly, the reporting under Clause 3(viii) of the Order is not applicable to the Company.

(ix) (a) According to the information and explanations given to us and based on the audit procedures performed by us, the Company has not availed any loans or other borrowings during the year. Accordingly, the reporting under Clause 3(ix)(a) of the Order is not applicable to the Company.

(b) According to the information and explanations given to us, the Company has not been declared a willful defaulter by any bank or financial institution or any other lender till the date of our audit report.

(c) According to the information and explanations given to us and based on the audit procedures performed by us, the Company has not availed any term loans during the year. Accordingly, the reporting under Clause 3(ix)(c) of the Order is not applicable to the Company.

(d) In our opinion and according to the information and explanations given to us and on an overall examination of the Balance Sheet of the Company, we report that funds raised on short-term basis have not been utilised for long- term purposes as at the Balance Sheet date.

(e) According to the information and explanations given to us and on an overall examination of the Financial Statements of the Company, we report that the Company has not taken any funds from any entity or person on account of or to meet the obligations of its subsidiaries.

(f) According to the information and explanations given to us and based on the audit procedures performed by us, we report that the Company has not raised any loans during the year on the pledge of

securities held in its subsidiaries. Accordingly, the reporting under Clause 3(ix)(f) of the Order is not applicable to the Company.

(x) (a) According to the information and explanations given to us, the Company has not raised any moneys by way of initial public offer or further public offer (including debt instruments) during the year. Accordingly, the reporting under Clause 3(x)(a) of the Order is not applicable to the Company.

(b) According to the information and explanations given to us, the Company has not made any preferential allotment or private placement of shares or convertible debentures (fully, partially or optionally convertible) during the year. Accordingly, the reporting under Clause 3(x)(b) of the Order is not applicable to the Company.

(xi) (a) During the course of our examination of the books and records of the Company, carried out in accordance with the generally accepted auditing practices in India and according to the information and explanations given to us, we have neither come across any instance of material fraud by the Company or on the Company noticed or reported during the year, nor have we been informed of any such case by the management.

(b) There has been no report filed by us under sub-section (12) of Section 143 of the Act in Form ADT-4 as prescribed under Rule 13 of the Companies (Audit and Auditors) Rules, 2014 with the Central Government. Accordingly, the reporting under Clause 3(xi)(b) of the Order is not applicable to the Company.

(c) Though establishment of vigil mechanism is not mandated for the Company by the Act, or by Securities Exchange Board of India (Listing Obligations and Disclosure Requirement) ("SEBI LODR") Regulations, as represented by the management, no whistle blower complaints were received by the Company during the year.

(xii) According to the information and explanations given to us, the Company is not a Nidhi company and the Nidhi Rules, 2014 are not applicable to it. Accordingly, the reporting under Clause 3(xii) of the Order is not applicable to the Company.

(xiii) In our opinion and according to the information and explanations given to us, the Company has entered into transactions with related parties in compliance with the provisions of Section 188 of the Act. The details of such related party transactions have been disclosed in the financial statements as required by Indian Accounting Standard (Ind AS) 24, Related Party Disclosures specified under Section 133 of the Act. Further, the Company is not required to constitute an Audit Committee under Section 177 of the Act, and accordingly, to this extent, the reporting under Clause 3(xiii) of the Order is not applicable to the Company.

(xiv) In our opinion and based on our examination, the Company does not have an internal audit system and is not required to have an internal audit system as per the provisions of the act. Accordingly, reporting under clause 3(xiv) is not applicable to the company.

(xv) According to the information and explanations given to us, the Company has not entered into any non-cash transactions with its directors or directors of its holding company and subsidiary companies or persons connected with them during the year and hence, the provisions of Section 192 of the Act are not applicable to the Company. Accordingly, the reporting under Clause 3(xv) of the Order is not applicable to the Company.

(xvi) (a) According to the information and explanations given to us, the Company is not required to be registered under Section 45-IA of the Reserve Bank of India Act, 1934. Accordingly, the reporting under Clause 3(xvi)(a) of the Order is not applicable to the Company.

(b) In our opinion and according to the information and explanations given to us, the Company has not conducted any Non-Banking Financial or Housing Finance activities. Accordingly, the reporting under Clause 3(xvi)(b) of the Order is not applicable to the Company.

(c) In our opinion and according to the information and explanations given to us, the Company is not a Core Investment Company (CIC) as defined in the regulations made by the Reserve Bank of India. Accordingly, the reporting under Clause 3(xvi)(c) of the Order is not applicable to the Company.

(d) Based on the information and explanations given to us, we report that the Group (as defined in the Core Investment Companies (Reserve Bank) Directions, 2016) has one Core Investment Company.

(xvii) In our opinion and according to the information and explanations given to us, the Company has not incurred cash losses in the current financial year as well as in the immediately preceding financial year. Accordingly, the reporting under Clause 3(xvii) of the Order is not applicable to the Company.

(xviii) There has been no resignation of the statutory auditors during the year. Accordingly, the reporting under Clause 3(xviii) of the Order is not applicable to the Company.

(xix) According to the information and explanations given to us and on the basis of the financial ratios, ageing and expected dates of realisation of financial assets and payment of financial liabilities, other information accompanying the financial statements, our knowledge of the Board of Directors and management plans and based on our examination of the evidence supporting the assumptions, nothing has come to our attention, which causes us to believe that any material uncertainty exists as on the date of the audit report that the Company is not capable of meeting its liabilities existing at the date of Balance Sheet as and when they fall due within a period of one year from the Balance Sheet date. We, however, state that this is not an assurance as to the future viability of the company. We further state that our reporting is based on the facts up to the date of the audit report and we neither give any guarantee nor any assurance that all liabilities falling due within a period of one year from the Balance Sheet date, will get discharged by the Company as and when they fall due.

(xx) (a) According to the information and explanations given to us, in respect of other than ongoing projects, the Company has no unspent amount that needs to be transferred to a Fund specified in Schedule VII to the Act in compliance with second proviso to sub-section (5) of Section 135 of the Act.

(b) According to the information and explanations given to us, there are no ongoing projects relating to corporate social responsibility. Accordingly, the reporting under Clause 3(xx)(b) of the Order is not applicable to the Company.

1. Corporate information

Thermax Engineering Construction Company Limited (the "Company") is a public company domiciled in India. It is a wholly owned subsidiary of Thermax Limited. The Company is engaged in erection and commissioning of boilers supplied by its parent company Thermax Limited and also by other suppliers. The Corporate Identification Number (CIN) of the Company is U29246MH1991PLC062959.

The address of the registered office is Thermax House, 14, Mumbai – Pune Highway, Wakdewadi, Pune, 411001. The Board of Directors have authorized to issue by these separate financial statements on May 04, 2026.

2. Material accounting policies

2.1. Basis of preparation and measurement

(a) Basis of preparation

These financial statements have been prepared in accordance with the Indian Accounting Standards (Ind AS), notified under the Companies (Indian Accounting Standards) Rules, 2015 (as amended from time to time).

The preparation of the financial statements requires the use of certain critical accounting estimates and judgements. It also requires the management to exercise judgement in the process of applying the Company's accounting policies. The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the financial statements are disclosed in Note 2.

(b) Basis of measurement

The financial statements have been prepared on the accrual and going concern basis under historical cost convention except the following:

- Certain financial assets and liabilities (including derivative instruments) is measured at fair value;
- Assets held for sale measured at fair value less cost to sell;
- Defined benefit plans whereby the plan assets are measured at fair value; and
- Equity settled ESOP at grant date fair value at each reporting date.

The financial statements are presented in Indian Rupees (INR) and all values are rounded to the nearest lakhs except when otherwise indicated.

2.2. Changes in accounting policies and disclosures

New and amended standards

The Company applied for the first-time certain standards and amendments, which are effective for annual periods beginning on or after April 01, 2025. The Company has not early adopted any standard, interpretation or amendment that has been issued but is not yet effective.

The Ministry of Corporate Affairs vide notification dated May 07, 2025 and August 13, 2025 notified the Companies (Indian Accounting Standards) Amendment Rules, 2025 and Companies (Indian Accounting Standards) Second Amendment Rules, 2025, respectively, which amended certain accounting standards (see below), and are effective for annual reporting periods beginning on or after April 01, 2025:

(a) Classification of Liabilities as Current or Non-current and Non-current Liabilities with Covenants - Amendments to Ind AS 1

As a result of the adoption of the amendments to Ind AS 1, the Company changed its accounting policy for the classification of borrowings:

"Borrowings are classified as current liabilities unless, at the end of the reporting period, the Company has a right to defer settlement of the liability for at least 12 months after the reporting period. Covenants that the Company is required to comply with, on or before the end of the reporting period, are considered in classifying loan arrangements with covenants as current or non-current. Covenants that the Company is required to comply with after the reporting period do not affect the classification."

This new policy did not result in a change in the classification of the Company's borrowings. The Company did not make retrospective adjustments as a result of adopting the amendments to Ind AS 1.

This amendment also includes specific provisions that will take effect for reporting periods beginning on or after 1 April 2026, as outlined below:

Under the existing Ind AS 1, where there is a breach of a material provision of a long-term loan arrangement on or before the end of the reporting period with the effect that the liability becomes payable on demand on the reporting date, the entity does not classify the liability as current, if the lender agreed, after the reporting period and before the approval of the financial statements for issue, not to demand payment as a consequence of the breach. However, the amended requirements stipulate that entities will no longer be permitted to consider lender waivers that are granted after the reporting date but before the financial statements are approved for the purpose of classification of loans. This amendment is required to be applied retrospectively in accordance with Ind AS 8. The Company does not expect this amendment to have an impact on its operations or financial statements.

(b) International Tax Reform - Pillar Two Model Rules - Amendments to Ind AS 12

The Company is not within the scope of the OECD Pillar Two Model Rules, as Pillar Two legislation has not yet been enacted in any of the jurisdictions in which the Company operates.

(c) Lack of Exchangeability - Amendments to Ind AS 21

The amended Ind AS 21 have added requirements to help entities to determine whether a currency is exchangeable into another currency, and the spot exchange rate to use where it is not.

These amendments did not have any material impact on the amounts recognized in prior periods and are not expected to significantly affect the current or future periods.

2.3 Summary of significant accounting policies

a. Current and non-current classification

An entity shall classify an asset as current when:

(i) it expects to realise the asset, or intends to sell or consume it, in its normal operating cycle

(ii) it holds the asset primarily for the purpose of trading

(iii) it expects to realise the asset within twelve months after the reporting period (other than for long-term projects), or

(iv) the asset is cash or a cash equivalent (as defined in Ind AS 7) unless the asset is restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets shall be classified as non-current.

An entity shall classify a liability as current when:

(i) it expects to settle the liability in its normal operating cycle

(ii) it holds the liability primarily for the purpose of trading

(iii) the liability is due to be settled within twelve months after the reporting period (other than for long-term projects), or

(iv) it does not have the right at the end of the reporting period to defer settlement of the liability for at least twelve months after the reporting period.

Notes to the financial statements for the year ended March 31, 2026
(All amounts are in Rupees Lakhs, except per share data and unless stated otherwise)

All other liabilities shall be classified as non-current.

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

b. Foreign currencies

The Company's financial statements are prepared in INR, which is the also functional currency of the Company.

Transactions and balances

Transactions in foreign currencies are initially recorded at the functional currency spot rates at the date the transaction first qualifies for recognition. Monetary assets and liabilities denominated in foreign currencies are translated at the functional currency spot rates of exchange at the reporting date. Exchange differences arising on settlement or translation of monetary items are recognized in the Statement of profit and loss.

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates at the date of the initial transactions.

c. Fair value measurement

The Company measures financial instruments, such as, derivatives at fair value at each balance sheet date.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- in the principal market for the asset or liability, or
- in the absence of a principal market, in the most advantageous market for the asset or liability

The principal or the most advantageous market must be accessible by the Company. The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorized within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1 — Quoted (unadjusted) market prices in active markets for identical assets or liabilities
- Level 2 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable
- Level 3 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

For the purpose of fair value disclosures, the Company has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

This note summarizes accounting policy for fair value. Other fair value related disclosures are given in the relevant notes.

- Disclosures for significant judgements, estimates and assumptions (note 2)
- Quantitative disclosures of fair value measurement hierarchy (note 23)
- Financial instruments (including those carried at amortized cost) (note 23)

For assets and liabilities that are recognised in the financial statements on a recurring basis, the Company determines whether transfers have occurred between levels in the hierarchy by re- assessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

d. Property, Plant and Equipment

Property, plant and equipment (PPE) is stated at cost of acquisition or construction net of accumulated depreciation and impairment loss, if any. All significant costs relating to the acquisition and installation of PPE are capitalized. Subsequent costs/replacement costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. The carrying amount of the replaced part is derecognized. All other repairs and maintenance are charged to the Statement of profit and loss during the financial year in which they are incurred.

Gains or losses arising from derecognition of PPE are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognized in the Statement of Profit and Loss when the asset is derecognized.

Depreciation on PPE is calculated on a straight-line basis using the rates arrived at, based on the useful lives estimated by the management. The Company depreciates each part of an item of property, plant and equipment separately if cost of the part is significant in relation to the total cost of the item or principle asset and useful life is materially different from the principle asset.

The management has estimated the useful lives of certain classes of assets in order to reflect the actual usage of the assets. The useful lives have been determined based on technical evaluation done by the management's expert which are higher than those specified by Schedule II to the Companies Act, 2013, in order to reflect the actual usage of the assets. The residual values are not more than 5% of the original cost of the asset. The following useful lives are estimated by the management:

Asset category	Company's estimate of useful life (years)	Useful life as prescribed under Schedule II (years)
Plant and equipment *	1 to 10	9 to 15
Office equipment	1 to 3	5
Computers	2 to 3	3
Vehicles	3 to 6	8

* Includes site infrastructure which is fully depreciated.

The residual values, useful lives and methods of depreciation of PPE are reviewed on a regular basis and changes in estimates, when relevant, are accounted for on a prospective basis.

Impairment of assets

The Company assesses, at each reporting date, whether there is

an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the Company estimates the recoverable amount. Recoverable amount is the higher of Cash Generating Unit's (CGU) fair value less costs of disposal and its value in use. Recoverable amount is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or group of assets. When the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

For assets, an assessment is made at each reporting date to determine whether there is an indication that previously recognized impairment losses no longer exist or have decreased. If such indication exists, the Company estimates the assets or CGU's recoverable amount. A previously recognized impairment loss is reversed only if there has been change in the assumptions used to determine the assets recoverable amount since the last impairment loss was recognized. The reversal is limited so that the carrying amount of the asset does not exceed its recoverable amount, nor exceed the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognized for the asset in prior years. Such reversal is recognized in the Statement of profit or loss unless the asset is carried at a revalued amount, in which case, the reversal is treated as a revaluation increase, if applicable

e. Intangible assets

Intangible assets acquired separately are measured on initial recognition at cost. The cost of intangible assets acquired in a business combination is their fair value at the date of acquisition. Following initial recognition, intangible assets are carried at cost less any accumulated amortization and accumulated impairment losses.

Development costs for internally generated intangibles that are directly attributable to the design and testing of identifiable and unique intangible controlled by the Company are recognised as intangible assets where the following criteria are met:

- it is technically feasible to complete the intangible asset so that it will be available for use
- management intends to complete the intangible asset and use or sell it
- there is an ability to use or sell the intangible asset
- it can be demonstrated how the intangible asset will generate probable future economic benefits
- adequate technical, financial and other resources to complete the development and to use or sell the intangible asset are available, and
- the expenditure attributable to the intangible asset during its development can be reliably measured.

The cost may also include transfers from equity of any gains or losses on qualifying cash flow hedges of foreign currency purchases of intangible assets. Intangible assets with finite lives are amortized over the useful economic life and assessed for impairment whenever there is an indication that the intangible asset may be impaired. The amortization period and the amortization method for an intangible asset with a finite useful life are reviewed at least at the end of each reporting period. Changes in the expected useful life or the expected pattern of consumption of future economic benefits embodied in the asset are considered to modify the amortization period or method, as appropriate, and are treated as changes in accounting estimates.

Gains or losses arising from derecognition of an intangible asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognized in the Standalone Statement of Profit and Loss when the asset is derecognized.

Amortisation of the asset begins when development is complete and the asset is available for use. It is amortized on a straight-line basis over the period of expected future benefit from the related project, i.e., the estimated useful life subject to a maximum of ten years. amortisation is recognized in the Standalone Statement of Profit and Loss unless such expenditure forms part of carrying value of another asset. During the period of development, the asset is tested for impairment annually.

f. Revenue recognition

Revenue from Contracts with customers

Revenue from contracts with customers is recognized when control of the goods or services are transferred to the customer at an amount that reflects the consideration to which the Company expects to be entitled in exchange for those goods or services. Revenue is recognized when it has approval and commitment from both parties, the rights of the parties are identified, payment terms are identified, the contract has commercial substance and collectability of consideration is probable. The Company has concluded that it is the principal in all of its revenue arrangements since it is the primary obligor in all the revenue arrangements as it has pricing latitude and is also exposed to inventory and credit risks. The Company collects goods and services tax on behalf of the government and, therefore, it is not an economic benefit flowing to the Company. Hence, it is excluded from revenue.

The Company has following streams of revenue:

i. Revenue from Engineering, Procurement and Construction contracts

Engineering, Procurement and Construction contracts are contracts (or a group of contracts secured together) specifically negotiated for the construction of an asset which refers to any project for construction of plants and systems, involving designing, engineering, fabrication, supply, erection (or supervision thereof), commissioning, guaranteeing performance thereof etc., execution of which is spread over different accounting periods. The Company identifies distinct performance obligations in each contract. For most of the project contracts, the customer contracts with the Company to provide a significant service of integrating a complex set of tasks and components into a single project or capability. Hence, the entire contract is accounted for as one performance obligation.

The Company may promise to provide distinct goods or services within a contract, in which case the Company separates the contract into more than one performance obligation. If a contract is separated into more than one performance obligation, the Company allocates the total transaction price to each performance obligation in an amount based on the estimated relative standalone selling prices of the promised goods or services underlying each performance obligation. The Company uses the expected cost plus a margin approach to estimate the standalone selling price of each performance obligation in case of contracts with more than one distinct performance obligations.

The Company assesses for the timing of revenue recognition in case of each distinct performance obligation. The Company first assesses whether the revenue can be recognized over a period of time if any of the following criteria is met:

(a) The customer simultaneously consumes the benefits as the Company performs, or

(b) The customer controls the work-in-progress, or

(c) The Company's performance does not create an asset with alternative use to the Company and the Company has right to payment for performance completed till date

Notes to the financial statements for the year ended March 31, 2026
(All amounts are in Rupees Lakhs, except per share data and unless stated otherwise)

The Company uses cost-based measure of progress (or input method) for contracts because it best depicts the transfer of control to the customer which occurs as it incurs costs on contracts. Under the cost-based measure of progress, the extent of progress towards completion is measured based on the ratio of costs incurred to date to the total estimated costs at completion of the performance obligation. Revenues, including estimated profits, are recorded proportionally as costs are incurred.

The Company estimates variable consideration amount which it expects to be entitled under the contract and includes it in the transaction price to the extent it is highly probable that a significant reversal of cumulative revenue recognized will not occur and when the uncertainty associated with it is subsequently resolved. The estimates of variable consideration and determination of whether to include estimated amounts in the transaction price are based largely on an assessment of the anticipated performance and all information (historical, current and forecasted) that is reasonably available. Penalties/claims for any delay or improper execution of a contract are recognized as a deduction from revenue. In the balance sheet, such provisions are presented on net basis of the contract receivables.

Costs associated with bidding for contracts are charged to the Standalone Statement of Profit and Loss when they are incurred. Costs that relate directly to a contract and are incurred in securing the contract are included as part of the contract costs if they can be separately identified and measured reliably and it is probable that the contract will be obtained.

The Company provides for warranty provision for general repairs up to 12 – 24 months on its EPC contracts, in line with the industry practice. A liability is recognized at the time the contract is concluded. The Company does not provide any extended warranties.

Contract modification, when approved by both the parties to the contract, are considered as modification, if it creates new or changes the existing enforceable rights and obligations. Most of the contract modifications are not distinct from the existing contracts due to the significant integration service provided under the contract prior to modifications and are therefore, accounted for as part of the existing contract. The effect of a contract modification is recognized as an adjustment to revenue on a cumulative catch-up basis.

The Company combines two or more contracts entered into at or near the same time with the same customer (or related parties of the customer) and accounts for the contracts as a single contract if one or more of the following criteria are met:

(a) the contracts are negotiated as a package with a single commercial objective;

(b) the amount of consideration to be paid in one contract depends on the price or performance of the other contract; or

(c) the goods or services promised in the contracts (or some goods or services promised in each of the contracts) are a single performance obligation.

ii. Revenue from Sale of goods (Other than EPC contracts)

If the criteria for revenue under over-a-period of time as mentioned above are not met, the Company recognizes revenue at a point-in-time. The point-in-time is determined when the control of the goods or services is transferred which is determined based on when the significant risks and rewards of ownership are transferred to the customer. Apart from this, the Company also considers its present right to payment, the legal title to the goods, the physical possession and the customer acceptance in determining the point in time when control has been transferred. The Company provides for warranty provision for general repairs up to 12 - 24 months on its products sold, in line with the industry practice. A liability is recognized at the time the product is sold. The Company does not provide any extended warranties.

iii. Revenue from Sale of services

Revenue in respect of operation and maintenance contract, awarded on a standalone basis or included in long term contracts and identified as a separate performance obligation, is recognized as the related services are performed on a time proportion basis under the contracts.

Contract balances

Contract assets: A contract asset represents the Company's right to consideration in exchange for goods or services that the entity has transferred to a customer where that right is conditioned on something other than the passage of time. The impairment of contract assets is measured, presented and disclosed on the same basis as trade receivables.

Trade receivables: Trade receivables are amounts due from customers for goods sold or services performed in the ordinary course of business and reflect the Company's unconditional right to consideration (that is, payment is due only on the passage of time). Trade receivables are recognised initially at the transaction price as they do not contain significant financing components. The Company holds the trade receivables with the objective of collecting the contractual cash flows and therefore measures them subsequently at amortised cost using the effective interest method, less loss allowance.

For trade receivables and contract assets, the Company applies the simplified approach required by Ind AS 109, which requires expected lifetime losses to be recognised from initial recognition of the receivables.

Contract liabilities: A contract liability is the obligation to transfer goods or services to a customer for which the Company has received consideration (or an amount of consideration is due) from the customer. If a customer pays consideration before the Company transfers goods or services to the customer, a contract liability is recognised when the payment is made or the payment is due (whichever is earlier). Contract liabilities are recognised as revenue when the Company satisfies the performance obligation. Contract liabilities are recorded in balance sheet as unearned revenue or customer advances as the case may be.

Interest Income

For all debt instruments measured at amortized cost, interest income is recorded using the Effective Interest Rate (EIR). EIR is the rate that exactly discounts the estimated future cash payments or receipts over the expected life of the financial instrument or a shorter period, where appropriate, to the gross carrying amount of the financial asset or to the amortized cost of a financial liability. Interest income is included in other income in the Standalone Statement of Profit and Loss.

Dividend Income

Revenue is recognized when the Company's right to receive the payment is established by the reporting date.

Rental income

Rental income from operating leases (net of any incentives given to the lessee) is recognised on a straight-line basis over the lease term.

g. Financial instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

Financial Assets

The Company classifies its financial assets in the following measurement categories:

- those to be measured subsequently at fair value (either through other comprehensive income, or through profit or loss)
- those to be measured at amortised cost.

The classification depends on the entity's business model for managing the financial assets and the contractual terms of the cash flows.

For assets measured at fair value, gains and losses will either be recorded in profit or loss or other comprehensive income. For investments in equity instruments that are not held for trading, this will depend on whether the Company has made an irrevocable election at the time of initial recognition to present subsequent changes in fair value in other comprehensive income.

At initial recognition, the Company measures a financial asset (excluding trade receivables which do not contain a significant financing component) at its fair value plus, in the case of a financial asset not at fair value through profit or loss, transaction costs that are directly attributable to the acquisition of the financial asset. Transaction costs of financial assets carried at fair value through profit or loss are expensed in profit or loss.

Debt instruments

Subsequent measurement of debt instruments depends on the Company's business model for managing the asset and the cash flow characteristics of the asset. There are two measurement categories into which the Company classifies its instruments:

(i) Debt instruments at amortized cost

A 'debt instrument' is measured at the amortized cost if both the following conditions are met:

(a) The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows; and

(b) Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

After initial measurement, such financial assets are subsequently measured at amortized cost using the effective interest rate (EIR) method. Amortized cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of EIR. The EIR amortisation is included in income in the Standalone Statement of Profit and Loss. The losses arising from impairment are recognized in the Statement of Profit and Loss.

(ii) Debt instrument at fair value through profit or loss (FVTPL)

Assets that do not meet the criteria for amortised cost or FVOCI are measured at fair value through profit or loss. A gain or loss on a debt instrument that is subsequently measured at fair value through profit or loss is recognised in profit or loss and presented net within other gains/(losses) in the period in which it arises. Interest income from these financial assets is included in other income.

Equity investments:

All equity investments in scope of Ind AS 109 - "Financial Instruments", are subsequently measured at fair value. Equity instruments which are held for trading are classified as at FVTPL. For all other equity instruments, the Company may make an irrevocable election to present in other comprehensive income subsequent changes in the fair value. The Company makes such election on an instrument-by-instrument basis. The classification is made on initial recognition and is irrevocable.

Impairment of financial assets

Further disclosures relating to impairment of financial assets are provided in the following notes:

- Trade receivables and Contract assets - Refer note 4;
- Investments - Refer note 3;
- Loans and other financial assets - Refer note 5(b).

Financial liabilities

All financial liabilities are recognized initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs. The Company's financial liabilities include trade and other payables, loans and borrowings including bank overdrafts, financial guarantee contracts and derivative financial instruments.

Subsequent measurement of financial liabilities depends on their classification as fair value through profit and loss or at amortized cost.

All changes in fair value of financial liabilities classified as FVTPL is recognized in the Standalone Statement of Profit and Loss. Amortized cost category is applicable to loans and borrowings, trade and other payables. After initial recognition the financial liabilities are measured at amortized cost using the EIR method. Gains and losses are recognized in profit and loss when the liabilities are derecognized as well as through the EIR amortisation process. Amortized cost is calculated by taking into account any discount or premium on acquisition and fees or cost that are integral part on EIR. The EIR amortisation is included as finance cost in the Standalone Statement of Profit and Loss.

Derecognition

A financial liability is derecognized when the obligation under the liability is discharged or cancelled or expires when an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognized in the Standalone Statement of Profit and Loss.

Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the balance sheet if there is a currently enforceable legal right to offset the recognized amounts and there is an intention to settle on a net basis, to realize the assets and settle the liabilities simultaneously.

h. Cash and cash equivalents

Cash and cash equivalents in the balance sheet comprises cash at banks and on hand and short-term deposits with an original maturity of three months or less, which are subject to an insignificant risk of changes in value. For the purpose of presentation in the statement of cash flows, cash and cash equivalents consists of cash on hand, deposits held at call with financial institutions, other short-term, highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value, and bank overdrafts as they are considered an integral part of the Company's cash management. Bank overdrafts are shown within borrowings in current liabilities in the balance sheet.

i. Share capital

Equity shares issued to shareholders are classified as equity. Incremental costs directly attributable to the issue of new equity shares or stock options are recognized as a deduction from equity, net of any related income tax effects.

Notes to the financial statements for the year ended March 31, 2026
(All amounts are in Rupees Lakhs, except per share data and unless stated otherwise)

j. Income tax

Tax expense comprises of current tax expense and deferred tax.

Current tax

Current tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted, at the reporting date.

Current income tax relating to items recognized outside profit or loss is recognized either in OCI or in equity, in correlation to the underlying transaction.

Deferred tax

Deferred tax is provided using the liability method on temporary differences between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes at the reporting date. Deferred tax assets are recognised for all deductible temporary differences, the carry forward of unused tax credits and any unused tax losses. Deferred tax assets are recognised to the extent that it is probable that future taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilised. Deferred income tax is not accounted for if it arises from initial recognition of an asset or liability in a transaction other than a business combination that at the time of the transaction affects neither accounting profit nor taxable profit (tax loss) and does not give rise to equal taxable and deductible temporary differences.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient future taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets are re-assessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

Deferred tax relating to items recognised outside profit or loss is recognised outside profit or loss (either in OCI or in equity), in correlation to the underlying transaction.

Deferred tax assets and liabilities are offset where there is a legally enforceable right to offset current tax assets and liabilities and where the deferred tax balances relate to the same taxation authority. Current tax assets and tax liabilities are offset where the entity has a legally enforceable right to offset and intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously.

The Company applies significant judgement in identifying uncertainties over income tax treatments.

k. Borrowing costs

Borrowing costs include interest and amortization of ancillary costs in connection with the arrangement of borrowings. Borrowing costs attributable to the acquisition, construction of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalized as part of the cost of the respective asset. All other borrowing costs are expensed in the period they occur.

l. Leases

Company as a lessee

The Company lease asset classes primarily consist of leases for land, buildings and office equipment's. The Company assesses whether a contract contains a lease, at in caption of a contract. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Company assesses whether: (1) the contract involves the use of an identified asset (2) the Company has substantially all of the economic benefits from use of the asset through the period of the lease and (3) the Company has the right to direct the use of the asset.

At the date of commencement of the lease, the Company recognizes a right-of-use asset ("ROU") and a corresponding lease liability for all lease arrangements in which it is a lessee, except for leases with a term of twelve months or less (short-term leases) and low value leases. For these short-term and low value leases, the Company recognizes the lease payments as an operating expense on a straight-line basis over the term of the lease.

Certain lease arrangements include the options to extend or terminate the lease before the end of the lease term. ROU assets and lease liabilities includes these options when it is reasonably certain that they will be exercised.

The right-of-use assets are initially recognized at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or prior to the commencement date of the lease plus any initial direct costs less any lease incentives. They are subsequently measured at cost less accumulated depreciation and impairment losses.

The lease liability is initially measured at value of the future lease payments.

Lease liability and ROU asset have been separately presented in the Balance Sheet and lease payments have been classified as financing cash flows.

m. Impairment of assets

The Company assesses, at each reporting date, whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the Company estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's or Cash Generating Unit's (CGU) fair value less costs of disposal and its value in use. Recoverable amount is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets. When the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

Impairment losses are recognised in the Standalone Statement of Profit or Loss.

For assets, an assessment is made at each reporting date to determine whether there is an indication that previously recognised impairment losses no longer exist or have decreased. If such indication exists, the Company estimates the asset's or CGU's recoverable amount. A previously recognised impairment loss is reversed only if there has been a change in the assumptions used to determine the asset's recoverable amount since the last impairment loss was recognised. The reversal is limited so that the carrying amount of the asset does not exceed its recoverable amount, nor exceed the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognised for the asset in prior years. Such reversal is recognised in the Statement of Profit and Loss unless the asset is carried at a revalued amount, in which case, the reversal is treated as a revaluation increase, if applicable.

The Company assesses where climate risks could have a significant impact, such as the introduction of emission-reduction legislation that may increase manufacturing costs. These risks in relation to climate-related matters are included as key assumptions where

they materially impact the measure of recoverable amount. These assumptions have been included in the cash-flow forecasts in assessing value-in-use amounts.

n. Provisions

Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. When the Company expects some or all of a provision to be reimbursed, for example, under an insurance contract, the reimbursement is recognised as a separate asset, but only when the reimbursement is virtually certain.

If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost.

Warranty provisions

Provisions for warranty related costs are recognized when the product is sold or service provided to the customer. Initial recognition is based on historical experience. The estimate of warranty related costs is revised annually.

Provision for onerous contracts

Present obligations arising under onerous contracts are recognised, measured and disclosed as provisions in financial statements. An onerous contract is considered to exist where the Company has a contract under which the unavoidable costs of meeting the obligations under the contract exceed the economic benefits expected to be received from the contract.

Provision for litigation

Provision for litigation related obligations represents liabilities that are expected to materialise in respect of matters in appeal related to legal cases.

Decommissioning liability

The Company records a provision for decommissioning costs of its manufacturing facilities. Decommissioning costs are provided at the present value of expected costs to settle the obligation using estimated cash flows and are recognised as part of the cost of the particular asset. The unwinding of the discount is expensed as incurred and recognised in the Standalone Statement of Profit and Loss as a finance cost. The estimated future costs of decommissioning are reviewed annually and adjusted as appropriate. Changes in the estimated future costs or in the discount rate applied are added to or deducted from the cost of the asset.

o. Retirement and other employee benefits

Retirement benefit in the form of provident fund is a defined contribution scheme. The Company has no obligation, other than the contribution payable to the provident fund. The Company recognises contribution payable to the provident fund scheme as an expense when an employee renders the related service. If the contribution payable to the scheme for service received before the balance sheet date exceeds the contribution already paid, the deficit payable to the scheme is recognised as a liability after deducting the contribution already paid. If the contribution already paid exceeds the contribution due for services received before the balance sheet date, then excess is recognised as an asset to the extent that the pre-payment will lead to, for example, a reduction in future payment or a cash refund. The obligation of the Company is limited to the amount contributed and it has no further contractual nor any constructive obligation.

The Government of India has implemented four Labour Codes, viz., the Code on Wages, 2019, the Industrial Relations Code, 2020, the Code on Social Security, 2020, and the Occupational Safety, Health and Working Conditions Code, 2020, by consolidating 29 existing labour laws on 21 November 2025. The Ministry of Labour & Employment have published draft Central Rules and FAQs to enable assessment of the financial impact due to changes in the regulations. The Labour Codes have prescribed a uniform definition of "Wages" to be used for the purpose of calculating employee benefits like gratuity and extending eligibility to fixed-term employees ("FTEs"). Under the Labour Codes, the base on which employee benefits are calculated has increased, which has resulted in increase in the Company's liability for employee benefits.

The Company operates a defined benefit gratuity plan in India, which requires contributions to be made to a separately administered fund. The Company provides for gratuity, a defined benefit plan (the "Gratuity Plan") covering eligible employees in accordance with the Code on Social Security, 2020, in line with the notification of the Labour Codes with effect from 21 November 2025. The Gratuity Plan provides a lump sum payment to vested employees at retirement, death, incapacitation, or termination of employment, of an amount based on the respective employee's salary and the tenure of employment. The Company's liability is determined by an independent actuary (using the Projected Unit Credit method) at the end of each year. Any increase in gratuity liability arising due to implementation of Labour Codes in respect of past service cost is recognised immediately in the Standalone Statement of Profit and Loss, to the extent that the benefits are already vested, and is recognised over the vesting period in the Standalone Statement of Profit and Loss in respect of the unvested portion.

The Company makes annual contributions through trusts to a funded gratuity scheme administered by the Life Insurance Corporation of India (LIC).

Remeasurements, comprising of actuarial gains and losses, the effect of the asset ceiling, excluding amounts included in net interest on the net defined benefit liability and the return on plan assets (excluding amounts included in net interest on the net defined benefit liability), are recognised immediately in the balance sheet with a corresponding debit or credit to retained earnings through OCI in the period in which they occur. Remeasurements are not reclassified to the Statement of Profit and Loss in subsequent periods. Further also refer note 21.

Past service costs are recognised in the Standalone Statement of Profit and Loss on the earlier of:

(a) The date of the plan amendment or curtailment; and

(b) The date that the Company recognises related restructuring costs.

Net interest is calculated by applying the discount rate to the net defined benefit liability or asset. The Company recognises the following changes in the net defined benefit obligation as an expense in the Standalone Statement of Profit and Loss:

- Service costs comprising current service costs, past-service costs, gains and losses on curtailments and non-routine settlements; and
- Net interest expense or income.

Accumulated leave, which is expected to be utilised within the next 12 months, is treated as short-term employee benefit. The Company measures the expected cost of such absences as the additional amount that it expects to pay as a result of the unused entitlement that has accumulated at the reporting date. The Company presents the leave as a current liability in the balance sheet as it does not have an unconditional right to defer its settlement for 12 months after the reporting date.

p. Segment Reporting

Identification of segments

Notes to the financial statements for the year ended March 31, 2026
(All amounts are in Rupees Lakhs, except per share data and unless stated otherwise)

The entire operation is governed by the same set of risk and returns and hence considered as representing a single primary segment and not analysed separately. The analysis of geographical segments is based on the areas in which major operating divisions of the Company operate.

Segment accounting policies

The Company prepares its segment information in conformity with the accounting policies adopted for preparing and presenting the financial statements of the Company as a whole.

q. Contingent liability

A disclosure for a contingent liability is made where there is a possible obligation that arises from past events and the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company or a present obligation that arises from the past events where it is either not probable that an outflow of resources will be required to settle the obligation or a reliable estimate of the amount cannot be made.

r. Earnings Per Share (EPS)

The Company presents the basic and diluted EPS data for its equity shares.

(i) Basic EPS is computed by dividing the net profit for the year attributable to the equity shareholders of the Company by the weighted average number of equity shares outstanding during the year;

(ii) Diluted EPS is computed by adjusting the net profit for the year attributable to the equity shareholders and the weighted average number of equity shares considered for deriving basic EPS for the effects of all the equity shares that could have been issued upon conversion of all dilutive potential equity shares (which includes the various stock options granted to employees).

s. Dividends

Dividend to equity shareholders is recognized as a liability in the period in which the dividends are approved by the equity shareholders. Interim dividends that are declared by the Board of Directors without the need for equity shareholders' approvals are recognized as a liability and deducted from shareholders' equity in the year in which the dividends are declared by the Board of directors.

2.3. Climate related matters

The Company considers climate-related matters in estimates and assumptions, where appropriate. This assessment includes a wide range of possible impacts on the Company due to both physical and transition risks. Even though the Company believes its business model and products will still be viable after the transition to a low-carbon economy, climate-related matters increase the uncertainty in estimates and assumptions underpinning several items in the standalone financial statements. Even though climate-related risks might not currently have a significant impact on measurement, the Company is closely monitoring relevant changes and developments, such as new climate-related legislation.

2.4. Significant accounting judgments, estimates and assumptions

In the application of the Company's accounting policies and preparation of financial statements, the Management is required to make judgements, estimates and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods. Detailed information about each of these estimates and judgements is included in relevant notes together with information about the basis of calculation for each affected line item in the standalone financial statements.

2.4.1 Judgements

In the process of applying the Company's accounting policies, management has made the following judgments, which have the most significant effect on the amounts recognized in the financial statements:

The areas involving critical estimates or judgements are

(i) Property Plant and Equipment

The Company determines, based on technical assessment, the estimated useful lives of its property, plant and equipment and intangible assets for calculating depreciation and amortisation. This estimate is determined after considering the expected usage of the asset or physical wear and tear. Management reviews the useful lives periodically and future depreciation and amortisation charge would be adjusted where the management believes the useful lives differ from previous estimates.

Impairment exists when the carrying value of an asset or cash generating unit (CGU) exceeds its recoverable amount, which is the higher of its fair value less costs of disposal and its value in use. The fair value less costs of disposal calculation is based on available data from binding sales transactions, conducted at arm's length, for similar assets or observable market prices less incremental costs for disposing of the asset. The value in use calculation is based on a Discounted Cash Flow (DCF) model. The cash flows are derived from the budget for the next five years as approved by the Management and do not include restructuring activities that the Group is not yet committed to or significant future investments that will enhance the asset's performance of the CGU being tested. The recoverable amount is sensitive to the discount rate used for the DCF model as well as the expected future cash-inflows and the terminal growth rate used.

(ii) Impairment of Financial Asset and Contract Liability

The impairment provisions for financial assets are based on assumptions about risk of default, expected loss rates and timing of cash flows. The Company uses judgment in making these assumptions and selecting the inputs to the impairment calculation, based on the Company's past history, existing market conditions as well as forward looking estimates at the end of each reporting period.

As a practical expedient, the Company uses a provision matrix to determine ECL impairment allowance on portfolio of its trade receivables and contract assets. The provision matrix is based on its historically observed default rates over the expected life of the trade receivables and is adjusted for forward-looking estimates. At every reporting date, the historical observed default rates are updated and changes in the forward-looking estimates are analysed. The Company follows provisioning norms based on ageing of receivables to estimate the impairment allowance under ECL.

(iii) Provisions

- **Provision for onerous contracts:** The Company provides for onerous contracts when a present obligation arises as the unavoidable costs of meeting an obligations under a contract exceed the economic benefits expected to be received from that contract. Estimating these future losses involves a number of assumptions about the achievement of contract performance targets and the likely levels of future cost including escalation over time.

- **Warranty provision:** The Company generally offers warranty for its various products. Warranty costs are provided based on a technical estimate of the costs required to be incurred

for repairs, replacements, material costs, servicing cost and past experience in respect of warranty costs. Management estimates the related provision for future warranty claims based on historical warranty claim information, as well as recent trends that might suggest that past cost information may differ from future claims. The assumptions made in current period are consistent with those in the prior year. Factors that could impact the estimated claim information include the success of the Company's productivity and quality initiatives. Warranty provisions are discounted using a pre-tax discount rate which reflects current market assessments of time value of money and risks specific to the liability.

Warranty costs are provided based on a technical estimate of the costs required to be incurred for repairs, replacements, material costs, servicing cost and past experience in respect of such costs. It is expected that this expenditure will be incurred over the contracted warranty period ranging up to 2 years

- **Defined benefit plan - Gratuity:** The cost of the defined benefit gratuity plan and the present value of the gratuity obligation are determined using actuarial valuations. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases and mortality rates. Due to the complexities involved in the valuation and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date. The parameter which is most subjected to change is the discount rate. In determining the appropriate discount rate for plans operated in India, the management considers the interest rates of government bonds in currencies consistent with the currencies of the post-employment benefit obligation. Further, another important parameter is salary considered while assessing the definition of "wages" as given in The Code on Social Security, 2020. The mortality rate is based on Indian Assured Lives Mortality (2012-14) Ultimate. Those mortality tables tend to change only at interval in response to demographic changes. Future salary increases and gratuity increases are based on expected future inflation rates.

(iv) Revenue from Operations

- **Provisions for liquidated damages claims (LDs):** The Company provides for LD claims to the extent that it is highly probable that a significant reversal in the amount of cumulative revenue recognised will not occur when the uncertainty associated with the variable consideration is subsequently resolved. This requires an estimate of the amount of LDs payable under a claim which involves management judgements and assumptions regarding the amounts to be recognised;

- **Project cost to complete estimates:** At each reporting date, the Company is required to estimate costs to complete on fixed-price contracts. Estimating costs to complete on such contracts requires the Company to make estimates of future costs to be incurred, based on work to be performed beyond the reporting date.

- **Recognition of contract variations:** The Company recognises revenues and margins from contract variations where it is considered probable that they will be awarded by the customer and this requires management to assess the likelihood of such an award being made by reference to customer communications and other forms of documentary evidence.

Judgements

A significant portion of the Company's business relates to EPC contracts which is accounted using cost-based input method, recognizing revenue as the performance on the contract progresses. This requires management to make judgement with respect to identifying contracts for which revenue need to be recognised over a period of time, depending upon when the customer consumes the benefit, whether the customer controls the work-in-progress, whether the asset created has no alternative use and the Company has right to payment for performance completed till date, either contractually or legally. The input method requires management to make significant judgements of the extent of progress towards completion including accounting of multiple contracts which need to be combined and considered as a single contract.

(v) Contingent Liabilities

The Company has received various orders and notices from tax authorities in respect of direct taxes, indirect taxes, transfer pricing and other legal matters. The outcome of these matters may have a material effect on the financial position, results of operations or cash flows. Management regularly analyses current information about these matters and makes provisions for probable losses. In making the decision regarding the need for loss provisions, management considers the degree of probability of an unfavourable outcome and the ability to make a sufficiently reliable estimate of the amount of loss. The filing of a suit or formal assertion of a claim against the company or the disclosure of any such suit or assertions, does not automatically indicate that a provision of a loss may be appropriate.

(vi) Impairment of Investments in Subsidiaries

The Company performs impairment assessment of investments by making an estimate of the recoverable amount, being the higher of fair value less costs to sell and its value in use which is then compared with the carrying value. An impairment loss is recognised in the Standalone Statement of Profit and Loss to the extent the carrying value of an asset exceeds the recoverable amount. The value in use of these investments is determined using discounted cash flow model (DCF model) requiring various assumptions and judgements. These include future cashflows and growth rate assumptions, discount rate, terminal growth rate and other economic and entity specific factors which are incorporated in the DCF model. The estimated cash flows are developed using internal forecasts.

(vii) Fair Value Measurement

Fair value measurement of unquoted financial instruments

When the fair values of financial assets and financial liabilities recorded in the balance sheet cannot be measured based on quoted prices in active markets, their fair value is measured using valuation techniques including the DCF model. The inputs to these models are taken from observable markets where possible, but where this is not feasible, a degree of assumption is required in establishing fair values. Assumptions include considerations of inputs such as liquidity risk, credit risk and volatility. Changes in assumptions about these factors could affect the reported fair value of financial instruments.

The fair value of financial instruments that are not traded in an active market is determined using valuation techniques. The Company uses its judgement to select a variety of methods and makes assumptions that are mainly based on market conditions existing at the end of each reporting period.

(viii) Deferred tax Assets

At each balance sheet date, the Company assesses whether the realization of future tax benefits is sufficiently probable to recognize deferred tax assets. This assessment requires the use of significant estimates with respect to assessment of future taxable income. The recorded amount of total deferred tax assets could change if estimates of projected future taxable income or if changes in current tax regulations are enacted.

Notes to the financial statements for the year ended March 31, 2026

(All amounts are in Rupees Lakhs, except per share data and unless stated otherwise)

3 Investements

Particulars	As at March 31, 2026	As at March 31, 2025
Investments at Fair value through Profit and Loss:		
Investments in Mutual Funds (quoted)	224.91	-
	224.91	**-**
Aggregate amount of quoted investments and its market value thereof	224.91	-

4 Trade receivables

Particulars	As at March 31, 2026	As at March 31, 2025
At amortised cost		
Receivables from related parties (refer note 22)	318.09	204.01
Others	55.37	55.67
Total receivables	**373.46**	**259.68**
Break-up of security details		
Unsecured, considered good	373.46	259.68
	373.46	**259.68**
Less: Impairment allowance*	(55.62)	(55.62)
Total	**317.84**	**204.06**

No trade or other receivable are due from directors or other officers of the Company either severally or jointly with any other person. None of the trade receivable are due from firms or private companies respectively in which any director is a partner, a director or a member. Trade receivables are non-interest bearing and are generally on terms of 30 to 90 days.

*Includes provision amounting to Rs.Nil (March 31, 2025 : Rs.Nil) for Trade receivables which have a significant increase in credit risk.

For terms and conditions relating to related party receivables, refer note 22.

The aging of current trade receivables which are due for receipt :

Particulars	Not Due	Outstanding for the following period from due date of payments					Total
		Less than 6 months	6 months - 1 year	1-2 years	2-3 years	More than 3 years	
Trade receivables as at March 31, 2026							
(i) Undisputed - considered good	37.06	59.75	112.07	108.69	-	55.90	**373.46**
(ii) Undisputed - which have significant increase in credit risk	-	-	-	-	-	-	**-**
(iii) Undisputed - credit impaired	-	-	-	-	-	-	**-**
(iv) Disputed - considered good	-	-	-	-	-	-	**-**
(v) Disputed - which have significant increase in credit risk	-	-	-	-	-	-	**-**
(vi) Disputed - credit impaired	-	-	-	-	-	-	**-**
Less: Impairement Allowance	-	-	-	-	-	55.62	**55.62**
Total	**37.06**	**59.75**	**112.07**	**108.69**	**-**	**55.90**	**317.84**

Particulars	Not Due	Outstanding for the following period from due date of payments					Total
		Less than 6 months	6 months - 1 year	1-2 years	2-3 years	More than 3 years	
Trade receivables as at March 31, 2025							
(i) Undisputed - considered good	-	98.77	105.02	-	-	55.90	**259.68**
(ii) Undisputed - which have significant increase in credit risk	-	-	-	-	-	-	**-**
(iii) Undisputed - credit impaired	-	-	-	-	-	-	**-**
(iv) Disputed - considered good	-	-	-	-	-	-	**-**
(v) Disputed - which have significant increase in credit risk	-	-	-	-	-	-	**-**

Total	**-**	**98.77**	**105.02**	**-**	**-**	**55.90**	**204.06**

The above ageing includes retention receivables which are classified as due or not due on the basis of the contractual terms with respective customers.

4(a) The following table summarises the change in provision for impairment allowance measured using the life time expected credit loss model:

	Provision for trade receivables	
	Year Ended March 31, 2026	Year Ended March 31, 2025
At the beginning of the year	55.62	47.56
Provision made during the year	-	8.06
Utilized/reversed during the year	-	-
At the end of the year	**55.62**	**55.62**

5 Other financial assets

(a) Other non current financial assets

Particulars	As at March 31, 2026	As at March 31, 2025
At amortised cost		
Bank deposits with maturity of more than 12 months	-	97.44
Total	**-**	**97.44**

(b) Other current financial assets

Particulars	As at March 31, 2026	As at March 31, 2025
Bank deposits with maturity of less than 12 months*	291.26	50.00
Total	**291.26**	**50.00**

*Fixed deposit amount of Rs. 186.02 has been marked as lien in ICICI Bank.

Notes to the financial statements for the year ended March 31, 2026

(All amounts are in Rupees Lakhs, except per share data and unless stated otherwise)

6 (a) Income Taxes

The major components of income tax expense for the year ended March 31, 2026 and March 31, 2025 are:

Statement of profit and loss

Particulars	As at March 31, 2026	As at March 31, 2025
Current Income tax charge	**-**	**-**
Current Income tax	-	-
Income tax expense reported in the Statement of profit and loss	**-**	**-**

Other comprehensive income

Particulars	As at March 31, 2026	As at March 31, 2025
Deferred tax related to items recognised in OCI during the year	-	-
Net gain or loss on remeasurements of defined benefit plans	-	-
Income tax charged/(credited) to OCI	**-**	**-**

Reconciliation of tax expense and accounting profit multiplied by India's domestic tax rate for March 31, 2026 and March 31, 2025

Particulars	As at March 31, 2026	As at March 31, 2025
Accounting profit before tax	21.48	(18.42)
At India's statutory income tax rate of 25.17% (March 31, 2025 : 25.17%)	5.41	(4.64)
Effects of non-deductible business expenses	-	2.03
Donation	1.60	2.31
Other differences - Difference between book base and tax base for various items	(7.00)	0.30
At the effective tax rate of Nil % (March 31, 2025: Nil%)	**0.00**	**(0.00)**
Income tax expense reported in the statement of profit or loss	**-**	**-**

6 (b) Deferred tax

Details of deferred tax assets which has not been recognised in book of accounts :

Particulars	As at March 31, 2026	As at March 31, 2025
Deferred tax asset on		
Statutory dues deductible on payment under section 43B of Income-tax Act, 1961	1.30	5.23
Provision for doubtful debts, liquidated damages and other provisions	14.00	14.00
Difference in written down values of PPE	25.73	25.73
Total	**41.03**	**44.96**

As per Ind As 12, the entity recognises deferred tax assets only when it is probabale that the taxable profits will be available against which the deducible temporary difference can be utilised. However in the current scenario, as the company does not expect to have sufficient future taxable profits, deferred tax asset has not been recognised in book of accounts.

7 Other assets

(a) Other non current assets

Particulars	As at March 31, 2026	As at March 31, 2025
Unsecured considered good		
Balances with government authorities	603.16	606.09
Total	**603.16**	**606.09**

(b) Other current assets

Particulars	As at March 31, 2026	As at March 31, 2025
Unsecured considered good		
Advances to suppliers	-	-
Advances to staff and workers	8.45	17.74
Prepaid employee benefits (note 21)	4.34	14.33
Total	**12.79**	**32.07**

There were no advances due by directors or other officers of the Company or any of them severally or jointly with any other persons or amounts due by firms or private companies respectively in which any director is a partner or a member.

8 (a) Cash and cash equivalents

Particulars	As at March 31, 2026	As at March 31, 2025
At amortised cost		
Cash and cash equivalents		
Balances with banks		
- on current accounts	10.05	49.90
- in deposits with original maturity of less than three months	-	250.00
Total	**10.05**	**299.90**

8 (b) Other bank balances

Particulars	As at March 31, 2026	As at March 31, 2025
Deposits with original maturity:		
more than three months but less than twelve months*	-	175.20
Interest Accrues on fixed deposit	-	3.29
Total	**-**	**178.49**

*(March 31, 2025- Fixed deposit amount of Rs. 175.20 has been marked as lien in ICICI Bank)

9A Share capital

Particulars	As at March 31, 2026	As at March 31, 2025
Authorized shares (Nos)		
10,000,000 (March 31, 2025: 10,000,000) equity shares of Rs. 10/- each	1,000.00	1,000.00
	1,000.00	**1,000.00**
Issued, subscribed and fully paid share capital (Nos)		
4,500,000 (March 31, 2025: 4,500,000) equity shares of Rs. 10/- each	450.00	450.00
Total issued, subscribed and fully paid-up share capital	**450.00**	**450.00**

Notes to the financial statements for the year ended March 31, 2026

(All amounts are in Rupees Lakhs, except per share data and unless stated otherwise)

(a) Reconciliation of the shares outstanding at the beginning and at the end of the year

	No. of Shares
Equity share of Rs. 10 each issued, subscribed and fully paid	
As at April 1, 2024	4,500,000
Changes during the period	-
As at March 31, 2025	4,500,000
Changes during the period	-
As at March 31, 2026	**4,500,000**

(b) Terms/ rights attached to equity shares

The Company has one class of equity shares having a par value of Rs. 10 per share. Each shareholder is eligible for one vote per share held. The dividend proposed by the Board of Directors is subject to the approval of the shareholders in the ensuing Annual General Meeting, except in case of interim dividend. In the event of liquidation, the equity shareholders are eligible to receive the remaining assets of the Company after distribution of all preferential amounts, in proportion to their shareholding.

(c) Equity shares held by holding company

Particulars	As at March 31, 2026	As at March 31, 2025
Thermax Limited		
4,500,000 (March 31, 2025: 4,500,000) equity shares of Rs. 10/- each fully paid	450.00	450.00

(d) Details of equity shares held by shareholders holding more than 5% of the aggregate shares in the Company

	Thermax limited
As at March 31, 2026	
%	100.00
No. of shares	4,500,000
As at March 31, 2025	
%	100.00
No. of shares	4,500,000

As per records of the Company, including its register of shareholders/ members and other declarations received from shareholders regarding beneficial interest, the above shareholding represents the legal ownerships of shares.

(e) Details of shares held by promoters

Particulars	As at March 31, 2026	As at March 31, 2025
Thermax Limited		
%	100.00	100.00
No. of Shares	4,500,000	4,500,000
% of change during the year	-	-

9B Other equity

Particulars	As at March 31, 2026	As at March 31, 2025
Reserves and surplus		
General reserve	525.21	525.21
Retained earnings		
Opening balance	524.25	555.98
Add: (Loss)/Profit for the year	21.48	(18.42)
Items of other comprehensive income recognised directly in retained earnings:		
	(21.55)	(13.31)
Net surplus in the statement of profit and loss	**524.18**	**524.25**
Total	**1,049.39**	**1,049.46**

Nature and purpose of reserves

General reserve

These are in nature of those retained earnings which are kept aside out of Company's profits. These are free reserves available for distribution of dividend.

10 Investment in Subsidiary

	Face value	As at March 31, 2026	As at March 31, 2025
Investments in equity instruments at cost (Fully paid)			
Thermax Engineering Construction Company, FZE			
Number of Shares: 1000 shares	USD 1	0.76	0.76
Total value of Investment		**0.76**	**0.76**

The Company has formed a subsidiary in Nigeria for the management and supervision of the installation, commissioning and testing of boilers and heaters, in respect of the petroleum refinery and polypropylene plant for Dangote group, being constructed in Lekki Free Trade Zone, Nigeria (LFTZ).

11 Trade payables

Weighted average number of equity shares of Rs. 10/- each	45.00	45.00
Basic & Diluted Earnings per share (In Rupees)	0.48	(0.41)

20 Contingent Liabilities and commitments

A Contingent liabilities

i) Disputed demands in respect of Excise, Customs Duty and Service tax Rs. Nil (March 31, 2025 Rs Nil)

ii) Disputed demands in respect of Sales tax(VAT Chhatisgarh) Rs. Nil (March 31, 2025 Rs Nil)

iii) Disputed demands in respect of GST 48.69 (March 31, 2025 Rs 48.69)

iv) The Company has issued various guarantees for performance, deposits, tender money, advances,etc to customers. The management has considered the probability for outflow of the same to be remote and accordingly no amount has been disclosed here.

B Capital and other commitment

a) On the basis of credit comfort of the Company, ICICI bank has issued bank guarantees of USD 153,489.96 (March 31, 2025 USD 153,489.96) in favour of customers of TEC FZE.

b) **Operating lease : Company as lessee**

The Company has taken certain office premises on cancellable operating lease. The tenure of such leases is for a period of one year or less. Lease rentals are charged to the Statement of Profit and Loss for the year. There are no sub-leases. The leases are renewable on mutually agreeable terms. At the expiry of the lease term, the Company has an option to terminate the agreement or extend the term by giving notice in writing. Since the contracts are short term leases, the entity has elected to apply the exemption available to short term leases under Ind AS 116 and has recognised the lease payments associated with these leases as an expense.

Future minimum lease rental payables under non-cancellable operating leases are as follows:

Particulars	Year Ended March 31, 2026	Year Ended March 31, 2025
Lease payments for the year	0.97	0.95

21 A. Gratuity

The Company operates a defined benefit plan viz. gratuity for its employees. Under the gratuity plan, every employee who has completed specified years of service gets a gratuity on departure @ 15 days (minimum) of the last drawn salary for each completed year of service. The scheme is funded with an insurance Company in the form of qualifying insurance policy. The fund has formed a trust and it is governed by the Board of Trustees.

The fund is subject to risks such as asset volatility, changes in asset yields and asset liability mismatch risk. In managing the plan assets, Board of Trustees reviews and manages these risks associated with the funded plan. Each year, the Board of Trustees reviews the level of funding in the gratuity plan. Such a review includes asset-liability matching strategy and investment risk management policy (which includes contributing to plans that invest in risk-averse markets). The Board of Trustees aim to keep annual contributions relatively stable at a level such that no plan deficits (based on valuation performed) will arise.

I Changes in the net benefit obligation and fair value of plan assets are as follows :

Particulars	Present value of obligation	Fair value of plan assets	Net amount
April 1, 2024	**25.12**	**37.91**	**(12.79)**
Current service cost	2.48		2.48
Interest expense/(income)	1.68	10.75	(9.07)
Total amount recognised in Statement of Profit and Loss	**4.16**	**10.75**	**(6.59)**
Actuarial loss from change in financial assumptions	1.78	(3.83)	5.61
Amount not recognised due to asset ceiling		(7.70)	7.70
Total amount recognised in Other comprehensive income	**1.78**	**(11.53)**	**13.31**
Transfer In/(Out)	(4.13)	4.13	(8.26)
March 31, 2025	**26.93**	**41.26**	**(14.33)**

Particulars	Present value of obligation	Fair value of plan assets	Net amount
April 1, 2025	**26.93**	**41.26**	**(14.33)**
Current service cost	1.72	-	1.72
Past service cost	0.06	-	0.06
Interest expense/(income)	0.28	10.37	(10.09)
Total amount recognised in Statement of Profit and Loss	**2.07**	**10.37**	**(8.31)**
Actuarial loss from change in financial assumptions	6.12	29.57	(23.45)
Amount not recognised due to asset ceiling	-	(45.00)	45.00
Total amount recognised in Other comprehensive income	**6.12**	**(15.43)**	**21.55**
Employer contributions	-	(15.06)	15.06
Benefits paid	(18.33)	-	(18.33)
Transfer In/(Out)	(13.49)	(13.49)	-
March 31, 2026	**3.29**	**7.65**	**(4.35)**

II The net liability disclosed above relates to funded plans are as follows :

Particulars	Year Ended March 31, 2026	Year Ended March 31, 2025
Present value of funded obligation	3.29	26.93
Fair value of plan assets	7.65	41.26
Plan (assets)	**(4.35)**	**(14.33)**

III Significant estimates

The significant actuarial assumptions were as follows :

Particulars	Year Ended March 31, 2026	Year Ended March 31, 2025
Discount rate	7.20%	6.60%
Salary growth rate	7.00%	7.00%
Expected return on plan assets	6.60%	7.20%
Normal retirement age	60 years	60 years
Mortality table	Indian Assured Lives Mortality (2012-14) Ultimate	Indian Assured Lives Mortality (2012-14) Ultimate
Employee turnover	12%	12%

IV Sensitivity analysis

The sensitivity of defined obligation to changes in the weighted principal assumptions is:

Assumption	Impact on defined benefit obligation	
	Year Ended March 31, 2026	Year Ended March 31, 2025
Discount rate		
1.00% increase	Decrease by 0.2	Decrease by 22.67
1.00% decrease	Increase by 0.23	Increase by 24.7
Future salary increase		
1.00% increase	Increase by 0.2	Increase by 24.42
1.00% decrease	Decrease by 0.18	Decrease by 22.91
Attrition Rate		
1.00% increase	Decrease by 0	Decrease by 0.02
1.00% decrease	Increase by 0	Increase by 23.66

"The above sensitivity analysis is based on a change in assumption while holding all other assumptions constant. In practice, this is unlikely to occur and changes in some of the assumptions may be correlated. When calculating the sensitivity of the defined benefit obligation to significant actuarial assumptions the same method (present value of defined benefit obligation calculated with the Projected Unit Credit Method at the end of the reporting period) has been applied as when calculating the defined benefit liability recognised in the balance sheet. The method and types of assumptions used in preparing the sensitivity analysis did not change compared to the prior period.

The method and types of assumptions used in preparing the sensitivity analysis did not change compared to the prior period.

Particulars	Year Ended March 31, 2026	Year Ended March 31, 2025
Within next 12 months	0.26	3.40
Between 2-5 years	2.02	22.81
Between 5-10 years	3.96	9.21

The average duration of the defined benefit plan obligation at the end of the reporting period is 10.33 years (March 31, 2025 : 5.79 Years)

V The major categories of plan assets are as follows:

Particulars	Year Ended March 31, 2026	Year Ended March 31, 2025
Investments with Insurer (LIC of India)	100.00%	100.00%

G Commitments

On the basis of credit comfort of the Company, ICICI bank has issued bank guarantees of USD 153,489.96 (March 31, 2025 USD 153,489.96) in favour of customers of TEC FZE.

H Terms and conditions for outstanding balances

All outstanding balances are unsecured and repayable in cash.

I Terms and conditions of related party transactions

The transactions with related parties are made on terms equivalent to those that prevail in arm's length transactions. Outstanding balances at the year-end are unsecured and interest free and settlement occurs in cash.

There have been no guarantees provided or received for any related party receivables or payables (except as disclosed above). For the year ended March 31, 2026, the Group has not recorded any impairment of receivables relating to amounts owed by related parties (March 31, 2025 : Rs Nil). This assessment is undertaken each financial year through examining the financial position of the related party and the market in which the related party operates.

23 Fair value measurements

a) Category of financial instruments and valuation techniques

Break-up of financial assets carried at amortised cost

Particulars	As at March 31, 2026	As at March 31, 2025
Trade receivables (refer note 4)	317.84	204.06
Other financial assets (refer note 5(b))	291.26	147.44
Cash and cash equivalents (refer note 8(a))	10.05	299.90
Bank balances other than cash and cash equivalents (refer note 8(b))	-	178.49
Total	**619.15**	**829.89**
Current assets	619.15	732.45
Non-current assets (refer note 5(a))	-	97.44
Total	**619.15**	**829.89**

The management has assessed that the carrying amounts of the above financial instruments approximate their fair values.

Break up of financial liabilities carried at amortised cost

Particulars	As at March 31, 2026	As at March 31, 2025
Trade payable (refer note 11)	34.73	38.22
Employee related payables (refer note 12)	1.60	1.11
Total	**36.33**	**39.33**
Current liabilities	36.33	39.33
Total	**36.33**	**39.33**

Notes to the financial statements for the year ended March 31, 2026

(All amounts are in Rupees Lakhs, except per share data and unless stated otherwise)

The management has assessed that the carrying amounts of the above financial instruments approximate their fair values.

24 Financial risk management

The Company's principal financial liabilities, comprise trade and other payables. The main purpose of these financial liabilities is to finance the Company's operations. The Company's principal financial assets include loans, trade and other receivables and cash and cash equivalents that it derives directly from its operations.

The Company is exposed to credit risk and liquidity risk. The company follows guidance given by the Corporate Risk Management Policy of the group. The risks are summarized below:

I Credit risk

Credit risk is the risk that counterparty will not meet its obligations under a financial instrument or customer contract, leading to a financial loss. The Company is exposed to credit risk from its operating activities (primarily trade receivables) and from its financing activities, including deposits with banks and financial institutions, foreign exchange transactions and other financial instruments.

Trade receivables

Customer credit risk is managed by the Company's established policy, procedures and control relating to customer credit risk management. Credit quality of a customer is assessed based on individual credit limits and risk of potential default based on defined credit risk parameters.

An impairment analysis is performed at each reporting date on an individual basis for major clients. In addition, a large number of minor receivables are grouped into homogenous group and assessed for impairment collectively. The calculation is based on historical data of losses. The maximum exposure to credit risk at the reporting date is the carrying value of each class of financial assets disclosed in note 4. The Company evaluates the concentration of risk with respect to trade receivables as low, as its customers are located in several jurisdictions and industries and operate in largely independent markets.

Financial instruments and bank deposits

Credit risk from balances with banks and financial institutions is managed by the group treasury department in accordance with the Thermax group policy. Investments of surplus funds are made only with approved counterparties and within credit limits assigned to each counterparty. The limits are set to minimise the concentration of risks and therefore mitigate financial loss through counterparty's potential failure to make payments.

II Liquidity risk

Prudent liquidity risk management implies maintaining sufficient cash and marketable securities and the availability of funding through an adequate amount of committed credit facilities to meet obligations when due and to close out market positions. Due to the dynamic nature of the underlying businesses, company maintains flexibility in funding by maintaining availability under committed credit lines.

Management monitors rolling forecasts of the company's liquidity position (comprising the undrawn borrowing facilities below) and cash and cash equivalents on the basis of expected cash flows. This is generally carried out at operating segments level in the Company in accordance with practice and limits set by the Company. In addition, the company's liquidity management policy involves projecting future cash flows and considering the level of liquid assets necessary to meet these and monitoring balance sheet liquidity ratios against internal requirements.

(i) Maturities of financial liabilities

The tables below summarises the company's financial liabilities into relevant maturity profile based on contractual undiscounted payments :

Year Ended March 31, 2026	< 1 year	1 to 3 years	> 3 years
Non- derivative			
Trade Payables	34.73	-	-
Other financial liabilities			
Employee related payables	1.60	-	-
Year Ended March 31, 2025	**< 1 year**	**1 to 3 years**	**> 3 years**
Non- derivative			
Trade Payables	38.22	-	-
Other financial liabilities			
Employee related payables	1.11	-	-

25 Key Financial Ratios

Particulars	Numerator	Denominator	March 31, 2026	March 31, 2025	Change	Reason for Variance
Return on equity ratio	Net Profits after taxes	Average Shareholder's Equity	1.43%	-1.22%	217.84%	Increase in income resulted in decrease in ratio
Debtors turnover ratio	Net credit sales = Gross credit sales - sales return	Average Trade Receivable	0.00	0.00	0.00%	
Net working capital turnover ratio	Net sales = Total sales - sales return	Working capital = Current assets – Current liabilities	0.00	0.00	0.00%	
Net Profit ratio	Net Profit	Net sales = Total sales - sales return	0.00%	0.00%	0.00%	
Return on capital employed	Earnings before interest and taxes	Capital Employed = Net Worth	1.43%	-1.23%	-216.61%	Increase in income resulted in decrease in ratio
Return on investment	Interest (Finance Income)	Average Investment	5.13%	6.74%	-23.83%	Reduced rate of interest resulted in decreased return
Current Ratio	Current Assets	Current Liabilities	22.46	16.07	39.72%	Increase in Cash & Cash equivalent balances resulted in increase in ratio
Trade payables turnover ratio	Net credit purchases = Gross credit purchases - purchase return	Average Trade Payables	0.51	1.17	-56.48%	Increase in AP balances resulted in decrease in ratio
Debt-Equity Ratio	Total Debt	Shareholder's Equity	N.A.	N.A.	0.00%	
Debt service coverage ratio	Earnings for debt service = Net profit after taxes + Non-cash operating expenses	Debt service = Interest + short term borrowings	N.A.	N.A.	0.00%	
Inventory turnover ratio	Cost of goods sold	Average Inventory	N.A.	N.A.	0.00%	

Notes to the financial statements for the year ended March 31, 2026
(All amounts are in Rupees Lakhs, except per share data and unless stated otherwise)

26 Struck off companies

There is no transactions and balances with struk off companies for year ended March 31, 2026 & March 31, 2025.

27 Capital Management

The Company's objective for capital management is to maximise shareholder value, safeguard business continuity and support the growth of the Company. The Company determines the capital requirement based on annual operating plans and long- term and other strategic investment plans. The funding requirements are met through equity and operating cash flows generated. No changes were made in the objectives, policies or processes during the years ended March 31, 2026 and March 31, 2025. Capital represents equity attributable to equity holders of the Parent Company.

Particulars	Year Ended March 31, 2026	Year Ended March 31, 2025
Trade payables	34.73	38.22
Less: Cash and cash equivalents	(10.05)	(299.90)
Equity	**1,499.39**	**1,499.46**
Capital and net debt	**1,499.39**	**1,499.46**

28 During the year, the Company has stopped accepting new orders as the management is in discussion with the holding company to evaluate future business opportunities and prospects.As at the reporting date, the Company has sufficient cash balances to meet its obligation and honour the commitments. Management is confident of recovering asset balances (including balances with government authorities) with the alternative plans available and hence, financial statements have been prepared on a going concern basis.

29 As the consolidated financial statements are presented by the entity's holding Company, the entity has elected to apply the exemption available to it under Ind AS 110 and has opted to present only one set of standalone financial statements.

30 (a) Compliance with section 143(3) for maintenance of books of account

The Company is required to maintain the books of account which are accessible in India at all times and their backup is to be kept on servers located in India on a daily basis. The Company has a process to take daily back-up of books of account maintained in electronic mode and along with the logs of the back-up of such books of account. The Company has complied with the provision of section 143(3) of the act for maintenance of books of account.

30 (b) The Company has used accounting software for maintaining its books of account which has a feature of recording audit trail (edit log) facility and the same has operated throughout the year for all relevant transactions recorded in the software, except that audit trail feature is not enabled for direct changes to data for users with certain privileged access rights to the Infor Baan application. Further no instance of audit trail feature being tampered with was noted in respect of other software. Additionally, the audit trail of prior years has been preserved by the Company as per the statutory requirements for record retention to the extent it was enabled and recorded in the respective years.

31 Other statutory information

(i) The Company does not have any Benami property, where any proceeding has been initiated or pending against the Company for holding any Benami property; under the Prohibition of Benami Property Transactions Act, 1988 (as amended from time to time) (formally the Benami Transaction (Prohibition) Act, 1988 (45 of 1988)) and Rules made there under.

(ii) The Company does not have any charges or satisfaction which are yet to be registered with Registrar of Companies (ROC) beyond the statutory period.

(iii) The Company has not traded or invested in Crypto currency or Virtual Currency during the current or previous financial year

(iv) The Company has not made any such transaction which is not recorded in the books of accounts that has been surrendered or disclosed as income during the year in the tax assessments under the Income Tax Act, 1961 (such as, search or survey or any other relevant provisions of the Income Tax Act, 1961);

(v) The Company has not been declared wilful defaulter by any bank or financial institution or government or any government authority.

(vi) The Company has not revalued its property, plant and equipment (including right-of-use assets) or intangible assets or both during the current or previous year.

(viii) Other than as disclosed in Note 36, the Company has not advanced or loaned or invested funds (either borrowed funds or share premium or any other sources or kind of funds) to any other person or entity, including foreign entities (Intermediaries) with the understanding (whether recorded in writing or otherwise) that the intermediary shall:

(a) directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Company (Ultimate Beneficiaries); or

(b) provide any guarantee, security or the like to or on behalf of the ultimate beneficiaries.

(ix) The Company has not received any funds from any person or entity, including foreign entities (Funding Party) with the understanding (whether recorded in writing or otherwise) that the Company shall:

(a) directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party (Ultimate Beneficiaries); or

(b) provide any guarantee, security or the like to or on behalf of the ultimate beneficiaries:

(x) The Company has complied with the number of layers prescribed under the Companies Act, 2013, read with the Companies (Restriction on number of layers) Rules, 2017.

DIRECTORS' REPORT

Dear Shareholder,

The Directors present the Thirtieth Annual Report for the year ended March 31, 2026.

FINANCIAL HIGHLIGHTS:

Your Company's performance during the financial year ended March 31, 2026 is summarized below:

(Rs. in Lakh)

Particulars	2025-2026	2024-2025
Total Income	**3,712.51**	6,239.68
Profit before Depreciation	**1,138.97**	1,813.99
Depreciation	**15.81**	17.20
Profit before Tax	**1,118.06**	1,775.20
Provision for Taxation including Deferred Tax	**370.31**	811.19
Profit after tax	**747.75**	964.01

State of Company's Affairs and future outlook

The Company is a wholly owned subsidiary of Thermax Limited.

Your Company is engaged in rendering erection, commissioning, civil works and operation and maintenance services for turnkey contracts for power plants. The Company has established foreign branches at Manila (Philippines), Lusaka (Zambia) and Sharjah (United Arab Emirates) which are in the business of rendering supervision, operation and maintenance services for power plants.

During the year, the Company earned a total income of Rs 3,712.51 lakh (previous year Rs 6,239.68 lakh). Profit before tax stood at Rs 1,118.06 lakh (previous year Rs. 1,775.20 lakh) and profit after tax is Rs. 747.75 lakh (previous year Rs. 964.01 lakh).

Profit before tax for the year is higher since margins have slightly improved. Further, the Company has received long pending Income Tax refund for earlier years, including interest which has resulted into income for the year. The order booking in the current year was Rs. 2,647.05 lakh (previous year Rs. 3,828.30 lakh).

Change in nature of business

There is no change in nature of business during the year under review.

Dividend

The Board of Directors at its Meeting held on January 29, 2026 declared interim dividend of Rs. 5.56/- per equity share for the financial year 2025-26.

Amount Proposed to be carried to Reserves

The Company does not propose to carry any amount to reserves.

Share Capital

The paid-up equity share capital of the Company is Rs. 900 lakhs and the paid-up preference share capital is Rs. 1,700 lakhs. The total paid up share capital of the Company is Rs. 2,600 lakhs. During the year, the Company has not issued shares with differential voting rights nor has granted any stock options or sweat equity.

Pursuant to the Scheme of Arrangement approved by the Hon'ble National Company Law Tribunal (NCLT), involving the demerger of the Cooling Business of Thermax Cooling Solutions Limited into the Company, the Company had issued 17,00,000 10% Redeemable Preference Shares of ₹100 each to the equity shareholders of Thermax Cooling Solutions Limited. Based on the request received from preference shareholder and in accordance with the said Scheme, the Board approved the redemption of 12,00,000 10% Redeemable Preference Shares of ₹100 each at par, in accordance with the terms of issue and applicable provisions of the Companies Act, 2013. Consequently, the paid-up share capital of the Company is reduced accordingly.

Board Meetings

The Board met four times during the year. The intervening gap between two meetings was within the period prescribed under the Companies Act, 2013.

Details of meetings attended by the Directors are as follows:

Name	Board Meetings			
	May 5, 2025	July 24, 2025	November 6, 2025	January 29, 2026
Mr. Rajendran Arunachalam*	P	P	A	NA
Mr. Kirtiraj Jilkar	P	A	P	A
Mr. Sandeep Deshpande	P	P	P	P
Mr. Sandeep Raut#	NA	NA	NA	P

P- Present, A- Absent

**Mr. Rajendran Arunachalam resigned from the Board of the Company w.e.f. November 17, 2025*

#Mr. Sandeep Raut appointed as an Additional Director w.e.f. November 6, 2025

Particulars of Loans, Guarantees or Investments

During the year under review the Company did not give any loan or made any investment pursuant to the provisions of Section 186 and Section 134(3) (g) of the Companies Act, 2013.

Related Party Transactions

All Related Party Transactions (RPTs) that were entered into during the financial year were on an arm's length basis and were in the ordinary course of business. There are no materially significant related party transactions made by the Company with directors, key managerial personnel or other designated persons which may have a potential conflict with the interest of the Company at large. Therefore, requirements of disclosure of Related Party Transactions in AOC-2 are not attracted.

During the year, all RPTs were placed before the Board for its perusal and approval. A statement showing the disclosure of transactions with related parties as required under IND AS 24 is set out separately in the Financial Statements.

Explanation(s) / Comment(s) to Qualifications, Reservations, Adverse Remarks & Disclaimers made by the Auditors

There are no qualifications, reservations, adverse remarks and disclaimers made by the Auditors in their report on Financial Statements for the financial year ended March 31, 2026.

Material changes affecting financial position of the Company

There were no material changes and commitments that have occurred after the close of the year till the date of this report, which affects the financial position of the Company.

Conservation of Energy

The Company is very careful in using the power to reduce cost of maintenance and conserve resources. The Company makes an effort to use power from grid at its sites instead of DG sets.

Technological Absorption

There was no technology acquisition and absorption during the year under review.

INDEPENDENT AUDITOR'S REPORT

To the Members of Thermax Instrumentation Limited

Report on the Audit of the Financial Statements

Opinion

1. We have audited the accompanying financial statements of Thermax Instrumentation Limited ("the Company"), which comprise the Balance Sheet as at March 31, 2026, and the Statement of Profit and Loss (including Other Comprehensive Income), the Statement of Changes in Equity and the Statement of Cash Flows for the year then ended, and notes to the financial statements, including material accounting policy information and other explanatory information in which are included the return for the year ended on that date audited by the branch auditor of the Company's branch located at Philippines (Manila).

2. In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2026, and total comprehensive income (comprising of profit and other comprehensive income), changes in equity and its cash flows for the year then ended.

Basis for Opinion

3. We conducted our audit in accordance with the Standards on Auditing (SAs) specified under Section 143(10) of the Act. Our responsibilities under those Standards are further described in the "Auditors' Responsibilities for the Audit of the Financial Statements" section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Other Information

4. The Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Director's report, but does not include the financial statements and our auditor's report thereon.

   Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

   In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of management and those charged with governance for the financial statements

5. The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Act with respect to the preparation of these financial statements that give a true and fair view of the financial position, financial performance, changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards specified under Section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

6. In preparing the financial statements, Board of Directors is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless Board of Directors either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

7. Those Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditors' responsibilities for the audit of the financial statements

8. Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

9. As part of an audit in accordance with SAs, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

   - Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

   - Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under Section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls with reference to financial statements in place and the operating effectiveness of such controls.

   - Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.

   - Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.

   - Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

10. We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

11. We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Other Matter

12. The financial statements of the Company for the year ended March 31, 2025, were audited by prior auditors under the Act who, vide their report dated May 5, 2025, expressed an unmodified opinion on those financial statements.

Report on other legal and regulatory requirements

13. As required by the Companies (Auditor's Report) Order, 2020 ("the Order"), issued by the Central Government of India in terms of sub-section (11) of Section 143 of the Act, we give in the Annexure B a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.

14. As required by Section 143(3) of the Act, we report that:

    (a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.

    (b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books and proper returns adequate for the purposes of our audit have been received from the branches not visited by us except that the backup of certain books of account and other books and papers maintained in electronic mode has not been maintained on a daily basis on servers physically located in India during the year and the matters stated in paragraph 14(i)(vi) below on reporting under Rule 11(g) of the Companies (Audit and Auditors) Rules, 2014 (as amended). (Refer note 39(a) to the financial statements)

    (c) The reports on the accounts of the branch offices of the Company audited under Section 143(8) of the Act by branch auditors have been sent to us and have been properly dealt with by us in preparing this report.

    (d) The Balance Sheet, the Statement of Profit and Loss (including other comprehensive income), the Statement of Changes in Equity and the Statement of Cash Flows dealt with by this Report are in agreement with the books of account and with the returns received from the branches not visited by us.

    (e) In our opinion, the aforesaid financial statements comply with the Indian Accounting Standards specified under Section 133 of the Act.

    (f) On the basis of the written representations received from the directors as on March 31, 2026, taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2026, from being appointed as a director in terms of Section 164(2) of the Act.

    (g) With respect to the maintenance of accounts and other matters connected therewith, reference is made to our remarks in paragraph 14(b) above and paragraph 14(i)(vi) below.

    (h) With respect to the adequacy of the internal financial controls with reference to financial statements of the Company (including its branches) and the operating effectiveness of such controls, refer to our separate Report in "Annexure A".

    (i) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014 (as amended), in our opinion and to the best of our information and according to the explanations given to us:

        i. The Company has disclosed the impact of pending litigations on its financial position in its financial statements – Refer Note 29 to the financial statements;

        ii. The Company has made provision as at March 31, 2026, as required under the applicable law or Indian Accounting Standards, for material foreseeable losses, if any, on long-term contracts - Refer Note 17 to the financial statements. The Company did not have any long-term derivative contracts as at March 31, 2026.

        iii. There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Company during the year ended March 31, 2026.

        iv. (a) The management has represented that, to the best of its knowledge and belief, as disclosed in Note 38(viii) to the financial statements, no funds have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Company to or in any other person(s) or entity(ies), including foreign entities ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, whether directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Company ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries;

            (b) The management has represented that, to the best of its knowledge and belief, as disclosed in the Note 38(ix) to the financial statements, no funds have been received by the Company from any person(s) or entity(ies), including foreign entities ("Funding Parties"), with the understanding, whether recorded in writing or otherwise, that the Company shall, whether directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries; and

            (c) Based on such audit procedures that we considered reasonable and appropriate in the circumstances, nothing has come to our notice that has caused us to believe that the representations under sub-clause (a) and (b) contain any material misstatement.

        v. The interim dividend declared and paid by the Company during the year is in accordance with Section 123 of the Act to the extent it applies to declaration and payment of interim dividend.

        vi. Based on our examination, which included test checks, the Company has used multiple accounting software for maintaining its books of account, which have a feature of recording audit trail (edit log) facility and that has operated throughout the year for all relevant transactions recorded in the software, except as disclosed in note 39(b) to the financial statements. During the course of performing our procedures, other than the instances of audit trail not maintained (as disclosed in note 39(b) to the financial statements) where the question of our commenting does not arise, we did not notice any instance of audit trail feature being tampered with. Further, the audit trail, to the extent maintained in the prior year, has been preserved by the Company in respect of the software described in note 39(b) to the financial statements as per the statutory requirements for record retention.

15. The Company has not paid any remuneration to its directors during the year. Accordingly, reporting under Section 197(16) of the Act is not applicable to the Company.

Annexure A to Independent Auditors' Report

Referred to in paragraph 14(h) of the Independent Auditors' Report of even date to the members of Thermax Instrumentation Limited on the financial statements as of and for the year ended March 31, 2026

Report on the Internal Financial Controls with reference to Financial Statements under clause (i) of sub-section 3 of Section 143 of the Act

1. We have audited the internal financial controls with reference to financial statements of Thermax Instrumentation Limited ("the Company") as of March 31, 2026 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

2. The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting ("the Guidance Note") issued by the Institute of Chartered Accountants of India ("ICAI"). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditors' Responsibility

3. Our responsibility is to express an opinion on the Company's internal financial controls with reference to financial statements based on our audit. We conducted our audit in accordance with the Guidance Note and the Standards on Auditing specified under Section 143(10) of the Act to the extent applicable to an audit of internal financial controls, both applicable to an audit of internal financial controls and both issued by the ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to financial statements was established and maintained and if such controls operated effectively in all material respects.

4. Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system with reference to financial statements and their operating effectiveness. Our audit of internal financial controls with reference to financial statements included obtaining an understanding of internal financial controls with reference to financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

5. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system with reference to financial statements.

Meaning of Internal Financial Controls with reference to financial statements

6. A company's internal financial controls with reference to financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial controls with reference to financial statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls with reference to financial statements

7. Because of the inherent limitations of internal financial controls with reference to financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to financial statements to future periods are subject to the risk that the internal financial controls with reference to financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

8. In our opinion, the Company has, in all material respects, adequate internal financial controls system with reference to financial statements and such internal financial controls with reference to financial statements were operating effectively as at March 31, 2026, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note issued by ICAI.

Thermax Instrumentation Limited

Annexure B to Independent Auditors' Report

Referred to in paragraph 13 of the Independent Auditors' Report of even date to the members of Thermax Instrumentation Limited on the financial statements for the year ended March 31, 2026

In terms of the information and explanations sought by us and furnished by the Company, and the books of account and records examined by us during the course of our audit, and to the best of our knowledge and belief, we report that:

i. (a) (A) The Company is maintaining proper records showing full particulars, including quantitative details and situation, of Property, Plant and Equipment.

(B) The Company is maintaining proper records showing full particulars of Intangible Assets.

(b) The Property, Plant and Equipment of the Company are physically verified by the Management according to a phased programme designed to cover all the items over a period of 3 years which, in our opinion, is reasonable having regard to the size of the Company and the nature of its assets. Pursuant to the programme, the Property, Plant and Equipment have been physically verified by the Management during the year and no material discrepancies have been noticed on such verification.

(c) The title deeds of all the immovable properties (other than properties where the Company is the lessee and the lease agreements are duly executed in favour of the lessee), as disclosed in Note 4(a) to the financial statements, are held in the name of the Company.

(d) The Company has not revalued its Property, Plant and Equipment (including Right of Use assets) or Intangible Assets or both during the year. Consequently, the question of our commenting on whether the revaluation is based on the valuation by a Registered Valuer, or specifying the amount of change, if the change is 10% or more in the aggregate of the net carrying value of each class of Property, Plant and Equipment (including Right of Use assets) or Intangible Assets does not arise.

(e) No proceedings have been initiated on or are pending against the Company for holding benami property under the Prohibition of Benami Property Transactions Act, 1988 (as amended in 2016) [formerly the Benami Transactions (Prohibition) Act, 1988 (45 of 1988)] and Rules made thereunder, and therefore the question of our commenting on whether the Company has appropriately disclosed the details in the financial statements, does not arise.

ii. (a) The Company is in the business of rendering services and, consequently, it does not hold any inventory. Accordingly, reporting under clause 3(ii)(a) of the Order is not applicable to the Company.

(b) During the year, the Company has been sanctioned working capital limits in excess of Rs. 5 crores, in aggregate, from banks on the basis of security of current assets. The terms of sanction do not stipulate filing of quarterly returns or statements with such banks, and, accordingly, the question of our commenting on whether the returns or statements are in agreement with the unaudited books of account of the Company, does not arise. (Also, refer Note 5 to the financial statements).

iii. (a) The Company has made investments in 4 mutual fund schemes during the year. The Company has not granted secured/ unsecured loans/advances in nature of loans, or stood guarantee, or provided security to any parties. Therefore, the reporting under clause 3(iii)(c), (iii)(d), (iii)(e) and (iii)(f) of the Order are not applicable to the Company.

(b) In respect of the aforesaid investments, the terms and conditions under which such investments were made are not prejudicial to the Company's interest.

iv. The Company has not granted any loans or made any investments or provided any guarantees or security to the parties covered under Sections 185 and 186. Therefore, the reporting under clause 3(iv) of the Order are not applicable to the Company.

v. The Company has not accepted any deposits or amounts which are deemed to be deposits referred in Sections 73, 74, 75 and 76 of the Act and the Rules framed there under. Accordingly, the reporting under clause 3(v) of the Order is not applicable to the Company.

vi. The Central Government of India has not specified the maintenance of cost records under sub-section (1) of Section 148 of the Act for any of the services of the Company. Accordingly, reporting under clause 3(vi) of the Order is not applicable to the Company.

vii. (a) In our opinion, the Company is regular in depositing the undisputed statutory dues, including goods and services tax, provident fund, employees' state insurance, income tax, sales tax, service tax, duty of customs, duty of excise, value added tax, cess , and other statutory dues, as applicable, with the appropriate authorities.

(b) The particulars of statutory dues referred to in sub-clause (a) as at March 31, 2026 which have not been deposited on account of a dispute, are as follows:

Name of the Statute	Nature of the dues	Gross Amount (Rs. In Lakhs)	Amount paid under protest (Rs. In Lakhs)	Net Amount (Rs. In Lakhs)	Period to which the amount relates	Forum where the dispute is pending
Goods and Services Tax, 2017 (Maharashtra)	Goods and Services Tax	296.82	13.57	283.25	2018-19	Deputy Commissioner of State Tax, Pune
Goods and Services Tax, 2017 (Maharashtra)	Goods and Services Tax	77.55	3.31	74.24	2017-18	Joint Commissioner of State Tax (Appeals), Pune
Goods and Services Tax, 2017 (Maharashtra)	Goods and Services Tax	32.65	1.14	31.51	2018-19	Joint Commissioner of State Tax (Appeals), Pune
Goods and Services Tax, 2017 (Maharashtra)	Goods and Services Tax	371.59	19.07	352.52	2019-20	Joint Commissioner of State Tax (Appeals), Pune
Goods and Services Tax, 2017 (Orissa)	Goods and Services Tax	25.52	2.32	23.20	2017-18	Additional Commissioner (Appeals), CGST, Central Excise & Customs, Bhubaneswar

viii. There are no transactions previously unrecorded in the books of account that have been surrendered or disclosed as income during the year in the tax assessments under the Income-tax Act, 1961.

ix. (a) As the Company did not have any loans or other borrowings from any lender during the year, the reporting under clause 3(ix)(a) of the Order is not applicable to the Company.

(b) On the basis of our audit procedures, we report that the Company has not been declared Wilful Defaulter by any bank or financial institution or government or any government authority.

(c) The Company has not obtained any term loans. Accordingly, reporting under clause 3(ix)(c) of the Order is not applicable to the Company.

(d) According to the information and explanations given to us, and the procedures performed by us, and on an overall examination of the financial statements of the Company, the Company has not raised funds on short-term basis. Accordingly, reporting under clause 3(ix)(d) of the Order is not applicable to the Company.

(e) According to the information and explanations given to us and procedures performed by us, we report that the Company did not have any subsidiaries, joint ventures or associate companies during the year. Accordingly, reporting under clause 3(ix)(e) and 3(ix)(f) of the Order is not applicable to the Company.

x. (a) The Company has not raised any money by way of initial public offer or further public offer (including debt instruments) during the year.

Accordingly, the reporting under clause 3(x)(a) of the Order is not applicable to the Company.

(b) The Company has not made any preferential allotment or private placement of shares or fully or partially or optionally convertible debentures during the year. Accordingly, the reporting under clause 3(x)(b) of the Order is not applicable to the Company.

xi. (a) During the course of our examination of the books and records of the Company, carried out in accordance with the generally accepted auditing practices in India, we have neither come across any instance of material fraud by the Company or on the Company, noticed or reported during the year, nor have we been informed of any such case by the Management.

(b) During the course of our examination of the books and records of the Company carried out in accordance with the generally accepted auditing practices in India, a report under Section 143(12) of the Act, in Form ADT-4, as prescribed under rule 13 of Companies (Audit and Auditors) Rules, 2014 was not required to be filed by us, as statutory auditors, with the Central Government. Accordingly, the reporting under clause 3(xi)(b) of the Order is not applicable to the Company.

(c) During the course of our examination of the books and records of the Company carried out in accordance with the generally accepted auditing practices in India, and as represented to us by the management, no whistle-blower complaints have been received during the year by the Company. Accordingly, the reporting under clause 3(xi)(c) of the Order is not applicable to the Company.

xii. As the Company is not a Nidhi Company and the Nidhi Rules, 2014 are not applicable to it, the reporting under clause 3(xii) of the Order is not applicable to the Company.

xiii. The Company has entered into transactions with related parties in compliance with the provisions of Section 188 of the Act. The details of related party transactions have been disclosed in the financial statements as required under Indian Accounting Standard 24 "Related Party Disclosures" specified under Section 133 of the Act. Further, the Company is not required to constitute an Audit Committee under Section 177 of the Act and, accordingly, to this extent, the reporting under clause 3(xiii) of the Order is not applicable to the Company.

xiv. (a) The internal audit of the Company is covered under the group internal audit pursuant to which an internal audit is carried out every year. In our opinion, the Company's internal audit system is commensurate with the size and nature of its business.

(b) We were unable to obtain some of the Internal Audit Reports for October 2025 to March 2026 of the Company and, accordingly, the Internal Audit Reports have been considered by us for the purpose of our audit only to the extent those were made available to us.

xv. In our opinion, the Company has not entered into any non-cash transactions with its directors or persons connected with the directors. Accordingly, the reporting on compliance with the provisions of Section 192 of the Act under clause 3(xv) of the Order is not applicable to the Company.

xvi. (a) The Company is not required to be registered under Section 45-IA of the Reserve Bank of India Act, 1934. Accordingly, the reporting under clause 3(xvi)(a) of the Order is not applicable to the Company.

(b) The Company has not conducted non-banking financial / housing finance activities during the year. Accordingly, the reporting under clause 3(xvi)(b) of the Order is not applicable to the Company.

(c) The Company is not a Core Investment Company as defined in the regulations made by the Reserve Bank of India. Accordingly, the additional reporting under clause 3(xvi)(c) of the Order is not applicable to the Company.

(d) In our opinion, the Group as defined in the Reserve Bank of India (Core Investment Companies) Directions, 2025 has 1 CICs as part of the Group.

xvii. The Company has not incurred any cash losses in the financial year or in the immediately preceding financial year.

xviii. There has been no resignation of the statutory auditors during the year and, accordingly, the reporting under clause 3(xviii) of the Order is not applicable.

xix. On the basis of the financial ratios, ageing and expected dates of realisation of financial assets and payment of financial liabilities, other information accompanying the financial statements, our knowledge of the Board of Directors and management plans and based on our examination of the evidence supporting the assumptions, nothing has come to our attention, which causes us to believe that any material uncertainty exists as on the date of the audit report that the Company is not capable of meeting its liabilities existing at the date of balance sheet as and when they fall due within a period of one year from the balance sheet date. We, however, state that this is not an assurance as to the future viability of the Company. We further state that our reporting is based on the facts up to the date of the audit report and we neither give any guarantee nor any assurance that all liabilities falling due within a period of one year from the balance sheet date will get discharged by the Company as and when they fall due.

xx. As at balance sheet date, the Company does not have any amount remaining unspent under Section 135(5) of the Act. Accordingly, reporting under clause 3(xx) of the Order is not applicable.

xxi. The Company does not have subsidiaries or joint ventures or associate companies and does not prepare Consolidated Financial Statements. Accordingly, the reporting under clause 3(xxi) of the Order is not applicable to the Company.

Notes to financial statements for the year ended March 31, 2026
(All amounts are in Rupees lakh, except per share data and unless stated otherwise)

1. Corporate information

Thermax Instrumentation Limited (the "Company") is a public company incorporated and domiciled in India. The Company is engaged in rendering erection, commissioning, civil works and operation and maintenance services for turnkey contracts for power plants. The Company has established foreign branches at Manila (Philippines), Lusaka (Zambia) and Sharjah (United Arab Emirates) which are in the business of rendering supervision, operation and maintenance services for power plants. The Company caters to both domestic and international markets. The CIN of the Company is U72200MH1996PTC099050. The financial statements were authorized for issue in accordance with the resolution by the Board of Directors on May 04, 2026.

2. Material accounting policies

2.1. Basis of preparation, measurement

a. Statement of compliance and basis of preparation

The financial statements have been prepared in accordance with the Indian Accounting Standards (Ind AS), notified under Section 133 of the Companies Act, 2013 (the "Act") read with the Companies (Indian Accounting Standards) Rules, 2015, as amended (from time to time) and presentation requirement of Division II of Schedule III to the Act, as amended (from time to time) as applicable to the financial statements.

The preparation of the financial statements requires the use of certain critical accounting estimates and judgements. It also requires the management to exercise judgement in the process of applying the Company's accounting policies. The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are critical to the financial statements are disclosed in note 3.

The accounting policies adopted for preparation and presentation of financial statements have been consistently applied except for changes resulting from amendments to Ind AS issued by Ministry of Corporate Affairs (MCA) effective for financial years beginning on or after April 1, 2025 as disclosed in note 2.3.

b. Basis of measurement

The financial statements have been prepared on the accrual and going concern basis under historical cost convention except the following:

- Certain financial assets and liabilities measured at fair value (refer accounting policy regarding financial instruments);
- Defined benefit plans whereby plan assets are measured at fair value.

2.2 Summary of material accounting policies

a. Current and non-current classification

An entity shall classify an asset as current when:

(i) it expects to realise the asset, or intends to sell or consume it, in its normal operating cycle

(ii) it holds the asset primarily for the purpose of trading

(iii) it expects to realise the asset within twelve months after the reporting period (other than for long-term projects), or

(iv) the asset is cash or a cash equivalent (as defined in Ind AS 7) unless the asset is restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets shall be classified as non-current.

An entity shall classify a liability as current when:

(i) it expects to settle the liability in its normal operating cycle

(ii) it holds the liability primarily for the purpose of trading

(iii) the liability is due to be settled within twelve months after the reporting period (other than for long-term projects), or

(iv) it does not have the right at the end of the reporting period to defer settlement of the liability for at least twelve months after the reporting period.

All other liabilities shall be classified as non-current.

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

During the year ended March 31, 2026, the Company has reassessed the period of its normal operating cycle based on the nature of its business, the time required for procurement of inputs, execution of operations, delivery of goods and services, and realization of receivables in the ordinary course of business. Based on this assessment, management has concluded that the Company's normal operating cycle for the purpose of classification of assets and liabilities under Ind AS in case of long term projects is contract specific.

Accordingly, the classification of assets and liabilities as current and non-current in these financial statements has been revised to reflect the updated operating cycle in accordance with Ind AS 1, Presentation of Financial Statements, and Schedule III to the Companies Act, 2013.

In the case of long-term projects, operating cycle of the Company exceeds one year covering the duration of the contract and extends upto the realisation of receivables (including retention monies) within the credit period normally applicable to the respective contract. Accordingly, for classification of assets and liabilities related to such contracts as current, duration of each individual contract is considered as its operating cycle.

b. Foreign currencies

The Company's financial statements are prepared in INR, which is the also functional currency of the Company.

For each independent business unit, the Company determines the functional currency and items included in the financial statements of each unit are measured using that functional currency. The Company uses the direct method of consolidation for branches and on disposal of a foreign operation the gain or loss that is reclassified to the Statement of profit and loss reflects the amount that arises from using this method.

Transactions and balances

Transactions in foreign currencies are initially recorded at the functional currency spot rates at the date the transaction first qualifies for recognition. Monetary assets and liabilities denominated in foreign currencies are translated at the functional currency spot rates of exchange at the reporting date. Exchange differences arising on settlement or translation of monetary items are recognised in the Standalone Statement of Profit and Loss.

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates at the dates of the initial transactions.

Transactions in foreign currencies are initially recorded by the Company's branches at their respective functional currency spot rates at the date the transaction first qualifies for recognition. However, for practical reasons, the Company uses an average rate if the average approximates the actual rate at the date of the transaction.

Monetary assets and liabilities denominated in foreign currencies are translated at the functional currency spot rates of exchange at the reporting date.

Exchange differences arising on settlement or translation of monetary items are recognized in the Statement of profit and loss except exchange differences arising on monetary items that forms part of a reporting entity's net investment in a foreign operation are recognized in the Statement of profit and loss in the separate financial statements of

the reporting entity or the individual financial statements of the foreign operation, as appropriate. In the financial statements that include the foreign operation and the reporting entity (e.g., financial statements when the foreign operation is a branch), such exchange differences are recognized initially in OCI. These exchange differences are reclassified from equity to the Statement of profit and loss on disposal of the net investment.

Tax charges and credits attributable to exchange differences on those monetary items, if any, are also recorded in OCI. Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value is determined. The gain or loss arising on translation of non-monetary items measured at fair value is treated in line with the recognition of the gain or loss on the change in fair value of the item (i.e., translation differences on items whose fair value gain or loss is recognized in OCI or the Statement of profit and loss are also recognized in OCI or the Statement of profit and loss, respectively).

c. Fair value measurement

The Company measures financial instruments, such as, derivatives at fair value at each balance sheet date.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability; or
- In the absence of a principal market, in the most advantageous market for the asset or liability.

The principal or the most advantageous market must be accessible by the Company. The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the consolidated financial statements are categorized within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- **Level 1 -** Quoted (unadjusted) market prices in active markets for identical assets or liabilities;
- **Level 2 -** Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable;
- **Level 3 -** Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

For the purpose of fair value disclosures, the Company has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

This note summarizes accounting policy for fair value. Other fair value related disclosures are given in the relevant notes.

- Disclosures for critical judgements, estimates and assumptions (note 3)
- Quantitative disclosures of fair value measurement hierarchy (note 34)
- Financial instruments (including those carried at amortized cost) (note 34)

For assets and liabilities that are recognized in the financial statements on a recurring basis, the Company determines whether transfers have occurred between levels in the hierarchy by re-assessing categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

d. Financial instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

Financial assets

The Company classifies its financial assets in the following measurement categories:

- those to be measured subsequently at fair value (either through other comprehensive income, or through profit or loss)
- those to be measured at amortised cost.

The classification depends on the entity's business model for managing the financial assets and the contractual terms of the cash flows.

For assets measured at fair value, gains and losses will either be recorded in profit or loss or other comprehensive income. For investments in equity instruments that are not held for trading, this will depend on whether the Company has made an irrevocable election at the time of initial recognition to present subsequent changes in fair value in other comprehensive income.

At initial recognition, the Company measures a financial asset (excluding trade receivables which do not contain a significant financing component) at its fair value plus, in the case of a financial asset not at fair value through profit or loss, transaction costs that are directly attributable to the acquisition of the financial asset. Transaction costs of financial assets carried at fair value through profit or loss are expensed in profit or loss.

Debt instruments:

Subsequent measurement of debt instruments depends on the Company's business model for managing the asset and the cash flow characteristics of the asset. There are two measurement categories into which the Company classifies its instruments:

(i) Debt instruments at amortized cost

A 'debt instrument' is measured at the amortized cost if both the following conditions are met:

(a) The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows; and

(b) Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

After initial measurement, such financial assets are subsequently measured at amortized cost using the effective interest rate (EIR) method. Amortized cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of EIR. The EIR amortisation is included in income in the Standalone Statement of Profit and Loss. The losses arising from impairment are recognized in the Standalone Statement of Profit and Loss.

(ii) Debt instrument at fair value through profit or loss (FVTPL)

Assets that do not meet the criteria for amortised cost or FVOCI are measured at fair value through profit or loss. A gain or loss on a debt instrument that is subsequently measured at fair value through profit or loss is recognised in profit or loss and presented net within other gains/

Notes to financial statements for the year ended March 31, 2026
(All amounts are in Rupees lakh, except per share data and unless stated otherwise)

(losses) in the period in which it arises. Interest income from these financial assets is included in other income.

Equity investments:

All equity investments in scope of Ind AS 109 - "Financial Instruments", are subsequently measured at fair value. Equity instruments which are held for trading are classified as at FVTPL. For all other equity instruments, the Company may make an irrevocable election to present in other comprehensive income subsequent changes in the fair value. The Company makes such election on an instrument-by-instrument basis. The classification is made on initial recognition and is irrevocable.

Derecognition

A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is primarily derecognized when:

- The rights to receive cash flows from the asset have expired; or
- The Company has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a "pass-through" arrangement; and either (a) the Company has transferred substantially all the risks and rewards of the asset, or (b) the Company has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

Impairment of financial assets

Further disclosures relating to impairment of financial assets are provided in the following notes:

- **Trade receivables and Contract assets -** Refer note 5;
- **Investments -** Refer note 8;
- **Loans and other financial assets -** Refer note 10 & 11.

Financial liabilities

Financial liabilities are classified, at initial recognition, as financial liabilities at FVTPL, loans and borrowings, payables, or as derivatives designated as hedging instruments in an effective hedge, as appropriate. All financial liabilities are recognized initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs. The Company's financial liabilities include trade and other payables, loans and borrowings including bank overdrafts, financial guarantee contracts and derivative financial instruments.

Subsequent measurement of financial liabilities depends on their classification as fair value through profit and loss or at amortized cost.

All changes in fair value of financial liabilities classified as FVTPL is recognized in the Statement of Profit and Loss. Amortised cost category is applicable to loans and borrowings, trade and other payables. After initial recognition the financial liabilities are measured at amortised cost using the EIR method. Gains and losses are recognized in profit and loss when the liabilities are derecognized as well as through the EIR amortization process. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or cost that are integral part on EIR. The EIR amortization is included as finance cost in the Statement of Profit and Loss.

Derecognition

A financial liability is derecognized when the obligation under the liability is discharged or cancelled or expires when an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognized in the Statement of profit and loss.

Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the balance sheet if there is a currently enforceable legal right to offset the recognized amounts and there is an intention to settle on a net basis, to realize the assets and settle the liabilities simultaneously.

e. Events after the reporting period

If the Company receives information after the reporting period, but prior to the date of approved for issue, about conditions that existed at the end of the reporting period, it will assess whether the information affects the amounts that it recognises in its financial statements. The Company will adjust the amounts recognised in its financial statements to reflect any adjusting events after the reporting period and update the disclosures that relate to those conditions in light of the new information. For non-adjusting events after the reporting period, the Company will not change the amounts recognised in its financial statements but will disclose the nature of the non-adjusting event and an estimate of its financial effect, or a statement that such an estimate cannot be made, if applicable.

2.3 Changes in accounting policies and disclosures

New and amended standards

The Company applied for the first-time certain standards and amendments, which are effective for annual periods beginning on or after April 01, 2025. The Company has not early adopted any standard, interpretation or amendment that has been issued but is not yet effective.

The Ministry of Corporate Affairs vide notification dated May 07, 2025 and August 13, 2025 notified the Companies (Indian Accounting Standards) Amendment Rules, 2025 and Companies (Indian Accounting Standards) Second Amendment Rules, 2025, respectively, which amended certain accounting standards (see below), and are effective for annual reporting periods beginning on or after April 01, 2025:

(a) Classification of Liabilities as Current or Non-current and Non-current Liabilities with Covenants - Amendments to Ind AS 1

As a result of the adoption of the amendments to Ind AS 1, the Company changed its accounting policy for the classification of borrowings:

"Borrowings are classified as current liabilities unless, at the end of the reporting period, the Company has a right to defer settlement of the liability for at least 12 months after the reporting period. Covenants that the Company is required to comply with, on or before the end of the reporting period, are considered in classifying loan arrangements with covenants as current or non-current. Covenants that the Company is required to comply with after the reporting period do not affect the classification."

This new policy did not result in a change in the classification of the Company's borrowings. The Company did not make retrospective adjustments as a result of adopting the amendments to Ind AS 1.

This amendment also includes specific provisions that will take effect for reporting periods beginning on or after 1 April 2026, as outlined below:

Under the existing Ind AS 1, where there is a breach of a material provision of a long-term loan arrangement on or before the end of the reporting period with the effect that the liability becomes payable on demand on the reporting date, the entity does not classify the liability as current, if the lender agreed, after the reporting period and before the approval of the financial statements for issue, not to demand payment as a consequence of the breach. However, the amended requirements stipulate that entities will no longer be permitted to consider lender waivers that are granted after the reporting date but before the financial statements are approved for the purpose of classification of loans. This amendment is required to be applied retrospectively in accordance with Ind AS 8. The Company does not expect this amendment to have an impact on its operations or financial statements.

(b) International Tax Reform - Pillar Two Model Rules - Amendments to Ind AS 12

The Company is not within the scope of the OECD Pillar Two Model Rules, as Pillar Two legislation has not yet been enacted in any of the jurisdictions in which the Company operates.

(c Lack of Exchangeability - Amendments to Ind AS 21

The amended Ind AS 21 have added requirements to help entities to determine whether a currency is exchangeable into another currency, and the spot exchange rate to use where it is not.

These amendments did not have any material impact on the amounts recognised in prior periods and are not expected to significantly affect the current or future periods.

2.4 Climate-related matters

The Company considers climate-related matters in estimates and assumptions, where appropriate. This assessment includes a wide range of possible impacts on the company due to both physical and transition risks. Even though the Company believes its business model and products will still be viable after the transition to a low-carbon economy, climate-related matters increase the uncertainty in estimates and assumptions underpinning several items in the financial statements. Even though climate-related risks might not currently have a significant impact on measurement, the Company is closely monitoring relevant changes and developments, such as new climate-related legislation.

3 Critical accounting estimates and judgements

In the application of the Company's accounting policies and preparation of financial statements, the Management is required to make judgements, estimates and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods. Detailed information about each of these estimates and judgements is included in relevant notes together with information about the basis of calculation for each affected line item in the standalone financial statements.

3.1 Judgements

In the process of applying the Company's accounting policies, management has made the following judgements, which have the most significant effect on the amounts recognized in the financial statements.

Functional currency of branches

The Company has foreign operations that are required to comply with the local laws and regulations of those countries. The management has carried out an assessment of each individual business unit operating in the separate geographical location. The management has performed this assessment for the purpose of defining that Company's foreign currency exposure which affects it results and financial position due to currency fluctuation. The business of the three branches is different from the Indian unit. The revenue and expenses are mainly United States Dollar (US$) denominated and retained earnings which are separately held in a US$ bank account are considered as the major factors for assessment of the functional currency. Accordingly, the functional currency is designated as US$ for the foreign branches.

The other areas involving critical estimates or judgements are:

a. Estimations used for fair value measurement (Refer note 33)

b. Estimates and assumptions related to useful lives and impairment of Property, Plant and Equipment (PPE) (Refer note 4)

c. Estimates and assumptions for income taxes (Refer note 6)

d. Estimates and assumptions related to provisions (Refer note 17)

e. Estimates, judgments and assumptions used for revenue from operations (Refer note 18)

f. Judgements used for contingent liabilities and commitments (Refer note 29 & 30)

4(a) Property, plant and equipment (PPE)

Accounting policy

Property, plant and equipment (PPE) is stated at cost of acquisition or construction net of accumulated depreciation and impairment loss, if any. All significant costs relating to the acquisition and installation of PPE are capitalised. Subsequent costs/replacement costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. The carrying amount of the replaced part is derecognised. All other repairs and maintenance are charged to the Statement of profit and loss during the financial year in which they are incurred.

The Company identifies and determines cost of each component/ part of the asset separately, if the component/ part has a cost which is significant to the total cost of the asset and has useful life that is materially different from that of the remaining asset.

Depreciation on PPE is calculated on a straight-line basis using the rates arrived at based on the useful lives estimated by the management. The identified components are depreciated separately over their useful lives; the remaining components are depreciated over the life of the principal asset.

Gains or losses arising from derecognition of a tangible asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognized in the Statement of profit and loss when the asset is derecognized.

The management has estimated the useful lives of certain classes of assets in order to reflect the actual usage of the assets.The useful lives have been determined based on technical evaluation done by the management's expert which are higher than those specified by Schedule II to the Companies Act, 2013, in order to reflect the actual usage of the assets. The residual values are not more than 5% of the original cost of the asset. The following useful lives are estimated by the management:

Asset category	Company's estimate of useful life (years)	Useful life as prescribed under Schedule II (years)
Buildings	30	30
Plant and equipment*	15	15 to 20
Office equipment*	5	5
Computers	3 to 6	3 to 6
Vehicles	7 to 10	8

*includes site infrastructure which is fully depreciated in the year of purchase

The residual values, useful lives and methods of depreciation of PPE are reviewed on a regular basis and changes in estimates, when relevant, are accounted for on a prospective basis.

Estimates and assumptions

The Company determines, based on independent technical assessment, the estimated useful lives of its property, plant and equipment and intangible assets for calculating depreciation and amortisation. This estimate is determined after considering the expected usage of the asset or physical wear and tear. Management reviews the residual value and useful lives periodically and future depreciation and amortisation charge would be adjusted where the management believes the useful lives differ from previous estimates.

Accounting policy

Impairment of assets

The Company assesses, at each reporting date, whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the Company estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's or cash-generating unit's (CGU) fair

Notes to financial statements for the year ended March 31, 2026
(All amounts are in Rupees lakh, except per share data and unless stated otherwise)

value less costs of disposal and its value in use. Recoverable amount is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets. When the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount. Impairment losses including impairment on inventory are recognized in the Statement of profit or loss.

For assets, an assessment is made at each reporting date to determine whether there is an indication that previously recognized impairment losses no longer exist or have decreased. If such indication exists, the Company estimates the asset's or CGU's recoverable amount. A previously recognized impairment loss is reversed only if there has been a change in the assumptions used to determine the asset's recoverable amount since the last impairment loss was recognized. The reversal is limited so that the carrying amount of the asset does not exceed its recoverable amount, nor exceed the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognized for the asset in prior years. Such reversal is recognized in the Statement of profit and loss unless the asset is carried at a revalued amount, in which case, the reversal is treated as a revaluation increase if applicable.

The Company assesses where climate risks could have a significant impact, such as the introduction of emission-reduction legislation that may increase manufacturing costs. These risks in relation to climate-related matters are included as key assumptions where they materially impact the measure of recoverable amount. These assumptions have been included in the cash-flow forecasts in assessing value-in-use amounts.

Estimates and assumptions

Impairment exists when the carrying value of an asset or cash generating unit (CGU) exceeds its recoverable amount, which is the higher of its fair value less costs of disposal and its value in use. The fair value less costs of disposal calculation is based on available data from binding sales transactions, conducted at arm's length, for similar assets or observable market prices less incremental costs for disposing of the asset. The value in use calculation is based on a Discounted Cash Flow (DCF) model. The cash flows are derived from the budget for the next five years as approved by the Management and do not include restructuring activities that the Group is not yet committed to or significant future investments that will enhance the asset's performance of the CGU being tested. The recoverable amount is sensitive to the discount rate used for the DCF model as well as the expected future cash-inflows and the terminal growth rate used.

The above asset has been given on operating lease. Refer note 4(b) below.

* The Company had elected to continue with the carrying value of property, plant and equipment as recognised in the financial statements as per previous GAAP and had regarded those values as the deemed cost on the date of transition (i.e. April 1, 2015). The Company has disclosed the gross block and accumulated depreciation above, for information purpose only.

The Company has not given any PPE as security against any borrowings or credit facility and does not have any charges against PPE.

4(b) Investment property

Accounting policy

Investment properties, principally office buildings, are held for long-term rental yields and are not occupied by the company. They are carried at cost. Investment properties are depreciated using the straight-line method to allocate the cost of assets over their estimated useful lives. Investment properties generally have useful lives of 30 years. The useful lives have been determined based on evaluation performed by the management.

Particulars	Building #
Gross carrying amount

As at March 31, 2026	**263.35**
Net Block	
As at March 31, 2026	**40.84**
As at March 31, 2025	-

The above asset has been given on operating lease.

Note:

During the year based on the management's assessment the building has been classified as investment property with the intention of holding it for long term rental yeilds. The investment properties consist of office premises. As at March 31, 2026 the fair value of the properties is 1,232.76. These fair values are based on government ready recknor . These fair values are not based on valuations performed by a registered valuer as defined under rule 2 of Companies (Registered Valuers and Valuation) Rules, 2017.

The Company has no restrictions on the realisability of its investment properties and no contractual obligations to purchase, construct or develop investment properties or for repairs, maintenance and enhancements.

Description of valuation techniques used and key inputs to valuation on investment properties

Significant unobservable inputs	March 31, 2026
Area of investment property in sq ft	53205
Rate for office building as per government ready recknor	2317 per sq ft
Valuation of investment property as per government ready recknor	1,232.76

4 (c) Intangible assets**

Accounting policy

Intangible assets acquired separately are measured on initial recognition at cost. The cost of intangible assets acquired in a business combination is their fair value at the date of acquisition. Following initial recognition, intangible assets are carried at cost less any accumulated amortization and accumulated impairment losses.

Intangible assets with finite lives are amortized over the useful economic life and assessed for impairment whenever there is an indication that the intangible asset may be impaired. The amortization period and the amortization method for an intangible asset with a finite useful life are reviewed at least at the end of each reporting period. Changes in the expected useful life or the expected pattern of consumption of future economic benefits embodied in the asset are considered to modify the amortization period or method, as appropriate, and are treated as changes in accounting estimates.

Gains or losses arising from derecognition of an intangible asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognized in the Statement of Profit and Loss when the asset is derecognized.

Amortization of the asset begins when development is complete and the asset is available for use. It is amortized on a straight-line basis over the period of expected future benefit from the related project, i.e., the estimated useful life subject to a maximum of ten years. Amortization is recognized in the Statement of Profit and Loss unless such expenditure forms part of carrying value of another asset. During the period of development, the asset is tested for impairment annually.

The following useful lives are adopted by the management:

Assets category	Life (years)

Notes to financial statements for the year ended March 31, 2026

(All amounts are in Rupees lakh, except per share data and unless stated otherwise)

5 Trade receivables

Accounting policy

A receivable represents the Company's right to an amount of consideration that is unconditional (i.e., only the passage of time is required before payment of the consideration is due). Trade receivables are recognised initially at the transaction price as they do not contain significant financing components. The Company holds the trade receivables with the objective of collecting the contractual cash flows and therefore measures them subsequently at amortised cost using the effective interest method, less loss allowance.

For trade receivables and contract assets, the Company applies the simplified approach required by Ind AS 109, which requires expected lifetime losses to be recognised from initial recognition of the receivables.

5 (a) Trade receivables

	As at March 31, 2026	As at March 31, 2025
At amortized cost		
Trade receivables (net of impairment allowance)		
(i) Related parties (note 32)	312.57	447.75
(ii) Others	508.67	563.32

Secured, considered good	-	-
Unsecured, considered good	1,398.38	1,615.67
Trade receivables which have a significant increase in credit risk	-	74.56
Trade receivables - credit impaired	-	-
	1,398.38	**1,690.23**
(Less): Impairment allowance	(577.14)	(679.16)
Total	**821.24**	**1,011.07**

The ageing of current trade receivables:

Particulars		Not Due	Outstanding for the following period from due date of payments					Total
			Less than 6 months	6 months- 1 year	1-2 years	2-3 years	More than 3 years	
(i) Undisputed trade receivables-considered good	**March 31, 2026**	**368.97**	**176.93**	**95.74**	**110.98**	**141.83**	**503.93**	**1,398.38**
	March 31, 2025	363.45	250.74	167.99	124.08	382.08	327.33	1,615.67
(ii) Undisputed trade receivables-which have significant increase in credit risk	**March 31, 2026**	**-**	**-**	**-**	**-**	**-**		**-**
	March 31, 2025	-	-	-	-	-	74.56	74.56
(iii) Undisputed trade receivables-credit impaired	March 31, 2026	-	-	-	-	-	-	**-**
	March 31, 2025	-	-	-	-	-	-	-
Subtotal	**March 31, 2026**	**368.97**	**176.93**	**95.74**	**110.98**	**141.83**	**503.93**	**1,398.38**
	March 31, 2025	363.45	250.74	167.99	124.08	382.08	401.89	1,690.23
(Less): Impairment allowance*	**March 31, 2026**							**(577.14)**
	March 31, 2025							(679.16)
Total	**March 31, 2026**							**821.24**
	March 31, 2025							1,011.07

*Includes provision of Nil (March 31, 2025: Rs. 74.56) for trade receivables which have significant increase in credit risk and provision of Rs. 258.22 (March 31, 2025: Rs. 268.31) for trade receivables which are credit impaired.

No trade or other receivable are due from directors or other officers of the company either severally or jointly with any other person. Nor any trade receivable are due from firms or private companies respectively in which any director is a partner, a director or a member. For terms and conditions relating to related party receivables, refer note 33.

Trade receivables are non-interest bearing and are generally on terms of 0-90 days.

At March 31, 2026 the Company has Rs. 2,200.00 (March 31, 2025 : Rs 6,500.00) undrawn borrowing facilities hypothecated against trade receivables.

For terms and conditions relating to related party receivables, refer note 33.

5 (b) Contract assets - at amortized cost

Accounting policy

A contract asset represents the Company's right to consideration in exchange for goods or services that the entity has transferred to a customer where that right is conditioned on something other than the passage of time. The impairment of contract assets is measured, presented and disclosed on the same basis as trade receivables.

	As at March 31, 2026	As at March 31, 2025
Contract assets	288.96	805.25
Less: Loss allowance	(85.72)	(227.89)
Total	**203.24**	**577.36**
Non - Current Portion	-	-
Current Portion	203.24	577.36

* Unbilled revenue is net of impairment allowance of Nil (March 31, 2025: Rs. 94.81) [note 5 (c)].

5 (c) Expected credit loss (ECL)

Accounting policy

To measure the expected credit losses, trade receivables and contract assets have been grouped based on shared credit risk characteristics and the days past due. A contract asset represents the Company's right to consideration in exchange for goods or services that the entity has transferred to a customer where that right is conditioned on something other than the passage of time; and have substantially the same risk characteristics as the trade receivables for the same types of contracts. The Company has therefore concluded that the expected loss rates for trade receivables are a reasonable approximation of the loss rates for the contract assets.

Credit risk on trade receivables and contract assets are managed by the Company subject to it's established policy, procedures and control relating to customer credit risk management. Credit quality of a customer is assessed and credit limits are defined in accordance with this assessment. Moreover, given the diverse nature of the Company's businesses, trade receivables and contract assets are spread over a number of customers with no significant concentration of credit risk.

For trade receivables and contract assets, as a practical expedient, the Company computes credit loss allowance based on a provision matrix. The provision matrix is prepared based on historically observed default rates over the expected life of trade receivables and contract assets and is adjusted for forward-looking estimates.

Trade receivables and contract assets are written off where there is no reasonable expectation of recovery. Indicators that there is no reasonable expectation of recovery include, amongst others, the failure of a debtor to engage in a repayment plan with the Company, and a failure to make contractual payments for a period of greater than 365 days past due.

Impairment losses on trade receivables and contract assets are presented as expected credit loss in the Statement of Profit and Loss. Subsequent recoveries of amounts previously written off are credited against the same line item.

Estimates and Judgements

The impairment provisions for financial assets are based on assumptions about risk of default, expected loss rates and timing of cash flows. The Company uses judgment in making these assumptions and selecting the inputs to the impairment calculation, based on the Company's past history, existing market conditions as well as forward looking estimates at the end of each reporting period.

As a practical expedient, the Company uses a provision matrix to determine ECL impairment allowance on portfolio of its trade receivables and contract assets. The provision matrix is based on its historically observed default rates over the expected life of the trade receivables and is adjusted for forward-looking estimates. At every reporting date, the historical observed default rates are updated and changes in the forward-looking estimates are analysed. The Company follows provisioning norms based on ageing of receivables to estimate the impairment allowance under ECL.

The following table summarises the change in impairment allowance measured using the life time ECL model (Pursuant to Ind AS 109):

	Provision on trade receivables [note 5 (a)]		Provision on contract assets [note 11 (b)]	
	As at March 31, 2026	As at March 31, 2025	As at March 31, 2026	As at March 31, 2025
At the beginning of the year	679.16	993.23	322.70	328.05
(Less): Bad debts/write off	(198.64)	(482.61)	-	(68.88)
	480.52	510.62	322.70	259.17
Add: Provision made during the year	116.77	362.77	92.19	142.83
(Less): Utilized/reversed during the year	(31.00)	(196.40)	(329.18)	(79.30)
Exchange differences	10.85	2.17	-	-
At the end of the year	**577.14**	**679.16**	**85.71**	**322.70**

Also refer note 32 for impairment provision on related party balances.

6 Income Taxes

Accounting policy

Tax expense comprises current tax expense and deferred tax.

Current income tax

Current tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted, at the reporting date. Current income tax relating to items recognized outside profit or loss is recognized either in OCI or in equity, in correlation to the underlying transaction.

Deferred tax

Deferred tax is provided using the balance sheet approach on temporary differences between the tax base of assets and liabilities and their carrying amounts for financial reporting purposes at the reporting date. Deferred tax assets are recognized for all deductible temporary differences, the carry forward of unused tax credits and any unused tax losses. Deferred tax assets are recognized to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilized.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognized deferred tax assets are re-assessed at each reporting date and are recognized to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

Deferred tax relating to items recognized outside the Statement of profit and loss is recognized outside the Statement of profit and loss (either in other comprehensive income or in equity) in correlation to the underlying transaction.

Deferred tax assets and deferred tax liabilities are offset if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority. Current tax assets and tax liabilities are offset where the entity has a legally enforceable right to offset and intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously.

The Company determines whether to consider each uncertain tax treatment separately or together with one or more other uncertain tax treatments and uses the approach that better predicts the resolution of the uncertainty.

The Company applies significant judgement in identifying uncertainties over income tax treatments.

The Company is subject to local taxes on income attributable to its branches as per the income tax laws in Philippines and Zambia. Additionally, the Company is subject to a 25%/30%/0% branch profit tax in these Philippines/Zambia/Sharjah respectively on the "Business Profit Remittances" and "Withholding Tax Return – Dividend" as that term is defined under Philippine and Zambian tax laws respectively. The Company intends to maintain the minimum required level of net assets as per the local regulation in these branches commensurate with its operation and consistent with its business plan. The Company intends to repatriate the branch profits in the foreseeable future and accordingly, the Company has recorded deferred tax liability for profits of the branches not repatriated to India amounting to Rs. 45.06 (March 31, 2025: Rs 35.76) as at the balance sheet date.

Notes to financial statements for the year ended March 31, 2026

(All amounts are in Rupees lakh, except per share data and unless stated otherwise)

Estimates and assumptions

At each balance sheet date, the Company (including branches) assesses whether the realization of future tax benefits as per jurisdiction of the countries in which it operates is sufficiently probable to recognize deferred tax assets. This assessment requires the use of significant estimates with respect to assessment of future taxable income. The recorded amount of total deferred tax assets could change if estimates of projected future taxable income or if changes in current tax regulations are enacted for any of the jurisdiction in which company (including branches) operates.

6(a) The major components of income tax expense for the year ended are:

Statement of profit and loss	For the year ended March 31, 2026	For the year ended March 31, 2025
Current income tax		
Current income tax charge	219.85	455.00
Adjustments in respect of current income tax of previous years	-	193.68
Deferred tax		
Relating to origination and reversal of temporary differences	150.46	162.51
Income tax expense reported in the Statement of profit and loss	**370.31**	**811.19**

Other comprehensive income	For the year ended March 31, 2026	For the year ended March 31, 2025
Deferred tax related to items recognized in Other comprehensive income during the period		
Re-measurement of defined benefit plans	(5.45)	3.88
Income tax charged to Other comprehensive income	**(5.45)**	**3.88**

6(b) Reconciliation of tax expense and accounting profit multiplied by India's domestic tax rate

	For the year ended March 31, 2026	For the year ended March 31, 2025
Accounting profit before tax	1,118.06	1,775.20
At India's statutory income tax rate (as per Income Tax Act, 1961) of 25.17% (March 31,2025: 25.17%)	281.42	446.82
Reconciliation items and tax impact of the same		
Effects of non-deductible business expenses	15.40	54.47
Deferred tax on unrealized profits of branches	9.30	(33.07)
Taxes paid on repatriation of branch profits	30.93	57.35
Adjustment of tax relating to earlier periods	-	193.68
Pertains to differential tax rates at branches	33.26	91.94
Income tax expense reported in the Statement of profit or loss at effective tax rate of 33.12% (March 31, 2025: 45.70%)	**370.31**	**811.19**

6(c) Statement of profit and loss (including OCI)

	For the year ended March 31, 2026	For the year ended March 31, 2025
Deferred tax relates to the following :		
Retained earnings of foreign branches	9.30	(33.07)
Unrealized foreign exchange gain	0.03	(0.77)
Difference between tax depreciation and depreciation/amortisation charged for financial reporting purposes	0.04	3.29
Provision for doubtful debts and advances	107.64	121.04
Items allowed on payment basis	29.30	23.94
Temporary differences due to accounting treatment as required by Income tax standards	0.09	(3.22)
Other (includes deferred tax balances pertaining to branches)	9.51	47.42
Deferred tax expense/ (income) in statement of profit and loss	**155.91**	**158.63**

6(d) Balance Sheet

	As at March 31, 2026	As at March 31, 2025
Deferred tax relates to the following :		
Deferred tax liabilities:		
Retained earnings of foreign branches	(45.06)	(35.76)
Unrealized foreign exchange gain	(0.33)	(0.30)
	(45.39)	**(36.06)**
Deferred tax assets:		
Difference between tax depreciation and depreciation/ amortisation charged for financial reporting purposes	18.55	18.59
Provision for doubtful debts and advances	134.52	242.16

Retained earnings		
Opening balance	1,007.43	2,554.95
Add: Profit for the year	747.75	964.01
(Less): Transaction cost for increase in share capital	-	-
(Less): Interim dividend paid [note 13(b)]	(500.00)	(2,500.00)
Movement during the year	247.75	(1,535.99)
Items of other comprehensive income recognized directly in retained earnings:		
Re-measurement gain/(loss) on defined benefit plans, net of tax Rs. (5.45) (March 31, 2025 : Rs. 3.88)	16.20	(11.53)
Net Surplus in the Statement of profit and loss	**1,271.38**	**1,007.43**
Total Reserves and surplus	**2,672.19**	**2,408.24**
Other Reserve		
Foreign currency translation reserve		
Opening balance	6.49	8.67
Add : Movement during the year (net)	22.09	(2.18)
Closing balance	28.58	6.49
Fair value adjustment of redeemable preference shares, net of tax Rs. 65.82(March 31, 2025: Rs. 65.82)	160.21	160.21
Total	**2,860.98**	**2,574.94**

Capital reserve

Capital Reserve pertains to reserves arising on amalgamations in the earlier years which is required to be maintained as per statute and is not distributable to the shareholders.

Capital redemption reserve

The Company has created Capital redemption reserve on redemption of non-cumulative redeemable preference shares in accordance with the Act.

Retained Earnings

Retained Earnings are the profits that company has earned till date, less any transfer to General Reserve, transaction cost relating to equity, dividends or other distributions paid to shareholders. Retained earnings include re-measurement loss / (gain) on defined benefit plans, net of taxes that will not be reclassified to Statement of Profit and Loss.

Foreign currency translation reserve

The foreign currency translation reserve pertains to exchange differences on the translation of foreign branches having a functional currency other than INR.

Defined benefit obligation

Following are the movement of amounts recognised in the statement of other comprehensive income on account of defined benefit obligation:

	As at March 31, 2026	As at March 31, 2025
Opening balance	(7.85)	7.56
Add: Total remeasurements cost for the year recognised in OCI	21.65	(15.41)
Closing balance	**13.80**	**(7.85)**

12(b) Distribution made and proposed dividend

Accounting policy

Dividend to equity shareholders is recognised as a liability in the period in which the dividends are approved by the equity shareholders. Interim dividends that are declared by the Board of Directors without the need for equity shareholders' approvals are recognised as a liability and deducted from shareholders' equity in the year in which the dividends are declared by the Board of Directors.

	For the year ended March 31, 2026	For the year ended March 31, 2025
Cash dividend on equity shares declared and paid by company:		
Interim dividend for the year ended March 31, 2026: Rs. 5.56/- per share (March 31, 2025 : Rs. 27.78/- per share)	500.00	2,500.00
	500.00	**2,500.00**

Notes to financial statements for the year ended March 31, 2026
(All amounts are in Rupees lakh, except per share data and unless stated otherwise)

13 Non-current borrowings

Accounting policy

Equity vs liability classification

An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities. Equity instruments issued by the Company are recognised at the proceeds received, net of direct issue costs. The Company classifies a financial instrument issued by it as equity instrument only if below conditions are met:

- The instrument includes no contractual obligation to deliver cash or another financial asset to another entity. Nor it includes any obligation to exchange financial assets or financial liabilities with another entity under conditions that are potentially unfavourable to the issuer.
- If the instrument will, or may, be settled in the Company's own equity instruments, it is non-derivative instrument that includes no contractual obligation for the Company to deliver a variable number of its own equity instruments. If the instrument is derivative, then it should be settled only by the Company exchanging a fixed amount of cash or another financial asset for a fixed number of its own equity instruments.

All other instruments are classified as financial liability and accounted for using the accounting policy applicable to the Financial Liabilities.

	As at March 31, 2026	As at March 31, 2025
10% Non-cumulative Redeemable Preference Shares at fair value	1,700.00	1,700.00
1,700,000 Preference Shares of Rs 100/- each fully paid (note 33)^		
Total non current borrowings	**1,700.00**	**1,700.00**

^ Preference shares pertain to 10% non cumulative redeemable preference shares issued to the Holding Company.

This forms a part of the authorized share capital of 1,700,000 Nos. (March 31, 2025: 1,700,000 Nos.) 10% redeemable preference shares of Rs 100/- each as per the Act.

Terms/ rights attached to preference shares

Each preference share has a par value of Rs. 100/-, the preference shares shall be redeemed at any time within a period not exceeding 20 years from the date of allotment at the discretion of the issuer at par. The preference shares shall carry non cumulative dividend rights at the rate of 10% per annum. The preference shares shall carry voting rights as prescribed in the Act. In the event of liquidation of the Company the redeemable preference shareholders have a preferential right over repayment.

14 Trade payable (at amortised cost)

14 (b) Current trade payables

Particulars	As at March 31, 2026	As at March 31, 2025

Total	**546.85**	**591.04**

* mainly includes tax deducted at source, provident fund etc.
For terms and conditions with related parties refer note 32

17 Provisions

Accounting policy

Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. When the Company expects some or all of a provision to be reimbursed, for example, under an insurance contract, the reimbursement is recognised as a separate asset, but only when the reimbursement is virtually certain.

If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost.

Warranty provisions

Provisions for warranty-related costs are recognized when the product is sold or service provided to the customer. Initial recognition is based on historical experience. The initial estimate of warranty related costs is revised annually.

Provision for onerous contracts

Present obligations arising under onerous contracts are recognised, measured and disclosed as provisions in financial statements. An onerous contract is considered to exist where the Company has a contract under which the unavoidable costs of meeting the obligations under the contract exceed the economic benefits expected to be received from the contract.

Retirement and other employee benefits

Retirement benefit in the form of provident fund is a defined contribution scheme. The Company has no obligation, other than the contribution payable to the provident fund. The Company recognises contribution payable to the provident fund scheme as an expense when an employee renders the related service. If the contribution payable to the scheme for service received before the balance sheet date exceeds the contribution already paid, the deficit payable to the scheme is recognised as a liability after deducting the contribution already paid. If the contribution already paid exceeds the contribution due for services received before the balance sheet date, then excess is recognised as an asset to the extent that the pre-payment will lead to, for example, a reduction in future payment or a cash refund. The obligation of the Company is limited to the amount contributed and it has no further contractual nor any constructive obligation. The expense recognised during the period towards defined contribution plan is Rs. 19.36 (March 31, 2025: Rs. 32.47).

The Government of India has implemented four Labour Codes, viz., the Code on Wages, 2019, the Industrial Relations Code, 2020, the Code on Social Security, 2020, and the Occupational Safety, Health and Working Conditions Code, 2020, by consolidating 29 existing labour laws on 21 November 2025. The Ministry of Labour & Employment have published draft Central Rules and FAQs to enable assessment of the financial impact due to changes in the regulations. The Labour Codes have prescribed a uniform definition of "Wages" to be used for the purpose of calculating employee benefits like gratuity and extending eligibility to fixed-term employees ("FTEs"). Under the Labour Codes, the base on which employee benefits are calculated has increased, which has resulted in increase in the Company's liability for employee benefits.

The Company operates a defined benefit gratuity plan in India, which requires contributions to be made to a separately administered fund. The Company provides for gratuity, a defined benefit plan (the "Gratuity Plan") covering eligible employees in accordance with the Code on Social Security, 2020, in line with the notification of the Labour Codes with effect from 21 November 2025. The Gratuity Plan provides a lump sum payment to vested employees at retirement, death, incapacitation, or termination of employment, of an amount based on the respective employee's salary and the tenure of employment. The Company's liability is determined by an independent actuary (using the Projected Unit Credit method) at the end of each year. Any increase in gratuity liability arising due to implementation of Labour Codes in respect of past service cost is recognised immediately in the Standalone Statement of Profit and Loss, to the extent that the benefits are already vested, and is recognised

over the vesting period in the Standalone Statement of Profit and Loss in respect of the unvested portion.

The Company makes annual contributions through trusts to a funded gratuity scheme administered by the Life Insurance Corporation of India (LIC).

Remeasurements, comprising of actuarial gains and losses, the effect of the asset ceiling, excluding amounts included in net interest on the net defined benefit liability and the return on plan assets (excluding amounts included in net interest on the net defined benefit liability), are recognised immediately in the balance sheet with a corresponding debit or credit to retained earnings through OCI in the period in which they occur. Remeasurements are not reclassified to the Standalone Statement of Profit and Loss in subsequent periods. Further also refer note 40.

Past service costs are recognised in the Standalone Statement of Profit and Loss on the earlier of:

(a) The date of the plan amendment or curtailment; and

(b) The date that the Company recognises related restructuring costs.

Net interest is calculated by applying the discount rate to the net defined benefit liability or asset. The Company recognises the following changes in the net defined benefit obligation as an expense in the Standalone Statement of Profit and Loss:

- Service costs comprising current service costs, past-service costs, gains and losses on curtailments and non-routine settlements; and
- Net interest expense or income.

Accumulated leave, which is expected to be utilised within the next 12 months, is treated as short-term employee benefit. The Company measures the expected cost of such absences as the additional amount that it expects to pay as a result of the unused entitlement that has accumulated at the reporting date. The Company presents the leave as a current liability in the balance sheet as it does not have an unconditional right to defer its settlement for 12 months after the reporting date.

However, based on past experience and actuarial valuation performed, the Company does not expect all employees to avail the full amount of accrued leave or require payment for such leave within the next 12 months. Leave obligations which are not expected to be settled within the next 12 months amounts to Rs. 7.93 (March 31, 2025 : 10.09).

Estimates and assumptions

Defined benefit plans - gratuity

The cost of the defined benefit gratuity plan and the present value of the gratuity obligation are determined using actuarial valuations. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases and mortality rates. Due to the complexities involved in the valuation and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date. The parameter which is most subjected to change is the discount rate. In determining the appropriate discount rate for plans operated in India, the management considers the interest rates of government bonds in currencies consistent with the currencies of the post-employment benefit obligation. The mortality rate is based on Indian Assured Lives Mortality (2012-14) Ultimate. Those mortality tables tend to change only at interval in response to demographic changes. Future salary increases and gratuity increases are based on expected future inflation rates.

Provision for warranties

Warranty costs are provided based on a technical estimate of the costs required to be incurred for repairs, replacements, material costs, servicing cost and past experience in respect of such costs. It is expected that this expenditure will be incurred over the contracted warranty period ranging upto 2 years. If warranty claim costs vary by 10% from management's estimate, the warranty provisions would be an estimated Rs.0.91 higher or lower (March 31, 2025 Rs. 2.65).

Provision for onerous contracts

A provision for expected loss on construction contracts is recognised when it is probable that the contracts costs will exceed total contract revenue. For all other contracts, provision is made when the unavoidable costs of meeting the obligation under the contract exceed the currently estimated economic benefits. The timing of cash outflows in respect of such provision is estimated to be over the contract period.

17 (a) Current provisions

	As at March 31, 2026	As at March 31, 2025

At the end of the year	**12.43**	**12.80**

17 (b) Gratuity

The Company operates a defined benefit plan viz. gratuity for its employees. Under the gratuity plan, every employee who has completed at least specified years of service gets a gratuity on departure at the rate of 15 days (minimum) of the last drawn salary for each completed year of service. The scheme is funded with an insurance company in the form of qualifying insurance policy. The fund has formed a trust and it is governed by the Board of Trustees.

The fund is subject to risks such as asset volatility, changes in asset yields and asset liability mismatch risk. In managing the plan assets, Board of Trustees reviews and manages these risks associated with the funded plan. Each year, the Board of Trustees reviews the level of funding in the gratuity plan. Such a review includes asset-liability matching strategy and investment risk management policy (which includes contributing to plans that invest in risk-averse markets). The Board of Trustees aim to keep annual contributions relatively stable at a level such that no plan deficits (based on valuation performed) will arise.

Notes to financial statements for the year ended March 31, 2026

(All amounts are in Rupees lakh, except per share data and unless stated otherwise)

(i) Changes in the net benefit obligation and fair value of plan assets are as follows :

	Present value of obligation	Fair value of plan assets	Net amount
April 01, 2024	**201.69**	**208.16**	**(6.47)**
Current service cost	4.72	-	4.72
Interest expense / (income)	1.98	8.21	(6.23)
Total amount recognised in the statement of profit and loss	**6.70**	**8.21**	**(1.51)**
Experience adjustments	0.29	-	0.29
Actuarial (gain)/loss from change in financial assumptions	-	(21.86)	21.86
Return on plan assets	-	6.74	(6.74)
Total amount recognised in other comprehensive income	**0.29**	**(15.12)**	**15.41**
Employer contributions	1.77	12.96	(11.19)
Transfer out	(168.87)	(95.43)	(73.44)
Benefits paid	(12.57)	(1.96)	(10.61)
As at March 31, 2025	**29.02**	**116.82**	**(87.80)**
Current service cost	8.40	-	8.40
Interest expense / (income)	1.47	7.90	(6.43)
Transfer out pertaining to previous year*	-	(33.14)	33.14
Total amount recognised in the statement of profit and loss	**9.87**	**(25.24)**	**35.11**
Experience adjustments	1.60	-	1.60
Actuarial (gain)/loss from change in financial assumptions	-	21.86	(21.86)
Return on plan assets	-	1.38	(1.38)
Total amount recognised in other comprehensive income	**1.60**	**23.25**	**(21.65)**
Employer contributions	-	-	-
Transfer out	(8.73)	(7.43)	(1.30)
Benefits paid	(3.54)	-	(3.54)
As at March 31, 2026	**28.22**	**107.40**	**(79.18)**

(ii) The net (asset) disclosed above relates to funded plans are as follows :

	As at March 31, 2026	As at March 31, 2025
Present value of funded obligation	28.22	29.02
Fair value of plan assets*	107.40	116.82
(Surplus) of funded plan [refer note 7 (b)]	**(79.18)**	**(87.80)**

*The Company is in process of transferring the plan asset of Rs.Nil (March 31, 2025 : 11.57) related to demerged unit as a part of business combination.

The plan asset also includes Rs.Nil (March 31, 2025 : 35.70) pertaining to employees transferred to group company for which fund transfer process is initiated.

(iii) Significant estimates

The significant actuarial assumptions were as follows :

	As at March 31, 2026	As at March 31, 2025
Discount rate	7.20%	6.70%
Salary growth rate	7.00%	7.00%
Normal retirement age	60 years	60 years
Mortality table	Indian Assured Lives Mortality (2012-14) Ultimate	Indian Assured Lives Mortality (2012-14) Ultimate
Employee turnover	12.00%	12.00%

(vi) Sensitivity analysis

The sensitivity of defined obligation to changes in the weighted principal assumptions is:

Assumption	Impact on defined benefit obligation	
	As at March 31, 2026	As at March 31, 2025
Discount rate		
1.00% decrease	increase by Rs. 2.12	increase by Rs. 2.16
1.00% increase	decrease by Rs. 1.87	decrease by Rs. 1.92
Future salary increase		
1.00% decrease	decrease by Rs. 1.64	decrease by Rs. 1.67
1.00% increase	increase by Rs. 1.82	increase by Rs. 1.85
Attrition Rate		
1.00% decrease	decrease by Rs. 0.03	increase by Rs. 0.04
1.00% increase	increase by Rs. 0.03	decrease by Rs. 0.04

The above sensitivity analysis is based on a change in assumption while holding all other assumptions constant. In practice, this is unlikely to occur and changes in some of the assumptions may be correlated. When calculating the sensitivity of the defined benefit obligation to significant actuarial assumptions the same method (present value of defined benefit obligation calculated with the Projected Unit Credit Method at the end of the reporting period) has been applied as when calculating the defined benefit liability recognised in the balance sheet.

The method and types of assumptions used in preparing the sensitivity analysis did not change compared to the prior period.

The following are the expected cash flows to the defined benefit plan in future years:

Particulars	As at March 31, 2026	As at March 31, 2025
Within next 12 months	2.47	2.89
Between 2-5 years	16.60	15.96
> 5 years	31.81	31.89

The average duration of the defined benefit plan obligation at the end of the reporting period is 10.47 years (March 31, 2025: 10.56 years)

The Company expects to contribute Rs. Nil (March 31, 2025: Rs. Nil) to the gratuity fund in the next year.

The major categories of plan assets are as follows:

	As at March 31, 2026	As at March 31, 2025
Investments with Insurer (LIC of India)	100.00%	100.00%

(v) Risk exposure

Through its defined benefit plans, the Company is exposed to a number of risks, the most significant of which are detailed below:

Asset Volatility:

The plan liabilities are calculated using a discount rate set with reference to bond yields. If plan assets underperform, this yield will create a deficit. The plan assets are maintained with fund manager of LIC. They are subject to interest rate risk which is managed by the insurer.

Changes in bond yield:

A decrease in bond yields will increase plan liabilities.

Asset risk:

All plan assets are maintained in a trust fund managed by a public sector insurer viz; LIC. LIC has a sovereign guarantee and has been providing consistent and competitive returns over the years. The Company has opted for a traditional fund wherein all assets are invested primarily in risk averse markets. The Company has no control over the management of funds but this option provides a high level of safety for the total corpus. A single account is maintained for both the investment and claim settlement and hence 100% liquidity is ensured. Also, interest rate and inflation risk are taken care of.

Future salary escalation and Inflation risks:

Rising salaries will often result in higher future defined benefit payments resulting in a higher present value of liabilities especially unexpected salary increases provided at management's discretion may lead to uncertainties in estimating this risk.

Life expectancy:

Increases in life expectancy of employee will result in an increase in the plan liabilities. This is particularly significant where inflationary increases result in higher sensitivity to changes in life expectancy.

18 Revenue from operations

Accounting policy

Revenue from Contracts with customers

Revenue from contracts with customers is recognized when control of the goods or services are transferred to the customer at an amount that reflects the consideration to which the Company expects to be entitled in exchange for those goods or services. Revenue is recognized when it has approval and commitment from both parties, the rights of the parties are identified, payment terms are identified, the contract has commercial substance and collectability of consideration is probable. The Company has concluded that it is the principal in all of its revenue arrangements since it is the primary obligor in all the revenue arrangements as it has pricing latitude and is also exposed to inventory risk. The Company collects goods and services tax on behalf of the government and, therefore, it is not an economic benefit flowing to the Company. Hence, it is excluded from revenue.

Revenue is recognized to the extent that it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured, regardless of when the payment is being made. Revenue is measured at the fair value of the consideration received or receivable, taking into account contractually defined terms of payment and excluding taxes or duties collected on behalf of the government. The specific recognition criteria described below must also be met before revenue is recognized.

The Company has following streams of revenue:

(i) Revenue from Engineering, Procurement and Construction contracts

Engineering, Procurement and Construction contracts are contracts (or a group of contracts secured together) specifically negotiated for the construction of an asset which refers to any project for construction of plants and systems, involving designing, engineering, fabrication, supply, erection (or supervision thereof), commissioning, guaranteeing performance thereof etc., execution of which is spread over different accounting periods. The Company identifies distinct performance obligations in each contract. For most of the project contracts, the customer contracts with the Company to provide a significant service of integrating a complex set of tasks and components into a single project or capability. Hence, the entire contract is accounted for as one performance obligation.

The Company may promise to provide distinct goods or services within a contract, in which case the Company separates the contract into more than one performance obligation. If a contract is separated into more than one performance obligation, the Company allocates the total transaction price to each performance obligation in an amount based on the estimated relative standalone selling prices of the promised goods or services underlying each performance obligation. The Company uses the expected cost plus a margin approach to estimate the standalone selling price of each performance obligation in case of contracts with more than one distinct performance obligations.

The Company assesses for the timing of revenue recognition in case of each distinct performance obligation. The Company first assesses whether the revenue can be recognized over a period of time if any of the following criteria is met:

(a) The customer simultaneously consumes the benefits as the Company performs, or

(b) The customer controls the work-in-progress, or

(c) The Company's performance does not create an asset with alternative use to the Company and the Company has right to payment for performance completed till date.

The Company recognizes revenue over time as it performs because of continuous transfer of control to the customer. For all project contracts, this continuous transfer of control to the customer is supported by the fact that the customer typically controls the work in process as evidenced either by contractual termination clauses or by the rights of the Company to payment for work performed to date plus a reasonable profit to deliver products or services that do not have an alternative use.

The Company uses cost-based measure of progress (or input method) for contracts because it best depicts the transfer of control to the customer which occurs as it incurs costs on contracts. Under the cost-based measure of progress, the extent of progress towards completion is measured based on the ratio of costs incurred to date to the total estimated costs at completion of the performance obligation. Revenues, including estimated fees or profits, are recorded proportionally as costs are incurred.

The Company estimates variable consideration amount which it expects to be entitled under the contract and includes it in the transaction price to the extent it is highly probable that a significant reversal of cumulative revenue recognized will not occur and when the uncertainty associated with it is subsequently resolved. The estimates of variable consideration and determination of whether to include estimated amounts in the transaction price are based largely on an assessment of the anticipated performance and all information (historical, current and forecasted) that is reasonably available.

Costs associated with bidding for contracts are charged to the Statement of profit and loss when they are incurred. Costs that relate directly to a contract and are incurred in securing the contract are included as part of the contract costs if they can be separately identified and measured reliably and it is probable that the contract will be obtained.

Contract modification, when approved by both the parties to the contract, are considered as modification, if it creates new or changes the existing enforceable rights and obligations. Most of the contract modifications are not distinct from the existing contract due to the significant integration service provided under the contract prior to modifications and are therefore, accounted for as part of the existing contract. The effect of a contract modification is recognized as an adjustment to revenue on a cumulative catch-up basis.

When it becomes probable that the total contract costs will exceed the total contract revenue, the Company recognizes the expected losses from onerous contract as an expense immediately. Penalties for any

Notes to financial statements for the year ended March 31, 2026
(All amounts are in Rupees lakh, except per share data and unless stated otherwise)

delay or improper execution of a contract are recognized as a deduction from revenue. In the balance sheet, such provisions are presented on net basis of the contract receivables.

On the balance sheet date, the Company reports the net contract position for each contract as either an asset or a liability. A contract represents an asset where costs incurred plus recognized profits (less recognized losses) exceed progress billings; a contract represents a liability where the opposite is the case.

(ii) Revenue from Sale of services

Revenue in respect of operation and maintenance contract, awarded on a standalone basis or included in long term contracts and identified as a separate performance obligation, is recognized as the related services are performed on a time proportion basis under the contracts.

Estimates and assumptions

Constructions contracts

- Provisions for liquidated damages claims (LD's): The Company provides for LD claims where there have been significant contract delays and it is considered probable that the customer will successfully pursue such a claim. This requires an estimate of the amount of LD's payable under a claim which involves a number of management judgements and assumptions regarding the amounts to recognize.
- Project cost to complete estimates: at each reporting date, the Company is required to estimate costs to complete on fixed-price contracts. Estimating costs to complete on such contracts requires the Company to make estimates of future costs to be incurred, based on work to be performed beyond the reporting date. This estimate will impact revenues, cost of sales, work-in-progress, billings in excess of costs and estimated earnings and accrued contract expenses.
- Recognition of contract variations: the Company recognises revenues and margins from contract variations where it is considered probable that they will be awarded by the customer and this requires management to assess the likelihood of such an award being made by reference to customer communications and other forms of documentary evidence.
- Provision for onerous contracts: The Company provides for future losses on long-term contracts where it is considered probable that the contract costs are likely to exceed revenues in future years. Estimating these future losses involves a number of assumptions about the achievement of contract performance targets and the likely levels of future cost escalation over time.

Judgements

Revenue recognition on construction contracts

A significant portion of the Company's business relates to construction of assets which are accounted using percentage-of-completion method, recognizing revenue as the performance on the contract progresses. This requires Management to make judgement with respect to identifying contracts which need to be accounted under percentage-of-completion method, depending upon the level of customization and the period of the fulfilment of the performance obligations under the contract. The percentage-of-completion method requires Management to make significant estimates of the extent of progress towards completion including accounting of multiple contracts which need to be combined and considered as a single contract.

(a) Revenue from contracts with customers:

	For the year ended March 31, 2026	For the year ended March 31, 2025
Revenue from services	2,864.39	5,109.44
Total revenue from contracts with customers (a)	**2,864.39**	**5,109.44**

(b) Other operating Revenue

	For the year ended March 31, 2026	For the year ended March 31, 2025
Sale of scrap	12.35	83.86
Exchange fluctuation gain (net)	84.98	14.27
Total other operating revenue (b)	**97.33**	**98.13**
Total revenue from operations [(a) + (b)]	**2,961.72**	**5,207.57**

(c) Disclosure pursuant to Ind AS 115: Revenue from contracts with customers

i) Revenue by category of contracts:

	For the year ended March 31, 2026	For the year ended March 31, 2025
Over a period of time basis	2,864.39	5,109.44
At a point-in-time basis	-	-
Total revenue from contracts with customers	**2,864.39**	**5,109.44**

Revenue by geographical market

	For the year ended March 31, 2026	For the year ended March 31, 2025
Within India	471.35	1,979.32
Outside India	2,393.04	3,130.12
Total revenue from contracts with customers	**2,864.39**	**5,109.44**

ii) Contract balances

The following table provides information about contract balances from contracts with customers as at the reporting date:

	As at March 31, 2026	As at March 31, 2025
Unbilled revenue (Contract asset) [note 5 (b)]	203.24	577.36
Unearned revenue (Contract liability) (note 16)	205.81	170.67
Customer advances (Contract liability) (note 16)	248.43	349.74

Contract assets have decreased because the Company has provided fewer services ahead of the agreed payment schedules for fixed-price contracts. The Company also recognised a loss allowance for contract assets in accordance with Ind AS 109.

During the year ended March 31, 2026, Rs. 6.58 (March 31, 2025: Rs. 1098.16) of opening contract asset has been reclassified to trade receivables upon completion of milestones. (Refer note 5(b)).

Unearned revenue has increased based on the contractual billing terms for the contracts where the work has been performed during the year. The movement in advance from customer is on account of advances received and utilised during the year. During the year the Company has recognized revenue of Rs. 143.35 (March 31, 2025: Rs. 654.12) arising from opening unearned revenue.

iii) Performance obligations

Performance obligation in project or a group of projects which are contracted at or near same time and negotiated simultaneously, are combined for the purpose of evaluation. The Company has estimated that multiple commitments pertaining to engineering procurement and commissioning of such projects is as single performance obligation which is spread over different accounting periods.

Performance obligation for products are evaluated on standalone basis, recognised at point in time. Generally, performance obligations for such contracts have an original expected duration of one year or less.

There are no major contracts with customers which have significant financing component included within them and therefore there is no difference between the timing of satisfaction of performance obligation vis a vis the timing of the payment.

Remaining performance obligations

The following table includes revenue expected to be recognised in the future related to performance obligations that are unsatisfied (or partially unsatisfied) at the reporting date.

	As at March 31, 2026	As at March 31, 2025
Amount of revenue yet to be recognised for contracts in progress	221.36	718.23

The Company expects that a significant portion of the remaining performance obligation will be met in next 12-24 months.

iv) Reconciliation between revenue recognised in Statement of profit and loss and contract price

There is no significant variation between revenue recognised in Statement of profit and loss and contract price except price variation claims, which are considered to be part of contract price.

19 Other income

Accounting policy

(i) Interest income

For all debt instruments measured at amortized cost, interest income is recorded using the Effective Interest Rate (EIR). EIR is the rate that exactly discounts the estimated future cash payments or receipts over the expected life of the financial instrument or a shorter period, where appropriate, to the gross carrying amount of the financial asset or to the amortized cost of a financial liability. Interest income is included in other income in the Standalone Statement of Profit and Loss.

	For the year ended March 31, 2026	For the year ended March 31, 2025
Interest income from financial assets at amortized cost	-	29.18
Interest income on plan asset (net) [note 17 (b)]	-	1.51
Other interest income*	442.72	691.88
Other non operating income:		
Gain on sale/discard of assets (net)	-	11.06
Net gain/(loss) on fair value changes of mutual funds	70.79	80.08
Net gain on sale of mutual funds	109.39	99.26
Rent income (note 30 and 32)	69.41	69.23
Liabilities no longer required written back	37.47	22.75
Miscellaneous income	21.01	26.85
Total	**750.79**	**1,031.80**

* includes interest on VAT & income tax refund of Rs. 442.72(March 31, 2025 : 691.88)

20 Cost of raw material & components consumed

	For the year ended March 31, 2026	For the year ended March 31, 2025
Inventories at the beginning of the year	-	-
Add: Projects bought outs and components	5.04	1.67
	5.04	**1.67**
Inventories at the end of the year	-	-
Total	**5.04**	**1.67**

21 Employee benefits expense

	For the year ended March 31, 2026	For the year ended March 31, 2025
Salaries and wages	1,297.08	1,612.05
Contribution to provident and other funds	19.36	32.47
Gratuity expense [note 17 (b)]	35.11	-
Staff welfare expenses	34.47	31.90
Total	**1,386.02**	**1,676.42**

22 Finance costs

	For the year ended March 31, 2026	For the year ended March 31, 2025
Interest expense	5.10	21.59
Total	**5.10**	**21.59**

23 Depreciation and amortisation expense

	For the year ended March 31, 2026	For the year ended March 31, 2025
Depreciation on property, plant and equipment [note 4(a)]	4.24	17.20
Depreciation on investment property [note 4 (b)]	10.14	-
Amortisation on other intangible assets [note 4 (b)]	1.43	-
Total	**15.81**	**17.20**

Notes to financial statements for the year ended March 31, 2026

(All amounts are in Rupees lakh, except per share data and unless stated otherwise)

24 Other expenses

	For the year ended March 31, 2026	For the year ended March 31, 2025
Consumption of stores and spare parts	1.76	1.47
Power and fuel	0.40	2.30
Freight and forwarding charges	-	0.28
Site expenses	28.29	71.24
Contract labour charges	790.51	1,873.43
Advertisement and sales promotion	0.06	4.41
Rent (note 30 and 32)	22.35	26.16
Rates and taxes	55.08	89.26
Insurance	2.67	2.92
Repairs and maintenance		
Plant and machinery	0.34	2.17
Others	0.07	0.25
Travelling and conveyance	65.52	80.70

Management fees	109.06	106.00
Printing and Stationery	1.84	5.25
Communication	3.90	5.16
Bank Charges	10.87	27.60
Miscellaneous expenses	27.03	32.34
Total	**1,322.85**	**2,564.61**

25 Payment to statutory auditors

	For the year ended March 31, 2026	For the year ended March 31, 2025
As auditor		
Audit fee	8.00	10.96
Services relating to branch audit	-	18.75
In other capacity		
Other services (Reimbursement of expenses)	-	0.89
Total	**8.00**	**30.60**

26 Corporate Social Responsibility

	For the year ended March 31, 2026	For the year ended March 31, 2025
(a) Gross amount required to be spent by the Company during the year	30.85	29.59
(b) Amount approved by the board to be spent during the year	30.85	29.59
(c) Amount spent during the year (in cash)*	30.85	29.59
1.Construction/acquisition of any asset	-	-
2.On purposes other than (1) above	30.85	29.59
(d) Shortfall/ (excess) at the end of the year	-	-
(e) Total of previous years shortfall	-	-
(f) Reason for shortfall	NA	NA
(g) Nature of CSR activities	Education, Skill Development, Rural Development	Education, Skill Development, Rural Development
(g) Details of related party transactions in relation to CSR expenditure as per relevant Accounting Standard:	30.85	29.59

* The amount is contributed to Thermax Foundation, India (refer note 33) which is engaged in the education of economically underprivileged children by addressing social discrimination through affirmative action, skill development and employability initiatives.

There is no shortfall in contribution for March 31, 2026 and March 31, 2025

27 Components of Other Comprehensive Income (OCI)

The disaggregation of changes to OCI by each type of reserve in equity (net of income tax) is shown below:

During the year ended March 31, 2026

	Foreign currency translation	Retained earnings	Total
Foreign currency translation differences	22.09	-	22.09
Re-measurement (losses)/gains on defined benefit plans	-	16.20	16.20
Total	**22.09**	**16.20**	**38.29**

During the year ended March 31, 2025

	Foreign currency translation	Retained earnings	Total
Foreign currency translation differences	(2.18)	-	(2.18)
Re-measurement (losses)/gains on defined benefit plans	-	(11.53)	(11.53)
Total	**(2.18)**	**(11.53)**	**(13.71)**

28 Earnings Per Share (EPS)

Accounting policy

The Company presents the basic and diluted EPS data for its equity shares.

(i) **Basic EPS** is computed by dividing the net profit for the year attributable to the equity shareholders of the Company by the weighted average number of equity shares outstanding during the year;

(ii) **Diluted EPS** is computed by adjusting the net profit for the year attributable to the equity shareholders and the weighted average number of equity shares considered for deriving basic EPS for the effects of all the equity shares that could have been issued upon conversion of all dilutive potential equity shares (which includes the various stock options granted to employees).

	For the year ended March 31, 2026	For the year ended March 31, 2025
Net profit attributable to the owners of the Company	747.75	964.01
Weighted average number of equity shares of Rs.10/- each (Nos.)	9,000,000	9,000,000
Basic EPS	8.31	10.71
Diluted EPS	8.31	10.71

29 Contingent liabilities

Accounting policy

A disclosure for a contingent liability is made where there is a possible obligation that arises from past events and the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company or a present obligation that arises from the past events where it is either

not probable that an outflow of resources will be required to settle the obligation or a reliable estimate of the amount cannot be made. Provisions, contingent liabilities and contingent assets are reviewed at each reporting date

Judgements

Legal contingencies

The Company has received various orders and notices from tax authorities in respect of direct taxes and indirect taxes. The outcome of these matters may have a material effect on the financial position, results of operations or cash flows. Management regularly analyzes current information about these matters and provides provisions for probable contingent losses including the estimate of legal expense to resolve the matters. In making the decision regarding the need for loss provisions, management considers the degree of probability of an unfavourable outcome and the ability to make a sufficiently reliable estimate of the amount of loss. The filing of a suit or formal assertion of a claim against the company or the disclosure of any such suit or assertions, does not automatically indicate that a provision of a loss may be appropriate.

a) Taxes

	For the year ended March 31, 2026	For the year ended March 31, 2025
Disputed GST and or VAT balances / liabilities (excluding interest & penalty)	372.31	384.41
Income tax matters	27.22	30.76

There are certain laws suits, disputes etc., including commercial matters that arises from time to time in the ordinary course of business for which amounts are not quantifiable by the management. However, based on management's assessment under Ind AS 37 "Provisions, Contingent Liabilities and Contingent Assets", that the claims against the Company are not tenable/ probability of final outcome against the Company is low and therefore not disclosed as Contingent liability.

b) The Company has issued various guarantees for performance, advances etc. The management has considered the probability for outflow of the same to be remote and accordingly no amounts has been disclosed here.

c) Others

	For the year ended March 31, 2026	For the year ended March 31, 2025
Claims against the Company not acknowledged as debt*	262.19	262.19

* Includes a dispute arose between the company and its subcontractor, for alleged non-payment of an amount of Rs. 367. Whereby in August 2023, the MSMEFC Cuttack, Odisha (council) passed an order against the company ordering to pay to the subcontractor an amount of Rs. 345 (principal amounting to Rs. 262.19 and interest Rs. 82.81) , despite having no jurisdiction to entertain the claims of the subcontractor. Further, the award was passed by the council without following the due process under the Arbitration and Conciliation Act, 1996. The Company has challenged the award before the Hon'ble High Court of Odisha by way a writ petition for setting aside the award and the Hon'ble Court passed an order granting a stay on the execution of the award through its order dated November 02, 2023. The next hearing date is not given and the company has also filed a section 34 petition under the Arbitration and Conciliation Act, 1996, before the Hon'ble commercial court, at Cuttack for setting aside the award which is next listed for May 05, 2026.

Pursuant to management assessment, the Company is of view that no provision is necessary. The Company is reasonably confident of the issue being ultimately decided in its favour.

30 Capital and other commitments

a) There are no estimated amounts of contracts remaining to be executed at the year end on capital account (March 31, 2025 : Rs. Nil).

b) Lease commitments

i) Company as lessee

Accounting policy

The Company's leases primarily consist of leases for land, buildings and office equipments. The Company assesses whether a contract contains a lease, at inception of a contract. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Company assesses whether: (1) the contract involves the use of an identified asset (2) the Company has substantially all of the economic benefits from use of the asset through the period of the lease and (3) the Company has the right to direct the use of the asset.

At the date of commencement of the lease, the Company recognizes a right-of-use asset ("ROU") and a corresponding lease liability for all lease arrangements in which it is a lessee, except for leases with a term of twelve months or less (short-term leases) and low value leases. For these short-term and low value leases, the Company recognizes the lease payments as an operating expense on a straight-line basis over the term of the lease.

The right-of-use assets are initially recognized at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or prior to the commencement date of the lease plus any initial direct costs less any lease incentives. They are subsequently measured at cost less accumulated depreciation and impairment losses.

The lease payments are discounted using the interest rate implicit in the lease. If that rate cannot be readily determined, which is generally the case for leases in the Company, the lessee's incremental borrowing rate is used, being the rate that the individual lessee would have to pay to borrow the funds necessary to obtain an asset of similar value to the right-of-use asset in a similar economic environment with similar terms, security and conditions.

To determine the incremental borrowing rate, the Company:

- where possible, uses recent third-party financing received by the Company as a starting point, adjusted to reflect changes in financing conditions since third party financing was received.
- uses a build-up approach that starts with a risk-free interest rate adjusted for credit risk for leases held by the Company, which does not have recent third-party financing
- makes adjustments specific to the lease, for example, term, country, currency and security.

If a readily observable amortising loan rate is available to the individual lessee (through recent financing or market data) which has a similar payment profile to the lease, then the Company use that rate as a starting point to determine the incremental borrowing rate.

Short-term leases and leases of low-value assets

The Company applies the short-term lease recognition exemption to its short-term leases of machinery and equipment (i.e., those leases that have a lease term of 12 months or less from the commencement date and do not contain a purchase option). The Company applies the low-value asset recognition exemption on a lease-by-lease basis, if the lease qualifies as leases of low-value assets.

In making this assessment, the Company also factors below key aspects:

- The assessment is conducted on an absolute basis and is independent of the size, nature, or circumstances of the lessee.

- The assessment is based on the value of the asset when new, regardless of the asset's age at the time of the lease.

- The lessee can benefit from the use of the underlying asset either independently or in combination with other readily available resources, and the asset is not highly dependent on or interrelated with other assets.

If the asset is subleased or expected to be subleased, the head lease does not qualify as a lease of a low-value asset.

Notes to financial statements for the year ended March 31, 2026
(All amounts are in Rupees lakh, except per share data and unless stated otherwise)

Based on the above criteria, the Company has classified leases as leases of low value assets.

Lease payments on short-term leases and leases of low-value assets are recognised as expense on a straight-line basis over the lease term.

The Company has taken building, guest house, equipment and residential flats for employees at branches on cancellable operating lease and had taken office buildings on a short term cancellable operating lease from the Holding company. The tenure of such leases ranges from 1 to 3 years. Lease rentals are charged to the Statement of profit and loss for the year. There are no sub-leases. The leases are renewable on mutually agreeable terms. At the expiry of the lease term, the company has an option to terminate the agreement or extend the term by giving notice in writing. Since the contract is a cancellable contract, the entity has elected to apply the exemption available to short term leases under Ind AS 116 and has recognised the lease payments associated with those leases as an expense.

	For the year ended March 31, 2026	For the year ended March 31, 2025
Lease payments for the year (Note 24)	22.35	26.16

ii) Company as lessor : Operating lease

Accounting policy

Leases in which the Company does not transfer substantially all the risks and rewards of ownership of an asset are classified as operating leases. Rental income from operating lease is recognized on a straight-line basis over the term of the relevant lease. Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset and recognized over the lease term on the same basis as rental income.

The Company has leased certain part of its surplus office and manufacturing buildings. The tenure of such lease agreements ranges from 1 to 3 years. All leases include a clause to enable upward revision of the rental charge on an annual basis according to prevailing market conditions. Lease rentals are recognised in the statement of profit and loss for the year (Refer note 20).

	For the year ended March 31, 2026	For the year ended March 31, 2025
Lease rent received for the year (Note 19)	69.41	69.23

Since there are no non-cancellable operating leases entered by the Company, there are no committed future lease rental payables and receivables (March 31, 2026: Rs. Nil and March 31, 2025:Rs. Nil)

31 Segment reporting

Accounting policy

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker. The Board of Directors of the Company has identified the Manager of the Company as the chief executive decision maker of the Company.

Judgements

Ind AS 108 Operating Segments requires Management to determine the reportable segments for the purpose of disclosure in financial statements based on the internal reporting reviewed by Chief Operating Decision Maker (CODM) to assess performance and allocate resources. The standard also requires Management to make judgments with respect to aggregation of certain operating segments into one or more reportable segment.

The Board of Directors has determined that the CODM is the Manager of the Company, based on its internal reporting structure and functions of the Company. Operating segments used to present segment information are identified based on the internal reports used and reviewed by the Manager to assess performance and allocate resources. The management has determined that some of the segments exhibit similar economic characteristics and meet other aggregation criteria and accordingly aggregated into one reportable segment i.e. Industrial Infra.

Based on the guiding principles in "Ind AS 108- Operating Segments", the Company's business activity falls within one operating segment, i.e. Industrial infra, and therefore no separate segment information is disclosed.

Information of geographical areas-

(i) Sales revenue by geographical markets refer note 18

(ii) Non current assets by geographical segments*

33 Fair value measurements

Estimates and assumptions

Fair value measurement of unquoted financial instruments

When the fair values of financial assets and financial liabilities recorded in the balance sheet cannot be measured based on quoted prices in active markets, their fair value is measured using valuation techniques including the DCF model. The inputs to these models are taken from observable markets where possible, but where this is not feasible, a degree of assumption is required in establishing fair values. Assumptions include considerations of inputs such as liquidity risk, credit risk and volatility. Changes in assumptions about these factors could affect the reported fair value of financial instruments.

a) Category of financial instruments and valuation techniques

Break-up of financial assets carried at amortised cost

	As at March 31, 2026	As at March 31, 2025
Trade receivables	821.24	1,011.07
Cash and cash equivalents	301.14	479.05
Bank balances other than cash and cash equivalents	-	-
Loans	-	-
Other financial assets	57.90	62.54
Total	**1,180.28**	**1,552.66**
Current assets	1,126.47	1,503.02
Non-current assets	53.81	49.64
Total	**1,180.28**	**1,552.66**

The management has assessed that the carrying amounts of the above financial instruments appoximate their fair values.

Break-up of financial assets carried at fair value through profit or loss

	As at March 31, 2026	As at March 31, 2025
Investments	3,055.93	2,226.98
Total	**3,055.93**	**2,226.98**
Current assets	3,055.93	2,226.98
Non-current assets	-	-
Total	**3,055.93**	**2,226.98**

The fair values of the mutual funds are based on price quotations at the reporting date.

Break up of financial liabilities carried at amortised cost

	As at March 31, 2026	As at March 31, 2025
Trade payable	1,125.03	1,656.65
Other liabilities	170.10	227.06
Total	**1,295.13**	**1,883.71**
Current liabilities	1,295.13	1,883.71
Non current liabilities	-	-
Total	**1,295.13**	**1,883.71**

The management has assessed that the carrying amounts of the above financial instruments appoximate their fair values.

Break-up of financial liabilities carried at fair value through profit and loss

	As at March 31, 2026	As at March 31, 2025
Borrowings (10% redeemable preference shares)	1,700.00	1,700.00
Other liabilities	-	-
Total	**1,700.00**	**1,700.00**
Current liabilities	-	-
Non current liabilities	1,700.00	1,700.00
Total	**1,700.00**	**1,700.00**

b) Fair value hierarchy

The following table provides the fair value measurement hierarchy of the Company's assets and liabilities.

Quantitative disclosures fair value measurement hierarchy for assets as at March 31, 2026

	Date of valuation	Level 1	Level 2	Level 3
Financial assets				
Investments				
Mutual funds	March 31, 2026	3,055.93	-	-
Financial liabilities				
Borrowings	March 31, 2026	-	-	1,700.00

Quantitative disclosures fair value measurement hierarchy for assets As at March 31, 2025

	Date of valuation	Level 1	Level 2	Level 3
Financial assets				
Investments				
Mutual funds	March 31, 2025	2,226.98	-	-
Financial liabilities				
Borrowings	March 31, 2025	-	-	1,700.00

There has been no transfer between level 1 and level 2 during the year.

c) Valuation technique used to determine fair value

Specific valuation techniques used to value financial instruments include:

- The use of quoted market prices or dealer quotes for similar instruments;
- For foreign currency forwards and principal swap - the present value of future cash flows based on the forward exchange rates at the balance sheet date;
- For other financial instruments - discounted cash flow analysis.

All of the resulting fair value estimates are included in level 2 except for unlisted equity securities, where the fair values have been determined based on present values.

34 Financial risk management objectives and policies

The Company's principal financial liabilities comprise trade and other payables and borrowings. The main purpose of these financial liabilities is to finance the Company's operations. The Company's principal financial assets include loans, trade and other receivables and cash and cash equivalents that derive directly from its operations. The Company's borrowings and investments are designated as financial liabilities and assets through profit or loss respectively.

Risk is inherent in the Company's activities but it is managed through a process of on going identification, measurement and monitoring, subject to risk limits and other controls. This process of risk management is critical to the Company's continuing profitability and each individual within the Company is accountable for the risk exposures relating to his or her responsibilities. The Company is exposed to market risk, credit risk and liquidity risk.

The Company's Board of Directors is ultimately responsible for the overall risk management approach and for approving the risk strategies and principles. No significant changes were made in the risk management objectives and policies during the years ended March 31, 2026 and March 31, 2025.

I Market risk

Market risk is the risk that the value of an asset will fluctuate as a result of changes in market variables such as interest rates, foreign exchange rates and equity prices, whether those changes are caused by factors specific to the individual investment or its issuer or factors affecting all investments traded in the market.

Market risk is managed on the basis of pre-determined asset allocations across various asset categories, diversification of assets in terms of geographical distribution and industry concentration, a continuous appraisal of market conditions and trends and management's estimate of long and short term changes in fair value.

a Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company is not currently exposed significantly to such risk.

b Foreign currency risk

Foreign exchange risk arises when future commercial transactions and relevant assets and liabilities are denominated in a currency that is not the Company's functional currency. Foreign currency risk is the risk that the fair value or future cash flows of an exposure will fluctuate because of changes in foreign exchange rates. The Company's exposure to the risk of changes in foreign exchange rates relates primarily to the Company's operating activities (when revenue or expense is denominated in a foreign currency) and the Company's foreign operations through its branches at Philippines, Zambia and Sharjah.

The Company's exposure to foreign currency risk at the end of the reporting period expressed in INR, are as follows:

Notes to financial statements for the year ended March 31, 2026

(All amounts are in Rupees lakh, except per share data and unless stated otherwise)

Particulars	As at March 31, 2026		As at March 31, 2025	
	USD	CNY	USD	CNY
Financial assets				
Trade receivables	139.72	-	125.93	-
Other receivables	1,010.55	-	1,008.22	-
Financial liabilities				
Trade payables	-	56.58	-	48.47

The following table demonstrates the sensitivity to a reasonably possible change in USD exchange rates, with all other variables held constant. The impact on the Company's profit before tax is due to changes in the fair value of assets and liabilities. The impact is stated in Rupees (denominated in Lakh) below:

	As at March 31, 2026	As at March 31, 2025
INR/ US$		
Decrease in US$ rate by 5%	(57.51)	(56.71)
Increase in US$ rate by 5%	57.51	56.71
INR/ CNY		
Decrease in CNY rate by 5%	2.83	2.42
Increase in CNY rate by 5%	(2.83)	(2.42)

The exposure to other foreign currencies is not significant to the Company's financial statements as all the undistributed profits at the overseas branches are maintained and/ or repatriated to India in US$.

c Price risk

The Company's investments are susceptible to market price risk arising from uncertainties about future values of the investment securities. These securities are quoted and unquoted. The Company manages the price risk through diversification and by placing limits on individual and total equity/mutual fund instruments. Further, the price risk is also mitigated by switching the investment portfolio between investment in equity/mutual fund instruments and investments in bank deposits. Reports on the investment portfolio are submitted to the Company's senior management on a regular basis. The Company's Board of Directors reviews and approves all equity investment decisions. The Company is not currently exposed significantly to such risk.

II Credit risk

Credit risk is the risk that counterparty will not meet its obligations under a financial instrument or customer contract, leading to a financial loss. The Company is exposed to credit risk from its operating activities (primarily trade receivables and contract assets) and from its investing activities, including deposits with banks and investment at amortised cost.

Trade receivables and contract assets

Customer credit risk is managed based on the Company's established policy, procedures and control relating to customer credit risk management. An impairment analysis is performed at each reporting date on an individual basis for major clients. In addition, a large number of minor receivables are grouped into homogenous group and assessed for impairment collectively. The calculation is based on losses as per historical data. The maximum exposure to credit risk at the reporting date is the carrying value disclosed in note 5. To measure the expected credit losses, trade receivables and contract assets have been grouped based on shared credit risk characteristics and the days past due. Contract assets represents the Company's right to consideration for work completed but not billed or where the receipt of consideration is conditional on successful completion of a performance obligation and have substantially the same risk characteristics as the trade receivables for the same types of contracts. The charge of impairment to Statement of Profit and Loss is disclosed on the face of Statement of Profit and Loss. The Company evaluates the concentration of risk with respect to trade receivables as low, as its customers are located in several jurisdictions and industries and operate in largely independent markets.

Bank deposits and other financial instruments

Credit risk from balances with banks, mutual funds and other financial instruments like derivative contracts are managed by the Company's treasury department in accordance with the Company's policy. Investments of surplus funds are made only with approved counterparties having a good market reputation and within credit limits assigned to each counterparty. The limits are set to minimise the concentration of risks and therefore mitigate financial loss through counterparty's potential failure to make payments.

The Company's maximum exposure to credit risk for bank balances and deposits as at March 31, 2026 and March 31, 2025 is the carrying amounts as disclosed in note 9 and maximum exposure relating to financial guarantee is disclosed in note 29(b).

Other financial assets

All of the entity's financial assets (mainly security deposits) are valued at amortised cost and are considered to have low credit risk, and the loss allowance recognised during the period was therefore limited to 12 months' expected losses. Management consider other instruments to have low credit risk when they have a low risk of default and the issuer has a strong capacity to meet its contractual cash flow obligations in the near term.

III Liquidity risk

Prudent liquidity risk management implies maintaining sufficient cash and marketable securities and the availability of funding through an adequate amount of committed credit facilities to meet obligations when due and to close out market positions. Due to the dynamic nature of the underlying businesses, company treasury maintains flexibility in funding by maintaining availability under committed credit lines.

The management monitors rolling forecasts of the Company's liquidity position and cash and cash equivalents on the basis of expected cash flows. In addition, the Company's liquidity management policy involves projecting future cash flows and considering the level of liquid assets necessary to meet these and monitoring balance sheet liquidity ratios against internal requirements.

The tables below summarises the Company's financial liabilities into relevant maturity profile based on contractual undiscounted payments :

Particulars	Less than 1 year	1 to 3 years	More than 3 years	Total
As at March 31, 2026				
Borrowings	-	-	1,700.00	**1,700.00**

Other payables	50.99	-	-	**50.99**
	1,883.71	**-**	**1,700.00**	**3,583.71**

Financing arrangements

The Company had access to the following undrawn borrowing facilities at the end of the reporting period:

	As at March 31, 2026	As at March 31, 2025
Expiring within one year (bank overdraft and other facilities)	-	-
Expiring beyond one year (bank loans)	-	-

35 Key Financial Ratios

The following are analytical ratios for the year ended March 31, 2026 and March 31, 2025:

Particulars	Numerator	Denominator	FY 2025-26	FY 2024-25	Variance	Management response > 25%
Current ratio	Current assets	Current liabilities	2.42	1.76	37.55%	Refer 35(a)
Return on equity ratio	Profit after tax	Average shareholder's equity	20.67%	22.68%	(8.89%)	
Trade receivable turnover ratio	Revenue from contracts with customers	Average trade receivables	3.13	2.65	18.00%	
Trade payables turnover ratio	Total supplier purchases#	Average trade payables	0.87	1.11	(22.15%)	
Net capital turnover ratio	Revenue from contracts with customers	Working capital *	1.08	2.57	(57.99%)	Refer 35(b)
Net profit ratio	Profit after tax	Revenue from contracts with customers	26.11%	18.87%	38.36%	Refer 35(c)
Return on capital employed (ROCE)	Profit before tax and finance cost	Capital employed **	20.58%	34.72%	(40.73%)	Refer 35(d)
Return on investment (ROI)	Income generated from invested fund***	Average invested fund****	2.68%	4.53%	(40.87%)	
Debt-equity ratio	Total debt	Shareholder's equity	0.45	0.49	(7.61%)	
Inventory turnover ratio	Cost of goods sold	Average inventories	NA	NA	100.00%	
Debt service coverage ratio ##	Earnings available for debt service	Debt service	NA	NA	NA	

Explanations:

* Total current assets - Total current liabilities.

** Total equity + Non-current borrowings + Deferred tax liability.

*** Income generated from interest from Fixed Deposits with banks and gain from Mutual Fund investments

**** Average fund = (Opening investment + Opening balances with banks other than Cash and cash equivalent) + (Closing investment + Closing balances with banks other than Cash and cash equivalent) / 2

Total supplier purchases include project bought-outs, other expenses and staff welfare expenses.

Debt service coverage ratio is not applicable as there are no interest, lease payments and principal repayments during the year ended March 31, 2025 and March 31, 2026.

35(a) Increase due to decrease in trade payables and income tax liability.

35(b) Decrease due to decrease in turnover as EPC projects are nearer to completion.

35(c) Increase in net profit ratio is majorly on account of interest income on VAT and Income tax refund received during current year for AY 2009-10

35(d) Decrease in ROCE ratio due to decrease in profit before tax and finance cost.

36 Capital Management

The Company's objective for capital management is to maximise shareholder value, safeguard business continuity and support the growth of the Company. The Company determines the capital requirement based on annual operating plans and long- term and other strategic investment plans. The funding requirements are met through equity and operating cash flows generated. No changes were made in the objectives, policies or processes during the years ended March 31, 2026 and March 31, 2025. Capital represents equity attributable to Parent Company and is measured at Rs 3,760.98 (March 31, 2025: Rs. 3,474.94).

Notes to financial statements for the year ended March 31, 2026

(All amounts are in Rupees lakh, except per share data and unless stated otherwise)

	As at March 31, 2026	As at March 31, 2025
Borrowings (note 13)	1,700.00	1,700.00
(Less): Cash and cash equivalents (includes deposits with original maturity of more than 3 months but less than 12 months) [note 9]	(301.14)	(479.05)
Net (surplus)/ debt	**1,398.86**	**1,220.95**
Equity	3,760.98	3,474.94
Capital and net debt	**5,159.84**	**4,695.89**
Capital gearing ratio	**37.19%**	**35.14%**

37 Struck off companies

There are no shares held in struck off companies. For the year ended March 31, 2026 there are no transactions with struck off companies and no balances are outstanding as on year end.

38(a) Other Statutory Information

(x) The Company has complied with the number of layers prescribed under the Companies Act, 2013, read with the Companies (Restriction on number of layers) Rules, 2017.

38(b) Other Accounting Policies

(i) Rental income

Rental income from operating leases (net of any incentives given to the lessee) is recognised on a straight-line basis over the lease term.

39 Compliance with section 143(3) for maintenance of books of account

(a) With effect from August 5, 2022, the Ministry of Corporate Affairs (MCA) has amended the Companies (Accounts) Rules, 2014, relating to maintenance of electronic books of account and other relevant books and papers. Pursuant to this amendment, the Company is required to maintain the books of account which are accessible in India at all times and their backup is to be kept on servers located in India on a daily basis. The Company has a process to take daily back-up of books of account maintained in electronic mode and along with the logs of the backup of such books of account.

The status of compliance for each of its locations and for all the IT applications are summarised in the below table:

Requirements u/s 143(3) of the Act.	Foreign Branches - Philippines and Zambia	Foreign Branch Sharjah	India operations
Books of Account maintained on cloud/ servers physically located in India	No	Yes	Yes
Backup maintained in India on daily basis	No	Yes	Yes

(b) The Company has used accounting software for maintaining its books of account which has a feature of recording audit trail (edit log) facility and the same has operated throughout the year for all relevant transactions recorded in the software except for the following:

- Accounting softwares used at two foreign branches (Philippines and Zambia) do not have an audit trail (edit log) feature and the same did not operate throughout the year for all relevant transactions recorded in the softwares;

Further no instances of audit trail feature being tampered with were noted in respect of accounting softwares where audit trail was enabled. Additionally, the audit trail of prior year(s) for India operations has been preserved by the Company as per the statutory requirements for record retention to the extent it was enabled and recorded in the respective years.

DIRECTORS' REPORT

Dear Shareholder,

The Directors present the Seventeenth Annual Report of the Company for the year ended March 31, 2026.

FINANCIAL RESULTS

(Rs. in Lakh)

Particulars	2025-26	2024-25
Total income	58,232.87	56,234.31
Profit before depreciation and interest	6,789.64	5,989.58
Depreciation	72.67	68.59
Interest	952.78	1,035.22
Profit before tax	5,764.19	4,885.77
Provision for taxation (incl. deferred tax)	1,515.95	1,255.98
Profit after tax	4,248.24	3,629.79

STATE OF COMPANY'S AFFAIRS

During the year, the Company earned a total income of Rs. 58,232.87 lakh (previous year Rs. 56,234.31 lakh). Profit before tax stood at Rs. 5,764.19 lakh (previous year Rs. 4,885.77 lakh) and profit after tax was Rs. 4,248.24 lakh (previous year Rs. 3,629.79 lakh).

The Company registered revenue of Rs. 57,795.68 lakh as increase of 3% over last year. The Company continued its growth trajectory and registered a 50% growth in orders. Order balance increased by Rs. 10,771 lakh amounting to Rs. 78,613 lakh. Through the orders won for the financial year 2025-26, the Company added new accounts to its customer base.

During the Financial Year 2025-26, the Company commissioned three large biomass boiler plants for green steam supply to various industry leaders in Karnataka and Andhra Pradesh and a captive facility at Gujarat.

During the year, OPEX initiatives were strategically focused on achieving Zero Breakdowns and Zero Cost of Poor Quality (COPQ), thereby ensuring sustained and enhanced uptime of assets across the portfolio.

With more reputed companies choosing to practice sustainability and focusing on achieving their net-zero goals, it is expected to create opportunities for supply of biomass-based energy, treated water as well as zero liquid discharge and desalination projects. The company, in line with its globalization strategy continued concentrated efforts in offering outsourced utilities in the South East Asia and South Asia market.

HEALTH AND SAFETY

The Company demonstrated a strong commitment to continuous improvement in Safety, Health, and Environment (SHE) performance during FY 2025–26. During the year, it successfully completed the external recertification audits for ISO 45001:2018 (Occupational Health & Safety Management System) and ISO 14001:2015 (Environmental Management System) through DNV, a global certification body. Additionally, Stage 2 audits for both standards were successfully completed at the Nestlé Sri Lanka location under TEELK.

Cross-audits conducted by external agencies across multiple sites further strengthened compliance and operational excellence. The Company also organized internal auditor training programs for ISO 45001 and ISO 14001 through external faculty to enhance employee competency. Certified First Aid and firefighting training sessions were conducted to improve emergency preparedness and response capabilities.

To reinforce monitoring and compliance, CCTV systems were installed across sites, including AI-based surveillance to ensure Personal Protective Equipment (PPE) compliance. The Company continued to promote a strong safety culture through Behaviour-Based Safety (BBS) initiatives and conducted various safety campaigns, including Near Miss Reporting, Monsoon Safety, and Lock-Out-Tag-Out (LOTO) awareness programs.

In line with enhancing workplace safety and productivity, the Company initiated 5S/6S certification across its sites. During the year, seven sites achieved 5S certification, while four sites were awarded 6S certification by an external agency.

The Company also implemented new initiatives to improve safety metrics and conducted various awareness programs, including World Environment Day, the 55th National Safety Week, and Road Safety Week. It received appreciation from customers for fostering a strong safety culture and delivering services with zero accidents. Additionally, two TOESL sites were honoured with the "Best O&M Sites Award" at the Thermax Annual HSE Awards 2026.

MATERIAL CHANGES AFFECTING FINANCIAL POSITION OF THE COMPANY

No material changes and commitments have occurred after the close of the year till the date of this Report, which affect the financial position of the Company.

DIVIDEND

The directors do not recommend any dividend on equity shares during year.

AMOUNT PROPOSED TO BE CARRIED TO RESERVES

The Company does not propose to carry any amount to reserves.

SHARE CAPITAL

During the year, there were no changes in the capital structure of the Company. The Paid-up Share Capital of the Company as on March 31, 2026 is Rs.1,08,28,00,000 divided into Equity Shares of Rs. 10,82,80,000 of Rs. 10 each.

The Company has not issued shares with differential voting rights nor has it granted any stock options or sweat equity.

Thermax Onsite Energy Solutions Limited

DETAILS OF SUBSIDIARY, JOINT VENTURE OR ASSOCIATE COMPANIES

The Company has two wholly owned subsidiaries named Enernxt Private Limited and Thermax Energy & Environment Lanka Private Limited (TEELK).

The annual accounts of the subsidiary companies and related detailed information are available to the shareholders of the holding and subsidiary Company as well as to the statutory authorities. On request, these documents will be made available for inspection at the Company's registered office.

HIGHLIGHT OF PERFORMANCE OF SUBSIDIARIES

Enernxt Private Limited Bio CNG project under commissioning is expected to be completed in upcoming financial year of 2026-27. The Company will start commercial production of Bio CNG Gas post the trial run. Plant commissioning has been delayed due to technical hurdles. Our technology partner is actively addressing these challenges.

TEELK has one order of supply of steam in Sri Lanka. The plant has been commissioned and the operations are running smoothly.

PUBLIC DEPOSITS

The Company has not accepted any deposits under Chapter V of the Companies Act, 2013.

PARTICULARS OF LOANS, GUARANTEES OR INVESTMENTS

The details of guarantees and investments covered under the provisions of section 186 of the Companies Act, 2013, are given in the notes to the Financial Statements. During the year, the Company made the additional equity investment in its wholly owned subsidiary (WOS) Enernxt Private Limited of Rs. 10 crores.

VIGIL MECHANISM /WHISTLE BLOWER POLICY

The Company has a vigil mechanism named 'Whistleblower Policy' to deal with instances of fraud and mismanagement. The Board of the Company looks after the whistle blower mechanism and thus direct access to the Chairman of the Board in exceptional or appropriate cases would be provided in the said mechanism.

BUSINESS RISK MANAGEMENT

The Company is engaged in the business of providing environment friendly utilities (steam, heat, water, chilled water and others) to its customers. Risk is affected by macro-economic factors like interest rates, crude oil prices, forex currency fluctuations, electricity and other energy prices and their availability. It is also susceptible directly and indirectly to govt. policies related to renewable energy and conservation of natural resources. Global trends which affect customer's industries also tend to have a cascading effect on the Company's business.

The Company follows a structured risk management process supported by a Risk Management framework to manage risks emanating from external factors and internal actions. Risk Management is ingrained in the operations of the various functions of the Company. During the year the Company conducted Company-wide risk management reviews at regular intervals to ensure compliance to its Risk Management framework and to identify areas for improving the same.

ADEQUACY OF INTERNAL FINANCIAL CONTROLS

Internal controls are reviewed by Internal Audit Department of the holding Company on a periodical basis. All significant and material observations emerging out of Internal Audit are regularly reported to the Board and follow-up measures are taken.

CORPORATE SOCIAL RESPONSIBILITY INITIATIVES

As a part of its initiatives under Corporate Social Responsibility (CSR), the Company has undertaken projects mainly in the area of eradicating poverty. The projects are in accordance with Schedule VII of the Companies Act, 2013. The CSR initiatives have been undertaken through Thermax Foundation. The detailed report on CSR is annexed as Annexure 1.

KEY MANAGERIAL PERSONNEL (KMP)

Following are the changes in the KMP during FY 2025-26.

Sr. No.	Name of KMP	Appointment/ Resignation	Effective date
1.	Mr. Mandar Dandekar, Chief Financial Officer	Appointment	April 1, 2025

SECRETARIAL AUDIT REPORT FOR THE FINANCIAL YEAR ENDED 31ST MARCH, 2026

[Pursuant to Section 204(1) of the Companies Act, 2013 and Rule No. 9 of the Companies (Appointment and Remuneration of Managerial Personnel) Rules, 2014]

To,
The Members,
Thermax Onsite Energy Solutions Limited
Thermax House, 14, Mumbai Pune Road,
Wakdewadi, Pune MH 411003

We have conducted the secretarial audit of the compliance of applicable statutory provisions and the adherence to good corporate practices by **Thermax Onsite Energy Solutions Limited** (hereinafter referred to as **'the Company'**). Secretarial Audit was conducted in a manner that provided us a reasonable basis for evaluating the corporate conducts/statutory compliances and expressing our opinion thereon.

Based on our verification of the company's books, papers, minute books, forms and returns filed and other records maintained by the company through online access provided by the Company via Microsoft Sharepoint and also the information provided by the Company, its officers, agents and authorized representatives during the conduct of secretarial audit, We hereby report that in our opinion, the Company has, during the audit period covering the financial year ended on 31st March, 2026 (Audit Period) complied with the statutory provisions listed hereunder and also that the Company has proper Board-processes and compliance-mechanism in place to the extent, in the manner and subject to the reporting made hereinafter:

I have examined the books, papers, minute books, forms and returns filed and other records maintained by the Company for the financial year ended on 31st March, 2026 according to the provisions of:

(i) The Companies Act, 2013 (the Act) and the rules made thereunder;

(ii) The Securities Contracts (Regulation) Act, 1956 ('SCRA') and the rules made thereunder; (not applicable to the Company during the Audit period)

(iii) The Depositories Act, 1996 and the Regulations and Bye-laws framed thereunder; (not applicable to the Company during the Audit period)

(iv) Foreign Exchange Management Act, 1999 and the rules and regulations made thereunder to the extent of Overseas Direct Investment;

(v) The following Regulations and Guidelines prescribed under the Securities and Exchange Board of India Act, 1992 ('SEBI Act'):- (Following sub-clauses (a) to (h) are not applicable to the Company during the Audit period as Company continues to be a Unlisted Public Company in its Articles under Section 2(71) of the Act)

   a. The Securities and Exchange Board of India (Substantial Acquisition of Shares and Takeovers) Regulations, 2011;

   b. The Securities and Exchange Board of India (Prohibition of Insider Trading) Regulations, 2015;

   c. The Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) Regulations, 2018;

   d. The Securities and Exchange Board of India (Share Based Employee Benefits) Regulations, 2021;

   e. The Securities and Exchange Board of India (Issue and Listing of Non-Convertible Securities) Regulations, 2021;

   f. The Securities and Exchange Board of India (Registrars to an Issue and Share Transfer Agents) Regulations, 1993 regarding the Companies Act and dealing with client;

   g. The Securities and Exchange Board of India (Delisting of Equity Shares) Regulations, 2021 and

   h. The Securities and Exchange Board of India (Buyback of Securities) Regulations, 2018

(vi) Following important specific laws applicable to the Company, as confirmed by the Company were substantially complied with:

   a. The Boilers Act, 2025

   b. The Boiler Attendants Rules, 2025

   I have also examined compliance with applicable clauses of the following:

   a. Secretarial Standards (SS.1 relating to meetings of Board of Directors & SS.2 relating to General Meetings) issued by the Institute of Company Secretaries of India.

   b. The Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015; (Not applicable to the Company during the Audit Period)

During the period under review, the Company has complied with the provisions of the Act, Rules, Regulations, Guidelines, Standards, etc. mentioned above.

I further report that the Board of Directors of the Company is duly constituted with proper balance of Executive Directors and Non-Executive Directors. The changes in the composition of the Board of Directors that took place during the period under review were carried out in compliance with the provisions of the Act.

Adequate notice is given to all directors to schedule the Board Meetings, agenda and detailed notes on agenda were sent at least seven days in advance, except when meetings were called at shorter notice as permitted u/s. 173(3) of the Act and a system exists for seeking and obtaining further information and clarifications on the agenda items before the meeting and for meaningful participation at the meeting.

All decisions at Board Meetings were carried out unanimously as recorded in the minutes of the meetings of Board of Directors.

I further report that there are adequate systems and processes in the company commensurate with the size and operations of the company to monitor and ensure compliance with applicable laws, rules, regulations and guidelines.

I further report that during the audit period:

During the year under review there were no specific event having bearing on the affairs of the Company.

This report is to be read with our letter of even date which is annexed as Annexure-A and forms an integral part of this report

ANNEXURE A

To,
The Members,
Thermax Onsite Energy Solutions Limited
Thermax House, 14, Mumbai Pune Road,
Wakdewadi, Pune MH 411003

Our report of even date to be read along with this letter.

1) Maintenance of secretarial records is the responsibility of the management of the company. Our responsibility is to express an opinion on these secretarial records based on our audit.

2) We have followed the audit practices and processes as were appropriate to obtain reasonable assurance about the correctness of the contents of the Secretarial records. The verification was done on test basis to ensure that correct facts are reflected in secretarial records. We believe that the processes and practices, we followed provide a reasonable basis for our opinion.

3) We have not verified the correctness and appropriateness of financial records and Books of Accounts of the company.

4) Wherever required, we have obtained the Management representation about the compliance of laws, rules and regulations and happening of events, etc.

5) The compliance of the provisions of Corporate and other applicable laws, rules, regulations, standards is the responsibility of management. Our examination was limited to the verification of procedures on test basis.

6) The Secretarial audit report is neither an assurance as to the future viability of the company nor of the efficacy or effectiveness with which the management has conducted the affairs of the company.

INDEPENDENT AUDITOR'S REPORT

To the Members of Thermax Onsite Energy Solutions Limited

Report on the Audit of the Financial Statements

Opinion

1. We have audited the accompanying financial statements of Thermax Onsite Energy Solutions Limited ("the Company"), which comprise the Balance Sheet as at March 31, 2026, and the Statement of Profit and Loss (including Other Comprehensive Income), the Statement of Changes in Equity and the Statement of Cash Flows for the year then ended, and notes to the financial statements, including material accounting policy information and other explanatory information.

2. In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2026, and total comprehensive income (comprising of profit and other comprehensive income), changes in equity and its cash flows for the year then ended.

Basis for Opinion

3. We conducted our audit in accordance with the Standards on Auditing (SAs) specified under Section 143(10) of the Act. Our responsibilities under those Standards are further described in the "Auditor's Responsibilities for the Audit of the Financial Statements" section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Other Information

4. The Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Directors' report, but does not include the financial statements and our auditor's report thereon.

   Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

   In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management and those Charged with Governance for the Financial Statements

5. The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Act with respect to the preparation of these financial statements that give a true and fair view of the financial position, financial performance, changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards specified under Section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

6. In preparing the financial statements, Board of Directors is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless Board of Directors either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

7. Those Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

8. Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

9. As part of an audit in accordance with SAs, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

   - Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

   - Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under Section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls with reference to financial statements in place and the operating effectiveness of such controls.

   - Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.

   - Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.

   - Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

10. We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

11. We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Other Matter

12. The financial statements of the Company for the year ended March 31, 2025, were audited by prior auditors under the Act who, vide their report dated April 30, 2025, expressed an unmodified opinion on those financial statements.

Report on Other Legal and Regulatory Requirements

13. As required by the Companies (Auditor's Report) Order, 2020 ("the Order"), issued by the Central Government of India in terms of sub-section (11) of Section 143 of the Act, we give in the Annexure B a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.

14. As required by Section 143(3) of the Act, we report that:

    (a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.

    (b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.

    (c) The Balance Sheet, the Statement of Profit and Loss (including other comprehensive income), the Statement of Changes in Equity and the Statement of Cash Flows dealt with by this Report are in agreement with the books of account.

    (d) In our opinion, the aforesaid financial statements comply with the Indian Accounting Standards specified under Section 133 of the Act.

    (e) On the basis of the written representations received from the directors as on March 31, 2026, taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2026, from being appointed as a director in terms of Section 164(2) of the Act.

    (f) With respect to the adequacy of the internal financial controls with reference to financial statements of the Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure A".

    (g) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014 (as amended), in our opinion and to the best of our information and according to the explanations given to us:

        i. The Company has disclosed the impact of pending litigations on its financial position in its financial statements – Refer Note 28(A) to the financial statements;

        ii. The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses.

        iii. There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Company during the year ended March 31, 2026.

        iv. a) The management has represented that, to the best of its knowledge and belief, as disclosed in Note 37(v) to the financial statements no funds have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Company to or in any other person(s) or entity(ies), including foreign entities ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, whether directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Company ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries;

        (b) The management has represented that, to the best of its knowledge and belief, other than as disclosed in the Note 37(vii) to the financial statements no funds have been received by the Company from any person(s) or entity(ies), including foreign entities ("Funding Parties"), with the understanding, whether recorded in writing or otherwise, that the Company shall, whether directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries; and

        (c) Based on such audit procedures that we considered reasonable and appropriate in the circumstances, nothing has come to our notice that has caused us to believe that the representations under sub-clause (a) and (b) contain any material misstatement.

        v. The Company has not declared or paid any dividend during the year.

        vi. Based on our examination, which included test checks, the Company has used multiple accounting software for maintaining its books of account which has a feature of recording audit trail (edit log) facility and that has operated throughout the year for all relevant transactions recorded in the software as described in Note 38 to the financial statements. During the course of our audit, we did not notice any instance of audit trail feature being tampered with. Further, the audit trail, to the extent maintained in the prior year, has been preserved by the Company as per the statutory requirements for record retention, as stated in Note 38 to the financial statements.

15. The Company has paid / provided for managerial remuneration in accordance with the requisite approvals mandated by the provisions of Section 197 read with Schedule V to the Act.

Annexure A to Independent Auditor's Report

Referred to in paragraph 14(f) of the Independent Auditor's Report of even date to the members of Thermax Onsite Energy Solutions Limited on the financial statements as of and for the year ended March 31, 2026

Report on the Internal Financial Controls with reference to Financial Statements under clause (i) of sub-section 3 of Section 143 of the Act

1. We have audited the internal financial controls with reference to financial statements of Thermax Onsite Energy Solutions Limited ("the Company") as of March 31, 2026 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

2. The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting ("the Guidance Note") issued by the Institute of Chartered Accountants of India ("ICAI"). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditor's Responsibility

3. Our responsibility is to express an opinion on the Company's internal financial controls with reference to financial statements based on our audit. We conducted our audit in accordance with the Guidance Note and the Standards on Auditing specified under Section 143(10) of the Act to the extent applicable to an audit of internal financial controls, both applicable to an audit of internal financial controls and both issued by the ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to financial statements was established and maintained and if such controls operated effectively in all material respects.

4. Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system with reference to financial statements and their operating effectiveness. Our audit of internal financial controls with reference to financial statements included obtaining an understanding of internal financial controls with reference to financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

5. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system with reference to financial statements.

Meaning of Internal Financial Controls With Reference to these Financial Statements

6. A company's internal financial controls with reference to financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial controls with reference to financial statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls With Reference to Financial Statements

7. Because of the inherent limitations of internal financial controls with reference to financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to financial statements to future periods are subject to the risk that the internal financial controls with reference to financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

8. In our opinion, the Company has, in all material respects, adequate internal financial controls system with reference to financial statements and such internal financial controls with reference to financial statements were operating effectively as at March 31, 2026, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note issued by ICAI.

Thermax Onsite Energy Solutions Limited

Annexure B to Independent Auditor's Report

Referred to in paragraph 13 of the Independent Auditor's Report of even date to the members of Thermax Onsite Energy Solutions Limited on the financial statements for the year ended March 31, 2026

In terms of the information and explanations sought by us and furnished by the Company, and the books of account and records examined by us during the course of our audit, and to the best of our knowledge and belief, we report that:

(i) (a) (A) The Company is maintaining proper records showing full particulars, including quantitative details and situation, of Property, Plant and Equipment.

(B) The Company is maintaining proper records showing full particulars of Intangible Assets.

(b) The Property, Plant and Equipment of the Company are physically verified by the Management according to a phased programme designed to cover all the items over a period of 3 years which, in our opinion, is reasonable having regard to the size of the Company and the nature of its assets. Pursuant to the programme, a portion of the Property, Plant and Equipment has been physically verified by the Management during the year and no material discrepancies have been noticed on such verification.

(c) The Company does not own any immovable properties (Refer Note 4 to the financial statements). Accordingly, reporting under clause 3(i)(c) of the Order is not applicable to the Company.

(d) The Company has not revalued its Property, Plant and Equipment or Intangible Assets or both during the year. Consequently, the question of our commenting on whether the revaluation is based on the valuation by a Registered Valuer, or specifying the amount of change, if the change is 10% or more in the aggregate of the net carrying value of each class of Property, Plant and Equipment or Intangible Assets does not arise.

(e) No proceedings have been initiated on or are pending against the Company for holding benami property under the Prohibition of Benami Property Transactions Act, 1988 (as amended in 2016) [formerly the Benami Transactions (Prohibition) Act, 1988 (45 of 1988)] and Rules made thereunder, and therefore the question of our commenting on whether the Company has appropriately disclosed the details in the financial statements, does not arise.

(ii) (a) Except for material and other component which are to be leased to customers under finance lease arrangements, the other inventory has been physically verified by the Management during the year and, in our opinion, the coverage and procedure of such verification by Management is appropriate. The discrepancies noticed on physical verification of inventory as compared to book records were not 10% or more in aggregate for each class of inventory.

(b) During the year, the Company has been sanctioned working capital limits in excess of Rs. 5 crores, in aggregate, from banks on the basis of security of current assets. The terms of sanction do not stipulate filing of quarterly returns or statements with such banks, and, accordingly, the question of our commenting on whether the returns or statements are in agreement with the unaudited books of account of the Company, does not arise.

(iii) (a) The Company has made investments in one company and granted unsecured loan to one company. The aggregate amount during the year, and balance outstanding at the balance sheet date with respect to such loans are as per the table given below:

(Amounts in Rupees Lakh)

Particulars	Guarantees	Security	Loans	Advances in nature of loans
Aggregate amount granted / provided during the year - Subsidiary	--	--	800.00	--
Balance outstanding as at balance sheet date in respect of the above cases - Subsidiary	--	--	800.00	--

(Also, refer Note 7(b) to the financial statements)

The Company has not granted any secured loans / advances in nature of loans, or stood guarantee, or provided securities to any other parties.

(b) In respect of the aforesaid investments and loans, the terms and conditions under which such investments were made and loans were granted are not prejudicial to the Company's interest.

(c) In respect of the loans, the schedule of repayment of principal and payment of interest has been stipulated, and the party is repaying the principal amounts, as stipulated, and is also regular in payment of interest as applicable.

(d) In respect of the loans, there is no amount which is overdue for more than ninety days.

(e) There were no loans which have fallen due during the year and were renewed/extended. Further, no fresh loans were granted to same parties to settle the existing overdue loans.

(f) The loans granted during the year, including to a related party had stipulated the scheduled repayment of principal and payment of interest and the same were not repayable on demand. There were no loans / advances in nature of loan granted during the year to promoters.

iv. In our opinion, the Company has complied with the provisions of 186 of the Companies Act, 2013 in respect of the loans and investments made, and guarantees provided by it. Further, the Company has not granted any loans or made any investments or provided any guarantees or security to the parties covered under Sections 185 and has not provided any securities for the parties covered under section 186. Therefore, the reporting under clause 3(iv) of the Order to that extent are not applicable to the Company.

v. The Company has not accepted any deposits or amounts which are deemed to be deposits referred in Sections 73, 74, 75 and 76 of the Act and the Rules framed there under. Accordingly, the reporting under clause 3(v) of the Order is not applicable to the Company.

vi. Pursuant to the rules made by the Central Government of India, the Company is required to maintain cost records as specified under Section 148(1) of the Act in respect of its certain products. We have broadly reviewed the books of account maintained by the Company pursuant to the said requirement, and are of the opinion that, prima facie, the prescribed accounts and records have been made and maintained. We have not, however, made a detailed examination of the records with a view to determine whether they are accurate or complete.

(vii) (a) In our opinion, the Company is generally regular in depositing undisputed statutory dues in respect of income tax and professional tax though there has been a slight delay in a few cases, and is regular in depositing undisputed statutory dues, including provident fund, employees' state insurance, sales tax, service tax, duty of customs, duty of excise, value added tax, cess, goods and services tax and other statutory dues, as applicable, with the appropriate authorities. However, there are no arrears of statutory dues outstanding as at March 31, 2026, for a period of more than six months from the date they became payable.

(b) The particulars of statutory dues referred to in sub-clause (a) as at March 31, 2026 which have not been deposited on account of a dispute, are as follows:

Name of the statute	Nature of the dues	Amount (Rs. In lakhs)	Period to which the amount relates	Forum where the dispute is pending
Income Tax Act, 1961	Income Tax	198.16*	AY 2018-19	Assistant Commissioner of Income Tax, Pune
Income Tax Act, 1961	Income Tax	523.68#	AY 2020-21	Commissioner of Income Tax (Appeals), Pune
Finance Act, 1994	Service Tax	82.37	FY 2015-16	Additional Commissioner of GST, Pune
Central Goods and Services Tax Act, 2017	Goods and Service Tax, Haryana	7.45	FY 2021-22	Joint Commissioner of State Tax (Appeals), Haryana

* Net of INR 47.83 lakh adjusted against refund of AY 2024-25
\# Net of INR 88.01 lakh paid under protest

(viii) There are no transactions previously unrecorded in the books of account that have been surrendered or disclosed as income during the year in the tax assessments under the Income-tax Act, 1961.

(ix) (a) The Company has not defaulted in repayment of loans or other borrowings or in the payment of interest thereon to any lender during the year.

(b) On the basis of our audit procedures, we report that the Company has not been declared Wilful Defaulter by any bank or financial institution or government or any government authority.

(c) The Company has not obtained any term loans during the year ended March 31, 2026 and there was no unutilized balance of term loan obtained in earlier years as on April 01, 2025. Accordingly, reporting under clause 3(ix)(c) of the Order is not applicable to the Company.

(d) According to the information and explanations given to us, and the procedures performed by us, and on an overall examination of the financial statements of the Company, we report that no funds raised on short-term basis have been utilised for long-term purposes by the Company.

(e) On an overall examination of the financial statements of the Company, we report that the Company has not taken any funds from any entity or person on account of or to meet the obligations of its subsidiaries. Further, the Company did not have any joint ventures or associate companies during the year.

(f) According to the information and explanations given to us and procedures performed by us, we report that the Company has not raised loans during the year on the pledge of securities held in its subsidiaries. Further, the Company did not have any joint ventures or associate companies during the year.

(x) (a) The Company has not raised any money by way of initial public offer or further public offer (including debt instruments) during the year. Accordingly, the reporting under clause 3(x)(a) of the Order is not applicable to the Company.

(b) The Company has not made any preferential allotment or private placement of shares or fully or partially or optionally convertible debentures during the year. Accordingly, the reporting under clause 3(x)(b) of the Order is not applicable to the Company.

(xi) (a) During the course of our examination of the books and records of the Company, carried out in accordance with the generally accepted auditing practices in India, we have neither come across any instance of material fraud by the Company or on the Company, noticed or reported during the year, nor have we been informed of any such case by the Management.

(b) During the course of our examination of the books and records of the Company carried out in accordance with the generally accepted auditing practices in India, a report under Section 143(12) of the Act, in Form ADT-4, as prescribed under rule 13 of Companies (Audit and Auditors) Rules, 2014 was not required to be filed by us, as statutory auditors, with the Central Government. Accordingly, the reporting under clause 3(xi)(b) of the Order is not applicable to the Company.

(c) During the course of our examination of the books and records of the Company carried out in accordance with the generally accepted auditing practices in India, and as represented to us by the management, no whistle-blower complaints have been received during the year by the Company. Accordingly, the reporting under clause 3(xi)(c) of the Order is not applicable to the Company.

xii. As the Company is not a Nidhi Company and the Nidhi Rules, 2014 are not applicable to it, the reporting under clause 3(xii) of the Order is not applicable to the Company.

xiii. The Company has entered into transactions with related parties in compliance with the provisions of Section 188 of the Act. The details of related party transactions have been disclosed in the financial statements as required under Indian Accounting Standard 24 "Related Party Disclosures" specified under Section 133 of the Act. Further, the Company is not required to constitute an Audit Committee under Section 177 of the Act and, accordingly, to this extent, the reporting under clause 3(xiii) of the Order is not applicable to the Company.

(xiv) (a) In our opinion, the Company has an internal audit system commensurate with the size and nature of its business.

(b) We were unable to obtain the Internal Audit Reports for the period from January 01, 2026 to March 31, 2026 of the Company and, accordingly, the Internal Audit Reports have been considered by us for the purpose of our audit only to the extent those were made available to us.

(xv) In our opinion, the Company has not entered into any non-cash transactions with its directors or persons connected with the director(s). Accordingly, the reporting on compliance with the provisions of Section 192 of the Act under clause 3(xv) of the Order is not applicable to the Company.

(xvi) (a) The Company is not required to be registered under Section 45-IA of the Reserve Bank of India Act, 1934. Accordingly, the reporting under clause 3(xvi)(a) of the Order is not applicable to the Company.

(b) The Company has not conducted non-banking financial / housing finance activities during the year. Accordingly, the reporting under clause 3(xvi)(b) of the Order is not applicable to the Company.

(c) The Company is not a Core Investment Company as defined in the regulations made by the Reserve Bank of India. Accordingly, the additional reporting under clause 3(xvi)(c) of the Order is not applicable to the Company.

(d) In our opinion, the Group [as defined in the Reserve Bank of India (Core Investment Companies) Directions, 2025] has one CIC as part of the Group.

xvii. The Company has not incurred any cash losses in the financial year or in the immediately preceding financial year.

xviii. There has been resignation of the statutory auditors during the year and we did not note any issues, objections or concerns raised by the outgoing auditors.

xix. On the basis of the financial ratios, ageing and expected dates of realisation of financial assets and payment of financial liabilities, other information accompanying the financial statements, our knowledge of the Board of Directors and management plans and based on our examination of the evidence supporting the assumptions, nothing has come to our attention, which causes us to believe that any material uncertainty exists as on the date of the audit report that the Company is not capable of meeting its liabilities existing at the date of balance sheet as and when they fall due within a period of one year from the balance sheet date. We, however, state that this is not an assurance as to the future viability of the Company. We further state that our reporting is based on the facts up to the date of the audit report and we neither give any guarantee nor any assurance that all liabilities falling due within a period of one year from the balance sheet date will get discharged by the Company as and when they fall due.

xx. As at balance sheet date, the Company does not have any amount remaining unspent under Section 135(5) of the Act. Accordingly, reporting under clause 3(xx) of the Order is not applicable.

xxi. The reporting under clause 3(xxi) of the Order is not applicable in respect of audit of Standalone Financial Statements. Accordingly, no comment in respect of the said clause has been included in this report.

Thermax Onsite Energy Solutions Limited

Notes to the Financial Statements for the year ended March 31, 2026
(All amounts in Rupees Lakh, except per share data and unless stated otherwise)

1. CORPORATE INFORMATION

Thermax Onsite Energy Solutions Limited ('the Company') is a public company incorporated and domiciled in India. The Company offers sustainable solutions, essentially renewable in nature, for utilities namely steam, heat, chilled water (Cooling), Water and Wastewater, Power and Combined Heat and Power, through outsourced utility delivery services based on the Build-Own-Operate/Transfer (BOO/T) business model. The Company currently only caters to the domestic market. The address of its registered office is Thermax House, 14, Mumbai Pune Road, Wakdewadi, Pune, India - 411003. The CIN of the Company is U40109PN2009PLC134659. These financial statements were approved for issue in accordance with the resolution passed by the Board of Directors on April 27, 2026.

The financial statements once approved by the Board of directors needs to be adopted by the shareholders at the annual general meeting of the company. The Board of directors can withdraw and re-issue the financial statements so adopted only in specific cases such as non-compliance with the applicable accounting standards, with the approval of Tribunal, after following the appropriate procedure as per Companies Act 2013.

2. MATERIAL ACCOUNTING POLICIES

2.1. BASIS OF PREPARATION AND MEASUREMENT

(a) STATEMENT OF COMPLIANCE AND BASIS OF PREPARATION

The financial statements (""financial statements"" or "" financial statements have been prepared in accordance with the Indian Accounting Standards (Ind AS), notified under the Companies (Indian Accounting Standards) Rules, 2015 (as amended from time to time) and presentation requirements of Division II of Schedule III to the Companies Act, 2013 (the Act) (as amended from time to time), (Ind AS compliant Sch III), as applicable to the financial statements.

The preparation of the financial statements requires the use of certain critical accounting judgements, estimates and assumptions. It also requires the management to exercise judgement in the process of applying the Company's accounting policies. The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are critical to the financial statements are disclosed in note 3.

(b) BASIS OF MEASUREMENT

The financial statements have been prepared on the accrual and going concern basis under historical cost convention except the following:

- Certain financial assets and liabilities is measured at fair value; and
- Defined benefit plans whereby the plan assets are measured at fair value.
- Equity settled ESOP at grant date fair value at each reporting date.

The accounting policies and related notes further describes the specific measurements applied for each of the assets and liabilities.

2.2. Changes in accounting policies and disclosures

a) New and amended standards adopted by the company

The Ministry of Corporate Affairs vide notification dated 7 May 2025 and 13 August 2025 notified the Companies (Indian Accounting Standards) Amendment Rules, 2025 and Companies (Indian Accounting Standards) Second Amendment Rules, 2025, respectively, which amended certain accounting standards (see below), and are effective for annual reporting periods beginning on or after 1 April 2025:

(a) Classification of Liabilities as Current or Non-current and Non-current Liabilities with Covenants – Amendments to Ind AS 1

As a result of the adoption of the amendments to Ind AS 1, the company changed its accounting policy for the classification of borrowings:

"Borrowings are classified as current liabilities unless, at the end of the reporting period, the company has a right to defer settlement of the liability for at least 12 months after the reporting period.

Covenants that the company is required to comply with, on or before the end of the reporting period, are considered in classifying loan arrangements with covenants as current or non-current. Covenants that the company is required to comply with after the reporting period do not affect the classification."

This new policy did not result in a change in the classification of the company's borrowings. The company did not make retrospective adjustments as a result of adopting the amendments to Ind AS 1.

(b) Supplier Finance Arrangements –Amendments to Ind AS 7 and Ind AS 107

As a result of the adoption of the amendments to Ind AS 7 and Ind AS 107, the Company does not require any new disclosures as the Company does not have supplier finance arrangements.

(c) International Tax Reform – Pillar Two Model Rules – Amendments to Ind AS 12

The company is not within the scope of the OECD Pillar Two Model Rules, as Pillar Two legislation has not yet been enacted in any of the jurisdictions in which the company operates.

(d) Lack of Exchangeability – Amendments to Ind AS 21

The amended Ind AS 21 have added requirements to help entities to determine whether a currency is exchangeable into another currency, and the spot exchange rate to use where it is not.

These amendments did not have any material impact on the amounts recognised in prior periods and are not expected to significantly affect the current or future periods.

b) New standards or amendments not yet adopted

Classification of Liabilities as Current or Non-current and Non-current Liabilities with Covenants –

Amendments to Ind AS 1 - This amendment also includes specific provisions that will take effect for reporting periods beginning on or after 1 April 2026, as outlined below.

Under the existing Ind AS 1, where there is a breach of a material provision of a long-term loan arrangement on or before the end of the reporting period with the effect that the liability becomes payable on demand on the reporting date, the entity does not classify the liability as current, if the lender agreed, after the reporting period and before the approval of the financial statements for issue, not to demand payment as a consequence of the breach.

However, the amended requirements stipulate that entities will no longer be permitted to consider lender waivers that are granted after the reporting date but before the financial statements are approved for the purpose of classification of loans. This amendment is required to be applied retrospectively in accordance with Ind AS 8. The company does not expect this amendment to have an impact on its operations or financial statements.

Notes to the Financial Statements for the year ended March 31, 2026
(All amounts in Rupees Lakh, except per share data and unless stated otherwise)

2.3 SUMMARY OF MATERIAL ACCOUNTING POLICIES

a. Current and non-current classification

An entity shall classify an asset as current when:

(i) it expects to realise the asset, or intends to sell or consume it, in its normal operating cycle

(ii) it holds the asset primarily for the purpose of trading

(iii) it expects to realise the asset within twelve months after the reporting period (other than for long-term projects), or

(iv) the asset is cash or a cash equivalent (as defined in Ind AS 7) unless the asset is restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets shall be classified as non-current.

An entity shall classify a liability as current when:

(i) it expects to settle the liability in its normal operating cycle

(ii) it holds the liability primarily for the purpose of trading

(iii) the liability is due to be settled within twelve months after the reporting period (other than for long-term projects), or

(iv) it does not have the right at the end of the reporting period to defer settlement of the liability for at least twelve months after the reporting period.

All other liabilities shall be classified as non-current.

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

b) Foreign Currencies

The Company's financial statements are prepared in Indian Rupees (Rs.), which is also the functional currency of the Company.

Transactions and balances

Transactions in foreign currencies are initially recorded at the functional currency spot rates at the date the transaction first qualifies for recognition. Monetary assets and liabilities denominated in foreign currencies are translated at the functional currency spot rates of exchange at the reporting date. Exchange differences arising on settlement or translation of monetary items are recognised in the Statement of Profit and Loss

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates at the dates of the initial transactions.

c) Fair value measurement

The Company measures financial instruments at fair value at each balance sheet date. The Company applies fair value measurement when an Ind AS requires or permits fair value measurement for disclosures about fair value measurements except for Ind AS which prescribe measurement and disclosures such as:

a) Share based payment transactions covered by Ind AS 102 - "Share based payments";

b) Leasing transactions covered by Ind AS 116 - "Leases".

In such cases, fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. In addition or further, fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability; or
- In the absence of a principal market, in the most advantageous market for the asset or liability.

The principal or the most advantageous market must be accessible by the Company. The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data is available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorized within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1 - Quoted (unadjusted) market prices in active markets for identical assets or liabilities
- Level 2 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable
- Level 3 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

For the purpose of fair value disclosures, the Company has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

This note summarizes accounting policy for fair value. Other fair value related disclosures are given in the relevant notes.

- Quantitative disclosures of fair value measurement hierarchy (note 31)
- Financial instruments (including those carried at amortised cost) (note 31)

For assets and liabilities that are recognised in the financial statements on a recurring basis, the Company determines whether transfers have occurred between levels in the hierarchy by re-assessing categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

(d) Financial instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

Financial assets

The Company classifies its financial assets in the following measurement categories:

- those to be measured subsequently at fair value (either through other comprehensive income, or through profit or loss)
- those to be measured at amortised cost.

The classification depends on the entity's business model for managing the financial assets and the contractual terms of the cash

flows.

For assets measured at fair value, gains and losses will either be recorded in profit or loss or other comprehensive income. For investments in equity instruments that are not held for trading, this will depend on whether the Company has made an irrevocable election at the time of initial recognition to present subsequent changes in fair value in other comprehensive income.

At initial recognition, the Company measures a financial asset (excluding trade receivables which do not contain a significant financing component) at its fair value plus, in the case of a financial asset not at fair value through profit or loss, transaction costs that are directly attributable to the acquisition of the financial asset. Transaction costs of financial assets carried at fair value through profit or loss are expensed in profit or loss.

Debt instrument

Subsequent measurement of debt instruments depends on the Company's business model for managing the asset and the cash flow characteristics of the asset. There are two measurement categories into which the Company classifies its instruments:

Debt instrument at fair value through profit or loss (FVTPL)

Assets that do not meet the criteria for amortised cost or FVOCI are measured at fair value through profit or loss. A gain or loss on a debt instrument that is subsequently measured at fair value through profit or loss is recognised in profit or loss and presented net within other gains/(losses) in the period in which it arises. Interest income from these financial assets is included in other income.

Derecognition

A financial asset (or, where applicable, a part of a financial asset or part of a company of similar financial assets) is primarily derecognized when:

- The rights to receive cash flows from the asset have expired; or
- The Company has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a "pass-through" arrangement; and either (a) the Company has transferred substantially all the risks and rewards of the asset, or (b) the Company has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

Impairment of financial assets

Further disclosures relating to impairment of financial assets are provided in the following notes:

- Trade receivables - Refer note 7a;
- Loans - Refer note 7b;
- Investments - Refer note 6a and 6b;
- Other financial assets - Refer note 8b.

Financial liabilities

Financial liabilities are classified, at initial recognition, as financial liabilities at FVTPL, loans and borrowings or payables as appropriate. All financial liabilities are recognized initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs. The Company's financial liabilities include trade and other payables, loans, borrowings and financial guarantee contracts.

Subsequent measurement of financial liabilities depends on their classification as fair value through profit and loss or at amortized cost.

All changes in fair value of financial liabilities classified as FVTPL is recognized in the Statement of profit and loss. Amortized cost category is applicable to loans and borrowings, trade and other payables. After initial recognition the financial liabilities are measured at amortized cost using the EIR method. Gains and losses are recognized in profit and loss when the liabilities are derecognized as well as through the EIR amortization process. Amortized cost is calculated by taking into account any discount or premium on acquisition and fees or cost that are integral part on EIR. The EIR amortization is included as finance cost in the Statement of Profit and Loss.

Derecognition

A financial liability is derecognized when the obligation under the liability is discharged or cancelled or expires when an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognized in the Statement of Profit and Loss.

Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the balance sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realize the assets and settle the liabilities simultaneously.

e. Share based payments

In respect of stock options granted pursuant to the Company's Employee Stock Option Scheme, the Company recognises employee compensation expense, using the grant date fair value in accordance with Ind AS 102 - "Share Based Payment (SBP)", over the period over which the employees provide services. Employees (senior executives) of the Company receive remuneration in the form of share-based payments, whereby employees render services as consideration for equity instruments.

The Company initially measures the cost of transactions with employees using using fair value of option granted using black scholes option pricing model to measure the cost of service received.

Estimating fair value for share-based payment transactions requires determination of the most appropriate valuation model and the performance of the Company, which is dependent on the terms and conditions of the grant. This estimate also requires determination of the most appropriate inputs to the valuation model including the expected life of the share option, volatility and dividend yield and making assumptions about them.

The assumptions and models used for estimating fair value for share-based payment transactions are disclosed in note 23.

2.4 Climate-related matters

The company considers climate-related matters in estimates and assumptions, where appropriate. This assessment includes a wide range of possible impacts on the company due to both physical and transition risks. Even though the Company believes its business model and products will still be viable after the transition to a low-carbon economy, climate-related matters increase the uncertainty in estimates and assumptions underpinning several items in the financial statements. Even though climate-related risks might not currently have a significant impact on measurement, the company is closely monitoring relevant changes and developments, such as new climate-related legislation.

3 CRITICAL ACCOUNTING ESTIMATES AND JUDGEMENTS

In the application of the company's accounting policies and preparation of financial statements, the Management is required to make judgements, estimates and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimates

Notes to the Financial Statements for the year ended March 31, 2026
(All amounts in Rupees Lakh, except per share data and unless stated otherwise)

and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods. Detailed information about each of these estimates and judgements is included in relevant notes together with information about the basis of calculation for each affected line item in the Financial Statements.

The areas involving critical estimates or judgements are:

a. Estimations used for fair value measurement (Refer note 31)

b. Estimations used for impairment of financial assets (Refer note 2.3.d)

c. Estimates and assumptions related to useful lives and impairment of Property, Plant and Equipment (PPE) (Refer note 4)

d. Estimates and assumptions for income taxes (Refer note 9)

e. Estimates and assumptions related to provisions (Refer note 18)

f. Estimates, judgments and assumptions used for revenue from operations (Refer note 20)

g. Estimates and judgements used for contingent liabilities (Refer note 28)

h. Judgements related to leasing arrangements (Refer note 34)

i. Judgements related to segment reporting (Refer note 35)

j. Estimations and assumptions used for impairment of investments in subsidiaries (Refer note 6a)

4 Property, plant and equipment

Accounting policy

Property, plant and equipment (PPE) are stated at cost of acquisition or construction net of accumulated depreciation and impairment loss, if any. All costs directly attributable to the acquisition and installation of PPE are capitalised. Subsequent costs/replacement costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. The carrying amount of the replaced part is derecognised. All other repairs and maintenance expenses are charged to the Statement of Profit and Loss during the financial year in which they are incurred.

Gains or losses arising from derecognition of PPE are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognized in the Statement of Profit and Loss when the asset is derecognized.

Depreciation on PPE is calculated on a straight-line basis using the rates arrived at, based on the useful lives estimated by the management. The Company depreciates each part of an item of property, plant and equipment separately if cost of the part is significant in relation to the total cost of the item or principle asset and useful life is materially different from the principle asset.

The management has estimated the useful lives of certain classes of assets in order to reflect the actual usage of the assets. The useful lives have been determined based on technical evaluation done by the management's expert which are lower than those specified by Schedule II to the Companies Act, 2013, in order to reflect the actual usage of the assets. The residual values are not more than 5% of the original cost of the asset. The following useful lives are estimated by the management:

Asset category	Company's estimate of useful life (years)	Useful life as prescribed under Schedule II (years)
Plant and equipment	7.5 to 10	15 to 20
Office equipment	15	15
Computers and data processing units	4 to 6	3 to 6
Vehicles	5	8

The assets residual values, useful lives and methods of depreciation of PPE are reviewed on a regular basis and changes in estimates, when relevant, are accounted for on a prospective basis.

Estimates and assumptions:

The Company determines, based on technical assessment, the estimated useful lives of its property, plant and equipment and intangible assets for calculating depreciation and amortisation. This estimate is determined after considering the expected usage of the asset or physical wear and tear. Management reviews the useful lives periodically and future depreciation and amortisation charge would be adjusted where the management believes the useful lives differ from previous estimates.

Accounting Policy

Impairment of PPE

The Company assesses, at each reporting date, whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the Company estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's or Cash Generating Unit's (CGU) fair value less costs of disposal and its value in use. Recoverable amount is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets. When the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

Impairment losses are recognised in the Statement of Profit or Loss.

For assets, an assessment is made at each reporting date to determine whether there is an indication that previously recognised impairment losses no longer exist or have decreased. If such indication exists, the Company estimates the asset's or CGU's recoverable amount. A previously recognised impairment loss is reversed only if there has been a change in the assumptions used to determine the asset's recoverable amount since the last impairment loss was recognised. The reversal is limited so that the carrying amount of the asset does not exceed its recoverable amount, nor exceed the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognised for the asset in prior years. Such reversal is recognised in the Statement of Profit and Loss unless the asset is carried at a revalued amount, in which case, the reversal is treated as a revaluation increase, if applicable.

The Company assesses where climate risks could have a significant impact, such as the introduction of emission-reduction legislation that may increase manufacturing costs. These risks in relation to climate-related matters are included as key assumptions where they materially impact the measure of recoverable amount. These assumptions have been included in the cash-flow forecasts in assessing value-in-use amounts.

Estimates and assumptions

Impairment exists when the carrying value of an asset or cash generating unit (CGU) exceeds its recoverable amount, which is the higher of its fair value less costs of disposal and its value in use. The fair value less costs of disposal calculation is based on available data from binding sales transactions, conducted at arm's length, for similar assets or observable market prices less incremental costs for disposing of the asset. The value in use calculation is based on a Discounted Cash Flow (DCF) model. The cash flows are derived from the budget for the next five years as approved by the Management and do not include restructuring activities

that the Group is not yet committed to or significant future investments that will enhance the asset's performance of the CGU being tested. The recoverable amount is sensitive to the discount rate used for the DCF model as well as the expected future cash-inflows and the terminal growth rate used.

a. PROPERTY, PLANT AND EQUIPMENT

Particulars	Plant and equipment	Office equipment	Computer & data processing unit	Vehicles	Total	Capital Work in Progress
Gross carrying amount as at April 1, 2024*	**331.10**	**21.46**	**97.00**	**27.94**	**477.50**	**18.25**

Closing accumulated depreciation as at March 31, 2026	**162.80**	**8.81**	**90.84**	**14.12**	**276.57**	**-**
Net Block as at March 31, 2026	**201.97**	**32.57**	**51.22**	**13.82**	**299.58**	**27.66**
Net Block as at March 31, 2025	**242.07**	**31.21**	**69.12**	**19.13**	**361.53**	**-**

*The Company had elected to continue with the carrying value of property, plant and equipment as recognised in the financial statements as per previous GAAP and had regarded those values as the deemed cost on the date of Ind AS transition (i.e. April 1, 2015). The Company has disclosed the gross block and accumulated depreciation above, for information purpose only.

See note 28(B) for disclosure of contractual commitments for the acquisition of property, plant and equipment.

The Company has not given any PPE as security against any borrowings or credit facility and does not have any charges against PPE.

b. Capital work in progress* ('CWIP')

Accounting Policy

The company recognises capital work in progress at cost, net of accumulated impairment loss, if any.

Ageing of Capital work-in-progress (CWIP) #:

Description		Amount in CWIP for a period of			
		Less than 1 year	1-2 years	2-3 years	Total
Project-in-progress	March 31,2026	27.66	-	-	27.66
	March 31,2025	-	-	-	-

For CWIP, there are no assets whose completion date is overdue or exceeded its cost as compared to its original plan for the year ended and as at March 31, 2026 and March 31, 2025.

5 Intangible Assets

Accounting policy

Intangible assets acquired separately are measured on initial recognition at cost. The cost of intangible assets acquired in a business combination is their fair value at the date of acquisition. Following initial recognition, intangible assets are carried at cost less any accumulated amortization and accumulated impairment losses.

Development costs for internally generated intangibles that are directly attributable to the design and testing of identifiable and unique intangible controlled by the Company are recognised as intangible assets where the following criteria are met:

- it is technically feasible to complete the intangible asset so that it will be available for use
- management intends to complete the intangible asset and use or sell it
- there is an ability to use or sell the intangible asset
- it can be demonstrated how the intangible asset will generate probable future economic benefits
- adequate technical, financial and other resources to complete the development and to use or sell the intangible asset are available, and
- the expenditure attributable to the intangible asset during its development can be reliably measured.

The cost may also include transfers from equity of any gains or losses on qualifying cash flow hedges of foreign currency purchases of intangible assets. Intangible assets with finite lives are amortized over the useful economic life and assessed for impairment whenever there is an indication that the intangible asset may be impaired. The amortization period and the amortization method for an intangible asset with a finite useful life are reviewed at least at the end of each reporting period. Changes in the expected useful life or the expected pattern of consumption of future economic benefits embodied in the asset are considered to modify the amortization period or method, as appropriate, and are treated as changes in accounting estimates.

Gains or losses arising from derecognition of an intangible asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognized in the Statement of Profit and Loss when the asset is derecognized.

Amortization of the asset begins when development is complete and the asset is available for use. It is amortized on a straight-line basis over the period of expected future benefit from the related project, i.e., the estimated useful life subject to a maximum of ten years. Amortization is recognized in the Statement of Profit and Loss unless such expenditure forms part of carrying value of another asset. During the period of

Notes to the Financial Statements for the year ended March 31, 2026
(All amounts in Rupees Lakh, except per share data and unless stated otherwise)

development, the asset is tested for impairment annually.

The following useful lives are adopted by the management:

Asset category	Life (years)
Computer software	4 to 6

Particulars	Computer Software	Total
Gross carrying amount as on April 01, 2024*	**14.70**	**14.70**

Charge for the year	0.78	0.78
Closing accumulated amortisation as at March 31, 2025	**14.70**	**14.70**
Charge for the year	-	-
Disposals/discards	-	-
Closing accumulated amortisation as at March 31, 2026	**14.70**	**14.70**
Net Block as at March 31, 2026	**-**	**-**
Net Block as at March 31, 2025	**-**	**-**

*The Company had elected to continue with the carrying value of property, plant and equipment and intangible assets as recognised in the financial statements as per previous GAAP and had regarded those values as the deemed cost on the date of transition to Ind AS (i.e. April 1, 2015). The Company has disclosed the gross block and accumulated amortisation above, for information purpose only.

6(a) Investments in subsidiaries

Accounting policy

Investments in subsidiaries are carried at cost less accumulated impairment losses in the Company's balance sheet. On disposal of such investments, the difference between disposal proceeds and the carrying amounts of the investments are recognised in the Statement of Profit and Loss.

Impairment

Investment in subsidiaries are tested for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs of disposal and value in use.

Estimates and assumptions

The Company performs impairment assessment of investments by making an estimate of the recoverable amount, being the higher of fair value less costs to sell and its value in use which is then compared with the carrying value. An impairment loss is recognised in the Statement of Profit and Loss to the extent the carrying value of an asset exceeds the recoverable amount. The value in use of these investments is determined using discounted cash flow model (DCF model) requiring various assumptions and judgements. These include future cashflows and growth rate assumptions, discount rate, terminal growth rate and other economic and entity specific factors which are incorporated in the DCF model. The estimated cash flows are developed using internal forecasts.

Particulars	Face value per share	Number of units		Amount

Investments at fair value through profit or loss reflect investment in quoted debt securities. Refer note 31 for determination of their fair values.

7 (a) Trade receivables - carried at amortised cost

(i) Accounting policy - Trade Receivables

Trade receivables are amounts due from customers for goods sold or services performed in the ordinary course of business and reflect the Company's unconditional right to consideration (that is, payment is due only on the passage of time). Trade receivables are recognised initially at the transaction price as they do not contain significant financing components. The Company holds the trade receivables with the objective of collecting the contractual cash flows and therefore measures them subsequently at amortised cost using the effective interest method, less loss allowance.

For trade receivables, the Company applies the simplified approach required by Ind AS 109, which requires expected lifetime losses to be recognised from initial recognition of the receivables.

(ii) Accounting policy - Expected Credit Loss:

To measure the expected credit losses, trade receivables including unbilled receivables have been grouped based on shared credit risk characteristics and the days past due. A unbilled receivable represents the Company's right to consideration in exchange for goods or services that the entity has transferred to a customer and billing is pending merely due to the passage of time; and have substantially the same risk characteristics as the trade receivables for the same types of contracts. The Company has therefore concluded that the expected loss rates for trade receivables are a reasonable approximation of the loss rates for the unbilled revenue.

Credit risk on trade receivables are managed by the Company subject to it's established policy, procedures and control relating to customer credit risk management. Credit quality of a customer is assessed and credit limits are defined in accordance with this assessment. Moreover, given the diverse nature of the Company's businesses, trade receivables are spread over a number of customers with no significant concentration of credit risk.

For trade receivables, as a practical expedient, the Company computes credit loss allowance based on a provision matrix. The provision matrix is prepared based on historically observed default rates over the expected life of trade receivables is adjusted for forward-looking estimates.

Trade receivables are written off where there is no reasonable expectation of recovery. Indicators that there is no reasonable expectation of recovery include, amongst others, the failure of a debtor to engage in a repayment plan with the Company, and a failure to make contractual payments for a period of greater than 365 days past due.

Impairment losses on trade receivables are presented as expected credit loss in the Statement of Profit and Loss. Subsequent recoveries of amounts previously written off are credited against the same line item.

Estimates and Judgements

The impairment provisions for financial assets are based on assumptions about risk of default, expected loss rates and timing of cash flows. The Company uses judgment in making these assumptions and selecting the inputs to the impairment calculation, based on the Company's past history, existing market conditions as well as forward looking estimates at the end of each reporting period.

As a practical expedient, the Company uses a provision matrix to determine ECL impairment allowance on portfolio of its trade receivables. The provision matrix is based on its historically observed default rates over the expected life of the trade receivables and is adjusted for forward-looking estimates. At every reporting date, the historical observed default rates are updated and changes in the forward-looking estimates are analysed. The Company follows provisioning norms based on ageing of receivables to estimate the impairment allowance under ECL.

The Company have no impairment allowance on Trade receivables as at March 31, 2026 and as at March 31, 2025.

	As at March 31, 2026	As at March 31, 2025
Trade receivables from:		
i) Related parties	262.64	107.20
ii) Others - unbilled^	1,141.97	912.81
iii) Others - billed	5,374.81	5,183.75
Total	**6,779.42**	**6,203.76**

Secured, considered good	-	-
Unsecured, considered good	6,779.42	6,203.76
Trade receivables which have a significant increase in credit risk	-	-
Trade receivables - credit impaired	-	-
	6,779.42	**6,203.76**
Less: Impairment allowance	-	-
Total	**6,779.42**	**6,203.76**

^The receivable is 'unbilled' because the company has not yet issued an invoice; however, the balance has been included under trade receivables (as opposed to contract assets) because it is an unconditional right to consideration. Unbilled receivable also includes unbilled related party balances of Rs. 14.60 (March 31, 2025: Nil).

No trade or other receivable are due from directors or other officers of the company either severally or jointly with any other person. Nor any trade receivable are due from firms or private companies respectively in which any director is a partner, a director or a member.

All outstanding balances are unsecured and repayable in cash. Trade receivables are non-interest bearing and are normally settled on credit terms of 4 to 30 days.

For the terms and conditions of related party transactions refer note 30.

*Recovery of expenses from subsidiary. Refer note 30 for related party disclosures.

9 Income Taxes

Accounting policy

Tax expense comprises current tax expense and deferred tax.

Current tax

Current tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted, at the reporting date.

Current income tax relating to items recognized outside profit or loss is recognized either in OCI or in equity, in correlation to the underlying transaction.

Deferred tax

Deferred tax is provided using the liability method on temporary differences between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes at the reporting date. Deferred tax assets are recognised for all deductible temporary differences, the carry forward of unused tax credits and any unused tax losses. Deferred tax assets are recognised to the extent that it is probable that future taxable profit will be available against which the deductible

temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilised. Deferred income tax is not accounted for if it arises from initial recognition of an asset or liability in a transaction other than a business combination that at the time of the transaction affects neither accounting profit nor taxable profit (tax loss) and does not give rise to equal taxable and deductible temporary differences.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient future taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets are re-assessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

Deferred tax relating to items recognised outside profit or loss is recognised outside profit or loss (either in OCI or in equity), in correlation to the underlying transaction.

Deferred tax assets and liabilities are offset where there is a legally enforceable right to offset current tax assets and liabilities and where the deferred tax balances relate to the same taxation authority. Current tax assets and tax liabilities are offset where the entity has a legally enforceable right to offset and intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously.

The Company applies significant judgement in identifying uncertainties over income tax treatments.

Estimates and assumptions

Recoverability of Deferred tax assets:

At each balance sheet date, the Company assesses whether the realization of future tax benefits is sufficiently probable to recognize deferred tax assets. This assessment requires the use of significant estimates with respect to assessment of future taxable income. The recorded amount of total deferred tax assets could change if estimates of projected future taxable income or if changes in current tax regulations are enacted.

The major components of income tax expense for the year ended March 31, 2026 and March 31, 2025 are:

Statement of profit and loss

Particulars	For the year ended March 31, 2026	For the year ended March 31, 2025
Current tax	1,533.50	1,114.68
Deferred tax	(15.31)	141.30
Income tax expense reported in the statement of profit and loss	**1,518.19**	**1,255.98**

Other comprehensive income

Particulars	For the year ended March 31, 2026	For the year ended March 31, 2025
Tax related to items recognised in other comprehensive income during the year		
Net (gain) or loss on remeasurements of defined benefit plans	(1.12)	(3.69)
Deferred tax credited in other comprehensive income	**(1.12)**	**(3.69)**

Current tax expenses

Particulars	For the year ended March 31, 2026	For the year ended March 31, 2025
Current tax on profits for the year	1,533.50	1,114.68
Total current tax expense	**1,533.50**	**1,114.68**

Reconciliation of tax expense and accounting profit multiplied by India's domestic tax rate

Particulars	For the year ended March 31, 2026	For the year ended March 31, 2025
Accounting profit before tax	5,766.43	4,885.77
At India's statutory income tax rate (as per Income Tax Act, 1961) of 25.17% (March 31, 2025: 25.17%)	1,451.41	1,229.75
Other differences (includes differences on account of CSR disallowances etc.)	66.78	26.23
Effective tax	**1,518.19**	**1,255.98**
Total tax expense reported in the statement of profit or loss	**1,518.19**	**1,255.98**

Deferred tax

Statement of Profit and Loss and OCI

Particulars	For the year ended March 31, 2026	For the year ended March 31, 2025
Deferred tax relates to the following :		
Consequence of differences in tax base of assets and finance lease receivables	(130.39)	(183.79)
On unearned revenue*	94.76	133.56
Others (mainly includes impact on account of disallowances under section 43B of the Income-tax Act, 1961)	52.06	(87.37)
Deferred tax (expense)/income in the Statement of Profit and Loss and OCI	**16.43**	**(137.60)**

Balance sheet

Particulars	As at March 31, 2026	As at March 31, 2025
Deferred tax relates to the following :		
Consequence of differences in tax base of assets and finance lease receivables	(722.18)	(591.79)
On unearned revenue*	741.49	646.73
Others (mainly includes impact on account of disallowances under section 43B of the Income-tax Act, 1961)	163.93	111.87
Net deferred tax assets	**183.24**	**166.81**

*includes revenue remaining unearned for the portion attributable to maintenance of leased equipment constructed at customer premises under finance lease arrangements.

Notes to the Financial Statements for the year ended March 31, 2026
(All amounts in Rupees Lakh, except per share data and unless stated otherwise)

Reconciliation of deferred tax assets (net)

Particulars	As at March 31, 2026	As at March 31, 2025
Opening balance as at April 01	166.81	304.42
Tax (expense) / income during the period recognised in profit or loss	15.31	(141.30)
Tax (expense)/income during the period recognised in other comprehensive income - Items that will not be reclassified subsequently to profit or loss	1.12	3.69
Closing balance as at March 31	**183.24**	**166.81**

The Company offsets tax assets and liabilities if and only if it has a legally enforceable right to set off current tax assets and current tax liabilities and the deferred tax assets and deferred tax liabilities relate to income taxes levied by the same tax authority.

No income tax was recognised directly in equity during the year ended March 31, 2026 & March 31, 2025. Refer note 14 for further details.

Income Tax Assets/Liabilities for income tax:

Movement in tax liabilities	As at March 31, 2026	As at March 31, 2025
Opening balance as at April 01	406.55	(202.52)
Add/(less): Tax payable for the year	(1,533.50)	(1,114.68)
Add: Taxes paid (net of refunds received)	1,481.00	1,723.75
Closing balance as at March 31	**354.05**	**406.55**

The above balance is represented in the balance sheet as below:

Particulars	As at March 31, 2026	As at March 31, 2025
Income tax asset - non current	173.03	408.03
Income tax asset - current	236.61	-
Liabilities for income tax (net) - current	55.59	1.48

10 Other assets

Particulars	Non Current		Current	
	As at March 31, 2026	As at March 31, 2025	As at March 31, 2026	As at March 31, 2025
Unsecured considered good				
Balances with government authorities	-	-	1,151.63	949.77
Advances to suppliers	248.29	252.34	230.35	75.78
Advances to staff and workers	-	-	18.63	21.78
Advance to related parties	-	-	1,000.66	199.36
Prepaid expenses	101.55	99.65	26.74	94.52
Total	**349.84**	**351.99**	**2,428.01**	**1,341.21**

There were no advances due from directors or officers of the Company or any of them severally or jointly with any other persons or amounts due from firms or private companies respectively in which such director is a partner, director or a member.

For terms and conditions relating to advances given to related parties, refer note 30

11 Inventories

Accounting policy

Raw materials and components, stores and spares, work in progress, stock-in-trade and finished goods are stated at the lower of cost and net realisable value. Cost of raw materials and components and stores and spares and stock-in-trade comprises cost of purchases. Cost of work-in-progress and finished goods comprises direct materials, direct labour and an appropriate proportion of variable and fixed overhead expenditure, the latter being allocated on the basis of normal operating capacity. Cost of inventories also include all other costs incurred in bringing the inventories to their present location and condition. Costs of purchased inventory are determined after deducting rebates and discounts. Net realisable value is the estimated selling price in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sale. Costs of all classes of inventories are determined on weighted average basis. Write down of inventories is calculated based on an analysis of foreseeable changes in demand, technology, market conditions and ageing of inventories.

Particulars	As at March 31, 2026	As at March 31, 2025
Raw materials#	963.19	715.72
Stores and spares#	342.74	186.64
Work in progress^*@	3,755.36	5,300.37
Total	**5,061.29**	**6,202.73**

* Includes purchase of machinery and other components which are to be leased to customers under finance lease arrangements.

^Inventory amounting to Rs. Nil (March 31, 2025 Rs. 4,976.92) has been hypothecated against borrowings. Refer note 15.

#Inventory amounting to Rs. 1,305.93 (March 31, 2025 Rs. 902.36) has been hypothecated against working capital facility.

@Includes goods in transit of Rs. 547.40 (March 31,2025: Rs. 10.5)

12 (a) Cash and cash equivalents

Accounting policy

Cash and cash equivalents in the balance sheet comprise of cash at banks and on hand and short-term deposits with an original maturity of three months or less, which are subject to an insignificant risk of changes in value. For the purpose of presentation in the statement of cash flows, cash and cash equivalents consists of cash on hand, deposits held at call with financial institutions, other short-term, highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value, and bank overdrafts as they are considered an integral part of the Company's cash management. Bank overdrafts are shown within borrowings in current liabilities in the balance sheet.

Particulars	As at March 31, 2026	As at March 31, 2025
Balances with banks		
- in current accounts	116.72	620.97
Total	**116.72**	**620.97**

There are no repatriation restrictions with regard to cash and cash equivalents as at the end of the reporting period and previous periods.

12 (b) Changes in liabilities arising from financing activities

Particulars	Borrowings
As on April 1, 2024	11,958.29
Cash flow	(1,361.46)
Interest expense (including borrowing cost capitalised)	957.26
Interest paid	(992.68)
As on March 31, 2025	**10,561.41**
Cash flow	(2,610.37)
Interest expense (including borrowing cost capitalised)	693.06
Interest paid	(709.01)
As on March 31, 2026	**7,935.09**

13 Share capital

Accounting policy

Equity shares issued to shareholders are classified as equity. Incremental costs directly attributable to the issue of new equity shares are recognized as a deduction from equity, net of any related income tax effects.

Particulars	As at March 31, 2026	As at March 31, 2025
Authorized shares (Nos)		
150,000,000 (March 31, 2025: 150,000,000) equity shares of Rs. 10/- each.	15,000.00	15,000.00
	15,000.00	**15,000.00**
Issued, subscribed and fully paid share capital (Nos)		
108,280,000 (March 31, 2025: 108,280,000) equity shares of Rs. 10/- each fully paid up	10,828.00	10,828.00
Total issued, subscribed and fully paid-up share capital	**10,828.00**	**10,828.00**

(a) Reconciliation of the shares outstanding at the beginning and at the end of the year

Particulars	No. of Shares	Amount
Equity share of Rs. 10 each issued, subscribed and fully paid		
As at April 01, 2024	108,280,000	10,828.00
Changes during the year	-	-
As at March 31, 2025	**108,280,000**	**10,828.00**
Changes during the year	-	-
As at March 31, 2026	**108,280,000**	**10,828.00**

(b) Terms/ rights attached to equity shares

The Company has one class of equity shares having a par value of Rs.10 per share. Each shareholder is eligible for one vote per share held. The dividend proposed by the Board of Directors is subject to the approval of the shareholders in the ensuing Annual General Meeting, except in case of interim dividend. In the event of liquidation, the equity shareholders are eligible to receive the remaining assets of the Company after distribution of all preferential amounts, in proportion to their shareholding.

(c) Equity share capital held by holding company

Particulars	As at March 31, 2026	As at March 31, 2025
Thermax Limited*		
108,280,000 (March 31, 2025: 108,280,000) equity shares of Rs. 10/- each fully paid up	10,828.00	10,828.00

(d) Details of equity shares held by shareholders holding more than 5% of the aggregate shares in the Company

Particulars	As at March 31, 2026	As at March 31, 2025
Thermax Limited*		
%	100.00	100.00
No. of shares	108,280,000	108,280,000

As per records of the Company, including its register of shareholders/ members and other declarations received from shareholders regarding beneficial interest, the above shareholding represents the legal ownerships of shares.

*Includes 6 shares (March 31, 2025: 6 shares) held by nominee shareholders.

(e) There were no issue of bonus shares/buy back of shares/issue of shares for consideration other than cash during the period of five years immediately preceding the reporting date.

(f) All other notes mandated by Schedule III are not applicable to the Company.

14 Other Equity

Particulars	As at March 31, 2026	As at March 31, 2025
Reserves and Surplus		
Retained earnings		
Opening balance	14,396.39	10,777.57
Add: Profit for the year	4,248.24	3,629.79
Movement during the year	**4,248.24**	**3,629.79**
Items of other comprehensive income recognised directly in retained earnings:		
Re-measurements (loss) on defined benefit plans (net of tax)	(3.34)	(10.97)
Net surplus in the statement of profit and loss	**18,641.29**	**14,396.39**
Share options outstanding account		
Opening balance	18.61	7.63
Add: Share based payments	10.74	10.98
Closing balance	**29.35**	**18.61**
Total Reserves and Surplus	**18,670.64**	**14,415.00**

Retained earnings

Retained earnings are profits/(loss) that the Company has earned/ incurred till date, less any transfers to general reserve, dividends or other distributions paid to shareholders. Retained earnings also include re-measurement loss/(gain) on defined benefit plans, net of taxes that will not be reclassified to Statement of Profit and Loss.

Share options outstanding account

The company has established equity settled share based payment plan issued by Parent Company for certain categories of employees of the Company (refer note 23)

15(a) Non-current borrowings

Particulars	As at March 31, 2026	As at March 31, 2025
At amortized cost		
Secured		
Loan from bank*	7,935.09	10,561.41
(Less) : Current maturities of long term borrowings	(2,326.98)	(2,639.79)
Total	**5,608.11**	**7,921.62**

15(b) Current borrowings

Particulars	As at March 31, 2026	As at March 31, 2025
Current maturities of non-current borrowings**	2,326.98	2,639.79
Total	**2,326.98**	**2,639.79**

*Loan from bank carries an effective interest rate ranging between 6.40% - 8.40% (March 31, 2025 : 8.17% - 9.48%). The loan has been availed for 60 to 84 months and it is repayable in 48 to 72 monthly instalments along with interest, from the date the moratorium period ends. The loan has a moratorium period of 12 months for repayment of principal. The loan is secured by first charge on plant and machinery leased to customers under finance lease receivable, and inventory work in progress, an escrow of cashflow for the specific project for which such facility was availed.

Notes to the Financial Statements for the year ended March 31, 2026
(All amounts in Rupees Lakh, except per share data and unless stated otherwise)

**Current borrowings include interest accrued on current and non-current borrowings.

The Company was in compliance with all of its debt covenants for outstanding borrowings for both years.

16 Trade Payables at amortised cost

Particulars	As at March 31, 2026	As at March 31, 2025
Trade payables		
Total outstanding dues of micro enterprises and small enterprises	2,832.62	1,646.49
Total outstanding dues of creditors other than micro enterprises and small enterprises		
(i) Related Parties (refer note 30)	1,486.12	328.95
(ii) Others	1,133.15	919.99
	2,619.27	**1,248.94**
Total	**5,451.89**	**2,895.43**

For terms and conditions relating to related party receivables, refer note 30.

Trade payables are non-interest bearing and are normally settled on credit terms of 7 to 30 days.

Details of dues to micro enterprises and small enterprises as defined under The Micro, Small and Medium enterprises Development (MSMED) Act 2006

Particulars	As at March 31, 2026	As at March 31, 2025
i) The principal amount and the interest due thereon remaining unpaid to any supplier as at the end of each accounting year		
-Principal amount outstanding (whether due or not) to micro and small enterprises*	2,751.24	1,575.79
-Interest due thereon	0.26	0.86
ii) The amount of interest paid by the Company in terms of section 16 of the MSMED Act, 2006 along with the amounts of the payment made to the supplier beyond the appointed day during each accounting year	-	-
iii) The amount of payment made to the supplier beyond the appointed day during the year	2,595.46	705.89
iv) The amount of interest due and payable for the period of delay in making payment (which have been paid but beyond the appointed day during the year) but without adding the interest specified under the MSMED Act, 2006	10.43	21.34
v) The amount of interest accrued and remaining unpaid at the end of each accounting year	10.68	22.20
vi) The amount of further interest remaining due and payable even in the succeeding years, until such date when the interest dues as above are actually paid to the small enterprise for the purpose of disallowance as a deductible expenditure under section 23 of the MSMED Act, 2006	81.38	70.70

* Information in this regard is on basis of intimation received, on requests made by the Company, with regards to registration of vendors under the MSMED Act, 2006.

18 Provisions

Accounting policy

Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required

to settle the obligation and a reliable estimate can be made of the amount of the obligation. When the Company expects some or all of a provision to be reimbursed, for example, under an insurance contract, the reimbursement is recognised as a separate asset, but only when the reimbursement is virtually certain.

If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost.

For provision for leave encashment and gratuity - Refer note 29

Refund liabilities: A refund liability is recognised for the obligation to refund some or all of the consideration received (or receivable) from the customer. The Company's refund liabilities arise from customers' contractual right to receive share of savings in fuel cost and volume rebates. The Company updates its estimates of refund liabilities (and the corresponding change in the transaction price) at the end of each reporting period.

Particulars	As at March 31, 2026	As at March 31, 2025
Provision for employee benefits		
Provision for gratuity (refer note 29)	41.84	10.91
Provision for leave encashment	129.30	107.77

Utilised during the year	(208.08)	(88.69)
Balance as at March 31	**234.70**	**260.01**

19 Other liabilities

Accounting policy

Contract liabilities: A contract liability is the obligation to transfer goods or services to a customer for which the Company has received consideration (or an amount of consideration is due) from the customer. If a customer pays consideration before the Company transfers goods or services to the customer, a contract liability is recognised when the payment is made or the payment is due (whichever is earlier). Contract liabilities are recognised as revenue when the Company satisfies the performance obligation. Contract liabilities are recorded in balance sheet as unearned revenue or customer advances as the case may be.

The disclosures of significant accounting judgements, estimates and assumptions relating to revenue from contracts with customers are provided in Note 20.

Particulars	Non Current		Current	
	As at March 31, 2026	As at March 31, 2025	As at March 31, 2026	As at March 31, 2025
Advance lease rentals	1,574.97	1,299.52	280.68	233.16
Unearned revenue (Contract liabilities)*	2,336.66	2,117.49	609.26	451.96
Statutory dues and other liabilities**	-	-	124.39	339.69
Total	**3,911.63**	**3,417.01**	**1,014.33**	**1,024.81**

*includes revenue remaining unearned for the portion attributable to maintenance of leased equipment constructed at customer premises under finance lease arrangements.

** includes payable for tax deducted at source, provident fund, professional tax and goods and services tax.

20 Revenue from operations

Accounting policy

Revenue from contract with customer:

Revenue from contracts with customers is recognized when control of the goods or services are transferred to the customer at an amount that reflects the consideration to which the Company expects to be entitled in exchange for those goods or services. Revenue is recognized when it has approval and commitment from both parties, the rights of the parties are identified, payment terms are identified, the contract has commercial substance and collectability of consideration is probable. The Company has concluded that it is the principal in all of its revenue arrangements since it is the primary obligor in all the revenue arrangements as it has pricing latitude and is also exposed to inventory risks. The Company collects goods and services tax on behalf of the government and, therefore, it is not an economic benefit flowing to the Company. Hence, it is excluded from revenue.

The Company has following stream of Revenue:

The Company has revenue from supply of sustainable solutions, essentially renewable in nature, for utilities namely steam and water and wastewater through outsourced utility delivery services based on the Build-Own-Operate/Transfer (BOO/T) business model.

The Company assesses for the timing of revenue recognition in case of each distinct performance obligation. The Company first assesses whether the revenue can be recognized over a period of time if any of the following criteria is met:

(a) The customer simultaneously consumes the benefits as the Company performs; or

(b) The customer controls the work-in-progress; or

(c) The Company's performance does not create an asset with alternative use to the Company and the Company has right to payment for performance completed till date.

The Company identifies distinct performance obligations in each contract. The Company allocates the transaction price to each performance obligation on a relative stand-alone selling price basis by determining the stand-alone selling price at contract inception of the distinct good or service underlying each performance obligation in the contract and allocates the transaction price in proportion to those stand-alone selling prices. Since the consideration is inclusive of the lease component, the stand-alone selling price is not directly observable. Hence, the Company estimates the standalone selling price by considering all the information (including market conditions, entity-specific factors and information about the customer or class of customer) that is reasonably available to the Company.

Revenue from sale of utilities is recognised at the point in time when control of the asset is transferred to the customer, generally on supply of the utilities. Revenue from the sale of goods is measured at the fair value of the consideration received or receivable, net of returns and allowances, trade discounts and volume rebates. The Company has identified maintenance of leased assets as separate performance obligation. Revenue for such obligation is recognised over the period in which the service is provided based on the actual expenditure incurred.

Rights of return

The Company uses the expected value method to estimate the variable consideration given the large number of contracts that have similar characteristics. The Company then applies the requirements on constraining estimates of variable consideration in order to determine the amount of variable consideration that can be included in the transaction price. A refund liability is recognised for the goods that are expected to

Notes to the Financial Statements for the year ended March 31, 2026
(All amounts in Rupees Lakh, except per share data and unless stated otherwise)

be passed on. A right of return asset (and corresponding adjustment to cost of sales) is also recognised for the right to recover the goods from a customer.

Revenue where the company as a Lessor

Revenue from sale of utilities is recognised at the point in time when control of the asset is transferred to the customer, on supply of the utilities. Revenue from the sale of goods is measured at the fair value of the consideration received or receivable, net of returns and allowances, trade discounts and volume rebates.

Estimates and judgements

Maintenance cost against unearned revenue

These costs are provided based on a technical estimate of the costs required to be incurred for comprehensive repairs & maintenance cost and allied material and servicing cost of machinery installed at customer site. Management estimates the related provision for future comprehensive repairs & maintenance cost based on historical incurred cost information, as well as recent trends that might suggest that past cost information may differ from future claims. The assumptions made in current period are consistent with those in the prior year. Factors that could impact the estimated claim information include the success of the Company's productivity and quality initiatives. Refer note 19 for further details.

a) Revenue from operations :

Particulars	For the year ended March 31, 2026	For the year ended March 31, 2025
Revenue from contracts with customers		
Sale of products	48,518.04	43,789.48
Sale of leased assets *	5,749.23	9,233.09
Sale of traded goods	54.77	-
Finance income on leased assets	3,158.47	2,812.78
	57,480.51	**55,835.35**
Other operating revenue		
Sale of scrap	17.28	18.70
Amortisation of prepaid lease rental	297.89	177.52
	315.17	**196.22**
Revenue from operations (Net)	**57,795.68**	**56,031.57**

* pertains to sale of equipment to customers under finance lease arrangements.

b) Disclosure pursuant to Ind AS 115: Revenue from contracts with customers:

i) Revenue by category of contracts:

Particulars	For the year ended March 31, 2026	For the year ended March 31, 2025
Over a period of time basis	525.31	579.77
At a point-in-time basis	53,796.73	52,442.80
Total revenue from contracts with customers	**54,322.04**	**53,022.57**

ii) Revenue by geographical market:

Particulars	For the year ended March 31, 2026	For the year ended March 31, 2025
Within India	57,795.68	56,031.57
Revenue from operations (net)	**57,795.68**	**56,031.57**

iii) Contract balances:

The following table provides information about contract balances from contracts with customers as at the reporting date:

Particulars	As at March 31, 2026	As at March 31, 2025
Trade receivables (including unbilled revenue) (note 7)	6,779.42	6,203.76
Non current unearned revenue (Contract liability) (note 19)	2,336.66	2,117.49
Current unearned revenue (Contract liability) (note 19)	609.26	451.96

The contract liabilities relate to unearned revenue where performance obligations are yet to be fulfilled as per the contracts. The fulfilment of the performance obligations will extinguish these liabilities and revenue will be recognised, with no impact on the Company's cash positions on specific projects.

iv) Revenue recognised in the reporting period that was included in the contract liabilities balance at the beginning of the year:

	For the year ended March 31, 2026	For the year ended March 31, 2025
Unearned revenue (Contract liability)	525.31	579.77

v) Changes in unearned revenue (contract liability) for the year:

The explanation of the significant changes in the unearned balances during the reporting year is presented in the table below:-

Particulars	As at March 31, 2026	As at March 31, 2025
Opening unearned revenue (refer note 19)	**2,569.45**	**2,038.88**
-Revenue unearned for the portion attributable to maintenance of leased assets constructed at customer premises under finance lease arrangements	901.78	1,110.34
-Revenue recognised that was included in the unearned revenue balance at the beginning of the period	(525.31)	(579.77)
Closing unearned revenue (refer note 19)	**2,945.92**	**2,569.45**

vi) Unsatisfied performance obligations:

The following table includes unsatisfied performance obligations resulting from long term lease contracts.

Particulars	As at March 31, 2026	As at March 31, 2025
Amount of revenue yet to be recognised for performance obligations remaining to be completed*	54,358.32	52,436.27

*The Company has disclosed remaining performance obligation expected to be fulfilled in next 12 months. However, the contracts with customers for supply of utilities are for a longer period.

vii) Reconciliation between revenue recognised in Statement of profit and loss and contract price:

There is no significant variation between revenue recognised in Statement of profit and loss and contract price except price variation claims, which are considered to be part of contract price.

Notes to the Financial Statements for the year ended March 31, 2026
(All amounts in Rupees Lakh, except per share data and unless stated otherwise)

21 Other income

Accounting policy

(i) Interest income

For all debt instruments measured at amortized cost, interest income is recorded using the Effective Interest Rate (EIR). EIR is the rate that exactly discounts the estimated future cash payments or receipts over the expected life of the financial instrument or a shorter period, where appropriate, to the gross carrying amount of the financial asset or to the amortized cost of a financial liability. Interest income is included in other income in the Statement of Profit and Loss.

(ii) Dividend

Dividend recognised when the company's right to receive payment is established.

Particulars	For the year ended March 31, 2026	For the year ended March 31, 2025
Interest income from financial assets carried at amortised cost		
Loans to subsidiaries (Refer note 30)	43.45	2.07
Others	-	21.96
Dividend income from equity instruments carried at amortised cost	93.82	-
Fair value gain on financial instrument at fair value through profit and loss (net)	85.39	34.27
Net gain on sale of mutual funds	150.47	85.86
Miscellaneous income	64.06	58.58
Total	**437.19**	**202.74**

22(a) Cost of raw material and components consumed

Particulars	For the year ended March 31, 2026	For the year ended March 31, 2025
Inventories at the beginning of the year	715.72	498.40
Add: Purchases *	40,948.91	35,747.02
	41,664.63	**36,245.42**
Less: Inventories at the end of the year	963.19	715.72
Total	**40,701.44**	**35,529.70**

* Includes purchase of machinery and other components which are used to construct plants which are leased to be leased to customers under finance lease arrangements.

22(b) Purchase of traded goods

Particulars	For the year ended March 31, 2026	For the year ended March 31, 2025
Purchases	49.55	-
Purchase of traded goods	**49.55**	**-**

22(c) Changes in inventories of finished goods, work-in-progress and stock-in-trade

Particulars	For the year ended March 31, 2026	For the year ended March 31, 2025
Inventories at the beginning of the year		
Work in progress	5,300.37	11,939.30
Total (A)	**5,300.37**	**11,939.30**
Inventories at the end of the year		
Work in progress	3,755.36	5,300.37
Total (B)	**3,755.36**	**5,300.37**
Changes in inventories of work-in-progress and traded goods Total (A-B)	**1,545.01**	**6,638.93**

23 Employee benefits expense

Particulars	For the year ended March 31, 2026	For the year ended March 31, 2025
Salaries, wages and bonus	2,130.13	1,943.00
Contribution to provident and other funds (refer note 29)	112.76	98.13
Gratuity expense (refer note 29)	39.62	24.85
Staff welfare expenses	56.00	38.77
Share based payment expenses	10.74	10.98
Total	**2,349.25**	**2,115.73**

Accounting policy

Employees Stock Option Plan 2021 (ESOP 2021)

The Parent Company approved Employee Stock Option Plan at their meeting in January 2022. Pursuant to this approval, the Parent Company instituted ESOP 2021 Plan in January 2022. The nomination and remuneration committee of the Parent Company administers this Plan. Each option carries with it the right to purchase one equity share of the Parent Company. The Options have been granted to employees of the Company at an exercise price that is not less than the face value of shares as on date of grant of such option. Option Granted under ESOP 2021 shall vest not earlier than minimum period of 1 (One) year and not later than maximum period of 3 (Three) years from the date of Grant. The vesting of the options is 33%, 33% and 34% of total options granted after end of first, second and third year respectively from the date of grant. The exercise period is 5 years from the date of vesting.

Number and weighted average exercise prices of options granted, exercised and cancelled/lapsed during the financial year

Particulars	As at March 31, 2026		As at March 31, 2025	
	No. of options	Weighted average exercise price per share (Rs.)	No. of options	Weighted average exercise price per share (Rs.)
Options outstanding at the beginning of the year	870	15.25	599	15.25
Granted during the year	296	15.25	271	15.25
Forfeited during the year	-	-	-	-
Exercised during the year	-	-	-	-
Lapsed during the year	-	-	-	-
Options outstanding at the end of year	1,166	15.25	870	15.25
Options exercisable at the end of the year	485	15.25	198	15.25

There were no options exercised during the year.

The weighted average remaining contractual life is as follows:

Particulars	As at March 31, 2026	As at March 31, 2025
Exercise price	Rs. 15.25 per share	Rs. 15.25 per share
Weighted average contractual life (years)	Ranging between 1.83 - 4.41	Ranging between 1.83 - 4.28
Number of options outstanding	1,166	870

The fair value of each option is estimated on the date of grant using Black-Scholes option pricing model with the following assumptions:

Notes to the Financial Statements for the year ended March 31, 2026
(All amounts in Rupees Lakh, except per share data and unless stated otherwise)

Particulars	As at March 31, 2026	As at March 31, 2025
1. Exercise price per option (Rs.)	15.25	15.25
2. Price of underlying share in the market at the time of option grant	Ranging between 2,139.45 - 4,485.35	Ranging between 2,139.45 - 4,485.35
3. Weighted average fair value of options granted (Rs)	Ranging between 2,107.61 - 4,384.98	Ranging between 2,107.61 - 4,384.98
4. Expected life of the option (years)	3-5	3-5
5. Risk free interest rate (%)	Ranging between 6.41% - 7.56%	Ranging between 6.41% - 7.56%
6. Expected volatility (%)	Ranging between 12.86% - 15.01%	Ranging between 12.86% - 15.01%
7. Dividend yield (%)	Ranging between 0.47% - 0.48%	Ranging between 0.47% - 0.48%

The Company recorded an employee compensation cost of Rs. 10.74 (March 31, 2025 : Rs 10.98) in the Statement of Profit and Loss. The expected price volatility is based on the historic volatility, adjusted for any expected changes to future volatility due to publicly available information.

24 Finance cost

Accounting Policy

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalised as part of the cost of the asset. All other borrowing costs are expensed in the period in which they occur. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds.

Particulars	For the year ended March 31, 2026	For the year ended March 31, 2025
Interest expense		
On term loan	674.77	869.51
On delayed payment to micro enterprises and small enterprises	10.68	23.06
Unwinding of discount on security deposits	267.33	142.65
Total	**952.78**	**1,035.22**

The Company develops biomass boilers in regular course of business which are classified as qualifying asset. The term loans are taken to finance these projects. The amount of borrowing costs pertaining to such term loans capitalised during the year ended March 31, 2026 was Rs. 18.29 (March 31, 2025: Rs. 166.40). The borrowings are specific to each projects and are accordingly capitalised.

25 Depreciation and amortization expense

Particulars	For the year ended March 31, 2026	For the year ended March 31, 2025
Depreciation of property, plant and equipment (note 4)	72.67	67.93
Amortization of intangible assets (note 5)	-	0.66
Total	**72.67**	**68.59**

26 (a) Other expenses

Particulars	For the year ended March 31, 2026	For the year ended March 31, 2025
Consumption of stores and spares	717.67	523.76
Rates and taxes	45.51	9.46
Insurance	29.56	14.76

(h) Details of related party transactions in relation to CSR expenditure as per relevant Accounting Standard	69.36	49.20

^ The amount is contributed to Thermax Foundation, India (refer note 30) which is engaged in rural development and in education of economically underprivileged children by addressing social discrimination through affirmative actions, skill development and employability initiatives.

There is no provision for CSR expenditure as at March 31, 2026. There is no shortfall in contribution as at March 31, 2026 and March 31, 2025.

27 Earnings per share

Accounting policy

The Company presents the basic and diluted EPS data for its equity shares.

(i) **Basic EPS** is computed by dividing the net profit for the year attributable to the equity shareholders of the Company by the weighted average number of equity shares outstanding during the year;

(ii) **Diluted EPS** is computed by adjusting the net profit for the year attributable to the equity shareholders and the weighted average number of equity shares considered for deriving basic EPS for the effects of all the equity shares that could have been issued upon conversion of all dilutive potential equity shares (which includes the various stock options granted to employees).

Particulars	For the year ended March 31, 2026	For the year ended March 31, 2025
Net profit after tax attributable to the owners of the company	4,248.24	3,629.79
Weighted average number of equity shares of Rs.10/- each considered for calculating basic EPS (in units)	108,280,000	108,280,000
Weighted average number of equity shares of Rs.10/- each considered for calculating Diluted EPS (in units)	108,280,000	108,280,000
Basic Earning per share (in Rupees)	3.92	3.35
Diluted Earning per share (in Rupees)	3.92	3.35

28 Contingent liabilities and commitments:

(a) Contingent liabilities

Accounting policy

A disclosure for a contingent liability is made where there is a possible obligation that arises from past events and the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company or a present obligation that arises from the past events where it is either not probable that an outflow of resources will be required to settle the obligation or a reliable estimate of the amount cannot be made. Contingent liabilities are reviewed at each reporting date.

Judgements

Tax and legal matters

The Company has received various orders and notices from tax authorities in respect of direct taxes and indirect taxes. The outcome of these matters may have a material effect on the financial position, results of operations or cash flows. Management regularly analyzes current information about these matters and provides provisions for probable losses including the estimate of legal expense to resolve such matters. In making the decision regarding the need for loss provisions, management considers the degree of probability of an unfavorable outcome and the ability to make a sufficiently reliable estimate of the amount of loss. The filing of a suit or formal assertion of a claim against the Company or the disclosure of any such suit or assertions, does not automatically indicate that a provision of a loss may be appropriate.

Particulars	As at March 31, 2026	As at March 31, 2025
(a) Taxes:		
Income tax#	585.14	649.45
Goods and services tax	7.45	-
Service tax	82.37	82.37

Aforesaid amount is excluding interest of Rs. 265.34 as at March 31, 2026.

(b) Guarantees on behalf of subsidiary

The below guarantee has been issued for the purpose of various banking facilities for the subsidiary

Particulars	As at March 31, 2026	As at March 31, 2025
Corporate Guarantee issued to bank on behalf of subsidiary*	833.41	833.41

*Issued on behalf of Thermax Energy and Environment Lanka (Private) Limited

The Company has issued various guarantees for performance, advances, etc. which are not disclosed here as the probability of outflow for the same is considered remote and accordingly no amount has been disclosed here.

B) Capital and Other Commitments

Particulars	As at March 31, 2026	As at March 31, 2025
Capital commitment		
Commitment against purchase of machinery and other components which are to be leased to customers under finance lease arrangements	5,305.07	1,101.19

29 Retirement and other employee benefits

Retirement benefit in the form of provident fund is a defined contribution scheme. The Company has no obligation, other than the contribution payable to the provident fund. The Company recognises contribution payable to the provident fund scheme as an expense when an employee renders the related service. If the contribution payable to the scheme for service received before the balance sheet date exceeds the contribution already paid, the deficit payable to the scheme is recognised as a liability after deducting the contribution already paid. If the contribution already paid exceeds the contribution due for services received before the balance sheet date, then excess is recognised as an asset to the extent that the pre-payment will lead to, for example, a reduction in future payment or a cash refund. The obligation of the Company is limited to the amount contributed and it has no further contractual nor any constructive obligation. The expense recognised during the period towards defined contribution plan is Rs. 112.76 (March 31, 2025: Rs. 98.13).

"The Government of India has implemented four Labour Codes, viz., the Code on Wages, 2019, the Industrial Relations Code, 2020, the Code on Social Security, 2020, and the Occupational Safety, Health and Working Conditions Code, 2020, by consolidating 29 existing labour laws on 21 November 2025. The Ministry of Labour & Employment have published draft Central Rules and FAQs to enable assessment of the financial impact due to changes in the regulations. The Labour Codes have

Notes to the Financial Statements for the year ended March 31, 2026
(All amounts in Rupees Lakh, except per share data and unless stated otherwise)

prescribed a uniform definition of "Wages" to be used for the purpose of calculating employee benefits like gratuity and extending eligibility to fixed-term employees ("FTEs"). Under the Labour Codes, the base on which employee benefits are calculated has increased, which has resulted in increase in the Company's liability for employee benefits

The Company operates a defined benefit gratuity plan in India, which requires contributions to be made to a separately administered fund. The Company provides for gratuity, a defined benefit plan (the "Gratuity Plan") covering eligible employees in accordance with the Code on Social Security, 2020, in line with the notification of the Labour Codes with effect from 21 November 2025. The Gratuity Plan provides a lump sum payment to vested employees at retirement, death, incapacitation, or termination of employment, of an amount based on the respective employee's salary and the tenure of employment. The Company's liability is determined by an independent actuary (using the Projected Unit Credit method) at the end of each year. Any increase in gratuity liability arising due to implementation of Labour Codes in respect of past service cost is recognised immediately in the Statement of Profit and Loss, to the extent that the benefits are already vested, and is recognised over the vesting period in the Statement of Profit and Loss in respect of the unvested portion.

The Company makes annual contributions through trusts to a funded gratuity scheme administered by the Life Insurance Corporation of India (LIC).

Remeasurements, comprising of actuarial gains and losses, the effect of the asset ceiling, excluding amounts included in net interest on the net defined benefit liability and the return on plan assets (excluding amounts included in net interest on the net defined benefit liability), are recognised immediately in the balance sheet with a corresponding debit or credit to retained earnings through OCI in the period in which they occur. Remeasurements are not reclassified to the Statement of Profit and Loss in subsequent periods. Further also refer note 39."

Past service costs are recognised in the Statement of Profit and Loss on the earlier of:

(a) The date of the plan amendment or curtailment; and

(b) The date that the Company recognises related restructuring costs.

Net interest is calculated by applying the discount rate to the net defined benefit liability or asset. The Company recognises the following changes in the net defined benefit obligation as an expense in the Statement of Profit and Loss:

- Service costs comprising current service costs, past-service costs, gains and losses on curtailments and non-routine settlements; and
- Net interest expense or income.

Accumulated leave, which is expected to be utilised within the next 12 months, is treated as short-term employee benefit. The Company measures the expected cost of such absences as the additional amount that it expects to pay as a result of the unused entitlement that has accumulated at the reporting date. The Company presents the leave as a current liability in the balance sheet as it does not have an unconditional right to defer its settlement for 12 months after the reporting date. However, based on past experience and actuarial valuation performed, the Company does not expect all employees to avail the full amount of accrued leave or require payment for such leave within the next 12 months. Leave obligations which are not expected to be settled within the next 12 months amounts to Rs. 107.36 (March 31, 2025 : 91.04).

Estimates and assumptions

Defined benefit plan - Gratuity: The cost of the defined benefit gratuity plan and the present value of the gratuity obligation are determined using actuarial valuations. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases and mortality rates. Due to the complexities involved in the valuation and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date. The parameter which is most subjected to change is the discount rate. In determining the appropriate discount rate for plans operated in India, the management considers the interest rates of government bonds in currencies consistent with the currencies of the post-employment benefit obligation. Further, another important parameter is salary considered while assessing the definition of "wages" as given in The Code on Social Security, 2020. The mortality rate is based on Indian Assured Lives Mortality (2012-14) Ultimate. Those mortality tables tend to change only at interval in response to demographic changes. Future salary increases and gratuity increases are based on expected future inflation rates.

The Company operates a defined benefit plan viz. gratuity for its employees. Under the gratuity plan, every employee who has completed at least specified years of service gets a gratuity on departure at 15 days (minimum) of the last drawn salary for each completed year of service. The scheme is funded with an insurance company. The fund has formed a trust and it is governed by the Board of Trustees.

The fund is subject to risks such as asset volatility, changes in assets yields and asset liability mismatch risk. In managing the plan assets, Board of Trustees review and manage these risks associated with the funded plan. Each year, the Board of Trustees reviews the level of funding in the gratuity plan. Such a review includes asset-liability matching strategy and investment risk management policy (which includes contributing to plans that invest in risk-averse markets). The Board of Trustees aim to keep annual contributions relatively stable at a level such that no plan deficits (based on valuation performed) will arise.

The Company has considered a proposed restructuring of its employees compensation, and assessed the impact of the changes, consistent with the Labour Codes, the draft rules, FAQs and opinion obtained from the Company's advisors. In accordance with IND AS 19 and the FAQs issued by ICAI, the changes to gratuity benefit resulting from the Labour Codes are treated as past service costs and accordingly, the increase in the Company's obligation due to application of the Labour Codes has been recognised in the Statement of Profit and Loss. The Company continues to monitor the finalisation of Central/ State Rules and further clarifications from the Government and would give appropriate accounting effect considering those developments, as may be applicable.

I Changes in the net benefit obligation and fair value of plan assets are as follows :

Particulars	Present value of obligation	Fair value of plan assets	Net amount
April 1, 2024	**107.44**	**(61.92)**	**45.52**
Current service cost	24.19	-	24.19
Interest expense/(income)	6.28	(5.62)	0.66
Total amount recognised in the statement of profit or loss	**30.47**	**(5.62)**	**24.85**
Experience (gain) / loss	12.35	(1.49)	10.86
(Gain)/loss from change in financial assumptions	3.64	-	3.64
Return on plan assets expense/(income)	-	0.16	0.16
Total amount recognised in Other Comprehensive Income	**15.99**	**(1.33)**	**14.66**
Employer contributions	-	(32.04)	(32.04)
Benefits paid directly by the company	(42.08)	-	(42.08)
Transfer In	0.18	(0.18)	-
March 31, 2025	**112.00**	**(101.09)**	**10.91**
Current service cost	39.87	-	39.87
Past service cost	24.42	-	24.42
Interest expense/(income)	6.99	(7.24)	(0.25)
Total amount recognised in the statement of profit or loss	**71.28**	**(7.24)**	**64.04**
Experience (gain) / loss	11.15	(1.84)	9.31
(Gain)/loss from change in financial assumptions	(5.38)	-	(5.38)
Return on plan assets expense/(income)	-	0.53	0.53
Total amount recognised in Other Comprehensive Income	**5.77**	**(1.31)**	**4.46**
Employer contributions	-	(11.59)	(11.59)
Benefits paid directly by the company	(25.98)	-	(25.98)
Transfer In	1.13	(1.13)	-
March 31, 2026	**164.20**	**(122.36)**	**41.84**

The fair value of the plan asset represents the amount as confirmed by the fund.

II The net (asset)/liability disclosed above relates to funded plans are as follows :

Particulars	As at March 31, 2026	As at March 31, 2025
Present value of funded obligation	164.20	112.00
Fair value of plan assets	(122.36)	(101.09)
Net (asset)/liability	**41.84**	**10.91**

III Significant assumptions

Particulars	As at March 31, 2026	As at March 31, 2025
Discount rate	7.20%	6.70%
Salary growth rate	7.00%	7.00%
Expected return on plan assets	6.7% P.A.	7.2% P.A.
Normal retirement age	60 years	60 years
Mortality table	Indian Assured Lives Mortality (2012-14) Ultimate	Indian Assured Lives Mortality (2012-14) Ultimate
Employee turnover	12%	12%

IV Sensitivity analysis

The sensitivity of defined obligation to changes in the weighted principal assumptions is:

Assumption	Impact on defined benefit obligation	
	As at March 31, 2026	As at March 31, 2025
Discount rate		
1.00% increase	Decrease by 9.86	Decrease by 7.07
1.00% decrease	Increase by 11.10	Increase by 7.99
Future salary increase		
1.00% increase	Increase by 9.4	Increase by 6.78
1.00% decrease	Decrease by 8.52	Decrease by 6.12
Attrition Rate		
1.00% increase	Decrease by 0.12	Decrease by 0.13
1.00% decrease	Increase by 0.13	Increase by 0.15

The above sensitivity analysis is based on a change in assumption while holding all other assumptions constant. In practice, this is unlikely to occur and changes in some of the assumptions may be correlated. When calculating the sensitivity of the defined benefit obligation to significant actuarial assumptions the same method (present value of defined benefit obligation calculated with the Projected Unit Credit Method at the end of the reporting period) has been applied as when calculating the defined benefit liability recognised in the balance sheet.

The method and types of assumptions used in preparing the sensitivity analysis did not change compared to the prior period.

The following are the expected cash flows to the defined benefit plan in future years:

Particulars	As at March 31, 2026	As at March 31, 2025
Within next 12 months	13.50	7.98
Between 2-5 years	105.83	69.55
Between 5-10 years	181.12	134.60

The average duration of the defined benefit plan obligation at the end of the reporting period is 10.17 years (March 31, 2025: 10.79 years).

V The major categories of plan assets are as follows:

Particulars	As at March 31, 2026	As at March 31, 2025
Investments with Insurer (LIC of India)	100.00%	100.00%

VI Risk exposure

Through its defined benefit plans, the Company is exposed to a number of risks, the most significant of which are detailed below :

Asset Volatility:

The plan liabilities are calculated using a discount rate set with reference to bond yields. If plan assets underperform, this yield will create a deficit. The plan assets are maintained with fund manager of LIC. They are subject to interest rate risk which is managed by the insurer.

Changes in bond yield:

A decrease in bond yields will increase plan liabilities.

Asset risk:

All plan assets are maintained in a trust fund managed by a public sector insurer viz; LIC. LIC has a sovereign guarantee and has been providing consistent and competitive returns over the years. The Company has opted for a traditional fund wherein all assets are invested primarily in risk averse markets. The Company has no control over the management of funds but this option provides a high level of safety for the total corpus. A single account is maintained for both the investment and claim settlement and hence 100% liquidity is ensured. Also, interest rate and inflation risk are taken care of.

Future salary escalation and Inflation risks:

Rising salaries will often result in higher future defined benefit payments resulting in a higher present value of liabilities especially unexpected salary increases provided at management's discretion may lead to uncertainties in estimating this risk.

Life expectancy:

Increases in life expectancy of employee will result in an increase in the plan liabilities. This is particularly significant where inflationary increases result in higher sensitivity to changes in life expectancy.

I Terms and conditions of related party transactions

All the transactions with related parties are assessed to be at arm's length price by the management. Outstanding balances at the year-end are unsecured and interest free except loans given and settlement occurs in cash. Refer note 7(b)for terms and conditions for loans to related parties.

The transactions with related parties (excluding relatives of KMPs) includes managerial remuneration which is determined based on market conditions and is approved by Board of Directors.

Share-based payments include the perquisite value of stock incentives exercised during the year, determined in accordance with provisions of Income Tax Act, 1961.

There have been no guarantees provided or received for any related party receivables or payables except as disclosed in note 30.

In case of transactions with related parties during the year, the amounts are exclusive of applicable taxes.

For the year ended March 31, 2026 and March 31, 2025, the Company has not recorded an impairment of receivables relating to amounts owed by related parties. This assessment is undertaken each financial year through examining the financial position of the related party and the market in which the related party operates.

31 Fair value measurements

Estimates and assumptions

Fair value measurement of unquoted financial instruments

When the fair values of financial assets and financial liabilities recorded in the balance sheet cannot be measured based on quoted prices in active markets, their fair value is measured using valuation techniques including the DCF model. The inputs to these models are taken from observable markets where possible, but where this is not feasible, a degree of assumption is required in establishing fair values. Assumptions include considerations of inputs such as liquidity risk, credit risk and volatility. Changes in assumptions about these factors could affect the reported fair value of financial instruments.

a) Category of financial instruments and valuation techniques

(i) Financial assets

Details of financial assets carried at amortised cost

Particulars	Note No.	As at March 31, 2026	As at March 31, 2025
Trade receivables	7 (a)	6,779.42	6,203.76
Finance lease receivable	8 (a)	25,618.72	22,965.08
Other financial assets	8 (b)	33.15	101.12
Cash and bank balances	12(a)	116.72	620.97
Loans	7 (b)	1,042.19	202.07
Total financial assets		**33,590.20**	**30,093.00**
Current assets		10,473.84	9,759.73
Non-current assets		23,116.36	20,333.27
Total financial assets		**33,590.20**	**30,093.00**

The management has assessed that the carrying amounts of the above financial instruments approximate their fair values.

Details of financial assets carried at fair value through profit or loss:

Particulars	Note No.	As at March 31, 2026	As at March 31, 2025
Investments	6 (b)	3,006.30	1,999.47
Total		**3,006.30**	**1,999.47**
Current assets		3,006.30	1,999.47
Non current assets		-	-
Total		**3,006.30**	**1,999.47**

The fair value of units of mutual funds are based on net asset value as at the reporting date.

(ii) Financial liabilities

Details of financial liabilities carried at amortised cost

Particulars	Note No.	As at March 31, 2026	As at March 31, 2025
Borrowings	15(a) and (b)	7,935.09	10,561.41
Trade payables	16	5,451.89	2,895.43
Trade deposits	17	2,750.08	2,133.16
Other financial liabilities	17	631.48	568.59
Total financial liabilities		**16,768.54**	**16,158.59**
Current liabilities		8,411.35	6,104.81
Non-current liabilities		8,357.19	10,053.78
Total financial liabilities		**16,768.54**	**16,158.59**

The management has assessed that the carrying amounts of the above financial instruments approximate their fair values.

b) Fair value hierarchy

The following table provides the fair value measurement hierarchy of the Company's assets and liabilities.

Quantitative disclosures fair value measurement hierarchy for assets as at March 31, 2026:

Particulars	Date of valuation	Level 1	Level 2	Level 3
Financial assets				
Investments				
Mutual funds	31-Mar-26	3,006.30	-	-

Quantitative disclosures fair value measurement hierarchy for assets as at March 31, 2025:

Particulars	Date of valuation	Level 1	Level 2	Level 3
Financial assets				
Investments				
Mutual funds	31-Mar-25	1,999.47	-	-

There has been no transfer between Level 1 and Level 2 during the year and during the previous year.

c) Valuation technique used to determine fair value

Specific valuation techniques used to value financial instruments include:

- The use of quoted market prices or dealer quotes for similar instruments;

The company measures financial instruments - investment in mutual funds using quoted market prices for similar instruments (Level I inputes). There has been no transfer between Level 1 and Level 2 during the year and during the previous year.

d) The finance department includes a dedicated team responsible for performing valuations of financial assets and liabilities for financial reporting purposes, including Level 3 fair value measurements. This team operates within a structured governance framework, and valuation processes and outcomes are reviewed on the basis of reporting cycle of the Company.

Changes in Level 2 and Level 3 fair values, if any, are evaluated at the end of each reporting period as part of the quarterly valuation review process. During this review, the valuation team presents an analysis explaining the drivers of movements in fair values.

32 Financial risk management - objectives and policies

The Company's principal financial liabilities, comprise loans and borrowings, trade deposits, trade and other payables. The main purpose of these financial liabilities is to finance the Company's operations. The Company's principal financial assets include finance lease receivables, trade and other receivables, and cash and bank balances that derive directly from its operations. The Company also holds FVTPL and amortised cost investments.

Risk is inherent in the Company's activities but it is managed through a process of on going identification, measurement and monitoring, subject to risk limits and other controls. This process of risk management is critical to the Company's continuing profitability and each individual within the Company is accountable for the risk exposures relating to his or her responsibilities. The Company is exposed to market risk, credit risk and liquidity risk.

The Company's Board of Directors is ultimately responsible for the overall risk management approach and for approving the risk strategies and principles. No significant changes were made in the risk management objectives and policies during the years ended March 31, 2026 and March 31, 2025. The management of the Company reviews and agrees policies for managing each of these risks which are summarised below:

I Market risk

Market risk is the risk that the value of a financial instrument will fluctuate as a result of changes in market variables such as interest rates, foreign exchange rates and equity prices, whether those changes are caused by factors specific to the individual investment or its issuer or factors affecting all investments traded in the market.

Market risk is managed on the basis of pre-determined asset allocations across various asset categories, a continuous appraisal of market conditions and trends and management's estimate of long and short term changes in fair value.

a) Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company is not currently exposed significantly to such risk.

Interest rate sensitivity

The following table demonstrates the sensitivity to a reasonably possible change in interest rates on that portion of loans and borrowings affected. With all other variables held constant, the Company's profit before tax is affected through the impact on floating rate borrowings, as follows:

	Impact on profit before tax	
	For the year ended March 31, 2026	For the year ended March 31, 2025
Interest rate		
- Increase by 100 basis points	(79.35)	(105.61)
- Decrease by 100 basis points	79.35	105.61

b) Foreign Currency Risk

Foreign exchange risk arises when future commercial transactions and relevant assets and liabilities are denominated in a currency that is not the Company's functional currency. Foreign exchange risk is the risk that the value of a financial instrument will fluctuate due to changes in foreign exchange rates.

The Company is not currently exposed significantly to such risk as there are no significant foreign currency transactions entered during the current year or previous year.

c) Price risk

'The Company's investments are susceptible to market price risk arising from uncertainties about future values of the investment securities. These securities are quoted / unquoted. The Company manages the price risk through diversification and by placing limits on individual mutual fund instruments. Further, the price risk is also mitigated by switching the investment portfolio between diversified categories of mutual fund instruments. Reports on the investment portfolio are submitted to the Company's senior management on a regular basis. The Company's Board of Directors reviews and approves all equity investment decisions. The Company is not currently exposed significantly to such risk.

II Credit risk

Credit risk is the risk that counterparty will not meet its obligations under a financial instrument or customer contract, leading to a financial loss. The Company is exposed to credit risk from its operating activities (primarily trade receivables) and from its investing activities, including loans to related parties, finance lease receivables and investment at amortised cost.

Trade receivables

Customer credit risk is managed by the Company based on Company's established policy, procedures and control relating to customer credit risk management. An impairment analysis is performed at each reporting date on an individual basis for major clients. In addition, a large number of minor receivables are grouped into homogenous group and assessed

Notes to the Financial Statements for the year ended March 31, 2026
(All amounts in Rupees Lakh, except per share data and unless stated otherwise)

for impairment collectively. The calculation is based on losses as per historical data. The maximum exposure to credit risk at the reporting date is the carrying value disclosed in note 7(a). To measure the expected credit losses, trade receivables have been grouped based on shared credit risk characteristics and the days past due. The Company evaluates the concentration of risk with respect to trade receivables as low, as its customers are located in several jurisdictions and industries and operate in largely independent markets.

Financial instruments

Credit risk from balances with banks, mutual funds and other financial instruments are managed by the Company's treasury department in accordance with the Company's policy. Investments of surplus funds are made only with approved counterparties having a good market reputation and within credit limits assigned to each counterparty. The limits are set to minimise the concentration of risks and therefore mitigate financial loss through counterparty's potential failure to make payments.

The Company's maximum exposure to credit risk for bank balances as at March 31, 2026 and March 31, 2025 is the carrying amounts as disclosed in note 12(a) and maximum exposure relating to financial guarantees is disclosed in note 28 (B) to the financial statements.

Finance Lease Receivables

The Company considers the customer's market standing, information of its business activities and credit rating before entering into a long term contract with the Customer. Further, credit risk for finance lease receivable is assessed on an ongoing basis throughout each reporting period basis expectation of customer's continuity of buying. Also, contracts with customers are protected with minimum buying commitments, which helps Company is balancing the credit risk.

Loans to related parties

The Company considers the probability of default upon initial recognition of loan and whether there has been a significant increase in credit risk on an ongoing basis throughout each reporting period. To assess whether there is a significant increase in credit risk, the company compares the risk of a default occurring on the loan as at the reporting date with the risk of default as at the date of initial recognition. It considers available reasonable and supportive forwarding-looking information. There is no Loss allowance recognised as at March 31, 2026 and March 31, 2025.

Debt instruments (excluding loans to related parties)

All of the entity's debt instruments (security deposits) at amortised cost are considered to have low credit risk, and the loss allowance recognised during the period was therefore limited to 12 months' expected losses. Management consider 'low credit risk' for listed instruments to be an investment grade credit rating with at least one major rating agency. Other instruments are considered to have low credit risk when they have a low risk of default and the issuer has a strong capacity to meet its contractual cash flow obligations in the near term.

The company has no unhedged foreign currency exposure outstanding as at March 31, 2026 and March 31, 2025.

III Liquidity risk

Prudent liquidity risk management implies maintaining sufficient cash and marketable securities and the availability of funding through an adequate amount of committed credit facilities to meet obligations when due and to close out market positions. Due to the dynamic nature of the underlying businesses, the Company treasury maintains flexibility in funding by maintaining availability under committed credit lines.

The management monitors rolling forecasts of the Company's liquidity position (comprising the undrawn borrowing facilities below) and cash and cash equivalents on the basis of expected cash flows. This is generally carried out at operating segments level in the Company in accordance with practice and limits set by the Company. In addition, the Company's liquidity management policy involves projecting future cash flows and considering the level of liquid assets necessary to meet these and monitoring balance sheet liquidity ratios against internal requirements.

(i) Maturities of financial liabilities

The tables below analyse the company's financial liabilities into relevant maturity profile on their contractual maturities for :

March 31, 2026	Note No.	< 1 year	1 to 3 years	3 to 5 years	> 5 years
Non- derivative					
Borrowings	15	2,326.98	3,536.73	1,929.72	141.66
Trade payables	16	5,451.89	-	-	
Trade deposits*	17	1.00	495.00	934.50	3,488.64
Other financial liabilities	17	631.48	-	-	-

March 31, 2025	Note No.	< 1 year	1 to 3 years	3 to 5 years	> 5 years
Non- derivative					
Borrowings	15	2,639.79	4,113.16	2,998.57	809.89
Trade payables	16	2,895.43	-	-	-
Trade deposits*	17	1.00	235.00	872.00	2,794.13
Other financial liabilities	17	568.59	-	-	-

*Represents contractual undiscounted cash flows. Such undiscounted cash flows differ from the amount included in the balance sheet because the balance sheet amount is based on discounted cash flows.

Financing arrangements

The Company had access to the following undrawn borrowing facilities at the end of the reporting period:

Particulars	As at March 31, 2026	As at March 31, 2025
Expiring within one year (bank overdraft and other facilities)	-	-
Expiring beyond one year (bank overdraft, bank loans and other facilities)	9,580.19	7,348.87

The bank overdraft facilities might be drawn at any time and might be terminated by the bank without notice. Subject to the continuance of satisfactory credit ratings, the bank loan facilities might be drawn at any time in INR and have an average maturity of 7 years (March 31, 2025 – 7 years).

33 Capital Management

The Company's objective for capital management is to maximise long term shareholder value, safeguard business continuity and support the growth of the Company. The Company determines the capital requirement based on annual operating plans and long- term and other strategic investment plans. The funding requirements are met through equity and operating cash flows generated. No changes were made in the objectives, policies or processes during the years ended March 31, 2026 and March 31, 2025. Capital represents equity attributable to equity holders of the Company.

The Company monitors capital using a gearing ratio which is net debt/ obligation divided by total equity. The Company's policy is to keep the gearing ratio optimum.

Particulars	For the year ended March 31, 2026	For the year ended March 31, 2025
Borrowings	7,935.09	10,561.41
Less: Cash and bank balances	(116.72)	(620.97)
Net debt	**7,818.37**	**9,940.44**
Equity	**29,498.64**	**25,243.00**
Capital and net debt	**37,317.01**	**35,183.44**
Gearing ratio	**20.95%**	**28.25%**

In order to achieve this overall objective, the Company's capital management, amongst other things, aims to ensure that it meets financial covenants attached to the interest-bearing loans and borrowings that define capital structure requirements. Breaches in meeting the financial covenants would permit the bank to immediately call loans and borrowings. There have been no breaches in the financial covenants of any interest-bearing loans and borrowing in the current year.

No changes were made in the objectives, policies or processes for managing capital during the year ended March 31, 2026 and March 31, 2025.

34 Disclosure under Ind AS - 116 : Leases

Accounting policy

The Company applies a single recognition and measurement approach for all leases, except for short-term leases and leases of low-value assets. The Company recognizes lease liabilities to make lease payments and right-of-use assets representing the right to use the underlying assets.

Judgements

A significant portion of the Company's business relates to leasing of assets under various arrangements. This requires the management to make judgements with respect to whether the arrangement contains a lease based on the substance of the arrangement and an assessment of whether the arrangement is dependent on the use of a specific asset or assets and the arrangement conveys a right to use the asset. The Company is also required to assess whether the lease transfers substantially all the risks and rewards incidental to ownership of an asset to classify the same as finance leases requiring significant judgements.

Segregation of lease and non-lease components of the consideration

For a contract that contains a lease component and one or more additional lease or non-lease components, the Company allocates the consideration in the contract in accordance with Ind AS 115. The standard requires allocation of the transaction price to each performance obligation (or distinct good or service) in a way that depicts the amount of consideration to which the entity expects to be entitled in exchange for transferring the promised goods or services to the customer. This requires the management to make significant estimates around the amount of consideration to which the entity expects to be entitled.

The Company allocates the transaction price to each performance obligation on a relative stand-alone selling price basis by determining the stand-alone selling price at contract inception of the distinct good or service underlying each performance obligation in the contract and allocates the transaction price in proportion to those stand-alone selling prices. Since the consideration is inclusive of the lease component, the stand-alone selling price is not directly observable. Hence, the Company estimates the standalone selling price by considering all the information (including market conditions, entity-specific factors and information about the customer or class of customer) that is reasonably available to the Company.

Except when the Company has observable evidence in accordance with Ind AS 115 that the entire discount relates to only one or more, but not all, performance obligations in a contract, the Company allocates a discount proportionately to all performance obligations in the contract. The proportionate allocation of the discount in those circumstances is a consequence of the Company allocating the transaction price to each performance obligation on the basis of the relative standalone selling prices of the underlying distinct goods or services.

i) Company as a lessor

Leases in which the Company does not transfer substantially all the risks and rewards of ownership of an asset are classified as operating leases. Rental income from operating lease is recognised on a straight-line basis over the term of the relevant lease. Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset and recognised over the lease term on the same basis as rental income.

Leases are classified as finance leases when substantially all of the risks and rewards of ownership transfer from the Company to the lessee. Amounts due from lessees under finance leases are recorded as receivables at the Company's net investment in the leases. Finance lease income is allocated to accounting periods so as to reflect a constant periodic rate of return on the net investment outstanding in respect of the lease. The Company allocates the transaction price to each performance obligation on a relative stand-alone selling price basis by determining the stand-alone selling price at contract inception of the distinct good or service underlying each performance obligation in the contract and allocates the transaction price in proportion to those stand-alone selling prices.

At the inception of the lease, a Company recognize the following for each of its finance leases:

(a) revenue being the fair value of the underlying asset, or, if lower, the present value of the lease payments accruing to the lessor, discounted using a market rate of interest;

(b) the cost of sale being the cost, or carrying amount if different, of the underlying asset less the present value of the unguaranteed residual value; and

(c) selling profit or loss (being the difference between revenue and the cost of sale) in accordance with its policy for outright sales.

a) Amount receivable under Finance lease - where the Company is a lessor

The Company has entered into certain arrangements with its customers where the Company will supply heat/steam/treated water by installing the boiler/heater/water treatment plant at the customers' premises. The Company has determined, that fulfilment of these arrangements is dependent on the use of a specific assets and the arrangement conveys a right to use these specific asset to the customers. Accordingly, these arrangements qualify as arrangements in the form of lease as specified in Ind-AS 116. Based on the evaluation of terms and conditions of these arrangements, such as the contract term constituting a major part of the economic life of the specific assets ,the fair value of the asset and that it has transferred the significant risks and rewards in these assets to the customers, these lease arrangements have been classified as finance leases.

Particulars	Gross Investment in lease		Present value of minimum lease payments	
	For the year ended March 31, 2026	For the year ended March 31, 2025	For the year ended March 31, 2026	For the year ended March 31, 2025

Notes to the Financial Statements for the year ended March 31, 2026
(All amounts in Rupees Lakh, except per share data and unless stated otherwise)

Particulars	For the year ended March 31, 2026	For the year ended March 31, 2025
Estimated unguaranteed residual value of assets under finance lease	-	-
Contingent rent recognised as Income during the year	-	-
Interest rate inherent in the lease	9.98% - 18.29%	10.82% - 18.29%

35. Segment information

Accounting Policy

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker.

The Board of Directors of the Company has identified the Chief Executive Officer as the chief executive decision maker of the Company.

Judgements

Ind AS 108 'Operating Segments' requires Management to determine the reportable segments for the purpose of disclosure in financial statements based on the internal reporting reviewed by Chief Operating Decision Maker (CODM) to assess performance and allocate resources. The standard also requires Management to make judgments with respect to aggregation of certain operating segments into one or more reportable segment.

The Company has determined that the CODM is the Chief Executive Officer, based on its internal reporting structure and functions of the Company. Operating segments used to present segment information are identified based on the internal reports used and reviewed by the Board of Directors to assess performance and allocate resources. The management has determined that some of the segments exhibit similar economic characteristics and meet other aggregation criteria and accordingly aggregated into one reportable segment i.e. green energy and allied services.

For management purposes, the Company reports the details of operating segments as a single segment for "energy and allied services". The Chief Operating Decision Maker (CODM) reviews the information for this single segment only. Accordingly, Company has provided only entity wide disclosures.

Revenue by geographical segment

Particulars	For the year ended March 31, 2026	For the year ended March 31, 2025
Revenue from external customer (gross)		
India*	57,795.68	56,031.57
Outside India	-	-
Total	**57,795.68**	**56,031.57**

*Revenue of Rs.6,060.37 was derived from one customer that individually contributed more than 10% of total revenue in the current year and Rs. 12,408.61 was derived from two customers that individually contributed more than 10% of total revenue in the previous year.

There are no assets lying outside India as at March 31, 2026 and March 31, 2025.

36 Key financial ratios

The following are analytical ratios for the year ended March 31, 2026 and March 31, 2025:

Particulars	Numerator	Denominator	FY 2025-26	FY 2024-25	Variance	Reason for variance (for deviations more than 25%)
Current Ratio	Current assets	Current liabilities	2.14	2.57	-16.73%	-
Debt-Equity Ratio	Total debt i.e. Borrowings (Current+Non current)	Shareholder's equity	0.27	0.42	-35.71%	No new drawdown in CY while increase in Networth due to earnings for the year
Debt service coverage ratio	Earnings available for debt service ^	Debt service *	1.59	1.07	48.60%	Increase in profitability while repayments are approximately same
Return on equity ratio	Profit after tax	Average shareholder's equity	16.00%	15.00%	6.67%	-
Inventory turnover ratio	Cost of goods sold#	Average inventories	7.51	4.50	66.89%	Commissioning of lease sites in current year and lesser projects in progress towards year end.
Debtors turnover ratio	Revenue from contracts with customers	Average trade receivables	7.48	8.86	-15.58%	-
Trade payables turnover ratio	Total supplier purchases##	Average trade payables	10.44	11.82	-11.68%	-
Net capital turnover ratio	Revenue from contracts with customers	Working capital **	4.80	4.50	6.67%	-
Net profit ratio	Profit after tax	Revenue from contracts with customers	8.00%	7.00%	14.29%	-
Return on capital employed (ROCE)	Profit before tax + finance cost	Capital employed ***	18.00%	17.00%	5.88%	-
Return on investment (ROI)	Realised gains and unrealised gains on investments	Average investment	9.42%	6.08%	55.03%	Higher return earned on mutual fund in current year.

Explanations:

^ Net profit after taxes + Non-cash operating expenses like depreciation and other amortisations + Interest + other adjustments like loss on sale of PPE etc.

* Interest paid and lease payments + principal repayments

** Total current assets - Total current liabilities

*** Total equity + Total Debt + Deferred tax liabilities

#Cost of raw materials and components consumed + Purchase of traded goods + Changes in inventories of work-in-progress and traded goods

##Purchase of raw materials and components (refer note 22(a)) + Purchase of traded goods + Operating expenses (staff welfare and other expenses) incurred during the year.

37 Other Statutory Information:

(i) The Company does not have any Benami property, where any proceeding has been initiated or pending against the Company for holding any Benami property.

(ii) There are no shares held in struck off companies. For the year ended March 31, 2026, and March 31, 2025 there are no transactions with struck off companies and no balances are outstanding as on year end.

(iii) The Company does not have any charges or satisfaction which are yet to be registered with Registrar of Companies (ROC) beyond the statutory period.

(iv) The Company has not traded or invested in Crypto currency or Virtual Currency during the current or previous financial year.

(v) The Company have not advanced or loaned or invested funds to any other person(s) or entity(ies), including foreign entities (Intermediaries) with the understanding that the Intermediary shall:

(a) directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the company (Ultimate Beneficiaries) or

(b) provide any guarantee, security or the like to or on behalf of the Ultimate Beneficiaries,

(vi) The Company has not made any such transaction which is not recorded in the books of accounts that has been surrendered or disclosed as income during the year in the tax assessments under the Income Tax Act, 1961 (such as, search or survey or any other relevant provisions of the Income Tax Act, 1961).

(vii) Other than as disclosed in the note 6(a), the Company has not received any fund from any person(s) or entity(ies), including foreign entities (Funding Party) with the understanding (whether recorded in writing or otherwise) that the Company shall:

(a) directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party (Ultimate Beneficiaries) or

(b) provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries.

(viii) The Company has not been declared wilful defaulter by any bank or financial institution or government or any government authority.

(ix) The Company has not revalued its property, plant and equipment (including right-of-use assets) or intangible assets or both during the current or previous year.

(x) The borrowings obtained by the Company from banks and financial institutions have been applied for the purposes for which such loans were taken.

38 Compliance with section 143 (3) for maintainence of books of accounts and audit trail

Maintainence of Books of Accounts:

With effect from August 5, 2022, the Ministry of Corporate Affairs (MCA) has amended the Companies (Accounts) Rules, 2014, relating to maintenance of electronic books of account and other relevant books and papers. Pursuant to this amendment, the Company is required to maintain the books of account which are accessible in India at all times and their backup is to be kept on servers located in India on a daily basis.

The Company has a process to take daily back-up of books of account maintained in electronic mode and along with the logs of the back-up of such books of account.

Requirements u/s 143(3) of the Act	Compliance/ remarks
Books of Account maintained on cloud/ servers physically located in India	Yes
Backup maintained in India on daily basis	Yes

Audit Trail:

The Company has used multiple accounting software for maintaining its books of account which has a feature of recording audit trail (edit log) facility and that has operated throughout the year for all relevant transactions recorded in the software. During the year, management has not noticed any instances of audit trail feature being tampered with. Further, the audit trail, to the extent maintained in the prior year, has been preserved by the Company as per the statutory requirements for record retention.

39 Exceptional Items:

Accounting policy

When the items of income and expense within profit or loss from ordinary activities are of such size, nature or incidence that their disclosure is relevant to explain the performance of the Company for the period, the nature and amount of such items are disclosed separately as exceptional item.

Particulars	For the year ended March 31, 2026	For the year ended March 31, 2025
Statutory impact of new Labour Codes*	24.42	-
	24.42	**-**

*Effective 21 November 2025, The Government of India has consolidated multiple existing labour legislations into a unified framework comprising of four Labour Codes collectively referred to as the 'New Labour Codes'. Under Ind AS 19, changes to employee benefit plans arising from legislative amendments constitute a plan amendment, requiring recognition of past service cost immediately in the Statement of Profit and Loss.

The Company has assessed and disclosed the incremental impact of the New Labour Codes of Rs. 24.42, primarily arising due to change in definition of wages and the recognition of such past service costs. The Government is in the process of notifying related rules to the New Labour Codes and impact of these will be evaluated and accounted for in accordance with applicable accounting standards in the year in which they are notified. Considering the materiality and regulatory-driven, non-recurring nature of this impact, the Company has presented such past service cost as "Statutory impact of new Labour Codes" under "Exceptional Items" in the Statement of Profit and Loss for the year ended March 31, 2026.

Notes to the Financial Statements for the year ended March 31, 2026
(All amounts in Rupees Lakh, except per share data and unless stated otherwise)

40 Previous period figures have been regrouped/reclassified to conform to current year's classification as under:

Note Number and Description	Previously Reported amount	Revised amount	Change	Remarks
8(b) Other Financial Assets	912.81	-	(912.81)	Other financial assets (Current) have been reclassified to trade receivables. Refer note 7(a) for the details.
7(a) Trade Receivables	-	912.81	912.81	
26(a) Other expenses	5,960.37	2,220.25	3,740.12	Site expenses and contract labour charges have been disclosed on the face of the Statement of profit and loss
Site expenses and contract labour charges	-	3,740.12	(3,740.12)	

41 Exemption availed under Ind AS 110

These are Standalone financial statements of the Company. The Company has opted for exemption from preparation of consolidated financial statements in accordance with Paragraph 4(a)(iv) of Ind AS 110, as the Company is wholly owned subsidiary of Thermax Limited which prepares consolidated financial statements that are available for public use and comply with Ind ASs, in which the Company and its subsidiaries are consolidated.

INDEPENDENT AUDITOR'S REPORT

To the Members of Thermax Cooling Solutions Limited

Report on the audit of the Financial Statements

Opinion

We have audited the accompanying Financial Statements of **Thermax Cooling Solutions Limited** ("the Company"), which comprise the Balance Sheet as at March 31, 2026, the Statement of Profit and Loss including Other Comprehensive Income, the Statement of Cash Flows and the Statement of Changes in Equity for the year then ended, and a summary of material accounting policies and other explanatory information (hereinafter referred to as "the Financial Statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid Financial Statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under Section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended ("Ind AS") and other accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2026, its profit and total comprehensive income, its changes in equity and its cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit of the Financial Statements in accordance with the Standards on Auditing specified under Section 143(10) of the Act (SAs). Our responsibilities under those Standards are further described in the 'Auditors' Responsibilities for the Audit of the Financial Statements' section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India ("the ICAI") together with the ethical requirements that are relevant to our audit of the Financial Statements under the provisions of the Act and the Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence obtained by us is sufficient and appropriate to provide a basis for our audit opinion on the Financial Statements.

Information other than the Financial Statements and Auditors' Report thereon

The Company's Board of Directors is responsible for the other information. The other information comprises the Directors' Report and the related annexures, but does not include the Financial Statements and our Auditors' Report thereon.

Our opinion on the Financial Statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the Financial Statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the Financial Statements, or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of management for the Financial Statements

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Act with respect to the preparation of these Financial Statements that give a true and fair view of the financial position, financial performance including other comprehensive income, cash flows and changes in equity of the Company in accordance with the accounting principles generally accepted in India.

This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Financial Statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the Financial Statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditors' Responsibilities for the audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the Financial Statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit.

We also:

- Identify and assess the risks of material misstatement of the Financial Statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal financial control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under Section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the management.

- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the Financial Statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Company to cease to continue as a going concern.

- Evaluate the overall presentation, structure and contents of the Financial Statements, including the disclosures, and whether the Financial Statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the Financial Statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the Financial Statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the Financial Statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal controls that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence,

and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Report on other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2020 ("the Order"), issued by the Central Government in terms of sub-section (11) of Section 143 of the Act and on the basis of such checks of the books and records of the Company as we considered appropriate and according to the information and explanations given to us, we give in Annexure B, a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.

2. As required by Section 143(3) of the Act, we report that:

   (a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.

   (b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.

   (c) The Balance Sheet, the Statement of Profit and Loss including Other Comprehensive Income, the Statement of Changes in Equity and the Statement of Cash Flows dealt with by this report are in agreement with the books of account.

   (d) In our opinion, the aforesaid Financial Statements comply with the Accounting Standards specified under Section 133 of the Act.

   (e) On the basis of the written representations received from the directors as on March 31, 2026 taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2026 from being appointed as a director in terms of Section 164(2) of the Act.

   (f) With respect to the adequacy of the internal financial controls with reference to Financial Statements of the Company and the operating effectiveness of such controls, refer to our separate report in Annexure A. Our report expresses an unmodified opinion on the adequacy and operating effectiveness of the Company's internal financial controls with reference to Financial Statements.

   (g) Based on the records examined by us and according to information and explanations given to us, the Company has not paid/provided for managerial remuneration. Hence, the provisions of Section 197 of the Act related to managerial remuneration are not applicable.

   (h) With respect to the other matters to be included in the Auditors' Report in accordance with the requirements of Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as amended, in our opinion and to the best of our information and according to the explanations given to us:

      (i) The Company has disclosed the impact of pending litigations on its financial position in its Financial Statements – Refer Note 24 (A) to the Financial Statements.

      (ii) The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses;

      (iii) There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Company;

      iv. a) The management has represented that, to the best of its knowledge and belief, no funds have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Company to or in any other person(s) or entity(ies), including foreign entities ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, whether, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Company ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries;

      (b) The management has represented that, to the best of its knowledge and belief, no funds have been received by the Company from any person(s) or entity(ies), including foreign entities ("Funding Parties"), with the understanding, whether recorded in writing or otherwise, that the Company shall, whether, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries;

      (c) Based on such audit procedures that we considered reasonable and appropriate in the circumstances, nothing has come to our notice that has caused us to believe that the representations under sub-clauses (a) and (b) contain any material misstatement;

      (v) The Company has not declared/paid/declared and paid any dividend during the year; and

   (i) Based on our examination which included test checks, the Company has used an accounting software for maintaining its books of account which has a feature of recording audit trail (edit log) facility and the same has operated throughout the year for all relevant transactions recorded in the software. Further, during the course of our audit, we did not come across any instance of audit trail feature being tampered with. Additionally, the audit trail has been preserved by the Company as per the statutory requirements for record retention.

Annexure A to the Independent Auditors' Report

[Referred to in paragraph 2(f) under 'Report on Other Legal and Regulatory Requirements' section of our report of even date]

Report on the Internal Financial Controls with reference to financial statements under Clause (i) of subsection (3) of Section 143 of the Companies Act, 2013 ("the Act").

We have audited the internal financial controls with reference to financial statements of the Company as of March 31, 2026 in conjunction with our audit of the Financial Statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business including adherence to the Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls with reference to financial statements of the Company based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting ("the Guidance Note") issued by the Institute of Chartered Accountants of India and the Standards on Auditing prescribed under Section 143(10) of the Act, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to financial statements was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system with reference to financial statements and their operating effectiveness. Our audit of internal financial controls with reference to financial statements included obtaining an understanding of internal financial controls with reference to financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system with reference to financial statements.

Meaning of Internal Financial Controls with reference to financial statements

A Company's internal financial control with reference to Financial Statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A Company's internal financial control with reference to Financial Statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorisations of management and directors of the Company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the Company's assets that could have a material effect on the Financial Statements.

Inherent Limitations of Internal Financial Controls with reference to financial statements

Because of the inherent limitations of internal financial controls with reference to Financial Statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to financial statements to future periods are subject to the risk that the internal financial control with reference to financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial controls system with reference to Financial Statements and such internal financial controls with reference to Financial Statements were operating effectively as at March 31, 2026, based on the criteria for internal financial control with reference to financial statements established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

THERMAX COOLING SOLUTIONS LIMITED

Annexure B to the Independent Auditors' Report

[Referred to in paragraph 1 under 'Report on other Legal and Regulatory Requirements' section of our report of even date]

Re: Thermax Cooling Solutions Limited ('the Company')

(i) (a) (A) According to the information and explanations given to us, the Company has maintained proper records showing full particulars, including quantitative details and situation of property, plant and equipment.

(B) The Company does not have intangible assets on the reporting date. Thus, reporting under clause 3(i)(a)(B) of the order is not applicable to the Company.

(b) The Company did not verify property, plant and equipment during the year but a regular program for physical verification of its property, plant and equipment is there which in our opinion is reasonable having regard to the size of the Company and nature of its property, plant and equipment.

(c) According to the information and explanations given to us, the Company does not have any immovable properties.

(d) According to the information and explanations given to us, the Company has not revalued any of its Property, Plant and Equipment (including Right of Use assets) or intangible assets or both during the year.

(e) Based on the audit procedures performed by us and according to the information, explanations and representations given to us, no proceedings have been initiated or are pending against the Company for holding any benami property under the Benami Transactions (Prohibition) Act, 1988 (45 of 1988) and rules made thereunder.

(ii) (ii) (a) The Company is in the business of rendering services and consequently, does not hold any inventory. Accordingly, the reporting under Clause 3(ii)(a) of the Order is not applicable to the Company.

(b) According to the information and explanations given to us, the Company has not been anctioned working capital limits in excess of five crore rupees, in aggregate, from banks or financial institutions on the basis of security of current assets at any point of time during the year.

(iii) According to the information and explanations given to us, the Company has not made investments in or provided any guarantee or security or granted any loans or advances in the nature of loans, secured or unsecured, to companies, firms, Limited Liability Partnerships or any other parties during the year. Accordingly, the reporting under Clauses 3(iii)(a) to 3(iii)(f) of the Order is not applicable to the Company.

(iv) According to the information and explanations given to us, the Company has not granted any loans or made any investments or provided any guarantees or security to the parties covered under Sections 185 and 186 of the Act. Accordingly, the reporting under Clause 3(iv) of the Order is not applicable to the Company.

(v) According to the information and explanations given to us, the Company has not accepted deposits under the provisions of Sections 73 to 76 or any other relevant provisions of the Act and the rules framed thereunder. Accordingly, the reporting under Clause 3(v) of the Order is not applicable to the Company.

(vi) The Central Government has not specified the maintenance of cost records under sub-section (1) of Section 148 of the Act for any of the products of the Company. Accordingly, the reporting under Clause 3(vi) of the Order is not applicable to the Company.

(vii) (a) According to the information and explanations given to us and on the basis of our examination of records of the Company, the amounts deducted / accrued in the books of account in respect of undisputed statutory dues including Goods and Services Tax, Provident Fund, Income-tax, Cess and other material statutory dues have been regularly deposited during the year by the Company with the appropriate authorities. According to the information and explanations given to us and on the basis of our examination of records of the Company, there were no undisputed statutory dues payable in respect of Employees' State Insurance, Sales tax, Service tax, Duty of Customs, Duty of Excise and Value Added Tax.

According to the information and explanations given to us and on the basis of our examination of records of the Company, there were no arrears of outstanding statutory dues in respect of Goods and Services Tax, Provident fund, Employees' State Insurance, Income-tax, Sales tax, Service tax, Duty of Customs, Duty of Excise, Value Added Tax, Cess and other material statutory dues as on the last day of the financial year for a period of more than six months from the date they became payable.

(b) According to the information and explanation given to us and on the basis of our examination of records of the Company, there are no statutory dues in respect of Provident Fund, Employees State Insurance, Duty of Customs, Duty of Excise, Value added tax, Cess Income tax and any other material statutory dues as at 31 March 2026, which have not been deposited on account of any dispute. The statutory dues in respect of Goods and Service Tax act as at 31 March 26 which have not been deposited with the appropriate authorities on account of a dispute are as under

Name of Statute	Nature of dues	Amount (Rs in lakhs)	Financial year to which pertains	Forum where dispute pending
GST Act	Goods and Service Tax	1,91,60,241 including penalty	2018-19, 2019-22	Deputy Commissioner of State Tax

Also refer note 24(a).

(viii) (viii) According to the information and explanations given to us, there are no transactions not recorded in the books of account which have been surrendered or disclosed as income during the year in the tax assessments under the Income-tax Act, 1961. Accordingly, the reporting under Clause 3(viii) of the Order is not applicable to the Company.

(ix) (a) According to the information and explanations given to us and based on the audit procedures performed by us, the Company has not availed any loans or other borrowings during the year. Accordingly, the reporting under Clause 3(ix)(a) of the Order is not applicable to the Company.

(b) According to the information and explanations given to us, the Company has not been declared a willful defaulter by any bank or financial institution or any other lender till the date of our audit report.

(c) According to the information and explanations given to us and based on the audit procedures performed by us, the Company has not availed any term loans during the year. Accordingly, the reporting under Clause 3(ix)(c) of the Order is not applicable to the Company.

(d) In our opinion and according to the information and explanations given to us and on an overall examination of the Balance Sheet of the Company, the Company did not raise any funds during the year hence, the requirement to report on clause 3(ix)(d) of the Order is not applicable to the Company.

(e) According to the information and explanations given to us and on an overall examination of the Financial Statements of the Company, the Company does not have any subsidiary, associate or joint venture. Accordingly, the requirement to report on clause 3(ix)(e) of the Order is not applicable to the Company.

(f) According to the information and explanations given to us and on an overall examination of the Financial Statements of the Company, the Company does not have any subsidiary, associate or joint venture. Accordingly, the requirement to report on clause 3(ix)(f) of the Order is not applicable to the Company.

(x) (a) According to the information and explanations given to us, the Company has not raised any moneys by way of initial public offer or further public offer (including debt instruments) during the year.

Accordingly, the reporting under Clause 3(x)(a) of the Order is not applicable to the Company.

(b) According to the information and explanations given to us, the Company has not made any preferential allotment or private placement of shares or convertible debentures (fully, partially or optionally convertible) during the year. Accordingly, the reporting under Clause 3(x)(b) of the Order is not applicable to the Company.

(xi) (a) During the course of our examination of the books and records of the Company, carried out in accordance with the generally accepted auditing practices in India and according to the information and explanations given to us, we have neither come across any instance of material fraud by the Company or on the Company noticed or reported during the year, nor have we been informed of any such case by the management.

(b) There has been no report filed by us under sub-section (12) of Section 143 of the Act in Form ADT-4 as prescribed under Rule 13 of the Companies (Audit and Auditors) Rules, 2014 with the Central Government. Accordingly, the reporting under Clause 3(xi)(b) of the Order is not applicable to the Company.

(c) Though establishment of vigil mechanism is not mandated for the Company by the Act, or by Securities Exchange Board of India (Listing Obligations and Disclosure Requirement) ("SEBI LODR") Regulations, as represented by the management, no whistle blower complaints were received by the Company during the year.

(xii) According to the information and explanations given to us, the Company is not a Nidhi company and the Nidhi Rules, 2014 are not applicable to it. Accordingly, the reporting under Clause 3(xii) of the Order is not applicable to the Company.

(xiii) In our opinion and according to the information and explanations given to us, the Company has entered into transactions with related parties in compliance with the provisions of Section 188 of the Act. The details of such related party transactions have been disclosed in the financial statements as required by Indian Accounting Standard (Ind AS) 24, Related Party Disclosures specified under Section 133 of the Act. Further, the Company is not required to constitute an Audit Committee under Section 177 of the Act, and accordingly, to this extent, the reporting under Clause 3(xiii) of the Order is not applicable to the Company.

(xiv) In our opinion and based on our examination, the Company does not have an internal audit system and is not required to have an internal audit system as per the provisions of the act. Accordingly, reporting under clause 3(xiv) is not applicable to the company.

(xv) According to the information and explanations given to us, the Company has not entered into any non-cash transactions with its directors or directors of its holding company and subsidiary companies or persons connected with them during the year and hence, the provisions of Section 192 of the Act are not applicable to the Company. Accordingly, the reporting under Clause 3(xv) of the Order is not applicable to the Company.

(xvi) (a) According to the information and explanations given to us, the Company is not required to be registered under Section 45-IA of the Reserve Bank of India Act, 1934. Accordingly, the reporting under Clause 3(xvi)(a) of the Order is not applicable to the Company.

(b) In our opinion and according to the information and explanations given to us, the Company has not conducted any Non-Banking Financial or Housing Finance activities. Accordingly, the reporting under Clause 3(xvi)(b) of the Order is not applicable to the Company.

(c) In our opinion and according to the information and explanations given to us, the Company is not a Core Investment Company (CIC) as defined in the regulations made by the Reserve Bank of India. Accordingly, the reporting under Clause 3(xvi)(c) of the Order is not applicable to the Company.

(d) Based on the information and explanations given to us, we report that the Group (as defined in the Core Investment Companies (Reserve Bank) Directions, 2016) has one Core Investment Companies.

(xvii) In our opinion and according to the information and explanations given to us, the Company has not incurred cash losses in the current financial year as well as in the immediately preceding financial year. Accordingly, the reporting under Clause 3(xvii) of the Order is not applicable to the Company.

(xviii) There has been no resignation of the statutory auditors during the year. Accordingly, the reporting under Clause 3(xviii) of the Order is not applicable to the Company.

(xix) According to the information and explanations given to us and on the basis of the financial ratios, ageing and expected dates of realisation of financial assets and payment of financial liabilities, other information accompanying the financial statements, our knowledge of the Board of Directors and management plans and based on our examination of the evidence supporting the assumptions, nothing has come to our attention, which causes us to believe that any material uncertainty exists as on the date of the audit report that the Company is not capable of meeting its liabilities existing at the date of Balance Sheet as and when they fall due within a period of one year from the Balance Sheet date. We, however, state that this is not an assurance as to the future viability of the company. We further state that our reporting is based on the facts up to the date of the audit report and we neither give any guarantee nor any assurance that all liabilities falling due within a period of one year from the Balance Sheet date will get discharged by the Company as and when they fall due.

(xx) The provisions of Section 135 of the Act are not applicable to the Company. Accordingly, the reporting under Clause 3(xx)(a) and (b) of the Order is not applicable to the Company.

1. Corporate information

Thermax Cooling Solutions Limited ('the Company') carry business of setting up Energy Projects, Energy Exchange Platform and providing Energy Services. The Company's remaining business includes electrostatic precipitators (ESP), Regenerative Air Preheaters and related services.

The Company is a public limited company incorporated and domiciled in India. The address of its registered office is Thermax House, 14, Mumbai – Pune Road, Wakdewadi, Pune - 411003, India. The Board of Directors have authorized to issue these financial statements on May 04, 2026. The CIN of the Company is U29299PN2009PLC134761.

2 Material accounting policies

2.1 Basis of preparation, measurement

a. Basis of preparation

These financial statements have been prepared in accordance with the Indian Accounting Standards (Ind AS), notified under the Companies (Indian Accounting Standards) Rules, 2015 (as amended from time to time) and presentation requirement od Division II of Schedule III to the Companies Act, 2013 (Act) as applicable to the financial statements.

The preparation of the financial statements requires the use of certain critical accounting estimates, assumptions and judgements. It also requires the management to exercise judgement in the process of applying the Company's accounting policies. The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the financial statements are disclosed in Note 3.

b. Basis of measurement

The financial statements have been prepared on the accrual and going concern basis under historical cost convention except the following:

- Certain financial assets and liabilities measured at fair value (refer accounting policy regarding financial instruments);
- Defined benefit plans whereby the plan assets are measured at fair value.

2.2 Summary of material accounting policies

a. Current and non-current classification

All assets and liabilities have been classified as current and non-current as per the Company's normal operating cycle and other criteria set out in the Schedule III to the Act. Based on the nature of products and services and the time between the acquisition of assets for processing and their realisation in cash and cash equivalents, the Company has ascertained its operating cycle as 12 months for the purpose of current and non-current classification of assets and liabilities.

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

b. Foreign currencies

The Company's financial statements are prepared in Rupees, which is the also functional currency of the Company.

Transactions and balances

Transactions in foreign currencies are initially recorded at the functional currency spot rates at the date the transaction first qualifies for recognition. Monetary assets and liabilities denominated in foreign currencies are translated at the functional currency spot rates of exchange at the reporting date. Exchange differences arising on settlement or translation of monetary items are recognized in the Statement of profit and loss.

c. Fair value measurement

The Company measures financial instruments, such as, derivatives at fair value at each balance sheet date.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability; or
- In the absence of a principal market, in the most advantageous market for the asset or liability.

The principal or the most advantageous market must be accessible by the Company. The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the consolidated financial statements are categorized within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1 - Quoted (unadjusted) market prices in active markets for identical assets or liabilities;
- Level 2 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable;
- Level 3 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

For the purpose of fair value disclosures, the Group has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

For the purpose of fair value disclosures, the Company has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

This note summarizes accounting policy for fair value. Other fair value related disclosures are given in the relevant notes.

- Disclosures for significant judgements, estimates and assumptions (note 3)
- Quantitative disclosures of fair value measurement hierarchy (note 26)
- Financial instruments (including those carried at amortized cost) (note 26)

For assets and liabilities that are recognized in the financial statements on a recurring basis, the Company determines whether transfers have occurred between levels in the hierarchy by re-assessing categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

Notes to financial statements for the year ended March 31, 2026
(All amounts are in Rupees Lakh, except per share data and unless stated otherwise)

d. Financial instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

Financial assets

All financial assets are recognized initially at fair value plus, in the case of financial assets not recorded at fair value through Profit and Loss, transactions costs that are attributable to the acquisition of the financial asset. For all subsequent measurements financial assets are classified in following categories by the Company.

(i) Debt instruments at amortized cost

A 'debt instrument' is measured at the amortized cost if both the following conditions are met:

(a) The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows, and

(b) Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

After initial measurement, such financial assets are subsequently measured at amortized cost using the effective interest rate (EIR) method. Amortized cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of EIR. The EIR amortization is included in finance costs/income in the statement of profit and loss. The losses arising from impairment are recognized in the Statement of profit and loss. This category generally applies to trade and other receivables.

(ii) Debt instrument at FVTPL

FVTPL is a residual category for debt instruments. Any debt instrument, which does not meet the criteria for categorization as at amortized cost or as FVTOCI is classified as FVTPL.

Debt instruments included within the FVTPL category are measured at fair value with all changes recognized in Statement of profit and loss.

(iii) Equity investments

All equity investments in scope of Ind-AS 109 are measured at fair value. Equity instruments which are held for trading and contingent consideration recognized by an acquirer in a business combination to which Ind-AS 103 applies are classified as at FVTPL. For all other equity instruments, the Company may make an irrevocable election to present in other comprehensive income subsequent changes in the fair value. The Company makes such election on an instrument-by-instrument basis. The classification is made on initial recognition and is irrevocable.

If the Company decides to classify an equity instrument at FVTOCI, then all fair value changes on the instrument, excluding dividends, are recognized in the OCI. There is no recycling of the amounts from OCI to Statement of profit and loss, even on the sale of the investment. However, the Company may transfer the cumulative gain or loss within equity.

Derecognition

A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is primarily derecognized when:

- The rights to re+C23ceive cash flows from the asset have expired, or
- The Company has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a "pass-through" arrangement; and either (a) the Company has transferred substantially all the risks and rewards of the asset, or (b) the Company has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

Impairment of financial assets

Further disclosures relating to impairment of financial assets are provided in the following notes:

- Trade receivables - Refer note 5

Financial liabilities

Financial liabilities are classified, at initial recognition, as financial liabilities at FVTPL, loans and borrowings, payables, or as derivatives designated as hedging instruments in an effective hedge, as appropriate. All financial liabilities are recognized initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs. The Company's financial liabilities include trade and other payables, loans and borrowings including bank overdrafts, financial guarantee contracts and derivative financial instruments.

Subsequent measurement of financial liabilities depends on their classification as fair value through profit and loss or at amortized cost.

All changes in fair value of financial liabilities classified as FVTPL is recognized in the Statement of Profit and Loss. Amortised cost category is applicable to loans and borrowings, trade and other payables. After initial recognition the financial liabilities are measured at amortised cost using the EIR method. Gains and losses are recognized in profit and loss when the liabilities are derecognized as well as through the EIR amortization process. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or cost that are integral part on EIR. The EIR amortization is included as finance cost in the Statement of Profit and Loss.

Derecognition

A financial liability is derecognized when the obligation under the liability is discharged or cancelled or expires when an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognized in the Statement of profit and loss.

Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the balance sheet if there is a currently enforceable legal right to offset the recognized amounts and there is an intention to settle on a net basis, to realize the assets and settle the liabilities simultaneously.

2.3 Changes in accounting policies and disclosures

New and amended standards

The Company applied for the first-time certain standards and amendments, which are effective for annual periods beginning on or after April 01, 2025. The Company has not early adopted any standard, interpretation or amendment that has been issued but is not yet effective.

The Ministry of Corporate Affairs vide notification dated May 07, 2025 and August 13, 2025 notified the Companies (Indian Accounting Standards) Amendment Rules, 2025 and Companies (Indian Accounting Standards) Second Amendment Rules, 2025, respectively, which amended certain accounting standards (see below), and are effective for annual reporting periods beginning on or after April 01, 2025:

(a) Classification of Liabilities as Current or Non-current and Non-current Liabilities with Covenants - Amendments to Ind AS 1

As a result of the adoption of the amendments to Ind AS 1, the Company changed its accounting policy for the classification of borrowings:

"Borrowings are classified as current liabilities unless, at the end of the reporting period, the Company has a right to defer settlement of the liability for at least 12 months after the reporting period. Covenants

that the Company is required to comply with, on or before the end of the reporting period, are considered in classifying loan arrangements with covenants as current or non-current. Covenants that the Company is required to comply with after the reporting period do not affect the classification."

This new policy did not result in a change in the classification of the Company's borrowings. The Company did not make retrospective adjustments as a result of adopting the amendments to Ind AS 1.

This amendment also includes specific provisions that will take effect for reporting periods beginning on or after 1 April 2026, as outlined below:

Under the existing Ind AS 1, where there is a breach of a material provision of a long-term loan arrangement on or before the end of the reporting period with the effect that the liability becomes payable on demand on the reporting date, the entity does not classify the liability as current, if the lender agreed, after the reporting period and before the approval of the financial statements for issue, not to demand payment as a consequence of the breach. However, the amended requirements stipulate that entities will no longer be permitted to consider lender waivers that are granted after the reporting date but before the financial statements are approved for the purpose of classification of loans. This amendment is required to be applied retrospectively in accordance with Ind AS 8. The Company does not expect this amendment to have an impact on its operations or financial statements.

(b) International Tax Reform - Pillar Two Model Rules - Amendments to Ind AS 12

The Company is not within the scope of the OECD Pillar Two Model Rules, as Pillar Two legislation has not yet been enacted in any of the jurisdictions in which the Company operates.

(c) Lack of Exchangeability - Amendments to Ind AS 21

The amended Ind AS 21 have added requirements to help entities to determine whether a currency is exchangeable into another currency, and the spot exchange rate to use where it is not.

These amendments did not have any material impact on the amounts recognised in prior periods and are not expected to significantly affect the current or future periods.

3 Summary of critical accounting estimates and judgements

The preparation of the Company's financial statements requires management to make judgments, estimates and assumptions that affect the reported amounts of revenue, expenses, assets and liabilities, and the accompanying disclosures and the disclosure of contingent liabilities as at the reporting date. However, uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in future periods.

Judgements

In the process of applying the Company's accounting policies, management has made the following judgements, which have the most significant effect on the amounts recognized in the financial statements.

i. Revenue from contracts with customers

A significant portion of the Company's business relates to project ant portion of the Company's business relates to project contracts which is accounted using cost-based input method, recognizing revenue as the performance on the contract progresses. This requires management to make judgement with respect to identifying contracts for which revenue need to be recognised over a period of time, depending upon when the customer consumes the benefit, when the control is passed to customer, whether the asset created has an alternative use and whether the Company has right to payment for performance completed till date, either contractually or legally. The input method requires management to make significant judgements of the extent of progress towards completion including accounting of multiple contracts which need to be combined and considered as a single contract.

Estimates and assumptions

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below. The Company based its assumptions and estimates on parameters available when the financial statements were prepared. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising that are beyond the control of the Company. Such changes are reflected in the assumptions when they occur.

The areas involving critical estimates or judgements are:

a. Estimations used for fair value measurement (Refer note 2.2.c)

b. Estimates and assumptions related to useful lives and impairment of Property, Plant and Equipment (PPE) (Refer note 4)

c. Estimates and assumptions for income taxes (Refer note 6)

d. Estimates and assumptions related to provisions (Refer note 14)

e. Estimates, judgments and assumptions used for revenue from operations (Refer note 15)

f. Estimates and judgements used for contingent liabilities and commitments (Refer note 24)

4 (a) Property, Plant and Equipment

Accounting policy

Property, plant and equipment (PPE) are stated at cost of acquisition or construction net of accumulated depreciation and impairment loss, if any. All costs directly attibutable to the acquisition and installation of PPE are capitalised. Subsequent costs/replacement costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. The carrying amount of the replaced part is derecognised. All other repairs and maintenance expenses are charged to the Standalone Statement of Profit and Loss during the financial year in which they are incurred.

Gains or losses arising from derecognition of PPE are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognized in the Standalone Statement of Profit and Loss when the asset is derecognized.

Depreciation on PPE is calculated on a straight-line basis using the rates arrived at, based on the useful lives estimated by the management. The Company depreciates each part of an item of property, plant and equipment separately if cost of the part is significant in relation to the total cost of the item or principle asset and useful life is materially different from the principle asset.

The management has estimated the useful lives of certain classes of assets in order to reflect the actual usage of the assets.The useful lives have been determined based on technical evaluation done by the management's expert which are higher than those specified by Schedule II to the Companies Act, 2013, in order to reflect the actual usage of the assets. The residual values are not more than 5% of the original cost of the asset. The following useful lives are estimated by the management:

Asset category	Company's estimate of useful life (years)	Useful life as prescribed under Schedule II (years)
Computers and data processing units	3	3 to 6

Impairment of PPE

Notes to financial statements for the year ended March 31, 2026

(All amounts are in Rupees Lakh, except per share data and unless stated otherwise)

The Company assesses, at each reporting date, whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the Company estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's or cash-generating unit's (CGU) fair value less costs of disposal and its value in use. Recoverable amount is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets. When the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount. Impairment losses including impairment on inventory are recognized in the Statement of profit or loss.

For assets, an assessment is made at each reporting date to determine whether there is an indication that previously recognized impairment losses no longer exist or have decreased. If such indication exists, the Company estimates the asset's or CGU's recoverable amount. A previously recognized impairment loss is reversed only if there has been a change in the assumptions used to determine the asset's recoverable amount since the last impairment loss was recognized. The reversal is limited so that the carrying amount of the asset does not exceed its recoverable amount, nor exceed the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognized for the asset in prior years. Such reversal is recognized in the Statement of profit and loss unless the asset is carried at a revalued amount, in which case, the reversal is treated as a revaluation increase.

The Company assesses where climate risks could have a significant impact, such as the introduction of emission-reduction legislation that may increase manufacturing costs. These risks in relation to climate-related matters are included as key assumptions where they materially impact the measure of recoverable amount. These assumptions have been included in the cash-flow forecasts in assessing value-in-use amounts.

The residual values, useful lives and methods of depreciation of PPE are reviewed on a regular basis and changes in estimates, when relevant, are accounted for on a prospective basis.

No trade or other receivable are due from directors or other officers of the company either severally or jointly with any other person. Nor any trade receivable are due from firms or private companies respectively in which any director is a partner, a director or a member. For terms and conditions relating to related party

receivables, refer note 25.

The Company has recorded an impairment of receivables relating to amounts owed by related parties as per the policy. The assessment is undertaken each financial year by examining the final contract completion milestones of the related party with the end customer.

Trade receivables are non-interest bearing and are generally on terms of 30-90 days.

5 (b) Expected credit loss (ECL)

Accounting policy

In accordance with Ind AS 109, the Company applies Expected Credit Loss (ECL) model for measurement and recognition of impairment loss and credit risk exposure on the financial assets that are debt instruments measured at amortized costs e.g. loans, deposits, trade receivables, contractual receivables and bank balances. The Company follows 'simplified approach' for recognition of impairment allowance. The application of simplified approach does not require the Company to track changes in credit risk. Rather, it recognizes impairment allowance based on lifetime ECLs at each reporting date, right from its initial recognition.

For recognition of impairment loss on other financial assets and risk exposure, the Company determines that whether there has been a significant increase in the credit risk since initial recognition. If credit risk has not increased significantly, 12-month ECL is used to provide for impairment loss. However, if credit risk has increased significantly, lifetime ECL is used. If, in a subsequent period, credit quality of the instrument improves such that there is no longer a significant increase in credit risk since initial recognition, then the entity reverts to recognizing impairment allowance based on 12-month. The Company considers current and anticipated future economic conditions relating to industries of the customer and the countries where it operates.

ECL impairment allowance (or reversal) recognized during the period is recognized as income/expense in the Statement of profit and loss under the head 'other expenses'. ECL is presented as an allowance, i.e. as an integral part of the measurement of those assets in the balance sheet. The allowance reduces the net carrying amount. Until the asset meets write-off criteria, the Company does not reduce impairment allowance from the gross carrying amount.

The following table summarises the change in impairment allowance measured using the life time expected credit loss model (Pursuant to Ind AS 109):

Estimates and assumptions

The impairment provisions for financial assets are based on assumptions about risk of default, expected loss rates and timing of cash flows. The Company uses judgement in making these assumptions and selecting the inputs to the impairment calculation, based on the Company's past history, existing market conditions as well as forward looking estimates at the end of each reporting period.

As a practical expedient, the Company uses a provision matrix to determine ECL impairment allowance on portfolio of its trade receivables and contract assets. The provision matrix is based on its historically observed default rates over the expected life of the trade receivables and is adjusted for forward-looking estimates. At every reporting date, the historical observed default rates are updated and changes in the forward-looking estimates are analysed. The Company follows provisioning norms based on ageing of receivables to estimate the impairment allowance under ECL.

Particulars	Provision on trade receivables	
	As at March 31, 2026	As at March 31, 2025
At the beginning of the year	0.78	-
Less: Bad debts/write off	-	-
	0.78	-
Add: Provision made during the year	-	0.78
Less: Utilized/reversed during the year	-	-
At the end of the year	**0.78**	**0.78**

6 Income taxes

Accounting policy

Tax expense comprises current tax expense and deferred tax.

Current income tax

Current income tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted, at the reporting date.

Current income tax relating to items recognized outside the Statement of profit and loss is recognized either in OCI or in equity. Current tax items are recognized in correlation to the underlying transaction either in OCI or directly in equity. The management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate.

Deferred tax

Deferred tax is provided using the liability method on temporary differences between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes at the reporting date.

Deferred tax assets are recognized for all deductible temporary differences, the carry forward of unused tax credits and any unused tax losses. Deferred tax assets are recognized to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilized.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognized deferred tax assets are re-assessed at each reporting date and are recognized to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

Deferred tax relating to items recognized outside the Statement of profit and loss is recognized outside the Statement of profit and loss (either in other comprehensive income or in equity). Deferred tax items are recognized in correlation to the underlying transaction either in OCI or directly in equity.

Deferred tax assets and deferred tax liabilities are offset if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

Notes to financial statements for the year ended March 31, 2026

(All amounts are in Rupees Lakh, except per share data and unless stated otherwise)

In assessing the recoverability of deferred tax assets, the Company relies on the same forecast assumptions used elsewhere in the financial statements and in other management reports, which, among other things, reflect the potential impact of climate-related development on the business, such as increased cost of production as a result of measures to reduce carbon emission.

The major components of income tax expense for the year ended are:

Statement of profit and loss

	As at March 31, 2026	As at March 31, 2025
Current income tax	3.94	16.28
Current income tax charge	0.84	16.28
Adjustments in respect of current income tax of previous years	3.10	-
Income tax expense reported in the Statement of profit and loss	**3.94**	**16.28**

7 Other assets

7 (a) Other current assets

	As at March 31, 2026	As at March 31, 2025
Unsecured considered good		
Advances to suppliers	-	11.54
Balances with government authorities	23.70	-
Others Amounts Recoverable	-	21.31
Total	**23.70**	**32.85**

There were no advances due by directors or other officers of the company or any of them severally or jointly with any other persons or amounts due by firms or private companies respectively in which a director is a partner or a member.

8 (a) Cash and cash equivalents

Accounting policy

Cash and cash equivalent in the balance sheet comprise cash at banks and on hand and short-term deposits with an original maturity of three months or less, which are subject to an insignificant risk of changes in value. For the purpose of the statement of cash flows, cash and cash equivalents consist of cash and short-term deposits, as defined above, net of outstanding bank overdrafts as they are considered an integral part of the Company's cash management.

	As at March 31, 2026	As at March 31, 2025
Balances with banks		
- in current accounts	15.78	41.12

Total	**48.25**	**114.38**

9 Share capital

Accounting policy

Equity shares issued to shareholders are classified as equity. Incremental costs directly attributable to the issue of new equity shares or stock options are recognized as a deduction from equity, net of any related income tax effects.

	As at March 31, 2026	As at March 31, 2025
Authorized shares		
100,000,000 (March 31, 2025 : 100,000,000) Equity Shares of Rs 5 /- each.	5,000.00	5,000.00
	5,000.00	**5,000.00**
Issued, subscribed and fully paid share capital		
20,000,000 (March 31, 2025 : 20,000,000) Equity Shares of Rs 5 /- each.	1,000.00	1,000.00
Total issued, subscribed and fully paid-up share capital	**1,000.00**	**1,000.00**

(a) Reconciliation of the shares outstanding at the beginning and at the end of the period

	No. of shares	Amount
Equity share of Rs. 5 each issued, subscribed and fully paid		
As at April 01, 2024	**20,000,000**	**1,000.00**
Changes during the year	-	-
As at March 31, 2025	**20,000,000**	**1,000.00**
Changes during the year	-	-
As at March 31, 2026	20,000,000	1,000.00

(b) Terms/ rights attached to equity shares

The Company has one class of equity shares having a par value of Rs. 5 per share. Each shareholder is eligible for one vote per share held. The dividend proposed by the Board of Directors is subject to the approval of the shareholders in the ensuing Annual General Meeting, except in case of interim dividend. In the event of liquidation, the equity shareholders are eligible to receive the remaining assets of the Company after distribution of all preferential amounts, in proportion to their shareholding.

(c) Equity shares held by holding company/ promoter

	As at March 31, 2026	As at March 31, 2025
Thermax Limited	1,000.00	1,000.00
20,000,000 (March 31, 2025: 20,000,000) equity shares of Rs. 5/- each fully paid		

(d) Details of equity shares held by shareholders holding more than 5% of the aggregate shares in the Company

	As at March 31, 2026	As at March 31, 2025
Thermax Limited*		
%	100.00	100.00
No. of shares (including 6 share held by nominee shareholders)*	20,000,000	20,000,000

*As per the records of the company, including it's register of shareholders/ members and other declaration received from shareholders regarding beneficial interest, the above shareholding represents the legal ownership of shares.

*Includes 6 shares (March 31, 2025: 6 shares) held by nominee shareholders.

(e) There are no buy back of shares/issue of shares for consideration other than cash during the period of five years immediately preceding the reporting date.

(f) All other notes mandated by Schedule III of the Act are not applicable to the Company.

10 Other equity

Accounting policy

Dividend to equity shareholders is recognized as a liability in the period in which the dividends are approved by the equity shareholders. Interim dividends that are declared by the Board of Directors without the need for equity shareholders' approvals are recognized as a liability and deducted from shareholders' equity in the year in which the dividends are declared by the Board of directors.

	As at March 31, 2026	As at March 31, 2025

Statutory dues and other liabilities*	0.71	20.56
Total	**0.71**	**94.65**

* mainly includes GST, tax deducted at source, provident fund etc.

14 Provisions

Accounting policy

Provisions are recognized when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. When the Company expects some or all of a provision to be reimbursed, for example, under an insurance contract, the reimbursement is recognized as a separate asset, but only when the reimbursement is virtually certain. The expense relating to a provision is presented in the Statement of profit and loss net of any reimbursement.

If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognized as a finance cost.

Warranty provisions

Provisions for warranty-related costs are recognized when the product is sold or service provided to the customer. Initial recognition is based on historical experience. The initial estimate of warranty related costs is revised annually.

Provision for onerous contracts

A provision for onerous contracts is recognized when the expected benefits to be derived by the Company from a contract are lower than the unavoidable cost of meeting its obligations under the contract. The provision is measured at the present value of the expected net cost of continuing with the contract. Before a provision is established, the Company recognizes any impairment loss on the assets associated with that contract.

Retirement and other employee benefits

Retirement benefit in the form of provident fund is a defined contribution scheme. The Company has no obligation, other than the contribution payable to the provident fund. The Company recognizes contribution payable to the provident fund scheme as an expense, when an employee renders the related service. If the contribution payable to the scheme for service received before the balance sheet date exceeds the contribution already paid, the deficit payable to the scheme is recognized as a liability after deducting the contribution already paid. If the contribution already paid exceeds the contribution due for services received before the balance sheet date, then excess is recognized as an asset to the extent that the pre-payment will lead to, for example, a reduction in future payment or a cash refund.

The Company operates a defined benefit gratuity plan in India, which requires contributions to be made to a separately administered fund. The cost of providing benefits under the defined benefit plan is determined using the projected unit credit method.

Remeasurements, comprising of actuarial gains and losses, the effect of the asset ceiling, excluding amounts included in net interest on the net defined benefit liability and the return on plan assets (excluding amounts included in net interest on the net defined benefit liability), are recognized immediately in the balance sheet with a corresponding debit or credit to retained earnings through OCI in the period in which they occur. Remeasurements are not reclassified to the Statement of profit and loss in subsequent periods.

Past service costs are recognized in the Statement of profit and loss on the earlier of:

- The date of the plan amendment or curtailment, and
- The date that the Company recognizes related restructuring costs

Net interest is calculated by applying the discount rate to the net defined benefit liability or asset. The Company recognizes the following changes in the net defined benefit obligation as an expense in the Statement of profit and loss:

- Service costs comprising current service costs, past-service costs, gains and losses on curtailments and non-routine settlements; and
- Net interest expense or income

Accumulated leave, which is expected to be utilized within the next 12 months, is treated as short-term employee benefit. The Company measures the expected cost of such absences as the additional amount that it expects to pay as a result of the unused entitlement that has accumulated at the reporting date.

The Company treats accumulated leave expected to be carried forward beyond twelve months, as long-term employee benefit for measurement purposes. Such long-term compensated absences are provided for based on the actuarial valuation using the projected unit credit method at the year-end. The Company presents the leave as a current liability in the balance sheet as it does not have an unconditional right to defer its settlement for 12 months after the reporting date.

14 (a) Current provisions

	As at March 31, 2026	As at March 31, 2025

15 Revenue from operations

Accounting policy

Revenue from Contracts with customers

Revenue from contracts with customers is recognized when control of the goods or services are transferred to the customer at an amount that reflects the consideration to which the Company expects to be entitled in exchange for those goods or services. Revenue is recognized when it has approval and commitment from both parties, the rights of the parties are identified, payment terms are identified, the contract has commercial substance and collectability of consideration is probable. The Company has concluded that it is the principal in all of its revenue arrangements since it is the primary obligor in all the revenue arrangements as it has pricing latitude and is also exposed to inventory and credit risks. The Company collects goods and services tax on behalf of the government and, therefore, it is not an economic benefit flowing to the Company. Hence, it is excluded from revenue.

Revenue is recognized to the extent that it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured, regardless of when the payment is being made. Revenue is measured at the fair value of the consideration received or receivable, taking into account contractually defined terms of payment and excluding taxes or duties collected on behalf of the government. The specific recognition criteria described below must also be met before revenue is recognized.

The Company has following streams of revenue:

(i) Revenue from Engineering, Procurement and Construction contracts

Engineering, Procurement and Construction contracts are contracts (or a group of contracts secured together) specifically negotiated for the construction of an asset which refers to any project for construction of plants and systems, involving designing, engineering, fabrication, supply, erection (or supervision thereof), commissioning, guaranteeing performance thereof etc., execution of which is spread over different accounting periods. The Company identifies distinct performance obligations in each contract. For most of the project contracts, the customer contracts with the Company to provide a significant service of integrating a complex set of tasks and components into a single project or capability. Hence, the entire contract is accounted for as one performance obligation.

The Company may promise to provide distinct goods or services within a contract, in which case the Company separates the contract into more than one performance obligation. If a contract is separated into more than one performance obligation, the Company allocates the total transaction price to each performance obligation in an amount based on the estimated relative standalone selling prices of the promised goods or services underlying each performance obligation. The Company uses the expected cost plus a margin approach to estimate the standalone selling price of each performance obligation in case of contracts with more than one distinct performance obligations.

The Company uses cost-based measure of progress (or input method) for contracts because it best depicts the transfer of control to the customer which occurs as it incurs costs on contracts. Under the cost-based measure of progress, the extent of progress towards completion is measured based on the ratio of costs incurred to date to the total estimated costs at completion of the performance obligation. Revenues, including estimated profits, are recorded proportionally as costs are incurred.

The Company estimates variable consideration amount which it expects to be entitled under the contract and includes it in the transaction price to the extent it is highly probable that a significant reversal of cumulative revenue recognized will not occur and when the uncertainty associated with it is subsequently resolved. The estimates of variable consideration and determination of whether to include estimated amounts in the transaction price are based largely on an assessment of the anticipated performance and all information (historical, current and forecasted) that is reasonably available. Penalties/claims for any delay or improper execution of a contract are recognized as a deduction from revenue. In the balance sheet, such provisions are presented on net basis of the contract receivables.

Costs associated with bidding for contracts are charged to the Standalone Statement of Profit and Loss when they are incurred. Costs that relate directly to a contract and are incurred in securing the contract are included as part of the contract costs if they can be separately identified and measured reliably and it is probable that the contract will be obtained.

The Company provides for warranty provision for general repairs up to 12 – 24 months on its EPC contracts, in line with the industry practice. A liability is recognized at the time the contract is concluded. The Company does not provide any extended warranties.

Contract modification, when approved by both the parties to the contract, are considered as modification, if it creates new or changes the existing enforceable rights and obligations. Most of the contract modifications are not distinct from the existing contracts due to the significant integration service provided under the contract prior to modifications and are therefore, accounted for as part of the existing contract. The effect of a contract modification is recognized as an adjustment to revenue on a cumulative catch-up basis.

The Company combines two or more contracts entered into at or near the same time with the same customer (or related parties of the customer) and accounts for the contracts as a single contract if one or more of the following criteria are met:

Notes to financial statements for the year ended March 31, 2026
(All amounts are in Rupees Lakh, except per share data and unless stated otherwise)

(a) the contracts are negotiated as a package with a single commercial objective;

(b) the amount of consideration to be paid in one contract depends on the price or performance of the other contract; or

(c) the goods or services promised in the contracts (or some goods or services promised in each of the contracts) are a single performance obligation.

(ii) Revenue from sale of goods

If the criteria for revenue under over-a-period of time as mentioned above are not met, the company recognizes revenue at point-in-time. The point-in-time is determined when the control of the goods is transferred which is generally determined based on when the significant risk and rewards of ownership are transferred to the customer. Apart from this, the Company also considers its present right of payment, the legal title to the goods, the physical possession and the customer acceptance in determining the point in time where the control has been transferred. The Company provides for warranty provision for general repairs up to 12-24 months on its products sold, in line with the industry practice. A liability is recognized at the time the product is sold. The Company does not provide any extended warranties.

(iii) Revenue from Sale of services

Revenue in respect of operation and maintenance contract, awarded on a standalone basis or included in long term contracts and identified as a separate performance obligation, is recognized as the related services are performed on a time proportion basis under the contracts.

Estimates and assumptions

Constructions contracts

- Provisions for liquidated damages claims (LD's): The Company provides for LD claims where there have been significant contract delays and it is considered probable that the customer will successfully pursue such a claim. This requires an estimate of the amount of LD's payable under a claim which involves a number of management judgements and assumptions regarding the amounts to recognize.

- Project cost to complete estimates: at each reporting date, the Company is required to estimate costs to complete on fixed-price contracts. Estimating costs to complete on such contracts requires the Company to make estimates of future costs to be incurred, based on work to be performed beyond the reporting date. This estimate will impact revenues, cost of sales, work-in-progress, billings in excess of costs and estimated earnings and accrued contract expenses.

- Recognition of contract variations: the Company recognises revenues and margins from contract variations where it is considered probable that they will be awarded by the customer and this requires management to assess the likelihood of such an award being made by reference to customer communications and other forms of documentary evidence.

- Provision for onerous contracts: The Company provides for future losses on long-term contracts where it is considered probable that the contract costs are likely to exceed revenues in future years. Estimating these future losses involves a number of assumptions about the achievement of contract performance targets and the likely levels of future cost escalation over time. Refer note 19 to the financial statements.

Judgements

Revenue recognition on construction contracts

A significant portion of the Company's business relates to construction of assets which are accounted using percentage-of-completion method, recognizing revenue as the performance on the contract progresses. This requires Management to make judgement with respect to identifying contracts which need to be accounted under percentage-of-completion method, depending upon the level of customization and the period of the fulfilment of the performance obligations under the contract. The percentage-of-completion method requires Management to make significant estimates of the extent of progress towards completion including accounting of multiple contracts which need to be combined and considered as a single contract.

(a) Revenue from contracts with customers:

	March 31, 2026	March 31, 2025
Revenue from services	4.51	1.94
Revenue from projects and products	74.09	385.91
Total revenue from contracts with customers	**78.60**	**387.85**

(b) Other operating income

	March 31, 2026	March 31, 2025
Exchange fluctuation gain (net)	(0.05)	0.03
	(0.05)	**0.03**
Total revenue from operations	**78.55**	**387.88**

(c) Disclosure pursuant to Ind AS 115: Revenue from contracts with customers

i) Revenue by category of contracts:

	March 31, 2026	March 31, 2025
Over a period of time basis	74.09	385.91
At a point-in-time basis	4.51	1.94
Total revenue from contracts with customer	**78.60**	**387.85**

Revenue by geographical market:

	March 31, 2026	March 31, 2025
Within India	74.09	385.91
Outside India	4.51	1.94
Total revenue from contracts with customer	**78.60**	**387.85**

ii) Contract balances

Accounting Policy

Contract assets: A contract asset is the right to consideration in exchange for goods or services transferred to the customer. If the Company performs by transferring goods or services to a customer before the customer pays consideration or before payment is due, a contract asset is recognised for the earned consideration that is conditional and are transferred to Trade receivables on completion of milestones and its related invoicing. Contract assets are recorded in balance sheet as unbilled revenue.

Contract liabilities: A contract liability is the obligation to transfer goods or services to a customer for which the Company has received consideration (or an amount of consideration is due) from the customer. If a customer pays consideration before the Company transfers goods or services to the customer, a contract liability is recognised when the payment is made or the payment is due (whichever is earlier). Contract liabilities are recognised as revenue when the Company satisfies the performance obligation. Contract liabilities are recorded in balance sheet as unearned revenue and Customer advances.

The following table provides information about contract balances from contracts with customers as at the reporting date:

Notes to financial statements for the year ended March 31, 2026

(All amounts are in Rupees Lakh, except per share data and unless stated otherwise)

	As at March 31, 2026	As at March 31, 2025
Trade receivables (note 5 (a))	-	266.13
Unearned revenue (Contract liability) (note 13)	-	74.09

Contract assets primarily relate to the Company's rights to consideration for work completed but not billed at the reporting date on from projects and customised contracts. The Contract assets are transferred to Trade receivables when the rights become unconditional.

The Contract liabilities relate to the unearned revenue (excess of billings or invoicing over revenue) and advance consideration received from customers and performance obligations still to be fulfilled as per the contracts. The fulfilment of the performance obligations will extinguish these liabilities and revenue will be recognised, with no impact on the Company's cash position.

iii) Revenue recognised in the reporting period that was included in the contract liability balance at the beginning of the year:

	March 31, 2026	March 31, 2025
Unearned revenue	-	-
Customer advance	-	-

iv) Changes in unbilled revenue and unearned revenue for the year

The explanation of the significant changes in the contract asset and the contract liability balances during the reporting period is presented in the table below

	March 31, 2026	March 31, 2025
Opening unbilled revenue (note 10 (b))	-	-
Opening unearned revenue (note 13)	74.09	-
	(74.09)	**-**
- Transfer of contract assets to receivable from opening unbilled revenue	-	-
- Increase in revenue as a result of changes in the measure of progress from the opening unearned revenue	-	-
- Transfer of contract assets to receivable	-	-460.00
- Increase in revenue as a result of changes in the measure of progress	74.09	385.91
- Onerous loss during the period	-	-
- Others*	**-**	**-**
Closing unbilled revenue (note 10 (b))	-	-
Closing unearned revenue (note 13)	**-**	**74.09**

* includes adjustments on account of onerous contracts, impairment allowance for the year etc

Performance obligation in project or a group of projects which are contracted at or near same time and negotiated simultaneously, are combined for the purpose of evaluation. The Company has estimated that multiple commitments pertaining to engineering procurement and commissioning of such projects is as single performance obligation which is spread over different accounting periods.

Performance obligation for products are evaluated on standalone basis, recognised at point in time. Generally, performance obligations for such contracts have an original expected duration of one year or less.

There are no major contracts with customers which have significant financing component included within them and therefore there is no difference between the timing of satisfaction of performance obligation vis a vis the timing of the payment.

Remaining performance obligations

The following table includes revenue expected to be recognised in the future related to performance obligations that are unsatisfied (or partially unsatisfied) at the reporting date.

	March 31, 2026	March 31, 2025
Amount of revenue yet to be recognised for contracts in progress	-	74.09

The Company expects that a significant portion of the remaining performance obligation will be met in next 12-24 months.

The Company applies practical expedient included in para 121 of Ind AS 115 and does not disclose information about its remaining performance obligations for contracts that have an original expected duration of one year or less.

v) Reconciliation between revenue recognised in Statement of profit and loss and contract price

There is no significant variation between revenue recognised in Statement of profit and loss and contract price except price variation claims, which are considered to be part of contract price.

16 Other income

Accounting policy

Interest income

Interest income is recognised when it is probable that the economic benefits will flow to the Company and the amount can be measured reliably. Interest income is accrued on a time proportion basis, by reference to the principal outstanding and the effective interest rate applicable.

	March 31, 2026	March 31, 2025
Interest income from financial assets at amortized cost	3.33	2.62
Liabilities no longer required written back	1.01	1.71
Miscellaneous income	-	0.20
Total	**4.34**	**4.53**

17 Projects bought outs and components consumed

	March 31, 2026	March 31, 2025
Inventories at the beginning of the year	-	-
Projects bought outs and Components	5.73	263.52
	5.73	**263.52**
Inventories at the end of the year	-	-
Total	**5.73**	**263.52**

18 Employee benefits expense

	March 31, 2026	March 31, 2025
Salaries and wages	12.76	10.06
Contribution to provident and other funds	0.07	0.68
Gratuity expense (note 27)	-	0.15
Staff welfare expenses	-	0.02
Total	**12.83**	**10.91**

19 Finance cost

Accounting policy

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalized as part of the cost of the asset. All other borrowing costs are expensed in the period in which they occur. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds. Borrowing cost also includes exchange differences to the extent regarded as an adjustment to the borrowing costs.

Notes to financial statements for the year ended March 31, 2026

(All amounts are in Rupees Lakh, except per share data and unless stated otherwise)

	March 31, 2026	March 31, 2025
Interest expense	2.84	0.20
Total	**2.84**	**0.20**

20 Other expenses

	March 31, 2026	March 31, 2025
Freight and forwarding charges	-	6.62
Site expenses and contract labour charges	31.31	17.74
Drawing, design and technical service charges	-	5.22
Rates and taxes	(23.49)	29.43
Travelling and conveyance	-	0.58
Legal and professional fees (includes payment to auditors; note 21)	2.77	7.25
Bad debts/ advances written off	0.46	-
Provision for impairment of financial assets (net of reversals)	(0.78)	0.78
Warranty expenses (net)	4.60	-
Miscellaneous expenses (includes printing, communication, postage, security expense, etc.)	0.87	13.48
Total	**15.74**	**81.10**

21 Payment to auditors

	March 31, 2026	March 31, 2025
As auditor		
Audit fee	1.50	2.27
In other capacity		
Other services (Certification and reimbursement of expenses)	-	-
Total	**1.50**	**2.27**

22 Components of Other Comprehensive Income (OCI)

The disaggregation of changes to OCI by each type of reserve in equity (net of income tax) is shown below:

During the year ended March 31, 2026

	Retained Earnings
Re-measurement (losses)/gains on defined benefit plans	-
Total	**-**

During the year ended March 31, 2025

	Retained Earnings
Re-measurement gains/(losses) on defined benefit plans	0.46
Total	**0.46**

23 Earnings Per Share (EPS)

Accounting policy

The Company presents the basic and diluted EPS data for its equity shares. Basic EPS is computed by dividing the net profit for the year attributable to the equity shareholders of the Company by the weighted average number of equity shares outstanding during the year. Diluted EPS is computed by adjusting the net profit for the year attributable to the equity shareholders and the weighted average number of equity shares considered for deriving basic EPS for the effects of all the equity shares that could have been issued upon conversion of all dilutive potential equity shares (which includes the various stock options granted to employees).

The diluted potential equity shares are adjusted for the proceeds receivable had the equity shares been actually issued at fair value (that is the average market value of the outstanding equity shares). Dilutive potential equity shares are deemed converted as at the beginning of the period, unless issued at a later date. Dilutive potential equity shares are determined independently for each period presented.

The number of equity shares and potentially dilutive equity shares are adjusted retrospectively for all years presented for any share splits and bonus shares issues including for changes effected prior to the authorization for issue of the financial statements by the Board of Directors.

	March 31, 2026	March 31, 2025
Net profit attributable to the equity shareholders of the Company	41.81	20.40
Weighted average number of equity shares of Rs.5/- each (Nos.)	20,000,000.00	20,000,000.00
Basic and diluted EPS	0.21	0.10

24 Contingent liabilities

Accounting policy

A disclosure for a contingent liability is made where there is a possible obligation that arises from past events and the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company or a present obligation that arises from the past events where it is either not probable that an outflow of resources will be required to settle the obligation or a reliable estimate of the amount cannot be made.

Judgements

Legal contingencies

The Company has received various orders and notices from tax authorities in respect of direct taxes and indirect taxes. The outcome of these matters may have a material effect on the financial position, results of operations or cash flows. Management regularly analyzes current information about these matters and provides provisions for probable contingent losses including the estimate of legal expense to resolve the matters. In making the decision regarding the need for loss provisions, management considers the degree of probability of an unfavourable outcome and the ability to make a sufficiently reliable estimate of the amount of loss. The filing of a suit or formal assertion of a claim against the company or the disclosure of any such suit or assertions, does not automatically indicate that a provision of a loss may be appropriate.

a) Taxes

	March 31, 2026	March 31, 2025
Disputed GST and or VAT balances / liabilities		
- Tax	109.52	29.97
- Interest	82.09	24.92
- Penalty	10.95	3.00
Income tax matters	-	-

There are certain laws suits, disputes etc., including commercial matters that arises from time to time in the ordinary course of business for which amounts are not quantifiable by the management. However, based on management's assessment under Ind AS 37 "Provisions, Contingent Liabilities and Contingent Assets", that the claims against the Company are not tenable/ probability of final outcome against the Company is low and therefore not disclosed as Contingent liability.

** Pursuant to the NCLT Order dated 20th December 2023 approving the Scheme of Demerger, with effect from the Appointed Date, any proceedings relating to the Demerged Undertaking initiated against Thermax Cooling Solutions Limited ("the Company") shall be managed as per the directions of Thermax Instrumentation Limited ("the Resulting Company").*

All related costs, liabilities and obligations shall be borne by the Resulting Company, which has undertaken to indemnify the Company. Accordingly, no liability is considered to be attributable to the Company in respect of such matters.

b) The Company has issued various guarantees for performance, advances etc. The management has considered the probability for outflow of the same to be remote and accordingly no amounts has been disclosed here.

Break-up of financial assets carried at amortised cost

	As at March 31, 2026	As at March 31, 2025
Trade receivables	-	266.13
Cash and cash equivalents	15.78	41.12
Bank balances other than cash and cash equivalents	48.25	114.38
Total	**64.03**	**421.63**
Current assets	64.03	421.63
Non-current assets	-	-
Total	**64.03**	**421.63**

The management has assessed that the carrying amounts of the above financial instruments appoximate their fair values.

Notes to financial statements for the year ended March 31, 2026
(All amounts are in Rupees Lakh, except per share data and unless stated otherwise)

Break up of financial liabilities carried at amortised cost

	As at March 31, 2026	As at March 31, 2025
Trade payable	3.10	274.86
Other liabilities	20.32	54.44
Total	**23.42**	**329.30**
Current liabilities	23.42	329.30
Non current liabilities	-	-
Total	**23.42**	**329.30**

The management has assessed that the carrying amounts of the above financial instruments appoximate their fair values.

27 Financial risk management

The Company's principal financial liabilities comprise trade and other payables and borrowings. The main purpose of these financial liabilities is to finance the Company's operations. The Company's principal financial assets include loans, trade and other receivables and cash and cash equivalents that derive directly from its operations. The Company's borrowings and investments are designated as financial liabilities and assets through profit or loss respectively.

Risk is inherent in the Company's activities but it is managed through a process of on going identification, measurement and monitoring, subject to risk limits and other controls. This process of risk management is critical to the Company's continuing profitability and each individual within the Company is accountable for the risk exposures relating to his or her responsibilities. The Company is exposed to market risk, credit risk and liquidity risk.

The Company's Board of Directors is ultimately responsible for the overall risk management approach and for approving the risk strategies and principles. No significant changes were made in the risk management objectives and policies during the years ended March 31, 2026 and March 31, 2025.

I Market risk

Market risk is the risk that the value of an asset will fluctuate as a result of changes in market variables such as interest rates, foreign exchange rates and equity prices, whether those changes are caused by factors specific to the individual investment or its issuer or factors affecting all investments traded in the market.

Market risk is managed on the basis of pre-determined asset allocations across various asset categories, diversification of assets in terms of geographical distribution and industry concentration, a continuous appraisal of market conditions and trends and management's estimate of long and short term changes in fair value.

a Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. Other than cash credit facility, the Company does not have any borrowings and hence there is no significant exposure to the risk of changes in market interest rates.

b Foreign currency risk

Foreign exchange risk arises when future commercial transactions and relevant assets and liabilities are denominated in a currency that is not the Company's functional currency. Foreign exchange risk is the risk that the value of a financial instrument will fluctuate due to changes in foreign exchange rates.

Foreign exchange risk is managed on the basis of limits determined by management and a continuous assessment of current and expected exchange rate movements and entering into derivative contracts (foreign currency forward contracts) that hedge the maximum period of exposure of underlying transactions (i.e. highly probable forecast sales and purchases).

When a derivative is entered into for the purpose of being a hedge, the Company negotiates the terms of those derivatives to match the terms of the hedged exposure. For hedges of forecast transactions the derivatives cover the period of exposure from the point the cash flows of the transactions are forecasted up to the point of settlement of the resulting receivable or payable that is denominated in the foreign currency.

c Price risk

The Company is not exposed to such kind of risk.

II Credit risk

Credit risk is the risk that counterparty will not meet its obligations under a financial instrument or customer contract, leading to a financial loss. The Company is exposed to credit risk from its operating activities (primarily trade receivables) and from its financing activities, including deposits with banks and other financial instruments.

Trade receivables

Customer credit risk is managed by the Company's established policy, procedures and control relating to customer credit risk management. Credit quality of a customer is assessed based on an extensive credit rating scorecard and individual credit limits are defined in accordance with this assessment. Outstanding customer receivables are regularly monitored. The Company evaluates the concentration of risk with respect to trade receivables as low, as its customers are located in several jurisdictions and industries and operate in largely independent markets.

Financial instruments and bank deposits

Credit risk from balances with banks and mutual funds is managed by the Company's treasury department in accordance with the Company's policy. Investments of surplus funds are made only with approved counterparties and within credit limits assigned to each counterparty. The limits are set to minimise the concentration of risks and therefore mitigate financial loss through counterparty's potential failure to make payments.

The Company's maximum exposure to credit risk for bank balances and deposits as at March 31, 2026 and March 31, 2025 is the carrying amounts as disclosed in Note 8(a) and 8(b).

III Liquidity risk

Prudent liquidity risk management implies maintaining sufficient cash and marketable securities and the availability of funding through an adequate amount of committed credit facilities to meet obligations when due and to close out market positions. Due to the dynamic nature of the underlying businesses, company treasury maintains flexibility in funding by maintaining availability under committed credit lines.

The management monitors rolling forecasts of the Company's liquidity position and cash and cash equivalents on the basis of expected cash flows. In addition, the Company's liquidity management policy involves projecting future cash flows and considering the level of liquid assets necessary to meet these and monitoring balance sheet liquidity ratios against internal requirements.

The tables below summarises the Company's financial liabilities into relevant maturity profile based on contractual undiscounted payments :

Particulars	Less than 1 year	1 to 3 years	More than 3 years	Total
As at March 31, 2026				
Borrowings	-	-	-	-
Trade payables	3.10	-	-	3.10
Other financial liabilities :				-
Employee related payables	0.06	-	-	0.06
Customer deposits	-	-	-	-
Other payables	20.26	-	-	20.26
	23.42	**-**	**-**	**23.42**
As at March 31, 2025				
Borrowings	-	-	-	-
Trade payables	274.86	-	-	274.86
Other financial liabilities :				
Employee related payables	0.06	-	-	0.06
Customer deposits	-	-	-	-
Other payables	54.38	-	-	54.38
	329.30	**-**	**-**	**329.30**

28 Key Financial Ratios

The following are analytical ratios for the year ended March 31, 2026 and March 31, 2025:

Particulars	Numerator	Denominator	As at March 31, 2026	As at March 31, 202	Variance	Reasons for variance
Current ratio	Current assets	Current liabilities	2.88	1.04	1.78	The increase in current ratio reflects a strengthened liquidity position, supported by lower outstanding liabilities, particularly trade payables.
Return on equity ratio	Profit after tax	Average shareholder's equity	1.15	1.92	-0.40	ROE decreased due to increase in equity base.
Debtors turnover ratio	Revenue from operations	Average trade receivables	-	1.46	-1.00	
Trade payables turnover ratio	Total supplier purchases*#	Average trade payables	11.06	1.29	7.55	
Net capital turnover ratio	Revenue from operations	Working capital **	1.37	25.06	-0.95	
Net profit ratio	Profit after tax	Revenue from operations	0.53	0.05	9.12	Net profit ratio improved due to higher profitability in a project.
Return on capital employed (ROCE)	Profit before tax + finance cost	Capital employed ***	0.78	1.33	-0.41	ROCE declined during the year on account of increase in capital employed despite higher profitability.

Explanations:

** Total current assets - Total current liabilities

*** Total equity

#Projects bought outs and components consumed + Purchase of traded goods + (Increase) / decrease in inventories

*#Projects bought outs and components consumed + Purchase of traded goods + Other expenses - Provision for impairment allowance of financial asset (net) -Warranty expenses (net)

Notes to financial statements for the year ended March 31, 2026
(All amounts are in Rupees Lakh, except per share data and unless stated otherwise)

29 Capital Management

For the purpose of the Company's capital management, capital includes issued equity capital to the equity holders. The primary objective of the Company's capital management is to maximise the shareholder value. The Company manages its capital structure and makes adjustments in light of changes in economic conditions. No changes were made in the objectives, policies or processes for managing capital during the years ended March 31, 2025 and March 31, 2026.

	As at March 31, 2026	As at March 31, 2025
Trade payables	3.10	274.86
Less: Cash and cash equivalents	(64.03)	(155.50)
Net (surplus) / debt	**(60.93)**	**119.36**
Equity	57.33	15.52
Capital and net debt	**(118.26)**	**103.84**

30 Other Statutory Information

(i) The Company does not have any Benami property, where any proceeding has been initiated or pending against the Company for holding any Benami property.

(ii) The Company do not have any transactions with companies struck off.

(iii) The Company does not have any charges or satisfaction which is yet to be registered with ROC beyond the statutory period

(iv) The Company has not traded or invested in Crypto currency or Virtual Currency during the financial year.

(v) The Company has not advanced or loaned or invested funds to any other person(s) or entity(ies), including foreign entities (Intermediaries) with the understanding that the Intermediary shall:

(a) directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the company (Ultimate Beneficiaries) or

(b) provide any guarantee, security or the like to or on behalf of the Ultimate Beneficiaries

(vi) The Company has not received any fund from any person(s) or entity(ies), including foreign entities (Funding Party) with the understanding (whether recorded in writing or otherwise) that the Company shall:

(a) directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party (Ultimate Beneficiaries) or

(b) provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries,

(vii) The Company has not made any such transaction which is not recorded in the books of accounts that has been surrendered or disclosed as income during the year in the tax assessments under the Income Tax Act, 1961 (such as, search or survey or any other relevant provisions of the Income Tax Act, 1961).

31 Compliance with section 143(3) for maintenance of books of account

The Company has used accounting software's for maintaining its books of account which has a feature of recording audit trail (edit log) facility and the same has operated throughout the year for all relevant transactions recorded in the software. However, the audit trail feature is not enabled for changes made to master data in four accounting software's and changes made to the underlying database using privileged/administrative access rights. Further no instance of audit trail feature being tampered with was noted in respect of accounting software. Additionally, the audit trail of prior year has been preserved as per the statutory requirements for record retention to the extent it was enabled and recorded in the respective years.

DIRECTORS' REPORT

Dear Shareholders,

Your directors take pleasure to present the Sixteenth Annual Report, together with the audited financial statements of your company for the year ended March 31, 2026.

FINANCIAL RESULTS

(Rs.in crore)

Particulars	2025-26	2024-25
Total income	**2688.44**	2410.99
Profit/(Loss) before exceptional items and tax	**321.56**	303.05
Exceptional items	**(6.64)**	-
Profit /(Loss) before tax	**314.92**	303.05
Current Tax	**82.40**	73.90
Deferred tax	**(1.80)**	3.48
Profit/ (Loss) for the year	**234.32**	225.67

STATE OF COMPANAY'S AFFAIRS

During the year, your company remained focused on its portfolio of both conventional and green solutions spanning Solid Fuel (Subcritical and Supercritical), Waste-to-Energy, Waste Heat Recovery, and Oil & Gas, covering both new projects and retrofits. As the focus on energy transition and energy security continues to evolve, your company is well positioned to leverage its technology, capabilities, and expertise across both conventional and emerging energy solutions.

Your company secured orders across a diversified mix of product groups and geographies, with demand from sectors such as power, refinery, oil & gas, cement, steel, and distillery. International markets continued to offer growth opportunities across Southeast Asia, the Middle East and Africa, supported by strong execution.

Through a sustained focus on execution excellence, along with disciplined working capital management and operational rigor, your company reinforced its commitment to customer satisfaction and sound financial management.

AMOUNTS TRANSFERRED TO RESERVES

During the year there was no amount to be transferred to reserves.

DIVIDEND

The Board of Directors have recommended a dividend of Rs. 2.5/- (25%) per equity share of face value of Rs. 10/- each for the year ended March 31, 2026.

The dividend is subject to the approval of members at the ensuing Annual General Meeting (AGM).

MATERIAL CHANGES AND COMMITMENTS

No material changes and commitments affecting the financial position of the Company occurred between the end of the financial year to which this financial statement relates and the date of this report.

CHANGES IN SHARE CAPITAL, IF ANY

No change in paid up share capital.

DETAILS OF SUBSIDIARY, JOINT VENTURE OR ASSOCIATE COMPANIES

The Company has incorporated a subsidiary Thermax Energy Solutions Company at the Kingdom of Saudi Arabia on January 28, 2026.

DEPOSITS

The company has not accepted any deposits under Chapter V of the Companies Act, 2013.

PARTICULARS OF LOANS, GUARANTEES OR INVESTMENTS

Details of Loans, Guarantees and Investments covered under the provisions of section 186 of the Companies Act, 2013 are given in the Financial Statements.

VIGIL MECHANISM / WHISTLE BLOWER POLICY

The company has constituted the Audit & Risk Management Committee in accordance with the provisions of the Companies Act, 2013 and thus direct access to the Chairperson of the Audit & Risk Management Committee in exceptional or appropriate cases would be provided in the said mechanism.

EMPLOYEE STRENGTH

The total number of permanent staff and workmen as on March 31, 2026 was 1,168.

PARTICULARS OF EMPLOYEES

The information required pursuant to Section 197 read with Rule 5 of the Companies (Appointment and Remuneration of Managerial Personnel) Rules, 2014, duly amended, in respect of employees of the company, will be provided upon request. In terms of Section 136 of the Act, the Annual Report excluding the aforesaid information is being sent to all the members and others entitled to receive it.

Any shareholder interested in obtaining such particulars may write to the company secretary. The information is also available for inspection at the corporate office during working hours up to the date of the Annual General Meeting.

ENERGY CONSERVATION, TECHNOLOGY ABSORPTION AND FOREIGN EXCHANGE EARNINGS AND OUTGO

The information on the conservation of energy, technology absorption and foreign exchange earnings and outgo stipulated under Section 134(3)(m) of the Companies Act, 2013, read with Rule 8 of the Companies (Accounts) Rules, 2014, is provided as Annexure 1.

BUSINESS RISK MANAGEMENT

The company has instituted proven and established best practices for risk management, adopted from its holding company. It utilizes a structured and documented project risk and opportunity management system to review bids for new business. Risk management and mitigation is an integral part of this process. It also tracks and manages identified risks through periodic reviews during project execution.

ADEQUACY OF INTERNAL FINANCIAL CONTROLS

Internal audit observations and recommendations are presented to the audit & risk management committee for implementation of improvements/ modification of controls, as needed.

The internal control systems are adequate and commensurate with the nature and size of the business.

There are no findings which have significantly impacted the financial reporting.

SECRETARIAL STANDARDS

The Company has complied with the Secretarial standards issued by the Institute of Company Secretaries of India.

INTERNAL AUDIT

The internal audit at Thermax Group is carried out by the in-house Internal Audit Department with co-sourcing support. For scope determination, planning the audit and conducting reviews, the Internal audit department has been consistently following an audit cycle of July to June every year, which ensures review of transactions included in financial year April to March. The internal audit is risk based with a focus on controls for management of risks. The Directors consider this approach to meet the desired purpose of Internal Audit.

BOARD EVALUATION

Pursuant to the provisions of the Companies Act, 2013, the annual evaluation of the performance of the Board, its committees and Directors was carried out.

DIRECTORS AND KEY MANAGERIAL PERSONNEL

Directors

Mr. Pravin Karve has ceased to be Director of the Company w.e.f. July 07, 2025.

As per the provisions of the Companies Act, 2013 and the company's Articles of Association, Mr. B.C. Rajesh retires by rotation and being eligible offers himself for re-appointment as director.

Key Managerial Personnel (KMP)

Mr. Sandeep Deshpande was appointed as the Chief Financial Officer (CFO) and Key Managerial Personnel (KMP) of the Company w.e.f May 7, 2025.

Board Meetings

During the year, the Board met five times on May 7, 2025, June 27, 2025, July 29, 2025, November 10, 2025 and January 30, 2026. The intervening gap between the meetings was within the prescribed limit mentioned under the Companies Act, 2013. Details of meetings attended by the members are as follows:

Name	Date of Board meeting

Annexure-1

Energy Conservation, Technology Absorption and Foreign Exchange Earnings & Outgo

[Section 134(3)(m) of the Companies Act, 2013 read with Rule 8(3) of the Companies (Accounts) Rules, 2014]

A. Conservation of Energy

(i) Steps taken for Conservation of Energy

During the year, the following measures were taken for energy and resource conservation.

1. Electricity:

The Company remained focused on enhancing energy efficiency across its manufacturing facilities and office locations through the implementation of various energy conservation measures. These initiatives helped in optimizing energy consumption and improving overall operational efficiency.

During the year, Shirwal sourced 49% of its energy from solar power and 51% from grid electricity, strengthening its renewable energy adoption.

These initiatives have not only helped company to reduce its energy consumption and greenhouse gas emissions but also to improve its operational efficiency and reduce cost. During the year, greenhouse gas emissions from electricity consumption reduced by 8% compared to the previous year.

2. Fuel:

At Chinchwad, the LDO-based furnace was converted to PNG, enabling the transition to a cleaner fuel source and contributing towards reduced emissions and improved operational sustainability that leads to 57% reduction in carbon emission from previous year.

During the year, greenhouse gas emissions from fuel consumption reduced by 5% compared to the previous year.

3. Water:

Water conservation continues to remain a key focus area across locations, driven by the adoption of innovative technologies, efficient water management practices, and resource optimization initiatives. During the year, multiple projects were implemented across manufacturing units to reduce fresh water consumption, enhance water reuse, and strengthen sustainable water stewardship practices. In recognition of these efforts, the Shirwal and Savli units were certified as water positive during the year.

At Shirwal, a dedicated pipeline network was laid to utilize treated water and pond water for toilet flushing, reducing dependency on fresh water sources. At Savli, an advanced IoT-based water management system was implemented, incorporating digital float switches, solenoid valves, electromagnetic flow meters, and Web SCADA for real-time monitoring and control of water usage. The unit also enhanced rainwater utilization within the facility and implemented several water-saving projects to improve operational efficiency.

These initiatives collectively resulted in a 16% reduction in water consumption at Savli and a 13% reduction at Shirwal compared to the previous year.

ii) Steps taken by the company for utilizing alternate sources of energy:

The Company continues to strengthen its focus on adoption of alternate and renewable energy sources across its manufacturing locations to improve energy sustainability and reduce environmental impact. During the year, the Savli unit continued utilizing solar energy, with solar power contributing 12% of its total energy consumption. At Shirwal, the share of green energy consumption increased from 40% in the previous year to 49% this year.

Expenditure on R&D- Nil

Foreign exchange Earnings and Outgo

During the year the company had Foreign Exchange inflow Rs. 796.49 crores and Foreign Exchange outflow of Rs. 210.42 crores.

Thermax Babcock & Wilcox Energy Solutions Limited

Annexure-2

Annual Report on CSR Activities and CSR Policy

1. A brief outline on CSR Policy of the company

Annexure 3

Policy on selection and appointment of Directors and remuneration of Directors, KMP's and employees

The Nomination & Remuneration Committee (NRC) has prepared a "Terms of Reference" (TOR), which, inter alia, deals with laying down the criteria for the selection of Non-Executive Directors (NEDs), based on the requirements of the organization, including the qualifications of Directors. The NRC has also laid down the criteria for the evaluation of the performance of the Board and guidelines for determining the remuneration of Directors. This Policy is based on the TOR of NRC:

(1) Criteria for selection and appointment of Directors:

(a) The Director shall have relevant expertise and experience commensurate with the requirements of the Company to discharge the duties as a Director.

(b) While selecting a director, the emphasis be given to the qualifications, experience, and personal and professional standing of the incumbent.

(c) Assess the nature of appointment as Director vis-à-vis any conflict-of-interest w.r.t. any pecuniary relationship and procure necessary declaration.

(d) The Director is not disqualified for appointment u/s. 164 of the Companies Act, 2013.

(e) In the event of re-appointment of Director, due emphasis be given to the performance evaluation of the Director during his tenure.

(2) Remuneration:

The remuneration payable to Directors shall be in accordance with Sec. 197 of the Companies Act, 2013 and other applicable provisions & rules made thereunder from time to time.

The Non- Executive Directors shall be entitled to receive remuneration by way of sitting fees for attending the meetings of the Board as well as the Committees and commission as may be decided. They also shall be eligible to receive reimbursement of expenses for participation in the Board and Committee Meetings.

(3) Criteria for selection of MD/ WTD & CEO:

For selection of the MD/ WTD and CEO, the NRC shall identify persons of integrity who possess relevant expertise, experience and leadership qualities required for the position and shall take into consideration recommendations, if any, received from any member of the Board. The Committee will also ensure that the incumbent fulfils such other criteria regarding age and other qualifications as laid down under the Companies Act, 2013 or other applicable laws.

(4) Remuneration Policy for Senior Management, KMPs and employees:

The NRC, while determining the remuneration of Senior Management/ employees and KMPs shall ensure the following:

(i) The remuneration is divided into Fixed component & Variable Component.

(ii) The division is based on the fixed salary and performance bonuses.

(iii) The division between fixed and variable is based on the roles & responsibilities, the Company's performance vis-à-vis KRA & KPIs, industry benchmark and current compensation trends in the market.

Based on the Annual Business Plan prepared, Individual Contribution Plan (ICP) is prepared by the Senior Management which is agreed upon. It broadly contains certain targets for strategic objectives, operational excellence-oriented initiatives, and business deliverables.

Annexure 4

Form No. AOC-2

(Pursuant to clause (h) of sub-section (3) of section 134 of the Act and Rule 8(2) of the Companies (Accounts) Rules, 2014)

Form for disclosure of particulars of contracts/arrangements entered into by the company with related parties referred to in sub-section (1) of section 188 of the Companies Act, 2013 including certain arm's length transactions under third proviso thereto

1. Details of contracts or arrangements or transactions not at arm's length basis

The Company has not entered into any contracts / arrangements with its related parties which are not in the ordinary course of business or not at arm's length basis.

2. Details of material contracts or arrangement or transactions at arm's length basis:

There were certain transactions entered into by the company with parties who are related within the meaning of Indian Accounting Standard (Ind AS 24 and Section 188 of the Act. The disclosure of transactions with such related parties are set out in Note No. 28 to the financial statements which forms an integral part of this report.

For and on behalf of the Board of Directors of

Thermax Babcock & Wilcox Energy Solutions Limited

ANNEXURE 5 TO THE DIRECTORS' REPORT

SECRETARIAL AUDIT REPORT FOR THE FINANCIAL YEAR ENDED 31ST MARCH, 2026

[Pursuant to Section 204(1) of the Companies Act, 2013 and Rule No. 9 of the Companies (Appointment and Remuneration of Managerial Personnel) Rules, 2014]

To,
The Members,
THERMAX BABCOCK & WILCOX ENERGY SOLUTIONS LIMITED
Dhanraj Mahal, 2nd Floor, Chhatrapati Shivaji Maharaj Marg,
Near Regal Cinema, Colaba Mumbai MH 400039

I have conducted the secretarial audit of the compliance of applicable statutory provisions and the adherence to good corporate practices by **Thermax Babcock & Wilcox Energy Solutions Limited (hereinafter called 'the Company')**. Secretarial Audit was conducted in a manner that provided me a reasonable basis for evaluating the corporate conducts/ statutory compliances and expressing my opinion thereon.

Based on my verification of the company's books, papers, minute books, forms and returns filed and other records maintained by the company and also the information provided by the Company, its officers, agents and authorized representatives during the conduct of secretarial audit, I hereby report that in my opinion, the Company has, during the audit period covering the financial year ended on 31st March, 2026 (Audit Period) complied with the statutory provisions listed hereunder and also that the Company has proper Board-processes and compliance-mechanism in place to the extent, in the manner and subject to the reporting made hereinafter:

I have examined the books, papers, minute books, forms and returns filed and other records maintained by the Company for the financial year ended on 31st March, 2026 according to the provisions of:

(i) The Companies Act, 2013 (the Act) and the rules made thereunder;

(ii) The Securities Contracts (Regulation) Act, 1956 ('SCRA') and the rules made thereunder; **(not applicable to the Company during the Audit period)**

(iii) The Depositories Act, 1996 and the Regulations and Bye-laws framed thereunder; **(not applicable to the Company during the Audit period)**

(iv) Foreign Exchange Management Act, 1999 and the rules and regulations made thereunder to the extent of Overseas Direct Investment;

(v) The following Regulations and Guidelines prescribed under the Securities and Exchange Board of India Act, 1992 ('SEBI Act'):- **(Following sub-clauses (a) to (h) are not applicable to the Company during the Audit period as Company continues to be an Unlisted Public Company in its Articles under Section 2(71) of the Act)**

a) The Securities and Exchange Board of India (Substantial Acquisition of Shares and Takeovers) Regulations, 2011;

b) The Securities and Exchange Board of India (Prohibition of Insider Trading) Regulations, 2015;

c) The Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) Regulations, 2018;

d) The Securities and Exchange Board of India (Share Based Employee Benefits) Regulations, 2021;

e) The Securities and Exchange Board of India (Issue and Listing of Non-Convertible Securities) Regulations, 2021;

f) The Securities and Exchange Board of India (Registrars to an Issue and Share Transfer Agents) Regulations, 1993 regarding the Companies Act and dealing with client;

g) The Securities and Exchange Board of India (Delisting of Equity Shares) Regulations, 2021 and

h) The Securities and Exchange Board of India (Buyback of Securities) Regulations, 2018.

(vi) Following important specific laws applicable to the Company, were complied with, as confirmed by the Company:

a. The Boilers Act, 2025

I have also examined compliance with applicable clauses of the following:

(i) Secretarial Standards (SS.1 relating to meetings of Board of Directors & SS.2 relating to General Meetings) issued by the Institute of Company Secretaries of India.

(ii) The Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015; **(Not applicable to the Company during the Audit Period)**

During the period under review, the Company has complied with the provisions of the Act, Rules, Regulations, Guidelines, Standards, etc. mentioned above.

I further report that the Board of Directors of the Company is duly constituted with proper balance of Executive Directors and Non-Executive Directors. The changes in the composition of the Board of Directors that took place during the period under review were carried out in compliance with the provisions of the Act.

Adequate notice is given to all directors to schedule the Board Meetings and Committee Meetings, agenda and detailed notes on agenda were sent at least seven days in advance, except when meetings were called at shorter notice as permitted u/s. 173(3) of the Act and a system exists for seeking and obtaining further information and clarifications on the agenda items before the meeting and for meaningful participation at the meeting.

All decisions at Board Meetings and Committee Meetings were carried out unanimously as recorded in the minutes of the meetings of Board of Directors or Committee of Board as the case maybe.

I further report that there are adequate systems and processes in the company commensurate with the size and operations of the company to monitor and ensure compliance with applicable laws, rules, regulations and guidelines.

I further report that during the audit period:

- The Company at Extra Ordinary General meeting held on 3rd July, 2025, passed a special resolution to increase the limit under section 186 upto Rs.2000 Cr.

Thermax Babcock & Wilcox Energy Solutions Limited

Independent Auditor's Report

To the Members of Thermax Babcock & Wilcox Energy Solutions Limited

Report on the Audit of the Financial Statements

Opinion

1. We have audited the accompanying financial statements of Thermax Babcock & Wilcox Energy Solutions Limited ("the Company"), which comprise the Balance Sheet as at March 31, 2026, and the Statement of Profit and Loss (including Other Comprehensive Income), the Statement of Changes in Equity and the Statement of Cash Flows for the year then ended, and notes to the financial statements, including material accounting policy information and other explanatory information.

2. In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2026, and total comprehensive income (comprising of profit and other comprehensive income), changes in equity and its cash flows for the year then ended.

Basis for Opinion

3. We conducted our audit in accordance with the Standards on Auditing (SAs) specified under Section 143(10) of the Act. Our responsibilities under those Standards are further described in the "Auditors' Responsibilities for the Audit of the Financial Statements" section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Other Information

4. The Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Directors' report, but does not include the financial statements and our auditors' report thereon.

   Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

   In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of management and those charged with governance for the financial statements

5. The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Act with respect to the preparation of these financial statements that give a true and fair view of the financial position, financial performance, changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards specified under Section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

6. In preparing the financial statements, Board of Directors is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless Board of Directors either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

7. Those Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditors' responsibilities for the audit of the financial statements

8. Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

9. As part of an audit in accordance with SAs, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

   - Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

   - Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under Section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls with reference to financial statements in place and the operating effectiveness of such controls.

   - Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.

   - Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Company to cease to continue as a going concern.

   - Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

10. We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

11. We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Other Matter

12. The financial statements of the Company for the year ended March 31, 2025, were audited by prior auditors under the Act who, vide their report dated May 07, 2025, expressed an unmodified opinion on those financial statements.

Report on other legal and regulatory requirements

13. As required by the Companies (Auditor's Report) Order, 2020 ("the Order"), issued by the Central Government of India in terms of sub-section (11) of Section 143 of the Act, we give in the Annexure B a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.

14. As required by Section 143(3) of the Act, we report that:

(a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.

(b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.

(c) The Balance Sheet, the Statement of Profit and Loss (including other comprehensive income), the Statement of Changes in Equity and the Statement of Cash Flows dealt with by this Report are in agreement with the books of account.

(d) In our opinion, the aforesaid financial statements comply with the Indian Accounting Standards specified under Section 133 of the Act.

(e) On the basis of the written representations received from the directors as on March 31, 2026, taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2026, from being appointed as a director in terms of Section 164(2) of the Act.

(f) With respect to the adequacy of the internal financial controls with reference to financial statements of the Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure A".

(g) With respect to the other matters to be included in the Auditors' Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014 (as amended), in our opinion and to the best of our information and according to the explanations given to us:

i. The Company has disclosed the impact of pending litigations on its financial position in its financial statements - Refer Note 27 to the financial statements;

ii. The Company has made provision, as required under the applicable law or Indian Accounting Standards, for material foreseeable losses, if any, on long-term contracts including derivative contracts - Refer Note 16 and Note 17 to the financial statements;

iii. There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Company during the year ended March 31, 2026.

iv. (a) The management has represented that, to the best of its knowledge and belief, as disclosed in Note 40 to the financial statements, no funds have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Company to or in any other person(s) or entity(ies), including foreign entities ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, whether directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Company ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries;

(b) The management has represented that, to the best of its knowledge and belief, as disclosed in the Note 40 to the financial statements, no funds have been received by the Company from any person(s) or entity(ies), including foreign entities ("Funding Parties"), with the understanding, whether recorded in writing or otherwise, that the Company shall, whether directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries; and

(c) Based on such audit procedures that we considered reasonable and appropriate in the circumstances, nothing has come to our notice that has caused us to believe that the representations under sub-clause (a) and (b) contain any material misstatement.

v. The dividend declared and paid by the Company during the year in respect of the prior year ended March 31, 2025 is in accordance with Section 123 of the Act to the extent it applies to declaration and payment of dividend. Further, as stated in Note 14(b) to the financial statements, the Board of Directors of the Company has proposed final dividend for the year which is subject to the approval of the members at the ensuing Annual General Meeting. The dividend declared is in accordance with Section 123 of the Act to the extent it applies to declaration of dividend.

vi. Based on our examination, which included test checks, the Company has used multiple accounting software for maintaining its books of account which has a feature of recording audit trail (edit log) facility and that has operated throughout the year for all relevant transactions recorded in the software as described in Note 36 to the financial statements. During the course of our audit, we did not notice any instance of audit trail feature being tampered with. Further, the audit trail, to the extent maintained in the prior year, has been preserved by the Company as per the statutory requirements for record retention, as stated in Note 36 to the financial statements.

15. The Company has paid/ provided for managerial remuneration in accordance with the requisite approvals mandated by the provisions of Section 197 read with Schedule V to the Act.

Annexure A to Independent Auditors' Report

Referred to in paragraph 14(f) of the Independent Auditors' Report of even date to the members of Thermax Babcock & Wilcox Energy Solutions Limited on the financial statements as of and for the year ended March 31, 2026.

Report on the Internal Financial Controls with reference to Financial Statements under clause (i) of sub-section 3 of Section 143 of the Act

1. We have audited the internal financial controls with reference to financial statements of Thermax Babcock & Wilcox Energy Solutions Limited ("the Company") as of March 31, 2026 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

2. The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting ("the Guidance Note") issued by the Institute of Chartered Accountants of India ("ICAI"). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditor's Responsibility

3. Our responsibility is to express an opinion on the Company's internal financial controls with reference to financial statements based on our audit. We conducted our audit in accordance with the Guidance Note and the Standards on Auditing specified under Section 143(10) of the Act to the extent applicable to an audit of internal financial controls, both applicable to an audit of internal financial controls and both issued by the ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to financial statements was established and maintained and if such controls operated effectively in all material respects.

4. Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system with reference to financial statements and their operating effectiveness. Our audit of internal financial controls with reference to financial statements included obtaining an understanding of internal financial controls with reference to financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

5. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system with reference to financial statements.

Meaning of Internal Financial Controls with reference to financial statements

6. A company's internal financial controls with reference to financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial controls with reference to financial statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls with reference to financial statements

7. Because of the inherent limitations of internal financial controls with reference to financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to financial statements to future periods are subject to the risk that the internal financial controls with reference to financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

8. In our opinion, the Company has, in all material respects, adequate internal financial controls system with reference to financial statements and such internal financial controls with reference to financial statements were operating effectively as at March 31, 2026, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note issued by ICAI.

Annexure B to Independent Auditors' Report

Referred to in paragraph 13 of the Independent Auditors' Report of even date to the members of Thermax Babcock & Wilcox Energy Solutions Limited on the financial statements for the year ended March 31, 2026

In terms of the information and explanations sought by us and furnished by the Company, and the books of account and records examined by us during the course of our audit, and to the best of our knowledge and belief, we report that:

i. (a) (A) The Company is maintaining proper records showing full particulars, including quantitative details and situation, of Property, Plant and Equipment.

(B) The Company is maintaining proper records showing full particulars of Intangible Assets.

(b) The Property, Plant and Equipment of the Company are physically verified by the Management according to a phased programme designed to cover all the items over a period of 3 years which, in our opinion, is reasonable having regard to the size of the Company and the nature of its assets. Pursuant to the programme, a portion of the Property, Plant and Equipment has been physically verified by the Management during the year and no material discrepancies have been noticed on such verification.

(c) The title deeds of all the immovable properties (other than properties where the Company is the lessee and the lease agreements are duly executed in favour of the lessee), as disclosed in Note 4(a) and Note 4(b) to the financial statements, are held in the name of the Company.

(d) The Company has not revalued its Property, Plant and Equipment (including Right of Use assets) or Intangible Assets or both during the year. Consequently, the question of our commenting on whether the revaluation is based on the valuation by a Registered Valuer, or specifying the amount of change, if the change is 10% or more in the aggregate of the net carrying value of each class of Property, Plant and Equipment (including Right of Use assets) or Intangible Assets does not arise.

(e) No proceedings have been initiated on or are pending against the Company for holding benami property under the Prohibition of Benami Property Transactions Act, 1988 (as amended in 2016) (formerly the Benami Transactions (Prohibition) Act, 1988 (45 of 1988)) and Rules made thereunder, and therefore the question of our commenting on whether the Company has appropriately disclosed the details in the financial statements, does not arise.

ii. (a) The physical verification of inventory excluding stocks with third parties has been conducted at reasonable intervals by the Management during the year and, in our opinion, the coverage and procedure of such verification by Management is appropriate. In respect of inventory lying with third parties, these have substantially been confirmed by them. The discrepancies noticed on physical verification of inventory as compared to book records were not 10% or more in aggregate for each class of inventory.

(b) During the year, the Company has been sanctioned working capital limits in excess of Rs. 5 crores, in aggregate, from banks on the basis of security of current assets. The Company has filed quarterly returns or statements with such banks, which are in agreement with the unaudited books of account. (Also, refer Note 11 to the financial statements). Further, the Company has not filed the returns for the quarter ended March 31, 2026 and, accordingly, the question of our commenting under clause 3(ii)(b) to that extent, does not arise.

iii. (a) The Company has made investments in mutual fund schemes, corporate fixed deposits, bonds and granted unsecured loans to employees. The aggregate amount during the year, and balance outstanding at the balance sheet date with respect to such loans to parties other than subsidiaries, joint ventures and associates are as per the table given below:

	Loans (Rs. in Crores)
Aggregate amount granted during the year - Others	1.83
Balance outstanding as at balance sheet date in respect of the above cases - Others	0.92

(Also, refer Note 10(b) to the financial statements)

(b) In respect of the aforesaid investments and loans, the terms and conditions under which such loans were granted/investments were made are not prejudicial to the Company's interest.

(c) In respect of the loans, the schedule of repayment of principal and payment of interest has been stipulated, and the parties are repaying the principal amounts, as stipulated, and are also regular in payment of interest as applicable.

(d) In respect of the loans, there is no amount which is overdue for more than ninety days.

(e) There were no loans which have fallen due during the year and were renewed/extended. Further, no fresh loans were granted to same parties to settle the existing overdue loans.

(f) There were no loans which were granted during the year, including to promoters/ related parties that were repayable on demand or without specifying any terms or period of repayment.

iv. The Company has not granted any loans or made any investments or provided any guarantees or security to the parties covered under Sections 185 and 186. Therefore, the reporting under clause 3(iv) of the Order are not applicable to the Company.

v. The Company has not accepted any deposits or amounts which are deemed to be deposits referred in Sections 73, 74, 75 and 76 of the Act and the Rules framed there under. Accordingly, the reporting under clause 3(v) of the Order is not applicable to the Company.

vi. Pursuant to the rules made by the Central Government of India, the Company is required to maintain cost records as specified under Section 148(1) of the Act in respect of its certain products and services. We have broadly reviewed the books of account maintained by the Company pursuant to the said requirement, and are of the opinion that, prima facie, the prescribed accounts and records have been made and maintained. We have not, however, made a detailed examination of the records with a view to determine whether they are accurate or complete.

(vii) (a) In our opinion, the Company is generally regular in depositing undisputed statutory dues in respect of provident fund, though there has been a slight delay in a few cases, and is regular in depositing undisputed statutory dues, including employees' state insurance, income tax, duty of customs, duty of excise, goods and services tax and other statutory dues, as applicable, with the appropriate authorities. However, there are no arrears of statutory dues outstanding as at March 31, 2026, for a period of more than six months from the date they became payable.

(b) The particulars of statutory dues referred to in sub-clause (a) as at March 31, 2026 which have not been deposited on account of a dispute, are as follows:

Name of the statute	Nature of dues	Amount (Rs. In Crores)	Period to which the amount relates	Forum where the dispute is pending
The Central Excise Act, 1944	Excise duty	1,238.85	FY 2000-01 to FY 2017-18	Supreme Court
Income Tax Act, 1961	Income Tax	4.91	AY 2011-12, AY 2012-13 and AY 2017-18	Assessing officer (AO) (Mumbai, Maharashtra)
		112.50	AY 2013-14 to AY 2016-17, AY 2021-22 and AY 2023-24	Commissioner of Income Tax (Appeals) (Mumbai, Maharashtra)

Central Sales Tax and Local Sales tax	Sales tax and Value Added Tax	1.91	FY 2007-08, FY 2009-10 to FY 2017-18	Appellate Tribunal (Maharashtra)
		0.99	FY 2014-15	Appellate Tribunal (Andhra Pradesh)
		1.32	FY 2006-07 and FY 2014-15	First Appellate Authority (Gujarat)
The Indian Custom Act 1962	Custom duty	10.01	FY 2006-07	Appellate Tribunal, Mumbai
		0.61	FY 2017-18, FY 2018-19	Commissioner of customs (Appeal), Maharashtra
Goods and Services Tax Act, 2017	Goods and Services Tax	28.29	FY 2019-20, FY 2020-21 and FY 2021-22	Appellate Authority upto Commissioner Level (Maharashtra)
	Refund of Goods and Services Tax	0.41	FY 2018-19	Commissioner of Central Tax (Appeals), Maharashtra

(viii) There are no transactions previously unrecorded in the books of account that have been surrendered or disclosed as income during the year in the tax assessments under the Income-tax Act, 1961.

(ix) (a) The Company has not defaulted in repayment of loans or other borrowings or in the payment of interest thereon to any lender during the year.

(b) On the basis of our audit procedures, we report that the Company has not been declared Wilful Defaulter by any bank or financial institution or government or any government authority.

(c) The Company has not obtained any term loans. Accordingly, reporting under clause 3(ix)(c) of the Order is not applicable to the Company.

(d) According to the information and explanations given to us, and the procedures performed by us, and on an overall examination of the financial statements of the Company, we report that no funds raised on short-term basis have been utilised for long-term purposes by the Company.

(e) On an overall examination of the financial statements of the Company, we report that the Company has not taken any funds from any entity or person on account of or to meet the obligations of its subsidiary.

(f) According to the information and explanations given to us and procedures performed by us, we report that the Company has not raised loans during the year on the pledge of securities held in its subsidiary.

x. (a) The Company has not raised any money by way of initial public offer or further public offer (including debt instruments) during the year. Accordingly, the reporting under clause 3(x)(a) of the Order is not applicable to the Company.

(b) The Company has not made any preferential allotment or private placement of shares or fully or partially or optionally convertible debentures during the year. Accordingly, the reporting under clause 3(x)(b) of the Order is not applicable to the Company.

xi. (a) During the course of our examination of the books and records of the Company, carried out in accordance with the generally accepted auditing practices in India, we have neither come across any instance of material fraud by the Company or on the Company, noticed or reported during the year, nor have we been informed of any such case by the Management.

(b) During the course of our examination of the books and records of the Company carried out in accordance with the generally accepted auditing practices in India, a report under Section 143(12) of the Act, in Form ADT-4, as prescribed under rule 13 of Companies (Audit and Auditors) Rules, 2014 was not required to be filed by us, as statutory auditors, with the Central Government. Further, no such report has been filed by any other auditor appointed by the Company under the Act. Accordingly, the reporting under clause 3(xi)(b) of the Order is not applicable to the Company.

(c) During the course of our examination of the books and records of the Company carried out in accordance with the generally accepted auditing practices in India, the Company has received whistle-blower complaints during the year, which have been considered by us for any bearing on our audit and reporting under this clause.

xii. As the Company is not a Nidhi Company and the Nidhi Rules, 2014 are not applicable to it, the reporting under clause 3(xii) of the Order is not applicable to the Company.

xiii. The Company has entered into transactions with related parties in compliance with the provisions of Section 188 of the Act. The details of related party transactions have been disclosed in the financial statements as required under Indian Accounting Standard 24 "Related Party Disclosures" specified under Section 133 of the Act. Further, the Company has constituted an Audit Committee voluntarily, though the provisions of Section 177 of the Act do not apply to the Company and, accordingly, to this extent, the reporting under clause 3(xiii) of the Order is not applicable to the Company.

(xiv) (a) In our opinion, the Company has an internal audit system commensurate with the size and nature of its business.

(b) We are unable to obtain some of the Internal Audit Reports for the period August 01, 2025 to March 31, 2026 of the Company and, accordingly, the Internal Audit Reports have been considered by us for the purpose of our audit only to the extent those were made available to us.

xv. In our opinion, the Company has not entered into any non-cash transactions with its directors or persons connected with the directors. Accordingly, the reporting on compliance with the provisions of Section 192 of the Act under clause 3(xv) of the Order is not applicable to the Company.

(xvi) (a) The Company is not required to be registered under Section 45-IA of the Reserve Bank of India Act, 1934. Accordingly, the reporting under clause 3(xvi)(a) of the Order is not applicable to the Company.

(b) The Company has not conducted non-banking financial / housing finance activities during the year. Accordingly, the reporting under clause 3(xvi)(b) of the Order is not applicable to the Company.

(c) The Company is not a Core Investment Company as defined in the regulations made by the Reserve Bank of India. Accordingly, the additional reporting under clause 3(xvi)(c) of the Order is not applicable to the Company.

(d) In our opinion, the Group as defined in the Reserve Bank of India (Core Investment Companies) Directions, 2025 has 1 CICs as part of the Group as detailed in Note 5(b) to the financial statements.

xvii. The Company has not incurred any cash losses in the financial year or in the immediately preceding financial year.

xviii. There has been no resignation of the statutory auditors during the year and, accordingly, the reporting under clause 3(xviii) of the Order is not applicable.

xix. On the basis of the financial ratios, ageing and expected dates of realisation of financial assets and payment of financial liabilities, other information accompanying the financial statements, our knowledge of the Board of Directors and management plans and based on our examination of the evidence supporting the assumptions, nothing has come to our attention, which causes us to believe that any material uncertainty exists as on the date of the audit report that the Company is not capable of meeting its liabilities existing at the date of balance sheet as and when they fall due within a period of one year from the balance sheet date. We, however, state that this is not an assurance as to the future viability of the Company. We further state that our reporting is based on the facts up to the date of the audit report and we neither give any guarantee nor any assurance that all liabilities falling due within a period of one year from the balance sheet date will get discharged by the Company as and when they fall due.

(xx) (a) The Company has not transferred the amount of Corporate Social Responsibility remaining unspent under sub-section (5) of Section 135 of the Act in respect of "other than ongoing projects" to a Fund specified in Schedule VII to the Act until the date of our report. However, the time period for such transfer, i.e., six months of the

expiry of the financial year as permitted under the second proviso to sub-section (5) of Section 135 of the Act has not elapsed until the date of our report. Details are as given below:

Financial year	Amount to be spent in accordance with Section 135(5)	Amount remaining unspent as at the year-end to be transferred to fund under Sch. VII	Amount transferred to Fund under Sch. VII, within 6 months from end of financial year (or till the date of audit report, if that is earlier)	Amount transferred to Fund under Sch. VII, after 6 months from end of financial year (till the date of audit report)	Amount not transferred to Fund under Sch. VII, till the date of audit report
FY 2025-26	3.74	0.60	-	-	0.60

(b) The Company has transferred the amount of Corporate Social Responsibility remaining unspent under sub-section (5) of Section 135 of the Act to a special account in compliance with the provision of sub-section (6) of Section 135 of the Act. (Also, refer Note 25(c) to the financial statements)

xxi. The reporting under clause 3(xxi) of the Order relates to audit of Consolidated Financial Statements, which is not applicable to the Company. Accordingly, no comment in respect of this clause has been included.

Thermax Babcock & Wilcox Energy Solutions Limited

Notes to the Financial Statements for the year ended March 31, 2026

(All amounts are in Rupees Crore, except per share data and unless stated otherwise)

1. Corporate information

Thermax Babcock & Wilcox Energy Solutions Limited (the "Company") is a Company domiciled in India. The Company is engaged in designing, engineering, fabrication, supply, erection, operations and maintenance services, commissioning of subcritical and supercritical boilers. The Company caters to both domestic and international markets. The address of its registered office is Dhanraj Mahal, 2nd Floor, Chhatrapati Shivaji Maharaj Marg, Near Regal Cinema, Colaba, Mumbai 400039, India. These financial statements are authorized for issue by the Board of Directors on May 06, 2026. The CIN of the Company is U29253MH2010PLC204890.

2 Material Accounting Policies

2.1 Basis of preparation and measurement

(a) Basis of preparation

These financials statements are prepared in accordance with Indian Accounting Standards (Ind AS) notified under the Companies (Indian Accounting Standards) Rules, 2015 (as amended from time to time) and presentation requirements of Division II of Schedule III to the Companies Act, 2013, ("the Act") (Ind AS compliant schedule III) as applicable to the financial statements.

The preparation of the financial statements requires the use of certain critical accounting judgements, estimates and assumption. It also requires the management to exercise judgment in the process of applying the Company's accounting policies. The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are critical to the financial statements are disclosed in the note 3.

(b) Basis of measurement

The financial statements have been prepared on the accrual and going concern basis under historical cost convention except the following:

- Certain financial assets and liabilities (including derivative instruments) is measured at fair value;
- Defined benefit plans whereby the plan assets are measured at fair value.
- Equity settled ESOP at grant date fair value at each reporting date.

2.2 Summary of material accounting policies

(a) Current and non-current classification

An entity shall classify an asset as current when:

(i) it expects to realise the asset, or intends to sell or consume it, in its normal operating cycle

(ii) it holds the asset primarily for the purpose of trading

(iii) it expects to realise the asset within twelve months after the reporting period (other than for long-term projects), or

(iv) the asset is cash or a cash equivalent (as defined in Ind AS 7) unless the asset is restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets shall be classified as non-current.

An entity shall classify a liability as current when:

(i) it expects to settle the liability in its normal operating cycle

(ii) it holds the liability primarily for the purpose of trading

(iii) the liability is due to be settled within twelve months after the reporting period (other than for long-term projects), or

(iv) it does not have the right at the end of the reporting period to defer settlement of the liability for at least twelve months after the reporting period.

All other liabilities shall be classified as non-current.

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

During the year ended March 31, 2026, the Company has reassessed the period of its normal operating cycle based on the nature of its business, the time required for procurement of inputs, execution of operations, delivery of goods and services, and realization of receivables in the ordinary course of business. Based on this assessment, management has concluded that the Company's normal operating cycle for the purpose of classification of assets and liabilities under Ind AS in case of long term projects is contract specific.

Accordingly, the classification of assets and liabilities as current and non-current in these financial statements has been revised to reflect the updated operating cycle in accordance with Ind AS 1, Presentation of Financial Statements, and Schedule III to the Companies Act, 2013.

In the case of long-term projects, operating cycle of the Company exceeds one year covering the duration of the contract and extends upto the realisation of receivables (including retention monies) within the credit period normally applicable to the respective contract. Accordingly, for classification of assets and liabilities related to such contracts as current, duration of each individual contract is considered as its operating cycle.

(b) Foreign currencies

The Company's financial statements are prepared in Indian Rupees (Rs.), which is also the functional currency of the Company.

Transactions and balances

Transactions in foreign currencies are initially recorded at the functional currency spot rates at the date the transaction first qualifies for recognition. Monetary assets and liabilities denominated in foreign currencies are translated at the functional currency spot rates of exchange at the reporting date. Exchange differences arising on settlement or translation of monetary items are recognized in the Statement of profit and loss.

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates at the date of the initial transactions.

(c) Fair value measurement

The Company measures financial instruments, such as, derivatives at fair value at each balance sheet date. The Company applies fair value measurement when an Ind AS requires or permits fair value measurement for disclosures about fair value measurements except for Ind AS which prescribe measurement and disclosures such as:

a) Share based payment transactions covered by Ind AS 102 - "Share based payments";

b) Leasing transactions covered by Ind AS 116 - "Leases".

In such cases, fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. In addition or further, fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability; or
- In the absence of a principal market, in the most advantageous market for the asset or liability.

The principal or the most advantageous market must be accessible by the Company. The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

Notes to the Financial Statements for the year ended March 31, 2026
(All amounts are in Rupees Crore, except per share data and unless stated otherwise)

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorized within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1 - Quoted (unadjusted) market prices in active markets for identical assets or liabilities
- Level 2 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable
- Level 3 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

For the purpose of fair value disclosures, the Company has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

This note summarizes accounting policy for fair value. Other fair value related disclosures are given in the relevant notes.

- Disclosures for significant judgments, estimates and assumptions (Note 3)
- Quantitative disclosures of fair value measurement hierarchy (Note 30)
- Financial instruments (including those carried at amortised cost) (Note 30)

For assets and liabilities that are recognised in the financial statements on a recurring basis, the Company determines whether transfers have occurred between levels in the hierarchy by re-assessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

(d) Financial instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

Financial Assets

The Company classifies its financial assets in the following measurement categories:

- those to be measured subsequently at fair value (either through other comprehensive income, or through profit or loss)
- those to be measured at amortised cost.

The classification depends on the entity's business model for managing the financial assets and the contractual terms of the cash flows.

For assets measured at fair value, gains and losses will either be recorded in profit or loss or other comprehensive income. For investments in equity instruments that are not held for trading, this will depend on whether the Company has made an irrevocable election at the time of initial recognition to present subsequent changes in fair value in other comprehensive income.

At initial recognition, the Company measures a financial asset (excluding trade receivables which do not contain a significant financing component) at its fair value plus, in the case of a financial asset not at fair value through profit or loss, transaction costs that are directly attributable to the acquisition of the financial asset. Transaction costs of financial assets carried at fair value through profit or loss are expensed in profit or loss.

Debt instruments:

Subsequent measurement of debt instruments depends on the Company's business model for managing the asset and the cash flow characteristics of the asset. There are two measurement categories into which the Company classifies its instruments:

(i) Debt instruments at amortised cost

A 'debt instrument' is measured at the amortised cost if both the following conditions are met:

(a) The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows, and

(b) Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

After initial measurement, such financial assets are subsequently measured at amortised cost using the effective interest rate (EIR) method. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of EIR. The EIR amortisation is included in finance costs/income in the Statement of profit and loss. The losses arising from impairment are recognized in the Statement of profit and loss.

(ii) Debt instrument at fair value through profit or loss (FVTPL)

Assets that do not meet the criteria for amortised cost or FVOCI are measured at fair value through profit or loss. A gain or loss on a debt instrument that is subsequently measured at fair value through profit or loss is recognised in profit or loss and presented net within other gains/ (losses) in the period in which it arises. Interest income from these financial assets is included in other income.

Equity investments:

All equity investments in scope of Ind AS 109 - "Financial Instruments", are subsequently measured at fair value. Equity instruments which are held for trading are classified as at FVTPL. For all other equity instruments, the Company may make an irrevocable election to present in other comprehensive income subsequent changes in the fair value. The Company makes such election on an instrument-by-instrument basis. The classification is made on initial recognition and is irrevocable.

Derecognition

A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is primarily derecognized when:

- The rights to receive cash flows from the asset have expired, or
- The Company has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a "pass-through" arrangement; and either (a) the Company has transferred substantially all the risks and rewards of the asset, or (b) the Company has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

Impairment of financial assets

Further disclosures relating to impairment of financial assets are provided in the following notes:

- Trade receivables and contract assets- Refer note 6;

(e) Financial liabilities

All financial liabilities are recognized initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs. The Company's financial liabilities include trade and other payables, loans and borrowings including bank overdrafts, financial

guarantee contracts and derivative financial instruments. Subsequent measurement of financial liabilities depends on their classification as fair value through profit and loss or at amortised cost.

All changes in fair value of financial liabilities classified as FVTPL is recognized in the Statement of Profit and Loss. Amortised cost category is applicable to loans and borrowings, trade and other payables. After initial recognition, the financial liabilities are measured at amortised cost using the EIR method. Gains and losses are recognized in profit and loss when the liabilities are derecognized as well as through the EIR amortisation process. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or cost that are integral part on EIR. The EIR amortisation is included as finance cost in the Statement of Profit and Loss.

Derecognition

A financial liability is derecognized when the obligation under the liability is discharged or cancelled or expires when an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognized in the Statement of profit and loss.

Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the balance sheet if there is a currently enforceable legal right to offset the recognized amounts and there is an intention to settle on a net basis, to realize the assets and settle the liabilities simultaneously.

(f) Derivative financial instruments and hedge accounting

Initial recognition and subsequent measurement

The Company uses derivative financial instruments, such as forward currency contracts, to hedge its foreign currency risks. Such derivative financial instruments are initially recognized at fair value on the date on which a derivative contract is entered into and are subsequently re-measured at fair value. Derivatives are carried as financial assets when the fair value is positive and as financial liabilities when the fair value is negative.

Any gains or losses arising from changes in the fair value of derivatives are taken directly to the Statement of profit and loss, except for the effective portion of cash flow hedges, which is recognized in OCI and later reclassified to profit or loss when the hedge item affects profit or loss or treated as basis adjustment if a hedged forecast transaction subsequently results in the recognition of a non-financial asset or non-financial liability.

For the purpose of hedge accounting, hedges are classified as "Cash flow hedges" when hedging the exposure to variability in cash flows that is either attributable to a particular risk associated with a recognized asset or liability or a highly probable forecast transaction or the foreign currency risk in an unrecognized firm commitment.

At the inception of a hedge relationship, the Company formally designates and documents the hedge relationship to which the Company wishes to apply hedge accounting and the risk management objective and strategy for undertaking the hedge. The documentation includes the Company's risk management objective and strategy for undertaking hedge, the hedging/ economic relationship, the hedged item or transaction, the nature of the risk being hedged, hedge ratio and how the entity will assess the effectiveness of changes in the hedging instrument's fair value in offsetting the exposure to changes in the hedged item's fair value or cash flows attributable to the hedged risk. Such hedges are expected to be highly effective in achieving offsetting changes in fair value or cash flows and are assessed on an ongoing basis to determine that they actually have been highly effective throughout the financial reporting periods for which they were designated. Hedges that meet the strict criteria for hedge accounting are accounted for, as cash flow hedge.

Cash flow hedges

The effective portion of the gain or loss on the hedging instrument is recognized in OCI in the cash flow hedge reserve, while any ineffective portion is recognized immediately in the Statement of profit and loss. The Company uses forward currency contracts as hedges of its exposure to foreign currency risk in forecast transactions and firm commitments. The ineffective portion relating to foreign currency contracts is recognized in statement of profit and loss.

Amounts recognized in OCI are transferred to the Statement of profit and loss when the hedged transaction affects profit or loss, such as when the hedged financial income or financial expense is recognized or when a forecast sale occurs. When the hedged item is the cost of a non-financial asset or non-financial liability, the amounts recognized in OCI are transferred to the initial carrying amount of the non-financial asset or liability. If the hedging instrument expires or is sold, terminated or exercised without replacement or rollover (as part of the hedging strategy), or if its designation as a hedge is revoked, or when the hedge no longer meets the criteria for hedge accounting, any cumulative gain or loss previously recognized in OCI remains separately in equity until the forecast transaction occurs or the foreign currency firm commitment is met.

2.3 Changes in accounting policies and disclosures

New and amended standards

The Company applied for the first-time certain standards and amendments, which are effective for annual periods beginning on or after April 01, 2025. The Company has not early adopted any standard, interpretation or amendment that has been issued but is not yet effective.

The Ministry of Corporate Affairs vide notification dated May 07, 2025 and August 13, 2025 notified the Companies (Indian Accounting Standards) Amendment Rules, 2025 and Companies (Indian Accounting Standards) Second Amendment Rules, 2025, respectively, which amended certain accounting standards (see below), and are effective for annual reporting periods beginning on or after April 01, 2025:

(a) Classification of Liabilities as Current or Non-current and Non-current Liabilities with Covenants - Amendments to Ind AS 1

As a result of the adoption of the amendments to Ind AS 1, the Company changed its accounting policy for the classification of borrowings:

"Borrowings are classified as current liabilities unless, at the end of the reporting period, the Company has a right to defer settlement of the liability for at least 12 months after the reporting period. Covenants that the Company is required to comply with, on or before the end of the reporting period, are considered in classifying loan arrangements with covenants as current or non-current. Covenants that the Company is required to comply with after the reporting period do not affect the classification."

This new policy did not result in a change in the classification of the Company's borrowings. The Company did not make retrospective adjustments as a result of adopting the amendments to Ind AS 1.

This amendment also includes specific provisions that will take effect for reporting periods beginning on or after 1 April 2026, as outlined below:

Under the existing Ind AS 1, where there is a breach of a material provision of a long-term loan arrangement on or before the end of the reporting period with the effect that the liability becomes payable on demand on the reporting date, the entity does not classify the liability as current, if the lender agreed, after the reporting period and before the approval of the financial statements for issue, not to demand payment as a consequence of the breach. However, the amended requirements stipulate that entities will no longer be permitted to consider lender waivers that are granted after the reporting date but before the financial statements are approved for the purpose of classification of loans. This amendment is required to be applied retrospectively in accordance with Ind AS 8. The Company does not expect this amendment to have an impact on its operations or financial statements.

Notes to the Financial Statements for the year ended March 31, 2026
(All amounts are in Rupees Crore, except per share data and unless stated otherwise)

(b) International Tax Reform - Pillar Two Model Rules - Amendments to Ind AS 12

The Company is not within the scope of the OECD Pillar Two Model Rules, as Pillar Two legislation has not yet been enacted in any of the jurisdictions in which the Company operates.

(c) Lack of Exchangeability - Amendments to Ind AS 21

The amended Ind AS 21 have added requirements to help entities to determine whether a currency is exchangeable into another currency, and the spot exchange rate to use where it is not.

These amendments did not have any material impact on the amounts recognised in prior periods and are not expected to significantly affect the current or future periods.

2.4 Climate-related matters

The Company considers climate-related matters in estimates and assumptions, where appropriate. This assessment includes a wide range of possible impacts on the Company due to both physical and transition risks. Even though the Company believes its business model and products will still be viable after the transition to a low-carbon economy, climate-related matters increase the uncertainty in estimates and assumptions underpinning several items in the financial statements. Even though climate-related risks might not currently have a significant impact on measurement, the Company is closely monitoring relevant changes and developments, such as new climate-related legislation.

3 Critical accounting estimates and judgments

In the application of the Company's accounting policies and preparation of financial statements, the Management is required to make judgements, estimates and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods. Detailed information about each of these estimates and judgements is included in relevant notes together with information about the basis of calculation for each affected line item in the financial statements.

The areas involving critical estimates or judgements are:

a. Estimates and assumptions related to useful lives and impairment of Property, Plant and Equipment (PPE) (Refer note 4);

b. Estimations used for impairment of financial assets and contract assets (Refer note 6);

c. Estimates and assumptions for income taxes (Refer note 9);

d. Estimates and assumptions related to provisions (Refer note 17);

e. Estimates, judgments and assumptions used for revenue from operations (Refer note 19);

f. Estimates and judgements used for contingent liabilities (Refer note 27);

g. Estimations used for fair value measurement (Refer note 30);

4 (a) Property, plant and equipment

Accounting policy

Property, plant and equipment (PPE) are stated at cost of acquisition or construction net of accumulated depreciation and impairment loss, if any, all significant costs relating to the acquisition and installation of property, plant and equipment are capitalised. Subsequent costs/replacement costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. The carrying amount of the replaced part is derecognised. All other repairs and maintenance are charged to the Statement of profit and loss during the financial year in which they are incurred.

Gains or losses arising from derecognition of PPE are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognized in the Statement of Profit and Loss when the asset is derecognized.

Depreciation on PPE is calculated on a straight-line basis using the rates arrived at, based on the useful lives estimated by the management. The Company depreciates each part of an item of property, plant and equipment separately if cost of the part is significant in relation to the total cost of the item or principle asset and useful life is materially different from the principle asset.

The management has estimated the useful lives of certain classes of assets in order to reflect the actual usage of the assets. The useful lives have been determined based on technical evaluation done by the management's expert which are higher than those specified by Schedule II to the Companies Act, 2013, in order to reflect the actual usage of the assets. The residual values are not more than 5% of the original cost of the asset. The following useful lives are estimated by the management:

Asset category	Company's estimate of useful life (years)	Useful life as prescribed under Schedule II (years)
Factory buildings	28 to 30	30
Other buildings	58	60
Roads	5 to 30	5 to 10
Office Equipment	15	15
Plant and equipment	5 to 25	15 to 20
Furniture and fixtures	15	10
Computers	4 to 6	3 to 6
Vehicles	8 to 10	8

The assets residual values, useful lives and method of depreciation of PPE are reviewed on a regular basis and changes in estimates, when relevant, are accounted for on a prospective basis.

Estimates and assumptions:

The Company determines, based on independent technical assessment, the estimated useful lives of its property, plant and equipment for calculating depreciation and amortisation. This estimate is determined after considering the expected usage of the asset or physical wear and tear. Management reviews the residual value and useful lives annually and future depreciation and amortisation charge would be adjusted where the management believes the useful lives differ from previous estimates.

Impairment of assets

The Company assesses, at each reporting date, whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the Company estimates the recoverable amount. Recoverable amount is the higher of Cash Generating Unit's (CGU) fair value less costs of disposal and its value in use. Recoverable amount is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or group of assets. When the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

For assets, an assessment is made at each reporting date to determine whether there is an indication that previously recognized impairment losses no longer exist or have decreased. If such indication exists, the Company estimates the assets or CGU's recoverable amount. A previously recognized impairment loss is reversed only if there has been

change in the assumptions used to determine the assets recoverable amount since the last impairment loss was recognized. The reversal is limited so that the carrying amount of the asset does not exceed its recoverable amount, nor exceed the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognized for the asset in prior years. Such reversal is recognized in the Statement of profit or loss unless the asset is carried at a revalued amount, in which case, the reversal is treated as a revaluation increase, if applicable

The Company assesses where climate risks could have a significant impact, such as the introduction of emission-reduction legislation that may increase manufacturing costs. These risks in relation to climate-related matters are included as key assumptions where they materially impact the measure of recoverable amount. These assumptions are included in the cash-flow forecasts in assessing value-in-use amounts.

Impairment exists when the carrying value of an asset of cash generating unit (CGU) exceeds its recoverable amount, which is the higher of its fair value less costs of disposal and its value in use. The fair value less costs of disposal calculation is based on available data from binding sales transactions, conducted at arm's length, for similar assets or observable market prices less incremental costs for disposing of the asset. The value in use calculation is based on a Discounted Cash Flow (DCF) model. The cash flow are derived from the budget for the next five years as approved by the Management and do not include restructuring activities that the Company is not yet committed to or significant future investments that will enhance the asset's performance of the CGU being tested are recoverable amount is sensitive to the discount rate used for the DCF model as well as the expected future cash-inflows and the terminal growth rate used.

^Buildings include those constructed on leasehold land and roads.

The Company has not given any PPE as security against any borrowings or credit facility and does not have any charges against PPE.

The title deeds of immovable properties are held in the name of the Company.

Refer note 27 B for disclosure of contractual commitments for the acquisition of property, plant and equipment.

Capital Work-in-Progress (CWIP)

Accounting policy

The Company recognises capital work in progress at cost, net of accumulated impairment loss, if any.

The ageing details for CWIP are as follows:

Description		Amount in CWIP for a period of				Total CWIP
		Less than 1 year	1-2 years	2-3 years	More than 3 years	
Project in progress	**As at March 31, 2026**	0.77	-	-	-	0.77
	As at March 31, 2025	1.10	-	-	-	1.10

For CWIP, there are no projects whose completion date is overdue or exceeded its cost as compared to its original plan as at March 31, 2026 and March 31, 2025.

Notes to the Financial Statements for the year ended March 31, 2026
(All amounts are in Rupees Crore, except per share data and unless stated otherwise)

4 (b) Right of use (ROU) assets

Accounting policy

The Company recognises ROU assets at cost at the commencement date of the lease. The cost of ROU assets includes the amount of lease liabilities recognised, initial direct costs incurred, lease payments made at or before the commencement date less any lease incentives received and estimate of costs to dismantle. After the commencement date, ROU assets are measured at cost, less any accumulated depreciation and impairment losses and adjusted for any remeasurement of lease liabilities. ROU assets are evaluated for recoverability whenever events or changes in circumstances indicate that their carrying amounts may not be recoverable. For the purpose of impairment testing, the recoverable amount (i.e. the higher of the fair value less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the Cash Generating Unit (CGU) to which the asset belongs. ROU assets are depreciated on a straight-line basis over the shorter of the lease term and the estimated remaining useful lives of the assets as follows:

Asset category	Company's estimate of useful life (years)
Leasehold Land	25 to 95

Particulars	Leasehold land
Gross carrying amount as at April 1, 2024	**47.90**
Additions	-
Disposals/ Transfers	-
Gross carrying amount as at March 31, 2025	**47.90**
Additions	-
Disposals/ Transfers	-

Accumulated depreciation as at April 1, 2024	**5.43**
Charge for the year	0.72
Disposals/ Transfers	-
Accumulated depreciation as at March 31, 2025	**6.15**
Charge for the year	0.72
Disposals/ Transfers	-
Accumulated depreciation as at March 31, 2026	**6.87**
Net Block as at March 31, 2026	**41.03**
Net Block as at March 31, 2025	**41.75**

The lease agreements are duly executed in favour of the Company. Refer note 27C for further disclosure on leases.

4 (c) Intangible assets

Accounting policy

Intangible assets acquired separately are measured on initial recognition at cost. The cost of intangible assets acquired in a business combination is their fair value at the date of acquisition. Following initial recognition, intangible assets are carried at cost less any accumulated amortization and accumulated impairment losses.

Development costs for internally generated intangibles that are directly attributable to the design and testing of identifiable and unique intangible controlled by the Company are recognised as intangible assets where the following criteria are met:

- it is technically feasible to complete the intangible asset so that it will be available for use
- management intends to complete the intangible asset and use or sell it
- there is an ability to use or sell the intangible asset
- it can be demonstrated how the intangible asset will generate probable future economic benefits
- adequate technical, financial and other resources to complete the development and to use or sell the intangible asset are available, and
- the expenditure attributable to the intangible asset during its development can be reliably measured.

The cost may also include transfers from equity of any gains or losses on qualifying cash flow hedges of foreign currency purchases of intangible assets. Intangible assets with finite lives are amortized over the useful economic life and assessed for impairment whenever there is an indication that the intangible asset may be impaired. The amortization period and the amortization method for an intangible asset with a finite useful life are reviewed at least at the end of each reporting period. Changes in the expected useful life or the expected pattern of consumption of future economic benefits embodied in the asset are considered to modify the amortization period or method, as appropriate, and are treated as changes in accounting estimates.

Gains or losses arising from derecognition of an intangible asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognized in the Statement of Profit and Loss when the asset is derecognized.

Amortisation of the asset begins when development is complete and the asset is available for use. It is amortized on a straight-line basis over the period of expected future benefit from the related project, i.e., the estimated useful life subject to a maximum of ten years. amortisation is recognized in the Statement of Profit and Loss unless such expenditure forms part of carrying value of another asset. During the period of development, the asset is tested for impairment annually.

The following useful lives are estimated by the management:

Asset category	Life (years)
Technical know how	10
Computer software	3 to 5

Particulars	Computer Software	Technical know-how	Total	Intangible assets under development
Gross carrying amount as at April 1, 2024	**8.94**	**32.97**	**41.91**	**1.06**

4 (d) Depreciation and amortisation expense

	For the year ended March 31, 2026	For the year ended March 31, 2025
Depreciation of property, plant and equipment (note 4 (a))	16.90	16.78
Depreciation of Right of Use Assets (note 4 (b))	0.72	0.72
Amortisation of Intangible assets (note 4 (c))	1.25	1.19
Total	**18.87**	**18.69**

5 Investments

Accounting Policies

Investments in subsidiaries are carried at cost less accumulated impairment losses in the Company's balance sheet. On disposal of such investments, the difference between disposal proceeds and the carrying amounts of the investments are recognised in the Statement of Profit and Loss.

Impairment

Investment in subsidiaries are tested for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs of disposal and value in use.

Estimates and assumptions

The Company performs impairment assessment of investments by making an estimate of the recoverable amount, being the higher of fair value less costs to sell and its value in use which is then compared with the carrying value. An impairment loss is recognised in the Statement of Profit and Loss to the extent the carrying value of an asset exceeds the recoverable amount. The value in use of these investments is determined using discounted cash flow model (DCF model) requiring various assumptions and judgements. These include future cashflows and growth rate assumptions, discount rate, terminal growth rate and other economic and entity specific factors which are incorporated in the DCF model. The estimated cash flows are developed using internal forecasts

(a) Non Current Investments

	As at March 31, 2026	As at March 31, 2025

The Group, as defined in the Reserve Bank of India (Core Investment Companies) Directions, 2025 has 1 (One) Core Investment Company as part of the Group.

6 Trade receivables and Contract assets- at amortised cost

(a) Trade receivables- at amortised cost

Accounting policy

A receivable represents the Company's right to an amount of consideration that is unconditional (i.e., only the passage of time is required before payment of the consideration is due). Trade receivables are recognised initially at the transaction price as they do not contain significant financing components. The Company holds the trade receivables with the objective of collecting the contractual cash flows and therefore measures them subsequently at amortised cost using the effective interest method, less loss allowance.

For trade receivables and contract assets, the Company applies the simplified approach required by Ind AS 109, which requires expected lifetime losses to be recognised from initial recognition of the receivables.

	As at March 31, 2026	As at March 31, 2025
Trade receivables from:		
i) Related parties (note 28)	125.35	28.49
ii) Others	483.02	476.37
Total	**608.37**	**504.86**
Trade Receivables		
Secured, considered good	148.87	23.39
Unsecured, considered good	522.55	539.55
Trade receivables which have a significant increase in credit risk	3.87	3.87
Trade receivables - credit impaired	8.88	12.78
	684.17	579.59
Less: Impairment allowance*	**(75.80)**	**(74.73)**
Total	**608.37**	**504.86**

Notes to the Financial Statements for the year ended March 31, 2026
(All amounts are in Rupees Crore, except per share data and unless stated otherwise)

No trade or other receivables are due from directors or other officers of the Company either severally or jointly with any other person nor any trade receivables due from firms or private companies respectively in which any director is a partner, a director or a member.

*Includes provision of Rs. 3.87 (March 31, 2025: Rs. 3.87) for trade receivables which have significant increase in credit risk and provision of Rs. 8.88 for trade receivables which are credit impaired.

For terms and conditions relating to related party receivables, refer note 28.

Trade receivables are non-interest bearing and are generally on terms of 0 to 150 days (March 31, 2025: 0 to 150 days).

The ageing of current trade receivables

	Not Due	Outstanding for the following period from due date of receipts					Total
		Less than 6 months	6 months-1 year	1-2 years	2-3 years	More than 3 years

Less: Impairment allowances*							**(74.73)**
Total							**504.86**

*Includes provision of Rs. 3.87 for trade receivables which have significant increase in credit risk and provision of Rs. 12.78 for trade receivables which are credit impaired.

The Company has received sanctioned credit facilities from various banks, which are secured by way of hypothecation of inventories & book debts. As at March 31, 2026, no amount has been utilized from these credit facilities (March 31, 2025: Rs. Nil).

(b) Contract Assets - at amortised cost

Accounting policy

A contract asset represents the Company's right to consideration in exchange for goods or services that the entity has transferred to a customer where that right is conditioned on something other than the passage of time. The impairment of contract assets is measured, presented and disclosed on the same basis as trade receivables.

	As at March 31, 2026	As at March 31, 2025
Contract assets*	178.35	149.57
Less: Loss allowance	(31.37)	(29.94)
Total	**146.98**	**119.63**
Current	146.98	105.70
Non Current	-	13.93
Total	**146.98**	**119.63**

* Includes related party balance Rs.37.29 (March 31, 2025: Rs. 51.99)

Contract assets are presented on a net basis after setting off contract liability at the individual project level. Contract liability of Rs. 307.68 (March 31, 2025: 221.13) is offset against contract asset.

(c) Expected Credit Loss (ECL)

Accounting Policy

To measure the expected credit losses, trade receivables and contract assets have been grouped based on shared credit risk characteristics and the days past due. A contract asset represents the Company's right to consideration in exchange for goods or services that the entity has transferred to a customer where that right is conditioned on something other than the passage of time; and have substantially the same risk characteristics as the trade receivables for the same types of contracts. The Company has therefore concluded that the expected loss rates for trade receivables are a reasonable approximation of the loss rates for the contract assets.

Credit risk on trade receivables and contract assets are managed by the Company subject to it's established policy, procedures and control relating to customer credit risk management. Credit quality of a customer is assessed and credit limits are defined in accordance with this assessment. Moreover, given the diverse nature of the Company's businesses, trade receivables and contract assets are spread over a number of customers with no significant concentration of credit risk.

For trade receivables and contract assets, as a practical expedient, the Company computes credit loss allowance based on a provision matrix. The provision matrix is prepared based on historically observed default rates over the expected life of trade receivables and contract assets and is adjusted for forward-looking estimates.

Trade receivables and contract assets are written off where there is no reasonable expectation of recovery. Indicators that there is no reasonable expectation of recovery include, amongst others, the failure of a debtor to engage in a repayment plan with the Company, and a failure to make contractual payments for a period of greater than 3 years past due.

Impairment losses on trade receivables and contract assets are presented as expected credit loss in the Statement of Profit and Loss. Subsequent recoveries of amounts previously written off are credited against the same line item.

Estimates and judgements

The impairment provisions for financial assets are based on assumptions about risk of default, expected loss rates and timing of cash flows. The Company uses judgment in making these assumptions and selecting the inputs to the impairment calculation, based on the Company's past history, existing market conditions as well as forward looking estimates at the end of each reporting period.

As a practical expedient, the Company uses a provision matrix to determine ECL impairment allowance on portfolio of its trade receivables and contract assets. The provision matrix is based on its historically observed default rates over the expected life of the trade receivables and is adjusted for forward-looking estimates. At every reporting date, the historical observed default rates are updated and changes in the forward-looking estimates are analysed. The Company follows provisioning norms based on ageing of receivables to estimate the impairment allowance under ECL.

The following table summarises the change in provision for impairment allowance measured using the life time expected credit loss model (pursuant to IND AS 109):

	Provision for trade receivables		Provision on contract assets	
	As at March 31, 2026	As at March 31, 2025	As at March 31, 2026	As at March 31, 2025
At the beginning of the year	74.73	86.44	29.94	23.24
Provision made during the year	15.77	20.13	10.22	8.14
Utilized/reversed during the year	(14.70)	(31.84)	(8.79)	(1.44)
At the end of the year	**75.80**	**74.73**	**31.37**	**29.94**
Current	75.80	74.73	31.37	27.13
Non Current	-	-	-	2.81
Total	**75.80**	**74.73**	**31.37**	**29.94**

7 Loans - at amortised cost

(a) Non-current loans

	As at March 31, 2026	As at March 31, 2025
Unsecured, considered good		
Loans to employees	0.62	0.98
Total	**0.62**	**0.98**

(b) Current loans

	As at March 31, 2026	As at March 31, 2025
Unsecured, considered good		
At amortised cost		
Loans to employees	0.30	0.35
Total	**0.30**	**0.35**

Loans are various kinds of non-derivative financial assets which generate fixed interest income for the Company. The tenure of such loans has different time range based on employee's eligibility.

No loans are due from directors or Key Managerial Personnel of the Company either severally or jointly with any other person or from private companies or firms in which any director is a partner, a director or a member respectively.

8 Other financial assets

Accounting Policy

Government grants

Government grants are recognized where there is reasonable assurance that the grant will be received and all attached conditions will be complied with. When the grant relates to an expense item, it is recognized as income on a systematic basis over the periods that the related costs, for which it is intended to compensate, are expensed. When the grant relates to an asset, it is recognized as income in equal amounts over the expected useful life of the related asset. The Company accounts for export incentives for export of goods if the entitlements can be estimated with reasonable accuracy and conditions precedent to claim is fulfilled.

(a) Other non current financials assets

	As at March 31, 2026	As at March 31, 2025
Bank deposits with remaining maturity of more than 12 months	55.02	245.36
Security Deposits - Unsecured, considered good #	3.30	3.12
Packaged Scheme of Incentive (PSI)*	70.08	43.52
Total	**128.40**	**292.00**

includes rent deposits, deposits with MIDC, MSEB, etc.

(b) Other current financial assets

	As at March 31, 2026	As at March 31, 2025
Unsecured, considered good:		
Derivative instruments at fair value through OCI		
Cash flow hedges		
Foreign exchange forward contracts	-	3.30
Derivative instruments at fair value through profit or loss		
Derivative not designated as hedges		
Foreign exchange forward contracts	5.48	1.45
At amortised cost		
Government grant receivable		
-Export incentive receivable	4.85	1.72
-Packaged Scheme of Incentive (PSI)*	33.68	25.00
Security deposits-Unsecured, considered good #	0.41	0.41
Total	**44.42**	**31.88**

Financial assets at fair value through other comprehensive income reflect the change in fair value of foreign exchange forward contracts, designated as cash flow hedges to hedge highly probable forecast sales and purchases in various foreign currencies.

*Incentive receivable under Package Scheme of Incentives (PSI), 2007 from Government of Maharashtra (Refer note 19(b))

Includes earnest money deposits and rent deposits.

9 Income taxes

Tax expenses comprises of current tax expenses and deferred tax.

Current tax

Current income tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted, at the reporting date.

Current income tax relating to items recognized outside profit or loss is recognized either in OCI or in equity, in correlation to the underlying transaction. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and considers whether it is probable that a taxation authority will accept an uncertain tax treatment.

Notes to the Financial Statements for the year ended March 31, 2026

(All amounts are in Rupees Crore, except per share data and unless stated otherwise)

Deferred tax

Deferred tax is provided using the balance sheet method on temporary differences between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes at the reporting date. Deferred tax assets are recognized for all deductible temporary differences, the carry forward of unused tax credits and any unused tax losses. Deferred tax assets are recognized to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilized.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilized. Unrecognised deferred tax assets are re-assessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply when the asset is realized or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

Deferred tax relating to items recognized outside profit or loss is recognized outside profit or loss (either in OCI or in equity). Deferred tax items are recognized in correlation to the underlying transaction.

Deferred tax assets and deferred tax liabilities are offset if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority. Current tax assets and tax liabilities are offset where the entity has a legally enforceable right to offset and intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously.

The Company determines whether to consider each uncertain tax treatment separately or together with one or more other uncertain tax treatments and uses the approach that better predicts the resolution of the uncertainty.

The Company applies significant judgement in identifying uncertainties over income tax treatments.

Estimates and assumptions

Recoverability of Deferred tax assets:

At each balance sheet date, the Company assesses whether the realization of future tax benefits is sufficiently probable to recognize deferred tax assets. This assessment requires the use of significant estimates with respect to assessment of future taxable income. The recorded amount of total deferred tax assets could change if estimates of projected future taxable income or if changes in current tax regulations are enacted.

The major components of income tax expense for the year ended March 31, 2026 and March 31, 2025 are:

Statement of Profit and Loss	For the year ended March 31, 2026	For the year ended March 31, 2025
Current tax	82.14	77.91
Current tax relating to prior year	0.26	(4.01)
Deferred tax	(1.49)	(0.53)
Deferred tax relating to prior year	(0.31)	4.01
Income tax expense reported in the Statement of profit and loss	**80.60**	**77.38**

Other comprehensive income	For the year ended March 31, 2026	For the year ended March 31, 2025
Tax related to items recognised in other comprehensive income during the year		
Net loss or (gain) on revaluation of cash flow hedges	(21.11)	(2.29)
Net gain or loss on remeasurements of defined benefit plans	(0.10)	(0.62)
Tax (credited) / charged in other comprehensive income	**(21.21)**	**(2.91)**

(c) Reconciliation of tax expense and accounting profit multiplied by India's domestic tax rate for March 31, 2026 and March 31, 2025

Particulars	For the year ended March 31, 2026	For the year ended March 31, 2025
Accounting profit before tax	314.92	303.05
At India's statutory income tax rate (as per Income Tax Act, 1961) of 25.168% (March 31,2025: 25.168%)	79.26	76.27
- Tax expenses for earlier years	(0.05)	-
Permanent disallowances		
- Corporate Social Responsibility Expenses	0.94	0.62
- Others	0.45	0.49
At the effective income tax of 25.59% (March 31, 2025: 25.53%)	80.60	77.38
Total income tax expense reported in the Statement of profit and loss	**80.60**	**77.38**

d) Deferred tax

Statement of Profit and Loss and OCI	For the year ended March 31, 2026	For the year ended March 31, 2025
Deferred tax relates to the following :		
Accelerated depreciation for tax purposes	2.06	2.19
40(a) disallowance	0.12	0.17
Items allowed on payment basis / temporary disallowances	(3.68)	(8.46)
Temporary differences due to accounting treatment as required by Income-tax standards	0.89	4.85
Expected credit loss and liquidated damages	(0.18)	2.24
Others	(1.01)	2.49
Deferred tax expense/ (income) in the Statement of profit and loss	**(1.80)**	**3.48**
Re-measurement gain/(loss) of defined benefit plan	(0.10)	(0.62)
Net gain/(loss) on cash flow hedges	(21.11)	(2.29)
Deferred tax expense/ (income) in the OCI	**(21.21)**	**(2.91)**
Total	**(23.01)**	**0.57**

Balance Sheet	As at March 31, 2026	As at March 31, 2025
Deferred tax relates to the following :		
Accelerated depreciation for tax purposes	(19.31)	(17.25)
40(a) disallowance	0.13	0.25
Items allowed on payment basis / temporary disallowances	17.32	13.64
Temporary differences due to accounting treatment as required by Income-tax standards	1.34	2.23
Expected credit loss and liquidated damages	35.66	35.48
Revaluation of cash flow hedges	23.56	2.45
Others	0.77	(0.34)
Net deferred tax assets	**59.47**	**36.46**

Reconciliation of deferred tax assets (net)	For the year ended March 31, 2026	For the year ended March 31, 2025
Opening balance as at April 1	**36.46**	**37.03**
Tax (expense)/income during the period recognised in profit or loss	1.80	(3.48)
Tax (expense)/income during the period recognised in other comprehensive income- Items that will not be reclassified subsequently to profit or loss	0.10	2.29
Tax (expense)/income during the period recognised in other comprehensive income-Items that will be reclassified subsequently to profit or loss	21.11	0.62
Closing balance as at March 31	**59.47**	**36.46**

The Company offsets tax assets and liabilities of current tax if it has a legally enforceable right to set off current tax assets and current tax liabilities and the deferred tax assets and deferred tax liabilities relate to income taxes levied by the same tax authority.

No income tax was recognised directly in equity during the year ended March 31, 2026 and March 31, 2025. Refer note 14 for further details.

Reconciliation of Income tax assets & liabilities (net)	For the year ended March 31, 2026	For the year ended March 31, 2025
Opening balance as at April 1	15.20	12.78
(less): Tax payable for the year	(82.40)	(73.90)
Add: Taxes paid (net of refunds received)	101.26	76.32
Closing balance as at March 31	**34.06**	**15.20**

The above balance is represented in the balance sheet as below:

Reconciliation of Income tax assets & liabilities(net)	As at March 31, 2026	As at March 31, 2025
Income tax asset - non current	45.61	26.30
Income tax liabilities (net)	11.55	11.10

10 Other assets

(a) Other non-current assets

	As at March 31, 2026	As at March 31, 2025
Unsecured, considered good		
Capital advance	0.44	0.53
Total	**0.44**	**0.53**

(b) Other current assets

	As at March 31, 2026	As at March 31, 2025
Unsecured, considered good		
Advance to suppliers	122.58	51.26
Advance to employees	2.04	1.26
Advance to related parties (note 28)	12.97	14.41
Prepayments	4.24	2.64
Balances with government authorities	73.39	11.43
Prepaid employee benefits (note 17 (c))	-	2.05
Total	**215.22**	**83.05**

There were no advances due from directors or officers of the Company or any of them severally or jointly with any other persons or amounts due from firms or private companies respectively in which such director is a partner, director or a member.

For terms and conditions relating to advances given to related parties, refer note 28.

11 Inventories

Accounting policy

Raw materials, components and bought-outs, stores and spares, work in progress and finished goods are stated at the lower of cost and net realisable value. Cost of raw materials, components and bought-outs, stores and spares comprises cost of purchases. Cost of work-in-progress and finished goods comprises direct materials, direct labour and an appropriate proportion of variable and fixed overhead expenditure, the latter being allocated on the basis of normal operating capacity. Cost of inventories also include all other costs incurred in bringing the inventories to their present location and condition. Costs of purchased inventory are determined after deducting rebates and discounts. Net realisable value is the estimated selling price in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sale. Costs of all classes of inventories are determined on weighted average basis. Write down of inventories is calculated based on an analysis of foreseeable changes in demand, technology, market conditions and ageing of inventories.

	As at March 31, 2026	As at March 31, 2025
Raw materials, components and bought-outs*	231.66	141.79
Work-in-progress	2.02	4.40
Finished goods**	5.69	1.73
Stores and spares	6.26	5.91
Total	**245.63**	**153.83**

*includes goods in transit Rs. 20.53 (March 31, 2025 : Rs. 11.38).

**includes goods in transit Rs. 0.82 (March 31, 2025 : Rs. 0.75).

For year ended March 31, 2026 Rs. 9.84 was recognised (net of reversal) as an expense for inventories carried at net realisable value. For year ended March 31, 2025 Rs. 6.27 was reversed (net of expense) for inventories carried at net realisable value. These were recognised during the year and included in cost of raw materials and components consumed and consumption of stores and spare parts' in the Statement of profit and loss.

The Company has received sanctioned credit facilities from various banks, which are secured by way of hypothecation of inventories & book debts (Includes inventories, trade receivables and contract assets). As at March 31, 2026, no amount has been utilized from these credit facilities (March 31, 2025: Rs. Nil).

Notes to the Financial Statements for the year ended March 31, 2026
(All amounts are in Rupees Crore, except per share data and unless stated otherwise)

12 (a) Cash and cash equivalents

Accounting policy

Cash and cash equivalents in the balance sheet comprises cash at banks and on hand and short-term deposits with an original maturity of three months or less, which are subject to an insignificant risk of changes in value. For the purpose of presentation in the statement of cash flows, cash and cash equivalents consists of cash on hand, other short-term, highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value, and bank overdrafts as they are considered an integral part of the Company's cash management. Bank overdrafts are shown within borrowings in current liabilities in the balance sheet.

	As at March 31, 2026	As at March 31, 2025
Balances with banks		
- Balances in current accounts	16.10	6.21
- Balances in Exchange Earners Foreign Currency (EEFC) account	-	10.27
- in deposits with original maturity of less than three months*	60.02	39.01
Total	**76.12**	**55.49**

*Short-term deposits are made for varying periods ranging between one day and three months, depending on the immediate cash requirements of the Company, and earn interest at the respective short-term deposit rates.

There are no repatriation restrictions with regard to cash and cash equivalents as at the end of the reporting period and prior period.

12(b) Other bank balances - at amortised cost

Closing balance	**(70.05)**	**(7.29)**
Total	**444.97**	**415.19**

Nature and purpose of reserves

Capital redemption reserve

Pertains to reserve created towards redemption of preference shares and can be utilised in accordance with the provisions of the Act.

Capital reserve

Pertains to reserves created in excess of fair value of net assets acquired over consideration paid and can be utilised in accordance with the provisions of the Act.

Retained earnings

Pertains to the profits/(loss) that the Company has earned/incurred till date, less any transfers to general reserve, dividends or other distributions paid to shareholders. Retained earnings include re-measurement gain/ (loss) on defined benefit plans, net of taxes that will not be reclassified to Statement of Profit and Loss.

Share based payment reserve

Pertains to equity settled share based payment plan issued by Parent Company for certain categories of employees of the Company.

Cash flow hedge reserve

Pertains to the effective portion of the cumulative net change in the fair value of the cash flow hedge instruments related to hedged transactions that have not yet occurred.

Defined benefit plan

Following is the movement of amount recognised in the other comprehensive income on account of defined benefit plan.

	As at March 31, 2026	As at March 31, 2025
Opening balance	(4.93)	(3.10)
Total measurements (cost)/credit for the year recognised in OCI	(0.29)	(1.83)
Closing balance	**(5.22)**	**(4.93)**

b) Distribution made and Proposed Dividend

Dividend

Accounting policy

Dividend to equity shareholders is recognised as a liability in the period in which the dividends are approved by the equity shareholders. Interim dividends that are declared by the Board of Directors without the need for equity shareholders' approvals are recognised as a liability and deducted from shareholders' equity in the year in which the dividends are declared by the Board of directors.

	For the year ended March 31, 2026	For the year ended March 31, 2025
Cash dividend on Preference shares declared and paid		
Dividend paid on 8% cumulative redeemable preference shares	-	25.30
Details of proposed dividend		
Proposed dividend for the year ended March 31, 2026: Rs. 2.50 per share (March 31, 2025: Rs. 2.25 per share)	157.06	141.35

Proposed dividend on equity shares is subject to approval at the annual general meeting and is not recognised as a liability as at the reporting date.

Total	**125.14**	**40.44**

* includes employee recoveries payable, etc. and unspent expense for corporate social responsibility Rs. 0.60

17 Provisions

Accounting policy

Provisions are recognized when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. When the Company expects some or all of a provision to be reimbursed, for example, under an insurance contract, the reimbursement is recognized as a separate asset, but only when the reimbursement is virtually certain. The expense relating to a provision is presented in the statement of profit and loss net of any reimbursement.

If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognized as a finance cost.

Warranty provisions

Provisions for warranty-related costs are recognised when the product is sold or service provided to the customer. Initial recognition is based on past experience. The initial estimate of warranty related costs is

reviewed annually. For EPC contracts, warranty provision is recorded basis significant progress.

Provisions for onerous contracts

If the Company has a contract that is onerous, the present obligation under the contract is recognised and measured as a provision. An onerous contract is a contract under which the unavoidable costs (i.e., the costs that the Company cannot avoid because it has the contract) of meeting the obligations under the contract exceed the economic benefits expected to be received under it. The unavoidable costs under a contract reflect the least net cost of exiting from the contract, which is the lower of the cost of fulfilling it and any compensation or penalties arising from failure to fulfil it. The cost of fulfilling a contract comprises the costs that relate directly to the contract (i.e., both incremental costs and an allocation of costs directly related to contract activities).

Provision for decommissioning liability

A provision has been recognised for decommissioning costs associated with the properties taken on lease by the Company. Decommissioning costs are provided at the present value of expected costs to settle the obligation using estimated cash flows and are recognised as part of the cost of the particular asset. The unwinding of the discount is expensed as incurred and recognised in the Statement of Profit and Loss as a finance cost. The estimated future costs of decommissioning are reviewed annually and adjusted as appropriate. Changes in the estimated future costs or in the discount rate applied are added to or deducted from the cost of the asset.

Provision for litigation

Provision for litigation related obligations represents liabilities that are expected to materialise in respect of matters in appeal related to legal cases.

Retirement and other employee benefits

Retirement benefit in the form of provident fund is a defined contribution scheme. The Company has no obligation, other than the contribution payable to the provident fund. The Company recognises contribution payable to the provident fund scheme as an expense when an employee renders the related service. If the contribution payable to the scheme for service received before the balance sheet date exceeds the contribution already paid, the deficit payable to the scheme is recognised as a liability after deducting the contribution already paid. If the contribution already paid exceeds the contribution due for services received before the balance sheet date, then excess is recognised as an asset to the extent that the pre-payment will lead to, for example, a reduction in future payment or a cash refund. The obligation of the Company is limited to the amount contributed and it has no further contractual nor any constructive obligation. The expense recognised during the period towards defined contribution plan is Rs. 15.78 (March 31, 2025: Rs. 14.24).

The Government of India has implemented four Labour Codes, viz., the Code on Wages, 2019, the Industrial Relations Code, 2020, the Code on Social Security, 2020, and the Occupational Safety, Health and Working Conditions Code, 2020, by consolidating 29 existing labour laws on 21 November 2025. The Ministry of Labour & Employment have published draft Central Rules and FAQs to enable assessment of the financial impact due to changes in the regulations. The Labour Codes have prescribed a uniform definition of "Wages" to be used for the purpose of calculating employee benefits like gratuity and extending eligibility to fixed-term employees ("FTEs"). Under the Labour Codes, the base on which employee benefits are calculated has increased, which has resulted in increase in the Company's liability for employee benefits.

The Company operates a defined benefit gratuity plan in India, which requires contributions to be made to a separately administered fund. The Company provides for gratuity, a defined benefit plan (the "Gratuity Plan") covering eligible employees in accordance with the Code on Social Security, 2020, in line with the notification of the Labour Codes with effect from 21 November 2025. The Gratuity Plan provides a lump sum payment to vested employees at retirement, death, incapacitation, or termination of employment, of an amount based on the respective employee's salary and the tenure of employment. The Company's liability is determined by an independent actuary (using the Projected Unit Credit method) at the end of each year. Any increase in gratuity liability arising due to implementation of Labour Codes in respect of past service cost is recognised immediately in the Statement of Profit and Loss as an exceptional item.

The Company makes annual contributions through trusts to a funded gratuity scheme administered by the Life Insurance Corporation of India (LIC).

Remeasurements, comprising of actuarial gains and losses, the effect of the asset ceiling, excluding amounts included in net interest on the net defined benefit liability and the return on plan assets (excluding amounts included in net interest on the net defined benefit liability), are recognised immediately in the balance sheet with a corresponding debit or credit to retained earnings through OCI in the period in which they occur. Remeasurements are not reclassified to the Statement of Profit and Loss in subsequent periods.

Past service costs are recognised in the Statement of Profit and Loss on the earlier of:

(a) The date of the plan amendment or curtailment; and

(b) The date that the Company recognises related restructuring costs.

Net interest is calculated by applying the discount rate to the net defined benefit liability or asset. The Company recognises the following changes in the net defined benefit obligation as an expense in the Statement of Profit and Loss:

- Service costs comprising current service costs, past-service costs, gains and losses on curtailments and non-routine settlements; and
- Net interest expense or income.

Accumulated leave, which is expected to be utilised within the next 12 months, is treated as short-term employee benefit. The Company measures the expected cost of such absences as the additional amount that it expects to pay as a result of the unused entitlement that has accumulated at the reporting date. The Company presents the leave as a current liability in the balance sheet as it does not have an unconditional right to defer its settlement for 12 months after the reporting date.

However, based on past experience and actuarial valuation performed, the Company does not expect all employees to avail the full amount of accrued leave or require payment for such leave within the next 12 months. Leave obligations which are not expected to be settled within the next 12 months amounts to Rs. 12.99 (March 31, 2025 : 15.06).

Estimates and assumptions

Warranty Provisions: The Company generally offers 18 months warranties for its products. Warranty costs are provided based on a technical estimate of the costs required to be incurred for repairs, replacements, material costs, servicing cost and past experience in respect of warranty costs. Management estimates the related provision for future warranty claims based on historical warranty claim information, as well as recent trends that might suggest that past cost information may differ from future claims. The assumptions made in current period are consistent with those in the prior years. Factors that could impact the estimated claim information include the success of the Company's productivity and quality initiatives. Warranty provisions are discounted using a pre-tax discount rate which reflects current market assessments of time value of money and risks specific to the liability.

It is expected that this expenditure will be incurred over the contracted warranty period ranging upto 18 months. If warranty claim costs vary by 10% from management's estimate, the warranty provisions would be an estimated Rs. 7.60 higher or lower (March 31, 2025 Rs. 7.87).

Provision for onerous contracts: The Company provides for onerous contracts when a present obligations arises as the unavoidable costs of meeting an obligations under a contract exceed the economic benefits expected to be received from that contract. Estimating these future losses involves a number of assumptions about the achievement of contract performance targets and the likely levels of future cost including escalation over time.

Notes to the Financial Statements for the year ended March 31, 2026
(All amounts are in Rupees Crore, except per share data and unless stated otherwise)

• **Defined benefit plan - Gratuity:** The cost of the defined benefit gratuity plan and the present value of the gratuity obligation are determined using actuarial valuations. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases and mortality rates. Due to the complexities involved in the valuation and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date. The parameter which is most subjected to change is the discount rate. In determining the appropriate discount rate for plans operated in India, the management considers the interest rates of government bonds in currencies consistent with the currencies of the post-employment benefit obligation. Further, another important parameter is salary considered while assessing the definition of "wages" as given in The Code on Social Security, 2020. The mortality rate is based on Indian Assured Lives Mortality (2012-14) Ultimate. Those mortality tables tend to change only at interval in response to demographic changes. Future salary increases and gratuity increases are based on expected future inflation rates.

(a) Non-current provisions

	As at March 31, 2026	As at March 31, 2025
Other provisions		
Provision for warranties	6.02	4.61
Provision for decommissioning liability	3.06	2.96
Total	**9.08**	**7.57**

(b) Current provisions

	As at March 31, 2026	As at March 31, 2025
Provision for employee benefits		
Provision for gratuity	2.19	-
Provision for leave encashment	16.14	18.74
	18.33	**18.74**
Other provisions		
Provision for onerous contracts	11.07	11.21
Provision for warranties	69.98	74.13
	81.05	**85.34**
Total	**99.38**	**104.08**

Movement in provisions for the year ended March 31, 2026:

	Provision for onerous contracts	Provision for warranties	Provision for decommissioning liability
Balance as at April 1, 2025	11.21	78.74	2.96
Additional provision recognised	63.28	52.37	0.10
Unused amounts reversed	(9.21)	(35.63)	-
Unwinding of discount	-	4.19	-
Utilised during the year	(54.21)	(23.67)	-
As at March 31, 2026	**11.07**	**76.00**	**3.06**
Details of provisions :			
Current	11.07	69.98	-
Non-Current	-	6.02	3.06
Total	**11.07**	**76.00**	**3.06**

Movement in provisions for the year ended March 31, 2025:

	Provision for onerous contracts	Provision for warranties	Provision for decommissioning liability
Balance as at April 1, 2024	9.23	67.46	2.85
Additional provision recognised	50.45	30.10	0.11
Unused amounts reversed	(4.44)	(14.40)	-
Unwinding of discount	-	3.89	-
Utilised during the year	(44.03)	(8.31)	-
As at March 31, 2025	**11.21**	**78.74**	**2.96**
Details of provisions :			
Current	11.21	74.13	-
Non-Current	-	4.61	2.96
Total	**11.21**	**78.74**	**2.96**

(c) Gratuity

The Company operates a defined benefit plan viz. gratuity for its employees. Under the gratuity plan, every employee who has completed at least specified years of service gets a gratuity on departure at 15 days (minimum) of the last drawn salary for each completed year of service. The scheme is funded with an insurance Company. The fund has formed a trust and it is governed by the Board of Trustees.

The fund is subject to risks such as asset volatility, changes in assets yields and asset liability mismatch risk. In managing the plan assets, Board of Trustees review and manage these risks associated with the funded plan. Each year, the Board of Trustees reviews the level of funding in the gratuity plan. Such a review includes asset-liability matching strategy and investment risk management policy (which includes contributing to plans that invest in risk-averse markets). The Board of Trustees aim to keep annual contributions relatively stable at a level such that no plan deficits (based on valuation performed) will arise.

I Changes in the net defined benefit obligation and fair value of plan assets are as follows :

Particulars	Present value of obligation	Fair value of plan assets	Net amount
April 1, 2024	38.67	(41.48)	(2.81)
Current service cost	3.23	-	3.23
Interest expense/(income)	2.68	(3.04)	(0.36)
Total amount recognised in Profit or Loss	**5.91**	**(3.04)**	**2.87**
Actuarial loss from change in assumptions	2.34	0.11	2.45
Total amount recognised in Other Comprehensive Income	**2.34**	**0.11**	**2.45**
Employer contributions	-	(4.56)	(4.56)
Benefits paid	(3.09)	3.09	-
Transfer In/(out)	0.07	(0.07)	-
March 31, 2025	**43.90**	**(45.95)**	**(2.05)**
Current service cost	4.28	-	4.28
Past service cost	5.64	-	5.64
Interest expense/(income)	2.79	(3.14)	(0.35)
Total amount recognised in Profit or Loss	**12.71**	**(3.14)**	**9.57**
Actuarial loss from change in assumptions	0.69	(0.30)	0.39
Total amount recognised in Other Comprehensive Income	**0.69**	**(0.30)**	**0.39**
Employer contributions	-	(5.72)	(5.72)
Benefits paid	(4.63)	4.63	-
Transfer In/(out)	0.15	(0.15)	-
March 31, 2026	**52.82**	**(50.63)**	**2.19**

II The net liability disclosed above relates to funded plans are as follows :

Particulars	As at March 31, 2026	As at March 31, 2025
Present value of funded obligation	52.82	43.90
Fair value of plan assets	(50.63)	(45.95)
Deficit/(Surplus) of funded plan	**2.19**	**(2.05)**

III Significant assumptions

The principal actuarial assumptions were as follows :

Particulars	As at March 31, 2026	As at March 31, 2025
Discount rate	7.20%	6.70%
Future salary growth rate	7.00%	7.00%
Expected return on plan assets	6.70%	7.20%
Normal retirement age	60 Years	60 Years
Mortality table	Indian Assured Lives Mortality (2012-14) Ultimate	Indian Assured Lives Mortality (2012-14) Ultimate
Employee turnover	"Workers 5%, Staff 12%"	"Workers 5%, Staff 12%"

IV Sensitivity analysis

The sensitivity of defined obligation to changes in the weighted principal assumptions is:

Assumption	As at March 31, 2026	As at March 31, 2025
Discount rate		
1.00% increase	Decrease by 2.70	Decrease by 2.29
1.00% decrease	Increase by 2.98	Increase by 2.53
Future salary growth rate		
1.00% increase	Increase by 2.45	Increase by 2.09
1.00% decrease	Decrease by 2.27	Decrease by 1.93
Attrition rate		
1.00% increase	Increase by 0.02	Increase by 0.04
1.00% decrease	Decrease by 0.03	Decrease by 0.03

The above sensitivity analysis is based on a change in assumption while holding all other assumptions constant. In practice, this is unlikely to occur and changes in some of the assumptions may be correlated. When calculating the sensitivity of the defined benefit obligation to significant actuarial assumptions the same method (present value of defined benefit obligation calculated with the Projected Unit Credit Method at the end of the reporting period) has been applied as when calculating the defined benefit liability recognised in the balance sheet.

The method and types of assumptions used in preparing the sensitivity analysis did not change compared to the previous periods.

The following are the expected cash flows to the defined benefit plan in future years:

Particulars	As at March 31, 2026	As at March 31, 2025
Within next 12 months	9.13	7.55
Between 2-5 years	31.84	25.16
Between 6-10 years	36.04	30.59

The average duration of the defined benefit plan obligation at the end of the reporting period is 7.12 years (March 31, 2025 : 7.4 years)

The Company expects to contribute Rs.1.50 to gratuity fund in the next year (March 31, 2025 : Rs. 1.00)

V The major categories of plan assets are as follows:

Particulars	March 31, 2026	March 31, 2025
Investments with Insurer (LIC of India)	100.00%	100.00%

VI Risk exposure

Through its defined benefit plans, the Company is exposed to a number of risks, the most significant of which are detailed below :

Asset Volatility:

The plan liabilities are calculated using a discount rate set with reference to bond yields. If plan assets underperform, this yield will create a deficit. The plan assets are maintained with fund manager of LIC. They are subject to interest rate risk which is managed by the insurer.

Changes in bond yield:

A decrease in bond yields will increase plan liabilities.

Asset risk:

All plan assets are maintained in a trust fund managed by a public sector insurer viz; LIC. LIC has a sovereign guarantee and has been providing consistent and competitive returns over the years. The Company has opted for a traditional fund wherein all assets are invested primarily in risk averse markets. The Company has no control over the management of funds but this option provides a high level of safety for the total corpus. A single account is maintained for both the investment and claim settlement and hence 100% liquidity is ensured. Also, interest rate and inflation risk are taken care of.

Future salary escalation and Inflation risks:

Rising salaries will often result in higher future defined benefit payments resulting in a higher present value of liabilities especially unexpected salary increases provided at management's discretion may lead to uncertainties in estimating this risk.

Life expectancy:

Increases in life expectancy of employee will result in an increase in the plan liabilities. This is particularly significant where inflationary increases result in higher sensitivity to changes in life expectancy.

18 Other liabilities

Accounting policy

Contract liabilities

A contract liability is the obligation to transfer goods or services to a customer for which the Company has received consideration (or an amount of consideration is due) from the customer. If a customer pays consideration before the Company transfers goods or services to the customer, a contract liability is recognised when the payment is made or the payment is due (whichever is earlier). Contract liabilities are recognised as revenue when the Company satisfies the performance obligation.

Other current liabilities

	As at March 31, 2026	As at March 31, 2025
Contract liability		
(i) Related Parties (note 28)	47.50	29.25
(ii) Others	662.38	667.57
Statutory dues and other liabilities*	17.64	11.69
Total	**727.52**	**708.51**

* mainly includes tax deducted at source, tax collected at source, provident fund, ESIC, Goods and Services Tax etc.

For terms and conditions with related parties, refer note 28.

Notes to the Financial Statements for the year ended March 31, 2026
(All amounts are in Rupees Crore, except per share data and unless stated otherwise)

Contract liabilities are presented on a net basis after setting off contract assets at the individual project level. Contract asset of Rs. 307.68 (March 31, 2025: Rs. 221.13) is offset against contract liability

19 Revenue from operations

Accounting policy

Revenue from Contracts with Customers

Revenue from contracts with customers is recognized when control of the goods or services are transferred to the customer at an amount that reflects the consideration to which the Company expects to be entitled in exchange for those goods or services. Revenue is recognized when it has approval and commitment from both parties, the rights of the parties are identified, payment terms are identified, the contract has commercial substance and collectability of consideration is probable. The Company has concluded that it is the principal in all of its revenue arrangements since it is the primary obligor in all the revenue arrangements as it has pricing latitude and is also exposed to inventory and credit risks. The Company collects goods and services tax on behalf of the government and, therefore, it is not an economic benefit flowing to the Company. Hence, it is excluded from revenue.

Revenue from Engineering, Procurement and Construction contracts

Engineering, Procurement and Construction contracts are contracts (or a group of contracts secured together) specifically negotiated for the construction of an asset which refers to any project for construction of plants and systems, involving designing, engineering, fabrication, supply, erection (or supervision thereof), commissioning, guaranteeing performance thereof etc., execution of which is spread over different accounting periods. The Company identifies distinct performance obligations in each contract. For most of the project contracts, the customer contracts with the Company to provide a significant service of integrating a complex set of tasks and components into a single project or capability. Hence, the entire contract is accounted for as one performance obligation.

The Company may promise to provide distinct goods or services within a contract, in which case the Company separates the contract into more than one performance obligation. If a contract is separated into more than one performance obligation, the Company allocates the total transaction price to each performance obligation in an amount based on the estimated relative standalone selling prices of the promised goods or services underlying each performance obligation. The Company uses the expected cost plus a margin approach to estimate the standalone selling price of each performance obligation in case of contracts with more than one distinct performance obligations.

The Company assesses for the timing of revenue recognition in case of each distinct performance obligation. The Company first assesses whether the revenue can be recognized over a period of time if any of the following criteria is met:

(a) The customer simultaneously consumes the benefits as the Company performs, or

(b) The customer controls the work-in-progress, or

(c) The Company's performance does not create an asset with alternative use to the Company and the Company has right to payment for performance completed till date

Engineering, Procurement and Construction contracts

The Company uses cost-based measure of progress (or input method) for contracts because it best depicts the transfer of control to the customer which occurs as it incurs costs on contracts. Under the cost-based measure of progress, the extent of progress towards completion is measured based on the ratio of costs incurred to date to the total estimated costs at completion of the performance obligation. Revenues, including estimated profits, are recorded proportionally as costs are incurred.

The Company estimates variable consideration amount which it expects to be entitled under the contract and includes it in the transaction price to the extent it is highly probable that a significant reversal of cumulative revenue recognized will not occur and when the uncertainty associated with it is subsequently resolved. The estimates of variable consideration and determination of whether to include estimated amounts in the transaction price are based largely on an assessment of the anticipated performance and all information (historical, current and forecasted) that is reasonably available. Penalties/claims for any delay or improper execution of a contract are recognized as a deduction from revenue. In the balance sheet, such provisions are presented on net basis of the contract receivables.

Costs associated with bidding for contracts are charged to the Statement of Profit and Loss when they are incurred. Costs that relate directly to a contract and are incurred in securing the contract are included as part of the contract costs if they can be separately identified and measured reliably and it is probable that the contract will be obtained.

The Company generally provides for warranty provision for general repairs up to 18 months on its EPC contracts, in line with the industry practice. A liability is recognized at the time the contract is concluded. The Company does not provide any extended warranties.

Contract modification, when approved by both the parties to the contract, are considered as modification, if it creates new or changes the existing enforceable rights and obligations. Most of the contract modifications are not distinct from the existing contracts due to the significant integration service provided under the contract prior to modifications and are therefore, accounted for as part of the existing contract. The effect of a contract modification is recognized as an adjustment to revenue on a cumulative catch-up basis.

The Company combines two or more contracts entered into at or near the same time with the same customer (or related parties of the customer) and accounts for the contracts as a single contract if one or more of the following criteria are met:

(a) the contracts are negotiated as a package with a single commercial objective;

(b) the amount of consideration to be paid in one contract depends on the price or performance of the other contract; or

(c) the goods or services promised in the contracts (or some goods or services promised in each of the contracts) are a single performance obligation

Revenue from sale of goods (Other than EPC Contracts)

If the criteria for revenue under over-a-period of time as mentioned above are not met, the Company recognizes revenue at a point-in-time. The point-in-time is determined when the control of the goods or services is transferred which is determined based on when the significant risks and rewards of ownership are transferred to the customer. Apart from this, the Company also considers its present right to payment, the legal title to the goods, the physical possession and the customer acceptance in determining the point in time when control has been transferred. The Company generally provides for warranty provision for general repairs up to 18 months on its products sold, in line with the industry practice. A liability is recognized at the time the product is sold. The Company does not provide any extended warranties.

Revenue from sale of services

Revenue in respect of operation and maintenance contract, awarded on a standalone basis or included in long term contracts and identified as a separate performance obligation, is recognized as the related services are performed on a time proportion basis under the contracts.

Estimates and assumptions

Revenue from Engineering, Procurement and Construction contracts

Provisions for liquidated damages claims (LDs): The Company provides for LD claims to the extent that is highly probable that a significant reversal in the amount of cumulative revenue recognized will not occur when the uncertainty associated with the variable consideration is subsequently resolved. This requires an estimate of the amount of LDs payable under a claim which involves a number of management

judgments and assumptions regarding the amounts to be recognized.

Project cost to complete estimates: At each reporting date, the Company is required to estimate costs to complete on fixed-price contracts. Estimating costs to complete on such contracts requires the Company to make estimates of future costs to be incurred, based on work to be performed beyond the reporting date.

Recognition of contract variations: The Company recognizes revenues and margins from contract variations where it is considered probable that they will be awarded by the customer and this requires management to assess the likelihood of such an award being made by reference to customer communications and other forms of documentary evidence.

Judgements

A significant portion of the Company's business relates to EPC contracts which is accounted using cost-based input method, recognizing revenue as the performance in the contract progresses. This requires management to make judgement with respect to identifying contracts for which revenue need to be recognised over a period of time, depending upon when the customer consumes the benefit, whether the customer controls the work-in-progress, whether the asset created has an alternative use and the Company has right to payment for performance completed till date, either contractually or legally. The input method requires management to make significant judgements of the extent of progress towards completion including accounting of multiple contracts which need to be combined and considered as a single contract.

(a) Revenue from contracts with customers:

	For the year ended March 31, 2026	For the year ended March 31, 2025
Revenue from projects and products	2,385.13	2,068.43
Revenue from services	169.58	198.81
Total revenue from contracts with customers (a)	**2,554.71**	**2,267.24**

(b) Other operating income

	For the year ended March 31, 2026	For the year ended March 31, 2025
Government grant		
-Export incentives	8.44	4.88
-Packaged Scheme of Incentives*	68.18	65.63
Sale of scrap	5.60	7.90
Exchange fluctuation gain / (loss)^	(30.76)	(4.39)
Total other operating income (b)	**51.46**	**74.02**
Total revenue from operations (a+b)	**2,606.17**	**2,341.26**

*The Company is eligible for claiming incentives for investments made under the Industrial Policy of the Government of Maharashtra under Package Scheme of Incentive (PSI) Scheme 2007. The Company's manufacturing unit at Shirwal in Maharashtra is eligible and had Eligibility Certificate (EC) for Mega Project under the Package Scheme of Incentive (PSI) 2007, under certificate no DI/PSI-2007/Mega Project/EC-306/2014/B-8013 dated August 14, 2014. Basis the above Eligibility certificate, it has started availing incentives under the PSI 2007. Accordingly, the Company has recognised the grant income amounting to Rs. 68.18 for the year ended March 31, 2026 (March 31, 2025: Rs 65.62).

^ includes mark to market loss on forward contracts not subjected to hedge accounting Rs. 3.40 (mark to market loss on March 31, 2025 : Rs. 0.25).

(c) Disclosure pursuant to Ind AS 115: Revenue from Contracts with Customers

i) Revenue by category of contracts:

	For the year ended March 31, 2026	For the year ended March 31, 2025
Over a period of time basis	2,423.14	2,114.17
At a point-in-time basis	131.57	153.07
Total revenue from contracts with customers	**2,554.71**	**2,267.24**

Revenue by geographical market:

	For the year ended March 31, 2026	For the year ended March 31, 2025
Within India	1,689.36	1,820.64
Outside India	865.35	446.60
Total revenue from contracts with customers	**2,554.71**	**2,267.24**

ii) Contract balances:

The following table provides information about contract balances from contracts with customers as at the reporting date:

	As at March 31, 2026	As at March 31, 2025
Trade receivables (note 6 (a))	608.37	504.86
Contract asset (note 6 (b))	146.98	119.63
Contract liability (note 18)	709.88	696.82

Contract assets have increased compared to the previous year primarily due to the entity entering into new contracts during the year and satisfying performance obligations ahead of the agreed billing and payment milestones as per contractual terms

During the year ended March 31, 2026, Rs. 179.16 (March 31, 2025: Rs. 204.22) of opening contract asset has been reclassified to trade receivables upon completion of milestones. (Refer note 6(b)).

Contract liabilities have increased in current year as entity has invoiced more than the supplies of products and services made in accordance with the contractual billing and payment schedule. During the year the Company has recognized revenue of 295.22 (March 31, 2025: 139.00) arising from opening unearned revenue.

iii) Performance obligations

EPC and other than EPC contracts- Performance obligation in a project or a group of projects which are contracted at or near same time with the same or related parties and negotiated simultaneously, are combined for the purpose of evaluation. The Company has estimated that multiple commitments pertaining to engineering, procurement and commissioning of such projects is a single performance obligation which is spread over different accounting periods.

Performance obligation for products are evaluated on standalone basis, recognised at a point in time. Generally, performance obligations for such contracts have an original expected duration of one year or less.

There are no major contracts with customers which have significant financing component included within them and therefore there is no difference between the timing of satisfaction of performance obligation vis a vis the timing of the payment.

Remaining performance obligations:

The following table includes revenue expected to be recognised in the future related to performance obligations that are unsatisfied (or partially unsatisfied) at the reporting date.

Notes to the Financial Statements for the year ended March 31, 2026
(All amounts are in Rupees Crore, except per share data and unless stated otherwise)

The Company applies practical expedient included in para 121 of Ind AS 115 - "Revenue from Contracts with Customers" and does not disclose information about its remaining performance obligations for contracts that have an original expected duration of one year or less.

	As at March 31, 2026	As at March 31, 2025
Amount of revenue yet to be recognised for contracts in progress	4,839.76	2,640.29

The Company expects that a significant portion of the remaining performance obligation will be completed in next 1 to 4 years. However, the contracts with customers for supply of utilities are for a longer period.

vi) Reconciliation between revenue recognised in Statement of profit and loss and contract price

There is no significant variation between revenue recognised in Statement of profit and loss and contract price except price variation claims, which are considered to be part of contract price.

20 Other income

	For the Year ended March 31, 2026	For the Year ended March 31, 2025
Interest income from financial assets carried at amortised cost		
- Bank deposits, corporate deposits and corporate bonds	54.17	30.00
- Interest on loan to holding company	-	6.19
- Other interest income*	11.25	2.94
Net gain/(loss) on fair value changes of mutual funds	(14.00)	10.62
Net gain on sale of mutual funds	26.75	15.24
Liabilities no longer required written back	1.16	1.25
Miscellaneous income^	2.94	3.49
Total	**82.27**	**69.73**

*Majorly includes interest accretion on government grant of Rs. 11.19 (March 31, 2025: Rs 2.89)

^Majorly includes cash discounts received from vendors Rs. 2.19 (March 31, 2025: Rs 2.25) and Insurance claim of Rs.1.26 (March 31, 2025: Rs 0.75)

21 Cost of raw material and components consumed

	For the Year ended March 31, 2026	For the Year ended March 31, 2025
Raw material and components at the beginning of the year	141.79	148.77
Add: Purchases	1,551.27	1,317.14
	1,693.06	**1,465.91**
Raw material and components at the end of the year	231.66	141.79
	1,461.40	**1,324.12**
Total	**1,461.40**	**1,324.12**

22 Change in inventories of finished goods and work-in-progress

	For the Year ended March 31, 2026	For the Year ended March 31, 2025
Inventories at the beginning of the year		
Work-in-progress	4.40	10.34
Finished goods	1.73	4.24
	6.13	**14.58**
Less: inventories at the end of the year		
Work-in-progress	2.02	4.40
Finished goods	5.69	1.73
	7.71	**6.13**
Total	**(1.58)**	**8.45**

23 Employee benefits expense

	For the Year ended March 31, 2026	For the Year ended March 31, 2025
Salaries and wages*	199.03	188.01
Contribution to provident and other funds	15.78	14.24
Gratuity expense (Refer note 17)	3.93	2.87
Staff welfare expenses	13.14	8.08
Share based payment expense (Refer note 34)	0.20	0.21
Total	**232.08**	**213.41**

*includes Director's sitting fees of Rs. 0.10 (March 31, 2025: Rs. 0.11)

24 Finance costs

	For the Year ended March 31, 2026	For the Year ended March 31, 2025
Interest expense	1.54	5.05
Unwinding of discount	4.19	3.89
Total	**5.73**	**8.94**

26 (a) Other expenses

	For the Year ended March 31, 2026	For the Year ended March 31, 2025
Consumption of stores and spare parts	40.39	34.10
Power and fuel	11.48	11.45
Freight and forwarding charges (net of recovery)	83.14	87.06
Drawing, design and technical service charges	22.32	19.76
Sales commission	6.81	5.61
Royalty	17.36	6.11
Advertisement and sales promotion	1.01	0.98
Rent (note 27 C)	10.78	8.14

^The amount is contributed to Thermax Foundation, India (refer note 28) which is engaged in education of economically underprivileged children by addressing social discrimination through affirmative actions, skill development and employability initiatives.

Subsequent to year end, the unspent amount had been transferred to unspent CSR account within 30 days from the end of the financial year, in accordance with the Companies Act, 2013 read with the CSR Amendment Rules.

26 (a) Earnings per share

Accounting policy

The Company presents the basic and diluted EPS data for its equity shares.

(i) **Basic EPS** is computed by dividing the net profit for the year attributable to the equity shareholders of the Company by the weighted average number of equity shares outstanding during the year.

(ii) **Diluted EPS** is computed by adjusting the net profit for the year attributable to the equity shareholders and the weighted average number of equity shares considered for deriving basic EPS for the effects of all the equity shares that could have been issued upon conversion of all dilutive potential equity shares.

	For the Year ended March 31, 2026	For the Year ended March 31, 2025
Net profit after tax attributable to the Equity shareholders (a)	234.32	225.67
Weighted average number of Equity shares of Rs.10/- each considered for calculating basic EPS (in units) (b)	628,222,500	628,222,500
Weighted average number of shares of Rs. 10/- each considered for calculating diluted EPS (in units) (c)	628,222,500	628,222,500
Basic earnings per share (in Rupees) (d) = (a)/(b)	3.73	3.59
Diluted earnings per share (in Rupees) (e) = (a)/(c)	3.73	3.59

26 (b) Components of Other Comprehensive Income (OCI)

The disaggregation of changes to OCI by each type of reserve in equity is shown below:

For the year ended March 31, 2026

	Cash flow hedge reserve	Retained Earnings	Total

Notes to the Financial Statements for the year ended March 31, 2026
(All amounts are in Rupees Crore, except per share data and unless stated otherwise)

27 Contingent liabilities and commitments

A Contingent liabilities

(a) Accounting policy

A disclosure for a contingent liability is made where there is a possible obligation that arises from past events and the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company or a present obligation that arises from the past events where it is either not probable that an outflow of resources will be required to settle the obligation or a reliable estimate of the amount cannot be made.

(b) Judgements

Tax and Legal contingencies

The Company has received various orders and notices from tax authorities in respect of direct taxes and indirect taxes. The outcome of these matters may have a material effect on the financial position, results of operations or cash flows. Management regularly analyses current information about these matters and provides provisions for probable losses including the estimate of legal expense to resolve such matters. In making the decision regarding the need for loss provisions, management considers the degree of probability of an unfavourable outcome and the ability to make a sufficiently reliable estimate of the amount of loss. The filing of a suit or formal assertion of a claim against the Company or the disclosure of any such suit or assertions, does not automatically indicate that a provision of a loss may be appropriate.

Details of contingent liabilities

(c) As part of the slump purchase agreement in financial year 2019-2020 with the Holding Company, the Company had acquired liabilities relating to demand notices/show cause-cum-demand notices from the Excise department covering period from June 2000 till June 2017 for Rs. 1,238.85 crores (March 31, 2025 : Rs.1238.85) including penalty (but excluding interest and further penalty thereon).

These demands were of excise duty payable on inclusion of the cost of bought out items in the assessable value of certain products manufactured by the Holding Company, though such duty paid bought out items are directly dispatched by the manufacturers thereof to the ultimate customer, without being received in the Company's factory. The Holding Company had filed an appeal against the same before CESTAT, Mumbai which was allowed in favour of the Holding Company during FY 2022-23.

During the previous year, the Commissioner of CGST & CE, Pune – I has filed an appeal before the Hon'ble Supreme Court of India challenging CESTAT order and appeal was admitted on July 10, 2024. Based on an independent legal advice, the Company and Holding Company are confident of the issue being ultimately decided in its favour and accordingly, no provision has been considered necessary.

(d)

Particulars (excluding of interest and penalty thereon)	As at March 31, 2026	As at March 31, 2025
Income Tax matters (#)	36.96	36.96
Excise, Customs Duty and Goods & Services tax	38.30	38.13
Sales Tax ($)	4.22	4.22

#During FY 2024-25, Company has received income tax order for AY 2023-24 for disallowing brought forward losses of Rs. 51.46. The assessing officer has raised demand of Rs.14.26 on brought forward losses disallowed. The Company has filed a stay of demand against the said order. Based on the advice obtained from tax expert, the Company's management believes that the probability of any outflow in respect of this order is remote and hence not considered in contingent liability.

During the FY 2022-23, The Company has received an income tax order for AY 2021-22 adding back income of Rs 200.10 for Goods and Services Tax ("GST") collected on sales. The Company has filed an appeal with CIT(appeals) and stay of demand against the said order. Based on the favourable order in case of similar matter in Holding Company, the management believes that the company has good case and hence the case is not considered in contingent liability.

$ From FY 2006-07 to FY 2015-16, the Company has indicated a contingent liability of Rs. 4.22 (March 31, 2025 : Rs.4.22) for various demand notices received by the Holding company. These liabilities are related to part of the acquired business.

(e) Others

	As at March 31, 2026	As at March 31, 2025
Liability for export obligations	2.15	1.98
Claims against the Company not acknowledged as debts	0.55	0.55

The Company has imported goods against advance licences. The timing and amount of the liability which will arise from above matters, will be determined by the relevant authorities on settlement of the cases.

Claims against the Company not acknowledged as debt on account of ongoing legal dispute. Based on the legal opinion on few matters and management assessments of the facts of the case, no provision is considered for the subject matters. Pending resolution of the matters, it is not practicable to estimate the timing of cash outflows, if any.

(f) The Company has issued various guarantees for performance, deposits, tender money, advances, etc to customers. The management has considered the probability for outflow of the same to be remote and accordingly no amount has been disclosed here.

B Capital and other commitments

Estimated amount of contracts remaining to be executed on capital account (net of advances) and not provided for is Rs. 6.13 (March 31, 2025 : Rs. 5.67).

C Leases

Accounting policy

The Company applies a single recognition and measurement approach for all leases, except for short-term leases and leases of low-value assets. The Company recognises lease liabilities to make lease payments and right-of-use assets representing the right to use the underlying assets.

Where the Company as lessee

Accounting policy

The Company lease asset classes primarily consist of leases for land, buildings, guest houses and office equipment. The Company assesses whether a contract contains a lease, at inception of a contract. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Company assesses whether:

(1) the contract involves the use of an identified asset

(2) the Company obtains substantially all of the economic benefits from use of the asset through the period of the lease and

(3) the Company obtains the right to direct the use of the asset.

At the date of commencement of the lease, the Company recognizes a right-of-use asset ("ROU") and a corresponding lease liability for all lease arrangements in which it is a lessee, except for leases with a term of twelve months or less (short-term leases) and low value leases. For these short-term and low value leases, the Company recognizes the lease payments as an operating expense on a straight-line basis over the term of the lease.

Certain lease arrangements include the options to extend or terminate the lease before the end of the lease term. ROU assets and lease

liabilities includes these options when it is reasonably certain that they will be exercised.

The right-of-use assets are initially recognized at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or prior to the commencement date of the lease plus any initial direct costs less any lease incentives. They are subsequently measured at cost less accumulated depreciation and impairment losses.

ROU assets are depreciated from the commencement date on a straight-line basis over the shorter of the lease term and useful life of the underlying asset. ROU assets are evaluated for recoverability whenever events or changes in circumstances indicate that their carrying amounts may not be recoverable. For the purpose of impairment testing, the recoverable amount (i.e. the higher of the fair value less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the Cash Generating Unit (CGU) to which the asset belongs.

The lease payments are discounted using the interest rate implicit in the lease. If that rate cannot be readily determined, which is generally the case for leases in the Company, the lessee's incremental borrowing rate is used, being the rate that the individual lessee would have to pay to borrow the funds necessary to obtain an asset of similar value to the right-of-use asset in a similar economic environment with similar terms, security and conditions.

To determine the incremental borrowing rate, the Company:

- where possible, uses recent third-party financing received by the Company as a starting point, adjusted to reflect changes in financing conditions since third party financing was received.
- uses a build-up approach that starts with a risk-free interest rate adjusted for credit risk for leases held by the Company, which does not have recent third-party financing
- makes adjustments specific to the lease, for example, term, country, currency and security."

If a readily observable amortising loan rate is available to the individual lessee (through recent financing or market data) which has a similar payment profile to the lease, then the Company use that rate as a starting point to determine the incremental borrowing rate.

The lease liability is initially measured at present value of the future lease payments. The lease payments include fixed payments less any lease incentives receivable, variable lease payments that depend on an index or a rate, and amounts expected to be paid under residual value guarantees.

Lease liability and ROU asset have been separately presented in the Balance Sheet and lease payments have been classified as financing cash flows.

For a contract that contains a lease component and one or more additional lease or non-lease components, the Company allocates the consideration in the contract to each lease component on the basis of the relative stand-alone price of the lease component and the aggregate stand-alone price of the non-lease components.

As a practical expedient, Ind AS 116 permits a lessee not to separate non-lease components, and instead account for any lease and associated non-lease components as a single arrangement. The Company has not used this practical expedient. For a contract that contains a lease component and one or more additional lease or non-lease components, the Company allocates the consideration in the contract to each lease component on the basis of the relative stand-alone price of the lease component and the aggregate stand-alone price of the non-lease components.

The Company has taken office buildings and factory shed on operating lease. The tenure of such leases ranges from 1 to 5 years. Lease rentals are charged to the Statement of profit and loss for the year. There are no sub-leases. The leases are renewable on mutually agreeable terms. At the expiry of the lease term, the Company has an option to terminate the agreement or extend the term by giving notice in writing.

For these short-term and low value leases, the Company recognizes the lease payments as an operating expense on a straight-line basis over the term of the lease.

Certain lease arrangements include the options to extend or terminate the lease before the end of the lease term."

Details of Leases :

The Company has taken land, office buildings, factory sheds, guest house, warehouse, vehicles, printers and other office equipment's on lease for a tenure of 1 to 99 years. The Company's obligations under its leases are secured by the lessor's title to the leased assets. Generally, the Company is restricted from assigning and subleasing the leased assets. There are no variable lease payments and residual value guarantees for these leases. The leases are renewable on mutually agreeable terms. At the expiry of the lease term, either party has an option to terminate the agreement or extend the term by giving notice in writing. The Company also has certain leases of machinery with lease terms of 12 months or less and leases of office equipment with low value. The Company applies the 'short-term lease' and 'lease of low-value assets' recognition exemptions for these leases.

Details of amounts recognised in statement of profit and loss

	As at March 31, 2026	As at March 31, 2025
Expense relating to short-term leases (included in other expenses)	9.03	11.02

J Terms and conditions of related party transactions

The sales to and purchases from related parties are considered by management to be in the ordinary course of business. Outstanding balances at the year-end are unsecured and interest free and settlement occurs in cash (excluding loan outstanding).

There have been no guarantees provided or received for any related party receivables or payables except stated above. For the year ended March 31, 2026, the Company has recorded an impairment of receivables relating to amounts owed by related parties of Rs. 5.80 (March 31, 2025 : Rs. 4.75). This assessment is undertaken each financial year through examining the financial position of the related party and the market in which the related party operates. All outstanding balances are unsecured and repayable in cash.

Refer note 43 for terms and conditions of loan given to Holding Company.

29 Segment information

Accounting policy

Operating segments are reported in a manner consistent with the internal reporting provided to the Chief Operating Decision Maker. The Board of Directors of the Company has identified the Director and Chief Executive Officer as the chief operating decision maker of the Company.

Judgements

Ind AS 108 Operating Segments requires Management to determine the reportable segments for the purpose of disclosure in financial statements based on the internal reporting reviewed by Chief Operating Decision Maker (CODM) to assess performance and allocate resources. The standard also requires Management to make judgments with respect to aggregation of certain operating segments into one or more reportable segment.

Operating segments used to present segment information are identified based on the internal reports used and reviewed by the Chief Executive Officer to assess performance and allocate resources. The Company is operating in a single business segment, viz Industrial Infra (Energy and Allied Services).

The Company's portfolio includes subcritical and supercritical boilers and related services. The Director and CEO of the Company has been identified as the Chief Operating Decision Maker ('CODM'). For management purposes, the Company reports the details of operating segments as a single segment for "industrial infra (energy and allied services)". The CODM reviews the information for this single segment only. Accordingly, the Company has provided only geographical segment disclosures.

Notes to the Financial Statements for the year ended March 31, 2026
(All amounts are in Rupees Crore, except per share data and unless stated otherwise)

30 Fair value measurements

Estimates and assumptions

Fair value measurement of unquoted financial instruments

When the fair values of financial assets and financial liabilities recorded in the balance sheet cannot be measured based on quoted prices in active markets, their fair value is measured using valuation techniques including the DCF model. The inputs to these models are taken from observable markets where possible, but where this is not feasible, a degree of judgment is required in establishing fair values. Assumptions include considerations of inputs such as liquidity risk, credit risk and volatility. Changes in assumptions about these factors could affect the reported fair value of financial instruments.

a) Category of financial instruments and valuation techniques

(i) Financial assets

Details of financial assets carried at amortised cost

	As at March 31, 2026	As at March 31, 2025
Trade receivables	608.37	504.86
Loans	0.92	1.33
Investments	217.97	68.28
Other financial assets	112.32	73.77
Cash and cash equivalents	76.12	55.49
Bank balances other than cash and cash equivalents	376.53	705.28
Total	**1,392.23**	**1,409.01**
Current assets	1,189.47	1,074.25
Non-current assets	202.76	334.76
Total	**1,392.23**	**1,409.01**

The management has assessed that the carrying amounts of the above financial instruments approximate their fair values.

Details of financial assets carried at fair value through profit and loss

	As at March 31, 2026	As at March 31, 2025
Investments	232.22	222.94
Total	**232.22**	**222.94**
Current assets	232.22	190.65
Non-current assets	-	32.29
Total	**232.22**	**222.94**

The fair values of mutual funds are based on price quotations at the reporting date.

Details of derivative assets

	As at March 31, 2026	As at March 31, 2025
Derivative instruments		
Cash flow hedges		
Foreign exchange forward contracts	-	3.30
Derivative not designated as hedges		
Foreign exchange forward contracts	5.48	1.45
Total	**5.48**	**4.75**
Current assets	5.48	4.75
Non-current assets	-	-
Total	**5.48**	**4.75**

(ii) Financial liabilities

Details of financial liabilities carried at amortised cost

	As at March 31, 2026	As at March 31, 2025
Trade payables	583.57	434.87
Employee related payables	34.48	31.70
Other liabilities	1.52	1.14
Total	**619.57**	**467.71**
Current liabilities	619.57	467.71
Non current liabilities	-	-
Total	**619.57**	**467.71**

Details of derivative liabilities

	As at March 31, 2026	As at March 31, 2025
Derivative instruments		
Cash flow hedges		
Foreign exchange forward contracts	87.06	6.40
Derivative not designated as hedges		
Foreign exchange forward contracts	2.08	1.20
Total	**89.14**	**7.60**
Current liabilities	89.14	7.60
Non-current liabilities	-	-
Total	**89.14**	**7.60**

The Company enters into derivative financial instruments with banks. Foreign exchange forward contracts are valued using valuation techniques, which employs the use of market observable inputs which captures credit quality of counterparties, foreign exchange spot and forward rates, yield curves of the respective currencies and currency basis spreads between the respective currencies. All derivative contracts are fully cash collateralised, thereby eliminating both counterparty and the Company's own non-performance risk. The changes in counterparty credit risk had no material effect on the hedge effectiveness assessment for derivatives designated in hedge relationships and other financial instruments recognised at fair value.

b) Fair value hierarchy

The following table provides the fair value measurement hierarchy of the Company's assets and liabilities.

Quantitative disclosures of fair value measurement hierarchy for assets as at March 31, 2026

	Date of valuation	Level 1	Level 2	Level 3*
Financial assets				
Investments				
Mutual funds	March 31, 2026	232.22	-	-
Derivative financial assets	March 31, 2026	-	5.48	-
Financial liabilities				
Derivative financial liabilities	March 31, 2026	-	89.14	-

Quantitative disclosures of fair value measurement hierarchy for assets as at March 31, 2025

	Date of valuation	Level 1	Level 2	Level 3*
Financial assets				
Investments				
Mutual funds	March 31, 2025	222.94	-	-
Derivative financial assets	March 31, 2025	-	4.75	-
Financial liabilities				
Derivative financial liabilities	March 31, 2025	-	7.60	-

There has been no transfer between Level 1 and Level 2 during the year and during the previous year.

Valuation of financial assets in Level 3 has been done based on discounting of future cash flows. There are no transfers into or out of Level 3 of the fair value hierarchy during the year.

c) Valuation technique used to determine fair value

Specific valuation techniques used to value financial instruments include:

- the use of quoted market prices or dealer quotes for similar instruments
- for foreign currency forwards the present value of future cash flows based on the forward exchange rates at the balance sheet date
- for other financial instruments – discounted cash flow analysis.

All of the resulting fair value estimates are included in level 2 except for unlisted equity securities, where the fair values have been determined based on present values.

d) The finance department includes a dedicated team responsible for performing valuations of financial assets and liabilities for financial reporting purposes, including Level 3 fair value measurements. This team operates within a structured governance framework, and valuation processes and outcomes are reviewed on the basis of reporting cycle of the Company.

The key Level 3 inputs for unlisted equity securities used by the Company are determined and assessed as follows:

- Discount rates are estimated using a capital asset pricing model, reflecting current market assessments of the time value of money and risks specific to the asset;
- Risk adjustments relating to counterparties (including assumptions on credit default rates) are derived from internal credit risk gradings established by the Company's credit risk management function.

Changes in Level 2 and Level 3 fair values are evaluated at the end of each reporting period as part of the quarterly valuation review process. During this review, the valuation team presents an analysis explaining the drivers of movements in fair values.

Significant estimates

The fair value of financial instruments that are not traded in an active market is determined using valuation techniques. The Company uses its judgement to select a variety of methods and makes assumptions that are mainly based on market conditions existing at the end of each reporting period. For details of the key assumptions used and the impact of changes to these assumptions, refer (c) and (d) above.

31 (a) Financial risk management

The Company's principal financial liabilities, other than derivatives, comprise trade and other payables. The main purpose of these financial liabilities is to finance the Company's operations. The Company's principal financial assets include trade and other receivables, loans and cash and cash equivalents that it derives directly from its operations. The Company holds FVTPL investments and also enters into derivative transactions.

Risk is inherent in the Company's activities but it is managed through a process of ongoing identification, measurement and monitoring, subject to risk limits and other controls. This process of risk management is critical to the Company's continuing profitability and each individual within the Company is accountable for the risk exposures relating to his or her responsibilities. The Company is exposed to market risk, credit risk and liquidity risk.

The Company's Board of Directors is ultimately responsible for the overall risk management approach and for approving the risk strategies and principles. No significant changes were made in the risk management objectives and policies during the years ended March 31, 2026 and March 31, 2025. The management of the Company reviews and agrees policies for managing each of these risks which are summarised below:

I Market risk

Market risk is the risk that the value of a financial instrument will fluctuate as a result of changes in market variables such as interest rates, foreign exchange rates and equity prices, whether those changes are caused by factors specific to the individual investment or its issuer or factors affecting all investments traded in the market.

Market risk is managed on the basis of pre-determined asset allocations across various asset categories, diversification of assets in terms of geographical distribution and industry concentration, a continuous appraisal of market conditions and trends and management's estimate of long and short term changes in fair value.

(i) Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company is not currently exposed significantly to such risk.

b Foreign currency risk

Foreign exchange risk arises when future commercial transactions and relevant assets and liabilities are denominated in a currency that is not the Company's functional currency. Foreign exchange risk is the risk that the value of a financial instrument will fluctuate due to changes in foreign exchange rates.

Notes to the Financial Statements for the year ended March 31, 2026
(All amounts are in Rupees Crore, except per share data and unless stated otherwise)

Foreign exchange risk is managed on the basis of limits determined by management and a continuous assessment of current and expected exchange rate movements and entering into derivative contracts(foreign currency forward contracts) that hedge the maximum period of exposure of underlying transactions (i.e. highly probable forecast sales and purchases).

When a derivative is entered into for the purpose of being a hedge, the Company negotiates the terms of those derivatives to match the terms of the hedged exposure. For hedges of forecast transactions the derivatives cover the period of exposure from the point the cash flows of the transactions are forecasted up to the point of expected settlement of the resulting receivable or payable that is denominated in the foreign currency.

Foreign currency risk exposure:

The Company's exposure to foreign currency risk at the end of the reporting period expressed in INR, are as follows:

	As at March 31, 2026				As at March 31, 2028			
	USD	EURO	JPY	GBP	USD	EURO	JPY	GBP
Financial assets								
Trade receivables	182.72	1.43	-	-	76.39	-	-	-
Cash and cash equivalents	-	-	-	-	10.27	-	-	-
Derivative assets								
Foreign exchange forward contracts-								
Sell foreign currency	1,983.40	0.54	-	-	1,319.07	0.31	-	-
Financial liabilities								
Bank loan	-	-	-	-	-	-	-	-
Trade payables	48.13	1.55	-	0.50	34.51	2.81	-	-
Derivative liabilities								
Foreign exchange forward contracts -								
Buy foreign currency	141.97	11.90	-	-	118.27	10.80	-	-
Net exposure to foreign currency risk - asset/ liability	**1,976.02**	**(11.48)**	**-**	**(0.50)**	**1,252.95**	**(13.30)**	**-**	**-**

Foreign currency sensitivity

The following table demonstrates the sensitivity to a reasonably possible change in USD and EUR exchange rates, with all other variables held constant. The impact on the Company's profit before tax is due to changes in the fair value of monetary assets and liabilities including foreign currency derivatives not designated as cash flow hedge and foreign currency derivatives with underlying foreign currency monetary assets/liabilities designated as cash flow hedge. The impact on the Company's pre-tax equity is due to changes in the fair value of forward exchange contracts designated as cash flow hedges.

	Impact on profit before tax		Impact on other components of equity	
	For the year ended March 31, 2026	For the year ended March 31, 2025	For the year ended March 31, 2026	For the year ended March 31, 2025
USD Sensitivity				
INR/ USD - Increase by 5%	5.51	0.19	(83.45)	(55.70)
INR/ USD - Decrease by 5%	(5.51)	(0.19)	83.45	55.70
EURO Sensitivity				
INR/ EUR - Increase by 5%	0.58	0.45	-	-
INR/ EUR - Decrease by 5%	(0.58)	(0.45)	-	-

Favourable impact shown as positive and adverse impact as negative.

The exposure to other foreign currencies is not significant to the Company's financial statements.

c Price risk

The Company's investments are susceptible to market price risk arising from uncertainties about future values of the investment securities. These securities are quoted and unquoted. The Company manages the price risk through diversification and by placing limits on individual and total mutual fund instruments. Further, the price risk is also mitigated by switching the investment portfolio between investment in mutual fund instruments and investments in bank deposits/corporate deposits. Reports on the investment portfolio are submitted to the Company's senior management on a regular basis. The Company's Board of Directors reviews and approves all equity investment decisions. The Company is not currently exposed significantly to such risk.

II Credit risk

Credit risk is the risk that counterparty will not meet its obligations under a financial instrument or customer contract, leading to a financial loss. The Company is exposed to credit risk from its operating activities (primarily trade receivables and contract assets) and and from its investing activities, including deposits with banks, loans to related parties and investment at amortised cost.

Trade receivables/ contract assets

The Company's exposure to credit risk is influenced mainly by the individual characteristics of each customer. However, management also considers the factors that may influence the credit risk of its customer base, including the default risk of the industry and country in which customers operate.

A default on a financial asset is when the counterparty fails to make contractual payments when they fall due. This definition of default is determined by considering the business environment in which Company operates and other macro-economic factors.

Credit quality of a customer is assessed based on its credit worthiness and historical dealings with the Company, market intelligence and goodwill. Outstanding customer receivables are regularly monitored. While cash and cash equivalents are also subject to the impairment requirements of Ind AS 109, the Company has not identified impairment loss in view of banks having high credit rating. In respect of security deposits and other financial assets, the risk of financial loss on account of credit risk is not expected to be material to the financial statements.

Credit risk arises from the possibility that customer will not be able to settle their obligations as and when agreed. To manage this, the Company periodically assesses the financial reliability of customers, taking into account the financial condition, current economic trends, analysis of historical bad debts, ageing of accounts receivable and forward looking information. Individual credit limits are set accordingly. The Company has a detailed review mechanism of overdue customer receivables at various levels within the organisation.

To measure the expected credit losses, trade receivables and contract assets have been grouped based on shared credit risk characteristics and the days past due. The provision matrix takes into account a continuing credit evaluation of Company's customers' financial condition; aging of trade accounts receivable; the value and adequacy of security received from the customers in certain circumstances (if any); the Company's historical loss experience; and adjustment based on forward looking information The contract assets relate to unbilled work in progress and have substantially the same risk characteristics as the trade receivables for the same types of contracts. The Company has therefore concluded that the expected loss rates for trade receivables are a reasonable approximation of the loss rates for the contract assets.

The expected loss rates are based on the payment profiles of sales over a period of 60 months before the reporting date and the corresponding historical credit losses experienced within this period. The historical loss rates are adjusted to reflect current and forward-looking information on macroeconomic factors affecting the ability of the customers to settle the receivables.

Impairment losses on trade receivables and contract assets are presented as net impairment losses. Subsequent recoveries of amounts previously written off are credited against the same line item.

Bank deposits and other financial instruments

Credit risk from balances with banks, mutual funds and other financial instruments like derivative contracts are managed by the Company's treasury department in accordance with the Company's policy. Investments of surplus funds are made only with approved counterparties having a good market reputation and within credit limits assigned to each counterparty. The limits are set to minimise the concentration of risks and therefore mitigate financial loss through counterparty's potential failure to make payments.

The Company's maximum exposure to credit risk for bank balances and deposits as at March 31, 2026 and March 31, 2025 is the carrying amounts as disclosed in Note 8(a) and 12, maximum exposure relating to financial derivative instruments is disclosed in notes 8(b) and 16(b) to the financial statements.

Loans to related parties

The Company considers the probability of default upon initial recognition of loan and whether there has been a significant increase in credit risk on an ongoing basis throughout each reporting period. To assess whether there is a significant increase in credit risk, the company compares the risk of a default occurring on the loan as at the reporting date with the risk of default as at the date of initial recognition. It considers available reasonable and supportive forwarding-looking information.

Debt instruments (excluding loans to related parties)

All of the entity's debt instruments (preference shares and security deposits) at amortised cost are considered to have low credit risk, and the loss allowance recognised during the period was therefore limited to 12 months' expected losses. Management consider 'low credit risk' for listed instruments to be an investment grade credit rating with at least one major rating agency. Other instruments are considered to have low credit risk when they have a low risk of default and the issuer has a strong capacity to meet its contractual cash flow obligations in the near term.

III Liquidity risk

Prudent liquidity risk management implies maintaining sufficient cash and marketable securities and the availability of funding through an adequate amount of committed credit facilities to meet obligations when due and to close out market positions. Due to the dynamic nature of the underlying businesses, company treasury maintains flexibility in funding by maintaining availability under committed credit lines.

The management monitors rolling forecasts of the Company's liquidity position (comprising the undrawn borrowing facilities below) and cash and cash equivalents on the basis of expected cash flows. This is generally carried out at operating segments level in the Company in accordance with practice and limits set by the Company. In addition, the Company's liquidity management policy involves projecting future cash flows and considering the level of liquid assets necessary to meet these and monitoring balance sheet liquidity ratios against internal requirements.

(i) Maturities of financial liabilities

The tables below summarises the Company's financial liabilities into relevant maturity profile based on contractual undiscounted payments :

March 31, 2026	< 1 year	1 to 3 years	> 3 years
Non- derivative			
Trade Payables	583.57	-	-
Other financial liabilities			
Other payables	36.00	-	-
Derivatives (net settled)			
Foreign exchange forward contracts	89.14	-	-

March 31, 2025	< 1 year	1 to 3 years	> 3 years
Non- derivative			
Trade Payables	434.87	-	-
Other financial liabilities			
Other payables	32.84	-	-
Derivatives (net settled)			
Foreign exchange forward contracts	7.60	-	-

Financing arrangements

The Company had access to the following undrawn borrowing facilities at the end of the reporting period:

	As at March 31, 2026	As at March 31, 2025
Expiring within one year (bank overdraft and other facilities)	140.00	140.00
Expiring beyond one year (bank loans)	-	-

The bank overdraft facilities might be drawn at any time and might be terminated by the bank without notice. Subject to the continuance of satisfactory credit ratings.

Notes to financial statements for the year ended March 31, 2025
(All amounts are in Rupees Crore, except per share data and unless stated otherwise)

31 (b) Hedging activities and derivatives

Cash flow hedges

Foreign currency risk

Foreign exchange forward contracts measured at fair value through OCI are designated as hedging instruments in cash flow hedges of forecast sales in USD, EUR and forecast purchases in USD and EUR. These forecast transactions are highly probable, and fully cover the Company's expected future sales and future purchases based on the orders received.

While the Company also enters into other foreign exchange forward contracts with the intention to reduce the foreign exchange risk of expected sales and purchases, these other contracts are not designated in hedge relationships and are measured at fair value through profit or loss.

The foreign exchange forward contract balances vary with the level of expected foreign currency sales and purchases and changes in foreign exchange forward rates.

	As at March 31, 2026		As at March 31, 2025	
	Assets	Liabilities	Assets	Liabilities
Fair Value of Foreign exchange forward contracts designated as hedging instrument	5.48	(89.14)	4.75	(7.60)

The terms of the foreign currency forward contracts match the terms of the expected highly probable forecast transactions. As a result, no hedge ineffectiveness arise requiring recognition through profit or loss. Notional amounts of hedged item as assets for export transaction and as liabilities for import transactions, are as mentioned below.

	As at March 31, 2026		As at March 31, 2025	
	Assets	Liabilities	Assets	Liabilities
Cash flow hedge				
Foreign exchange forward contracts	1,907.48	-	1,192.24	-
Derivatives not designated as hedges				
Foreign exchange forward contracts	76.46	153.87	107.17	128.39

Majority of the derivative contracts mature within the next 12 months.

The cash flow hedges of the expected future sales and purchases were assessed to be highly effective and following net unrealised gain / (loss) with a deferred tax asset/ (liability) relating to the hedging instruments, is included in OCI.

	As at March 31, 2026		As at March 31, 2025	
	Expected future sales	Expected future purchases	Expected future sales	Expected future purchases
Unrealised gain/(Loss)	(70.84)	-	(3.13)	-
Deferred tax asset/ (liability)	17.83	-	0.79	-
	(53.01)	**-**	**(2.34)**	**-**

The amounts retained in OCI at March 31, 2026 are expected to mature and affect the Statement of Profit and Loss during the year ending March 31, 2027.

Reclassifications to profit or loss during the year gains or losses included in OCI are shown in Note 26.

a) Disclosure of effects of hedge accounting on financial position:

March 31, 2026:

Type of hedge and risks	Nominal value	Carrying amount of Hedging Instruments Assets/(Liabilities)	Maturity date	Hedge ratio	Weighted average strike Price	Changes in fair value of hedging instrument	Change in the value of hedged item used as the basis for recognising hedge effectiveness
Foreign currency risk							
Foreign exchange forward contracts - USD	1907.48	(87.02)	Apr 26 to Sep 27	1:1	92.02	(83.95)	83.95

March 31, 2025:

Type of hedge and risks	Nominal value	Carrying amount of Hedging Instruments Assets/(Liabilities)	Maturity date	Hedge ratio	Weighted average strike Price	Changes in fair value of hedging instrument	Change in the value of hedged item used as the basis for recognising hedge effectiveness
Foreign currency risk							
Foreign exchange forward contracts - USD	1192.24	(3.06)	Apr 25 to Nov 26	1:1	86.61	(2.71)	2.71

Hedge effectiveness

Hedge effectiveness is determined at the inception of the hedge relationship, and through periodic prospective effectiveness assessments to ensure that an economic relationship exists between the hedged item and the hedging instrument. For hedges of foreign currency purchases and sales, the Company enters into hedge relationships where the critical terms of the hedging instrument match exactly with the terms of the hedged item. The Company therefore performs a qualitative assessment of effectiveness. If changes in circumstances affect the terms of the hedged item such that the critical terms no longer match exactly with the critical terms of the hedging instrument, the Company uses the hypothetical derivative method to assess effectiveness. In hedges of foreign currency purchases and sales, ineffectiveness might arise if the timing of the forecast transaction changes from what was originally estimated, or if there are changes in the credit risk of the Company or the derivative counterparty.

33 Key Financial Ratios

Ratios	Numerator	Denominator	As at March 31, 2026	As at March 31, 2025	Change	Reason for Variance
Current Ratio	Current Assets	Current Liabilities	1.32	1.24	5.98%	
Debt-Equity Ratio	Total Debt	Shareholder's Equity	-	-	NA	
Debt service coverage ratio	Earnings for debt service = Net profit after taxes + Non-cash operating expenses	Debt service = Interest & Lease Payments + short term borrowings	45.21	28.34	59.51%	Refer Note 32(a)
Return on Equity Ratio	Net Profits after taxes – Preference Dividend	Average Shareholder's Equity	22.14%	24.14%	-8.28%	
Inventory Turnover Ratio	Cost of goods sold	Average Inventory	7.31	8.27	-11.66%	
Debtors turnover ratio	Net sales = Gross sales - sales return	Average Trade Receivable	4.59	4.83	-4.94%	
Trade payables turnover ratio	*Net purchases	Average Trade Payables	4.31	4.64	-7.01%	
Net working capital turnover ratio	Net sales = Total sales - sales return	Working capital = Current assets – Current liabilities	5.24	7.24	-27.65%	Refer Note 32(b)
Net Profit ratio	Net Profit after tax	Net sales = Total sales - sales return	9.17%	9.95%	-7.85%	
Return on capital employed	Earnings before interest and taxes	Capital Employed = Net Worth + Total long term Debt	29.88%	29.90%	-0.08%	
Return on investment	Interest (Finance Income)	Average Investment	6.96%	7.28%	-4.30%	

*Net credit purchases = Gross credit purchases - purchase return + staff welfare + Other expenses (Excluding Bad debts written off, Provision for impairment allowance on financial assets, warranty expenses & Loss on sale/discard of assets)

32(a) In previous year finance charges were on higher side due to interest on packing credit availed and interest accretion on preference shares.

32(b) In current year working capital is increased mainly due to increase in inventories, contract assets and advance to suppliers.

33 Struck off companies

There are no transactions & outstanding balances with struck off companies for the year ended March 31, 2026 and March 31, 2025.

34 Share based payments

Employee stock option and share based payments

In respect of stock options granted pursuant to the Company's Employee Stock Option Scheme, the Company recognises employee compensation expense, using the grant date fair value in accordance with Ind AS 102 - Share Based Payment, on straight line basis over the period over which the employees would become unconditionally entitled to apply for the shares. Employees (senior executives) of the Company receive remuneration in the form of share-based payments, whereby employees render services as consideration for equity instruments.

The Company initially measures the cost of transactions with employees using a Black Scholes Options Pricing model to determine the fair value of the liability incurred.

Estimating fair value for share-based payment transactions requires determination of the most appropriate valuation model and the performance of the Company, which is dependent on the terms and conditions of the grant. This estimate also requires determination of the most appropriate inputs to the valuation model including the expected life of the share option, volatility and dividend yield and making assumptions about them.

The assumptions and models used for estimating fair value for share-based payment transactions are disclosed below.

Employees Stock Option Plan 2021 (ESOP 2021)

The Parent Company approved Employee Stock Option Plan in financial year 2021-22. Pursuant to this approval, the Parent Company instituted ESOP 2021 Plan in January 2022. The compensation committee of the Parent Company administers this Plan. Each option carries with it the right to purchase one equity share of the Parent Company. The Options have been granted to employees of the Company at an exercise price that is not less than the face value of shares as on date of grant of such option. Option Granted under ESOP 2021 shall vest not earlier than minimum period of 1 (One) year and not later than maximum period of 3 (Three) years from the date of Grant. The vesting of the options is 33%, 33% and 34% of total options granted after end of first, second and third year respectively from the date of grant. The maximum exercise period is 5 years from the date of vesting.

Number and weighted average exercise prices of options granted, exercised and cancelled/lapsed during the financial year

Particulars	March 31, 2026		March 31, 2025	
	No.of options	Weighted average exercise price per option (Rs.)	No.of options	Weighted average exercise price per option (Rs.)
Options outstanding at the beginning of the year	954	15.25	454	15.25
Granted during the year	698	15.25	500	15.25
Forfeited during the year	-	15.25	-	15.25
Exercised during the year	1,055	15.25	-	15.25
Lapsed during the year	-	15.25	-	15.25
Options outstanding at the end of year	597	15.25	954	15.25
Options exercisable at the end of the year	38	15.25	330	15.25

Notes to financial statements for the year ended March 31, 2025

(All amounts are in Rupees Crore, except per share data and unless stated otherwise)

The weighted average remaining contractual life is as follows:

Exercise Price per Option	As at March 31, 2026		As at March 31, 2025	
	Weighted average contractual life (years)	No. of Options Outstanding	Weighted average contractual life (years)	No. of Options Outstanding
Rs. 15.25	Ranging between 1.83 - 4.41	597	Ranging between 1.83 - 4.28	954.00

The fair value of each option is estimated on the date of grant using Black and Scholes option pricing model with the following assumptions:

Particulars	March 31, 2026	March 31, 2025
1. Exercise price (Rs.)	15.25	15.25
2. Price of underlying share in the market at the time of option grant (Rs.)	Ranging between 2,139.45 - 4,485.35	Ranging between 2,139.45 - 4,485.35
3. Weighted average fair value of options granted (Rs)	Ranging between 2,107.61 - 4,384.98	Ranging between 2,107.61 - 4384.98
4. Expected life of the option (years)	3.5 -5.5	3.5 -5.5
5. Risk free interest rate (%)	Ranging between 6.41% - 7.56%	Ranging between 6.41% - 7.56%
6. Expected volatility (%)	Ranging between 12.86% - 15.01%	Ranging between 12.86% - 14.09%
7. Dividend yield (%)	Ranging between 0.42% - 0.48%	Ranging between 0.47% - 0.48%

The Company recorded an employee compensation cost of Rs. 0.20 (March 31, 2025 : Rs 0.21) in the Statement of Profit and Loss.

The expected price volatility is based on the historic volatility, adjusted for any expected changes to future volatility due to publicly available information.

35 Compliance with section 143(3) for maintenance of books of account

With effect from August 5, 2022, the Ministry of Corporate Affairs (MCA) has amended the Companies (Accounts) Rules, 2014, relating to maintenance of electronic books of account and other relevant books and papers. Pursuant to this amendment, the Company is required to maintain the books of account which are accessible in India at all times and their backup is to be kept on servers located in India on a daily basis

The Company has a process to take daily back-up of books of account maintained in electronic mode and along with the logs of the back-up of such books of account.

Requirements u/s 143(3) of the Act	Compliance / remarks
Books of Account maintained on cloud/ servers physically located in India	Yes
Backup maintained in India on daily basis	Yes

36 Compliance with section 143 (3) for audit trail

The Company has used accounting software for maintaining its books of account which has a feature of recording audit trail (edit log) facility and the same has operated throughout the year for all relevant transactions recorded in the software. Additionally, the audit trail of prior year has been preserved as per the statutory requirements for record retention to the extent it was enabled and recorded in the respective years."

37 Previous period figures have been regrouped/reclassified to conform to current year's classification as under :

Note No.	Note Description	Previously Reported amount	Revised amount	Change	Remarks
6 (b)	Contract asset-Current	-	105.70	105.70	Contract assets are presented on a net basis after setting off contract liability at the individual project level.
6 (a)	Trade Receivables - Current	655.24	504.86	(150.38)	Current Trade receivable (Not due retentions receivable) have been reclassified as Contract asset.
8 (b)	Other financial asset-Current	208.33	31.88	(176.45)	Other financial asset (Unbilled revenue) have been reclassified as Contract assets.
18	Other current liabilities	929.64	708.51	(221.13)	Contract liabilities are presented on a net basis after setting off contract assets at the individual project level.
6 (b)	Contract asset-Non Current	-	13.93	13.93	Other financial asset (Unbilled revenue) have been reclassified as Contract assets.
8 (a)	Other financial asset-Non Current	302.76	292.00	(10.76)	Other financial asset (Unbilled revenue) have been reclassified as Contract assets.
	Trade Receivables-Non Current	3.17	-	(3.17)	Non-Current Trade receivables (Not due retention receivable) have been reclassified as contract assets.

38 Capital Management

The Company's objective for capital management is to maximise long - term shareholder value, safeguard business continuity and support the growth of the Company. The Company determines the capital requirement based on annual operating plans and long - term and other strategic investment plans. The funding requirements are met through equity and operating cash flows generated. No changes were made in the objectives, policies or processes during the years ended March 31, 2026 and March 31, 2025. Capital represents equity attributable to equity holders of the Parent Company.

The Company monitors capital using a gearing ratio which is net debt/ obligation dividend by total equity. The Company's policy is to keep the gearing ratio optimum.

	As at March 31, 2026	As at March 31, 2025
Borrowings	-	-
Less: Cash and cash equivalents	(76.12)	(55.49)
Net debt	**(76.12)**	**(55.49)**
Equity	1,073.19	1,043.41
Capital and net debt	**997.07**	**987.92**
Gearing ratio*	**NA**	**NA**

*Gearing ratio is not calculated as the cash and cash equivalents is higher than the lease liabilities and borrowings

39 Exceptional Items

	For the year ended March 31, 2026	For the year ended March 31, 2025
Statutory impact of new Labour Codes*	(6.64)	-
Total	**(6.64)**	**-**

*Effective November 21, 2025, The Government of India has consolidated multiple existing labour legislations into a unified framework comprising of four Labour Codes collectively referred to as the 'New Labour Codes'. Under Ind AS 19 - "Employee benefits", changes to employee benefit plans arising from legislative amendments constitute a plan amendment, requiring recognition of past service cost immediately in the Statement of Profit and Loss.

The Company has assessed and disclosed the incremental impact of the New Labour Codes of Rs. 6.64, primarily arising due to change in definition of wages and the recognition of such past service costs. Considering the materiality and regulatory-driven, non-recurring nature of this impact, the Company has presented such past service cost as "Statutory impact of new Labour Codes" under "Exceptional Items" in the financial statements for the year ended March 31, 2026. The Company continues to monitor the finalisation of Central / State Rules and clarifications from the Government on other aspects of the Labour Code and would provide appropriate accounting effect on the basis of such developments as needed.

40 Other statutory information

(i) The Company does not have any Benami property, where any proceeding has been initiated or pending against the Company for holding any Benami property; under the Prohibition of Benami Property Transactions Act, 1988 (as amended from time to time) (formally the Benami Transaction (Prohibition) Act, 1988 (45 of 1988)) and Rules made there under.

(ii) The Company does not have any charges or satisfaction which are yet to be registered with Registrar of Companies (ROC) beyond the statutory period.

(iii) The Company has not traded or invested in Crypto currency or Virtual Currency during the current or previous financial year.

(iv) The Company has not made any such transaction which is not recorded in the books of accounts that has been surrendered or disclosed as income during the year in the tax assessments under the Income Tax Act, 1961 (such as, search or survey or any other relevant provisions of the Income Tax Act, 1961);

(v) The Company has not been declared wilful defaulter by any bank or financial institution or government or any government authority.

(vi) The Company has not revalued its property, plant and equipment (including right-of-use assets) or intangible assets or both during the current or previous year.

(vii) The borrowings obtained by the Company from banks and financial institutions have been applied for the purposes for which such loans were was taken.

(viii) Other than as disclosed in Note 36, the Company has not advanced or loaned or invested funds (either borrowed funds or share premium or any other sources or kind of funds) to any other person or entity, including foreign entities (Intermediaries) with the understanding (whether recorded in writing or otherwise) that the intermediary shall:

(a) directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Company (Ultimate Beneficiaries); or

(b) provide any guarantee, security or the like to or on behalf of the ultimate beneficiaries.

(ix) The Company has not received any funds from any person or entity, including foreign entities (Funding Party) with the understanding (whether recorded in writing or otherwise) that the Company shall:

(a) directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party (Ultimate Beneficiaries); or

(b) provide any guarantee, security or the like to or on behalf of the ultimate beneficiaries:

(x) The Company has complied with the number of layers prescribed under the Companies Act, 2013, read with the Companies (Restriction on number of layers) Rules, 2017.

41 As the consolidated financial statements are presented by the entity's holding Company, the entity has elected to apply the exemption available to it under Ind AS 110 and has opted to present only one set of financial statements.

42 Other Accounting Policies

Interest Income

For all debt instruments measured at amortised cost, interest income is recorded using the effective interest rate (EIR). EIR is the rate that exactly discounts the estimated future cash payments or receipts over the expected life of the financial instrument or a shorter period, where appropriate, to the gross carrying amount of the financial asset or to the amortised cost of a financial liability. Interest income is included in finance income in the Statement of profit and loss.

43 Disclosure required under section 186 (4) of Companies Act, 2013

Loans to related parties include loans given to Holding Company. The particulars of which are disclosed below as required by Sec 186(4) of the Act:

Name of the party	Rate of Interest (p.a.)	Period	Purpose	As at March 31, 2026	As at March 31, 2025
Thermax Limited	Interest rate of 7.90% is based on the comparative quotes taken from bank	The loan shall be repaid within a period of 2 years.	The loan has been granted to the Holding Company for working capital requirements	-	-

Profit/(Loss) after tax	(2,720.74),	(441.10)	(7,309.78)	(4173.25)

State of Company's Affairs

Over the past few years, the Company has steadily built a strong foundation in the renewable energy sector, marking its journey with significant milestones and thoughtful expansion.

It all began with the successful commissioning of its first set of projects—a 16.7 MWp group captive solar plant in Tamil Nadu and an 11.5 MWp captive solar project in Maharashtra. These early initiatives not only established the Company's presence but also demonstrated its commitment to clean energy solutions.

Building on this momentum, the Company ventured into hybrid energy, launching its first wind-solar hybrid project of 51.8 MWp in Gujarat. Completed and operational since June 2023, this project marked a pivotal step toward integrating diverse renewable sources for greater efficiency and reliability.

The Company's growth accelerated with the launch of a large 130 MWp bundled solar-wind project in Tamil Nadu. Of this, 90 MWp of solar capacity was progressively commissioned between September 2023 and April 2024. Complementing this, 39 MW of wind capacity was brought online in phases from October 2024 through January 2026. Alongside these developments, the Company expanded its footprint further by adding 19.5 MWp of captive solar capacity in Maharashtra and 7 MWp of group captive solar capacity in Tamil Nadu.

During the financial year, the Company continued to strengthen its portfolio by commissioning an additional 15 MW of wind and 7 MWp of solar projects. This brought its total commissioned capacity to an impressive 235.5 MWp across solar and wind energy.

Looking ahead, the Company has several projects nearing completion. These include 58.905 MW of wind capacity in Tamil Nadu and a substantial 139 MWp wind-solar hybrid group captive project in Gujarat, both at advanced stages of development.

In a forward-looking strategic move, during FY 24-25 the Company had also committed to develop wind and solar projects connected to the Inter State Transmission System (ISTS). As part of this initiative, it had secured 100 MW connectivity each at Power Grid substations in Andhra Pradesh, Tamil Nadu, and Rajasthan under the Inter State Transmission System (ISTS). These projects are currently under development and construction, positioning the Company at the forefront of next-generation energy infrastructure.

Further strengthening its portfolio, the Company has initiated an additional 12 MW wind capacity expansion within its existing Tamil Nadu project. At the same time, it has made a strategic entry into Rajasthan with a new 105 MWp solar project integrated with a Battery Energy Storage System (BESS), supported by the state's favorable Rajasthan Integrated Clean Energy Policy 2024.

Together, these achievements and ongoing initiatives reflect a Company that is not only growing in scale but also evolving in capability—driven by innovation, sustainability, and a clear vision for the future of clean energy.

There has not been any change in the nature of business of the Company during the year.

Material Changes Affecting the Financial Position of the Company

No material changes and commitments have occurred after the close of the year till the date of this Report, which affects the financial position of the Company

Dividend

In view of the losses, the directors do not recommend any dividend on equity shares.

Amount proposed to be carried to Reserves

During the year, the company has not transferred any amount to the General Reserve.

Share Capital

During the year, the Company in its Extra Ordinary General Meeting held on April 30, 2025, increased the Authorised share Capital of the Company from INR 525,00,00,000/- to INR 925,00,00,000/- constituting Equity Shares of Rs.10/- each.

The Paid-up Share Capital of the Company is Rs. 6,46,31,63,650/- divided into 64,63,16,365 Equity Shares of Rs. 10/- each for financial year under report. During the year under review, the Company has made further issue of shares to the existing shareholders on a rights basis. Details of the further issue of shares are as follows:

Date of Issue	Number of Shares	Nominal value per share (Rs.)	Amount (Rs.)
22-05-2025	1,80,00,000	10	18,00,00,000
04-06-2025	8,40,00,000	10	84,00,00,000
28-07-2025	11,50,00,000	10	115,00,00,000

First Energy Private Limited

The Company has done following allotments during the year under report:

Date of Issue	Number of Shares	Nominal value per share (Rs.)	Amount (Rs.)
30-04-2025	1,00,00,000	10	10,00,00,000
23-07-2025	10,20,00,000	10	102,00,00,000
09-09-2025	11,50,00,000	10	115,00,00,000

The Company has not issued shares with differential voting rights nor has granted any stock options or sweat equity during the year.

Subsidiaries, Joint Ventures and Associates

During the year the Company has incorporated three subsidiaries namely First Energy 12 Private Limited, First Energy 14 Private Limited and First Energy 15 Private Limited for carrying out its Group Captive or Captive Power projects in different states.

The annual accounts of the subsidiary companies and related detailed information are available to the shareholders of the holding and subsidiary company as well as to the statutory authorities. On request, these documents will be made available for inspection at the Company's corporate office. A disclosure in Form AOC 1 is also annexed to this report as Annexure 3.

The Company had entered into a Share Purchase Agreement (SPA) with the former owners of Onix Two Enersol Private Limited (OTEPL) on September 6, 2024, to acquire 100% of OTEPL's shares for INR 1 lakh. The agreement specified certain precedent conditions that were to be fulfilled by October 5, 2024. These conditions remained unfulfilled and a further extension of six months was granted. These conditions were not complied even in the extended period. Accordingly, the acquisition did not consummate and hence equity investment of INR 1 lakh was reclassed to other receivables in the Company's financials and accordingly OTEPL is not the Company's subsidiary.

During the year, the Company entered into fresh SPA dated 2nd January, 2026 with the promoters of OTEPL and the sale of OTEPL was attained with the closing actions as per this SPA getting completed.

Highlights of performance of subsidiaries

During the year, the Company has advanced on its wind solar hybrid/bundled group captive projects aggregating to 348 MWp across the states of Gujurat, Andhra Pradesh and Tamil Nadu.

During the year the Company commissioned 22 MWp of wind and solar across Tamil Nadu and Maharashtra, taking the total commissioned capacity to 235.5 MWp, and brought to advanced stages another 197.9 MWp wind, solar and hybrid projects, taking the count to 433 MWp of commissioned capacities including about to be commissioned capacities.

Deposits

The Company has not accepted any deposits under Chapter V of the Companies Act, 2013. It has no unpaid/unclaimed deposits as of March 31, 2026.

Particulars of Loans, Guarantees or Investments

The provisions of Section 186 of the Act, with respect to loan, guarantee, investment or security are not applicable to your Company. The details of loans, guarantee and investments made during the year under review, are given in the notes forming part of the financial statements.

Restriction on purchase by the Company or giving of Loans by it for purchase of its shares

Pursuant to the provisions of Section 67(3)(c) of the Companies Act, 2013, and rules made thereunder, the Company has not given any loan exceeding the limit mentioned therein, to persons in the employment of the Company, Directors or Key Managerial Personnel, for purchase or subscribe shares of the Company.

Business Risk Management

The Company has identified the below types of risks in its Renewable Energy business and has drawn a mitigation plan to address the same–

- **Land Risk:** The land title/ ownership data as per Government systems have certain degree of inaccuracies owing to prevalent old manual systems. This could result in delays in land acquisition and give rise to litigation. To mitigate this risk, the Company has an in-house Land expert and appointed a reputable legal agency to conduct Thirty Year Title Search Report (TSR) to clearly establish the ownership prior to land acquisition.
- **Risk of Right of Way (RoW) and Resources:** This type of risk involved the risk of delays due to RoW during construction and the availability of resources as per the plan. To cope with this risk the Company plans advance tie-up for land parcels and NOCs from respective agencies. It also collaborates with competent local infra partners and engages with experienced and capable service partners.
- **Renewable Sources and Grid Availability:** The risk identified by the Company is lower generation on account of lower radiation, wind speed, Grid curtailment and failures. The Company continuously studies the radiation levels and Wind Resources Assessment with historical data from reliable sources and accordingly sizes the plant and the financial models for arriving at the right tariff for the available conditions. It also carries out Load Flow Analysis and studies the data on power availability and quality from Grid.
- **Plant Uptime and Soiling Losses:** This type of risk involved the risk of revenue loss due to breakdowns and soiling due to the unavailability of water. This risk can be mitigated by selecting competent and credible service partners for Operations & Maintenance. The Company is also using waterless robotic technology for cleaning modules and therefore manpower dependency is reduced. The Board at its meetings periodically reviews and monitors these risks and their mitigation plan.
- **Regulatory changes:** Due to continuous change in regulatory frameworks at state and central level, the arrangement of power off take with industrial consumers gets affected. The Company mitigates this risk for itself and the off takers by continuously monitoring and anticipating changes in policies. The Company also keeps the off - takers duly informed of such imminent changes, helping all stakeholders to discuss mitigation and timely execute amendments to off-takers contracts.

The Board at its meetings periodically reviews and monitors these risks and their mitigation plan.

Health and Safety

Across all its operational assets, sites and offices, the company implements policies that covers Health and safety

The Company strives for continuous improvement and its objective is to establish the best safety practices at sites and operating assets.

During the year the Company took below health and safety initiatives:

- HSE Communication: HSE Moment/Lessons Learnt – Weekly HSE Moment is circulated to all employees and contractors and learnings are implemented.
- HSE Risk Management: -Hazard Reporting and closure – Hazards are reported by employees and contractors, and closure is monitored and supported by Management.
- HSE Promotion: - HSE Campaigns: - National Safety Week and Road Safety Week, Sustainability Week, Electrical Safety week was celebrated across the company involving contractors and employees and employee's family members.
- HSE Training: - HSE training including visitor Induction, Safety Induction and Risk based training is imparted to Contractors.
- HSE Digitalization: - HSE digital software implemented for hazard reporting, at risk behavior reporting.
- HSE Park:- Safety park for Worker safety done for safety Promotion in 1 location.
- HSE Promotion Van Display: - HSE Van with PPE displayed in 2 sites for Safety Promotion.
- Monsoon Resilience Team and Monsoon Warning on hourly and Daily basis and Response done in 3 locations.

Adequacy of Internal Financial Controls

The Company has adequate internal financial controls and those are operating effectively.

Directors & Key Managerial Personnel

During the year, Mr. Arun Unni's (DIN: 10831177) appointment as an Additional Director of the Board was regularized in the 17th Annual General Meeting (AGM) of the Company. and Mr. Pranav Pimpale was appointed as the Company Secretary and Key Managerial Personnel of the Company with effect from April 30, 2025.

Under the provisions of the Companies Act, 2013 and Articles of Association of the Company, Mrs. Meher Pudumjee(DIN: 00019581) retires by rotation and being eligible offers, herself for re-appointment. The proposal of re-appointment forms part of the Notice of the Eighteen AGM of the Company.

Board Evaluation

According to the provisions of the Companies Act, 2013, the Board has carried out an annual evaluation of its performance and of its individual Directors.

Board Meetings

The Board met Five times during the year under review, on April 30, 2025, July 23, 2025, November 05, 2025, January 28,2026 and March 26, 2026. The intervening gap between the meetings was within the period prescribed under the Companies Act, 2013 and circulars issued by the Ministry of Corporate Affairs during the year.

Directors' Responsibility Statement

In terms of Section 134 of the Companies Act, 2013, the Directors of your Company, to the best of their knowledge and belief and according to the information and explanations obtained by them in the normal course of their work, state that, in all material respects:

a) In the preparation of the annual financial statements for the year ended March 31, 2026, the applicable accounting standards have been followed along with proper explanation relating to material departures, if any;

b) Appropriate accounting policies have been selected, applied consistently and judgment and estimates have been made that are reasonable and prudent to give a true and fair view of the state of affairs of the Company as on March 31, 2026, and of the loss of the Company for the year ended on that date;

c) Proper and sufficient care has been taken for the maintenance of adequate accounting records in accordance with the provisions of the Companies Act, 2013 for safeguarding the assets of the Company and for preventing and detecting fraud and other irregularities;

d) The annual financial statements have been prepared on a going concern basis;

e) Proper systems to ensure compliance with the provisions of all applicable laws and that such systems were adequate and operating effectively.

Secretarial Standards

Your Company is in compliance with the Secretarial Standards on Meetings of the Board of Directors (SS-1) and Secretarial Standards on General Meetings (SS-2) issued by the Institute of Company Secretaries of India (ICSI) as amended from time to time.

Details regarding frauds reported by Auditors under section 143(12)

During the year under review, there were no frauds reported by the auditors to the Board under section 143(12) of the Act.

Related Party Transactions (RPT)

All related party transactions that were entered into during the financial year were on an arm's length basis and were in the ordinary course of business. The information on transactions with related parties pursuant to Sec 134(3) (h) of the Companies Act read with Rule 8(2) of the Companies (Accounts) Rules, 2014 is given as Annexure 2 in Form No. AOC-2 and the same forms part of this report.

During the year, RPTs were placed before the Board for approval. A statement showing the disclosure of transactions with related parties as required under IND AS 24 is set out separately in the financial statements.

Standalone and Consolidated Financial Statements

The financial statements for the year ended March 31, 2026, have been prepared as per Schedule III to the Companies Act, 2013, as amended from time to time. The consolidated financial statements of the group are prepared in compliance with the Accounting Standards.

Maintenance of Cost Records

The requirement for maintenance of the Cost Records according to Section 148(1) of the Companies Act, 2013, does not apply to the Company.

Conservation of energy and technological absorption

The Company is in the business of renewable energy. The Company aims to conserve the environment by bringing about significant change in methods of using energy through the application of Solar, Wind and associated Renewable energy generation sources and storage systems for commercial & industrial customers.

As a part of its "Build-Green" initiatives, the Company has installed solar powered Robots to clean the solar modules at the Opex projects thus ensuring waterless cleaning. In the case of Technology absorption, the Company used higher rated (540 & 550Wp) Monoperc PV models with better efficiency. The structure is designed to withstand the wind load. Robot technology is being adopted for cleaning the modules and this will help to conserve water and reduce soiling losses.

Foreign Exchange Earnings and Outgo

Below are the details of foreign currency earnings and outgo made during the year.

Foreign currency earnings	Amt. Rs.	13,69,539
Foreign currency outgo	Amt. Rs.	3,58,412

Particulars of Employees

The total number of permanent employees on the rolls of the company as of March 31, 2026 was 99.

Information as required in Rule 5(2) of the Companies (Appointment and Remuneration of Managerial Personnel) Rules, 2014 framed under the Companies Act, 2013.) in respect of employees of the Company, will be provided upon request. Any shareholder interested in obtaining such particulars may write to the Company Secretary.

Significant and material orders passed by the Regulators or Courts

There are no significant material orders passed by the Regulators / Courts which would impact the going concern status of the company and its future operations.

Corporate Social Responsibility

The Company does not fall under the criteria defined under Section 135 of the Companies Act, 2013 as of March 31, 2026. Hence, the provisions related to Corporate Social responsibility do not apply to the Company.

Disclosure under Sexual Harassment of Women at Workplace (Prevention, Prohibition and Redressal) Act, 2013

Your Company is committed to providing employees with a safe and conducive work environment. It has complied with provisions relating to the constitution of the Internal Complaints Committee under the Sexual Harassment of Women at Workplace (Prevention, Prohibition, Redressal) Act, 2013.

Details of complaints received and resolved during the year under review are as under:

(a) Number of complaints pending as on beginning of the year: Nil

(b) Number of complaints of sexual harassment received during the year: Nil

(c) Number of complaints disposed off during the year: NA

(d) Number of cases pending for more than ninety days: NA

Disclosure Under Maternity Benefit Act, 1961:

There were no cases to trigger a compliance for the Company under the provisions of the Maternity Benefit Act, 1961 during the year under report.

The Insolvency and Bankruptcy Code, 2016 and Valuation

Your Board confirms that there is no proceeding pending under the Insolvency and Bankruptcy Code, 2016 and during the year there is no instance of one-time settlement with any Bank or Financial Institution.

Auditors

Statutory Auditors

The members of the Company in their Fifteenth Annual General Meeting had appointed M/s Price Waterhouse Chartered Accountants LLP (FRN. 012754N/N500016) as Statutory Auditors for five years from the conclusion of the Fifteenth Annual General Meeting until the conclusion of the Twentieth Annual General Meeting to be held in FY 2028-29.

The Statutory Audit Report does not contain any qualifications, reservations, adverse remarks, or disclaimers.

Secretarial Auditors

Under the provisions of Section 204 of the Companies Act, 2013, and the Companies (Appointment and Remuneration of Managerial Personnel) Rules, 2014, the Company had appointed M/s. SVD and Associates, Practicing Company Secretaries, Pune, to undertake the secretarial audit of the Company for FY 2025-26. The Secretarial Audit Report for FY 2025-26 is attached as Annexure 1 to this Report.

The Secretarial Audit Report does not contain any qualifications, reservations, adverse remarks, or disclaimers.

Internal Auditors

The Board has appointed Mr. Tushar Dahale, Chartered Accountant as the Internal auditor of the Company.

Annual Return

The Company shall place an annual return filed with the Registrar of Companies for the financial year 2025-26 on its website: www.feplglobal.com once the same is filed with the Registrar of Companies.

Vigil Mechanism

The Company has adopted the Whistle Blower Policy of Thermax Limited, its Holding Company, which enables directors and employees to report genuine concerns in an ethical and transparent manner. The policy is also available on the website of the Company at www.feplglobal.com.

Acknowledgments

The Directors wish to place on record their appreciation for the support extended by the Company's customers, vendors, and bankers during the year and look forward to their continued support in the future as well. They also place on record their appreciation for the dedication and contributions made by all the employees for their commitment, hard work, and support.

FORM NO. MR-3
Secretarial Audit Report
For The Financial Year Ended 31st March 2026

[Pursuant to section 204 (1) of the Companies Act, 2013 and Rule No.9 of the Companies (Appointment and Remuneration of Managerial Personnel) Rules, 2014]

To,
The Members,
First Energy Private Limited,
Thermax House, 14, Mumbai Pune Road,
Wakdewadi, Pune - 411003.

We have conducted the Secretarial Audit of the compliance of applicable statutory provisions and the adherence to good corporate practices by **First Energy Private Limited** bearing CIN: U40200PN2008FTC139032, a subsidiary of public Company in terms of the provisions of section 2(71) of the Companies Act, 2013 (hereinafter called the "Company"). Secretarial Audit was conducted in a manner that provided us a reasonable basis for evaluating the corporate conducts/statutory compliances and expressing our opinion thereon.

Based on our verification of the Company's books, papers, minute books, forms and returns filed and other records maintained by the Company and also the information provided by the Company, its officers, agents and authorized representatives during the conduct of Secretarial Audit, we hereby report that in our opinion, the Company has, during the audit period covering the financial year ended on 31st March, 2026 complied with the statutory provisions listed hereunder and also that the Company has proper Board-processes and compliance-mechanism in place to the extent, in the manner and subject to the reporting made hereinafter:

We have examined the books, papers, minute books, forms and returns filed and other records maintained by the Company for the financial year ended on 31st March, 2026 (audit period) according to the provisions of:

(i) The Companies Act, 2013, as amended from time to time (the Act) and the rules made thereunder;

(ii) The Securities Contracts (Regulation) Act, 1956 ('SCRA') and the rules made thereunder to the extent applicable;

(iii) The Depositories Act, 1996 and the Regulations and Bye-laws framed thereunder to the extent of the securities held in dematerialized form;

(iv) Foreign Exchange Management Act, 1999 and the rules and regulations made thereunder to the extent of Foreign Direct Investment, External Commercial Borrowing and Overseas Direct Investment; (not applicable to the Company during the audit period)

(v) None of the Regulations and Guidelines prescribed under the Securities and Exchange Board of India Act, 1992 ('SEBI Act') are applicable to the Company;

(vi) The management has identified and confirmed the compliances of the following law as specifically applicable to the Company:

a) The Electricity Act, 2003

We have also examined compliance with the applicable clauses of the Secretarial Standards issued by 'The Institute of Company Secretaries of India'.

During the period under review, the Company has complied with the provisions of the Act, Rules, Regulations, Guidelines, Standards, etc. mentioned above.

We further report that

The Board of Directors of the Company is duly constituted with all Non-Executive Directors and a Chief Executive Officer. The changes in the composition of the Board of Directors that took place during the period under review were carried out in compliance with the provisions of the Act.

Adequate notice is given to all Directors to schedule the Board Meetings, agenda and detailed notes on agenda were sent at least seven days in advance, and in case of shorter notice, the meeting is convened with necessary quorum and a system exists for seeking and obtaining further information and clarifications on the agenda items before the meeting and for meaningful participation at the meeting.

All decisions at Board Meetings and decisions through circular resolutions are carried out with requisite majority, as recorded in the minutes of the meetings of the Board of Directors.

We further report that

There are adequate systems and processes in the Company commensurate with the size and operations of the Company to monitor and ensure compliance with applicable laws, rules, regulations and guidelines.

We further report that

During the audit period, there are no specific events/ actions having a major bearing on the Company's affairs in pursuance of the above referred laws, rules, regulations, guidelines, standards, etc. except following:

1. The Extra Ordinary General Meeting of the Company held on April 30, 2025, approved the Ordinary Resolution for increase in the Authorised Capital of the Company from INR 525,00,00,000/- to INR 925,00,00,000/-

2. Increase in the paid-up capital of the Company to INR. 646,31,63,650/- by allotment of 22,70,00,000 equity shares of INR. 10 each on following dates under Rights Issues approved by the Board of Directors:

Sr. No	Date of Board meeting/Circular resolutions for allotment of equity shares under Rights Issues	Number of shares allotted
1.	April 30, 2025	1,00,00,000
2.	July 23, 2025	10,20,00,000
3.	September 09, 2025	11,50,00,000

3. The following Companies ceased to be wholly owned subsidiaries in pursuance of share subscription agreements with various captive users:

   a) First Energy 8 Private Limited (FE 8) w.e.f June 21, 2025

   b) First Energy 11 Private Limited (FE 11) w.e.f October 28, 2025

4. The following Companies were incorporated as wholly owned subsidiaries:

   a) First Energy 12 Private Limited (FE 12) w.e.f May 05, 2025

   b) First Energy 14 Private Limited (FE 14) w.e.f May 24, 2025

   c) First Energy 15 Private Limited (FE 15) w.e.f December 16, 2025

5. The Company has sold its entire stake in Onix-Two Enersol Private Limited, its wholly owned subsidiary, w.e.f. January 03, 2026 due to non-fulfillment of certain closing conditions within the agreed and extended timelines, whereby its ceased to be a subsidiary.

6. The Company has, at its Extra Ordinary General Meeting dated January 28, 2026, approved the special resolution for increasing the existing borrowing from Rs. 500 Crores to Rs. 1010 Crores (Rupees One Thousand and Ten Crores only) over and above the aggregate of the paid-up share capital of the Company, free reserves and securities premium.

First Energy Private Limited

INDEPENDENT AUDITOR'S REPORT

To the Members of First Energy Private Ltd

Report on the Audit of the Standalone Financial Statements

Opinion

1. We have audited the accompanying standalone financial statements of First Energy Private Limited ("the Company"), which comprise the Standalone Balance Sheet as at March 31, 2026, and the Standalone Statement of Profit and Loss (including Other Comprehensive Income), the Standalone Statement of Changes in Equity and the Standalone Statement of Cash Flows for the year then ended, and notes to the standalone financial statements, including material accounting policy information and other explanatory information.

2. In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2026, and total comprehensive income (comprising of loss and other comprehensive income), changes in equity and its cash flows for the year then ended.

Basis for Opinion

3. We conducted our audit in accordance with the Standards on Auditing (SAs) specified under Section 143(10) of the Act. Our responsibilities under those Standards are further described in the "Auditor's Responsibilities for the Audit of the Standalone Financial Statements" section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Other Information

4. The Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Director's report but does not include the standalone financial statements and our auditor's report thereon.

   Our opinion on the standalone financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

   In connection with our audit of the standalone financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the standalone financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact.

   We have nothing to report in this regard.

Responsibilities of Management and those Charged with Governance for the Standalone Financial Statements

5. The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Act with respect to the preparation of these standalone financial statements that give a true and fair view of the financial position, financial performance, changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards specified under Section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

6. In preparing the standalone financial statements, Board of Directors is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless Board of Directors either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

7. Those Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Standalone Financial Statements

8. Our objectives are to obtain reasonable assurance about whether the standalone financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these standalone financial statements.

9. As part of an audit in accordance with SAs, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

   - Identify and assess the risks of material misstatement of the standalone financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

   - Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under Section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls with reference to standalone financial statements in place and the operating effectiveness of such controls.

   - Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.

   - Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the standalone financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.

   - Evaluate the overall presentation, structure and content of the standalone financial statements, including the disclosures, and whether the standalone financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

10. We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

11. We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Report on Other Legal and Regulatory Requirements

12. As required by the Companies (Auditor's Report) Order, 2020 ("the Order"), issued by the Central Government of India in terms of sub-section (11) of Section 143 of the Act, we give in the Annexure B a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.

13. As required by Section 143(3) of the Act, we report that:

    (a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.

    (b) In our opinion, proper books of account as required by law relating to preparation of the aforesaid standalone financial statements have been kept by the Company so far as it appears from our examination of those books, except for the matters stated in paragraph 13(h)(vi) below on reporting under Rule 11(g) of the Companies (Audit and Auditors) Rules, 2014 (as amended).

    (c) The Standalone Balance Sheet, the Standalone Statement of Profit and Loss (including other comprehensive income), the Standalone Statement of Changes in Equity and the Standalone Statement of Cash Flows dealt with by this Report are in agreement with the books of account.

    (d) In our opinion, the aforesaid standalone financial statements comply with the Indian Accounting Standards specified under Section 133 of the Act.

    (e) On the basis of the written representations received from the directors as on March 31, 2026, taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2026, from being appointed as a director in terms of Section 164(2) of the Act.

    (f) With respect to the maintenance of accounts and other matters connected therewith, reference is made to our remarks in paragraph 13(b) above and paragraph 13(h)(vi) below.

    (g) With respect to the adequacy of the internal financial controls with reference to standalone financial statements of the Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure A".

    (h) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014 (as amended), in our opinion and to the best of our information and according to the explanations given to us:

        i. The Company does not have any pending litigations which would impact its financial position;

        ii. The Company was not required to recognise a provision as at March 31, 2026, under the applicable law or Indian Accounting Standards, as it does not have any material foreseeable losses on long-term contract. The Company did not have any long-term derivative contracts as at March 31, 2026.

        iii. There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Company during the year ended March 31, 2026.

        iv. (a) The management has represented that, to the best of its knowledge and belief, as disclosed in Note 38 to the standalone financial statements, no funds have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Company to or in any other person(s) or entity(ies), including foreign entities ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, whether directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Company ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries;

            (b) The management has represented that, to the best of its knowledge and belief, other than as disclosed in the Note 30 (b) and 38 to the standalone financial statements, no funds have been received by the Company from any person(s) or entity(ies), including foreign entities ("Funding Parties"), with the understanding, whether recorded in writing or otherwise, that the Company shall, whether directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries; and

            (c) Based on such audit procedures that we considered reasonable and appropriate in the circumstances, nothing has come to our notice that has caused us to believe that the representations under sub-clause (a) and (b) contain any material misstatement.

        v. The Company has not declared or paid any dividend during the year.

        vi. Based on our examination, which included test checks, the Company has used an accounting software for maintaining its books of account that has a feature of recording audit trail (edit log) facility and that has operated throughout the year for all relevant transactions recorded in the software except that the audit trail has not been enabled at the database level to log any direct data changes. During the course of performing our procedures, other than the aforesaid instance of audit trail not maintained where the question of our commenting does not arise, we did not notice any instance of audit trail feature being tampered with. Further, the audit trail, to the extent maintained in the prior year, has been preserved by the Company as per the statutory requirements for record retention.

14. The Company has not paid any remuneration to its directors during the year. Accordingly, reporting under Section 197(16) of the Act is not applicable to the Company.

First Energy Private Limited

Annexure A to Independent Auditor's Report

Referred to in paragraph 13(g) of the Independent Auditor's Report of even date to the members of First Energy Private Limited on the standalone financial statements as of and for the year ended March 31, 2026

Report on the Internal Financial Controls with reference to Standalone Financial Statements under clause (i) of sub-section 3 of Section 143 of the Act

1. We have audited the internal financial controls with reference to standalone financial statements of First Energy Private Limited ("the Company") as of March 31, 2026, in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

2. The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting ("the Guidance Note") issued by the Institute of Chartered Accountants of India ("ICAI"). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditor's Responsibility

3. Our responsibility is to express an opinion on the Company's internal financial controls with reference to standalone financial statements based on our audit. We conducted our audit in accordance with the Guidance Note and the Standards on Auditing specified under Section 143(10) of the Act to the extent applicable to an audit of internal financial controls, both applicable to an audit of internal financial controls and both issued by the ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to standalone financial statements was established and maintained and if such controls operated effectively in all material respects.

4. Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system with reference to standalone financial statements and their operating effectiveness. Our audit of internal financial controls with reference to standalone financial statements included obtaining an understanding of internal financial controls with reference to standalone financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the standalone financial statements, whether due to fraud or error.

5. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system with reference to standalone financial statements.

Meaning of Internal Financial Controls with reference to financial statements

6. A company's internal financial controls with reference to standalone financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of standalone financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial controls with reference to standalone financial statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of standalone financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the standalone financial statements.

Inherent Limitations of Internal Financial Controls with reference to Standalone Financial Statements

7. Because of the inherent limitations of internal financial controls with reference to standalone financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to standalone financial statements to future periods are subject to the risk that the internal financial controls with reference to standalone financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

8. In our opinion, the Company has, in all material respects, adequate internal financial controls system with reference to standalone financial statements and such internal financial controls with reference to standalone financial statements were operating effectively as at March 31, 2026, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note issued by ICAI.

Annexure B to Independent Auditors' Report

Referred to in paragraph 12 of the Independent Auditor's Report of even date to the members of First Energy Private Limited on the standalone financial statements for the year ended March 31, 2026

In terms of the information and explanations sought by us and furnished by the Company, and the books of account and records examined by us during the course of our audit, and to the best of our knowledge and belief, we report that:

i. (a) (A) The Company is maintaining proper records showing full particulars, including quantitative details and situation, of Property, Plant and Equipment.

(B) The Company is maintaining proper records showing full particulars of Intangible Assets.

(b) The Property, Plant and Equipment of the Company have been physically verified by the Management during the year and no material discrepancies have been noticed on such verification. In our opinion, the frequency of verification is reasonable.

(c) The title deeds of all the immovable properties (other than properties where the Company is the lessee and the lease agreements are duly executed in favour of the lessee), as disclosed in Note 3(c) on Investment Property to the standalone financial statements, are held in the name of the Company.

(d) The Company has not revalued its Property, Plant and Equipment (including Right of Use assets) or Intangible Assets or both during the year. Consequently, the question of our commenting on whether the revaluation is based on the valuation by a Registered Valuer, or specifying the amount of change, if the change is 10% or more in the aggregate of the net carrying value of each class of Property, Plant and Equipment (including Right of Use assets) or Intangible Assets does not arise.

(e) No proceedings have been initiated on or are pending against the Company for holding benami property under the Prohibition of Benami Property Transactions Act, 1988 (as amended in 2016) (formerly the Benami Transactions (Prohibition) Act, 1988 (45 of 1988)) and Rules made thereunder, and therefore the question of our commenting on whether the Company has appropriately disclosed the details in the financial statements, does not arise.

ii. (a) The Company is in the business of rendering services in relation to Engineering, Procurement and Construction of solar power plant and related activities and, consequently it does not hold any inventory. Accordingly, reporting under clause 3(ii)(a) of the Order is not applicable to the Company.

(b) During the year, the Company has been sanctioned working capital limits in excess of Rs. 5 crores, in aggregate, from banks on the basis of security of current assets. The Company has filed quarterly returns or statements with such banks, which are in agreement with the unaudited books of account. Further, the Company has not filed the returns for the quarter ended March 31, 2026, and, accordingly, the question of our commenting under clause 3(ii)(b) to that extent, does not arise.

iii. (a) The Company has made investments in nine mutual funds and five companies (also refer Note 5(a) and 5(b) to the standalone financial statements), granted unsecured loans to eleven companies and one employee (also refer Note 11(a), 11(b) and 30 to the standalone financial statements) and provided security to five companies. The aggregate amount during the year, and balance outstanding at the balance sheet date with respect to such loans and security to subsidiaries and loan to one employee are as per the table given below:

(₹ Lakhs)

	Security	Loans
Aggregate amount granted/ provided during the year		
- Subsidiaries	6,327.20	60,266.07
- Employee	-	0.50
Balance outstanding as at balance sheet date in respect of the above cases		
- Subsidiaries	6,327.20	38,571.18
- Employee	-	0.50

(Also, refer Note 11(a), 11(b) and 30 to the standalone financial statements)

(b) In respect of the aforesaid investments, securities and loans, the terms and conditions under which such loans were granted, investments were made and security provided are not prejudicial to the Company's interest.

(c) In respect of the loans, the schedule of repayment of principal and payment of interest has been stipulated, and the parties are repaying the principal amounts, as stipulated, and are also regular in payment of interest as applicable.

(d) In respect of the loans, there is no amount which is overdue for more than ninety days.

(e) Following loans were granted to same parties, which has fallen due during the year and were renewed / extended.

Name of the parties	Aggregate amount of loans granted during the year (In Rs. lakhs)	Aggregate overdue amount settled by renewal or extension or by fresh loans granted to same parties (In Rs. lakhs)	Percentage of the aggregate to the total loans or adv in nature of loans granted during the year
First Energy TN1 Private Limited	750.16	3,702.00	493.49%
First Energy 2 Private Limited	-	135.00	Not applicable
Jalansar Wind Energy Private Limited	-	20.00	Not applicable
Kanakal Wind Energy Private Limited	-	8.00	Not applicable
First Energy 3 Private Limited	173.05	1,096.16	633.44%
First Energy 4 Private Limited	180.00	1,168.00	648.89%
First Energy 5 Private Limited	3,535.00	5,106.85	144.47%
First Energy 6 Private Limited	668.00	1,467.22	219.64%
First Energy 8 Private Limited	23,663.95	17,284.75	73.04%
First Energy Nine Private Limited	93.00	967.00	1039.78%
First Energy 10 Private Limited	3,757.92	19.00	0.51%

(f) The loans granted during the year, including to related parties had stipulated the scheduled repayment of principal and payment of interest and the same were not repayable on demand.

iv. In our opinion, the Company has complied with the provisions of Sections 185 and 186 of the Companies Act, 2013 in respect of the loans and investments made and security provided by it.

v. The Company has not accepted any deposits or amounts which are deemed to be deposits referred in Sections 73, 74, 75 and 76 of the Act and the Rules framed there under. Accordingly, the reporting under

clause 3(v) of the Order is not applicable to the Company.

vi. The Central Government of India has not specified the maintenance of cost records under sub-section (1) of Section 148 of the Act for any of the products and services of the Company. Accordingly, reporting under clause 3(vi) of the Order is not applicable to the Company.

vii. (a) In our opinion, the Company is regular in depositing the undisputed statutory dues, including goods and services tax, provident fund, income tax and other statutory dues, as applicable, with the appropriate authorities.

(b) The particulars of statutory dues referred to in sub-clause (a) as at March 31, 2026 which have not been deposited on account of a dispute, are as follows:

Name of the statute	Nature of dues	Amount (In Rs. lakhs)	Period to which the amount relates	Forum where the dispute is pending
Income Tax Act, 1961	Income Tax (including interest and penalty if applicable)	1,134.71	FY 21-22	Commissioner of Income Tax (Appeals)

viii. There are no transactions previously unrecorded in the books of account that have been surrendered or disclosed as income during the year in the tax assessments under the Income-tax Act, 1961.

ix. (a) The Company has not defaulted in repayment of loans or other borrowings or in the payment of interest thereon to any lender during the year.

(b) On the basis of our audit procedures, we report that the Company has not been declared Wilful Defaulter by any bank or financial institution or government or any government authority.

(c) In our opinion, the term loans have been applied for the purposes for which they were obtained.

(Also, refer Note 15(a) and 15(b) to the standalone financial statements).

(d) According to the information and explanations given to us, and the procedures performed by us, and on an overall examination of the standalone financial statements of the Company, we report that no funds raised on short-term basis have been utilised for long-term purposes by the Company.

(e) On an overall examination of the standalone financial statements of the Company, we report that the Company has taken funds from the following entities and persons on account of or to meet the obligations of its subsidiaries as per details below. Further, the Company did not have any joint ventures or associate companies during the year:

Nature of fund taken	Name of lender	Amount involved (₹ Lakhs)	Name of the subsidiary	Nature of transaction for which fund utilized
Loan	Thermax Limited	3,183.48	First Energy TN1 Private Limited	For working capital and capital expenditure
Loan	Thermax Limited	170.00	First Energy 3 Private Limited	For working capital and capital expenditure
Loan	Thermax Limited	180.00	First Energy 4 Private Limited	For working capital and capital expenditure
Loan	Thermax Limited	5,256.85	First Energy 5 Private Limited	For working capital and capital expenditure
Loan	Thermax Limited	668.00	First Energy 6 Private Limited	For working capital and capital expenditure
Loan	Thermax Limited	4,180.00	First Energy 7 Private Limited	For working capital and capital expenditure
Loan	Thermax Limited	22,189.00	First Energy 8 Private Limited	For working capital and capital expenditure
Loan	Thermax Limited	25.00	First Energy 9 Private Limited	For working capital and capital expenditure
Loan	Thermax Limited	1,940.00	First Energy 10 Private Limited	For working capital and capital expenditure
Loan	Thermax Limited	22,119.00	First Energy 11 Private Limited	For working capital and capital expenditure
Equity	Thermax Limited	12,500.00	First Energy 10 Private Limited	For capital expenditure
Equity	Thermax Limited	8,399.00	First Energy 11 Private Limited	For capital expenditure
Equity	Thermax Limited	800.00	First Energy 12 Private Limited	For capital expenditure
Loan	MUFG Bank, Ltd.	10,867.00	First Energy 8 Private Limited	For working capital and capital expenditure
Loan	MUFG Bank, Ltd.	1,790.92	First Energy 10 Private Limited	For working capital and capital expenditure
Loan	MUFG Bank, Ltd.	284.99	First Energy 11 Private Limited	For working capital and capital expenditure

(f) According to the information and explanations given to us and procedures performed by us, we report that the Company has not raised loans during the year on the pledge of securities held in its subsidiaries. Further, the Company did not have any joint ventures or associate companies during the year.

x. (a) The Company has not raised any money by way of initial public offer or further public offer (including debt instruments) during the year. Accordingly, the reporting under clause 3(x)(a) of the Order is not applicable to the Company.

(b) The Company has not made any preferential allotment or private placement of shares or fully or partially or optionally convertible debentures during the year. Accordingly, the reporting under clause 3(x)(b) of the Order is not applicable to the Company.

xi. (a) During the course of our examination of the books and records of the Company, carried out in accordance with the generally accepted auditing practices in India, we have neither come across any instance of material fraud by the Company or on the Company, noticed or reported during the year, nor have we been informed of any such case by the Management.

(b) During the course of our examination of the books and records of the Company carried out in accordance with the generally accepted auditing practices in India, a report under Section 143(12) of the Act, in Form ADT-4, as prescribed under rule 13 of Companies (Audit and Auditors) Rules, 2014 was not required to be filed by us, as statutory auditors, with the Central Government. Further, no such report has been filed by any other auditor appointed by the Company under the Act. Accordingly, the reporting under clause 3(xi)(b) of the Order is not applicable to the Company.

(c) During the course of our examination of the books and records of the Company carried out in accordance with the generally accepted auditing practices in India, the Company has received whistle-blower complaint during the year, which have been considered by us for any bearing on our audit and reporting under this clause. As explained by the management, there were certain complaints in respect of which investigations are ongoing as on the date of our report and our consideration of the complaints having any bearing on our audit is based on the information furnished to us by the management.

xii. As the Company is not a Nidhi Company and the Nidhi Rules, 2014 are not applicable to it, the reporting under clause 3(xii) of the Order is not applicable to the Company.

xiii. The Company has entered into transactions with related parties in compliance with the provisions of Section 188 of the Act. The details of related party transactions have been disclosed in the standalone financial statements as required under Indian Accounting Standard 24 "Related Party Disclosures" specified under Section 133 of the Act. Further, the Company is not required to constitute an Audit Committee under Section 177 of the Act and, accordingly, to this extent, the reporting under clause 3(xiii) of the Order is not applicable to the Company.

xiv. (a) The internal audit of the Company is covered under the group internal audit pursuant to which an internal audit is carried out every year. In our opinion, the Company's internal audit system is commensurate with the size and nature of its business.

(b) We were unable to obtain some of the Internal Audit Reports for the period January 01, 2026 to March 31, 2026 of the Company and, accordingly, the Internal Audit Reports have been considered by us for the purpose of our audit only to the extent those were made available to us.

xv. In our opinion, the Company has not entered into any non-cash transactions with its directors or persons connected with the director(s). Accordingly, the reporting on compliance with the provisions of Section 192 of the Act under clause 3(xv) of the Order is not applicable to the Company.

xvi. (a) The Company is not required to be registered under Section 45-IA of the Reserve Bank of India Act, 1934. Accordingly, the reporting under clause 3(xvi)(a) of the Order is not applicable to the Company.

(b) The Company has not conducted non-banking financial/ housing finance activities during the year. Accordingly, the reporting under clause 3(xvi)(b) of the Order is not applicable to the Company.

(c) The Company is not a Core Investment Company as defined in the regulations made by the Reserve Bank of India. Accordingly, the additional reporting under clause 3(xvi)(c) of the Order is not applicable to the Company.

(d) In our opinion, the Group as defined in the Reserve Bank of India (Core Investment Companies) Directions, 2025 has one CICs as part of the Group.

xvii. The Company has incurred cash losses of Rs. 981.94 Lakhs in the financial year and had not incurred cash losses in the immediately preceding financial year.

xviii. There has been no resignation of the statutory auditors during the year and, accordingly, the reporting under clause 3(xviii) of the Order is not applicable to the Company.

xix. On the basis of the financial ratios, ageing and expected dates of realisation of financial assets and payment of financial liabilities, other information accompanying the standalone financial statements, our knowledge of the Board of Directors and management plans and based on our examination of the evidence supporting the assumptions, nothing has come to our attention, which causes us to believe that any material uncertainty exists as on the date of the audit report that the Company is not capable of meeting its liabilities existing at the date of balance sheet as and when they fall due within a period of one year from the balance sheet date. We, however, state that this is not an assurance as to the future viability of the Company. We further state that our reporting is based on the facts up to the date of the audit report and we neither give any guarantee nor any assurance that all liabilities falling due within a period of one year from the balance sheet date will get discharged by the Company as and when they fall due.

xx. The provisions relating to Corporate Social Responsibility under Section 135 of the Act are not applicable to the Company. Accordingly, reporting under clause 3(xx) of the Order is not applicable to the Company.

xxi. The reporting under clause 3(xxi) of the Order is not applicable in respect of audit of Standalone Financial Statements. Accordingly, no comment in respect of the said clause has been included in this report.

Notes to the standalone financial statements for the year ended March 31, 2026

(All amounts are in Rupees Lakhs, except per share data and unless stated otherwise)

1. Corporate information

First Energy Private Limited ("the Company") is primarily involved in Engineering, Procurement and Construction of solar power plant and other ancillary activities.

The Company is a private limited company and was incorporated under the provisions of the Companies Act, 1956 and is presently governed by the Companies Act, 2013 ("the Act") and domiciled in India. The address of its registered office is 14, Thermax House, Old Mumbai-Pune Highway, Wakdewadi Pune - 411003, India. The Board of Directors have authorized to issue these standalone financial statements on May 4, 2026 The CIN of the Company is U40200PN2008FTC139032.

2 MATERIAL ACCOUNTING POLICIES

(a) Basis of preparation

These standalone financial statements have been prepared in accordance with the Indian Accounting Standards (Ind AS), notified under the Companies (Indian Accounting Standards) Rules, 2015 (as amended from time to time) and presentation requirements of Division II of Schedule III to the Companies Act, 2013 (the Act) (Ind AS compliant Sch III) as applicable.

The preparation of the standalone financial statements requires the use of certain critical accounting judgements, estimates and assumptions. It also requires the management to exercise judgment in the process of applying the Company's accounting policies. The areas involving a higher degree of judgment or complexity, or areas where assumptions and estimates are critical to the standalone financial statements are disclosed separately in note 2.2.

(b) Historical cost convention

The financial statements have been prepared on the accrual and going concern basis under historical cost convention except certain financial assets and liabilities is measured at fair value.

The accounting policies and related notes further describes the specific measurements applied for each of the assets and liabilities.

(c) Changes in accounting policies and disclosures

New and amended standards adopted by the company

The Ministry of Corporate Affairs vide notification dated 7 May 2025 and 13 August 2025 notified the Companies (Indian Accounting Standards) Amendment Rules, 2025 and Companies (Indian Accounting Standards) Second Amendment Rules, 2025, respectively, which amended certain accounting standards (see below), and are effective for annual reporting periods beginning on or after 1 April 2025:

(a) Classification of Liabilities as Current or Non-current and Non-current Liabilities with Covenants – Amendments to Ind AS 1

As a result of the adoption of the amendments to Ind AS 1, the company changed its accounting policy for the classification of borrowings:

"Borrowings are classified as current liabilities unless, at the end of the reporting period, the company has a right to defer settlement of the liability for at least 12 months after the reporting period.

Covenants that the company is required to comply with, on or before the end of the reporting period, are considered in classifying loan arrangements with covenants as current or non-current. Covenants that the company is required to comply with after the reporting period do not affect the classification."

This new policy did not result in a change in the classification of the company's borrowings. The company did not make retrospective adjustments as a result of adopting the amendments to Ind AS 1.

(b) Supplier Finance Arrangements – Amendments to Ind AS 7 and Ind AS 107

As a result of the adoption of the amendments to Ind AS 7 and Ind AS 107, the Company does not require any new disclosures as the Company does not have supplier finance arrangements.

(c) International Tax Reform – Pillar Two Model Rules – Amendments to Ind AS 12

The company is not within the scope of the OECD Pillar Two Model Rules, as Pillar Two legislation has not yet been enacted in any of the jurisdictions in which the company operates.

(d) Lack of Exchangeability – Amendments to Ind AS 21

The amended Ind AS 21 have added requirements to help entities to determine whether a currency is exchangeable into another currency, and the spot exchange rate to use where it is not.

These amendments did not have any material impact on the amounts recognised in prior periods and are not expected to significantly affect the current or future periods.

(d) New standards or amendments not yet adopted

Classification of Liabilities as Current or Non-current and Non-current Liabilities with Covenants –

Amendments to Ind AS 1 - This amendment also includes specific provisions that will take effect for reporting periods beginning on or after 1 April 2026, as outlined below.

Under the existing Ind AS 1, where there is a breach of a material provision of a long-term loan arrangement on or before the end of the reporting period with the effect that the liability becomes payable on demand on the reporting date, the entity does not classify the liability as current, if the lender agreed, after the reporting period and before the approval of the financial statements for issue, not to demand payment as a consequence of the breach.

However, the amended requirements stipulate that entities will no longer be permitted to consider lender waivers that are granted after the reporting date but before the financial statements are approved for the purpose of classification of loans. This amendment is required to be applied retrospectively in accordance with Ind AS 8. The company does not expect this amendment to have an impact on its operations or financial statements.

2.1 Summary of material accounting policies, critical accounting estimates and judgements

a Current and non-current classification

The Company presents assets and liabilities in the Standalone Balance Sheet based on current/non-current classification.

An asset is treated as current when it is:

- Expected to be realized or intended to be sold or consumed in normal operating cycle;
- Held primarily for the purpose of trading;
- Expected to be realized within twelve months after the reporting period; or
- Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as non-current.

A liability is current when:

- It is expected to be settled in normal operating cycle;
- It is held primarily for the purpose of trading;
- It is due to be settled within twelve months after the reporting period; or
- There is no unconditional right to defer the settlement of the

liability for at least twelve months after the reporting period.

The terms of the liability that could, at the option of the counterparty, result in its settlement by the issue of equity instruments do not affect its classification. The Company classifies all other liabilities as non-current.

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

The operating cycle is the time between the acquisition of assets for processing and their realisation in cash and cash equivalents. The Company has identified twelve months as its operating cycle.

b. Financial instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

Financial assets

All financial assets (excluding trade receivables) are recognized initially at fair value plus, in the case of financial assets not recorded at fair value through profit and loss (FVTPL), transactions costs that are attributable to the acquisition of the financial asset. For all subsequent measurements financial assets are classified in following categories by the company:

(i) Debt instruments at amortized cost

A debt instrument' is measured at the amortized cost if both the following conditions are met:

(a) The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows; and

(b) Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

After initial measurement, such financial assets are subsequently measured at amortized cost using the effective interest rate (EIR) method. Amortized cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of EIR. The EIR amortization is included in income in the Standalone Statement of Profit and Loss. The losses arising from impairment are recognized in the Standalone Statement of Profit and Loss.

(ii) Equity investments

All equity investments in scope of Ind AS 109 are measured at fair value. Equity instruments which are held for trading are classified as at FVTPL. For all other equity instruments, the Company may make an irrevocable election to present in other comprehensive income subsequent changes in the fair value. The Company makes such election on acquisition of an instrument-by-instrument basis. The classification is made on initial recognition and is irrevocable.

Derecognition

A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is primarily derecognized when:

- The rights to receive cash flows from the asset have expired, or
- The Company has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a "pass-through" arrangement; and either (a) The Company has transferred substantially all the risks and rewards of the asset, or (b) The Company has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

Impairment of financial assets

For trade receivables, the Company follows 'simplified approach' for recognition of impairment loss and always measures the loss allowance at an amount equal to lifetime expected credit losses to measure the expected credit losses.

In case of other financial assets, the Company applies general approach for recognition of impairment losses wherein the Company uses judgement in considering the probability of default upon initial recognition and whether there has been a significant increase in credit risk on an ongoing basis throughout each reporting period.

Financial liabilities

All financial liabilities are recognized initially at fair value and in the case of borrowings, net of directly attributable transaction costs. The Company's financial liabilities include trade and other payables and borrowings.

Subsequent measurement of financial liabilities depends on their classification as FVTPL or at amortized cost. A financial liability is classified as at FVTPL if it is classified as held for trading, or it is a derivative or it is designated as such on initial recognition. Other financial liabilities are subsequently measured at amortised cost using the effective interest method. There are currently no financial liabilities classified as FVTPL.

Gains and losses are recognized in Standalone Statement of Profit and Loss when the liabilities are derecognized as well as through effective interest method. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or cost that are integral part on effective interest rate (EIR). The EIR amortization is included as finance cost in the Standalone Statement of Profit and Loss.

Derecognition

A financial liability is derecognized when the obligation under the liability is discharged or cancelled or expires or when an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognized in the Standalone Statement of Profit and Loss.

Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the Standalone Balance Sheet if there is a currently enforceable legal right to offset the recognized amounts and there is an intention to settle on a net basis, to realize the assets and settle the liabilities simultaneously.

c Foreign currencies translation

Accounting policy

The Company's standalone financial statements are prepared in INR, which is also the functional currency of the Company.

Transactions and balances

Transactions in foreign currencies are initially recorded at the functional currency spot rates at the date the transaction first qualifies for recognition. Monetary assets and liabilities denominated in foreign currencies are translated at the functional currency spot rates of exchange at the reporting date. Exchange differences arising on settlement or translation of monetary items are recognized in the Standalone Statement of Profit and Loss.

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates at the dates of the initial transactions.

Notes to the standalone financial statements for the year ended March 31, 2026
(All amounts in Rupees lakh, unless otherwise stated)

d Fair value measurement

All assets and liabilities for which fair value is measured or disclosed in the standalone financial statements are categorized within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1 - Quoted (unadjusted) market prices in active markets for identical assets or liabilities
- Level 2 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable
- Level 3 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

For the purpose of fair value disclosures, the company has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

2.2 CRITICAL ACCOUNTING ESTIMATES AND JUDGEMENTS

In the application of the Company's accounting policies, the Management is required to make judgements, estimates and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods. Detailed information about each of these estimates and judgements is included in relevant notes together with information about the basis of calculation for each affected line item in the standalone financial statements.

The areas involving critical estimates or judgements are:

a. Estimations used for fair value measurements (Refer note 33)

b. Estimations used for impairment of financial assets and liabilities (Refer note 9)

c. Estimates and assumptions related to useful lives and impairment of Property, Plant and Equipment (PPE) (Refer note 3(a))

d. Estimates and assumptions for deferred taxes (Refer note 8 (a))

e. Estimates and assumptions related to Provisions and employee benefit expenses (Refer note 16)

f. Estimates, judgments and assumptions used for revenue from operations (Refer note 20)

g. Estimates and judgements used for impairment of non-current assets (Refer note 5(a))

3(a). Property, plant and equipment

Accounting policy

Property, Plant and Equipment (PPE) are stated at cost of acquisition or construction net of accumulated depreciation and impairment loss, if any. All significant costs relating to the acquisition and installation of PPE are capitalized. Subsequent costs/replacement costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. All other repairs and maintenance are charged to the Standalone Statement of Profit and Loss during the financial year in which they are incurred. The carrying amount of the replaced part is derecognised. Gains or losses arising from derecognition of PPE are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognized in the Standalone Statement of Profit and Loss when the asset is derecognized.The carrying amount of an item of PPE shall be derecognised on disposal or when no future benefits are expected from its use or disposal.

The Company identifies and determines cost of each component/ part of the asset separately, if the component/part has a cost which is significant to the total cost of the asset and has useful life that is materially different from that of the remaining asset.

Depreciation on PPE is calculated on a straight line basis using the rates arrived at, based on the useful lives estimated by the management. The identified components are depreciated separately over their useful lives; the remaining components are depreciated over the life of the principal asset.

The management has estimated the useful lives of certain classes of assets in order to reflect the actual usage of the assets. The useful lives have been determined based on technical evaluation done by the management's expert which are higher than those specified by Schedule II to the Companies Act, 2013, in order to reflect the actual usage of the assets. The residual values are not more than 5% of the original cost of the asset. The following useful lives are estimated by the management:

Asset category	Company's estimate of useful life (years)	Useful life as prescribed under Schedule II (years)
Plant and equipment	10	10 to 15
Office equipment	5	5
Furniture and fixtures	10	10
Computers and data processing units	3 to 6	3 to 6

The assets residual value, useful lives and method of depreciation of PPE are reviewed on a regular basis and changes in estimates, when relevant, are accounted for on a prospective basis.

Estimates and Assumptions

The Company determines, based on technical assessment, the estimated useful lives of its property, plant and equipment for calculating depreciation. This estimate is determined after considering the expected usage of the asset or physical wear and tear. Management reviews the residual value and useful lives annually and future depreciation and amortisation charge would be adjusted where the management believes the useful lives differ from previous estimates.

Impairment of assets

The company assesses, at each reporting date, whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the company estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's or Cash Generating Unit's (CGU) fair value less costs of disposal and its value in use. Recoverable amount is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or group of assets. When the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount. Impairment losses are recognized in the Standalone Statement of profit or loss.

For assets, an assessment is made at each reporting date to determine whether there is an indication that previously recognized impairment losses no longer exist or have decreased. If such indication exists, the company estimates the asset's or CGU's recoverable amount. A previously recognized impairment loss is reversed only if there has been a change in the assumptions used to determine the asset's recoverable amount since the last impairment loss was recognized. The reversal is limited so that the carrying amount of the asset does not exceed its recoverable amount, nor exceed the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognized for the asset in prior years. Such reversal is recognized in the Standalone Statement of profit and loss unless the asset is carried at a revalued amount, in which case, the reversal is treated as a revaluation increase, if applicable.

Estimates and Assumptions

Impairment exists when the carrying value of an asset or cash generating unit (CGU) exceeds its recoverable amount, which is the higher of its fair value less costs of disposal and its value in use. The fair value less costs of disposal calculation is based on available data from binding sales transactions, conducted at arm's length, for similar assets or observable market prices less incremental costs for disposing of the asset. The value in use calculation is based on a Discounted Cash Flow (DCF) model.

Note- See note 28 for disclosure of contractual commitments for the acquisition of property, plant and equipment.

3 (b) Right-of-use assets

Accounting policy

The Company recognises right-of-use assets ("ROU") at cost at the commencement date of the lease. The cost of ROU includes the amount of lease liabilities recognised, initial direct costs incurred, lease payments made at or before the commencement date less any lease incentives received and estimated cost to dismantle. After the commencement date, ROU assets are measured at cost, less any accumulated depreciation and impairment loss (if any) and adjusted for any remeasurement of lease liabilities. Right of use assets are evaluated for recoverability whenever events or changes in circumstances indicate that their carrying amounts may not be recoverable. For the purpose of impairment testing, the recoverable amount (i.e. the higher of the fair value less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the Cash Generating Unit (CGU) to which the asset belongs. Right of use assets are depreciated on a straight-line basis over the shorter of the lease term and the estimated remaining useful life of the assets, as follows:

Building - 1.5 years (March 31, 2025- 5 years)

Notes to the standalone financial statements for the year ended March 31, 2026
(All amounts in Rupees lakh, unless otherwise stated)

*Includes initial direct costs incurred by the lessee amounting to Rs. 22.71 lakhs in current year. (Previous Year- Nil)

The Company has taken building premise on lease which has been accounted in accordance with Ind AS 116-Leases under right of use assets. Refer note 29 for further disclosure on leases.

3(c). Investment property

Investment properties, principally lands, are held for long-term rental yields and are not occupied by the company. They are carried at cost. Investment property is measured initially at its cost, including related transaction costs and where applicable borrowing costs. Subsequent expenditure is capitalised to the asset's carrying amount only when it is probable that future economic benefits associated with the expenditure will flow to the company and the cost of the item can be measured reliably. All other repairs and maintenance costs are expensed when incurred.

Particulars	Land
Gross carrying amount	
Opening gross carrying amount	-
Additions	194.71
Closing gross carrying amount as at March 31, 2026	**194.71**
Accumulated depreciation	
Opening accumulated depreciation	-
Depreciation charge	-
Closing accumulated depreciation	**-**
Net carrying amount as on March 31, 2026	**194.71**

There was no investment property as on March 31, 2025.

(i) Amounts recognised in standalone statement of profit and loss for investment properties

Particulars	As at March 31, 2026	As at March 31, 2025
Rental income from operating leases	6.39	-
Direct operating expenses from property that generated rental income	-	-
Direct operating expenses from property that did not generate rental income	-	-
Profit from investment properties	6.39	-

(ii) Contractual obligations

There are no contractual obligations to purchase, construct or develop investment property or for its repairs, maintenance or enhancements.

(iii) Leasing arrangements

The investment properties are leased to group companies under operating leases with rentals payable monthly. Lease income from operating leases where the company is a lessor is recognised in income on a straight-line basis over the lease term.

Although the company is exposed to changes in the residual value at the end of the current leases, the company typically enters into new operating leases and therefore will not immediately realise any reduction in residual value at the end of these leases.

Minimum lease payments receivable on leases of investment properties are as follows:

Particulars	As at March 31, 2026	As at March 31, 2025
Within 1 year	10.25	-
Between 1 and 2 years	10.25	-

(iv) Fair value

Particulars	As at March 31, 2026	As at March 31, 2025
Investment Properties	194.71	-

Estimation of fair value

The fair value of the land has been determined with reference to its stamp duty value. As the land was acquired during the year, the difference between its fair value and stamp duty value is not expected to be significant.

(v) Presenting cash flows

The company classifies cash outflows to acquire or construct investment property as investing and rental inflows as operating cash flows.

4 Intangible Assets

Accounting policy

Intangible assets acquired separately are measured on initial recognition at cost. Following initial recognition, intangible assets are carried at cost less any accumulated amortization and accumulated impairment losses.

Intangible assets with finite lives are amortized over the useful economic life and assessed for impairment whenever there is an indication that the intangible asset may be impaired. The amortization period and the amortization method for an intangible asset with a finite useful life are reviewed at least at the end of each reporting period. Changes in the expected useful life or the expected pattern of consumption of future economic benefits embodied in the asset are considered to modify the amortization period or method, as appropriate, and are treated as changes in accounting estimates. The amortization expense on intangible assets with finite lives is recognized in the Standalone Statement of Profit and Loss unless such expenditure forms part of carrying value of another asset.

Gains or losses arising from derecognition of an intangible asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognized in the Standalone Statement of Profit and Loss when the asset is derecognized.

The Company amortises intangible assets over the following periods as estimated by the management:

Assets category	Life (years)
Computer software	3 to 6

First Energy Private Limited

Notes to the standalone financial statements for the year ended March 31, 2026
(All amounts in Rupees lakh, unless otherwise stated)

5(a). Non-current investments

Accounting policy

Impairment

Equity investment in subsidiaries are carried at cost less impairment losses in the Standalone Balance Sheet. Determining whether non-current assets are impaired requires an estimation of the value in use of the relevant cash generating units. The value in use calculation is based on a Discounted Cash Flow model over the estimated useful life of the property, plant and equipment held by each subsidiary. Further, the cash flow projections are based on estimates and assumptions relating to expected demand, tariff rates for electricity, discount rate and electricity market scenario, based on past trends and the current and likely future state of the industry etc. which are considered reasonable by the Management. Any reasonable possible change in the underlying assumptions would not lead to a material change to the amount of impairment.

Estimates and Assumptions

Impairment exists when the carrying value of an asset or cash generating unit (CGU) exceeds its recoverable amount, which is the higher of its fair value less costs of disposal and its value in use. The fair value less costs of disposal calculation is based on available data from binding sales transactions, conducted at arm's length, for similar assets or observable market prices less incremental costs for disposing of the asset. The value in use calculation is based on a Discounted Cash Flow (DCF) model. The cash flows are derived from the budget over the useful life of assets as approved by the Management and do not include restructuring activities that the Company is not yet committed to or significant future investments that will enhance the asset's performance of the CGU being tested. The recoverable amount is sensitive to the discount rate used for the DCF model as well as the expected future cash-inflows. The estimates involved includes long term debt cost, cost of equity and long-term debt equity ratio.

	Aggregate amount of impairment in the value of investments				(1,760.11)	(180.00)

Notes to the standalone financial statements for the year ended March 31, 2026
(All amounts in Rupees lakh, unless otherwise stated)

*The Company has written put options over the remaining equity interest in these subsidiaries. Based on the analysis of the terms of the agreement, the shares over which the put options have been written do not meet the definition of an "underlying" as per Ind AS 109 and therefore these put options have not been accounted for as a derivative contract.

Note - During the year, the Company made annual assessment of recoverability of the investments in subsidiaries and based on such assessment, an impairment provision of Rs. 1,760.11 Lakhs (March 31, 2025 - Rs. 180 lakhs) in the value of investment has been recognised. Details of key assumptions used in the assessment are weighted average cost of capital - 7.80% (March 31,2025 - 8.15%), useful life of renewable energy plants - 30 years, residual value of assets - 5% of assets value.

5(b). Current investments

Accounting policy

All investments in scope of Ind AS 109 are measured at fair value. All debt instruments which are held for trading are classified as at FVTPL. For all other instruments, the Company may make an irrevocable election to present in other comprehensive income subsequent changes in the fair value (FVOCI). The Company makes such an election on an instrument-by-instrument basis. The classification is made on initial recognition and is irrevocable. There are no instruments which are carried at FVOCI.

7. Income tax assets (net)

Accounting Policy

Tax comprises of current tax and deferred tax. Current tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted, at the reporting date.

Current income tax relating to items recognized outside profit or loss is recognized either in OCI or in equity. Current tax items are recognized in correlation to the underlying transaction either in OCI or directly in equity. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and considers whether it is probable that a taxation authority will accept an uncertain tax treatment.

Particulars	As at March 31, 2026	As at March 31, 2025
Income tax assets (net)	686.94	235.75
Total	**686.94**	**235.75**

Particulars	As at March 31, 2026	As at March 31, 2025

Add: Taxes paid during the year	451.19	16.78
Less: Current tax payable for the year	-	-
Total	**686.94**	**235.75**

8(a) . Deferred tax assets (net)

Accounting Policy

Deferred tax is provided using the liability method on temporary differences between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes at the reporting date. Deferred tax assets are recognised for all deductible temporary differences, the carry forward of unused tax credits and any unused tax losses. Deferred tax assets are recognised to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilised.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets are re-assessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

Deferred tax relating to items recognised outside profit or loss is recognised outside profit or loss (either in OCI or in equity), in correlation to the underlying transaction.

Deferred tax assets and liabilities are offset where there is a legally enforceable right to offset current tax assets and liabilities and where the deferred tax balances relate to the same taxation authority. Current tax assets and tax liabilities are offset where the entity has a legally enforceable right to offset and intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously.

The Company determines whether to consider each uncertain tax treatment separately or together with one or more other uncertain tax treatments and uses the approach that better predicts the resolution of the uncertainty.

The Company applies significant judgement in identifying uncertainties over income tax treatments.

Estimates and Assumptions - Recognition of Deferred tax assets

At each balance sheet date, the Company assesses whether the realization of future tax benefits is sufficiently probable to recognize deferred tax assets. This assessment requires the use of significant estimates with respect to assessment of future taxable income. The recorded amount of total deferred tax assets could change if estimates of projected future taxable income or if changes in current tax regulations are enacted.

Particulars	As at March 31, 2026	As at March 31, 2025
Deferred tax assets		
Employee benefit expenses	84.32	53.26
Lease liabilities	144.32	51.53
Others	45.90	-
	274.54	**104.79**
Deferred tax liabilities

Others	(5.40)	(5.42)
Deferred tax expense recognised in the Standalone Statement of Profit and Loss - (Charge)/Credit	**-**	**-**

The Company has tax losses, unabsorbed depreciation and other items of Rs. 5,969.97 lakhs (March 31, 2025: Rs.6,592.64 lakhs) that are available for offsetting for future taxable profits. Deferred tax assets have not been recognised in respect of these items as they may not be used to offset taxable profits in the Company and there are no other tax planning opportunities or other evidence of recoverability in the near future. If the Company were able to recognise all unrecognised deferred tax assets, the loss for the year would decrease by Rs. 2,385.61 lakhs (March 31, 2025: Rs. 1,625.60 lakhs).

8(b). Tax expenses

The Income Tax expense consists of following :

Particulars	Year ended March 31, 2026	Year ended March 31, 2025
Current tax	-	-
Deferred tax	-	-
Income tax expense reported in the Standalone Statement of Profit and Loss	**-**	**-**

Other comprehensive income	Year ended March 31, 2026	Year ended March 31, 2025
Deferred tax related to items recognised in other comprehensive income during the year	-	-
Net gain/(loss) on remeasurements of defined benefit plans	-	-
Deferred tax credit in other comprehensive income	**-**	**-**

The reconciliation of estimated income tax expense at Indian statutory income tax rate to income tax expense reported in Standalone Statement of Profit and Loss is as follows:

Particulars	Year ended March 31, 2026	Year ended March 31, 2025
Loss before tax	(2,743.14)	(441.10)
Indian statutory income tax rate	25.17%	25.17%
Expected tax credit	(690.45)	(111.02)
Deferred tax assets not recognised on losses and depreciation	690.45	111.02
Total tax expense	**-**	**-**

9 Trade Receivables

Accounting Policy

A receivable represents the Company's right to an amount of consideration that is unconditional (i.e., only the passage of time is required before payment of the consideration is due).Trade receivables are recognised initially at the transaction price as they do not contain significant financing components. The Company holds the trade receivables with the objective of collecting the contractual cash flows and therefore measures them subsequently at amortised cost using the effective interest method, less loss allowance. For trade receivables, the Company applies the simplified approach required by Ind AS 109, which requires expected lifetime losses to be recognised from initial recognition of the receivables.

Notes to the standalone financial statements for the year ended March 31, 2026
(All amounts are in Rupees Lakhs, except per share data and unless stated otherwise)

Particulars	As at March 31, 2026	As at March 31, 2025
Trade receivables from:

Expected Credit Loss (ECL)

Accounting policy

In accordance with Ind AS 109, the Company applies Expected Credit Loss (ECL) model for measurement and recognition of impairment loss and credit risk exposure on the financial assets that are debt instruments measured at amortized costs e.g. loans, deposits, trade receivables, contractual receivables and bank balances. The Company follows 'simplified approach' for recognition of impairment allowance. The application of simplified approach does not require the Company to track changes in credit risk. Rather, it recognizes impairment allowance based on lifetime ECLs at each reporting date, right from its initial recognition.

For recognition of impairment loss on other financial assets and risk exposure, the Company determines that whether there has been a significant increase in the credit risk since initial recognition. If credit risk has not increased significantly, 12-month ECL is used to provide for impairment loss. However, if credit risk has increased significantly, lifetime ECL is used. If, in a subsequent period, credit quality of the instrument improves such that there is no longer a significant increase in credit risk since initial recognition, then the entity reverts to recognizing impairment allowance based on 12-month ECL. The Company considers current and anticipated future economic conditions relating to industries the company deals with and the countries where it operates.

ECL impairment allowance (or reversal) recognized during the period is recognized as income/expense in the Standalone Statement of Profit and Loss under the head 'other expenses'. ECL is presented as an allowance, i.e. as an integral part of the measurement of those assets in the Standalone Balance Sheet. The allowance reduces the net carrying amount. Until the asset meets write-off criteria, the company does not reduce impairment allowance from the gross carrying amount.

Estimates and assumptions

Impairment of financial assets

The impairment provisions for financial assets are based on assumptions about risk of default, expected loss rates and timing of cash flows. The Company uses judgment in making these assumptions and selecting the inputs to the impairment calculation, based on the Company's past history, existing market conditions as well as forward looking estimates at the end of each reporting period. The following table summarises the change in impairment allowance measured using the life time ECL model (Pursuant to Ind AS 109):

As a practical expedient, the Company uses a provision matrix to determine ECL impairment allowance on portfolio of its trade receivables and contract assets. The provision matrix is based on its historically observed default rates over the expected life of the trade receivables and is adjusted for forward-looking estimates. At every reporting date, the historical observed default rates are updated and changes in the forward-looking estimates are analysed. On that basis, the Company estimates a default rate of total revenue for trade receivables and contract revenue for contract assets. The Company follows provisioning norms based on ageing of receivables to estimate the impairment allowance under ECL

Particulars	Provision on trade receivables	
	March 31, 2026	March 31, 2025
At the beginning of the year	58.31	-
Less: Bad debts/write off	-	-
	-	-

Total	**51.02**	**-**

13. Equity share capital

Accounting Policy

Equity shares issued to shareholders are classified as equity. Incremental costs directly attributable to the issue of new equity shares are recognized as a deduction from equity, net of any related income tax effects.

Cost for issuance of equity instruments:

The cost in issuing or acquiring Company's own equity instruments includes registration and other regulatory fees, amounts paid to legal, accounting and other professional advisers, printing costs and stamp duties. These costs are accounted for as a deduction from equity (net of any related income tax benefit) to the extent they are incremental costs directly attributable to the equity transaction that otherwise would have been avoided.

Particulars	As at March 31, 2026	As at March 31, 2025
Authorized shares

Nature and purpose of reserves

Retained earnings

Retained earnings are the profits or (loss) that the Company has earned or incurred till date, less any transfers to general reserve, dividends or other distributions paid to shareholders. Retained earnings also include re-measurement loss or (gain) on defined benefit plans, net of taxes that will not be reclassified to Standalone Statement of Profit and Loss.

Securities premium reserve

Securities premium reserve is used to record the premium on issue of shares. The reserve is utilised in accordance with the provisions of the Companies Act 2013.

15. Borrowings

a) Non-current borrowings

Borrowings are classified as current liabilities unless, at the end of the reporting period, the Company has a right to defer settlement of the liability for at least 12 months after the reporting period. Where there is a breach of a material provision of a long-term loan arrangement on or before the end of the reporting period with the effect that the liability becomes payable on demand on the reporting date, the entity does not classify the liability as current, if the lender agreed, after the reporting period and before the approval of the financial statements for issue, not to demand payment as a consequence of the breach.

16. Provisions

Accounting policy

Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation.

Retirement and other employee benefits

Retirement benefit in the form of provident fund is a defined contribution scheme. The Company has no obligation, other than the contribution payable to the provident fund. The Company recognizes contribution payable to the provident fund scheme as an expense when an employee renders the related service. If the contribution payable to the scheme for service received before the balance sheet date exceeds the contribution already paid, the deficit payable to the scheme is recognized as a liability after deducting the contribution already paid. If the contribution already paid exceeds the contribution due for services received before the balance sheet date, then excess is recognized as an asset to the extent that the pre-payment will lead to, for example, a reduction in future payment or a cash refund.

The Company operates a defined benefit gratuity plan, which is unfunded. The cost of providing benefits under the defined benefit plan is determined using the projected unit credit method.

Remeasurements, comprising of actuarial gains and losses are recognized immediately in the Standalone Balance Sheet with a corresponding debit or credit to retained earnings through OCI in the period in which they occur. Remeasurements are not reclassified to the Standalone Statement of Profit and Loss in subsequent periods.

Past service costs are recognized in the Standalone Statement of Profit and Loss on the earlier of:

- The date of the plan amendment or curtailment, and
- The date that the Company recognizes related restructuring costs.

Net interest is calculated by applying the discount rate to the net defined benefit liability or asset. The Company recognizes the following changes in the net defined benefit obligation as an expense in the Standalone Statement of Profit and Loss:

- Service costs comprising current service costs, past-service costs, gains and losses on curtailments and non-routine settlements; and
- Net interest expense or income

The compensated absences such as privileged leave and sick leave are not expected to be settled wholly within 12 months after the end of the period in which the employees render the related service. They are therefore measured as the present value of expected future payments to be made in respect of services provided by employees up to the end of the reporting period using the projected unit credit method. The benefits are discounted using the market yields at the end of the reporting period that have terms approximating to the terms of the related obligation. Remeasurements as a result of experience adjustments and changes in actuarial assumptions are recognised in the Standalone Statement of Profit and Loss. The Company does not have an unconditional right to defer settlement for any of these obligations and therefore have been classified as current liability. However, based on past experience, the Company does not expect all employees to take the full amount of accrued leave or require payment within twelve months.

Provision for Long term incentive is calculated using the projected unit credit method to determine the present value of its defined benefit obligations and the related current service cost.

Estimates and Assumptions

Long Term Incentive Plan

The provision for other long term employee benefits which is recognized considering the estimated payout expected by the Company at present value using projected unit credit method. These include the determination of the discount rate and attrition rate. All assumptions are reviewed at each reporting date. The parameter which is most subjected to change is the attrition rate. In determining the appropriate discount rate for plans operated in India, the management considers the interest rates of government bonds in currencies consistent with the currencies of the long-term incentives.

16(a). Non-current provisions

Particulars	As at March 31, 2026	As at March 31, 2025
Provision for gratuity (Refer Note 16(c))	148.04	104.63
Other long-term employee benefits (Refer Note 16(c))	467.86	312.49
Total	**615.90**	**417.12**

16(b). Current provisions

Particulars	As at March 31, 2026	As at March 31, 2025
Provision for employee benefits		
Provision for gratuity (Refer Note 16(c))	3.53	6.37
Provision for compensated absence (Refer Note 16(c))	151.52	105.15
Other Provisions		
Provision for onerous contract*	3.00	3.00
Total	**158.05**	**114.52**

* No movement during the year.

16(c). Employee benefits plan

A. Defined contribution plans

The Company also has certain defined contribution plan. Contributions are made to provident fund in India for employees at the rate of 12% of basic salary as per regulations. The contributions are made to registered provident fund administered by the government. The obligation of the Company is limited to the amount contributed and it has no further

contractual nor any constructive obligation. The expense recognised during the period towards defined contribution plan is Rs 140.26 lakhs (March 31, 2025 – Rs 113.40 lakhs).

B. Defined Benefit plans and Other Long Term Plans

i) Compensated Absences

The Compensated Absences cover the Company's liability for earned leave which are classified as other long-term benefits.

The entire amount of the provision of Rs. 151.52 lakhs (March 31, 2025 – Rs.105.15 lakhs) is presented as current, since the Company does not have an unconditional right to defer settlement for any of these obligations. However, based on past experience, the company does not expect all employees to avail the full amount of accrued leave or require payment for such leave within the next 12 months.

Particulars	As at March 31, 2026	As at March 31, 2025
Leave obligations not expected to be settled within the next 12 months	124.55	87.61

ii) Gratuity

The Company operates a defined benefit plan viz. gratuity for its employees. Under the gratuity plan, every employee who has completed at least specified years of service gets a gratuity on departure at 15 days (minimum) of the last drawn salary for each completed year of service.

The new Labour Codes introduced by the Government of India, inter alia, require gratuity to be calculated based on wages constituting at least 50% of total remuneration. This has resulted in an increase in gratuity benefits in respect of services rendered in prior periods, and accordingly, the company has recognised past service cost amounting to INR 10.10 lakhs during the year. In accordance with Ind AS 19, the past service cost has been recognised in the standalone statement of profit and loss in the current year in which the plan amendment became effective. The gratuity obligation has been actuarially valued by an independent actuary using the projected unit credit method, considering the revised definition of wages for gratuity computation.

I Changes in the net benefit obligation is as follows :

Particulars	Amount
April 01, 2024	**87.51**
Current service cost	46.57
Transfer Out	(2.27)
Interest expense	6.03
Total amount recognised in Profit or Loss	**50.33**

Total amount recognised in Other comprehensive income	**(22.84)**
Benefits paid	(4.00)
March 31, 2025	**111.00**
Current service cost	54.12
Transfer In	3.30
Past service cost	10.10
Interest expense/(income)	6.94
Total amount recognised in Standalone Statement of Profit and Loss	**74.46**
Experience adjustments	(16.42)
Actuarial gain from change in financial assumptions	(5.98)
Total amount recognised in Other comprehensive income	**(22.40)**
Benefits paid	(11.49)
March 31, 2026	**151.57**

II Significant assumptions

The significant actuarial assumptions were as follows :

Particulars	March 31, 2026	March 31, 2025
Discount rate	7.20%	6.60%
Salary growth rate	10.00%	10.00%
Normal retirement age	60	60
Mortality table	IALM(2012-14) Ultimate	IALM(2012-14) Ultimate
Employee turnover	15.00%	15.00%

III Sensitivity analysis

The sensitivity of defined obligation to changes in the weighted principal assumptions is:

Assumption	Impact on defined benefit obligation	
	March 31, 2026	March 31, 2025
Discount rate		
1.00% increase	Decrease by 9.14	Decrease by 6.08
1.00% decrease	Increase by 10.20	Increase by 6.73
Future salary increase		
1.00% increase	Increase by 8.37	Increase by 5.41
1.00% decrease	Decrease by 7.69	Decrease by 5.01
Attrition rate		
1.00% increase	Decrease by 1.26	Decrease by 0.93
1.00% decrease	Increase by 1.38	Increase by 1.02

The above sensitivity analysis is based on a change in assumption while holding all other assumptions constant. In practice, this is unlikely to occur and changes in some of the assumptions may be correlated. When calculating the sensitivity of the defined benefit obligation to significant actuarial assumptions the same method (present value of defined benefit obligation calculated with the Projected Unit Credit Method at the end of the reporting period) has been applied as when calculating the defined benefit liability recognised in the Standalone Balance Sheet. The method and types of assumptions used in preparing the sensitivity analysis did not change compared to the previous periods.

IV. The following are the expected cash flows/contribution to the defined benefit plan in future years:

Particulars	March 31, 2026	March 31, 2025
Within next 12 months	3.54	6.37
Between 2-5 years	103.70	60.71
Next 5 years	262.52	216.79

The average duration of the defined benefit plan obligation at the end of the reporting period is 10.91 years (March 31, 2025: 9.71 years)

iii) Other long-term employee benefits

The Company offers cash bonuses to certain managerial employees the amount of which is based on performance of the Company in a specific year. The amount of provision recognised for the long term employee benefit is Rs. 467.86 lakhs (31 March 2025 – Rs. 312.49 lakhs).

17(a) Other non-current financial liabilities

Particulars	As at March 31, 2026	As at March 31, 2025
Deposits/ retentions from customers and others	31.66	26.46
Total	**31.66**	**26.46**

Notes to the standalone financial statements for the year ended March 31, 2026

(All amounts are in Rupees Lakhs, except per share data and unless stated otherwise)

17(b) Other current financial liabilities

Particulars	As at March 31, 2026	As at March 31, 2025
Employee related payables	316.70	241.77
Total	**316.70**	**241.77**

18. Other current liabilities

Accounting Policy

Contract Liability : A contract liability is the obligation to transfer goods or services to a customer for which the Company has received consideration (or an amount of consideration is due) from the customer. If a customer pays consideration before the Company transfers goods or services to the customer, a contract liability is recognised when the payment is made or the payment is due (whichever is earlier). Contract liabilities are recognised as revenue when the Company satisfies the performance obligation. Contract liabilities are recorded in balance sheet as unearned revenue and customer advances as the case may be.

Particulars	As at March 31, 2026	As at March 31, 2025
Contract liabilities		
Advance from customers	7.08	32.49
Unearned revenue	31.52	85.99
Others		
Statutory dues	102.10	98.78
Others	1.61	1.86
Total	**142.31**	**219.12**

19 Trade payables

Particulars	As at March 31, 2026	As at March 31, 2025
Total outstanding dues of micro and small enterprises	229.16	21.30
Due to other than micro and small enterprises		
(i) Related parties (refer note 31)	223.80	646.25
(ii) Others	108.45	406.20
Total	**561.41**	**1,073.75**

Trade payables are non-interest bearing and are generally on terms of 30 to 90 days.

Details of dues to micro and small enterprises as defined under the Micro, Small and Medium Enterprises Development (MSMED) Act, 2006

Particulars	As at March 31, 2026	As at March 31, 2025
i) The principal amount and the interest due thereon remaining unpaid to any supplier as at the end of each accounting year		
-Principal amount outstanding (whether due or not) to micro and small enterprises	229.16	21.30
-Interest due thereon	3.70	2.51
ii) The amount of interest paid by the Company in terms of section 16 of the MSMED Act, 2006 along with the amounts of the payment made to the supplier beyond the appointed day during each accounting year.	-	-
iii) The amount of payment made to the supplier beyond the appointed day during the year.	249.61	261.87
iv) The amount of interest due and payable for the period of delay in making payment (which have been paid but beyond the appointed day during the year) but without adding the interest specified under the MSMED Act, 2006.	1.17	3.02
v) The amount of interest accrued and remaining unpaid at the end of each accounting year.	6.35	5.53
vi) The amount of further interest remaining due and payable even in the succeeding years, until such date when the interest dues as above are actually paid to the small enterprise for the purpose of disallowance as a deductible expenditure under section 23 of the MSMED Act 2006.	11.22	6.35

The ageing of current trade payables which are due for payment :

Particulars	Not Due	Unbilled*	Outstanding for the following period from due date of payments				Total
			Less than a year	1-2 years	2-3 years	More than 3 years	
As at March 31, 2026							
(i) Undisputed - Micro and Small Enterprises	3.75	50.86	124.14	49.86	0.44	0.11	**229.16**
(ii) Undisputed - Others	98.47	133.31	82.83	3.37	11.83	2.44	**332.25**
(iii) Disputed dues- Micro and Small Enterprises	-	-	-	-	-	-	**-**

(iv) Disputed dues - Others	-	-	-	-	-	-	**-**
Total	**295.15**	**97.22**	**362.76**	**154.48**	**164.15**	**-**	**1,073.75**

* Unbilled trade payables includes accruals which are not classified as provisions under IND AS 37 "Provisions, Contingent Liabilities and Contingent Assets"

20 Revenue from operations

Accounting Policy

Revenue from contracts with customers

Revenue from contracts with customers is recognized when control of the goods or services are transferred to the customer at the amount of the transaction price allocated to the performance obligation. Revenue

is recognized when it has approval and commitment from both parties, the rights of the parties are identified, payment terms are identified, the contract has commercial substance and collectability of consideration is probable. The Company has concluded that it is the principal in all of its revenue arrangements since it is the primarily responsible for fulfilling the promise to provide the specified good or service and has discretion in establishing the price for the specified good or service. The Company collects goods and services tax on behalf of the government and, therefore, it is not an economic benefit flowing to the Company. Hence, it is excluded from revenue.

The Company has following streams of revenue

• Revenue from Engineering, Procurement and Construction contracts

Engineering, Procurement and Construction (EPC) contracts are contracts specifically negotiated for the construction of an asset which refers to any project for construction of plants and systems, involving designing, engineering, fabrication, supply, erection (or supervision thereof), commissioning, guaranteeing performance thereof etc., execution of which is spread over different accounting periods. The Company identifies distinct performance obligations in each contract. For most of the contracts, the customer contracts with the Company to provide a significant service of integrating a complex set of tasks and components into a single project or capability. Hence, the entire contract is accounted for as one performance obligation.

The Company may promise to provide distinct goods or services within a contract, in which case the Company separates the contract into more than one performance obligation. If a contract is separated into more than one performance obligation, the Company allocates the total transaction price to each performance obligation in an amount based on the estimated relative standalone selling prices of the promised goods or services underlying each performance obligation. The Company uses the expected cost plus a margin approach to estimate the standalone selling price of each performance obligation in case of contracts with more than one distinct performance obligations.

The Company assesses for the timing of revenue recognition in case of each distinct performance obligation. The Company first assesses whether the revenue can be recognized over a period of time if any of the following criteria is met:

(a) The customer simultaneously consumes the benefits as the Company performs, or

(b) The customer controls the work-in-progress, or

(c) The Company's performance does not create an asset with alternative use to the Company and the Company has right to payment for performance completed till date.

The Company uses cost-based measure of progress (or input method) for contracts because it best depicts the transfer of control to the customer which occurs as it incurs costs on contracts. Under the cost-based measure of progress, the extent of progress towards completion is measured based on the ratio of costs incurred to date to the total estimated costs at completion of the performance obligation. Revenues, including estimated profits, are recorded proportionally as costs are incurred.

Costs associated with bidding for contracts are charged to the Statement of profit and loss when they are incurred. Costs that relate directly to a contract and are incurred in securing the contract are included as part of the contract costs if they can be separately identified and measured reliably and it is probable that the contract will be obtained.

Contract modification, when approved by both the parties to the contract, are considered as modification, if it creates new or changes the existing enforceable rights and obligations. Most of the contract modifications are not distinct from the existing contract due to the significant integration service provided under the contract prior to modifications and are therefore, accounted for as part of the existing contract. The effect of a contract modification is recognized as an adjustment to revenue on a cumulative catch-up basis.

When it becomes probable that the total contract costs will exceed the total contract revenue, the Company recognizes the expected losses from onerous contract as an expense immediately.

Penalties for any delay or improper execution of a contract are recognized as a deduction from revenue. In the balance sheet, such provisions are presented on net basis of the contract receivables.

• Revenue from sale of goods

Revenue from sale of goods is recognised at a point-in-time. The point-in-time is determined when the control of the goods or services is transferred which is determined based on when the significant risks and rewards of ownership are transferred to the customer. Apart from this, the Company also considers its present right to payment, the legal title to the goods, the physical possession and the customer acceptance in determining the point in time where control has been transferred.

• Revenue from sale of services

Revenue from sale of service includes revenue recognised on account of services including operation and maintenance contract, EPC supervision services and management fees. Revenue is recognized on a time proportion basis under the contracts.

• Revenue from leases where the Company is a lessor

Refer note 29 for accounting policy

Estimates and Assumptions

Judgements

A significant revenue of the Company's business relates to EPC contracts which is accounted using cost-based input method, recognizing revenue as the performance on the contract progresses. This requires management to make judgement with respect to identifying contracts for which revenue need to be recognised over a period of time, depending upon when the customer consumes the benefit, when the control is passed to customer, whether the asset created has an alternative use and whether the Company has right to payment for performance completed till date, either contractually or legally. The input method requires management to make significant judgements of the extent of progress towards completion.

Estimates and assumptions:

Project cost to complete estimates: At each reporting date, the Company is required to estimate costs to complete on fixed-price contracts. Estimating costs to complete on such contracts requires the Company to make estimates of future costs to be incurred, based on work to be performed beyond the reporting date. This estimate will impact revenues, cost of sales, contract assets and contract liabilities.

Particulars	Year ended March 31, 2026	Year ended March 31, 2025
Revenue from contracts with customers		
Revenue from projects	637.40	2,775.19
Revenue from sale of trading goods	-	390.05
Revenue from services	2,823.71	1,614.74
Revenue from operating lease	76.27	81.50
Total	**3,537.38**	**4,861.48**
Other operating revenue		
Interest income from finance lease	41.98	47.56
Duty drawback	0.17	2.23
Total	**42.15**	**49.79**
Revenue from operations (net)	**3,579.53**	**4,911.27**

Notes to the standalone financial statements for the year ended March 31, 2026

(All amounts are in Rupees Lakhs, except per share data and unless stated otherwise)

Disclosure pursuant to IND AS 115: Revenue from contracts with customers

Particulars	Year ended March 31, 2026	Year ended March 31, 2025
i) Revenue by category of contracts		
Over a period of time basis	3,537.38	4,471.43
At a point-in-time basis	-	390.05
Total revenue from contracts with customers	**3,537.38**	**4,861.48**
ii) Revenue by geographical market		
Within India	3,537.38	4,334.80
Outside India	-	526.68
Total revenue from contracts with customers	**3,537.38**	**4,861.48**

iii) Contract balances

The following table provides information about contract balances from contracts with customers as at the reporting date

Particulars	As at March 31, 2026	As at March 31, 2025
Unbilled revenue (Refer note 12) - Contract assets	6.36	155.57
Unearned revenue (Refer Note 18) - Contract liabilities	31.52	85.99
Advance from customers (Refer Note 18) - Contract liabilities	7.08	32.49

Contract assets primarily relate to the Company's rights to consideration for work completed but not billed at the reporting date from projects and customised contracts. The Contract assets are transferred to Trade receivables on completion of milestones and its related invoicing.

The contract liabilities relate to unearned revenue and customer advances where performance obligations are yet to be fulfilled as per the contracts. The fulfilment of the performance obligations will extinguish these liabilities and revenue will be recognised, with no impact on the Company's cash positions on specific projects.

Contract assets have decreased as the company has provided fewer projects ahead of the agreed payment schedules for fixed-price contracts. Contract liabilities have decreased as the company has received fewer advance against the future products and services to be provided.

iv) Revenue recognised in the reporting period that was included in the contract liabilities balance at the beginning of the year:

Particulars	Year Ended March 31, 2026	Year Ended March 31, 2025
Unearned revenue	63.42	461.89
Advance from customers	0.98	299.55

(v) Remaining performance obligations:

The Company applies practical expedient included in para 121 of Ind AS 115 and does not disclose information about its remaining performance obligations for contracts that have an original expected duration of one year or less.

vi) Reconciliation between revenue recognised in Standalone Statement of Profit and Loss and contract price

There is no significant difference between revenue recognised in Standalone Statement of Profit and Loss and contract price.

21 Other income

Accounting Policy

For all financial instruments measured at amortized cost, interest income is recorded using the effective interest rate (EIR). EIR is the rate that exactly discounts the estimated future cash payments or receipts over the expected life of the financial instrument or a shorter period, where appropriate, to the gross carrying amount of the financial asset or to the amortized cost of a financial liability.

Particulars	Year Ended March 31, 2026	Year Ended March 31, 2025
Net gain on current investments designated at fair value through profit and loss (FVTPL)	10.02	8.12
Profit on sale of investments designated at fair value through profit and loss (FVTPL)	18.07	-
Interest income on loan to subsidiaries	3,428.82	1,825.00
Interest income on bank deposits	2.28	4.87
Provisions no longer required written back	7.99	43.33
Foreign exchange gain (net)	0.63	-
Debt syndication income (Refer Note 31)	45.75	-
Profit on account of derecognition of lease	23.67	-
Lease rentals (Refer Note 31)	6.39	-
Total	**3,543.62**	**1,881.32**

22 Cost of raw materials consumed

Particulars	Year Ended March 31, 2026	Year Ended March 31, 2025
Inventories at the beginning of the year	-	-
Add: Purchases	642.40	2,080.80
Inventories at the end of the year	-	-
Total	**642.40**	**2,080.80**

23 Employee benefits expense

Particulars	Year Ended March 31, 2026	Year Ended March 31, 2025
Salaries, wages and bonus	2,526.49	1,364.24
Contribution to provident fund (Refer note 16(c))	140.26	113.40
Gratuity expense (Refer note 16(c))	74.46	50.33
Staff welfare expenses	89.30	81.70
Total	**2,830.51**	**1,609.67**

24 Finance costs

Particulars	Year Ended March 31, 2026	Year Ended March 31, 2025
Interest expense on loan from bank/financial institutions	2,003.44	13.98
Interest expense on loan from holding company (Refer note 31)	1,448.93	1,861.14
Interest and finance charges on lease liabilities	22.70	21.77
Total	**3,475.07**	**1,896.89**

25 Depreciation and amortization expense

Particulars	Year Ended March 31, 2026	Year Ended March 31, 2025
Depreciation of property, plant and equipment	68.95	56.39
Amortisation of right-of-use assets	106.62	95.10
Amortization of intangible assets	12.92	17.14
Total	**188.49**	**168.63**

26 Other expenses

Particulars	Year Ended March 31, 2026	Year Ended March 31, 2025
Power and fuel	15.99	13.06
Site expenses and contract labour charges	37.02	64.50
Advertisement and sales promotion	6.19	0.70
Rent	12.09	9.36
Rates and taxes	30.96	1.30
Insurance	52.21	52.73
Repairs and maintenance		
- Computers	0.08	0.09
- Others	183.20	101.56
Travelling and conveyance	176.27	103.04
Legal and professional fees (including auditor's remuneration - refer note below)	227.29	227.65
Recruitment expenses	2.35	50.14
Consumption of stores and spares	0.23	0.42
Provision for impairment allowance of non-current financial assets (net)	1,580.11	180.00
Provision for impairment allowance of financial assets (net)	34.28	58.31
Provision for impairment allowance of non-financial assets (net)	-	120.00
Management fees (Refer Note 31)	277.29	178.75
Exchange fluctuation loss (net)	0.13	8.17
Bad debts and balances written off	-	12.56
Miscellaneous expenses	94.13	95.34
Total	**2,729.82**	**1,277.68**

Note: Payment to auditors

Particulars	Year Ended March 31, 2026	Year Ended March 31, 2025
As auditor		
- Statutory audit fees	22.80	12.00
- Other	-	11.10
- Out of pocket expenses	0.82	0.27
Total	**23.62**	**23.37**

Note: Corporate Social Responsibility

The Company does not meet the criteria specified in sub section (1) of section 135 of the Companies Act, 2013, read with Corporate Social Responsibility (CSR) Rules, 2014. Therefore, it is not required to incur any expenditure on account of CSR activities during the current year and previous year.

27 Loss per share

Accounting Policy

The Company presents the basic and diluted earnings/loss per share (EPS) for its equity shares. Basic EPS is computed by dividing the net profit/(loss) for the year attributable to the equity shareholders of the Company by the weighted average number of equity shares outstanding during the year. Diluted EPS is computed by adjusting the loss for the year attributable to the equity shareholders and the weighted average number of equity shares considered for deriving basic EPS for the effects of all the equity shares that could have been issued upon conversion of all dilutive potential equity shares.

Particulars	Year Ended March 31, 2026	Year Ended March 31, 2025
Loss attributable to the equity shareholders of the Company	(2,743.14)	(441.10)
Weighted average number of equity shares of Rs 10/- each	563,217,735	415,337,543
Basic and Diluted loss per share	(0.49)	(0.11)

28. Contingent liabilities and Commitments

Contingent liabilities

Accounting Policy

A disclosure for a contingent liability is made where there is a possible obligation that arises from past events and the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company or a present obligation that arises from the past events where it is either not probable that an outflow of resources will be required to settle the obligation or a reliable estimate of the amount cannot be made.

There are no liabilities of contingent nature in current year and previous year.

Capital commitment

Estimated amount of contracts remaining to be executed on capital account (net of advances) and not provided for is Nil (March 31, 2025 - Nil)

29 Leasing Arrangements

i) Where the Group is lessor

Accounting Policy

Leases in which the Company does not transfer substantially all the risks and rewards of ownership of an asset are classified as operating leases. Rental income from operating lease is recognized on a straight-line basis over the term of the relevant lease.

Leases are classified as finance leases when substantially all of the risks and rewards of ownership transfer from the Company to the lessee. Amounts due from lessees under finance leases are recorded as receivables at the Company's net investment in the leases. Finance lease income is allocated to accounting periods so as to reflect a constant periodic rate of return on the net investment outstanding in respect of the lease.

a) Amounts receivable under Finance lease -

The Company has entered into certain arrangements with its customers' where the Company will supply electricity by installing solar power generating system at their customers' premises. The Company has determined, that fulfilment of these arrangements is dependent on the use of a specific asset and the arrangement conveys a right to use these specific asset to the customers. Accordingly, these arrangements qualify as arrangements in the form of lease as specified in Ind-AS 116. Based on the evaluation of terms and conditions of these arrangements, such as the contract term constituting a major part of the economic life of the specific assets, the fair value of the asset and that it has transferred the significant risks and rewards in these assets to the customers, these lease arrangements have been classified as finance leases.

Notes to the standalone financial statements for the year ended March 31, 2026

(All amounts are in Rupees Lakhs, except per share data and unless stated otherwise)

Particulars	Gross Investment in lease		Present value of minimum lease payments	
	March 31, 2026	March 31, 2025	March 31, 2026	March 31, 2025
Within one year	66.51	66.51	59.04	59.04
After one year but not more than five years	140.90	176.65	88.81	109.12
More than five years	205.03	235.78	55.08	59.30
	412.44	**478.94**	**202.93**	**227.46**

Present value of minimum lease payments receivable	202.93	227.46	202.93	227.46
Allowance for uncollectible lease payments	-	-	-	-

Particulars	March 31, 2026	March 31, 2025
Current portion of finance lease receivables	66.51	66.51
Non-current portion of finance lease receivables	136.42	160.95

Particulars	March 31, 2026	March 31, 2025
Estimated unguaranteed residual value of assets under finance lease	-	-
Contingent rent recognised as income during the year	-	-
Interest rate inherent in the lease per annum	16.38% - 28.19%	16.38% - 28.19%

(b) Operating Lease

The Company has leased a solar power generating system. The tenure of lease agreement is 15 years.

Particulars	March 31, 2026	March 31, 2025
Lease received for the year	76.27	81.50

Particulars	March 31, 2026	March 31, 2025
Future minimum lease rental receivables under non-cancellable operating leases are as follows:		
Within one year	10.25	-
After one year but not more than five years	10.25	-
More than five years	-	-

c) Company as lessee : Operating lease

Accounting Policy

The Company lease asset classes primarily consist of office buildings. The Company assesses whether a contract contains a lease, at inception of a contract. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Company assesses whether: (1) the contract involves the use of an identified asset (2) the Company has substantially all of the economic benefits from use of the asset through the period of the lease and (3) the Company has the right to direct the use of the asset.

At the date of commencement of the lease, the Company recognizes a right-of-use asset and a corresponding lease liability for all lease arrangements in which it is a lessee, except for leases with a term of twelve months or less (short-term leases) and low value leases. For these short-term and low value leases, the Company recognizes the lease payments as an operating expense on a straight-line basis over the term of the lease.

Lease arrangements include the options to extend or terminate the lease before the end of the lease term. Right-of-use assets and lease liabilities includes these options when it is reasonably certain that they will be exercised.

The right-of-use assets are initially recognized at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or prior to the commencement date of the lease plus any initial direct costs less any lease incentives. They are subsequently measured at cost less accumulated depreciation and impairment losses.

Right-of-use assets are depreciated from the commencement date on a straight-line basis over the shorter of the lease term and useful life of the underlying asset. Right of use assets are evaluated for recoverability whenever events or changes in circumstances indicate that their carrying amounts may not be recoverable. For the purpose of impairment testing, the recoverable amount (i.e. the higher of the fair value less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the Cash Generating Unit (CGU) to which the asset belongs.

The lease payments are discounted using the interest rate implicit in the lease. If that rate cannot be readily determined, which is generally the case for leases in the Company, the lessee's incremental borrowing rate is used, being the rate that the individual lessee would have to pay to borrow the funds necessary to obtain an asset of similar value to the right-of-use asset in a similar economic environment with similar terms, security and conditions.

To determine the incremental borrowing rate, the Company:

- where possible, uses recent third-party financing received by the Company as a starting point, adjusted to reflect changes in financing conditions since third party financing was received.
- uses a build-up approach that starts with a risk-free interest rate adjusted for credit risk for leases held by the Company, which does not have recent third-party financing
- makes adjustments specific to the lease, for example, term, country, currency and security.

If a readily observable amortising loan rate is available to the individual lessee (through recent financing or market data) which has a similar payment profile to the lease, then the Company use that rate as a starting point to determine the incremental borrowing rate.

The lease liability is initially measured at present value of the future lease payments. The lease payments include fixed payments less any lease incentives receivable and amounts expected to be paid under residual value guarantees. There are no variable lease payments.

Lease liability and ROU asset have been separately presented in the Balance Sheet and lease payments have been classified as financing cash flows.

The company has taken office building on leases for a tenure of 1.5 Years (March 31, 2025 - 5 Years) and has extension option for office building as per mutual consent. There are no variable lease payments and residual value guarantees for these leases.

Extension and termination options are included . These are used to maximise operational flexibility in terms of managing the assets used in the company's operations.

Carrying amounts of lease liabilities and the movements during the year:

Particulars	March 31, 2026	March 31, 2025
At the beginning of the year	204.74	298.21
Additions	594.77	-
Accretion of interest	22.70	21.77
Disposal	(118.90)	-
Payments made	(129.90)	(115.24)
Total	**573.41**	**204.74**
Current portion	137.21	124.62
Non-current portion	436.20	80.12
Total	**573.41**	**204.74**

Details of amounts recognised in Standalone Statement of Profit and Loss

Particulars	March 31, 2026	March 31, 2025

Non-current assets	1,157.67	350.22
Total	**41,188.68**	**36,677.54**

The management has assessed that the carrying amounts of the above financial instruments approximate their fair values.

Break-up of financial assets carried at fair value through profit and loss

Particulars	March 31, 2026	March 31, 2025
Financial assets		
Investments		
Mutual funds	231.45	101.04
Total financial assets (Current)	**231.45**	**101.04**

Investment from subsidiaries is excluded since it is accounted as per cost model as prescribed under para 10 of IND AS 27 Separate Financial Statements.

II. Fair value hierarchy

Accounting Policy

The following table provides the fair value measurement hierarchy of the Company's assets and liabilities.

	Date of valuation	Level 1	Level 2	Level 3
Financial assets				
Investments				
Mutual funds	March 31, 2026	231.45	-	-

	Date of valuation	Level 1	Level 2	Level 3
Financial assets				
Investments				
Mutual funds	March 31, 2025	101.04	-	-

Level I: Level 1 hierarchy includes financial instruments measured using quoted prices.

Level II: The Fair value of financial instruments that are not traded in an active market is determined using valuation techniques which maximise the use of observable market data and rely as little as possible on entity specific estimates. If all significant inputs required to fair value an instrument are observable, the instrument is included in level 2.

Level III: If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3.

Valuation technique used to determine fair value

Specific valuation techniques used to value financial instruments include:

- the use of NAV based on report issued by mutual fund house.

34 Financial risk management

The Company's principal financial liabilities comprise borrowings, trade and other payables. The main purpose of these financial liabilities is to finance the Company's operations. The Company's principal financial assets include loans, trade and other receivables, and cash and cash equivalents. The Company also holds investments measured at fair value through profit and loss.

"Risk is inherent in the Company's activities but it is managed through a process of ongoing identification, measurement and monitoring, subject to risk limits and other controls. This process of risk management is critical to the Company's continuing operations. The Company is exposed to market risk, credit risk and liquidity risk.

The Company's Board of Directors is ultimately responsible for the overall risk management approach and for approving the risk strategies and principles. No significant changes were made in the risk management objectives and policies during the years ended March 31, 2026 and March 31, 2025. The management of the Company reviews and agrees policies for managing each of these risks which are summarised below:"

I Market risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises three types of risk: interest rate risk, currency risk and price risk. The management of the Company has implemented a risk management system that is monitored by the Board of Directors. Market risk is managed on the basis of pre-determined asset allocations across various asset categories, a continuous appraisal of market conditions and trends and management's estimate of long and short term changes in fair value.

a Interest rate risk

Interest rate risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market interest rates. Change in interest rate is not expected to have any material impact on the Company's loss before tax as the Company does not have variable rate borrowing.

b Foreign currency risk

Foreign exchange risk arises when future commercial transactions and relevant assets and liabilities are denominated in a currency that is not the Company's functional currency. Foreign exchange risk is the risk that the value of a financial instrument will fluctuate due to changes in foreign exchange rates. The company operates internationally and is exposed to foreign exchange risk arising from foreign currency transactions, primarily with respect to the USD.

Foreign exchange risk is managed on the basis of limits determined by management and a continuous assessment of current and expected exchange rate movements. The exposure to other foreign currencies is not significant to the Company's financial statements.

c Price risk

The Company's investments are susceptible to market price risk arising from uncertainties about future values of the investment securities. These securities are unquoted. The Company manages the price risk through placing limits on individual and total equity/mutual fund instruments. Reports on the investment portfolio are submitted to the management on a regular basis. The Company is not currently exposed significantly to such risk.

II Credit risk

Credit risk is the risk that counterparty will not meet its obligations under a financial instrument or customer contract, leading to a financial loss. The Company is exposed to credit risk from its operating activities (primarily trade receivables, lease receivable and contract assets) and from its investing activities including deposits with banks, loans to subsidiaries and other financial instruments.

Trade receivables and contract assets

Customer credit risk is managed by the Company's established policy, procedures and control relating to customer credit risk management. Credit quality of a customer is assessed based on individual credit limits and risk of potential default based on defined credit risk parameters. An impairment analysis is performed at each reporting date on an individual basis for major clients. The calculation is based on losses as per historical data. The maximum exposure to credit risk at the reporting date is the carrying value of each class of financial assets. For details of charge of Impairment of trade receivables and unbilled revenue refer note 9 and 26.

Expected credit loss for trade receivables under simplified approach

Trade receivables	As at March 31, 2026		
	Gross	Expected loss rate	Expected loss allowance
Unbilled	-	0%	-
Outstanding for following periods from the due date			
Not due	248.94	0%	-
Less than 6 months	159.89	0%	-
More than 6 months	385.37	24%	92.59
Total	**794.20**		**92.59**

Outstanding for following periods from the due date			
Not due	8.93	0%	-
Less than 6 months	1,109.52	0%	-
More than 6 months	104.58	56%	58.31
Total	**1,223.03**		**58.31**

Expected credit loss for contract assets under simplified approach

Contract assets	As at March 31, 2026			As at March 31, 2025		
	Gross	Expected loss rate	Expected loss allowance	Gross	Expected loss rate	Expected loss allowance
Not due	6.36	0%	-	155.57	0%	-
Less than 6 months	-	0%	-	-	0%	-
6 months - 1 year	-	0%	-	-	0%	-
Total	**6.36**		**-**	**155.57**		**-**

Other financial assets carried at amortised cost

Company's exposure to other financial asset includes security deposits and lease receivable which is considered to be low risk. No loss allowance is required to be recognised for the same.

Loans to subsidiaries

Credit risk relating to loan to subsidiaries is managed by the Company's finance department. In calculating expected credit loss, the Company considers historic loss data of borrower and adjusts for forward-looking macroeconomic data. Basis the assessment performed, there is no charge of impairment to Standalone Statement of Profit and Loss.

Balances with Banks

Credit risk from balances with banks is managed by the Company's finance department in accordance with the Company's policy. Investments of surplus funds are made only with approved counterparties to mitigate financial loss through counterparty's potential failure to make payments. Identified impairment loss for these assets is immaterial.

III Liquidity risk

Prudent liquidity risk management implies maintaining sufficient cash and marketable securities and the availability of funding through an adequate amount of committed credit facilities to meet obligations.

Management monitors rolling forecasts of the Company's liquidity position and cash and cash equivalents on the basis of expected cash flows on a on-going basis. The Company's liquidity management policy involves projecting future cash flows and considering the level of liquid assets necessary to meet these and monitoring balance sheet liquidity ratios against internal requirements.

Maturities of financial liabilities

The tables below summarises the company's financial liabilities into relevant maturity profile based on contractual undiscounted payments :

As at March 31, 2026	On demand	<1 year	1 to 3 years	> 3 years
Non- derivative				
Borrowings	411.62	37,313.53	1,057.99	1,380.00
Lease Liabilities	-	137.21	570.63	-
Trade Payables	-	561.41	-	-
Other payables	-	316.70	31.66	-

As at March 31, 2025	On demand	<1 year	1 to 3 years	> 3 years
Non- derivative				
Borrowings	411.62	33,260.86	1,943.00	-
Lease Liabilities	-	124.62	94.11	-
Trade Payables	-	1,073.75	-	-
Other payables	-	241.77	26.46	-

Notes to the standalone financial statements for the year ended March 31, 2026
(All amounts are in Rupees Lakhs, except per share data and unless stated otherwise)

35 Analytical ratios

Sr. No.	Particulars	Numerator	Denominator	As at March 31, 2026	As at March 31, 2025	Variance	Reasons for variance of more than 25%
1	Current Ratio	Current assets	Current liabilities	1.03	1.04	0%	Not applicable
2	Debt-Equity Ratio	Total debt	Shareholder's equity	0.73	0.98	-26%	Decrease due to increase in shareholder's equity during the year
3	Debt Service Coverage Ratio	Earnings available for debt service (Net loss after taxes + Non-cash operating expenses like depreciation and other amortizations + Interest)	Debt service (Interest & Lease payments + Principal repayments)	0.01	0.03	-70%	Due to higher repayment of borrowings and interest cost, impacted debt service coverage ratio
4	Return on Equity Ratio	Net loss after taxes before exceptional items	Average shareholder's equity	(0.06)	(0.01)	378%	The return on equity and net profit ratio have been impacted due to an increase in overall expenses, primarily driven by higher finance costs and other expenses during the period.
5	Inventory Turnover Ratio	Sale of goods	Average inventory	Not applicable	Not applicable	Not applicable	No inventory at the end of the year
6	Trade Receivables Turnover Ratio	Total sales	Average trade receivable	3.79	4.48	-15%	Not applicable
7	Trade Payables Turnover Ratio	Net credit purchases	Average trade payables	4.12	3.47	19%	Not applicable
8	Net Capital Turnover Ratio	Total sales	Average working capital	2.78	13.74	-80%	Due to reduction in sales
9	Net Profit Ratio	Total net profit (before tax)	Total sales	-76.63%	-8.98%	753%	Due to increase in losses
10	Return on Capital Employed	Earning before interest and taxes	Capital employed	0.77%	2.04%	-62%	Due to increase in share capital and borrowings
11	Return on Investment	Investment income	Average investment	9.2%	6.9%	34%	Due to increase in average investment

Working Capital = Current assets less Current liabilities
Capital employed = Tangible Net worth + total debt
"Average = ((Opening + Closing) / 2))"

36. Capital management

The Company's objective for capital management is to maximise long term shareholder value, safeguard business continuity and support the growth of the Company. The Company determines the capital requirement based on annual operating plans and long-term and other strategic investment plans. The funding requirements are met through borrowings, equity and operating cash flows generated. No changes were made in the objectives, policies or processes during the years ended March 31, 2026 and March 31, 2025. Capital represents equity attributable to equity holders of the Company.

The Company monitors capital using a gearing ratio which is net debt/ obligation dividend by total equity. The Company's policy is to keep the gearing ratio optimum.

Particulars	March 31, 2026	March 31, 2025
Borrowings including accrued interest	(40,163.14)	(35,615.48)
Lease liabilities	(573.41)	(204.74)
Less: Cash and cash equivalents (includes other bank balances)	207.49	827.65
Net Debt	**(40,529.06)**	**(34,992.57)**
Equity	54,940.96	35,961.70
Net Debt to Equity	**(0.74)**	**(0.97)**

* Variation majorly on account of significant increase in debt and reduction in cash and cash equivalent and equity on account of losses during the year.

37. Other Statutory Information

(i) No proceedings have been initiated on or are pending against the Company for holding benami property under the Benami Transactions (Prohibition) Act, 1988 (45 of 1988) and Rules made thereunder.

(ii) The Company does not have any charges or satisfaction which is yet to be registered with Registrar of Companies beyond the statutory period.

(iii) The Company has not traded or invested in crypto currency or virtual currency during the current and previous year.

(iv) There is no income surrendered or disclosed as income during the current year in the tax assessments under the Income Tax Act, 1961, that has not been recorded in the books of account.

(v) The Company has working capital limits of more than Rs. 5 crores. however, the company is required to file monthly returns or statement of current assets with the banks.

(vi) The Company has not been declared willful defaulter by any bank or financial institution or other lender.

(vii) The Company has no transactions with the companies struck off under Companies Act, 2013 or Companies Act, 1956.

(viii) The Company has not entered into any scheme of arrangement which has an accounting impact on current or previous financial year.

Notes to the standalone financial statements for the year ended March 31, 2026
(All amounts are in Rupees Lakhs, except per share data and unless stated otherwise)

38. Utilisation of borrowed funds and share premium

The Company has not advanced or loaned or invested funds (either borrowed funds or share premium or any other sources or kind of funds) to any other person or entity, including foreign entities (Intermediaries) with the understanding that the Intermediary shall:

i. directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Company (Ultimate Beneficiaries) or

ii. provide any guarantee, security or the like to or on behalf of the ultimate beneficiaries

The Company has not received any funds except as mentioned in note 30, from any person or entity, including foreign entities (Funding Party) with the understanding (whether recorded in writing or otherwise) that the Company shall:

i. directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party (Ultimate Beneficiaries) or

ii. provide any guarantee, security or the like on behalf of the ultimate beneficiaries.

39. Compliance with Section 143 (3) for Maintenance of Books of Account

With effect from August 5, 2022, the Ministry of Corporate Affairs (MCA) has amended the Companies (Accounts) Rules, 2014, relating to maintenance of electronic books of account and other relevant books and papers. Pursuant to this amendment, the Company is required to maintain the books of account which are accessible in India at all times and their backup is to be kept on servers located in India on a daily basis.

The Company has a process to take daily back-up of boo ks of account maintained in electronic mode on servers located in India.

40. In the Previous year, the Company revisited the model for recharging direct cost incurred by the company to the subsidiaries and has charged EPC and EPC project management fees for under construction projects and management service fees for operational projects to the subsidiaries. EPC fees are charged as per the scope of the work agreed and EPC project management fees are charged as a percentage of total assets which will vary depending upon the scope of work and project value. Management service fees are charged as a percentage of Operating and Maintenance cost incurred by respective subsidiaries. Refer note 31 for details of revenue charged to subsidiaries.

41. The Company has entered into a Share Purchase Agreement (SPA) with the former owners of Onix Two Enersol Private Limited (OTEPL) on September 6, 2024, to acquire 100% of OTEPL's shares for INR 1 lakh. The agreement specified certain precedent conditions that were to be fulfilled by October 5, 2024. These conditions remained unfulfilled and a further extension of six months was granted. These conditions were not complied even in the extended period. Accordingly in previous years, the acquisition did not consummate and hence not considered as an investment in the standalone financial statements and disclosed in other financial assets. On January 2, 2026, the Company entered into an agreement to transfer the OTEPL shares back to the original sellers for a consideration of INR 1 lakh. Pursuant to this agreement, the shares were duly transferred and the consideration was received by the Company, thereby resulting in the closure of this acquisition.

42. Compliance with Section 143 (3) for Audit Trail

The primary accounting software used for maintaining its books of account has a feature of recording audit trail (edit log) facility and the same has operated throughout the year for all relevant transactions recorded in the software except that no audit trail has been enabled at the database level to log any direct data changes.

43 Previous period figures have been regrouped/reclassified to conform to current year's classification. These mainly include:

Particulars	Previously reported amount - Year ended March 31, 2025	Effect of reclassification	Revised Amount
		Interest accrued classified to Financial instruments	
Borrowings (Current)	33,386.40	286.08	33,672.48
Other financial liabilities (Current)	527.85	(286.08)	241.77
Loans	33,886.50	257.62	34,144.12
Other financial assets (Current)	381.94	(257.62)	124.32

INDEPENDENT AUDITOR'S REPORT

To the Members of First Energy Private Limited

Report on the Audit of the Consolidated Financial Statements

Opinion

1. We have audited the accompanying consolidated financial statements of First Energy Private Limited (hereinafter referred to as the "Holding Company") and its subsidiaries (Holding Company and its subsidiaries together referred to as "the Group") (refer Note 30 to the consolidated financial statements), which comprise the Consolidated Balance Sheet as at March 31, 2026, and the Consolidated Statement of Profit and Loss (including Other Comprehensive Income) , the Consolidated Statement of Changes in Equity and the Consolidated Statement of Cash Flows for the year then ended, and notes to the consolidated financial statements, including material accounting policy information and other explanatory information (hereinafter referred to as "the consolidated financial statements").

2. In our opinion and to the best of our information and according to the explanations given to us, the aforesaid consolidated financial statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the consolidated state of affairs of the Group as at March 31, 2026, and consolidated total comprehensive income (comprising of loss and other comprehensive income), consolidated changes in equity and its consolidated cash flows for the year then ended.

Basis for Opinion

3. We conducted our audit in accordance with the Standards on Auditing (SAs) specified under Section 143(10) of the Act. Our responsibilities under those Standards are further described in the "Auditor's Responsibilities for the Audit of the Consolidated Financial Statements" section of our report. We are independent of the Group in accordance with the ethical requirements that are relevant to our audit of the consolidated financial statements in India in terms of the Code of Ethics issued by the Institute of Chartered Accountants of India and the relevant provisions of the Act, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Other Information

4. The Holding Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Director's report but does not include the consolidated financial statements and our auditor's report thereon.

   Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

   In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management and Those Charged with Governance for the Consolidated Financial Statements

5. The Holding Company's Board of Directors is responsible for the preparation and presentation of these consolidated financial statements in term of the requirements of the Act that give a true and fair view of the consolidated financial position, consolidated financial performance and consolidated cash flows, and changes in equity of the Group in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards specified under Section 133 of the Act. The respective Board of Directors of the companies included in the Group are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Group, and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring accuracy and completeness of the accounting records, relevant to the preparation and presentation of the consolidated financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the consolidated financial statements by the Board of Directors of the Holding Company, as aforesaid.

6. In preparing the consolidated financial statements, the respective Board of Directors of the companies included in the Group are responsible for assessing the ability of the respective companies to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the respective Board of Directors either intends to liquidate the respective companies or to cease operations, or has no realistic alternative but to do so.

7. The respective Board of Directors of the companies included in the Group are responsible for overseeing the financial reporting process of the respective companies.

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

8. Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

9. As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

   - Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
   - Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under Section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls with reference to consolidated financial statements in place and the operating effectiveness of such controls.
   - Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
   - Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ability of the Group to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
   - Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
   - Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the audit of the consolidated financial statements of such entities included in the consolidated financial statements of which we are the independent auditors. We remain solely responsible for our audit opinion.

10. We communicate with those charged with governance of the Holding Company and such other entities included in the consolidated financial statements of which we are the independent auditors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

11. We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Report on Other Legal and Regulatory Requirements

12. As required by paragraph 3(xxi) of the Companies (Auditor's Report) Order, 2020 ("CARO 2020"), issued by the Central Government of India in terms of sub-section (11) of Section 143 of the Act, we report that there are no qualifications or adverse remarks included in the CARO 2020 report issued by us in respect of the standalone financial statements of the Holding Company and by the respective auditors in their CARO 2020 reports issued in respect of the financial statements of the companies which are included in these Consolidated Financial Statements, to whom CARO 2020 is applicable.

13. As required by Section 143(3) of the Act, we report, to the extent applicable, that:

(a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit of the aforesaid consolidated financial statements.

(b) In our opinion, proper books of account as required by law relating to preparation of the aforesaid consolidated financial statements have been kept by the Company so far as it appears from our examination of those books, except for the matters stated in paragraph 13(h)(vi) below on reporting under Rule 11(g) of the Companies (Audit and Auditors) Rules, 2014 (as amended)

(c) The Consolidated Balance Sheet, the Consolidated Statement of Profit and Loss (including other comprehensive income), the Consolidated Statement of Changes in Equity and the Consolidated Statement of Cash Flows dealt with by this Report are in agreement with the relevant books of account and records maintained for the purpose of preparation of the consolidated financial statements.

(d) In our opinion, the aforesaid consolidated financial statements comply with the Indian Accounting Standards specified under Section 133 of the Act.

(e) On the basis of the written representations received from the directors of the Holding Company as on March 31, 2026 taken on the record by the Board of Directors of the Holding Company and the reports of the statutory auditors of its subsidiaries incorporated in India whose audit under Section 143 of the Act has been completed, none of the directors of the Group companies incorporated in India is disqualified as on March 31, 2026 from being appointed as a director in terms of Section 164(2) of the Act.

(f) With respect to the maintenance of accounts and other matters connected therewith, reference is made to our remarks in paragraph 13(b) above and paragraph 13(h)(vi) below.

(g) With respect to the adequacy of internal financial controls with reference to consolidated financial statements of the Holding Company and its subsidiaries incorporated in India and the operating effectiveness of such controls, refer to our separate report in Annexure A.

(h) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014 (as amended), in our opinion and to the best of our information and according to the explanations given to us:

i. There were no pending litigations which would impact the consolidated financial position of the Group.

ii. The Group was not required to recognise a provision as at March 31, 2026, under the applicable law or Indian accounting standards, as it does not have any material foreseeable losses on long-term contract. The Group did not have any long term derivative contracts as at March 31, 2026.

iii. There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Holding Company and its subsidiaries incorporated in India during the year ended March 31, 2026.

iv. (a) The respective managements of the Holding Company and its subsidiaries which are companies incorporated in India whose consolidated financial statements have been audited under the Act have represented to us that, to the best of their knowledge and belief, as disclosed in Note 41 to the consolidated financial statements, no funds have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Holding Company or any of such subsidiaries to or in any other person(s) or entity(ies), including foreign entities ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, whether directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Holding Company or any of such subsidiaries ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries.

(b) The respective managements of the Holding Company and its subsidiaries which are companies incorporated in India whose consolidated financial statements have been audited under the Act have represented to us that, to the best of their knowledge and belief, as disclosed in the Note 41 to the consolidated financial statements, no funds have been received by the Holding Company or any of such subsidiaries from any person(s) or entity(ies), including foreign entities ("Funding Parties"), with the understanding, whether recorded in writing or otherwise, that the Holding Company or any of such subsidiaries shall, whether directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries.

(c) Based on the audit procedures, that has been considered reasonable and appropriate in the circumstances, performed by us, nothing has come to our notice that has caused us to believe that the representations under sub-clause (i) and (ii) of Rule 11(e) contain any material misstatement.

v. The Holding Company and its subsidiaries incorporated in India, have not declared or paid any dividend during the year.

vi. Based on our examination, which included test checks, the Holding Company and its subsidiaries, have used an accounting software for maintaining their books of account which has a feature of recording audit trail (edit log) facility and that has operated throughout the year for all relevant transactions recorded in the software except that the audit trail has not been enabled at the database level to log any direct data changes. During the course of performing our procedures other than aforesaid instance of audit trail not maintained where question of our commenting does not arise, we did not notice any instance of the audit trail feature being tampered with. Further, the audit trail, to the extent maintained in the prior year, has been preserved by the Group as per the statutory requirements for record retention.

14. The Group has paid/ provided managerial remuneration in accordance with the requisite approvals mandated by the provisions of Section 197 read with Schedule V to the Act.

Annexure A to Independent Auditor's Report

Referred to in paragraph 13(g) of the Independent Auditor's Report of even date to the members of First Energy Private Limited on the consolidated financial statements as of and for the year ended March 31, 2026

Report on the Internal Financial Controls with reference to Consolidated Financial Statements under clause (i) of sub-section 3 of Section 143 of the Act

1. In conjunction with our audit of the consolidated financial statements of the company as of and for the year ended March 31, 2026, we have audited the internal financial controls with reference to consolidated financial statements of First Energy Private Limited (hereinafter referred to as "the Holding Company") and its subsidiaries which are companies incorporated in India, as of that date.

Management's Responsibility for Internal Financial Controls

2. The respective Board of Directors of the Holding Company and its subsidiaries, to whom reporting under clause (i) of sub section 3 of Section 143 of the Act in respect of the adequacy of the internal financial controls with reference to consolidated financial statements is applicable, which are companies incorporated in India, are responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting ("the Guidance Note") issued by the Institute of Chartered Accountants of India ("ICAI"). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the respective company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditor's Responsibility

3. Our responsibility is to express an opinion on the company's internal financial controls with reference to consolidated financial statements based on our audit. We conducted our audit in accordance with the Guidance Note issued by the ICAI and the Standards on Auditing specified under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of internal financial controls and both issued by the ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to consolidated financial statements was established and maintained and if such controls operated effectively in all material respects.

4. Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system with reference to consolidated financial statements and their operating effectiveness. Our audit of internal financial controls with reference to consolidated financial statements included obtaining an understanding of internal financial controls with reference to consolidated financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error.

5. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the company's internal financial controls system with reference to consolidated financial statements.

Meaning of Internal Financial Controls with reference to Consolidated Financial Statements

6. A company's internal financial control with reference to consolidated financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of consolidated financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control with reference to consolidated financial statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of consolidated financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the consolidated financial statements.

Inherent Limitations of Internal Financial Controls with reference to Consolidated Financial Statements

7. Because of the inherent limitations of internal financial controls with reference to consolidated financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to consolidated financial statements to future periods are subject to the risk that the internal financial control with reference to consolidated financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

8. In our opinion, the Holding Company and its subsidiaries which are companies incorporated in India, have, in all material respects, an adequate internal financial controls system with reference to consolidated financial statements and such internal financial controls with reference to consolidated financial statements were operating effectively as at March 31, 2026, based on the internal control over financial reporting criteria established by the company considering the essential components of internal control stated in the Guidance Note issued by the ICAI.

Consolidated Statement of Cash Flows for the year ended March 31, 2026

(All amounts are in Rupees Lakhs, except stated otherwise)

	Particulars	Year ended March 31, 2026	Year ended March 31, 2025
A)	**Cash flows used in operating activities**		
	Loss before tax	(7,305.63)	(4,181.77)
	Adjustments to reconcile loss before tax to net cash flows from operations		
	Depreciation/amortization on property, plant and equipment, right-of-use assets and intangible assets	5,828.76	4,188.26
	Interest income on bank deposits	(178.19)	(99.80)
	Net gain on financial instrument at fair value through profit and loss (net)	(233.96)	(104.11)
	Finance cost	10,122.79	7,122.10
	Provision for impairment allowance of financial assets (net)	34.28	297.42
	Bad debts written off	-	12.56
	Proceed from insurance claim	(3,719.00)	-
	Loss on sale of asset	991.24	-
	Impairment expenses on non current asset (including provision for capital advances)	3,394.83	-
	Provisions no longer required written back	(106.29)	(75.42)
	Working capital adjustments		
	(Increase)/decrease in trade receivables	(872.72)	581.08
	(Increase) in other financial assets	(123.02)	(279.23)
	Decrease in finance lease receivables	24.53	18.96
	(Increase) in other assets	(123.06)	(148.04)
	(Decrease) in trade payables	(289.55)	(0.75)
	Increase/(decrease) in provisions	1,596.19	(386.18)
	Increase in other financial liabilities	5.45	157.19
	Decrease in other liabilities	(617.15)	(568.60)
	Cash flows generated from operations	**8,429.50**	**6,533.67**
	Income Tax Refund	(437.95)	(49.05)
	Net cash inflow from operating activities	**7,991.55**	**6,484.62**
B)	**Cash flows used in investing activities**		
	Payments for Property, plant and equipment	(76,429.23)	(59,019.13)
	Payments for Intangible Assets	(22.21)	-
	Proceeds from sale of property, plant & equipment	228.29	14.79
	Proceed from Insurance Claim	3,719.00	-
	Initial direct cost pertaining to right-of-use assets and advance rent paid	(198.31)	(62.33)
	Investment in fixed deposit	(4,150.95)	(1,461.91)
	Redemption of fixed deposit	2,480.92	1,177.80
	Interest income received	123.36	110.19
	Payments for purchase of current investments	(24,373.05)	(8,114.29)
	Proceeds from sale of current investments	21,521.00	9,689.74
	Net cash flows used in investing activities	**(77,101.18)**	**(57,665.14)**

Consolidated Statement of Cash Flows for the year ended March 31, 2026

(All amounts are in Rupees Lakhs, except stated otherwise)

	Particulars	Year ended March 31, 2026	Year ended March 31, 2025
C)	**Cash flows from financing activities**		
	Proceeds from issue of shares	21,700.01	1,533.00
	Share application money received pending allotment	-	1,000.00
	Proceeds from borrowings	182,958.77	143,169.25
	Repayment of borrowings	(122,981.06)	(81,390.32)
	Transaction cost on borrowings	(342.02)	(220.61)
	Interest paid	(13,070.98)	(11,621.69)
	Transactions with non-controlling interests	5,862.22	144.04
	Payment of lease liabilities	(2,425.80)	(49.52)
	Cost related to issue of own equity shares	(324.66)	(26.33)
	Net cash flows from financing activities	**71,376.48**	**52,537.82**
	Net increase in cash and cash equivalents	**2,266.85**	**1,357.30**
	Cash and cash equivalents at the beginning of the year	4,187.55	2,830.25
	Cash and cash equivalents at the end of the year	**6,454.40**	**4,187.55**

Reconciliation of cash and cash equivalents as per the statement of cash flows:

	Year ended March 31, 2025	Year ended March 31, 2025
Cash and cash equivalents (refer note 10)	6,454.40	4,187.55
Total cash and cash equivalents	**6,454.40**	**4,187.55**

The above Consolidated statement of cash flows has been prepared under the "indirect method" as set out in Ind AS 7 'Statement of cash flows'

Notes to the consolidated financial statements for the year ended March 31, 2026

(All amounts are in Rupees Lakhs, except per share data and unless stated otherwise)

1. Corporate information

First Energy Private Limited (the "Holding group" or the "group") and its subsidiaries (together referred to as 'the Group') are primarily involved in power generation from renewable energy and Engineering, Procurement and Construction ("EPC") of solar power plants and other ancillary activities.

The group is incorporated and domiciled in India. The address of its registered office is 14, Thermax House, Old Mumbai-Pune Highway, Wakdewadi Pune - 411003, India. The Board of Directors have authorized to issue these consolidated financial statements on May 04, 2026. The CIN of the group is U40200PN2008FTC139032.

2 MATERIAL ACCOUNTING POLICIES

2.1. Basis of preparation, measurement and consolidation

(a) Basis of preparation

These consolidated financial statements have been prepared in accordance with the Indian Accounting Standards (Ind AS), notified under the Companies (Indian Accounting Standards) Rules, 2015 (as amended from time to time) and presentation requirements of Division II of Schedule III to the Companies Act, 2013 (the Act) (Ind AS compliant Sch III) as applicable to the consolidated financial statements.

The preparation of the consolidated financial statements requires the use of certain critical accounting judgements, estimates and assumptions. It also requires the management to exercise judgment in the process of applying the Group's accounting policies. The areas involving a higher degree of judgment or complexity, or areas where assumptions and estimates are critical to the consolidated financial statements are disclosed separately in note 3. The accounting policies adopted for preparation of these consolidated financial statements and presentation have consistently applied.

b. Basis of measurement

The consolidated financial statements have been prepared on the accrual and going concern basis under historical cost convention except the following:

- Certain financial assets and liabilities (including derivative instruments) is measured at fair value;

The accounting policies and related notes further describes the specific measurements applied for each of the assets and liabilities.

All assets and liabilities have been classified as current or non-current as per the Group's operating cycle and other criteria set out in the Schedule III of the Companies Act, 2013. Based on the nature of products and services and the time between the acquisition of assets for processing and their realisation in cash and cash equivalents, the Group has ascertained its operating cycle as 12 months for the purpose of current and non-current classification of assets and liabilities.

(c) Changes in accounting policies and disclosures

New and amended standards adopted by the group

The Ministry of Corporate Affairs vide notification dated 7 May 2025 and 13 August 2025 notified the Companies (Indian Accounting Standards) Amendment Rules, 2025 and Companies (Indian Accounting Standards) Second Amendment Rules, 2025, respectively, which amended certain accounting standards (see below), and are effective for annual reporting periods beginning on or after 1 April 2025:

(a) Classification of Liabilities as Current or Non-current and Non-current Liabilities with Covenants – Amendments to Ind AS 1

As a result of the adoption of the amendments to Ind AS 1, the group changed its accounting policy for the classification of borrowings:

"Borrowings are classified as current liabilities unless, at the end of the reporting period, the group has a right to defer settlement of the liability for at least 12 months after the reporting period.

Covenants that the group is required to comply with, on or before the end of the reporting period, are considered in classifying loan arrangements with covenants as current or non-current. Covenants that the group is required to comply with after the reporting period do not affect the classification."

This new policy did not result in a change in the classification of the group's borrowings. The group did not make retrospective adjustments as a result of adopting the amendments to Ind AS 1.

(b) Supplier Finance Arrangements – Amendments to Ind AS 7 and Ind AS 107

As a result of the adoption of the amendments to Ind AS 7 and Ind AS 107, the group does not require any new disclosures as the group does not have supplier finance arrangements.

(c) International Tax Reform – Pillar Two Model Rules – Amendments to Ind AS 12

The group is not within the scope of the OECD Pillar Two Model Rules, as Pillar Two legislation has not yet been enacted in any of the jurisdictions in which the group operates.

(d) Lack of Exchangeability – Amendments to Ind AS 21

The amended Ind AS 21 have added requirements to help entities to determine whether a currency is exchangeable into another currency, and the spot exchange rate to use where it is not.

These amendments did not have any material impact on the amounts recognised in prior periods and are not expected to significantly affect the current or future periods.

(d) New standards or amendments not yet adopted

Classification of Liabilities as Current or Non-current and Non-current Liabilities with Covenants –

Amendments to Ind AS 1 - This amendment also includes specific provisions that will take effect for reporting periods beginning on or after 1 April 2026, as outlined below.

Under the existing Ind AS 1, where there is a breach of a material provision of a long-term loan arrangement on or before the end of the reporting period with the effect that the liability becomes payable on demand on the reporting date, the entity does not classify the liability as current, if the lender agreed, after the reporting period and before the approval of the financial statements for issue, not to demand payment as a consequence of the breach.

However, the amended requirements stipulate that entities will no longer be permitted to consider lender waivers that are granted after the reporting date but before the financial statements are approved for the purpose of classification of loans. This amendment is required to be applied retrospectively in accordance with Ind AS 8. The group does not expect this amendment to have an impact on its operations or financial statements.

e. Basis of consolidation

The consolidated financial statements comprise the financial statements of the Holding group, its subsidiaries as at March 31, 2026. Control is achieved when the Group is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee.

Specifically, the Group controls an investee if and only if the Group has:

- Power over the investee (i.e. existing rights that give it the current ability to direct the relevant activities of the investee);
- Exposure, or rights, to variable returns from its involvement with the investee, and
- The ability to use its power over the investee to affect its returns.

The Group re-assesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control. Consolidation of an entity begins when the Group obtains control over the subsidiary and ceases when the Group loses control of the subsidiary. Assets, liabilities, income and expenses of a subsidiary acquired or disposed of during the year are included in the consolidated financial statements from the date the Group gains control until the date the Group ceases to control the subsidiary.

Consolidation procedure

(a) Combine like items of assets, liabilities, equity, income, expenses and cash flows of the parent with those of its subsidiaries. For this purpose, income and expenses of the subsidiary are based on the amounts of the assets and liabilities recognized in the consolidated financial statements at the acquisition date;

(b) Offset (eliminate) the carrying amount of the parent's investment in each subsidiary and the parent's portion of equity of each subsidiary.

(c) Eliminate in full, intragroup assets and liabilities, equity, income, expenses and cash flows relating to transactions between entities of the group (profits or losses resulting from intragroup transactions that are recognized in assets, such as property, plant and equipment and capital work in progress are eliminated in full). Intragroup losses may indicate an impairment that requires recognition in the consolidated financial statements. Ind AS 12 'Income Taxes' applies to temporary differences that arise from the elimination of profits and losses resulting from intragroup transactions.

Profit or loss and each component of other comprehensive income (OCI) are attributed to the equity holders of the parent of the Group. All intragroup assets and liabilities, equity, income, expenses and cash flows relating to transactions between members of the Group are eliminated in full on consolidation.

2.2 Summary of material accounting policies

a. Current and non-current classification

The Group presents assets and liabilities in the balance sheet based on current/non-current classification.

An asset is treated as current when it is:

- Expected to be realized or intended to be sold or consumed in normal operating cycle;
- Held primarily for the purpose of trading;
- Expected to be realized within twelve months after the reporting period; or
- Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as non-current.

A liability is current when:

- It is expected to be settled in normal operating cycle;
- It is held primarily for the purpose of trading;
- It is due to be settled within twelve months after the reporting period; or
- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.

The terms of the liability that could, at the option of the counterparty, result in its settlement by the issue of equity instruments do not affect its classification. The Group classifies all other liabilities as non-current.

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

The operating cycle is the time between the acquisition of assets for processing and their realisation in cash and cash equivalents. The Group has identified twelve months as its operating cycle.

b. Foreign currencies translation

The Group's consolidated financial statements are prepared in INR, which is also the functional currency of the group. For each entity, the Group determines the functional currency and items included in the financial statements of each entity are measured using that functional currency.

Transactions and balances

Transactions in foreign currencies are initially recorded at the functional currency spot rates at the date the transaction first qualifies for recognition. Monetary assets and liabilities denominated in foreign currencies are translated at the functional currency spot rates of exchange at the reporting date. Exchange differences arising on settlement or translation of monetary items are recognized in the Consolidated Statement of profit and loss.

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates at the dates of the initial transactions.

c. Fair value measurement

Accounting policy

All assets and liabilities for which fair value is measured or disclosed in the consolidated financial statements are categorized within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1 - Quoted (unadjusted) market prices in active markets for identical assets or liabilities
- Level 2 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable
- Level 3 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

For the purpose of fair value disclosures, the Group has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

d. Financial instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

Financial assets

All financial assets (excluding trade receivables) are recognized initially at fair value plus, in the case of financial assets not recorded at fair value through profit and loss, transactions costs that are attributable to the acquisition of the financial asset. For all subsequent measurements financial assets are classified in following categories by the Group:

(i) Debt instruments at amortized cost

A debt instrument' is measured at the amortized cost if both the following conditions are met:

(a) The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows; and

(b) Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

After initial measurement, such financial assets are subsequently measured at amortized cost using the effective interest rate (EIR) method. Amortized cost is calculated by taking into account any

Notes to the consolidated financial statements for the year ended March 31, 2026
(All amounts in Rupees lakh, unless otherwise stated)

discount or premium on acquisition and fees or costs that are an integral part of EIR. The EIR amortization is included in income in the Consolidated Statement of profit and loss. The losses arising from impairment are recognized in the Consolidated Statement of profit and loss. There are no debt instruments carried at Fair value through other comprehensive income (FVOCI) or Fair value through profit or loss (FVTPL).

(ii) Equity investments

All equity investments in scope of Ind AS 109 are measured at fair value. Equity instruments which are held for trading are classified as at FVTPL. For all other equity instruments, the Group may make an irrevocable election to present in other comprehensive income subsequent changes in the fair value. The Group makes such election on acquisition of an instrument-by-instrument basis. The classification is made on initial recognition and is irrevocable.

Derecognition

A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is primarily derecognized when:

- The rights to receive cash flows from the asset have expired, or
- The Group has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a "pass-through" arrangement; and either (a) the Group has transferred substantially all the risks and rewards of the asset, or (b) the Group has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

Impairment of financial assets

For trade receivables and contract assets, the Group follows 'simplified approach' for recognition of impairment loss and always measures the loss allowance at an amount equal to lifetime expected credit losses to measure the expected credit losses.

In case of other financial assets, the Group applies general approach for recognition of impairment losses wherein the Group uses judgement in considering the probability of default upon initial recognition and whether there has been a significant increase in credit risk on an ongoing basis throughout each reporting period.

Financial liabilities

All financial liabilities are recognized initially at fair value and in the case of borrowings, net of directly attributable transaction costs. The Group's financial liabilities include trade and other payables and borrowings.

Subsequent measurement of financial liabilities depends on their classification as fair value through profit and loss or at amortized cost. A financial liability is classified as at FVTPL if it is classified as held for trading, or it is a derivative or it is designated as such on initial recognition. Other financial liabilities are subsequently measured at amortised cost using the effective interest method. There are currently no financial liabilities classified as FVTPL.

Gains and losses are recognized in profit and loss when the liabilities are derecognized as well as through effective interest method. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or cost that are integral part on effective interest rate (EIR). The EIR amortization is included as finance cost in the Consolidated Statement of Profit and Loss.

Derecognition

A financial liability is derecognized when the obligation under the liability is discharged or cancelled or expires or when an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognized in the Consolidated Statement of profit and loss.

Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the consolidated balance sheet if there is a currently enforceable legal right to offset the recognized amounts and there is an intention to settle on a net basis, to realize the assets and settle the liabilities simultaneously.

3 CRITICAL ACCOUNTING ESTIMATES AND JUDGEMENTS

n the application of the Group's accounting policies, the Management is required to make judgements, estimates and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods. Detailed information about each of these estimates and judgements is included in relevant notes together with information about the basis of calculation for each affected line item in the Consolidated Financial Statements.

The areas involving critical estimates or judgements are:

a. Estimations used for fair value measurement (Refer note 34)

b. Estimations used for impairment of financial assets and liabilities (Refer note 2.2.d and 9)

c. Estimates and assumptions related to useful lives and impairment of Property, Plant and Equipment and Intangibles (PPE) (Refer note 4)

d. Estimates and assumptions for deferred tax (Refer note 8(b))

e. Estimates and assumptions related to Provisions and employee benefit expenses (Refer note 16)

f. Estimates, judgments and assumptions used for revenue from operations (Refer note 19)

g. Judgements related to segment reporting (Refer note 33)

h. Judgements related to redemption liability (Refer note 14(a))

i. Judgements related to borrowing cost (Refer note 23)

j. Estimation used of impairment assessment for non current assets (Refer note 6(a))

4 (a) Property, plant and equipment and Capital work in progress (CWIP)

Accounting policy

Property, Plant and Equipment (PPE) are stated at cost of acquisition or construction net of accumulated depreciation and impairment loss, if any. All significant costs relating to the acquisition and installation of PPE are capitalized. Subsequent costs/replacement costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the group and the cost of the item can be measured reliably. All other repairs and maintenance are charged to the Consolidated Statement of Profit and Loss during the financial year in which they are incurred. The carrying amount of the replaced part is derecognised. Gains or losses arising from derecognition of PPE are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognized in the Consolidated Statement of Profit and Loss when the asset is derecognized. The carrying amount of an item of PPE shall be derecognised on disposal or when no future benefits are expected from its use or disposal.

The Group identifies and determines cost of each component/ part of the asset separately, if the component/part has a cost which is significant to the total cost of the asset and has useful life that is materially different from that of the remaining asset. Freehold land is carried at historical cost.

Depreciation on PPE is calculated on a straight line basis using the rates arrived at, based on the useful lives estimated by the management. The identified components are depreciated separately over their useful lives; the remaining components are depreciated over the life of the principal asset.

The management has estimated the useful lives of certain classes of assets in order to reflect the actual usage of the assets. The useful lives have been determined based on technical evaluation done by the management's expert which are higher than those specified by Schedule II to the Companies Act, 2013, in order to reflect the actual usage of the assets. The residual values are not more than 5% of the original cost of the asset. The following useful lives are estimated by the management:

Asset category	Group's estimate of useful life (years)	Useful life as prescribed under Schedule II (years)
Plant and equipment	10 to 25	10 to 15
Buildings	3 to 30	3 to 30
Roads	3	3
Office equipment	5 to 15	5
Furniture and fixtures	10 to 15	10
Computers and data processing units	3 to 6	3 to 6

The assets residual values, useful lives and method of depreciation of PPE are reviewed on a regular basis and changes in estimates, when relevant, are accounted for on a prospective basis.

Estimates and Assumptions

The Group determines, based on independent technical assessment, the estimated useful lives of its property, plant and equipment and intangible assets for calculating depreciation and amortisation. This estimate is determined after considering the expected usage of the asset or physical wear and tear. Management reviews the residual value and useful lives annually and future depreciation and amortisation charge would be adjusted where the management believes the useful lives differ from previous estimates.

Accounting policy

Impairment of Property, plant and equipment and other non-current assets

The Group assesses, at each reporting date, whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the Group estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's or Cash Generating Unit's (CGU) fair value less costs of disposal and its value in use. Recoverable amount is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets. When the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

Impairment losses are recognized in the Consolidated Statement of Profit and Loss.

For assets, an assessment is made at each reporting date to determine whether there is an indication that previously recognized impairment losses no longer exist or have decreased. If such indication exists, the Group estimates the asset's or CGU's recoverable amount. A previously recognized impairment loss is reversed only if there has been a change in the assumptions used to determine the asset's recoverable amount since the last impairment loss was recognized. The reversal is limited so that the carrying amount of the asset does not exceed its recoverable amount, nor exceed the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognized for the asset in prior years. Such reversal is recognized in the Consolidated Statement of Profit and Loss unless the asset is carried at a revalued amount, in which case, the reversal is treated as a revaluation increase, if applicable.

Estimates and Assumptions

Impairment exists when the carrying value of an asset or cash generating unit (CGU) exceeds its recoverable amount, which is the higher of its fair value less costs of disposal and its value in use. The fair value less costs of disposal calculation is based on available data from binding sales transactions, conducted at arm's length, for similar assets or observable market prices less incremental costs for disposing of the asset. The value in use calculation is based on a Discounted Cash Flow (DCF) model. The cash flows are derived from the budget over useful life of assets as approved by the Management and do not include restructuring activities that the Group is not yet committed to or significant future investments that will enhance the asset's performance of the CGU being tested. The recoverable amount is sensitive to the discount rate used for the DCF model as well as the expected future cash-inflows and the terminal growth rate used.

Determining whether property, plant and equipment are impaired requires an estimation of the value in use of the relevant cash generating units. The value in use calculation is based on a DCF model over the estimated useful life of the property, plant and equipment. Further, the cash flow projections are based on estimates and assumptions relating to expected demand, expected tariff rates for electricity, discount rate and electricity market scenario, based on past trends and the current and likely future state of the industry etc. which are considered reasonable by the Management. Any reasonable possible change in the underlying assumptions would not lead to a material change to the amount of impairment.

Notes to the consolidated financial statements for the year ended March 31, 2026

(All amounts in Rupees lakh, unless otherwise stated)

Ageing of Capital work-in-progress (CWIP) :

CWIP		Amount in CWIP for a period of				
		Less than 1 year	1-2 years	2-3 years	More than 3 years	Total
Project in progress	**March 31, 2026**	**102,426.41**	**27,634.91**	**325.26**	**-**	**130,386.58**
	March 31, 2025	42,156.66	3,154.00	-	-	45,310.66
Total Capital work-in-progress*	**March 31, 2026**	**102,426.41**	**27,634.91**	**325.26**	**-**	**130,386.58**
	March 31, 2025	42,156.66	3,154.00	-	-	45,310.66

* Capital work-in-progress includes overdue projects amounting to Rs 52,508.46 lakhs net of impairment Rs 1,379.42 lakhs (Previous year : Rs 45,266.82 lakhs).It is expected to be completed in the financial year ending March 31, 2027.

Notes:

a) Refer note 28 B for disclosure of contractual commitments for the acquisition of property, plant and equipment.

b) Refer note 13 (c) for information on property, plant and equipment pledged as security by the Company

c) Capital wok-in-progress mainly includes expenditure towards construction of new solar and wind renewable energy plants.

4(b)Capitalization of expenses

Salaries and wages, interest expenses, depreciation and other expenses are capitalized when directly attributable to the acquisition, construction, or production of a qualifying asset. These costs are capitalized during the development or construction phase and subsequently amortized or depreciated over the asset's useful life once the asset is ready for use.

During the year, the Group has capitalized the following expenses of revenue nature to the cost of Property, plant and equipment/capital work in progress. Consequently, expenses disclosed under the respective notes are net of amounts capitalized by the Group:

Particulars	As at March 31, 2026	As at March 31, 2025
Salaries and wages	1,783.98	1,076.08
Interest expenses	4,329.86	4,865.70
Depreciation	258.50	84.33
Other expenses	346.92	223.24
Total	**6,719.26**	**6,249.35**

(i) Key assumptions used for impairment of capital-work-in progress

The Group has assessed impairment indicators for its defined Cash Generating Unit (CGU) – "Power Plant." Based on the Group's evaluation, impairment triggers were identified for one of the CGU due to cost overruns.

Consequently, the Group performed an impairment assessment wherein the recoverable amount was determined using the Value-in-Use (VIU) method. This approach involves the use of key assumptions and is based on cash flow projections derived from management-approved financial budgets, covering the estimated economic life of the assets.

The following table sets out the key assumptions for calculation of value in use:

Particulars	Assumptions considered	Approach used to determine Value
Weighted Average cost of capital	7.80%	Reflect specific risks relating to the relevant business in which the Company operates.
EBIDTA	52% to 95%	Based on management's experience in similar SPVs within the First Energy group and expectations from future considering revenue generation and cost estimated.
Inflation considered in cost	2.50% to 3%	Management forecasts these costs based on the current structure of the business, adjusting for inflationary increases but not reflecting any future restructurings or cost saving measures.

4 (c) Right-of-use assets

Accounting Policy

The Group recognises right-of-use assets ("ROU") at cost at the commencement date of the lease. The cost of ROU includes the amount of lease liabilities recognised, initial direct costs incurred, lease payments made at or before the commencement date less any lease incentives received and estimate of costs to dismantle. After the commencement date, ROU assets are measured at cost, less any accumulated depreciation and impairment losses and adjusted for any remeasurement of lease liabilities. Right of use assets are evaluated for recoverability whenever events or changes in circumstances indicate that their carrying amounts may not be recoverable. For the purpose of impairment testing, the recoverable amount (i.e. the higher of the fair value less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the Cash Generating Unit (CGU) to which the asset belongs. Right of use assets are depreciated on a straight-line basis over the shorter of the lease term and the estimated remaining useful lives of the assets, as follows:

- Buildings - 1.5 years (March 31, 2025 - 5 years)

Particulars	Leasehold Land*	Building	Total
Gross carrying amount as at April 1, 2024	1,582.49	475.50	**2,057.99**
Additions*	-	102.96	**102.96**
Gross carrying amount as at March 31, 2025	1,582.49	578.46	**2160.95**

Disposals	-	388.33	388.33
Accumulated depreciation as at March 31, 2026	**309.42**	**27.35**	**336.77**
Net block as at March 31, 2026	**6,974.45**	**598.96**	**7,573.41**
Net block as at March 31, 2025	**1,425.35**	**308.44**	**1,733.79**

*Includes initial direct costs incurred by the lessee amounting to Rs. 150.66 lakhs (March 31, 2025: Rs 13.80 lakhs)

Refer note 29 for further disclosure on leases.

4 (d) Intangible Assets

Accounting policy

IIntangible assets acquired separately are measured on initial recognition at cost. The cost of intangible assets acquired in a business combination is their fair value at the date of acquisition. Following initial recognition, intangible assets are carried at cost less any accumulated amortization and accumulated impairment losses.

Intangible assets with finite lives are amortized over the useful economic life and assessed for impairment whenever there is an indication that the intangible asset may be impaired. The amortization period and the amortization method for an intangible asset with a finite useful life are reviewed at least at the end of each reporting period. Changes in the expected useful life or the expected pattern of consumption of future economic benefits embodied in the asset are considered to modify the amortization period or method, as appropriate, and are treated as changes in accounting estimates. The amortization expense on intangible assets with finite lives is recognized in the Consolidated Statement of profit and loss unless such expenditure forms part of carrying value of another asset.

Gains or losses arising from derecognition of an intangible asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognized in the Consolidated Statement of Profit and Loss when the asset is derecognized.

The Group amortises intangible assets over the following periods:

- Software : 3 to 6 years, Others - 5 years

Notes to the consolidated financial statements for the year ended March 31, 2026

Current maturities of deposit having original maturity of more than 12 months*	513.74	749.65
Total	**1,687.05**	**1,712.74**

*Includes Debt Service Reserve Account (DSRA) Deposits with banks against Borrowings made as per the requirement of borrowing agreements with lenders for the purpose of repayment of principal and interest liability for the specified future period as per the terms of contract amounting to Rs 513.74 lakhs (March 31, 2025 - Rs 655.35 Lakhs).

6(a) Other non-current assets

Particulars	As at March 31, 2025	As at March 31, 2024
Capital advances	12,840.33	14,860.73
Less : Loss allowance for doubtful advances#	(2,015.40)	-
	10,824.93	**14,860.73**
Prepaid expenses*	42.81	39.78
Total	**10,867.74**	**14,900.51**

*Rs 32.85 lakhs (March 31 2025 : Rs 32.85 lakhs) relates to cost to obtain the contract, which will be amortised to Consolidated Statement of Profit and Loss on a systematic basis consistent with the transfer of the goods and services to the customer.

The management has evaluated the recoverability of capital advances of Rs. 2,015.40 lakhs given to a project vendor to assess whether there is any indication that the amounts may not be recoverable. Based on assessment of the services received up to date, current status of the project, and the vendor's ability and willingness to complete the contractual scope or refund the advances, an indicator of impairment has been identified. Accordingly, a provision of Rs. 2,015.40 lakhs has been recognized in the Consolidated Statement of Profit and Loss for the year ended March 31, 2026 towards such capital advances.

6(b) Other current assets

Accounting Policy

Contract assets: A contract asset is the right to consideration in exchange for goods or services transferred to the customer. If the Group performs by transferring goods or services to a customer before the customer pays consideration or before payment is due, a contract asset is recognised for the earned consideration and are transferred to trade receivables on completion of milestones and its related invoicing. Contract assets are recorded in balance sheet as unbilled revenue.

Particulars	As at March 31, 2026	As at March 31, 2025
Unsecured, considered good		
Advance to supplier	101.42	36.99
Advance to employees	0.48	2.00
Balances with government authorities	58.50	61.22
Unbilled revenue (Contract assets)	6.36	38.67
Prepaid expenses	526.41	431.33
Others	2.70	5.64
Total	**695.87**	**575.85**

7 Investments (current)

Accounting policy

All investments in scope of Ind AS 109 are measured at fair value. All debt instruments which are held for trading are classified as at FVTPL. For all other instruments, the Group may make an irrevocable election to present in other comprehensive income subsequent changes in the fair value (FVOCI). The Group makes such an election on an instrument-by-instrument basis. The classification is made on initial recognition and is irrevocable. There are no instruments which are carried at FVOCI.

Particulars	Number of units		Amount	
	March 31, 2026	March 31, 2025	March 31, 2026	March 31, 2025
Investments in Mutual funds (Quoted)				
Investments in Mutual Funds at Fair value through Profit and Loss	3,280,822.26	162,573.01	3,739.63	653.62
Total	**3,280,822.26**	**162,573.01**	**3,739.63**	**653.62**
Aggregate amount of quoted investments			**3,739.63**	**653.62**

Investments at fair value through profit and loss account reflect investment in quoted mutual funds. Refer note 34 for determination of their fair values.

8(a) Income tax assets (net)

Accounting Policy

Tax comprises of current tax and deferred tax. Current tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted, at the reporting date.

Current income tax relating to items recognized outside profit or loss is recognized either in OCI or in equity. Current tax items are recognized in correlation to the underlying transaction either in OCI or directly in equity. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and considers whether it is probable that a taxation authority will accept an uncertain tax treatment.

Particulars	As at March 31, 2026	As at March 31, 2025
Income tax assets (net)	710.57	281.95
Total	**710.57**	**281.95**

8(b) Deferred tax liability (net)

Accounting Policy

Deferred tax is provided using the liability method on temporary differences between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes at the reporting date. Deferred tax assets are recognised for all deductible temporary differences, the carry forward of unused tax credits and any unused tax losses. Deferred tax assets are recognised to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilised.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets are re-assessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

Deferred tax relating to items recognised outside profit or loss is recognised outside profit or loss (either in OCI or in equity), in correlation to the underlying transaction.

Deferred tax assets and liabilities are offset where there is a legally enforceable right to offset current tax assets and liabilities and where the deferred tax balances relate to the same taxation authority. Current tax assets and tax liabilities are offset where the entity has a legally enforceable right to offset and intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously.

The Group determines whether to consider each uncertain tax treatment separately or together with one or more other uncertain tax treatments and uses the approach that better predicts the resolution of the uncertainty.

The Group applies significant judgement in identifying uncertainties over income tax treatments.

Estimates and Assumptions

At each balance sheet date, the Group assesses whether the realization of future tax benefits is sufficiently probable to recognize deferred tax assets. This assessment requires the use of significant estimates with respect to assessment of future taxable income. The recorded amount of total deferred tax assets could change if estimates of projected future taxable income or if changes in current tax regulations are enacted.

Particulars	As at March 31, 2026	As at March 31, 2025
Deferred tax assets		
Provision for impairment allowance of financial assets	64.91	76.99
Employee benefit expenses	84.32	53.26
Losses available for offsetting against future taxable income	16,423.09	10,103.31
Lease Liabilities	1,237.95	240.33
Others	207.37	36.11
	18,017.64	**10,510.00**
Deferred tax liability		
Depreciation	16,337.56	10,073.17
Right-of-use assets	1,424.18	324.47
Fair Value Adjustment of Borrowings	225.14	133.39
Others	69.00	-
	18,055.88	**10,531.03**
Deferred tax liability (net)	**38.24**	**21.03**

Recognised in the Consolidated Statement of profit and loss

Particulars	As at March 31, 2026	As at March 31, 2025
Losses available for offsetting against future taxable income	6,319.78	4,991.79
Employee benefit expenses	31.06	24.52
Fair Value Adjustment of Borrowings	(91.75)	(133.39)
Provision for impairment allowance of financial assets	(12.08)	76.99
Lease Liabilities	997.62	(9.97)
Depreciation	(6,264.39)	(4,907.72)
Right-of-use assets	(1,099.71)	23.36
Others	102.26	(57.06)
Deferred tax expense recognised in the Consolidated Statement of profit and loss - (Charge)/Credit	**(17.21)**	**8.52**

The Group has tax losses, unabsorbed depreciation and other items of Rs. 18,501.69 lakhs (March 31, 2025:Rs. 11,695.02 lakhs) that are available for offsetting for future taxable profits. Deferred tax assets have not been recognised in respect of these items as they may not be used to offset taxable profits in the Group and there are no other tax planning opportunities or other evidence of recoverability in the near future. If the Group were able to recognise all unrecognised deferred tax assets, the retained earnings for the year would increase by Rs. 4,622.65 lakhs (March 31, 2025: Rs. 2,909.55 lakhs).

Notes to the consolidated financial statements for the year ended March 31, 2026

Total		**18,501.69**	**4,622.65**	**11,695.02**	**2,909.55**

8(c) Tax expenses

Accounting Policy

Current tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted, at the reporting date.

Current income tax relating to items recognized outside profit or loss is recognized either in OCI or in equity, in correlation to the underlying transaction. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and considers whether it is probable that a taxation authority will accept an uncertain tax treatment.

Particulars	Year ended March 31, 2026	Year ended March 31, 2025
Current tax	9.34	-
Deferred tax	17.21	(8.52)
Total	**26.55**	**(8.52)**

The reconciliation of estimated income tax expense at Indian statutory income tax rate to income tax expense reported in the Consolidated Statement of Profit and Loss is as follows:

Particulars	Year ended March 31, 2026	Year ended March 31, 2025
Loss before tax	(7,305.63)	(4,181.77)
Indian statutory income tax rate	25.17%	25.17%
Expected tax expense	(1,838.83)	(1,052.55)
Deferred tax assets not recognised on losses and depreciation	1,838.83	1,052.55
Others	26.55	(8.52)
Total tax expense	**26.55**	**(8.52)**

9 Trade Receivables

Accounting Policy

A receivable represents the Group's right to an amount of consideration that is unconditional (i.e., only the passage of time is required before payment of the consideration is due). Trade receivables are recognised initially at the transaction price as they do not contain significant financing components. The Group holds the trade receivables with the objective of collecting the contractual cash flows and therefore measures them subsequently at amortised cost using the effective interest method, less loss allowance.

For trade receivables and contract assets, the Group applies the simplified approach required by Ind AS 109, which requires expected lifetime losses to be recognised from initial recognition of the receivables.

Particulars	As at March 31, 2026	As at March 31, 2025
Trade Receivables from:		
(i) Related parties (refer note 32)	**21.65**	**52.87**
- Unbilled*	21.23	44.35
- Billed	0.42	8.52
(ii) Others	**2,386.30**	**1,317.76**
- Unbilled*	1,118.17	1,058.28
- Billed	1,268.13	259.48
Sub-classification of trade receivables		
Secured, considered good	-	-
Unsecured considered good	2,315.36	1,370.64
Trade receivables which have a significant increase in credit risk	-	-
Trade receivables- credit impaired	92.59	58.31
	2,407.95	**1,428.95**
Less: Impairment Allowance	**92.59**	**58.31**
Total	**2,315.36**	**1,370.64**

No trade or other receivable are due from directors or other officers of the Group either severally or jointly with any other person nor any trade receivable are due from firms or private companies respectively in which any director is a partner, a director or a member.

*The receivable is 'unbilled' because the group has not yet issued an invoice; however, the balance has been included under trade receivables (as opposed to contract assets) because it is an unconditional right to consideration.

Ageing of trade receivables

Particulars		Unbilled	Not Due	Outstanding for the following period from due date of payments					Total
				Less than 6 months	6 months-1 year	1-2 years	2-3 years	More than 3 years

*Includes provision of Rs. 92.59 Lakhs (March 31, 2025: Rs. 58.31 Lakhs) for trade receivables which are credit impaired.

Expected Credit Loss (ECL)

Accounting policy

To measure the expected credit losses, trade receivables and contract assets have been grouped based on shared credit risk characteristics and the days past due. The contract assets relate to unbilled work in progress and have substantially the same risk characteristics as the trade receivables for the same types of contracts. The Group has therefore concluded that the expected loss rates for trade receivables are a reasonable approximation of the loss rates for the contract assets.

The expected loss rates are based on the payment profiles of sales over a period of 36 months before the reporting date and the corresponding historical credit losses experienced within this period. The historical loss rates are adjusted to reflect current and forward-looking information on macroeconomic factors affecting the ability of the customers to settle the receivables.

Trade receivables and contract assets are written off where there is no reasonable expectation of recovery. Indicators that there is no reasonable expectation of recovery include, amongst others, the failure of a debtor to engage in a repayment plan with the group, and a failure to make contractual payments for a period of greater than 180 days past due.

Impairment losses on trade receivables and contract assets are presented as net impairment losses. Subsequent recoveries of amounts previously written off are credited against the same line item.

Estimates and assumptions

The impairment provisions for financial assets are based on assumptions about risk of default, expected loss rates and timing of cash flows. The Group uses judgment in making these assumptions and selecting the inputs to the impairment calculation, based on the group's past history, existing market conditions as well as forward looking estimates at the end of each reporting period.

As a practical expedient, the group uses a provision matrix to determine ECL impairment allowance on portfolio of its trade receivables and contract assets. The provision matrix is based on its historically observed default rates over the expected life of the trade receivables and is adjusted for forward-looking estimates. At every reporting date, the historical observed default rates are updated and changes in the forward-looking estimates are analysed. On that basis, the group estimates a default rate of total revenue for trade receivables and contract revenue for contract assets. The group follows provisioning norms based on ageing of receivables to estimate the impairment allowance under ECL.

The following table summarises the change in impairment allowance measured using the life time ECL model (Pursuant to Ind AS 109):

Particulars	Provision on trade receivables	
	March 31, 2026	March 31, 2025
At the beginning of the year	(58.31)	-
Less: Bad debts/write off	-	-
	(58.31)	-
Add: Provision made during the year	(34.28)	(58.31)
Less: Bad debts / write off	-	-
Exchange differences	-	-
At the end of the year	**(92.59)**	**(58.31)**

10(a) Cash and cash equivalents

Accounting Policy

Cash and cash equivalents in the balance sheet comprise of cash at banks and on hand and short-term deposits with an original maturity of three months or less, which are subject to an insignificant risk of changes in value. For the purpose of presentation in the statement of cash flows, cash and cash equivalents consists of cash on hand, deposits held at call with financial institutions, other short-term, highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value, and bank overdrafts as they are considered an integral part of the Group's cash management. Bank overdrafts are shown within borrowings in current liabilities in the balance sheet.

Notes to the consolidated financial statements for the year ended March 31, 2026

(All amounts are in Rupees Lakhs, except per share data and unless stated otherwise)

Particulars	As at March 31, 2026	As at March 31, 2025

Total	**2,089.00**	**183.06**

*Includes Debt Service Reserve Account (DSRA) Deposits with banks against borrowings made as per the requirement of borrowing agreements with lenders for the purpose of repayment of principal and interest liability for the specified future period as per the terms of contract amounting to Rs. 1,891.00 lakhs (March 31, 2025 - 183.06 lakhs)

11 Equity Share capital

Accounting Policy

Equity shares issued to shareholders are classified as equity. Incremental costs directly attributable to the issue of new equity shares are recognized as a deduction from equity, net of any related income tax effects.

Cost for issuance of equity instruments:

The cost in issuing or acquiring Company's own equity instruments includes registration and other regulatory fees, amounts paid to legal, accounting and other professional advisers, printing costs and stamp duties. These costs are accounted for as a deduction from equity (net of any related income tax benefit) to the extent they are incremental costs directly attributable to the equity transaction that otherwise would have been avoided.

Particulars	As at March 31, 2026	As at March 31, 2025
Authorized shares		
925,000,000 (Previous year 525,000,000) equity shares of Rs. 10/- each.	92,500.00	52,500.00

a) Loan from holding Company: The funds have been obtained for onward lending to the subsidiaries or for working capital requirements including capital expenditure.

b) Loan from Bank: The funds have been obtained for the repayment of the promoter's loan or to meet capital expenditure requirements.

Loan from Banks

(a) First Energy TN 1 Private Limited

Indian rupee loans of Rs 8,172.22 lakhs (Previous year Rs 5,047.00 lakhs) from banks is secured by way of charge on all present and future moveable and immovable assets including plant & machinery, machinery spares, tools, spare and accessories, project documents and on all current assets of the project (present and future) including but not limited to book debts, operating cash flows, receivables, commission, revenues of whatsoever nature and when arising and pledge of 30% of total paid up capital of the First Energy TN 1 Private Limited, held by the company.

(b) First Energy 2 Private Limited

Indian rupee loans of Rs 2,447.29 lakhs (Previous year Rs.2,542.05 lakhs) from banks is secured by way of charge on all present and future moveable and immovable assets including plant & machinery, machinery spares, tools, spare and accessories, project documents and on all current assets of the project (present and future) including but not limited to book debts, operating cash flows, receivables, commission, revenues of whatsoever nature and when arising and pledge of 30% of total paid up capital of the First Energy 2 Private Limited , held by the company.

(c) First Energy 3 Private Limited

Indian rupee loans of Rs 29,755.75 lakhs (Previous year Rs 30,000.00 lakhs) from financial institution is secured by way of charge on all present and future moveable and immovable assets including plant & machinery, machinery spares, tools, spare and accessories, project documents and on all current assets of the Company (present and future) including but not limited to book debts, operating cash flows, intangible assets including goodwill and uncalled capital, intellectual property, both present and future, receivables, commission, revenues of whatsoever nature and when arising and pledge of 30% of total paid up capital of the First Energy 3 Private Limited, held by the company.

(d) Jalansar Wind Energy Private Limited

Indian rupee loans of Rs 504.82 lakhs (Previous year Rs 525.36 lakhs) from banks is secured by way of charge on all present and future moveable and immovable assets including plant & machinery, machinery spares, tools, spare and accessories, project documents and on all current assets of the project (present and future) including but not limited to book debts, operating cash flows, receivables, commission, revenues of whatsoever nature and when arising and pledge of 30% of total paid up capital of the Jalansar Wind Energy Private Limited, held by the company.

(e) Kanakal Wind Energy Private Limited

Indian rupee loans of Rs 757.59 lakhs (Previous year Rs.788.40 lakhs) from banks is secured by way of charge on all present and future moveable and immovable assets including plant & machinery, machinery spares, tools, spare and accessories, project documents and on all current assets of the project (present and future) including but not limited to book debts, operating cash flows, receivables, commission, revenues of whatsoever nature and when arising and pledge of 30% of total paid up

Notes to the consolidated financial statements for the year ended March 31, 2026
(All amounts are in Rupees Lakhs, except per share data and unless stated otherwise)

capital of the Kanakal Wind Energy Private Limited, held by the company.

(f) First Energy 4 Private Limited

Indian rupee loans of Rs 19,971.30 lakhs (Previous year Rs 20,343.12 lakhs) from banks is secured by way of charge on all present and future moveable and immovable assets including plant & machinery, machinery spares, tools, spare and accessories, project documents and on all current assets of the Company (present and future) including but not limited to book debts, operating cash flows, receivables, commission, revenues of whatsoever nature and when arising and pledge of 30% of total paid up capital of the First Energy 4 Private Limited, held by the company.

(g) First Energy 5 Private Limited

Indian rupee loans of Rs 29,667.00 lakhs (Previous year Rs 29,800.00 lakhs) from banks is secured by way of charge on all present and future moveable and immovable assets including plant & machinery, machinery spares, tools, spare and accessories, project documents and on all current assets of the Company (present and future) including but not limited to book debts, operating cash flows, receivables, commission, revenues of whatsoever nature and when arising and pledge of 30% of total paid up capital of the First Energy 5 Private Limited, held by the company.

(h) First Energy 6 Private Limited

Indian rupee loans of Rs 12,694.76 lakhs (Previous year Rs 12,821.38 lakhs) from banks is secured by way of charge on all present and future moveable and immovable assets including plant & machinery, machinery spares, tools, spare and accessories, project documents and on all current assets of the Company (present and future) including but not limited to book debts, operating cash flows, receivables, commission, revenues of whatsoever nature and when arising and pledge of 30% of paid up capital of the First Energy 6 Private Limited, held by the holding company.

(i) First Energy 7 Private Limited

Indian rupee loans of Rs 4,091.46 lakhs (Previous year Rs 4,178.85 lakhs)from banks is secured by way of charge on all present and future moveable and immovable assets including plant & machinery, machinery spares, tools, spare and accessories, project documents and on all current assets of the Company (present and future) including but not limited to book debts, operating cash flows, receivables, commission, revenues of whatsoever nature and when arising and pledge of 30% of shares of the First Energy 7 Private Limited held by the Company.

(j) First Energy 8 Private Limited

Indian rupee loans of Rs 35,245.00 lakhs from banks is secured by way of charge on all present and future moveable and immovable assets including plant & machinery, machinery spares, tools, spare and accessories, project documents and on all current assets of the Company (present and future) including but not limited to book debts, operating cash flows, receivables, commission, revenues of whatsoever nature and when arising and pledge of 30% of shares of the First Energy 8 Private Limited held by the Company.

(k) First Energy 9 Private Limited

Indian rupee loans of Rs 949.44 lakhs from banks is secured by way of charge on all present and future moveable and immovable assets including plant & machinery, machinery spares, tools, spare and accessories, project documents and on all current assets of the Company (present and future) including but not limited to book debts, operating cash flows, receivables, commission, revenues of whatsoever nature and when arising and pledge of 30% of shares of the First Energy 9 Private Limited held by the Company.

(l) First Energy 11 Private Limited

Indian rupee loans of Rs 12,000 lakhs from banks is secured by way of charge on all present and future moveable and immovable assets including plant & machinery, machinery spares, tools, spare and accessories, project documents and on all current assets of the Company (present and future) including but not limited to book debts, operating cash flows, receivables, commission, revenues of whatsoever nature and when arising and pledge of 30% of shares of the First Energy 11 Private Limited held by the Company.

Terms and conditions of term loans from banks

All the term loans from banks are repayable on quarterly basis in 76-79 quarterly installments bearing effective interest rates ranging from 7.42% - 9.00% (March 2025 - 8.60% - 9.40%).

During the year, the Group has used all the borrowings for the specific purpose for which they have been obtained.

As at March 31, 2026, the Group has not complied with some of the covenants under loan agreements in respect of non current borrowings of Rs 2,447.29 (Previous year Rs. 29,245.93 lakhs) . The Group has received confirmation from banks that said borrowings will not be recalled as consequence of such breaches.

Borrowings are subsequently measured at amortised cost and therefore interest accrued on current borrowings are included amounting to Rs. 191.87 lakhs (Previous year-Rs. Nil) in the respective amounts.

Borrowings are classified as current liabilities unless, at the end of the reporting period, the Group has a right to defer settlement of the liability for at least 12 months after the reporting period. Where there is a breach of a material provision of a long-term loan arrangement on or before the end of the reporting period with the effect that the liability becomes payable on demand on the reporting date, the entity does not classify the liability as current, if the lender agreed, after the reporting period and before the approval of the financial statements for issue, not to demand payment as a consequence of the breach. Covenants that the group is required to comply with, on or before the end of the reporting period, are considered in classifying loan arrangements with covenants as current or non-current. Covenants that the group is required to comply with after the reporting period do not affect the classification at the reporting date.

13(b) Current borrowings

The group uses a supplier finance arrangement that allows its suppliers to choose to receive early payment of their invoices from a bank. Under this arrangement, the bank settles the invoices owed by the group to participating suppliers, and the group repays the bank on the original invoice due date. The main objective is to provide participating suppliers the option of being paid earlier than the original invoice due date. The participating suppliers agreed, at their own cost, to extend the payment term from the original due date after the invoice date. The payables under the supplier finance arrangement are no longer able to be offset against credit notes received from the supplier. Based on the terms and conditions of its supplier finance arrangement, the Group has determined to present the arrangement under 'Borrowings'. The presentation of the liabilities under supplier finance arrangements is a particular area of judgement.

Particulars	As at March 31, 2026	As at March 31, 2025
Secured loans	**30,648.79**	**12,311.90**

*Loan has been against the credit facility sanctioned to holding company and secured against capital work in progress of First Energy 10 Private Limited and First Energy 11 Private Limited.

Details	Maturity Date	Terms of Payment	Interest Rate	March 31, 2026	March 31, 2025
Loan from Holding Company	Various	Repayable within 1 year from the disbursement (March 31, 2025 - Repayable within 180 days from the disbursement)	7.42%-9.00% (March 2025 - 8.60% to 8.95%)	6,912.01	3,474.78
Loan from Holding Company	On Demand	On Demand	0%	411.62	411.62
Buyer's Line of Credit from Bank	Various	Repayable within 60-180 days from date of shipment (March 31, 2025 - Repayable within 90 days from date of shipment)	6.30% - 7.27% (March 2025 - 7.50% to 7.9%)	15,889.70	9,957.44
Loan from Financial Institution	September 24, 2025	At Maturity (March 31, 2025 - Bullet repayment within 180 days from the disbursement)	7.67% - 8.30% (March 2025 - 8.65%)	30,400.00	29,500.00

Borrowings are subsequently measured at amortised cost and therefore interest accrued on current borrowings are included amounting to Rs. 1,075.71 lakhs (Previous year-Rs. 538.71 lakhs) in the respective amounts.

Purpose of loan-

a) Loan from holding Company: The funds have been obtained for onward lending to the subsidiaries or for working capital requirements including capital expenditure.

b) Loan from Bank: The funds have been obtained for the repayment of the promoter's loan or to meet capital expenditure requirements.

Supplier finance arrangements

Buyer's credit arrangements are characterized by one or more finance providers offering to pay amounts that an entity owes its suppliers for purchases of property, plant and equipments. The entity agreeing to pay according to the terms and conditions of the arrangements at the same date as, or a date later than when suppliers are paid. These arrangements provide the entity with extended payment terms, compared to the related invoice payment due date.

Range of payment due dates	March 31, 2026	March 31, 2025
Liabilities under supplier finance arrangement (Buyer's line of credit)	120 - 180 days from invoice date	NA*
Comparable trade payables that are not part of the supplier finance arrangement (same line of business)	45-60 days from invoice date	NA*

Carrying amount of liabilities under supplier finance arrangement	March 31, 2026	March 31, 2025
Liabilities under supplier finance arrangement	15,889.70	9,957.44
of which the supplier has received payment from the finance provider	15,889.70	NA*

* The Group has not provided comparative information in respect of the amendments to Ind AS 7 and Ind AS 107 relating to supplier finance arrangements, as it has applied the transitional relief available on initial adoption of these amendments, which allows entities not to present comparative disclosures for prior periods.

Net debt reconciliation

Total assets pledged as security	**314,340.73**	**159,253.53**

14(a) Other non-current financial liabilities

Accounting Policy

Liability for put options issued to non-controlling shareholders in subsidiaries, to be settled in cash by the Group, which do not grant present access to ownership interest to the Group is recognised at present value of the redemption amount and is presented as financial liability. The non-controlling interests subject to put options are derecognised and the difference between the amount derecognised and present value of the redemption amount, is accounted for as an equity transaction.

Judgement

In determining whether Non controlling interest (NCI) is to be recognised with respect to shares held by Non controlling shareholders, management takes into consideration the contracts entered, dividend rights and risk reward relationship and exercises judgement in concluding whether NCI is to be recognized.

Particulars	As at March 31, 2026	As at March 31, 2025
Redemption liability	5,196.68	3,308.88
Trade deposits	31.66	26.46
Total	**5,228.34**	**3,335.34**

14(b) Other current financial liabilities

Particulars	As at March 31, 2026	As at March 31, 2025
Payables for Property, plant and equipment (Inclusive of payable to micro and small enterprises Rs. 222.58 lakhs)*	26,553.72	2,943.68
Employee related payables	317.01	241.85
Other payables	26.72	101.63
Total	**26,897.45**	**3,287.16**

*Acceptances of Rs 9,091 lakhs do not materially extend payment terms beyond those agreed with non-participating suppliers and only provide participating suppliers with the benefit of early payment. The Group also does not incur any additional interest cost to the bank on these amounts. Accordingly, these amounts are presented as payable for property, plant and equipment, as their nature and function are consistent with similar payables.

15(a) Other non-current liabilities

Accounting Policy

A contract liability is the obligation to transfer goods or services to a customer for which the Group has received consideration (or an amount of consideration is due) from the customer. If a customer pays consideration before the Group transfers goods or services to the customer, a contract liability is recognised when the payment is made or the payment is due (whichever is earlier). Contract liabilities are recognised as revenue when the Group satisfies the performance obligation. Contract liabilities are recorded in balance sheet as unearned revenue and customer advances as the case may be.

Particulars	As at March 31, 2026	As at March 31, 2025
Contract liabilities		
Unearned revenue	117.51	124.55
Total	**117.51**	**124.55**

15(b) Other current liabilities

Particulars	As at March 31, 2026	As at March 31, 2025
Advance from customers	7.08	34.66
Unearned revenue	31.52	85.99
Contract liabilities	118.44	18.51
Advance from insurance company	-	677.67
Statutory dues*	310.54	262.09
Others	1.54	0.30
Total	**469.12**	**1,079.22**

* mainly includes tax deducted at source, provident fund, GST etc.

16(a) Non-current provisions

Accounting Policy

Provisions are recognised when the Group has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. When the Group expects some or all of a provision to be reimbursed, for example, under an insurance contract, the reimbursement is recognised as a separate asset, but only when the reimbursement is virtually certain. The expense relating to a provision is presented in the Consolidated Statement of Profit and Loss net of any reimbursement.

If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost.

Retirement benefit in the form of provident fund is a defined contribution scheme. The Group has no obligation, other than the contribution payable to the provident fund. The Group recognizes contribution payable to the provident fund scheme as an expense when an employee renders the related service. If the contribution payable to the scheme for service received before the balance sheet date exceeds the contribution already paid, the deficit payable to the scheme is recognized as a liability after deducting the contribution already paid. If the contribution already paid exceeds the contribution due for services received before the balance sheet date, then excess is recognized as an asset to the extent that the pre-payment will lead to, for example, a reduction in future payment or a cash refund.

The Group operates a defined benefit gratuity plan, which is unfunded. The cost of providing benefits under the defined benefit plan is determined using the projected unit credit method.

Remeasurements, comprising of actuarial gains and losses are recognized immediately in the balance sheet with a corresponding debit or credit to retained earnings through OCI in the period in which they occur. Remeasurements are not reclassified to the Statement of profit and loss in subsequent periods.

Past service costs are recognized in the Statement of profit and loss on the earlier of:

- The date of the plan amendment or curtailment, and
- The date that the Group recognizes related restructuring costs.

Net interest is calculated by applying the discount rate to the net defined benefit liability or asset. The Group recognizes the following changes in the net defined benefit obligation as an expense in the Statement of profit and loss:

- Service costs comprising current service costs, past-service costs, gains and losses on curtailments and non-routine settlements; and
- Net interest expense or income

The compensated absences such as privileged leave and sick leave are not expected to be settled wholly within 12 months after the end of the period in which the employees render the related service. They are therefore measured as the present value of expected future payments to be made in respect of services provided by employees up to the end of the reporting period using the projected unit credit method. The benefits are discounted using the market yields at the end of the reporting period that have terms approximating to the terms of the related obligation. Remeasurements as a result of experience adjustments and changes in actuarial assumptions are recognised in the Consolidated Statement of Profit and Loss. The Group does not have an unconditional right to defer settlement for any of these obligations and therefore have been classified as current liability. However, based on past experience, the Group does not expect all employees to take the full amount of accrued leave or require payment within twelve months.

Provision for Long term incentive is calculated using the projected unit credit method to determine the present value of its defined benefit obligations and the related current service cost.

Estimates and assumptions

Long Term Incentive Plan

The provision for other long term employee benefits which is recognized considering the estimated payout expected by the Group at present value using projected unit credit method. These include the determination of the discount rate and attrition rate. All assumptions are reviewed at each reporting date. The parameter which is most subjected to change is the attrition rate. In determining the appropriate discount rate for plans operated in India, the management considers the interest rates of government bonds in currencies consistent with the currencies of the long-term incentives.

Defined benefit plan - Gratuity

The cost of the defined benefit gratuity plan and the present value of the gratuity obligation are determined using actuarial valuations. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases and mortality rates. Due to the complexities involved in the valuation and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date. The parameter which is most subjected to change is the discount rate. In determining the appropriate discount rate for plans operated in India, the management considers the interest rates of government bonds in currencies consistent with the currencies of the post-employment benefit obligation. The mortality rate is based on Indian Assured Lives Mortality (2012-14) Ultimate. Those mortality tables tend to change only at interval in response to demographic changes. Future salary increases are based on expected future inflation rates.

Particulars	As at March 31, 2026	As at March 31, 2025
Provision for employee benefits		
Provision for gratuity (Refer note 16 (c))	148.03	104.63

Total	**531.64**

Notes to the consolidated financial statements for the year ended March 31, 2026

(All amounts are in Rupees Lakhs, except per share data and unless stated otherwise)

16(c) Employee benefits plan

A Defined contribution plans

The group also has certain defined contribution plan. Contributions are made to provident fund in India for employees at the rate of 12% of basic salary as per regulations. The contributions are made to registered provident fund administered by the government. The obligation of the group is limited to the amount contributed and it has no further contractual nor any constructive obligation. The expense recognised during the period towards defined contribution plan is Rs 140.26 lakhs (31 March 2025 – Rs 113.40 lakhs).

B Defined benefit plans and other long term plans

i) Compensated absences

The Compensated Absences cover the group's liability for earned leave which are classified as other long-term benefits.

The entire amount of the provision of Rs.151.52 lakhs (31 March 2025 – Rs.105.15 lakhs) is presented as current, since the group does not have an unconditional right to defer settlement for any of these obligations. However, based on past experience, the group does not expect all employees to avail the full amount of accrued leave or require payment for such leave within the next 12 months.

Particulars	As at March 31, 2026	As at March 31, 2025
Leave obligations not expected to be settled within the next 12 months	124.55	87.61

ii) Gratuity

The Group operates a defined benefit plan viz. gratuity for its employees. Under the gratuity plan, every employee who has completed at least specified years of service gets a gratuity on departure at 15 days (minimum) of the last drawn salary for each completed year of service.

The new Labour Codes introduced by the Government of India, inter alia, require gratuity to be calculated based on wages constituting at least 50% of total remuneration. This has resulted in an increase in gratuity benefits in respect of services rendered in prior periods, and accordingly, the group has recognised past service cost amounting to INR 10.10 lakhs during the year. In accordance with Ind AS 19, the past service cost has been recognised in the statement of profit and loss in the current year in which the plan amendment became effective. The gratuity obligation has been actuarially valued by an independent actuary using the projected unit credit method, considering the revised definition of wages for gratuity computation.

I Changes in the net benefit obligation is as follows :

Particulars	Amount
April 1, 2024	**87.51**
Current service cost	46.57
Transfer In	(2.27)
Interest expense	6.03
Total amount recognised in Profit or Loss	**50.33**
Experience adjustments	(21.72)
Actuarial loss from change in financial assumptions	3.72
Demographic adjustments	(4.85)
Total amount recognised in Other Comprehensive (Income)/Loss	**(22.85)**
Benefits paid	(3.99)
March 31, 2025	**111.00**
Current service cost	54.12
Past service cost	10.10
Transfer in/out	3.30
Interest expense/(income)	6.94
Total amount recognised in Profit or Loss	**74.46**
Experience adjustments	(16.42)
Actuarial gain from change in financial assumptions	(5.98)
Total amount recognised in Other Comprehensive (Income)/Loss	**(22.40)**
Benefits paid	(11.49)
March 31, 2026	**151.57**

II Significant assumptions

Particulars	March 31, 2026	March 31, 2025
Discount rate	7.20%	6.60%
Future Salary growth rate	10.00%	10.00%
Normal retirement age	60	60
Mortality table	IALM(2012-14) Ultimate	IALM(2012-14) Ultimate
Attrition rate	15.00%	15.00%

IV Sensitivity analysis

The sensitivity of defined obligation to changes in the weighted principal assumptions is:

Assumption	Impact on defined benefit obligation	
	March 31, 2026	March 31, 2025
Discount rate		
1.00% increase	Decrease by 9.14	Decrease by 6.08
1.00% decrease	Increase by 10.20	Increase by 6.73
Future salary increase		
1.00% increase	Increase by 8.37	Increase by 5.41
1.00% decrease	Decrease by 7.69	Decrease by 5.01
Attrition rate		
1.00% increase	Decrease by 1.26	Decrease by 0.93
1.00% decrease	Increase by 1.38	Increase by 1.02

The above sensitivity analysis is based on a change in assumption while holding all other assumptions constant. In practice, this is unlikely to occur and changes in some of the assumptions may be correlated. When calculating the sensitivity of the defined benefit obligation to significant actuarial assumptions the same method (present value of defined benefit obligation calculated with the Projected Unit Credit Method at the end of the reporting period) has been applied as when calculating the defined benefit liability recognised in the balance sheet. The method and types of assumptions used in preparing the sensitivity analysis did not change compared to the previous periods.

The following are the expected cash flows/contribution to the defined benefit plan in future years:

Particulars	March 31, 2026	March 31, 2025
Within next 12 months	3.54	6.37
Between 2-5 years	103.70	60.71
Next 5 years	262.52	216.79

The average duration of the defined benefit plan obligation at the end of the reporting period is 10.91 years (March 31, 2025: 9.71 years)

(iii) Other long-term employee benefits

Group offers cash bonuses to certain managerial employees the amount of which is based on performance of the group in a specific year. The amount of provision recognised for the long term employee benefit is Rs. 467.86 lakhs (31 March 2025 – Rs. 312.49 lakhs).

17 Trade payables

Particulars	As at March 31, 2026	As at March 31, 2025
Trade payables: micro and small enterprises	208.91	71.67
Due to other than micro and small enterprises		
Trade payables to related parties (refer note 32)	224.17	646.25
Trade payables: others	569.34	574.05
Total	**1,002.42**	**1,291.97**

Trade payables are non-interest bearing and are generally on terms of 30 to 90 days.

Details of dues to micro and small enterprises as defined under the Micro, Small and Medium Enterprises Development (MSMED) Act, 2006

Particulars	As at March 31, 2026	As at March 31, 2025
The principal amount and the interest due thereon remaining unpaid to any supplier as at the end of each accounting year		
- Principal amount dues to micro and small enterprises*	431.49	71.67
- Interest due thereon	2.92	2.67
The amount of interest paid by the Group in terms of section 16 of the MSMED Act, 2006 along with the amounts of the payment made to the supplier beyond the appointed day during each accounting year	-	-
The amount of payment made to the supplier beyond the appointed day during the year	1,691.31	473.65
The amount of interest due and payable for the period of delay in making payment (which have been paid but beyond the appointed day during the year) but without adding the interest specified under the MSMED Act, 2006	11.99	4.94
The amount of interest accrued and remaining unpaid at the end of each accounting year	9.94	7.61
The amount of further interest remaining due and payable even in the succeeding years, until such date when the interest dues as above are actually paid to the small enterprise for the purpose of disallowance as a deductible expenditure under section 23 of the MSMED Act 2006	24.85	9.94

* Information in this regard is on basis of intimation received, on requests made by the Group, with regards to registration of vendors under the MSMED Act, 2006 Act.

The ageing of current trade payables which are due for payment :

Particulars	Not Due	Unbilled	Not Due	Outstanding for the following period from due date of payments				Total
				Less than a year	1-2 years	2-3 years	More than 3 years	
(i) MSME	March 31, 2026	144.76	9.69	35.88	15.01	2.96	0.61	**208.91**

* Unbilled trade payables includes accruals which are not classified as provisions under IND AS 37 "Provisions, Contingent Liabilities and Contingent Assets"

18(a) Non-current lease liabilities

Particulars	As at March 31, 2026	As at March 31, 2025
Lease liabilities (refer note 29)	4,776.53	976.20
Total	**4,776.53**	**976.20**

18(b) Current lease liabilities

Particulars	As at March 31, 2026	As at March 31, 2025
Lease liabilities (refer note 29)	371.05	226.80
Total	**371.05**	**226.80**

19 Revenue from operations

Accounting Policy

Revenue from contracts with customers

Revenue from contracts with customers is recognized when control of the goods or services are transferred to the customer at the amount of the transaction price allocated to the performance obligation. Revenue is recognized when it has approval and commitment from both parties, the rights of the parties are identified, payment terms are identified, the contract has commercial substance and collectability of consideration is probable. The Group has concluded that it is the principal in all of its revenue arrangements since it is the primarily responsible for fulfilling the promise to provide the specified good or service and has discretion in establishing the price for the specified good or service.. The Group collects goods and services tax on behalf of the government and, therefore, it is not an economic benefit flowing to the Group. Hence, it is excluded from revenue.

Notes to the consolidated financial statements for the year ended March 31, 2026
(All amounts are in Rupees Lakhs, except per share data and unless stated otherwise)

The Group has following streams of revenue

Revenue from sale of power

Revenue from sale of power is recognised at transaction price and over time for each unit of electricity delivered at the contracted rate. The transaction price is adjusted for significant financing component, if any and the adjustment is accounted as finance cost. Revenue recognized includes amounts billed to consumers on the basis of recording of consumption of energy by installed meters based on the applicable tariff agreed in purchase power agreement, which are recognized considering past trends of approval, management's probability estimate and when no significant uncertainty exists in such determination.

At the end of each reporting period, the Group updates the estimated transaction price to represent the circumstances present at the end of the reporting period and the changes in circumstances during the reporting period. The Group accounts for such changes in the transaction price (including claims). Consideration / claim payable to a customer includes cash amounts that an entity pays to the customer. The Group accounts for consideration payable to a customer as a reduction of the transaction price and, therefore, of revenue unless the payment to the customer is in exchange for a distinct good or service that the customer transfers to the entity. The consideration payable to a customer includes a variable amount.

Revenue from Engineering, Procurement and Construction contracts

Engineering, Procurement and Construction (EPC) contracts are contracts specifically negotiated for the construction of an asset which refers to any project for construction of plants and systems, involving designing, engineering, fabrication, supply, erection (or supervision thereof), commissioning, guaranteeing performance thereof etc., execution of which is spread over different accounting periods. The Group identifies distinct performance obligations in each contract. For most of the contracts, the customer contracts with the Group to provide a significant service of integrating a complex set of tasks and components into a single project or capability. Hence, the entire contract is accounted for as one performance obligation.

The Group may promise to provide distinct goods or services within a contract, in which case the Group separates the contract into more than one performance obligation. If a contract is separated into more than one performance obligation, the Group allocates the total transaction price to each performance obligation in an amount based on the estimated relative standalone selling prices of the promised goods or services underlying each performance obligation. The Group uses the expected cost plus a margin approach to estimate the standalone selling price of each performance obligation in case of contracts with more than one distinct performance obligations.

The Group assesses for the timing of revenue recognition in case of each distinct performance obligation. The Group first assesses whether the revenue can be recognized over a period of time if any of the following criteria is met:

(a) The customer simultaneously consumes the benefits as the Group performs, or

(b) The customer controls the work-in-progress, or

(c) The Group's performance does not create an asset with alternative use to the Group and the Group has right to payment for performance completed till date.

The Group uses cost-based measure of progress (or input method) for contracts because it best depicts the transfer of control to the customer which occurs as it incurs costs on contracts. Under the cost-based measure of progress, the extent of progress towards completion is measured based on the ratio of costs incurred to date to the total estimated costs at completion of the performance obligation. Revenues, including estimated profits, are recorded proportionally as costs are incurred.

Costs associated with bidding for contracts are charged to the Statement of profit and loss when they are incurred. Costs that relate directly to a contract and are incurred in securing the contract are included as part of the contract costs if they can be separately identified and measured reliably and it is probable that the contract will be obtained.

Contract modification, when approved by both the parties to the contract, are considered as modification, if it creates new or changes the existing enforceable rights and obligations. Most of the contract modifications are not distinct from the existing contract due to the significant integration service provided under the contract prior to modifications and are therefore, accounted for as part of the existing contract. The effect of a contract modification is recognized as an adjustment to revenue on a cumulative catch-up basis.

When it becomes probable that the total contract costs will exceed the total contract revenue, the Group recognizes the expected losses from onerous contract as an expense immediately.

Penalties for any delay or improper execution of a contract are recognized as a deduction from revenue. In the balance sheet, such provisions are presented on net basis of the contract receivables

Revenue from leases (Group as a lessor)

Refer note 29 for accounting policy.

Revenue from Sale of services

Revenue in respect of operation and maintenance contract, awarded on a standalone basis or included in long term contracts and identified as a separate performance obligation, is recognized on a time proportion basis under the contracts.

Judgements

A significant revenue of the Group's business relates to EPC contracts which is accounted using cost-based input method, recognizing revenue as the performance on the contract progresses. This requires management to make judgement with respect to identifying contracts for which revenue need to be recognised over a period of time, depending upon when the customer consumes the benefit, when the control is passed to customer, whether the asset created has an alternative use and whether the Group has right to payment for performance completed till date, either contractually or legally. The input method requires management to make significant judgements of the extent of progress towards completion including accounting of multiple contracts which need to be combined and considered as a single contract.

In determining whether revenue contract (power purchase agreement) with customer especially when entire contractual capacity of one project (solar / wind project) is committed to one customer, management exercises judgement in concluding whether contract contains lease. Management takes into consideration who is responsible for design of the project and who has right to direct the use of solar plant.

Estimates and assumptions

Project cost to complete estimates: At each reporting date, the Group is required to estimate costs to complete on fixed-price contracts. Estimating costs to complete on such contracts requires the Group to make estimates of future costs to be incurred, based on work to be performed beyond the reporting date. This estimate will impact revenues, cost of sales, contract assets and contract liabilities.

Particulars	Year ended March 31, 2026	Year ended March 31, 2025
a) Revenue from contracts with customers		
Revenue from projects	64.39	1,090.01
Revenue from power supply	13,887.96	9,037.95
Revenue from sale of trading goods	-	390.05
Revenue from services	34.08	0.14
Revenue from operating lease	76.27	81.50
Total	**14,062.70**	**10,599.65**
b) Other operating revenue		
Interest income from finance lease	41.98	47.56
Exchange fluctuation gain (net)	0.17	-
Duty Drawback	-	2.23
Total	**42.15**	**49.79**
Revenue from operations (net)	**14,104.85**	**10,649.44**

(c) Disclosure pursuant to IND AS 115: Revenue from contracts with customers

Particulars	Year ended March 31, 2026	Year ended March 31, 2025
i) Revenue by category of contracts:		
Over a period of time basis	14,051.98	10,209.60
At a point-in-time basis	10.72	390.05
Total revenue from contracts with customers	**14,062.70**	**10,599.65**
ii) Revenue by geographical market:		
Within India	14,051.98	10,072.97
Outside India	10.72	526.68
Total revenue from contracts with customers	**14,062.70**	**10,599.65**

iii) Contract balances

The following table provides information about contract balances from contracts with customers as at the reporting date:

Particulars	As at March 31, 2026	As at March 31, 2025
Unbilled revenue (Refer note 6(b)) - Contract assets	6.36	38.67
Advance from Customers (Refer Note 15(b)) - Contract liabilities	7.08	34.66
Unearned revenue (Refer Note 15(a) and (b)) Contract liabilities	149.03	229.05

Contract assets primarily relate to the Group's rights to consideration for work completed but not billed at the reporting date from projects and customised contracts. The Contract assets are transferred to Trade receivables on completion of milestones and its related invoicing.

The contract liabilities relate to unearned revenue and customer advances where performance obligations are yet to be fulfilled as per the contracts. The fulfilment of the performance obligations will extinguish these liabilities and revenue will be recognised, with no impact on the Group's cash positions on specific projects.

Contract assets have decreased as the group has provided fewer projects ahead of the agreed payment schedules for fixed-price contracts. Contract liabilities have decreased as the group has received fewer advance against the future products and services to be provided.

iv) Revenue recognised in the reporting period that was included in the contract liabilities balance at the beginning of the year:

Particulars	Year Ended March 31, 2026	Year Ended March 31, 2025
Unearned revenue	63.42	386.75
Customer advance	0.97	299.55

(v) Remaining performance obligations:

The Group applies practical expedient included in para 121 of Ind AS 115 and does not disclose information about its remaining performance obligations for contracts that have an original expected duration of one year or less or where the entity has a right to consideration from a customer in an amount that corresponds directly with the value to the customer of the entity's performance completed till date.

vi) Reconciliation between revenue recognised in Statement of profit and loss and contract price

Particulars	Year Ended March 31, 2026	Year Ended March 31, 2025
Contract price	14,287.22	10,811.76
Adjustments for:		
Customer claims	(243.07)	(231.14)
Significant Financing Component	18.55	19.03
Pre Operative Revenue Capitalized	(308.00)	-
Total Revenue recognised	**14,062.70**	**10,599.65**

20 Other income

Accounting Policy

Interest income

For all financial instruments measured at amortized cost, interest income is recorded using the effective interest rate (EIR). EIR is the rate that exactly discounts the estimated future cash payments or receipts over the expected life of the financial instrument or a shorter period, where appropriate, to the gross carrying amount of the financial asset or to the amortized cost of a financial liability. Interest income is included in finance income in the Consolidated Statement of profit and loss.

Particulars	Year Ended March 31, 2026	Year Ended March 31, 2025
Net gain on current investments designated at fair value through profit or loss (FVTPL)	233.96	104.11
Interest Income on bank deposits	178.19	99.80
Provisions no longer required written back	106.29	75.42
Miscellaneous income	34.58	51.11
Total	**553.02**	**330.44**

21 Cost of raw materials consumed

Particulars	Year Ended March 31, 2026	Year Ended March 31, 2025
Inventories at the beginning of the year	-	-
Add: Purchases	50.42	534.21
Inventories at the end of the year	-	-
Total	**50.42**	**534.21**

Notes to the consolidated financial statements for the year ended March 31, 2026
(All amounts are in Rupees Lakhs, except per share data and unless stated otherwise)

22 Employee benefits expense

Particulars	Year Ended March 31, 2026	Year Ended March 31, 2025
Salaries, Wages and Bonus	742.51	288.16
Contribution to provident and other funds (Refer note 16 (c))	140.26	113.40
Gratuity expense (Refer note 16 (c))	74.46	50.33
Staff welfare expenses	89.30	81.71
Total	**1,046.53**	**533.60**

23 Finance costs

Accounting Policy

Borrowing costs directly attributable to the acquisition, construction or production of a qualifying assets are capitalized as part of the cost of the asset. All other borrowing costs are expensed in the period in which they occur. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds.

Borrowing costs pertaining to qualifying assets are presented as part of financing activities in statement of cash flows.

Judgments

Significant management judgement is involved in determining whether the asset (solar/wind projects) is a qualifying asset using the factors such as period of time to get ready, nature of activities necessary and industry practice. The construction of solar/wind projects involves a period ranging from 12 months to 18 months.

Particulars	Year Ended March 31, 2026	Year Ended March 31, 2025
Interest expense on loan from bank/financial institutions	8,091.12	6,264.30
Interest expense on loan from Holding Company	1,448.63	505.41
Interest and finance charges on lease liabilities	97.74	100.31
Finance cost on redemption liability	354.62	248.36
Other finance costs	130.67	3.72
Total	**10,122.78**	**7,122.10**

24 Depreciation and amortization expense

Particulars	Year Ended March 31, 2026	Year Ended March 31, 2025
Depreciation of property, plant and equipment	5,776.61	3,807.64
Impairment of property, plant and equipment	-	293.81
Depreciation of right-of-use assets	39.23	66.81
Amortization of intangible assets	12.92	20.00
Expenses recovered from group companies	-	-
Total	**5,828.76**	**4,188.26**

25 Other expenses

Particulars	Year Ended March 31, 2026	Year Ended March 31, 2025
Power and fuel	44.85	39.23
Technical charges	106.26	107.04
Site expenses and contract labour charges	420.65	263.47
Operation and maintenance charges	770.69	372.81
Advertisement and sales promotion	2.87	3.00
Rent	15.51	10.96
Rates and taxes	115.19	88.97
Insurance	679.28	404.80
Repairs and maintenance		
- Computers	0.03	0.03
- Others	218.48	62.61
Travelling and conveyance	92.04	71.54
Legal and professional fees	423.25	393.04
Recruitment expenses	0.88	17.48
Director sitting fees	23.10	-
Management overhead fees	278.09	178.75
Provision for impairment allowance of financial assets (net)	34.28	297.42
Exchange fluctuation loss (net)	0.05	8.17
Bad debts written off (Refer note iii)	-	12.56
Loss on sale of asset	991.24	-
Liquidated damages (Refer note (ii))	1,331.48	-
Miscellaneous expenses	96.02	251.58
Total	**5,644.24**	**2,583.46**

(i) None of the Companies in the Group meet the criteria specified in sub section (1) of section 135 of the Companies Act, 2013, read with Corporate Social Responsibility (CSR) Rules, 2014. Therefore, it is not required to incur any expenditure on account of CSR activities during the current and previous year.

(ii) One of the companies within the Group has recognised a provision for liquidated damages on account of the delay in commissioning the power plant beyond the Scheduled Commercial Operation Date (SCOD) / Extended COD, in accordance with the terms of the Power Purchase Agreement (PPA).

(iii) During the year, the Group has written off security deposits and other receivables amounting to INR 239.11 lakhs (Previous year: Nil) which has been adjusted with impairment provision of Rs. 239.11 lakhs created in the previous year.

26 Exceptional Items

Particulars	Year Ended March 31, 2026	Year Ended March 31, 2025
Insurance income received (refer note below)	4,124.07	-
Impairment Expense on non current assets (refer note 4(a) and 6(a))	(3,394.84)	-
Total	**729.23**	**-**

Note :

During December 2023 and 2024, flooding in Tamil Nadu inundated solar power plants of two subsidiaries, pursuant to which insurance claims towards damaged assets and business interruption amounting to Rs 2,575.05 lakhs and Rs 1,549.02 lakhs, respectively, were settled and recognized as Exceptional Items, and a loss of Rs 986.00 lakhs arising from the disposal of old and flood-affected modules undertaken to restore generation capacity was also recognized as other expense during the year ended March 31, 2026.

27 Loss per share

Accounting Policy

The Group presents the basic and diluted earnings/loss per share (EPS) for its equity shares. Basic EPS is computed by dividing the net profit/ (loss) for the year attributable to the equity shareholders of the Group by the weighted average number of equity shares outstanding during the year. Diluted EPS is computed by adjusting the loss for the year attributable to the equity shareholders and the weighted average number of equity shares considered for deriving basic EPS for the effects of all the equity shares that could have been issued upon conversion of all dilutive potential equity shares.

Particulars	Year Ended March 31, 2026	Year Ended March 31, 2025
Loss attributable to the Equity shareholders of the Group	(7,332.18)	(4,173.25)
Weighted average number of Equity shares of 10/- each	563,217,735	415,337,543
Basic Loss per share	(1.30)	(1.00)
Diluted Loss per share	(1.30)	(1.00)

28 Contingent liabilities and commitments

Accounting Policy

A) Contingent Liability

A disclosure for a contingent liability is made where there is a possible obligation that arises from past events and the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Group or a present obligation that arises from the past events where it is either not probable that an outflow of resources will be required to settle the obligation or a reliable estimate of the amount cannot be made.

The Group does not have any contingent liability during the year or as at year end.

B) Capital and other commitment

Estimated amount of contracts remaining to be executed on capital account (net of advances) and not provided for is Rs.52,850.12 lakhs (March 31, 2025 Rs. 11,434.39 lakhs).

29 Leasing Arrangements

i) Where the Group is lessor

Accounting Policy

Leases in which the Group does not transfer substantially all the risks and rewards of ownership of an asset are classified as operating leases. Rental income from operating lease is recognized on a straight-line basis over the term of the relevant lease.

Leases are classified as finance leases when substantially all of the risks and rewards of ownership transfer from the Group to the lessee. Amounts due from lessees under finance leases are recorded as receivables at the Group's net investment in the leases. Finance lease income is allocated to accounting periods so as to reflect a constant periodic rate of return on the net investment outstanding in respect of the lease.

a) Amounts receivable under Finance lease -

The Group has entered into certain arrangements with its customers where the Group will supply electricity by installing solar power generating system at customers' premises. The Group has determined, that fulfilment of these arrangements is dependent on the use of a specific asset and the arrangement conveys a right to use these specific asset to the customers. Accordingly, these arrangements qualify as arrangements in the form of lease as specified in Ind-AS 116. Based on the evaluation of terms and conditions of these arrangements, such as the contract term constituting a major part of the economic life of the specific assets, the fair value of the asset and that it has transferred the significant risks and rewards in these assets to the customers, these lease arrangements have been classified as finance leases.

Particulars	Gross Investment in lease		Present value of minimum lease payments	
	March 31, 2026	March 31, 2025	March 31, 2026	March 31, 2025
Within one year	66.51	66.51	59.04	59.04
After one year but not more than five years	140.90	176.66	88.81	109.12
More than five years	205.03	235.79	55.08	59.31
	412.44	**478.96**	**202.93**	**227.47**
Less: Unearned finance income	209.51	251.50	-	-
Present value of minimum lease payments receivable	202.93	227.46	202.93	227.47
Allowance for uncollectible lease payments	-	-	-	-

Particulars	March 31, 2026	March 31, 2025
Current portion of finance lease receivables	66.51	66.51
Non-current portion of finance lease receivables	136.42	160.95

Particulars	March 31, 2026	March 31, 2025
Estimated unguaranteed residual value of assets under finance lease	-	-
Contingent rent recognised as income during the year	-	-
Interest rate inherent in the lease per annum	16.38% - 28.19%	16.38% - 28.19%

(b) Operating Lease

The Group has leased a solar power generating system. The tenure of lease agreement is 15 years.

Particulars	March 31, 2026	March 31, 2025
Lease received for the year	76.27	81.50

Particulars	March 31, 2026	March 31, 2025
Future minimum lease rental receivables under non-cancellable operating leases are as follows:		
Within one year	-	-
After one year but not more than five years	-	-
More than five years	-	-

ii) Group as lessee

Accounting Policy

The Group lease asset classes primarily consist of office buildings and leasehold lands. The Group assesses whether a contract contains a lease, at inception of a contract. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Group assesses whether: (1) the contract involves the use of an identified

Notes to the consolidated financial statements for the year ended March 31, 2026
(All amounts are in Rupees Lakhs, except per share data and unless stated otherwise)

asset (2) the Group has substantially all of the economic benefits from use of the asset through the period of the lease and (3) the Group has the right to direct the use of the asset.

At the date of commencement of the lease, the Group recognizes a right-of-use asset and a corresponding lease liability for all lease arrangements in which it is a lessee, except for leases with a term of twelve months or less (short-term leases) and low value leases. For these short-term and low value leases, the Group recognizes the lease payments as an operating expense on a straight-line basis over the term of the lease. Lease arrangements include the options to extend or terminate the lease before the end of the lease term. Right-of-use assets and lease liabilities includes these options when it is reasonably certain that they will be exercised.

The right-of-use assets are initially recognized at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or prior to the commencement date of the lease plus any initial direct costs less any lease incentives. They are subsequently measured at cost less accumulated depreciation and impairment losses.

Right-of-use assets are depreciated from the commencement date on a straight-line basis over the shorter of the lease term and useful life of the underlying asset. Right of use assets are evaluated for recoverability whenever events or changes in circumstances indicate that their carrying amounts may not be recoverable. For the purpose of impairment testing, the recoverable amount (i.e. the higher of the fair value less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the Cash Generating Unit (CGU) to which the asset belongs.

The lease liability is initially measured at present value of the future lease payments. The lease payments include fixed payments less any lease incentives receivable and amounts expected to be paid under residual value guarantees. There are no variable lease payments.

Lease liability and ROU asset have been separately presented in the Balance Sheet and lease payments have been classified as financing cash flows.

The Group has taken office building and lands on leases for a tenure of 1.5 to 29 years, and has extension option for office building as per mutual consent. There are no variable lease payments and residual value guarantees for these leases.

Extension and termination options are included in a number of leases across the group. These are used to maximise operational flexibility in terms of managing the assets used in the group's operations.

Carrying amounts of lease liabilities and the movements during the year:

Particulars	March 31, 2026	March 31, 2025
At the beginning of the year	1,203.00	1,211.89
Additions	6,057.58	40.63
Accretion of interest*	312.80	109.40
Payments made	(2,425.80)	(158.92)
As at end of the year	**5,147.58**	**1,203.00**
Current portion of lease liabilities	371.05	226.80
Non-current portion of lease liabilities	4,776.53	976.20
Total	**5,147.58**	**1,203.00**

*includes amount of Rs 215.05 lakhs (March 31, 2025 - Rs 9.09 lakhs) capitalised during the year.

Details of amounts recognised in statement of profit and loss

Particulars	March 31, 2026	March 31, 2025
Depreciation expense of right-of-use assets	39.23	66.81
Interest expense on lease liabilities	97.74	100.31
Expense relating to leases of low-value assets (included in other expenses)	15.51	10.96
Total amount recognised in statement of profit and loss	**152.48**	**178.08**

30 Interest in subsidiaries

The consolidated financial statements of the Group includes subsidiaries listed in the table below. Unless otherwise stated, they have share capital consisting solely of equity shares that are held directly by the Group, and the proportion of ownership interests held equals the voting rights held by the Group. The country of incorporation or registration is also their principal place of business.

Sr. No.	Name of the entity	Place of business/ Country of incorporation	Ownership interest	
			March 31, 2026	March 31, 2025

33 Segment reporting

Accounting Policy

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker (CODM). The Board of Directors of the First Energy Private Limited has been identified as the chief operating decision maker of the Group.

Judgements

Ind AS 108 - "Operating Segments" requires Management to determine the reportable segments for the purpose of disclosure in consolidated financial statements based on the internal reporting reviewed by Chief Operating Decision Maker (CODM) to assess performance and allocate resources. The Standard also requires Management to make judgments with respect to aggregation of certain operating segments into one or more reportable segment.

Operating segments used to present segment information are identified based on the internal reports used and reviewed by the Board of Directors to assess performance and allocate resources. The management has determined the some business exhibit similar economic characteristics and meet other aggregation criteria and accordingly aggregated into two reportable segments - CAPEX Business and OPEX Business. CAPEX Business means providing behind the meter solutions like supply of solar power generating systems and related services and OPEX Business means power generation through open access solutions and related services. The CODM evaluates the segments based on their revenue and operating results.

The composition of these segments is given below:

Segment Revenue, Segment Results, Segment Assets and Segment Liabilities include the respective amounts identifiable to each of the segments and amounts allocated on a reasonable basis.

I Information about Business Segments:

Sr. No.	Particulars	March 31, 2026	March 31, 2025
i	**Segment revenue**		
	a. OPEX	14,040.45	9,037.95
	b. CAPEX	64.40	1,611.49
	Income from operations	**14,104.85**	**10,649.44**
ii	**Depreciation and amortization**		
	a. OPEX	5,789.03	4,158.30
	b. CAPEX	39.73	29.96
		5,828.76	**4,188.26**
iii	**Segment results**		
	Profit/(Loss) before tax from each segment		
	a. OPEX	(8,336.60)	(5,116.49)
	b. CAPEX	(145.09)	730.81
	Total	**(8,481.69)**	**(4,385.68)**
	Other unallocable income net of unallocable expenses	442.66	203.91
	Exceptional items (relating to OPEX)	729.23	-
	Total loss before tax	**(7,309.78)**	**(4,181.77)**
iv	**Segment Assets**		
	a. OPEX	292,348.34	191,295.37
	b. CAPEX	1,263.84	939.12
	c. Unallocated	13,572.11	6,058.48
	Total Assets	**307,184.29**	**198,292.97**
v	**Segment Liabilities**		
	a. OPEX	212,268.75	155,710.30
	b. CAPEX	98.66	225.27
	c. Unallocated	9,800.04	6,136.50
	Total Liabilities	**252,568.79**	**162,072.07**

Reconciliations to amounts consolidated in financial statements

Reconciliation of assets

Particulars	March 31, 2026	March 31, 2025
Segment operating assets	293,612.18	192,234.49
Investments	3,739.63	653.62
Cash and bank balances	8,543.40	4,370.61
Income tax assets	710.57	281.95
Other unallocated assets (majorly includes deposits with original maturity of more than 12 months)	578.51	752.30
Total assets	**307,184.29**	**198,292.97**

Reconciliation of liabilities

Particulars	March 31, 2026	March 31, 2025
Segment operating liabilities	242,768.75	155,935.57
Borrowings	9,761.80	6,115.48
Deferred tax liabilities	38.24	21.03
Total liabilities	**252,568.79**	**162,072.07**

II Information about geographic segment

Revenue from external customers

Particulars	March 31, 2026	March 31, 2025
India	14,094.13	10,122.76
Outside India	10.72	526.68
Total	**14,104.85**	**10,649.44**

Non-current asset

Particulars	March 31, 2026	March 31, 2025
India	289,425.90	189,250.14
Outside India	-	-
Total	**289,425.90**	**189,250.14**

III Material items of income and expense : Finance costs

Particulars	March 31, 2026	March 31, 2025
Capex	-	-
Opex	10,122.78	7,122.09
Total	**10,122.78**	**7,122.09**

34I Fair value measurements

Estimates and assumptions

Fair value measurement of unquoted financial instruments

When the fair values of financial assets and financial liabilities recorded in the balance sheet cannot be measured based on quoted prices in active markets, their fair value is measured using valuation techniques including the DCF model. The inputs to these models are taken from observable markets where possible, but where this is not feasible, a degree of assumption is required in establishing fair values. Assumptions include considerations of inputs such as liquidity risk, credit risk and volatility. Changes in assumptions about these factors could affect the reported fair value of financial instruments.

(i) Financial assets

Details of financial assets carried at amortised cost:

Particulars	March 31, 2026	March 31, 2025
Trade receivables	2,315.36	1,370.64
Finance Lease receivables	202.93	227.46
Cash and cash equivalents	6,454.40	4,187.55
Bank balances other than cash and cash equivalents	2,089.00	183.06
Other financial assets	1,786.58	1,844.65
Total	**12,848.27**	**7,813.36**
Current assets	12,612.32	7,520.51
Non-current assets	235.95	292.85
Total	**12,848.27**	**7,813.36**

The management has assessed that the carrying amounts of the above financial instruments approximate their fair values.

Break-up of financial assets carried at fair value through profit and loss

Particulars	March 31, 2026	March 31, 2025
Financial assets		
Investments		
Mutual funds	3,739.63	653.62
Total financial assets (Current)	**3,739.63**	**653.62**

Fair value of market linked mutual funds is determined using Net Asset Value (NAV) report issued by mutual fund house.

(ii) Financial liabilities

Details of financial liabilities carried at amortised cost

Particulars	March 31, 2026	March 31, 2025
Borrowings	211,562.70	151,198.16
Trade payables	1,002.42	1,291.97
Other financial liabilities	32,125.79	6,622.50
Total	**244,690.91**	**159,112.63**
Current liabilities	85,772.29	50,563.51
Non current liabilities	158,918.62	108,549.12
Total	**244,690.91**	**159,112.63**

The management has assessed that the carrying amounts of the above financial instruments approximate their fair values.

II Fair value hierarchy

The following table provides the fair value measurement hierarchy of the Group's assets and liabilities.

Quantitative disclosures fair value measurement hierarchy for assets as at March 31, 2026 and March 31, 2025

	Date of valuation	Level 1	Level 2	Level 3
Financial assets				
Investments				
Mutual funds	March 31, 2026	3,739.63	-	-
Mutual funds	March 31, 2025	653.62	-	-

Notes to the consolidated financial statements for the year ended March 31, 2026
(All amounts are in Rupees Lakhs, except per share data and unless stated otherwise)

Level 1: Level 1 hierarchy includes financial instruments measured using quoted prices

Level 2: The fair value of financial instruments that are not traded in an active market is determined using valuation techniques which maximise the use of observable market data and rely as little as possible on entity-specific estimates. If all significant inputs required to fair value an instrument are observable, the instrument is included in Level 2.

Level 3: If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3.

Valuation technique used to determine fair value

Specific valuation techniques used to value financial instruments include:

- the use of NAV based on report issued by mutual fund house.

35 Financial risk management

The Group's principal financial liabilities comprise borrowings, trade and other payables. The main purpose of these financial liabilities is to finance the Group's operations. The Group's principal financial assets include trade and other receivables and cash and cash equivalents that are derived directly from its operations. The Group also holds investments measured at fair value through profit and loss.

Risk is inherent in the Group's activities but it is managed through a process of ongoing identification, measurement and monitoring, subject to risk limits and other controls. This process of risk management is critical to the Group's continuing operations. The Group is exposed to market risk, credit risk and liquidity risk.

The Company's Board of Directors is ultimately responsible for the overall risk management approach and for approving the risk strategies and principles. No significant changes were made in the risk management objectives and policies during the years ended March 31, 2026 and March 31, 2025. The management of the Group reviews and agrees policies for managing each of these risks which are summarised below:

I Market risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises three types of risk: interest rate risk, currency risk and price risk. The management of the Group has implemented a risk management system that is monitored by the Board of Directors. Market risk is managed on the basis of pre-determined asset allocations across various asset categories, a continuous appraisal of market conditions and trends and management's estimate of long and short term changes in fair value.

a Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Group's exposure to the risk of changes in interest rate primarily relates to the Group's debt obligations with floating interest rates.

The exposure of the Group's borrowing to interest rate changes at the end of the reporting period are as follows:

Particulars	March 31, 2026	March 31, 2025
Variable rate borrowings	155,511.21	105,372.61

Sensitivity

The following table demonstrates the sensitivity to a reasonably possible change in the interest rates on borrowings at variable interest rate. With all the other variables held constant, the Group's loss before tax is affected through the impact on floating rate borrowings, as follows:

Impact on profit after tax	March 31, 2026	March 31, 2025
Interest rates - increase by 25 basis points (previous year - 50 basis points)	(240.65)	(346.64)
Interest rates - decrease by 25 basis points (previous year - 50 basis points)	240.65	346.64

b Foreign currency risk

Foreign exchange risk arises when future commercial transactions and relevant assets and liabilities are denominated in a currency that is not the Group's functional currency. Foreign exchange risk is the risk that the value of a financial instrument will fluctuate due to changes in foreign exchange rates. The Group operates internationally and is exposed to foreign exchange risk arising from foreign currency transactions, primarily with respect to the USD.

Foreign exchange risk is managed on the basis of limits determined by management and a continuous assessment of current and expected exchange rate movements. The exposure to foreign currencies is not significant to the Group's financials statements.

c Price risk

The Group's investments are susceptible to market price risk arising from uncertainties about future values of the investment securities. These securities are unquoted. The Group manages the price risk through placing limits on individual and total equity/ mutual fund instruments. Reports on the investment portfolio are submitted to the management on a regular basis. The Group is not currently exposed significantly to such risk.

II Credit risk

Credit risk is the risk that counterparty will not meet its obligations under a financial instrument or customer contract, leading to a financial loss. The Group is exposed to credit risk from its operating activities (primarily trade receivables, lease receivable and contract assets) and from its investing activities, including deposits with banks and other financial instruments.

Trade receivables and contract assets

Customer credit risk is managed by the Group's established policy, procedures and control relating to customer credit risk management. Credit quality of a customer is assessed based on individual credit limits and risk of potential default based on defined credit risk parameters. An impairment analysis is performed at each reporting date on an individual basis for major clients. In addition, a large number of minor receivables are grouped into homogenous group and assessed for impairment collectively. The calculation is based on losses as per historical data adjusted to reflect current and forward-looking information on macroeconomic factors affecting the ability of the customers to settle the receivables. The maximum exposure to credit risk at the reporting date is the carrying value of each class of financial assets. For details of charge of Impairment of trade receivables and unbilled revenue refer note 9.

Expected credit loss for trade receivables and contract assets under simplified approach

Trade receivables	As at March 31, 2026		
	Gross	Expected loss rate	Expected loss allowance
Unbilled	1,139.80	0%	-
Outstanding for following periods from the due date			
Not due	248.94	0%	-
Less than 6 months	470.72	0%	-
More than 6 months	548.50	17%	92.59
Total	**2,407.96**		**92.59**

Trade receivables	As at March 31, 2025		
	Gross	Expected loss rate	Expected loss allowance
Unbilled	1,102.63	0%	-
Outstanding for following periods from the due date			
Not due	8.93	0%	-
Less than 6 months	186.44	0%	-
More than 6 months	130.95	45%	58.31
Total	**1,428.95**		**58.31**

Expected credit loss for contract assets under simplified approach

Contract assets	As at March 31, 2026		
	Gross	Expected loss rate	Expected loss allowance
Not due	32.31	0%	-
Less than 6 months	-	0%	-
6 months - 1 year	-	0%	-
Total	**32.31**		**-**

Contract assets	As at March 31, 2025		
	Gross	Expected loss rate	Expected loss allowance
Not due	67.05	0%	-
Less than 6 months	-	0%	-
6 months - 1 year	-	0%	-
Total	**67.05**		**-**

Balances with Banks

Credit risk from balances with banks is managed by the Group's finance department in accordance with the Group's policy. Investments of surplus funds are made only with approved counterparties to mitigate financial loss through counterparty's potential failure to make payments. Identified impairment loss for these assets is immaterial.

Other financial assets carried at amortised cost

Group's exposure to other financial asset includes security deposits and lease receivables which is considered to be low risk. No loss allowance is required to be recognised except for the balances for which provision has been recognised, refer note 9 and note 26 for details of impairment provision recognised.

III Liquidity risk

Prudent liquidity risk management implies maintaining sufficient cash and marketable securities and the availability of funding through an adequate amount of committed credit facilities to meet obligations.

Management monitors rolling forecasts of the Group's liquidity position and cash and cash equivalents on the basis of expected cash flows on a on-going basis. The Group's liquidity management policy involves projecting future cash flows and considering the level of liquid assets necessary to meet these and monitoring balance sheet liquidity ratios against internal requirements.

Maturities of financial liabilities

The tables below summarises the group's financial liabilities into relevant maturity profile based on contractual undiscounted payments :

March 31, 2026	On Demand	< 1 year	1 to 3 years	> 3 years
Non- derivative				
Borrowings	411.62	57,460.80	12,843.75	141,826.10
Lease Liabilities	-	371.05	979.61	8,719.11
Trade Payables	-	1,002.42	-	-
Other payables	-	26,897.45	355.00	15,402.88

March 31, 2025	On Demand	< 1 year	1 to 3 years	> 3 years
Non- derivative				
Borrowings	411.62	45,572.88	8,676.83	97,210.39
Lease Liabilities	-	226.80	262.55	2,588.42
Trade Payables	-	1,291.97	-	-
Other payables	-	3,287.16	355.00	9,379.78

36 Capital management

The Group's objective for capital management is to maximise long term shareholder value, safeguard business continuity and support the growth of the Group. The Group determines the capital requirement based on annual operating plans and long-term and other strategic investment plans. The funding requirements are met through borrowings, equity and operating cash flows generated. No changes were made in the objectives, policies or processes during the years ended March 31, 2026 and March 31, 2025. Capital represents equity attributable to equity holders of the Group.

The Group monitors capital using a gearing ratio which is net debt/ obligation dividend by total equity. The Group's policy is to keep the gearing ratio optimum.

Particulars	March 31, 2026	March 31, 2025
Borrowings (including accrued interest)	195,673.00	151,198.16
Lease Liabilities	5,147.58	1,202.99
Less: Cash and cash equivalents (includes other bank balances)	8,543.40	4,370.61
Net debt	**192,277.18**	**148,030.54**
Equity	54,615.50	36,220.90
Net Debt to Equity*	**3.52**	**4.09**

* Variation due to significant increase in debt as compared to last year is due to increase in total equity.

Loan covenants

In order to achieve this overall objective, the Group's capital management, amongst other things, aims to ensure that it meets financial covenants attached to the interest-bearing loans and borrowings that define capital structure requirements. Breaches in meeting the financial covenants would permit the bank to immediately call loans and borrowings. Some of the debt covenants were not complied as at March 31, 2026 (refer note 13(a)).

37 Compliance with Section 143 (3) for Maintenance of Books of Account

With effect from August 5, 2022, the Ministry of Corporate Affairs (MCA) has amended the Companies (Accounts) Rules, 2014, relating to maintenance of electronic books of account and other relevant books and papers. Pursuant to this amendment, the Company is required to maintain the books of account which are accessible in India at all times and their backup is to be kept on servers located in India on a daily basis.

Notes to the consolidated financial statements for the year ended March 31, 2026
(All amounts are in Rupees Lakhs, except per share data and unless stated otherwise)

The Company has a process to take daily back-up of books of account maintained in electronic mode.

38 Compliance with Section 143 (3) for Audit Trail

The primary accounting software used for maintaining its books of account has a feature of recording audit trail (edit log) facility and the same has operated throughout the year for all relevant transactions recorded in the software except that audit trail feature has not been enabled at the database level to log any direct data changes

39 Other Statutory Information

(i) No proceedings have been initiated on or are pending against the Group for holding benami property under the Benami Transactions (Prohibition) Act, 1988 (45 of 1988) and Rules made thereunder.

(ii) The Group does not have any charges or satisfaction which is yet to be registered with Registrar of Companies beyond the statutory period.

(iii) The Group has not traded or invested in crypto currency or virtual currency during the current and previous year.

(iv) There is no income surrendered or disclosed as income during the current year in the tax assessments under the Income Tax Act, 1961, that has not been recorded in the books of account.

(v) The Group has working capital limits of more than Rs. 5 crores. however, the group is required to file monthly returns or statement of current assets with the banks.

(vi) None of the Companies in the group have been declared willful defaulter by any bank or financial institution or government or government authorities.

(vii) The Group has no transactions with the companies struck off under Companies Act, 2013 or Companies Act, 1956.

(viii) The Group has not entered into any scheme of arrangement which has an accounting impact on current or previous year.

40 The Company has entered into a Share Purchase Agreement (SPA) with the former owners of Onix Two Enersol Private Limited (OTEPL) on September 6, 2024, to acquire 100% of OTEPL's shares for INR 1 lakh. The agreement specified certain precedent conditions that were to be fulfilled by October 5, 2024. These conditions remained unfulfilled and a further extension of six months was granted. These conditions were not complied even in the extended period. Accordingly in previous years, the acquisition did not consummate and hence not considered as an investment in the standalone financial statements and disclosed in other financial assets. On January 2, 2026, the Company entered into an agreement to transfer the OTEPL shares back to the original sellers for a consideration of INR 1 lakh. Pursuant to this agreement, the shares were duly transferred and the consideration was received by the Company, thereby resulting in the closure of this acquisition.

41 Utilisation of borrowed funds and share premium

The Group has not advanced or loaned or invested funds to any other person(s) or entity(ies), including foreign entities (Intermediaries) with the understanding that the Intermediary shall:

(a) directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the company (Ultimate Beneficiaries); or

(b) provide any guarantee, security or the like to or on behalf of the Ultimate Beneficiaries;

The Group has not received any fund from any person(s) or entity(ies), including foreign entities (Funding Party) with the understanding (whether recorded in writing or otherwise) that the Group shall:

(a) directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party (Ultimate Beneficiaries); or

(b) provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries;

42 Additional Information as per Section 129 of the Companies Act, 2013 – Annexure I.

43 Previous period figures have been regrouped/reclassified to conform to current year's classification. These mainly include:

Particulars	Previously reported amount - Year ended March 31, 2025	Effect of reclassification	Revised Amount
		Interest accrued classified to Financial instruments	
Borrowings (Current)	45,445.67	538.71	45,984.38
Other financial liabilities (Current)	3,825.87	-538.71	3,287.16

DIRECTORS' REPORT

Dear Shareholder,

The Directors have the pleasure of presenting the Fourth Annual Report of the Company for the year ended March 31, 2026.

FINANCIAL RESULTS

(Rs. in Lakh)

Particulars	FY 2025-26	FY 2024-25
Total income	**26,596.11**	**57,151.47**
(Loss)/Profit before depreciation and interest	**(2,733.14)**	**(9,227.40)**
Depreciation	**49.15**	**89.56**
Interest	**513.37**	**82.28**
(Loss)/Profit before tax	**(3,295.66)**	**(9,399.24)**
Provision for taxation (incl. deferred tax)	**--**	**--**
(Loss)/Profit after tax	**(3,295.66)**	**(9,399.24)**

STATE OF COMPANY'S AFFAIRS

In the Financial Year 2025-26, the Company's total income is Rs. 26,596.11 lakh (previous year Rs. 57,151.47 lakh). Loss before tax is Rs. 3,295.66 lakh (previous year loss Rs. 9,399.24 lakh). The order balance of the Company as on March 31, 2026 was Rs. 23,375.77 lakh (previous year Rs. 31,494.61 lakh).

The loss for the year was due to cost increases in equipment and construction of Bio-CNG plants to achieve technology stabilization for certain biomass feedstock.

The Company is reasonably confident of meeting performance requirements of its contracts and has taken suitable actions for the same.

The Company will make efforts to leverage the extra costs incurred on technology changes in the year for its future business.

The Company is in the business of setting up BioCNG or renewable natural gas plants on engineering, procurement and construction (EPC) by partnering with technology partners globally.

The Company aspires to be a market leader in this segment and aims to deliver high quality solutions to the potential customers and assist them to get the best financial returns on their investment during lifecycle of the project.

OPERATIONS

In the year, the Company has commissioned 7 BioCNG plants in FY26 bringing the total to 14 commissioned plants. The company has produced ~19,400 tonne BioCNG from all its commissioned plants in FY26. The average production from all commissioned plants has exceeded 100 tonne BioCNG per day.

HEALTH AND SAFETY

The Company will ensure focus and continuous improvement on its Safety and Health standards. The Stage 1 and Stage 2 audits of ISO 45001 and ISO 14001 have been completed. Certification is expected in Q1 FY27.

MATERIAL CHANGES AFFECTNG FINANCIAL POSITION OF THE COMPANY

The financial position is affected as per changes explained above in State of Company's Affairs.

DIVIDEND

The Directors do not recommend any dividend on equity shares during year.

AMOUNT PROPOSED TO BE CARRIED TO RESERVES

The Company does not propose to carry any amount to reserves.

SHARE CAPITAL

The Company has authorized share capital of Rs.50,00,00,000 divided into 5,00,00,000 equity shares of Rs. 10 each as on March 31, 2026. Further the subscribed, issued and paid up share capital of the Company is Rs. 38,00,00,000 divided into 3,80,00,000 equity shares of Rs. 10 each as on March 31, 2026.

During the period under review, at the Board Meeting held on May 2, 2025, the Directors approved the issuance of shares to the existing shareholders of the Company on a rights basis. However, the Company received renunciation letters from all other shareholders in favor of Thermax Limited. Accordingly, the Company allotted a total of 1,30,00,000 equity shares, aggregating to Rs. 13,00,00,000, to Thermax Limited. As a result, Thermax Limited's shareholding in the Company increased from 65% to 76.97%. The details of the rights issue are as follows:

Date of Issue	Number of Shares	Nominal value per share (Rs.)	Amount paid up (Rs.)	Allotted to
May 2, 2025	1,30,00,000	Rs. 10/-	13,00,00,000	Thermax Limited

The Thermax Limited entered into a Master Addendum Agreement and Share Purchase Agreement for the acquiring the remaining stake of the Company from Everenviro Resource Management Private Limited. In accordance with the terms of the agreements, the Company has become the Wholly Owned Subsidiary of Thermax Limited. This Transfer was duly noted by the Board through circular resolution dated August 20, 2025.

During the year under review, the Company has not issued shares with differential voting rights nor has granted any stock options or sweat equity.

DETAILS OF SUBSIDIARY, JOINT VENTURE OR ASSOCIATE COMPANIES

The Company does not have any subsidiary, joint venture or associate Company as on March 31, 2026.

THERMAX BIOENERGY SOLUTIONS PRIVATE LIMITED

PUBLIC DEPOSITS

The Company has not accepted any deposits under Chapter V of the Companies Act, 2013.

PARTICULARS OF LOANS, GUARANTEES OR INVESTMENTS

The details of loans and investments covered under the provisions of section 186 of the Companies Act, 2013, are given in the notes to the Financial Statements.

BUSINESS RISK MANAGEMENT & STATEMENT ON DEVELOPMENT AND IMPLEMENTING RISK MANAGEMENT POLICY INCLUDING THE IDENTIFICATION OF RISK BY THE BOARD AND STRATEGY TO MITIGATE THE RISK

The Company has a process in place for continuous and online risk management pertaining to the core business especially this being first-of-a-kind (FOAK) business segment and dependent on government policies. The Company is actively monitoring the same.

ADEQUACY OF INTERNAL FINANCIAL CONTROLS

Internal controls are reviewed by Internal Audit Department of the holding Company on a periodical basis. All significant and material observations emerging out of Internal Audit are regularly reported to the Board and follow-up measures are taken.

STANDALONE AND CONSOLIDATED FINANCIAL STATEMENTS

The financial statements for the year ended March 31, 2026, have been prepared as per Schedule III to the Companies Act, 2013, as amended from time to time. The consolidated financial statements of the group are prepared in compliance with the Accounting Standards.

CORPORATE SOCIAL RESPONSIBILITY

The Company does not fall under the criteria defined under Section 135 of Companies Act, 2013 as on March 31, 2026. Hence, the Corporate Social Responsibility provisions are not attracted.

KEY MANAGERIAL PERSONNEL (KMP)

During the period under review, Mr. Rohit Mittal has been appointed as Chief Financial Officer and KMP of the Company from May 3, 2025.

DIRECTORS

As on March 31, 2026, the Board of the Company comprises Four Directors. In accordance with the provisions of the Companies Act, 2013 and the Company's Articles of Association, Mr. Arun Unni (DIN: 10831177), retires by rotation and being eligible, offers himself for re-appointment.

Following are the changes in Board composition during FY 2025-26.

Sr. No.	Name of Director	Appointment/ Resignation	Directorship/ category	Effective date	Whether the change has been approved by members.
1.	Mr. Anoop Poddar	Resignation	Non-executive Director	April 14, 2025	Not Required
2.	Ms. Vasundhara Sen	Appointment	Additional Non- Executive Director	September 26, 2025	Will be regularized in the AGM to be held in FY 2026-27.
3.	Mr. Sandip Mukherjee	Resignation	Non- Executive Independent Director	November 5, 2025	Not Required
4.	Mr. Kirtiraj Jilkar	Resignation	Non-executive Director	November 18, 2025	Not Required
5.	Mr. Mahesh Bukinkere	Resignation	Non-executive Director	November 18, 2025	Not Required
6.	Mr. Arun Unni	Change in designation	Non- Executive Director	August 14, 2025	Regularized in the Annual General meeting held on August 14, 2025.

POLICY ON APPOINTMENT AND REMUNERATION OF DIRECTORS AND KEY MANAGERIAL PERSONNEL

The policy on Appointment and Remuneration of Directors and Key Managerial Personnel was adopted by the Board in the meeting held on January 10, 2025. No Director receives remuneration from the Company, except Independent Directors who are paid sitting fees approved by the Board for attending each Board or Committee meeting. A detailed policy is annexed herewith as Annexure 1 and forms part of this report.

DECLARATION BY INDEPENDENT DIRECTORS

For the period under review, both the Independent Directors as on April 1, 2025 have shared the declarations confirming that they meet the criteria of independence as laid down under Section 149(6) of the Companies Act, 2013 and have also confirmed that their names have been added to the data bank maintained by the Indian Institute of Corporate Affairs for Independent Directors, in accordance with Rule 6 of the Companies (Appointment and Qualification of Directors) Rules, 2014.

INDEPENDENT DIRECTORS MEETING

As of March 31, 2026, the Board comprised only one Independent Director. Accordingly, in compliance with applicable governance requirements, the separate meeting of Independent Directors could not be convened.

COMMITTEES OF THE BOARD

Upon the transfer of 87,50,000 equity shares from Everenviro to Thermax Limited, the Company has become a wholly owned subsidiary of Thermax Limited. The transfer was made effective and taken on record by the Board on August 20, 2025 through a circular resolution.

Consequently, in accordance with the provisions of Rule 6 of the Companies (Meetings of Board and its Powers) Rules, 2014 and Rule 4 of the Companies (Appointment and Qualification of Directors) Rules, 2014, the Company has become exempt from the requirement to constitute an Audit Committee and a Nomination and Remuneration Committee. Accordingly, both Committees were dissolved by the Board at its meeting held on November 4, 2025.

The details of the Committees prior to their dissolution are as follows:

AUDIT COMMITTEE

The Committee comprised the non-executive Independent Directors viz Mr. Sandip Mukherjee as the Chairman and Mr. Rajan Nair & Mr. Rajendran Arunachalam as the members of the Committee. The Committee met four time during the period under review i.e. on May 2, 2025, May 9, 2025, July 24, 2025 and November 4, 2025. Details of meetings attended by members are as follows:

Name of the member	May 2, 2025	May 9, 2025	July 24, 2025	November 4, 2025
Mr. Sandip Mukherjee	P	P	P	P
Mr. Rajan Nair	P	P	P	P
Mr. Rajendran Arunachalam	P	A	P	P

NOMINATION AND REMUNERATION COMMITTEE

The Committee comprises the non-executive Directors viz Mr. Arun Unni as the Chairman and Mr. Rajan Nair, Mr. Sandip Mukherjee & Mr. Anoop Poddar as members of the Committee. Upon the resignation of Mr. Anoop Poddar, he ceased to be the member of the Committee and the Committee continued the functions. The Committee met one time during the period under review, i.e. on May 2, 2025 where all three members were present.

BOARD MEETINGS

The Board met five times on May 2, 2025, May 9, 2025, July 25, 2025, November 4, 2025 and January 28, 2026 during the year. The intervening gap between the Meetings was within the period prescribed under the Companies Act, 2013. Details of meetings attended by the members are as follows:

	Attendance of Board members				
	May 2, 2025	May 9, 2025	July 24, 2025	November 4, 2025	January 28, 2026

ANNEXURE - 1

Policy on the Selection and Appointment of Directors and the Remuneration of Directors, Key Managerial Personnel (KMP), and Employees

The Nomination & Remuneration Committee (NRC) has prepared a "Terms of Reference" (TOR), which, inter alia, deals with laying down the criteria for the selection of Directors, based on the requirements of the organization, including the qualifications, and determining the independence of Directors. The NRC has also laid down the criteria for the evaluation of the performance of the Board and guidelines for determining the remuneration of Directors, KMP and other employees of the Company. This Policy is based on the above TOR of NRC:

(1) Criteria for selection and appointment of Directors:

(a) The Director shall have relevant expertise and experience commensurate with the requirements of the Company to discharge the duties as a Director.

(b) While selecting a director, the emphasis be given to the qualifications, experience, and personal and professional standing of the incumbent.

(c) Assess the independence and nature of the appointment as Director vis-à-vis any conflict-of-interest w.r.t. any pecuniary relationship and procure necessary declaration.

(d) The Director is not disqualified for appointment u/s. 164 of the Companies Act, 2013.

(e) In the event of re-appointment of the Director, due emphasis be given to the performance evaluation of the Director during his tenure.

(2) Remuneration of Non- Executive Directors (NEDs):

The remuneration payable to Directors shall be in accordance with Sec. 197 of the Companies Act, 2013 and other applicable provisions & rules made thereunder from time to time.

The Directors shall also be eligible to receive reimbursement of expenses for participation in the Board and Committee Meetings.

The Independent Directors shall be entitled to receive remuneration by way of sitting fees for attending the meetings of the Board as well as the Committees.

(3) Criteria for selection of MD, WTD & CEO:

For selection of the MD, WTD and CEO, the NRC shall identify persons of integrity who possess relevant expertise, experience and leadership qualities required for the position and shall take into consideration recommendations, if any, received from any member of the Board. The Committee will also ensure that the incumbent fulfills such other criteria regarding age and other qualifications as laid down under the Companies Act, 2013 or other applicable laws.

(4) Remuneration for MD & WTD:

i. At the time of appointment or re-appointment, the Managing Director (MD) and Whole Time Director (WTD) shall be paid such remuneration as may be mutually agreed between the Company (which includes the NRC and the Board of Directors) and the MD & WTD within the overall limits prescribed under the Companies Act, 2013.

ii. The remuneration shall be subject to the approval of the Members of the Company in the General Meeting.

iii. The remuneration of the MD & WTD is broadly divided into fixed and variable components. The fixed component comprises salary, allowances, perquisites, amenities and retiral benefits. The variable component comprises a performance bonus.

iv. In determining the remuneration (including the fixed increment and performance bonus) the NRC shall ensure/consider the following:

a. the relationship of remuneration and performance benchmarks is clear.

b. balance between fixed and incentive pay reflecting short and long term performance objectives, appropriate to the working of the Company and its goals.

c. responsibility required to be shouldered by the MD & WTD the industry benchmarks, and the current trends.

d. the Company's performance vis-à-vis the annual budget achievement and individual performance vis-à-vis the KRAs / KPIs.

(5) Remuneration Policy for Senior Management, KMPs and employees:

The NRC, while determining the remuneration of Senior Management/ employees and KMPs shall ensure the following:

(i) The remuneration is divided into Fixed component & Variable Component (Short Term Incentive Plan (STIP) and Long-Term Incentive Plan (LTIP)

(ii) The division between fixed and variable is based on the roles & responsibilities, the Company's performance vis-à-vis KRA & KPIs, industry benchmark and current compensation trends in the market.

(6) Remuneration criteria for employees:

Employees shall be assigned grades/bands according to their qualifications and work experience, competencies as well as their roles and responsibilities in the organization. Individual remuneration shall be determined within the appropriate grade/ bands and shall be based on various factors such as job profile, skill sets, seniority, experience, performance and prevailing remuneration levels for equivalent jobs..

THERMAX BIOENERGY SOLUTIONS PRIVATE LIMITED

Annexure-2

SECRETARIAL AUDIT REPORT FOR THE FINANCIAL YEAR ENDED 31ST MARCH, 2026

[Pursuant to Section 204(1) of the Companies Act, 2013 and Rule No. 9 of the Companies (Appointment and Remuneration of Managerial Personnel) Rules, 2014]

To,
The Members,
Thermax Bioenergy Solutions Private Limited,
S No. 14/D, F P No. 32(33) Wakadewadi,
Mumbai-Pune Road, Pune - 411003

We have conducted the secretarial audit of the compliance of applicable statutory provisions and the adherence to good corporate practices by **Thermax Bioenergy Solutions Private Limited** (hereinafter called 'the Company'). Secretarial Audit was conducted in a manner that provided us a reasonable basis for evaluating the corporate conducts/statutory compliances and expressing our opinion thereon.

Based on our verification of the company's books, papers, minute books, forms and returns filed and other records maintained by the company through online access provided by the Company via Microsoft Sharepoint and also the information provided by the Company, its officers, agents and authorized representatives during the conduct of secretarial audit, We hereby report that in our opinion, the Company has, during the audit period covering the financial year ended on 31st March, 2026 (Audit Period) complied with the statutory provisions listed hereunder and also that the Company has proper Board-processes and compliance-mechanism in place to the extent, in the manner and subject to the reporting made hereinafter:

I have examined the books, papers, minute books, forms and returns filed and other records maintained by the Company for the financial year ended on 31st March, 2026 according to the provisions of:

(i) The Companies Act, 2013 (the Act) and the rules made thereunder;

(ii) The Securities Contracts (Regulation) Act, 1956 ('SCRA') and the rules made thereunder; **(not applicable to the Company during the Audit period)**

(iii) The Depositories Act, 1996 and the Regulations and Bye-laws framed thereunder; **(not applicable to the Company during the Audit period)**

(iv) Foreign Exchange Management Act, 1999 and the rules and regulations made thereunder; **(not applicable to the Company during the Audit period)**

(v) The following Regulations and Guidelines prescribed under the Securities and Exchange Board of India Act, 1992 ('SEBI Act'): **(Following sub-clauses (a)to(h) are not applicable to the Company during the Audit period as Company continues to be an Unlisted Public Company in its Articles under Section 2(71) of the Act)**

a. The Securities and Exchange Board of India (Substantial Acquisition of Shares and Takeovers) Regulations, 2011;

b. The Securities and Exchange Board of India (Prohibition of Insider Trading) Regulations, 2015;

c. The Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) Regulations, 2018;

d. The Securities and Exchange Board of India (Share Based Employee Benefits) Regulations, 2021;

e. The Securities and Exchange Board of India (Issue and Listing of Non-Convertible Securities) Regulations, 2021;

f. The Securities and Exchange Board of India (Registrars to an Issue and Share Transfer Agents) Regulations, 1993 regarding the Companies Act and dealing with client;

g. The Securities and Exchange Board of India (Delisting of Equity Shares) Regulations, 2021 and

h. The Securities and Exchange Board of India (Buyback of Securities) Regulations, 2018

vi) There are no specific laws applicable to the Company, as confirmed by the Company.

I have also examined compliance with applicable clauses of the following:

a. Secretarial Standards (SS.1 relating to meetings of Board of Directors & SS.2 relating to General Meetings) issued by the Institute of Company Secretaries of India.

b. The Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015; **(Not applicable to the Company during the Audit Period)**

During the period under review, the Company has complied with the provisions of the Act, Rules, Regulations, Guidelines, Standards, etc. mentioned above.

I further report that the Board of Directors of the Company is duly constituted with proper balance of Executive Directors and Non-Executive Directors. The changes in the composition of the Board of Directors that took place during the period under review were carried out in compliance with the provisions of the Act.

Adequate notice is given to all directors to schedule the Board Meetings, agenda and detailed notes on agenda were sent at least seven days in advance, except when meetings were called at shorter notice as permitted u/s. 173(3) of the Act and a system exists for seeking and obtaining further information and clarifications on the agenda items before the meeting and for meaningful participation at the meeting.

All decisions at Board Meetings and Committee Meetings were carried out unanimously as recorded in the minutes of the meetings of Board of Directors.

I further report that there are adequate systems and processes in the company commensurate with the size and operations of the company to monitor and ensure compliance with applicable laws, rules, regulations and guidelines.

I further report that during the audit period:

- The Board has made allotment of 1,30,00,000 Equity Shares at face value of Rs. 10/- each, on right basis, to the existing shareholders by circular resolution passed on May 7, 2025.
- Pursuant to transfer of 87,50,000 equity shares from Everenviro Resource Management Private Limited to Thermax Limited, the Company has become a wholly owned subsidiary of Thermax Limited w.e.f. August 20, 2025 and the Shareholders Agreement dated July 2022 between Thermax Limited and Everenviro Resource Management Private Limited stands terminated.
- Pursuant to special resolution passed at Extra Ordinary General Meeting held on May 9, 2025 the limit under Section 180(1)(a) and Section 180(1)(c) has been increased to Rs. 150 Crores.
- Pursuant to special resolution passed at Extra Ordinary General Meeting held on May 9, 2025 the limit under Section 186 has been increased to Rs. 10 Crores.
- Pursuant to special resolution passed at Annual General Meeting held on August 14, 2025 the limit under Section 186 has been increased to Rs. 23 Crores.

ANNEXURE A

To,
The Members,
Thermax Bioenergy Solutions Private Limited
Thermax House, 14, Mumbai Pune Road,
Wakdewadi, Pune MH 411003

Our report of even date to be read along with this letter.

1) Maintenance of secretarial records is the responsibility of the management of the company. Our responsibility is to express an opinion on these secretarial records based on our audit.

2) We have followed the audit practices and processes as were appropriate to obtain reasonable assurance about the correctness of the contents of the Secretarial records. The verification was done on test basis to ensure that correct facts are reflected in secretarial records. We believe that the processes and practices, we followed provide a reasonable basis for our opinion.

3) We have not verified the correctness and appropriateness of financial records and Books of Accounts of the company.

4) Wherever required, we have obtained the Management representation about the compliance of laws, rules and regulations and happening of events, etc.

5) The compliance of the provisions of Corporate and other applicable laws, rules, regulations, standards is the responsibility of management. Our examination was limited to the verification of procedures on test basis.

6) The Secretarial audit report is neither an assurance as to the future viability of the company nor of the efficacy or effectiveness with which the management has conducted the affairs of the company.

THERMAX BIOENERGY SOLUTIONS PRIVATE LIMITED

INDEPENDENT AUDITOR'S REPORT

To the Members of Thermax Bioenergy Solutions Private Limited

Report on the Audit of the Financial Statements

Opinion

1. We have audited the accompanying financial statements of Thermax Bioenergy Solutions Private Limited ("the Company"), which comprise the Balance Sheet as at March 31, 2026, and the Statement of Profit and Loss (including Other Comprehensive Income), the Statement of Changes in Equity and the Statement of Cash Flows for the year then ended, and notes to the financial statements, including material accounting policy information and other explanatory information.

2. In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2026, and total comprehensive income (comprising of loss and other comprehensive income), changes in equity and its cash flows for the year then ended.

Basis for Opinion

3. We conducted our audit in accordance with the Standards on Auditing (SAs) specified under Section 143(10) of the Act. Our responsibilities under those Standards are further described in the "Auditor's Responsibilities for the Audit of the Financial Statements" section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Other Information

4. The Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Directors' report, but does not include the financial statements and our auditor's report thereon.

   Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

   In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management and those Charged with Governance for the Financial Statements

5. The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Act with respect to the preparation of these financial statements that give a true and fair view of the financial position, financial performance, changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards specified under Section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

6. In preparing the financial statements, Board of Directors is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless Board of Directors either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

7. Those Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

8. Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

9. As part of an audit in accordance with SAs, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

   - Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

   - Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under Section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls with reference to financial statements in place and the operating effectiveness of such controls.

   - Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.

   - Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.

   - Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

10. We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

11. We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Other Matter

12. The financial statements of the Company for the year ended March 31, 2025, were audited by prior auditors under the Act who, vide their report dated May 09, 2025 expressed an unmodified opinion on those financial statements.

Report on Other Legal and Regulatory Requirements

13. As required by the Companies (Auditor's Report) Order, 2020 ("the Order"), issued by the Central Government of India in terms of sub-section (11) of Section 143 of the Act, we give in the Annexure B a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.

14. As required by Section 143(3) of the Act, we report that:

    (a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.

    (b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.

    (c) The Balance Sheet, the Statement of Profit and Loss (including other comprehensive income), the Statement of Changes in Equity and the Statement of Cash Flows dealt with by this Report are in agreement with the books of account.

    (d) In our opinion, the aforesaid financial statements comply with the Indian Accounting Standards specified under Section 133 of the Act.

    (e) On the basis of the written representations received from the directors as on March 31, 2026, taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2026, from being appointed as a director in terms of Section 164(2) of the Act.

    (f) With respect to the adequacy of the internal financial controls with reference to financial statements of the Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure A".

    (g) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014 (as amended), in our opinion and to the best of our information and according to the explanations given to us:

        i. The Company does not have any pending litigations which would impact its financial position;

        ii. The Company has made provision as at March 31, 2026, as required under the applicable law or Indian Accounting Standards, for material foreseeable losses, if any, on long-term contracts – refer note 19 to the financial statement. The Company did not have any long term derivative contracts as at March 31, 2026.

        iii. There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Company during the year ended March 31, 2026.

        iv. (a) The management has represented that, to the best of its knowledge and belief, as disclosed in Note 40(viii) to the financial statements, no funds have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Company to or in any other person(s) or entity(ies), including foreign entities ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, whether directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Company ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries;

        (b) The management has represented that, to the best of its knowledge and belief, other than as disclosed in Note 40(ix) to the financial statements, no funds have been received by the Company from any person(s) or entity(ies), including foreign entities ("Funding Parties"), with the understanding, whether recorded in writing or otherwise, that the Company shall, whether directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries; and

        (c) Based on such audit procedures that we considered reasonable and appropriate in the circumstances, nothing has come to our notice that has caused us to believe that the representations under sub-clause (a) and (b) contain any material misstatement.

        v. The Company has not declared or paid any dividend during the year.

        vi. Based on our examination, which included test checks, the Company has used multiple accounting software for maintaining its books of account which has a feature of recording audit trail (edit log) facility and that has operated throughout the year for all relevant transactions recorded in the software as described in Note 41 to the financial statements. During the course of our audit, we did not notice any instance of audit trail feature being tampered with. Further, the audit trail, to the extent maintained in the prior year, has been preserved by the Company as per the statutory requirements for record retention, as stated in Note 41 to the financial statements.

15. The Company has paid / provided for managerial remuneration in accordance with the requisite approvals mandated by the provisions of Section 197 read with Schedule V to the Act.

THERMAX BIOENERGY SOLUTIONS PRIVATE LIMITED

Annexure A to Independent Auditor's Report

Referred to in paragraph 14(f) of the Independent Auditor's Report of even date to the members of Thermax Bioenergy Solutions Private Limited on the financial statements as of and for the year ended March 31, 2026

Report on the Internal Financial Controls with reference to Financial Statements under clause (i) of sub-section 3 of Section 143 of the Act

1. We have audited the internal financial controls with reference to financial statements of Thermax Bioenergy Solutions Private Limited ("the Company") as of March 31, 2026 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

2. The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting ("the Guidance Note") issued by the Institute of Chartered Accountants of India ("ICAI"). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditor's Responsibility

3. Our responsibility is to express an opinion on the Company's internal financial controls with reference to financial statements based on our audit. We conducted our audit in accordance with the Guidance Note and the Standards on Auditing specified under Section 143(10) of the Act to the extent applicable to an audit of internal financial controls, both applicable to an audit of internal financial controls and both issued by the ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to financial statements was established and maintained and if such controls operated effectively in all material respects.

4. Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system with reference to financial statements and their operating effectiveness. Our audit of internal financial controls with reference to financial statements included obtaining an understanding of internal financial controls with reference to financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

5. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system with reference to financial statements.

Meaning of Internal Financial Controls with reference to Financial Statements

6. A company's internal financial controls with reference to financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial controls with reference to financial statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls with reference to Financial Statements

7. Because of the inherent limitations of internal financial controls with reference to financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to financial statements to future periods are subject to the risk that the internal financial controls with reference to financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

8. In our opinion, the Company has, in all material respects, adequate internal financial controls system with reference to financial statements and such internal financial controls with reference to financial statements were operating effectively as at March 31, 2026, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note issued by ICAI.

Annexure B to Independent Auditor's Report

Referred to in paragraph 13 of the Independent Auditor's Report of even date to the members of Thermax Bioenergy Solutions Private Limited on the financial statements for the year ended March 31, 2026

In terms of the information and explanations sought by us and furnished by the Company, and the books of account and records examined by us during the course of our audit, and to the best of our knowledge and belief, we report that:

(i) (a) (A) The Company is maintaining proper records showing full particulars, including quantitative details and situation, of Property, Plant and Equipment.

(B) The Company is maintaining proper records showing full particulars of Intangible Assets.

(b) The Property, Plant and Equipment of the Company are physically verified by the Management according to a phased programme designed to cover all the items over a period of 3 years which, in our opinion, is reasonable having regard to the size of the Company and the nature of its assets. Pursuant to the programme a portion of the Property, Plant and Equipment has been physically verified by the Management during the year and no material discrepancies have been noticed on such verification.

(c) The Company does not own any immovable properties (Refer Note 4(a) to the financial statements). Accordingly, reporting under clause 3(i)(c) of the Order is not applicable to the Company

(d) The Company has not revalued its Property, Plant and Equipment or Intangible Assets or both during the year. Consequently, the question of our commenting on whether the revaluation is based on the valuation by a Registered Valuer, or specifying the amount of change, if the change is 10% or more in the aggregate of the net carrying value of each class of Property, Plant and Equipment or Intangible Assets does not arise.

(e) No proceedings have been initiated on or are pending against the Company for holding benami property under the Prohibition of Benami Property Transactions Act, 1988 (as amended in 2016) [formerly the Benami Transactions (Prohibition) Act, 1988 (45 of 1988)] and Rules made thereunder, and therefore the question of our commenting on whether the Company has appropriately disclosed the details in the financial statements, does not arise.

ii. (a) The physical verification of inventory excluding stocks with third parties has been conducted at reasonable intervals by the Management during the year and, in our opinion, the coverage and procedure of such verification by Management is appropriate. In respect of inventory lying with third parties, these have substantially been confirmed by them. The discrepancies noticed on physical verification of inventory as compared to book records were not 10% or more in aggregate for each class of inventory.

(b) During the year, the Company has been sanctioned working capital limits in excess of Rs. 5 crores, in aggregate, from banks on the basis of security of current assets. The Company has filed quarterly returns or statements with such banks, which are in agreement with the unaudited books of account.

iii. (a) The Company has made investments in one mutual fund scheme. The Company has not granted any loans / advances in nature of loans or stood guarantee or provided security to any parties during the year. Accordingly, reporting under clause 3(iii)(c), 3(iii)(d), (iii)(e) and 3(iii)(f) of the Order is not applicable to the Company.

(b) In respect of the aforesaid investments, the terms and conditions under which such investments were made are not prejudicial to the Company's interest.

iv. The Company has not granted any loans or made any investments or provided any guarantees or security to the parties covered under Sections 185 and 186. Therefore, the reporting under clause 3(iv) of the Order are not applicable to the Company.

v. The Company has not accepted any deposits or amounts which are deemed to be deposits referred in Sections 73, 74, 75 and 76 of the Act and the Rules framed there under. Accordingly, the reporting under clause 3(v) of the Order is not applicable to the Company.

vi. Pursuant to the rules made by the Central Government of India, the Company is required to maintain cost records as specified under Section 148(1) of the Act in respect of its products and services. We have broadly reviewed the books of account maintained by the Company pursuant to the said requirement, and are of the opinion that, prima facie, the prescribed accounts and records have been made and maintained. We have not, however, made a detailed examination of the records with a view to determine whether they are accurate or complete.

vii. (a) In our opinion, the Company is generally regular in depositing undisputed statutory dues in respect of income tax, though there has been a slight delay in a few cases and is regular in depositing undisputed statutory dues, including provident fund, employees' state insurance, sales tax, service tax, duty of customs, duty of excise, value added tax, cess, goods and services tax and other statutory dues as applicable, with the appropriate authorities. However, there are no arrears of statutory dues outstanding as at March 31, 2026, for a period of more than six months from the date they became payable.

(b) There are no statutory dues referred to in sub-clause (a) which have not been deposited on account of any dispute.

viii. There are no transactions previously unrecorded in the books of account that have been surrendered or disclosed as income during the year in the tax assessments under the Income-tax Act, 1961.

ix. (a) The Company has not defaulted in repayment of loans or other borrowings or in the payment of interest thereon to any lender during the year.

(b) On the basis of our audit procedures, we report that the Company has not been declared Wilful Defaulter by any bank or financial institution or government or any government authority.

(c) In our opinion, the term loans have been applied for the purposes for which they were obtained. (Also, refer Note 15 to the financial statements).

(d) According to the information and explanations given to us, and the procedures performed by us, and on an overall examination of the financial statements of the Company, we report that no funds raised on short-term basis have been utilised for long-term purposes by the Company.

(e) According to the information and explanations given to us and procedures performed by us, we report that the Company did not have any subsidiaries, joint ventures or associate companies during the year. Accordingly, reporting under clause 3(ix)(e) of the Order is not applicable to the Company.

(f) According to the information and explanations given to us and procedures performed by us, we report that the Company did not have any subsidiaries, joint ventures or associate companies during the year. Accordingly, reporting under clause 3(ix)(f) of the Order is not applicable to the Company.

x. (a) The Company has not raised any money by way of initial public offer or further public offer (including debt instruments) during the year. Accordingly, the reporting under clause 3(x)(a) of the Order is not applicable to the Company.

(b) The Company has not made any preferential allotment or private placement of shares or fully or partially or optionally convertible debentures during the year. Accordingly, the reporting under clause 3(x)(b) of the Order is not applicable to the Company.

xi. (a) During the course of our examination of the books and records of the Company, carried out in accordance with the generally accepted auditing practices in India, we have neither come across any instance of material fraud by the Company or on the Company, noticed or reported during the year, nor have we been informed of any such case by the Management.

(b) During the course of our examination of the books and records of the Company carried out in accordance with the generally accepted auditing practices in India, a report under Section 143(12) of the Act, in Form ADT-4, as prescribed under rule 13 of Companies (Audit and Auditors) Rules, 2014 was not required to be filed by us, as statutory auditors, with the Central Government. Accordingly, the reporting under clause 3(xi)(b) of the Order is not applicable to the Company.

(c) During the course of our examination of the books and records of the Company carried out in accordance with the generally accepted auditing practices in India, the Company has received whistle-blower complaints during the year, which have been considered by us for any bearing on our audit and reporting under this clause.

xii. As the Company is not a Nidhi Company and the Nidhi Rules, 2014 are not applicable to it, the reporting under clause 3(xii) of the Order is not applicable to the Company.

xiii. The Company has entered into transactions with related parties in compliance with the provisions of Section 188 of the Act. The details of related party transactions have been disclosed in the financial statements as required under Indian Accounting Standard 24 "Related Party Disclosures" specified under Section 133 of the Act. Further, the Company has constituted an Audit Committee voluntarily (which has been subsequently dissolved with effect from November 04, 2025), though the provisions of Section 177 of the Act do not apply to the Company and, accordingly, to this extent, the reporting under clause 3(xiii) of the Order is not applicable to the Company.

xiv. (a) In our opinion, the Company has an internal audit system commensurate with the size and nature of its business.

(b) We were unable to obtain the Internal Audit Reports for the period from January 01, 2026 to March 31, 2026 of the Company and, accordingly, the Internal Audit Reports have been considered by us for the purpose of our audit only to the extent those were made available to us.

xv. In our opinion, the Company has not entered into any non-cash transactions with its directors or persons connected with the director(s). Accordingly, the reporting on compliance with the provisions of Section 192 of the Act under clause 3(xv) of the Order is not applicable to the Company.

xvi. (a) The Company is not required to be registered under Section 45-IA of the Reserve Bank of India Act, 1934. Accordingly, the reporting under clause 3(xvi)(a) of the Order is not applicable to the Company.

(b) The Company has not conducted non-banking financial / housing finance activities during the year. Accordingly, the reporting under clause 3(xvi)(b) of the Order is not applicable to the Company.

(c) The Company is not a Core Investment Company as defined in the regulations made by the Reserve Bank of India. Accordingly, the additional reporting under clause 3(xvi)(c) of the Order is not applicable to the Company.

(d) In our opinion, the Group [as defined in the Reserve Bank of India (Core Investment Companies) Directions, 2025] has one CIC as part of the Group.

xvii. The Company has incurred cash losses of Rs. 2,382.91 lakhs in the financial year and of Rs. 8,308.50 lakhs in the immediately preceding financial year.

xviii. There has been resignation of the statutory auditors during the year and we did not note any issues, objections or concerns raised by the outgoing auditors.

xix. On the basis of the financial ratios disclosed in note 38 to the financial statements, ageing and expected dates of realisation of financial assets and payment of financial liabilities, other information accompanying the financial statements, our knowledge of the Board of Directors and management plans and based on our examination of the evidence supporting the assumptions including letter of financial support obtained by the Company from the Holding Company (also refer note 44 to the financial statements), nothing has come to our attention, which causes us to believe that any material uncertainty exists as on the date of the audit report that the Company is not capable of meeting its liabilities existing at the date of balance sheet as and when they fall due within a period of one year from the balance sheet date. We, however, state that this is not an assurance as to the future viability of the Company. We further state that our reporting is based on the facts up to the date of the audit report and we neither give any guarantee nor any assurance that all liabilities falling due within a period of one year from the balance sheet date will get discharged by the Company as and when they fall due.

xx. The provisions relating to Corporate Social Responsibility under Section 135 of the Act are not applicable to the Company. Accordingly, reporting under clause 3(xx) of the Order is not applicable to the Company.

xxi. The reporting under clause 3(xxi) of the Order is not applicable in respect of audit of Standalone Financial Statements. Accordingly, no comment in respect of the said clause has been included in this report.

Notes to the financial statements for the year ended March 31, 2026

((All amounts are in Rupees Lakh, except per share data and unless stated otherwise.)

1. Corporate information

Thermax Bioenergy Solutions Private Limited (the "Company") is a private limited company incorporated under Companies Act, 2013 ('the Act') and is a deemed public company as per the definitions of the Act. The Company undertakes Technology, Engineering, Procurement and Construction ('TEPC') scope for Bio-Compressed Natural Gas (Bio-CNG) projects. The Company's remaining business includes Operation and Maintenance services for such projects. The address of its registered office is S No. 14/D, F P No. 32(33) Wakadewadi, Mumbai-Pune Road, Pune- 411003. The CIN of the Company is U40107PN2022PTC213848. The Board of Directors have authorized to issue these financial statements on May 4, 2026.

2. Material accounting policies

2.1. Basis of preparation and measurement

(a) Statement of compliance and basis of preparation

The financial statements ("financial statements" or " financial statements have been prepared in accordance with the Indian Accounting Standards (Ind AS), notified under the Companies (Indian Accounting Standards) Rules, 2015 (as amended from time to time) and presentation requirements of Division II of Schedule III to the Companies Act, 2013 (the Act) (as amended from time to time), (Ind AS compliant Sch III), as applicable to the financial statements.

The preparation of the financial statements requires the use of certain critical accounting judgements, estimates and assumptions. It also requires the management to exercise judgement in the process of applying the Company's accounting policies. The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are critical to the financial statements are disclosed in note 3.

(b) Basis of measurement

The financial statements have been prepared on the accrual and going concern basis under historical cost convention except the following:

- Certain financial assets and liabilities is measured at fair value; and
- Defined benefit plans whereby the plan assets are measured at fair value.
- Equity settled ESOP at grant date fair value at each reporting date.

The accounting policies and related notes further describes the specific measurements applied for each of the assets and liabilities.

2.2 Changes in accounting policies and disclosures

a. New and amended standards adopted by the company

The Ministry of Corporate Affairs vide notification dated 7 May 2025 and 13 August 2025 notified the Companies (Indian Accounting Standards) Amendment Rules, 2025 and Companies (Indian Accounting Standards) Second Amendment Rules, 2025, respectively, which amended certain accounting standards (see below), and are effective for annual reporting periods beginning on or after 1 April 2025:

(a) Classification of Liabilities as Current or Non-current and Non-current Liabilities with Covenants – Amendments to Ind AS 1

As a result of the adoption of the amendments to Ind AS 1, the company changed its accounting policy for the classification of borrowings:

Borrowings are classified as current liabilities unless, at the end of the reporting period, the company has a right to defer settlement of the liability for at least 12 months after the reporting period.

Covenants that the company is required to comply with, on or before the end of the reporting period, are considered in classifying loan arrangements with covenants as current or non-current. Covenants that the company is required to comply with after the reporting period do not affect the classification.

This new policy did not result in a change in the classification of the company's borrowings. The company did not make retrospective adjustments as a result of adopting the amendments to Ind AS 1.

(b) Supplier Finance Arrangements – Amendments to Ind AS 7 and Ind AS 107

As a result of the adoption of the amendments to Ind AS 7 and Ind AS 107, the Company does not require any new disclosures as the Company does not have supplier finance arrangements.

(c) International Tax Reform – Pillar Two Model Rules – Amendments to Ind AS 12

The company is not within the scope of the OECD Pillar Two Model Rules, as Pillar Two legislation has not yet been enacted in any of the jurisdictions in which the company operates.

(d) Lack of Exchangeability – Amendments to Ind AS 21

The amended Ind AS 21 have added requirements to help entities to determine whether a currency is exchangeable into another currency, and the spot exchange rate to use where it is not.

These amendments did not have any material impact on the amounts recognised in prior periods and are not expected to significantly affect the current or future periods.

b. New standards or amendments not yet adopted

Classification of Liabilities as Current or Non-current and Non-current Liabilities with Covenants –

Amendments to Ind AS 1 - This amendment also includes specific provisions that will take effect for reporting periods beginning on or after 1 April 2026, as outlined below.

Under the existing Ind AS 1, where there is a breach of a material provision of a long-term loan arrangement on or before the end of the reporting period with the effect that the liability becomes payable on demand on the reporting date, the entity does not classify the liability as current, if the lender agreed, after the reporting period and before the approval of the financial statements for issue, not to demand payment as a consequence of the breach.

However, the amended requirements stipulate that entities will no longer be permitted to consider lender waivers that are granted after the reporting date but before the financial statements are approved for the purpose of classification of loans. This amendment is required to be applied retrospectively in accordance with Ind AS 8. The company does not expect this amendment to have an impact on its operations or financial statements.

2.3 Summary of Material accounting policies

a. Current and non-current classification

An entity shall classify an asset as current when:

(i) it expects to realise the asset, or intends to sell or consume it, in its normal operating cycle

(ii) it holds the asset primarily for the purpose of trading

(iii) it expects to realise the asset within twelve months after the reporting period (other than for long-term projects), or

(iv) the asset is cash or a cash equivalent (as defined in Ind AS 7) unless the asset is restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets shall be classified as non-current.

An entity shall classify a liability as current when:

(i) it expects to settle the liability in its normal operating cycle

(ii) it holds the liability primarily for the purpose of trading

(iii) the liability is due to be settled within twelve months after the reporting period (other than for long-term projects), or

(iv) it does not have the right at the end of the reporting period to defer settlement of the liability for at least twelve months after the reporting period.

All other liabilities shall be classified as non-current.

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

During the year ended March 31, 2026, the Company has reassessed the period of its normal operating cycle based on the nature of its business, the time required for procurement of inputs, execution of operations, delivery of goods and services, and realization of receivables in the ordinary course of business. Based on this assessment, management has concluded that the Company's normal operating cycle for the purpose of classification of assets and liabilities under Ind AS in case of long term projects is contract specific.

Accordingly, the classification of assets and liabilities as current and non-current in these financial statements has been revised to reflect the updated operating cycle in accordance with Ind AS 1, Presentation of Financial Statements, and Schedule III to the Companies Act, 2013.

In the case of long-term projects, operating cycle of the Company exceeds one year covering the duration of the contract and extends upto the realisation of receivables (including retention monies) within the credit period normally applicable to the respective contract. Accordingly, for classification of assets and liabilities related to such contracts as current, duration of each individual contract is considered as its operating cycle.

b. Foreign currencies

The Company's financial statements are prepared in Indian Rupees (Rs.), which is also the functional currency of the Company.

Transactions and balances

Transactions in foreign currencies are initially recorded at the functional currency spot rates at the date the transaction first qualifies for recognition. Monetary assets and liabilities denominated in foreign currencies are translated at the functional currency spot rates of exchange at the reporting date. Exchange differences arising on settlement or translation of monetary items are recognised in the Statement of Profit and Loss.

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates at the dates of the initial transactions.

c. Fair value measurement

The Company measures financial instruments at fair value at each balance sheet date. The Company applies fair value measurement when an Ind AS requires or permits fair value measurement for disclosures about fair value measurements except for Ind AS which prescribe measurement and disclosures such as:

a) Share based payment transactions covered by Ind AS 102 - "Share based payments";

In such cases, fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. In addition or further, fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability; or
- In the absence of a principal market, in the most advantageous market for the asset or liability.

The principal or the most advantageous market must be accessible by the Company. The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data is available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorized within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1 - Quoted (unadjusted) market prices in active markets for identical assets or liabilities
- Level 2 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable
- Level 3 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

For the purpose of fair value disclosures, the Company has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

This note summarizes accounting policy for fair value. Other fair value related disclosures are given in the relevant notes.

- Quantitative disclosures of fair value measurement hierarchy (note 35)
- Financial instruments (including those carried at amortised cost) (note 35)

For assets and liabilities that are recognised in the financial statements on a recurring basis, the Company determines whether transfers have occurred between levels in the hierarchy by re-assessing categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

d. Financial instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

Financial assets

The Company classifies its financial assets in the following measurement categories:

- those to be measured subsequently at fair value (either through other comprehensive income, or through profit or loss)
- those to be measured at amortised cost.

Notes to the financial statements for the year ended March 31, 2026
((All amounts in Rupees Lakh, except per share data and unless stated otherwise.)

The classification depends on the entity's business model for managing the financial assets and the contractual terms of the cash flows.

For assets measured at fair value, gains and losses will either be recorded in profit or loss or other comprehensive income. For investments in equity instruments that are not held for trading, this will depend on whether the Company has made an irrevocable election at the time of initial recognition to present subsequent changes in fair value in other comprehensive income.

At initial recognition, the Company measures a financial asset (excluding trade receivables which do not contain a significant financing component) at its fair value plus, in the case of a financial asset not at fair value through profit or loss, transaction costs that are directly attributable to the acquisition of the financial asset. Transaction costs of financial assets carried at fair value through profit or loss are expensed in profit or loss.

Debt instruments:

Subsequent measurement of debt instruments depends on the Company's business model for managing the asset and the cash flow characteristics of the asset. There are two measurement categories into which the Company classifies its instruments:

Debt instrument at fair value through profit or loss (FVTPL)

Assets that do not meet the criteria for amortised cost or FVOCI are measured at fair value through profit or loss. A gain or loss on a debt instrument that is subsequently measured at fair value through profit or loss is recognised in profit or loss and presented net within other gains/(losses) in the period in which it arises. Interest income from these financial assets is included in other income.

Derecognition

A financial asset (or, where applicable, a part of a financial asset or part of a company of similar financial assets) is primarily derecognized when:
• The rights to receive cash flows from the asset have expired; or
• The Company has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a ""pass-through"" arrangement; and either (a) the Company has transferred substantially all the risks and rewards of the asset, or (b) the Company has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

Impairment of financial assets

Further disclosures relating to impairment of financial assets are provided in the following notes:

- Trade receivables and Contract Assets - Refer note 6(a), 6(b) and 6(c);
- Investments - Refer note 9;
- Other financial assets - Refer note 5 and 11."

Financial liabilities

Financial liabilities are classified, at initial recognition, as financial liabilities at FVTPL, loans and borrowings or payables as appropriate. All financial liabilities are recognized initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs. The Company's financial liabilities include trade and other payables, loans and borrowings.

Subsequent measurement of financial liabilities depends on their classification as fair value through profit and loss or at amortized cost.

All changes in fair value of financial liabilities classified as FVTPL is recognized in the Statement of profit and loss. Amortized cost category is applicable to loans and borrowings, trade and other payables. After initial recognition the financial liabilities are measured at amortized cost using the EIR method. Gains and losses are recognized in profit and loss when the liabilities are derecognized as well as through the EIR amortization process. Amortized cost is calculated by taking into account any discount or premium on acquisition and fees or cost that are integral part on EIR. The EIR amortization is included as finance cost in the Statement of Profit and Loss.

Derecognition

A financial liability is derecognized when the obligation under the liability is discharged or cancelled or expires when an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognized in the Statement of Profit and Loss.

Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the balance sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realize the assets and settle the liabilities simultaneously.

e. Share based payments

In respect of stock options granted pursuant to the Company's Employee Stock Option Scheme, the Company recognises employee compensation expense, using the grant date fair value in accordance with Ind AS 102 - ""Share Based Payment (SBP)"", over the period over which the employees provide services. Employees (senior executives) of the Company receive remuneration in the form of share-based payments, whereby employees render services as consideration for equity instruments.

The Company initially measures the cost of transactions with employees using fair value of option granted using black scholes option pricing model to measure the cost of service received .

Estimating fair value for share-based payment transactions requires determination of the most appropriate valuation model and the performance of the Company, which is dependent on the terms and conditions of the grant. This estimate also requires determination of the most appropriate inputs to the valuation model including the expected life of the share option, volatility and dividend yield and making assumptions about them.

The assumptions and models used for estimating fair value for share-based payment transactions are disclosed in note 24.

2.4 Climate-related matters

The company considers climate-related matters in estimates and assumptions, where appropriate. This assessment includes a wide range of possible impacts on the company due to both physical and transition risks. Even though the Company believes its business model and products will still be viable after the transition to a low-carbon economy, climate-related matters increase the uncertainty in estimates and assumptions underpinning several items in the financial statements. Even though climate-related risks might not currently have a significant impact on measurement, the company is closely monitoring relevant changes and developments, such as new climate-related legislation.

3 CRITICAL ACCOUNTING ESTIMATES AND JUDGEMENTS

"In the application of the company's accounting policies and preparation of financial statements, the Management is required to make judgements, estimates and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods. Detailed information about each of these estimates and judgements is included in relevant notes together with information about the basis of calculation for each affected line item in the Financial Statements.

The areas involving critical estimates or judgements are:

a. Estimations used for fair value measurement (Refer note 35)

b. Estimations used for impairment of financial assets (Refer note 2.3.d and 6(d))

c. Estimates and assumptions related to useful lives and impairment of Property, Plant and Equipment (PPE) (Refer note 4)

d. Estimates and assumptions for income taxes (Refer note 7)

e. Estimates and assumptions related to provisions (Refer note 19 and 33)

f. Estimates, judgments and assumptions used for revenue from operations (Refer note 21)

g. Judgements related to segment reporting (Refer note 32)

4 (a) Property, Plant and Equipment

Accounting policy

Property, plant and equipment (PPE) are stated at cost of acquisition or construction net of accumulated depreciation and impairment loss, if any. All costs directly attributable to the acquisition and installation of PPE are capitalised. Subsequent costs/replacement costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. The carrying amount of the replaced part is derecognised. All other repairs and maintenance expenses are charged to the Statement of Profit and Loss during the financial year in which they are incurred.

Gains or losses arising from derecognition of property, plant and equipment are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognized in the Statement of Profit and Loss when the asset is derecognized.

Depreciation on PPE is calculated on a straight-line basis using the rates arrived at, based on the useful lives estimated by the management. The Company depreciates each part of an item of property, plant and equipment separately if cost of the part is significant in relation to the total cost of the item or principle asset and useful life is materially different from the principle asset.

The management has estimated the useful lives of certain classes of assets in order to reflect the actual usage of the assets. The useful lives have been determined based on technical evaluation done by the management's expert which are higher than those specified by Schedule II to the Companies Act, 2013, in order to reflect the actual usage of the assets. The residual values are not more than 5% of the original cost of the asset. The following useful lives are estimated by the management:

Assets category	Company's estimate of useful life (years)	Useful life as prescribed under Schedule II (years)
Plant and equipment	5	15 to 20
Office equipment*	5	15
Furniture and fixtures	15	10
Computers	3 to 6	3 to 6
Vehicles	5	8

* includes site infrastructure purchased during the previous year, which was depreciated in the year of purchase.

The assets residual values, useful lives and methods of depreciation of PPE are reviewed on a regular basis and changes in estimates, when relevant, are accounted for on a prospective basis.

Estimates and assumptions:

The Company determines, based on technical assessment, the estimated useful lives of its property, plant and equipment and intangible assets for calculating depreciation and amortisation. This estimate is determined after considering the expected usage of the asset or physical wear and tear. Management reviews the useful lives periodically and future depreciation and amortisation charge would be adjusted where the management believes the useful lives differ from previous estimates.

Accounting policy

Impairment of assets

The Company assesses, at each reporting date, whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the Company estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's or Cash Generating Unit's (CGU) fair value less costs of disposal and its value in use. Recoverable amount is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets. When the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount. Impairment losses are recognised in the Statement of Profit or Loss.

For assets, an assessment is made at each reporting date to determine whether there is an indication that previously recognised impairment losses no longer exist or have decreased. If such indication exists, the Company estimates the asset's or CGU's recoverable amount. A previously recognised impairment loss is reversed only if there has been a change in the assumptions used to determine the asset's recoverable amount since the last impairment loss was recognised. The reversal is limited so that the carrying amount of the asset does not exceed its recoverable amount, nor exceed the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognised for the asset in prior years. Such reversal is recognised in the Statement of Profit and Loss unless the asset is carried at a revalued amount, in which case, the reversal is treated as a revaluation increase, if applicable.

The Company assesses where climate risks could have a significant impact, such as the introduction of emission-reduction legislation that may increase manufacturing costs. These risks in relation to climate-related matters are included as key assumptions where they materially impact the measure of recoverable amount. These assumptions have been included in the cash-flow forecasts in assessing value-in-use amounts.

Estimates and assumptions

Impairment exists when the carrying value of an asset or cash generating unit (CGU) exceeds its recoverable amount, which is the higher of its fair value less costs of disposal and its value in use. The fair value less costs of disposal calculation is based on available data from binding sales transactions, conducted at arm's length, for similar assets or observable market prices less incremental costs for disposing of the asset. The value in use calculation is based on a Discounted Cash Flow (DCF) model. The cash flows are derived from the budget for the next five years as approved by the Management and do not include restructuring activities that the Company is not yet committed to or significant future investments that will enhance the asset's performance of the CGU being tested. The recoverable amount is sensitive to the discount rate used for the DCF model as well as the expected future cash-inflows and the terminal growth rate used.

Notes to the financial statements for the year ended March 31, 2026

*The Company had elected to continue with the carrying value of property, plant and equipment and intangible assets as recognised in the financial statements as per previous GAAP and had regarded those values as the deemed cost on the date of transition to Ind AS (i.e. April 1, 2015). The Company has disclosed the gross block and accumulated depreciation above, for information purpose only.

The Company has not given any property, plant and equipment as security against any borrowings or credit facility and does not have any charges against property, plant and equipment.

** Certain assets have been reclassified from office equipment to plant and machinery based on nature of the assets.

Refer note 31(a) for disclosure of contractual commitments for the acquisition of property, plant and equipment.

4 (b) Intangible assets

Accounting policy

Intangible assets acquired separately are measured on initial recognition at cost. The cost of intangible assets acquired in a business combination is their fair value at the date of acquisition. Following initial recognition, intangible assets are carried at cost less any accumulated amortization and accumulated impairment losses.

Development costs for internally generated intangibles that are directly attributable to the design and testing of identifiable and unique intangible controlled by the Company are recognised as intangible assets where the following criteria are met:

- it is technically feasible to complete the intangible asset so that it will be available for use
- management intends to complete the intangible asset and use or sell it
- there is an ability to use or sell the intangible asset
- it can be demonstrated how the intangible asset will generate probable future economic benefits
- adequate technical, financial and other resources to complete the development and to use or sell the intangible asset are available, and
- the expenditure attributable to the intangible asset during its development can be reliably measured.

The cost may also include transfers from equity of any gains or losses on qualifying cash flow hedges of foreign currency purchases of intangible assets. Intangible assets with finite lives are amortized over the useful economic life and assessed for impairment whenever there is an indication that the intangible asset may be impaired. The amortization period and the amortization method for an intangible asset with a finite useful life are reviewed at least at the end of each reporting period. Changes in the expected useful life or the expected pattern of consumption of future economic benefits embodied in the asset are considered to modify the amortization period or method, as appropriate, and are treated as changes in accounting estimates.

Gains or losses arising from derecognition of an intangible asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognized in the Statement of Profit and Loss when the asset is derecognized.

Amortisation of the asset begins when development is complete and the asset is available for use. It is amortized on a straight-line basis over the period of expected future benefit from the related project, i.e., the estimated useful life subject to a maximum of ten years. amortisation is recognized in the Statement of Profit and Loss unless such expenditure forms part of carrying value of another asset. During the period of development, the asset is tested for impairment annually.

The following useful lives are estimated by the management:

Assets category	Company's estimate of useful life (years)	Useful life as prescribed under Schedule II (years)

*The Company had elected to continue with the carrying value of property, plant and equipment and intangible assets as recognised in the financial statements as per previous GAAP and had regarded those values as the deemed cost on the date of transition to Ind AS (i.e. April 1, 2015). The Company has disclosed the gross block and accumulated amortisation above, for information purpose only.

5 Other financial assets (non-current)

	As at March 31, 2026	As at March 31, 2025
Unsecured, considered good		
i) Investment in Lakhimpur kher RNG Private Limited*	1,000.00	-
ii) Investment in Sangrur RNG Private Limited*	650.00	-
iii) Investment in Patiala RNG Private Limited*	650.00	-
Total	**2,300.00**	**-**

Pursuant to the Engineering, Procurement and Construction ("EPC") Agreements entered between the Company and Everenviro (the "Customer"), for the supply of Compressed Bio-Gas ("CBG") plants to its Project Special Purpose Vehicles ("Project SPVs"), the parties agreed to record the mutually agreed revised terms as per master addendum agreement dated August 13, 2025 (the "Addendum"). As a part of renegotiations, while providing relaxation with reduced performance parameters and liquidated damages settlement, the Company agreed to subscribe to Class B Compulsorily Convertible Preference Shares ("CCPS") of Rs. 10 each in the Project SPVs aggregating to Rs. 2,300 as below:

SPV Name	Number of shares	Face value per share	Total Investment
Lakhimpur Kher RNG Private Limited	10,000,000	10	1,000.00
Sangrur RNG Private Limited	6,500,000	10	650.00
Patiala RNG Private Limited	6,500,000	10	650.00

Further, pursuant to conditions of addendum agreement, the Company has agreed to meet performance parameters within defined evaluation period. As per the respective Share Subscription and Shareholders Agreements ("SSSA") between the parties, the SPVs has an option to call back the aforesaid investment at the defined call option prices. Basis the economic substance of the addendum agreement, the valuation of such CCPS is intrinsically linked to the performance of CBG plant of each of the SPVs. Based on the addendum agreement, during the evaluation period the value of the CCPS would be higher of cost or fair market value and post evaluation period, it would be fair market value. Market value in this case would be determined based on the performance of the CBG plant.

Additionally, while the CCPS qualifies as a financial asset within the definitions provided by Ind AS 109, as its fair value changes are associated with the performance of the CBG plant rather than market risk or investment yields. Accordingly, any change in the fair value of such CCPS will be considered as a variable consideration and recognized through revenue adjustments rather than separate financial outcomes.

During the current year, the Company has received term loan of Rs. 2,300 from the Holding Company for the purpose of investment in aforesaid SPVs.

6 (a) Trade Receivables

Accounting policy

Trade receivables are amounts due from customers for goods sold or services performed in the ordinary course of business and reflect the Company's unconditional right to consideration (that is, payment is due only on the passage of time). Trade receivables are recognised initially at the transaction price as they do not contain significant financing components. The Company holds the trade receivables with the objective of collecting the contractual cash flows and therefore measures them subsequently at amortised cost using the effective interest method, less loss allowance.

For trade receivables and contract assets, the Company applies the simplified approach required by Ind AS 109, which requires expected lifetime losses to be recognised from initial recognition of the receivables.

	As at March 31, 2026	As at March 31, 2025
Trade receivables from:		
i) Related parties (Refer note 34)	98.65	3,397.45
ii) Unbilled^	975.79	44.00
iii) Others	6,642.07	2,282.63
Total	**7,716.51**	**5,724.08**

Sub-classification of trade receivables

	As at March 31, 2026	As at March 31, 2025
Secured, considered good	-	-
Unsecured, considered good	8,656.32	6,181.07
Trade Receivables which have a significant increase in credit risk	-	-
Trade Receivables - credit impaired	-	-
	8,656.32	6,181.07
Less: Impairment allowance	(939.81)	(456.99)
Total	**7,716.51**	**5,724.08**

Pursuant to an arrangement with a bank, the Company has sold to the bank certain trade receivables on a non-recourse basis. The receivables sold were mutually agreed upon with the respective bank after considering the creditworthiness and contractual terms with two customers. The Company has transferred substantially all the risks and rewards of ownership of such receivables sold to the respective bank, and accordingly, the same were derecognized in the Balance Sheet. As at 31 March 2026, the amount of trade receivables de-recognised pursuant to the aforesaid arrangement of Rs. 18,971.98 (March 31, 2025: Rs. 42,207.71).

Notes to the financial statements for the year ended March 31, 2026
((All amounts in Rupees Lakh, except per share data and unless stated otherwise.)

^The receivable is 'unbilled' because the Company has not yet issued an invoice; However, the balance has been included under trade receivables (as opposed to contract assets) because it has an unconditional right to consideration.

No trade or other receivable are due from directors or other officers of the company either severally or jointly with any other person nor any trade or other receivable are due from firm or private companies respectively in which any director is a partner a director or a member.

Trade receivables are non-interest bearing and are generally on terms of 15 to 30 days.

For term and conditions relating to related party receivables, refer note 34.

The ageing of non-current trade receivables:

6 (b) Contract assets - at amortised cost - Current

Accounting policy

A contract asset represents the Company's right to consideration in exchange for goods or services that the entity has transferred to a customer where that right is conditioned on something other than the passage of time. The impairment of contract assets is measured, presented and disclosed on the same basis as trade receivables.

	As at March 31, 2026	As at March 31, 2025
Contract assets	2,795.01	1,679.20

Total	**-**	**221.71**

6 (d) Set out below is the movement in impairment allowance for trade receivable and contract assets measured using life time expected credit loss model (pursuant to Ind AS 109):

Accounting policy

To measure the expected credit losses, trade receivables and contract assets have been grouped based on shared credit risk characteristics and the days past due. A contract asset represents the Company's right to consideration in exchange for goods or services that the entity has transferred to a customer where that right is conditioned on something other than the passage of time; and have substantially the same risk characteristics as the trade receivables for the same types of contracts. The Company has therefore concluded that the expected loss rates for trade receivables are a reasonable approximation of the loss rates for the contract assets.

Credit risk on trade receivables and contract assets are managed by the Company subject to it's established policy, procedures and control relating to customer credit risk management. Credit quality of a customer is assessed and credit limits are defined in accordance with this assessment. Moreover, given the nature of the Company's businesses, although trade receivables and contract assets are spread over a limited number of customers with quiet concentration of credit risk, same is mitigated through assessment of credit quality of the customer.

For trade receivables and contract assets, as a practical expedient, the Company computes credit loss allowance based on a provision matrix. The provision matrix is prepared based on historically observed default rates over the expected life of trade receivables and contract assets and is adjusted for forward-looking estimates.

Trade receivables and contract assets are written off where there is no reasonable expectation of recovery. Indicators that there is no reasonable expectation of recovery include, amongst others, the failure of a debtor to engage in a repayment plan with the Company, and a failure to make contractual payments for a period of greater than 365 days past due or as mutually agreed between the parties.

Impairment losses on trade receivables and contract assets are presented as expected credit loss in the Standalone Statement of Profit and Loss. Subsequent recoveries of amounts previously written off are credited against the same line item.

Estimates and Judgements

The impairment provisions for financial assets are based on assumptions about risk of default, expected loss rates and timing of cash flows. The Company uses judgment in making these assumptions and selecting the inputs to the impairment calculation, based on the Company's past history, existing market conditions as well as forward looking estimates at the end of each reporting period.

As a practical expedient, the Company uses a provision matrix to determine ECL impairment allowance on portfolio of its trade receivables and contract assets. The provision matrix is based on its historically observed default rates over the expected life of the trade receivables and is adjusted for forward-looking estimates. At every reporting date, the historical observed default rates are updated and changes in the forward-looking estimates are analyzed. The Company follows provisioning norms based on ageing of receivables to estimate the impairment allowance under ECL

	March 31, 2026		March 31, 2025

Net charge to Statement of Profit and Loss	**939.81**	**1,193.00**	**456.99**	**900.53**

Also refer note 34 for impairment provision on related party balances.

7 Non-current tax assets

Accounting policy

Tax expense comprises of current tax expense and deferred tax.

Current tax

Current tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted, at the reporting date. Current income tax relating to items recognized outside profit or loss is recognized either in OCI or in equity, in correlation to the underlying transaction.

Deferred tax

Deferred tax is provided using the liability method on temporary differences between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes at the reporting date. Deferred tax assets are recognised for all deductible temporary differences, the carry forward of unused tax credits and any unused tax losses. Deferred tax assets are recognised to the extent that it is probable that future taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilised. Deferred income tax is not accounted for if it arises from initial recognition of an asset or liability in a transaction other than a business combination that at the time of the transaction affects neither accounting profit nor taxable profit (tax loss) and does not give rise to equal taxable and deductible temporary differences.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient future taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets are re-assessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realised or the liability

Notes to the financial statements for the year ended March 31, 2026
((All amounts in Rupees Lakh, except per share data and unless stated otherwise.)

is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

Deferred tax relating to items recognised outside profit or loss is recognised outside profit or loss (either in OCI or in equity), in correlation to the underlying transaction.

Deferred tax assets and liabilities are offset where there is a legally enforceable right to offset current tax assets and liabilities and where the deferred tax balances relate to the same taxation authority.

Current tax assets and tax liabilities are offset where the entity has a legally enforceable right to offset and intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously.

The Company applies significant judgement in identifying uncertainties over income tax treatments.

Estimates and assumptions

Recoverability of Deferred tax assets:

At each balance sheet date, the Company assesses whether the realization of future tax benefits is sufficiently probable to recognize deferred tax assets. This assessment requires the use of significant estimates with respect to assessment of future taxable income. The recorded amount of total deferred tax assets could change if estimates of projected future taxable income or if changes in current tax regulations are enacted.

The major components of income tax expense for the period March 31, 2026 and 31 March 2025 are:

(i) Statement of profit and loss

Particulars	For the year ended March 31, 2026	For the year ended March 31, 2025
Current income tax charge	-	-
Adjustment of tax relating to earlier periods	-	134.87
Deferred tax relating to origination and reversal of temporary differences	-	-
Income tax expense reported in the Statement of profit and loss	**-**	**134.87**

(ii) Other Comprehensive Income

Particulars	For the year ended March 31, 2026	For the year ended March 31, 2025
Deferred tax related to items recognized in other comprehensive income during the year		
Deferred tax		
Net loss/(gain) on re-measurement of defined benefit plans	-	-
Income tax charged to Other Comprehensive Income	**-**	**-**

Reconciliation of tax expense and accounting profit multiplied by India's domestic tax rate for March 31, 2026 and March 31, 2025

Particulars	For the year ended March 31, 2026	For the year ended March 31, 2025
Accounting loss before tax	(3,295.66)	(9,399.24)
At India's statutory income tax rate (as per Income Tax Act, 1961) of 25.17% (March 31, 2025 : 25.17%)	(829.52)	(2,365.79)
- Deferred tax not recognized on current year loss and other items	829.52	2,365.79
- Tax (Income)/expenses for earlier years	-	134.87
At the effective Tax rate of 25.17% (March 31, 2025: 25.17%)	**-**	**134.87**
Income tax expense reported in the Statement of profit or loss	**-**	**134.87**

(iii) Deferred tax assets (net)

	As at March 31, 2026	As at March 31, 2025
Deferred Tax Liabilities		
Fair value gain on financial instrument at fair value through profit and loss (net)	3.45	28.74
Total (a)	**3.45**	**28.74**
Deferred Tax Assets		
Property, plant & equipment and intangible assets : Impact of difference between tax depreciation and depreciation/ amortisation for financial reporting	3.45	17.29
Others (provision for doubtful debts and onerous contracts)	-	11.45
Total (b)	**3.45**	**28.74**
Net Deferred Tax Liabilities (a-b)	**-**	**-**

Movement in deferred tax assets/(liabilities)

Particulars	For the year ended March 31, 2026	For the year ended March 31, 2025
Fair value gain on financial instrument at fair value through profit and loss (net)	(25.29)	28.74
Property, plant & equipment and intangible assets : Impact of difference between tax depreciation and depreciation/ amortisation for financial reporting	13.84	(17.29)
Others (provision for doubtful debts and onerous contracts)	11.45	(11.45)
Deferred tax expense recognised in the Statement of Profit and Loss - (Charge)/Credit	**-**	**-**

The Company has tax losses, unabsorbed depreciation and other items of Rs. 14,692.79 (March 31, 2025: Rs.11,397.12) that are available for offsetting for future taxable profits. Deferred tax assets have not been recognised in respect of these items as they may not be used to offset taxable profits in the Company and there are no other tax planning opportunities or other evidence of recoverability in the near future. If the Company were able to recognise all unrecognised deferred tax assets, the loss for the year would decrease by Rs. 3,698.17 (March 31, 2025: Rs. 2,868.65).

	Expiry date (Year ending March 31)	As at March 31, 2026		As at March 31, 2025	
		Amount	Tax Impact	Amount	Tax Impact
Tax losses	2033	6,182.76	1,556.20	6,182.76	1,556.20
	2034	4,651.29	1,170.73	-	-
Total tax losses		**10,834.05**	**2,726.93**	**6,182.76**	**1,556.20**
Property, plant & equipment and intangible assets : Impact of difference between tax depreciation and depreciation/ amortisation for financial reporting	No Expiry	46.10	11.60	-	-
Employee benefit expenses	No Expiry	198.70	50.01	129.58	32.62
Disallowances u/s 43B(h) of Income Tax Act, 1961	No Expiry	945.40	237.96	2,525.83	635.75
Others (provision for doubtful debts and onerous contracts)	No Expiry	2,668.54	671.67	2,558.95	644.09
Total		**14,692.79**	**3,698.17**	**11,397.12**	**2,868.65**

Income Tax Assets/Liabilities for income tax:

Movement in tax liabilities	As at March 31, 2026	As at March 31, 2025
Opening balance as at April 01	309.98	482.29
Add/(less): Tax payable for the year	-	(134.87)
Add: Taxes paid (net of refunds received)	(196.24)	(37.44)
Closing balance as at March 31	113.74	309.98

The above balance is represented in the balance sheet as below:

Particulars	As at March 31, 2026	As at March 31, 2025
Income tax asset - non current	113.74	309.98
Income tax asset - current	-	-
Liabilities for income tax (net) - current	-	-

8 Inventories

Accounting policy

Raw materials are stated at the lower of cost and net realisable value. Cost of raw materials comprises cost of purchases. Cost of inventories also include all other costs incurred in bringing the inventories to their present location and condition. Costs of purchased inventory are determined after deducting rebates and discounts. Net realisable value is the estimated selling price in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sale. Costs of raw material inventories are determined on weighted average basis. Write down of inventories is calculated based on an analysis of foreseeable changes in demand, technology, market conditions and ageing of inventories.

	As at March 31, 2026	As at March 31, 2025
Raw materials	182.00	-
Total	**182.00**	**-**

9 Current Investments

	As at March 31, 2026	As at March 31, 2025
Investments at Fair value through Profit and Loss

19 Provisions

Accounting policy

Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. When the Company expects some or all of a provision to be reimbursed, for example, under an insurance contract, the reimbursement is recognised as a separate asset, but only when the reimbursement is virtually certain.

If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost.

Warranty Provisions

Provisions for warranty related costs are recognized when the product is sold or service provided to the customer. Initial recognition is based on historical experience. The estimate of warranty related costs is revised annually.

Provision for onerous contracts

Present obligations arising under onerous contracts are recognised, measured and disclosed as provisions in financial statements. An onerous contract is considered to exist where the Company has a contract under which the unavoidable costs of meeting the obligations under the contract exceed the economic benefits expected to be received from the contract.

For provision for leave encashment and gratuity - Refer note 33

Estimates and assumptions

• Provision for onerous contracts:

The Company provides for onerous contracts when a present obligations arises as the unavoidable costs of meeting an obligations under a contract exceed the economic benefits expected to be received from that contract. Estimating these future losses involves a number of assumptions about the achievement of contract performance targets and the likely levels of future cost including escalation over time.

• Warranty provision:

Warranty costs are provided based on a technical estimate of the costs required to be incurred for repairs, replacements, material costs, servicing cost and past experience in respect of warranty costs. The assumptions made in current period are consistent with those in the prior year. Factors that could impact the estimated claim information include the success of the Company's productivity and quality initiatives. It is expected that this expenditure will be incurred over the contracted warranty period ranging up to 2 years from the date of site handover.

	As at March 31, 2026	As at March 31, 2025

20 Other current liabilities

Accounting policy

Contract liabilities: A contract liability is the obligation to transfer goods or services to a customer for which the Company has received consideration (or an amount of consideration is due) from the customer. If a customer pays consideration before the Company transfers goods or services to the customer, a contract liability is recognised when the payment is made or the payment is due (whichever is earlier). Contract liabilities are recognised as revenue when the Company satisfies the performance obligation. Contract liabilities are recorded in balance sheet as unearned revenue or customer advances as the case may be.

	As at March 31, 2026	As at March 31, 2025
Contract liabilities		
(i) Related parties (Refer note 34)	59.50	195.38
(ii) Others	1,715.43	2,559.66
Statutory dues and other liabilities*	173.22	155.90
Total	**1,948.15**	**2,910.94**

* mainly includes tax deducted at source, provident fund, etc.

For terms and conditions relating to advances given to related parties, refer note 34.

21 Revenue from operations

Accounting Policy

Revenue from contracts with customers: Revenue from contracts with customers is recognized when control of the goods or services are transferred to the customer at an amount that reflects the consideration to which the Company expects to be entitled in exchange for those goods or services. Revenue is recognized when it has approval and commitment from both parties, the rights of the parties are identified, payment terms are identified, the contract has commercial substance and collectability of consideration is probable. The Company has concluded that it is the

Notes to the financial statements for the year ended March 31, 2026
((All amounts in Rupees Lakh, except per share data and unless stated otherwise.)

principal in all of its revenue arrangements since it is the primary obligor in all the revenue arrangements and has pricing latitude and is also exposed to inventory risks. The Company collects goods and services tax on behalf of the government and, therefore, it is not an economic benefit flowing to the Company. Hence, it is excluded from revenue.

Revenue is recognized to the extent that it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured, regardless of when the payment is being made. Revenue is measured at the fair value of the consideration received or receivable, taking into account contractually defined terms of payment and excluding taxes or duties collected on behalf of the government.

The specific recognition criteria described below must also be met before revenue is recognized.

The disclosures of significant accounting judgements, estimates and assumptions relating to revenue from contracts with customers are provided below.

The Company has the following streams of revenue:

• Revenue from Engineering, Procurement and Construction contracts

Engineering, Procurement and Construction (EPC) contracts are contracts (or a group of contracts secured together) specifically negotiated for the construction of an asset which refers to any project for construction of plants and systems, involving designing, engineering, fabrication, supply, erection (or supervision thereof), commissioning, guaranteeing performance thereof etc., execution of which is spread over different accounting periods. The Company identifies distinct performance obligations in each contract. For most of the project contracts, the customer contracts with the Company to provide a service of integrating a complex set of tasks and components into a single project or capability. Hence, the entire contract is accounted for as one performance obligation.

The Company may promise to provide distinct goods or services within a contract, in which case the Company separates the contract into more than one performance obligation. If a contract is separated into more than one performance obligation, the Company allocates the total transaction price to each performance obligation in an amount based on the estimated relative standalone selling prices of the promised goods or services underlying each performance obligation. The Company uses the expected cost plus margin approach to estimate the standalone selling price of each performance obligation in case of contracts with more than one distinct performance obligations.

The Company assesses for the timing of revenue recognition in case of each distinct performance obligation. The Company first assesses whether the revenue can be recognized over a period of time if any of the following criteria is met:

(a) The customer simultaneously consumes the benefits as the Company performs; or

(b) The customer controls the work-in-progress; or

(c) The Company's performance does not create an asset with alternative use to the Company and the Company has right to payment for performance completed till date.

If none of the criteria above are met, the Company recognized revenue at a point-in-time. The point-in-time is determined when the control of the goods or services is transferred which is determined based on when the significant risks and rewards of ownership are transferred to the customer. Apart from this, the Company also considers its present right to payment, the legal title to the goods, the physical possession and the customer acceptance in determining the point in time where control has been transferred.

The Company recognizes revenue over time as it performs because of continuous transfer of control to the customer. For all project contracts, this continuous transfer of control to the customer is supported by the fact that the customer typically controls the work in process as evidenced either by contractual termination clauses or by the rights of the Company to payment for work performed to date plus a reasonable profit to deliver products or services that do not have an alternative use.

The Company uses cost-based measure of progress (or input method) for contracts because it best depicts the transfer of control to the customer which occurs as it incurs costs on contracts. Under the cost-based measure of progress, the extent of progress towards completion is measured based on the ratio of costs incurred to date to the total estimated costs at completion of the performance obligation. Revenues, including estimated profits, are recorded proportionally as costs are incurred.

The Company estimates variable consideration amount which it expects to be entitled under the contract and includes it in the transaction price to the extent it is highly probable that a significant reversal of cumulative revenue recognized will not occur and when the uncertainty associated with it is subsequently resolved. The estimates of variable consideration and determination of whether to include estimated amounts in the transaction price are based largely on an assessment of the anticipated performance and all information (historical, current and forecasted) that is reasonably available. Penalties/claims for any delay or improper execution of a contract are recognized as a deduction from revenue. In the balance sheet, such provisions are presented on net basis of the contract receivables.

Costs associated with bidding for contracts are charged to the Statement of Profit and Loss when they are incurred. Costs that relate directly to a contract and are incurred in securing the contract are included as part of the contract costs if they can be separately identified and measured reliably and it is probable that the contract will be obtained.

The Company provides for warranty provision for general repairs up to 12 – 24 months on its EPC contracts, in line with the industry practice. A liability is recognized at the time the contract is concluded. The Company does not provide any extended warranties.

Contract modification, when approved by both the parties to the contract, are considered as modification, if it creates new or changes the existing enforceable rights and obligations. Most of the contract modifications are not distinct from the existing contracts due to the significant integration service provided under the contract prior to modifications and are therefore, accounted for as part of the existing contract. The effect of a contract modification is recognized as an adjustment to revenue on a cumulative catch-up basis.

When it becomes probable that the total contract costs will exceed the total contract revenue, the Company recognizes the expected losses from onerous contract as an expense immediately. Penalties for any delay or improper execution of a contract are recognized as a deduction from revenue. In the balance sheet, such provisions are presented as provision for onerous contracts.

On the balance sheet date, the Company reports the net contract position for each contract as either an asset or a liability. A contract represents an asset where costs incurred plus recognized profits (less recognized losses) exceed progress billings; a contract represents a liability where the opposite is the case.

The Company combines two or more contracts entered into at or near the same time with the same customer (or related parties of the customer) and accounts for the contracts as a single contract if one or more of the following criteria are met:

(a) the contracts are negotiated as a package with a single commercial objective;

(b) the amount of consideration to be paid in one contract depends on the price or performance of the other contract; or

(c) the goods or services promised in the contracts (or some goods or services promised in each of the contracts) are a single performance obligation.

• Revenue from sale of services

Revenue in respect of operation and maintenance contracts, awarded on a standalone basis or included in long term contracts and identified as a separate performance obligation, is recognized on a time proportion basis under the contracts.

Estimates and assumptions

- Provisions for liquidated damages claims (LDs): The Company provides for LD claims to the extent that it is highly probable that a significant reversal in the amount of cumulative revenue recognised will not occur when the uncertainty associated with the variable consideration is subsequently resolved. This requires an estimate of the amount of LDs payable under a claim which involves management judgements and assumptions regarding the amounts to be recognised;
- Project cost to complete estimates: At each reporting date, the Company is required to estimate costs to complete on fixed-price contracts. Estimating costs to complete on such contracts requires the Company to make estimates of future costs to be incurred, based on work to be performed beyond the reporting date. This estimate will impact revenues, cost of sales, work-in-progress, billings in excess of costs, estimated earnings and accrued contract expenses.
- Recognition of contract variations: The Company recognises revenues and margins from contract variations where it is considered probable that they will be awarded by the customer and this requires management to assess the likelihood of such an award being made by reference to customer communications and other forms of documentary evidence.

Judgements

A significant portion of the Company's business relates to EPC contracts which is accounted using cost-based input method, recognizing revenue as the performance on the contract progresses. This requires management to make judgement with respect to identifying contracts for which revenue need to be recognised over a period of time, depending upon when the customer consumes the benefit, whether the customer controls the work-in-progress, whether the asset created has no alternative use and the Company has right to payment for performance completed till date, either contractually or legally. The input method requires management to make significant judgements of the extent of progress towards completion including accounting of multiple contracts which need to be combined and considered as a single contract.

(a) Revenue from contracts with customers:

	For the year ended March 31, 2026	For the year ended March 31, 2025
Revenue from projects	23,928.96	56,943.16
Revenue from services	2,157.64	28.00
Total revenue from contracts with customers (a)	**26,086.60**	**56,971.16**

(b) Other operating revenue

	For the year ended March 31, 2026	For the year ended March 31, 2025
Exchange fluctuation gain (net)	-	4.03
Sale of Scrap	5.85	5.13
Total other operating revenue (b)	**5.85**	**9.16**
Total revenue from operations (a + b)	**26,092.45**	**56,980.32**

(c) Disclosure Pursuant to IND AS 115: Revenue from Contract with Customers

(i) By category of contracts

	For the year ended March 31, 2026	For the year ended March 31, 2025
Over a period of time basis	23,928.96	56,943.16
At a point-in-time basis	2,157.64	28.00
Total revenue from contracts with customers	**26,086.60**	**56,971.16**

ii) Contract balances

The following table provides information about contract balances from contracts with customers as at the reporting date:

	For the year ended March 31, 2026	For the year ended March 31, 2025
Trade receivables (Refer note 6(a))	7,716.51	5,724.08
Contract assets (Refer note 6(b) and 6(c))	1,602.01	1,055.81
Unearned revenue (Contract liabilities) (Refer note 20)	1,774.93	2,755.04

Contract assets primarily relate to the Company's rights to consideration for work completed but not billed at the reporting date on from projects and customised contracts. The Contract assets are transferred to Trade receivables on completion of milestones and its related invoicing.

The Contract liabilities relate to the unearned revenue and advance consideration received from customers and performance obligations still to be fulfilled as per the contracts. The fulfilment of the performance obligations will extinguish these liabilities and revenue will be recognised, with no impact on the Company's cash position on specific projects.

Contract assets have increased compared to the previous year primarily due to the entity received variation orders for the existing contracts during the year and satisfying performance obligations ahead of the agreed billing and payment milestones as per contractual terms. During the year ended March 31, 2026, Rs. 534.22 (March 31, 2025: Rs. 2,949.72) of opening contract asset has been reclassified to trade receivables upon completion of milestones. (Refer note 6(b)).

Contract liabilities have decreased in current year as entity has invoiced lesser than the supplies of products and services made in accordance with the contractual billing and payment schedule. The movement in advance from customer is on account of advances received and utilised during the year. During the year the Company has recognized revenue of Rs. 2,755.04 (March 31, 2025: 2,877.63) arising from opening unearned revenue.

Each contract is presented on a net basis as either a contract asset or a contract liability including for retention money (contract asset) and customer advances (contract liability) in the current year (refer note 43). Accordingly, the disclosures made for recognition of revenue and receivables out of opening contract liabilities and contract assets respectively for previous year, have also been amended to this extent.

(iii) Performance Obligation:

EPC and other than EPC contracts - Performance obligation in a project or a group of projects which are contracted at or near same time with the same or related parties and negotiated simultaneously, are combined for the purpose of evaluation. The Company has estimated that multiple commitments pertaining to engineering, procurement and commissioning of such projects is a single performance obligation which is spread over different accounting periods.

Performance obligation for operations and maintenance are evaluated on standalone basis, recognised over a period of time. Generally, performance obligations for such contracts have an original expected duration more than one year.

There are no major contracts with customers which have significant financing component included within them and therefore there is no difference between the timing of satisfaction of performance obligation vis-a-vis the timing of the payment.

(iv) Remaining performance obligations:

The Company applies practical expedient included in para 121 of Ind AS 115 - "Revenue from Contracts with Customers" and does not disclose information about its remaining performance obligations for contracts that have an original expected duration of one year or less and for service revenue, where the Company has a right to consideration from customers in an amount that corresponds directly with the value to the customer of

Notes to the financial statements for the year ended March 31, 2026
((All amounts in Rupees Lakh, except per share data and unless stated otherwise.)

the entity's performance completed to date.

The Company expects that a significant portion of the remaining performance obligation will be completed in next 1 year.

(v) Reconciliation between revenue recognised in Statement of profit and loss and contract price

There is no significant variation between revenue recognised in Statement of profit and loss and contract price except price variation claims, which are considered to be part of contract price.

22 Other income

Notes to the financial statements for the year ended March 31, 2026

((All amounts in Rupees Lakh, except per share data and unless stated otherwise.)

29 Earnings Per Share (EPS)

Accounting policy

The Company presents the basic and diluted EPS data for its equity shares.

(i) Basic EPS is computed by dividing the net profit for the year attributable to the equity shareholders of the Company by the weighted average number of equity shares outstanding during the year;

(ii) Diluted EPS is computed by adjusting the net profit for the year attributable to the equity shareholders and the weighted average number of equity shares considered for deriving basic EPS for the effects of all the equity shares that could have been issued upon conversion of all dilutive potential equity shares (which includes the various stock options granted to employees).

	For the year ended March 31, 2026	For the year ended March 31, 2025
Net loss attributable to the equity shareholders of the Company	(3,295.66)	(9,534.11)
Weighted average number of equity shares of Rs.10/- each considered for calculating basic EPS (in units)	36,717,808	19,082,192
Weighted average number of equity shares of Rs.10/- each considered for calculating Diluted EPS (in units)	36,717,808	19,082,192
Basic Earning per share (in Rupees)	(8.98)	(49.96)
Diluted earnings per share (in Rupees)	(8.98)	(49.96)

30 Contingent liabilities

Accounting policy

A disclosure for a contingent liability is made where there is a possible obligation that arises from past events and the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company or a present obligation that arises from the past events where it is either not probable that an outflow of resources will be required to settle the obligation or a reliable estimate of the amount cannot be made.

The Company has issued various guarantees for performance, deposits, tender money, advances, etc. The management has considered the probability for outflow of the same to be remote and accordingly no amount has been disclosed here.

31 Capital and other commitments

a) Estimated amount of contracts remaining to be executed on capital account (net of advance) and not provided for is Nil (March 31, 2025 - Nil).

b) Lease commitments

The Company applies a single recognition and measurement approach for all leases, except for short-term leases and leases of low-value assets. The Company recognises lease liabilities to make lease payments and right-of-use assets representing the right to use the underlying assets.

Accounting Policy:

Operating lease

i) Company as lessee

The Company's leases primarily consist of office building. The Company assesses whether a contract contains a lease, at inception of a contract. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Company assesses whether:

(1) The contract involves the use of an identified asset;

(2) The Company has right to obtain substantially all of the economic benefits from use of the asset through the period of the lease; and

(3) The Company has the right to direct the use of the asset."

The Company has taken office building on cancellable operating lease. Lease rentals are charged to the Statement of profit and loss for the period. The lease is renewable on mutually agreeable terms. At the expiry of the lease term, the company has an option to terminate the agreement [dated 22-May-25] or extend the term by giving notice in writing. Since the contract is a cancellable contract, the entity has elected to apply the exemption available under Ind AS 116 and has recognised the lease payments associated with those leases as an expense. Refer note 27.

Particulars	For the year ended March 31, 2026	For the year ended March 31, 2025
Lease payments for the year	28.76	34.05
Future minimum lease rental payables under cancellable operating leases are as follows:		
Within one year	34.05	34.05
After one year but more than five years	-	-
More than five years	-	-

32 Segment reporting

Accounting policy

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker. The Board of Directors of the Holding Company has identified the Chief Executive Officer as the chief operating decision maker of the Company.

Judgements

Ind AS 108 - "Operating Segments" requires Management to determine the reportable segments for the purpose of disclosure in financial statements based on the internal reporting reviewed by Chief Operating Decision Maker (CODM) to assess performance and allocate resources. The Standard also requires Management to make judgments with respect to aggregation of certain operating segments into one or more reportable segment.

Operating segments used to present segment information are identified based on the internal reports used and reviewed by the Chief Executive Officer to assess performance and allocate resources. The management has determined that some of the segments exhibit similar economic characteristics and meet other aggregation criteria and accordingly aggregated into two reportable segments i.e. Projects and Services.

The portfolio includes Technology, Engineering, Procurement and Construction ('TEPC') scope for Bio-Compressed Natural Gas (Bio-CNG) Projects and Operation and Maintenance Services for such projects. Management has determined the operating segments based on the reports reviewed by the CEO; that are used to make strategic decisions, allocation of resources and assessing the performance of the segments. The CEO of the Company evaluates the segments based on their revenue and operating results.

The CODM evaluates performance based on the revenues and operating profit for two segments: Projects & Services

Segment Revenue, Segment Results, Segment Assets and Segment Liabilities include the respective amounts identifiable to each of the segments and amounts allocated on a reasonable basis.

Notes to the financial statements for the year ended March 31, 2026

((All amounts in Rupees Lakh, except per share data and unless stated otherwise.)

I Information about Business Segments:

Revenue from external customers	For the year ended March 31, 2026	For the year ended March 31, 2025
India	26,086.60	56,971.16
Outside India	-	-
Total	**26,086.60**	**56,971.16**

Revenue of Rs. 22,722.45 (March 31, 2025 Rs. 49,824.19) is derived from one customer (March 31, 2025 one customer) of the company that contributed more than 10% of the total revenue in current period.

33 Retirement and other employee benefits

Retirement benefit in the form of provident fund is a defined contribution scheme. The Company has no obligation, other than the contribution payable to the provident fund. The Company recognises contribution payable to the provident fund scheme as an expense when an employee renders the related service. If the contribution payable to the scheme for service received before the balance sheet date exceeds the contribution already paid, the deficit payable to the scheme is recognised as a liability after deducting the contribution already paid. If the contribution already paid exceeds the contribution due for services received before the balance sheet date, then excess is recognised as an asset to the extent that the pre-payment will lead to, for example, a reduction in future payment or a cash refund. The obligation of the Company is limited to the amount contributed and it has no further contractual nor any constructive obligation. The expense recognised during the period towards defined contribution plan is Rs. 170.06 (March 31, 2025: Rs. 157.25).

The Government of India has implemented four Labour Codes, viz., the Code on Wages, 2019, the Industrial Relations Code, 2020, the Code on Social Security, 2020, and the Occupational Safety, Health and Working Conditions Code, 2020, by consolidating 29 existing labour laws on 21 November 2025. The Ministry of Labour & Employment have published draft Central Rules and FAQs to enable assessment of the financial impact due to changes in the regulations. The Labour Codes have prescribed a uniform definition of "Wages" to be used for the purpose of calculating employee benefits like gratuity and extending eligibility to fixed-term employees ("FTEs"). Under the Labour Codes, the base on which employee benefits are calculated has increased, which has resulted in

increase in the Company's liability for employee benefits.

The Company operates a defined benefit gratuity plan in India, which requires contributions to be made to a separately administered fund. The Company provides for gratuity, a defined benefit plan (the "Gratuity Plan") covering eligible employees in accordance with the Code on Social Security, 2020, in line with the notification of the Labour Codes with effect from 21 November 2025. The Gratuity Plan provides a lump sum payment to vested employees at retirement, death, incapacitation, or termination of employment, of an amount based on the respective employee's salary and the tenure of employment. The Company's liability is determined by an independent actuary (using the Projected Unit Credit method) at the end of each year. Any increase in gratuity liability arising due to implementation of Labour Codes in respect of past service cost is recognised immediately in the Statement of Profit and Loss, to the extent that the benefits are already vested, and is recognised over the vesting period in the Statement of Profit and Loss in respect of the unvested portion.

The Company makes annual contributions through trusts to a funded gratuity scheme administered by the Life Insurance Corporation of India (LIC).

Remeasurements, comprising of actuarial gains and losses, the effect of the asset ceiling, excluding amounts included in net interest on the net defined benefit liability and the return on plan assets (excluding amounts included in net interest on the net defined benefit liability), are recognised immediately in the balance sheet with a corresponding debit or credit to retained earnings through OCI in the period in which they occur. Remeasurements are not reclassified to the Statement of Profit and Loss in subsequent periods. Further also refer note 42.

Past service costs are recognised in the Statement of Profit and Loss on the earlier of:

(a) The date of the plan amendment or curtailment; and

(b) The date that the Company recognises related restructuring costs.

Net interest is calculated by applying the discount rate to the net defined benefit liability or asset. The Company recognises the following changes in the net defined benefit obligation as an expense in the Statement of Profit and Loss:

- Service costs comprising current service costs, past-service costs, gains and losses on curtailments and non-routine settlements; and
- Net interest expense or income.

Accumulated leave, which is expected to be utilised within the next 12 months, is treated as short-term employee benefit. The Company measures the expected cost of such absences as the additional amount that it expects to pay as a result of the unused entitlement that has accumulated at the reporting date. The Company presents the leave as a current liability in the balance sheet as it does not have an unconditional right to defer its settlement for 12 months after the reporting date. However, based on past experience and actuarial valuation performed, the Company does not expect all employees to avail the full amount of accrued leave or require payment for such leave within the next 12 months. Leave obligations which are not expected to be settled within the next 12 months amounts to Rs. 115.54 (March 31, 2025 : 100.03)

Estimates and assumptions

Defined benefit plan - Gratuity: The cost of the defined benefit gratuity plan and the present value of the gratuity obligation are determined using actuarial valuations. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases and mortality rates. Due to the complexities involved in the valuation and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date. The parameter which is most subjected to change is the discount rate. In determining the appropriate discount rate for plans operated in India, the management considers the interest rates of government bonds in currencies consistent with the currencies of the post-employment benefit obligation. Further, another important parameter is salary considered while assessing the definition of "wages" as given in The Code on Social Security, 2020. The mortality rate is based on Indian Assured Lives Mortality (2012-14) Ultimate. Those mortality tables tend to change only at interval in response to demographic changes. Future salary increases and gratuity increases are based on expected future inflation rates.

The Company operates a defined benefit plan viz. gratuity for its employees. Under the gratuity plan, every employee who has completed at least specified years of service gets a gratuity on departure at 15 days (minimum) of the last drawn salary for each completed year of service. The scheme is funded with an insurance company. The fund has formed a trust and it is governed by the Board of Trustees.

The fund is subject to risks such as asset volatility, changes in assets yields and asset liability mismatch risk. In managing the plan assets, Board of Trustees review and manage these risks associated with the funded plan. Each year, the Board of Trustees reviews the level of funding in the gratuity plan. Such a review includes asset-liability matching strategy and investment risk management policy (which includes contributing to plans that invest in risk-averse markets). The Board of Trustees aim to keep annual contributions relatively stable at a level such that no plan deficits (based on valuation performed) will arise.

The Company has considered a proposed restructuring of its employees compensation, and assessed the impact of the changes, consistent with the Labour Codes, the draft rules, FAQs and opinion obtained from the Company's advisors. In accordance with IND AS 19 and the FAQs issued by ICAI, the changes to gratuity benefit resulting from the Labour Codes are treated as past service costs and accordingly, the increase in the Company's obligation due to application of the Labour Codes has been recognised in the Statement of Profit and Loss. The Company continues to monitor the finalisation of Central/ State Rules and further clarifications from the Government and would give appropriate accounting effect considering those developments, as may be applicable.

I Changes in the net benefit obligation and fair value of plan assets are as follows :

Particulars	Present value of obligation	Fair value of plan assets	Net amount
April 1, 2024	**(115.37)**	**134.55**	**19.18**
Current service cost	(41.47)	-	(41.47)
Interest (expense) / income	(7.37)	9.83	2.46
Transfer In	(6.46)	-	(6.46)
Total amount recognised in the Statement of profit and loss	**(55.30)**	**9.83**	**(45.47)**
Experience adjustments	-	-	-
Actuarial (gain)/loss from change in financial assumptions	(14.06)	-	(14.06)
Return on plan assets		(0.49)	(0.49)
Total amount recognised in Other Comprehensive Income	**(14.06)**	**(0.49)**	**(14.55)**
Transfer In	-	3.47	3.47
Employer contributions	34.63	-	34.63
March 31, 2025	**(150.10)**	**147.36**	**(2.74)**
Current service cost	(53.71)	-	(53.71)
Past Service Cost (Refer note 42)	(25.79)	-	(25.79)
Interest (expense) / income	(9.75)	10.47	0.72
Transfer In	-	-	-
Total amount recognised in the Statement of profit and loss	**(89.25)**	**10.47**	**(78.78)**
Experience adjustments	-	-	-
Actuarial (gain)/loss from change in financial assumptions	(16.95)	-	(16.95)
Return on plan assets	-	2.16	2.16
Total amount recognised in Other Comprehensive Income	**(16.95)**	**2.16**	**(14.79)**
Transfer In	(14.20)	14.97	0.77
Employer contributions	9.84	5.10	14.94
March 31, 2026	**(226.76)**	**175.74**	**(51.02)**

The fair value of the plan asset represents the amount as confirmed by the fund.

Notes to the financial statements for the year ended March 31, 2026
((All amounts in Rupees Lakh, except per share data and unless stated otherwise.)

II The net liability disclosed above relates to funded plans are as follows :

Particulars	As at March 31, 2026	As at March 31, 2025
Present value of funded obligation	(226.76)	(150.10)
Fair value of plan assets	175.74	147.36
Net (asset)/liability	**(51.02)**	**(2.74)**

III Significant assumption

The significant actuarial assumptions were as follows :

Particulars	As at March 31, 2026	As at March 31, 2025
Discount rate	7.20%	6.70%
Future salary growth rate	7.00%	7.00%
Expected return on plan assets	6.7% P.A.	7.2% P.A.
Normal retirement age	60 years	60 years
Mortality table	Indian Assured Lives Mortality (2012-14) Ultimate	Indian Assured Lives Mortality (2012-14) Ultimate
Employee turnover	12.00%	12.00%

IV Sensitivity analysis

The sensitivity of defined obligation to changes in the weighted principal assumptions is:

Assumption	Impact on defined benefit obligation	
	As at March 31, 2026	As at March 31, 2025
Discount rate		
1.00% increase	Decrease by 12.61	Decrease by 8.71
1.00% decrease	Increase by 14.06	Increase by 9.76
Future salary increase		
1.00% increase	Increase by 11.80	Increase by 8.15
1.00% decrease	Decrease by 10.81	Decrease by 7.42
Attrition Rate		
1.00% increase	Decrease by 0.14	Decrease by 0.15
1.00% decrease	Increase by 0.16	Increase by 0.17

The above sensitivity analysis is based on a change in assumption while holding all other assumptions constant. In practice, this is unlikely to occur and changes in some of the assumptions may be correlated. When calculating the sensitivity of the defined benefit obligation to significant actuarial assumptions the same method (present value of defined benefit obligation calculated with the Projected Unit Credit Method at the end of the reporting period) has been applied as when calculating the defined benefit liability recognised in the balance sheet.

The method and types of assumptions used in preparing the sensitivity analysis did not change compared to the previous periods.

The following are the expected cash flows to the defined benefit plan in future years:

	For the year ended March 31, 2026	For the year ended March 31, 2025
Within next 12 months	26.22	17.24
Between 2-5 years	116.26	72.63
> 5 years	296.08	223.78

The average duration of the defined benefit plan obligation at the end of the reporting period is 10.08 years (March 31, 2025 - 11.24 years)

V The major categories of plan assets are as follows:

	As at March 31, 2026	As at March 31, 2025
Investments with Insurer (LIC of India)	100.00%	100.00%

VI Risk exposure

Through its defined benefit plans, the Company is exposed to a number of risks, the most significant of which are detailed below:

Asset Volatility:

The plan liabilities are calculated using a discount rate set with reference to bond yields. If plan assets underperform, this yield will create a deficit. The plan assets are maintained with fund manager of LIC. They are subject to interest rate risk which is managed by the insurer.

Changes in bond yield:

A decrease in bond yields will increase plan liabilities.

Asset risk:

All plan assets are maintained in a trust fund managed by a public sector insurer viz; LIC. LIC has a sovereign guarantee and has been providing consistent and competitive returns over the years. The Company has opted for a traditional fund wherein all assets are invested primarily in risk averse markets. The Company has no control over the management of funds but this option provides a high level of safety for the total corpus. A single account is maintained for both the investment and claim settlement and hence 100% liquidity is ensured. Also, interest rate and inflation risk are taken care of.

Future salary escalation and Inflation risks:

Rising salaries will often result in higher future defined benefit payments resulting in a higher present value of liabilities especially unexpected salary increases provided at management's discretion may lead to uncertainties in estimating this risk.

Life expectancy:

Increases in life expectancy of employee will result in an increase in the plan liabilities. This is particularly significant where inflationary increases result in higher sensitivity to changes in life expectancy.

G. Terms and conditions of related party transactions

All the transactions with related parties are assessed to be at arm's length price by the management. Outstanding balances at the year-end are unsecured and interest free except loans taken and settlement occurs in cash. Refer note 15 for terms and conditions for loans from related parties. The transactions with related parties (excluding relatives of KMPs) includes managerial remuneration which is determined based on market conditions and is approved by Board of Directors.

Share-based payments include the perquisite value of stock incentives exercised during the year, determined in accordance with provisions of Income Tax Act, 1961.

There have been no guarantees provided or received for any related party receivables or payables except as disclosed in note 34.

In case of transactions with related parties during the year, the amounts are exclusive of applicable taxes.

The Company has recorded an impairment of receivables of March 31, 2026: Rs.Nil (March 31, 2025: Rs.383.07) relating to amounts owed by related parties. This assessment is undertaken each financial year through examining the financial position of the related party and the market in which the related party operates.

35 Fair value measurements

Estimates and assumptions

Fair value measurement of unquoted financial instruments

When the fair values of financial assets and financial liabilities recorded in the balance sheet cannot be measured based on quoted prices in active markets, their fair value is measured using valuation techniques including the DCF model. The inputs to these models are taken from observable markets where possible, but where this is not feasible, a degree of assumption is required in establishing fair values. Assumptions include considerations of inputs such as liquidity risk, credit risk and volatility. Changes in assumptions about these factors could affect the reported fair value of financial instruments.

a) Category of financial instruments and valuation techniques

(i) Financial assets

Details of financial assets carried at amortised cost :

Particulars	Note No.	As at March 31, 2026	As at March 31, 2025
Trade receivables	6 (a)	7,716.51	5,724.08
Cash and cash equivalents	10	1.96	73.03
Other financial assets	11	300.68	118.27
Total		**8,019.15**	**5,915.38**
Current assets		8,019.15	5,915.38
Non-current assets		-	-
Total		**8,019.15**	**5,915.38**

The management has assessed that the carrying amounts of the above financial instruments approximate their fair values.

Details of financial assets carried at fair value through profit and loss:

Particulars	Note No.	As at March 31, 2026	As at March 31, 2025
Other financial assets (non-current)	5	2,300.00	-
Investments	9	219.66	395.38
Total		**2,519.66**	**395.38**
Current assets		219.66	395.38
Non-current assets		2,300.00	-
Total		**2,519.66**	**395.38**

The fair values of the quoted mutual funds are based on Net Asset Value as at the reporting date.

The fair values of the other financial assets are based on level III inputs.

(ii) Financial liabilities

Details of financial liabilities carried at amortised cost

Particulars	Note No.	As at March 31, 2026	As at March 31, 2025
Borrowings	15 & 17	11,684.99	248.94
Trade payable	16 (a) & (b)	11,895.48	16,222.89
Employee related payables	18	125.79	138.03
Other liabilities	18	0.04	0.05
Total		**23,706.30**	**16,609.91**
Current liabilities		13,546.56	16,424.98
Non-current liabilities		10,159.74	184.93
Total		**23,706.30**	**16,609.91**

The management has assessed that the carrying amounts of the above financial instruments approximate their fair values.

Details of derivative assets / (liabilities)

	As at March 31, 2026	As at March 31, 2025
Derivative instruments		
Derivative not designated as hedges		
Foreign exchange forward contracts	16.44	(16.26)
Total	**16.44**	**(16.26)**
Current assets / (liabilities)	16.44	(16.26)
Non-current assets / (liabilities)	-	-
Total	**16.44**	**(16.26)**

The Company enters into derivative financial instruments in the nature of forward exchange contracts with banks. Foreign exchange forward contracts are valued using valuation techniques, which employs the use of market observable inputs which captures credit quality of counterparties, foreign exchange spot and forward rates, yield curves of the respective currencies and currency basis spreads between the respective currencies. All derivative contracts are fully cash collateralised, thereby eliminating both counterparty and the Company's own non-performance risk. The changes in counterparty credit risk had no material effect on the hedge effectiveness assessment for derivatives designated in hedge relationships and other financial instruments recognised at fair value.

b) Fair value hierarchy

The following table provides the fair value measurement hierarchy of the Company's assets and liabilities.

Quantitative disclosures fair value measurement hierarchy for assets as at March 31, 2026

	Date of valuation	Level 1	Level 2	Level 3
Financial assets				
Investments				
Mutual funds	March 31, 2026	219.66	-	-
Financial assets				
Other Financial assets	March 31, 2026	-	-	2,300.00
Derivative financial assets	March 31, 2026	-	16.44	-

Quantitative disclosures fair value measurement hierarchy for assets as at March 31, 2025

	Date of valuation	Level 1	Level 2	Level 3
Financial assets				
Investments				
Mutual funds	March 31, 2025	395.38	-	-
Financial liabilities				
Derivative financial liabilities	March 31, 2025	-	16.26	-

There has been no transfer between Level 1 and Level 2 during the year and during the previous year.

c) Valuation technique used to determine fair value

Specific valuation techniques used to value financial instruments include:

- The use of quoted market prices or dealer quotes for similar instruments;
- For other financial assets - discounted cash flow analysis.

All of the resulting fair value estimates are included in level 1 and level 2 except for unlisted preference shares in other entities, where the fair values have been determined based on discounting of future cash flows.

The Company has invested in other financial assets measured using level 3 inputs during the year. Further, as at year end, as cost of investment approximates it's fair value additional disclosures in accordance with Ind AS 113(93)(e) has not been provided.

Further, fair value of the same has been computed using unobservable inputs viz. earnings growth rate and risk adjusted discount rate.

d) The finance department includes a dedicated team responsible for performing valuations of financial assets and liabilities for financial reporting purposes, including Level 3 fair value measurements. This team operates within a structured governance framework, and valuation processes and outcomes are reviewed on the basis of reporting cycle of the Company.

Changes in Level 2 and Level 3 fair values, if any, are evaluated at the end of each reporting period as part of the quarterly valuation review process. During this review, the valuation team presents an analysis explaining the drivers of movements in fair values.

36 Financial risk management

The Company's principal financial liabilities, other than derivatives, comprise trade and other payables and borrowings. The main purpose of these financial liabilities is to finance the Company's operations. The Company's principal financial assets include trade and other receivables and cash and cash equivalents that derive directly from its operations. The Company also holds FVTPL and amortised cost investments and enters into derivative transactions.

Risk is inherent in the Company's activities but it is managed through a process of on going identification, measurement and monitoring, subject to risk limits and other controls. This process of risk management is critical to the Company's continuing profitability and each individual within the Company is accountable for the risk exposures relating to his or her responsibilities. The Company is exposed to market risk, credit risk and liquidity risk.

The Company's Board of Directors is ultimately responsible for the overall risk management approach and for approving the risk strategies and principles. No significant changes were made in the risk management objectives and policies during the years ended March 31, 2026 and March 31, 2025. The management of the Company reviews and agrees policies for managing each of these risks which are summarised below:

I Market risk

Market risk is the risk that the value of a financial instrument will fluctuate as a result of changes in market variables such as interest rates, foreign exchange rates, etc.

Market risk is managed on the basis of pre-determined asset allocations across various asset categories, a continuous appraisal of market conditions and trends and management's estimate of long and short term changes in fair value.

a Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company is not currently exposed significantly to such risk.

Particulars	Impact on profit before tax	
	For the year ended March 31, 2026	For the year ended March 31, 2025
Interest rate		
- Increase by 100 basis points	(116.85)	(2.49)
- Decrease by 100 basis points	116.85	2.49

b Foreign currency risk

Foreign exchange risk arises when future commercial transactions and relevant assets and liabilities are denominated in a currency that is not the Company's functional currency. Foreign exchange risk is the risk that the value of a financial instrument will fluctuate due to changes in foreign exchange rates.

Foreign exchange risk is managed on the basis of limits determined by management and a continuous assessment of current and expected exchange rate movements and entering into derivative contracts (foreign currency forward contracts) that hedge the exposure of underlying transactions (i.e., highly probable forecast sales and purchases).

Foreign currency risk exposure:

The Company's exposure to foreign currency risk at the end of the reporting period expressed in INR, are as follows:

Particulars	As at March 31, 2026	As at March 31, 2025
	EURO	EURO
Financial liabilities		
Trade payables	676.77	484.00
Net exposure to foreign currency risk - asset/ liability	**676.77**	**484.00**

Foreign currency sensitivity

The following table demonstrates the sensitivity to a reasonably possible change in USD and EUR exchange rates, with all other variables held constant. The impact on the Company's profit before tax is due to changes in the fair value of monetary assets and liabilities including foreign currency derivatives not designated as cash flow hedge and foreign currency derivatives with underlying foreign currency monetary assets/liabilities designated as cash flow hedge. The impact on the Company's other components of equity (pre-tax) is due to changes in the fair value of forward exchange contracts designated as cash flow hedges.

Particulars	Impact on profit before tax		Impact on other components of equity	
	As at March 31, 2026	As at March 31, 2025	As at March 31, 2026	As at March 31, 2025
EURO Sensitivity				
INR/EUR - Increase by 5%	(33.84)	(24.20)	-	-
INR/EUR - Decrease by 5%	33.84	24.20	-	-

Favourable impact shown as positive and adverse impact as negative.

The exposure to other foreign currencies is not significant to the Company's financial statements.

c Price risk

The Company's investments are susceptible to market price risk arising from uncertainties about future values of the investment securities. These securities are quoted / unquoted. The Company manages the price risk through diversification and by placing limits on individual mutual fund instruments. Further, the price risk is also mitigated by switching the investment portfolio between diversified categories of mutual fund instruments. Reports on the investment portfolio are submitted to the Company's senior management on a regular basis. The Company's Board of Directors reviews and approves all equity investment decisions. The Company is not currently exposed significantly to such risk.

II Credit risk

Credit risk is the risk that counterparty will not meet its obligations under a financial instrument or customer contract, leading to a financial loss. The Company is exposed to credit risk from its operating activities (primarily trade receivables and contract assets) and from its investing activities which includes investments in mutual funds.

Trade receivables & contract assets

Customer credit risk is managed by each business unit subject to the Company's established policy, procedures and control relating to customer credit risk management. An impairment analysis is performed at each reporting date on an individual basis for major clients. In addition, a large number of minor receivables are grouped into homogenous group and assessed for impairment collectively. The calculation is based on losses as per historical data. The maximum exposure to credit risk at the reporting date is the carrying value disclosed in note 6. To measure the expected credit losses, trade receivables and contract assets have been grouped based on shared credit risk characteristics and the days past due. Contract assets represents the Company's right to consideration for work completed but not billed or where the receipt of consideration is conditional on successful completion of a performance obligation and have substantially the same risk characteristics as the trade receivables for the same types of contracts. The charge of impairment to Statement of Profit and Loss is disclosed in note 27. The Company evaluates the concentration of risk with respect to trade receivables as low, as its customers are located in several jurisdictions and industries and operate in largely independent markets.

Other financial instruments

Credit risk from balances with banks, mutual funds and other financial instruments like derivative contracts are managed by the Company's treasury department in accordance with the Company's policy. Investments of surplus funds are made only with approved counterparties having a good market reputation and within credit limits assigned to each counterparty. The limits are set to minimise the concentration of risks and therefore mitigate financial loss through counterparty's potential failure to make payments.

Debt instruments (excluding loans to related parties)

All of the entity's debt instruments (preference shares in other entities) at fair value through profit and loss are considered to have low credit risk, and the loss allowance has not been recognised during the period basis 12 months' expected losses. This has been considered to have low credit risk when they have a low risk of default based on Company's expectation to meet performance on the contract and the issuer has a strong capacity to meet its contractual cash flow obligations in the near term.

III Liquidity risk

Prudent liquidity risk management implies maintaining sufficient cash and marketable securities and the availability of funding through an adequate amount of committed credit facilities to meet obligations when due and to close out market positions. Due to the dynamic nature of the underlying businesses, the Company treasury maintains flexibility in funding by maintaining availability under committed credit lines.

The management monitors rolling forecasts of the Company's liquidity position (comprising the undrawn borrowing facilities below) and cash and cash equivalents on the basis of expected cash flows. This is generally carried out at operating segments level in the Company in accordance with practice and limits set by the Company. In addition, the Company's

liquidity management policy involves projecting future cash flows and considering the level of liquid assets necessary to meet these and monitoring balance sheet liquidity ratios against internal requirements.

(i) Maturities of financial liabilities

The tables below summarises the Company's financial liabilities into relevant maturity profile based on contractual undiscounted payments :

March 31, 2026	Less than 1 year	1 to 3 years	Total
Non-derivative			
Trade payables	11,895.48	-	11,895.48
Borrowings	1,525.25	10,159.74	11,684.99
Other financial liabilities :			
Employee related payables	125.79	-	125.79
Other payables	0.04	-	0.04
	13,546.56	**10,159.74**	**23,706.30**

March 31, 2025	Less than 1 year	1 to 3 years	Total
Non-derivative			
Trade payables	16,037.96	184.93	16,222.89
Borrowings	248.94	-	248.94
Other financial liabilities :			
Employee related payables	138.03	-	138.03
Other payables	0.05	-	0.05
Derivatives (net settled)	16.26	-	16.26
Foreign exchange forward contracts			
	16,441.24	**184.93**	**16,626.17**

Financing arrangements

The Company had access to the following undrawn borrowing facilities at the end of the reporting period:

Particulars	As at March 31, 2026	As at March 31, 2025
Expiring within one year (bank overdraft and other facilities)	13,827.00	15,666.00
Expiring beyond one year (bank loans)	-	-

The aforesaid undrawn borrowing facility includes limits towards bank overdraft and non-fund based facilities. The bank overdraft facilities might be drawn at any time, subject to the continuance of satisfactory credit ratings. The working capital limits are secured by hypothecation of current assets.

37 Share based payments

Employees Stock Option Plan 2021 (ESOP 2021)

The Parent Company approved Employee Stock Option Plan at their meeting in January 2022. Pursuant to this approval, the Parent Company instituted ESOP 2021 Plan in January 2022. The nomination and remuneration committee of the Parent Company administers this Plan. Each option carries with it the right to purchase one equity share of the Parent Company. The Options have been granted to employees of the Company at an exercise price that is not less than the face value of shares as on date of grant of such option. Option Granted under ESOP 2021 shall vest not earlier than minimum period of 1 (One) year and not later than maximum period of 3 (Three) years from the date of Grant. The vesting of the options is 33%, 33% and 34% of total options granted after end of first, second and third year respectively from the date of grant. The exercise period is 5 years from the date of vesting.

Number and weighted average exercise prices of options granted, exercised and cancelled/lapsed during the financial year

Particulars	As at March 31, 2026	As at March 31, 2025	As at March 31, 2026	As at March 31, 2025
	Number options	Weighted average exercise price per share (Rs.)	No.of options	Weighted average exercise price per share (Rs.)
Options outstanding at the beginning of the year	537	15.25	454	15.25
Granted during the year	244	15.25	233	15.25
Forfeited during the year	-	-	-	-
Exercised during the year	227	15.25	150	15.25
Lapsed during the year	-	-	-	-
Options outstanding at the end of year	554	15.25	537	15.25
Options exercisable at the end of the year	-	-	-	-

There were no options exercised during the year.

The weighted average remaining contractual life is as follows:

Particulars	As at March 31, 2026	As at March 31, 2025
Exercise price	Rs. 15.25 per share	Rs. 15.25 per share
Weighted average contractual life (years)	Ranging between 1.83 - 4.41 Years	Ranging between 1.83 - 4.28 Years
Number of options outstanding	554	537

The fair value of each option is estimated on the date of grant using Black and Scholes option pricing model with the following assumptions:

Particulars	As at March 31, 2026	As at March 31, 2025
1. Exercise price (Rs.)	15.25	15.25
2. Price of underlying share in the market at the time of option grant	Ranging between 2,139.45 - 4,485.35	Ranging between 2,139.45 - 4,485.35
3. Weighted average fair value of options granted (Rs)	Ranging between 2,107.61 - 4,384.98	Ranging between 2,107.61 - 4,384.98
4. Expected life of the option (years)	3.5-5.5	3-5
5. Risk free interest rate (%)	Ranging between 6.41% - 7.56%	Ranging between 6.41% - 7.56%
6. Expected volatility (%)	Ranging between 12.86% - 15.01%	Ranging between 12.86% - 15.01%
7. Dividend yield (%)	Ranging between 0.42% - 0.48%	Ranging between 0.47% - 0.48%

The Company recorded an employee compensation cost of Rs. 8.86 (March 31, 2025 : Rs 9.00) in the Statement of Profit and Loss.

The expected price volatility is based on the historic volatility, adjusted for any expected changes to future volatility due to publicly available information.

38 Key financial ratios

The following are analytical ratios for the period ended March 31, 2026 and March 31, 2025:

Particulars	Numerator	Denominator	March 31, 2026	March 31, 2025	Variance	Reason for variance
Current Ratio	Current Assets	Current Liabilities	0.78	0.56	39.29%	Refer note 38 (a)
Debt to Equity ratio	Total debt (including borrowings)*^	Shareholder's Equity	1.09	0.03	3,533.33%	Refer note 38 (b)
Debt Service Coverage ratio	Net operating income^	Total debt service^^	(1.70)	(34.59)	(95.09%)	Refer note 38 (c)
Return on equity ratio	Profit after tax	Average shareholder's Equity	(0.34)	(1.94)	(82.47%)	Refer note 38 (d)
Trade receivable turnover ratio	Revenue from contracts with customers (Net credit sales)	Average Trade Receivables	3.88	8.77	(55.76%)	Refer note 38 (e)
Trade payables turnover ratio	Purchases# (Net credit)	Average Trade Payables	1.04	3.83	(72.85%)	Refer note 38 (f)
Net working capital turnover ratio	Revenue from contracts with customers (Net sales)	Working Capital *	(7.36)	(6.21)	18.52%	-
Net Profit ratio	Profit after tax	Revenue from contracts with customers (Net sales)	(0.13)	(0.17)	(23.53%)	-
Return on capital employed (ROCE)	Profit before tax and Finance Cost	Capital Employed **	(2.79)	(1.10)	153.64%	Refer note 38 (g)
Return on investment (ROI)	Realised gains and unrealised gains on investments	Average investment	8.00%	13.00%	(38.46%)	Refer note 38 (h)
Inventory turnover ratio	Cost of goods sold	Average inventories	142.33	-	100.00%	Refer note 38 (i)

Explanations:

* Total Current Assets - Total Current Liabilities

** Total Equity + borrowings

Total Supplier purchases include project bought-outs, other expenses and staff welfare expenses

^Profit after tax + Finance cost + depreciation and amortization for the period

^^ Current borrowings + Interest Paid

*^ Total debt = Overdraft facility availed and intercompany loan availed during the year during the yea

38 (a) Increase in receivables and decrease in payables at year end date has led to increase in current ratio.

38 (b) Company has availed intercompany loan and overdraft position has been increased resulting in increase in debt to equity ratio.

38 (c) During the year company has utilised additional overdraft facility resulting in decrease in ratio.

38 (d) Improvement mainly due to reduction in losses during the year compared to previous year.

38 (e) Decline due to lower revenue along with increase in trade receivables.

38 (f) Decline due to lower purchases and reduction in operational scale during the year.

38 (g) Deterioration due to persistent losses along with significant increase in borrowings (capital employed).

38 (h) Decline due to lower investment income and reduction in investment base.

38 (i) Increase due to inventory build-up in current year compared to negligible inventory in prior year.

39 Capital Management

The Company's objective for capital management is to maximise long term shareholder value, safeguard business continuity and support the growth of the Company. The Company determines the capital requirement based on annual operating plans and long- term and other strategic investment plans. The funding requirements are met through equity and operating cash flows generated. No changes were made in the objectives, policies or processes during the years ended March 31, 2026 and March 31, 2025. Capital represents equity attributable to equity holders of the Company.

The Company monitors capital using a gearing ratio which is net debt/ obligation divided by total equity. The Company's policy is to keep the gearing ratio optimum.

	As at March 31, 2026	As at March 31, 2025
Borrowings	11,684.99	248.94
Less: Cash and cash equivalents	(1.96)	(73.03)
Net debt	**11,683.03**	**175.91**
Equity	(10,688.82)	(8,707.83)
Capital and net debt	**994.21**	**(8,531.92)**
Gearing ratio	**11.75**	**(0.02)**

In order to achieve this overall objective, the Company's capital management, amongst other things, aims to ensure that it meets financial covenants attached to the interest-bearing loans and borrowings that define capital structure requirements. Breaches in meeting the financial covenants would permit the bank to immediately call loans and borrowings. There have been no breaches in the financial covenants of any interest-bearing loans and borrowing in the current year.

No changes were made in the objectives, policies or processes for managing capital during the year ended March 31, 2026 and March 31, 2025.

40 Other Statutory Information

(i) The Company does not have any Benami property, where any proceeding has been initiated or pending against the Company for holding any Benami property; under the Prohibition of Benami Property Transactions Act, 1988 (as amended from time to time) (formally the Benami Transaction (Prohibition) Act, 1988 (45 of 1988)) and Rules made there under.

(ii) The Company does not have any charges or satisfaction which are yet to be registered with Registrar of Companies (ROC) beyond the statutory period.

(iii) The Company has not traded or invested in Crypto currency or Virtual Currency during the current or previous financial year.

(iv) The Company has not made any such transaction which is not recorded in the books of accounts that has been surrendered or disclosed as income during the year in the tax assessments under the Income Tax Act, 1961 (such as, search or survey or any other relevant provisions of the Income Tax Act, 1961).

(v) The Company has not been declared wilful defaulter by any bank or financial institution or government or any government authority.

(vi) The Company has not revalued its property, plant and equipment (including right-of-use assets) or intangible assets or both during the current or previous year.

(vii) The borrowings obtained by the Company from banks and financial institutions have been applied for the purposes for which such loans were was taken.

(viii) The Company has not advanced or loaned or invested funds (either borrowed funds or share premium or any other sources or kind of funds) to any other person or entity, including foreign entities (Intermediaries) with the understanding (whether recorded in writing or otherwise) that the intermediary shall:

(a) directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Company (Ultimate Beneficiaries); or

(b) provide any guarantee, security or the like to or on behalf of the ultimate beneficiaries.

(ix) Other than as disclosed in the note 5, the Company has not received any funds from any person or entity, including foreign entities (Funding Party) with the understanding (whether recorded in writing or otherwise) that the Company shall:

(a) directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party (Ultimate Beneficiaries); or

(b) provide any guarantee, security or the like to or on behalf of the ultimate beneficiaries.

(x) The Company has complied with the number of layers prescribed under the Companies Act, 2013, read with the Companies (Restriction on number of layers) Rules, 2017.

(xi) There are no shares held in struck off companies. For the year ended March 31, 2026, and March 31, 2025 there are no transactions with struck off companies and no balances are outstanding as on year end.

41 Compliance with section 143 (3) for maintenance of books of accounts and audit trail

Maintenance of Books of Accounts:

With effect from August 5, 2022, the Ministry of Corporate Affairs (MCA) has amended the Companies (Accounts) Rules, 2014, relating to maintenance of electronic books of account and other relevant books and papers. Pursuant to this amendment, the Company is required to maintain the books of account which are accessible in India at all times and their backup is to be kept on servers located in India on a daily basis.

The Company has a process to take daily back-up of books of account maintained in electronic mode and along with the logs of the back-up of such books of account.

Requirements u/s 143(3) of the Act

Books of Account maintained on cloud/ servers physically located in India

Backup maintained in India on daily basis

Audit Trail:

The Company has used multiple accounting software for maintaining its books of account which has a feature of recording audit trail (edit log) facility and that has operated throughout the year for all relevant transactions recorded in the software. Also, management has not noticed any instances of audit trail feature being tampered with. Further, the audit trail, to the extent maintained in the prior year, has been preserved by the Company as per the statutory requirements for record retention.

42 Exceptional item

Accounting policy

When the items of income and expense within profit or loss from ordinary activities are of such size, nature or incidence that their disclosure is relevant to explain the performance of the Company for the period, the nature and amount of such items are disclosed separately as exceptional item.

	For the year ended March 31, 2026	For the year ended March 31, 2025
Statutory impact of new Labour Codes*	25.79	-
	25.79	-

*Effective 21 November 2025, The Government of India has consolidated multiple existing labour legislations into a unified framework comprising of four Labour Codes collectively referred to as the 'New Labour Codes'. Under Ind AS 19, changes to employee benefit plans arising from legislative amendments constitute a plan amendment, requiring recognition of past service cost immediately in the Statement of Profit and Loss.

The Company has assessed and disclosed the incremental impact of the New Labour Codes of Rs. 25.79 lakhs, primarily arising due to change in definition of wages and the recognition of such past service costs.

The Government is in the process of notifying related rules to the New Labour Codes and impact of these will be evaluated and accounted for in accordance with applicable accounting standards in the year in which they are notified. Considering the materiality and regulatory-driven, non-recurring nature of this impact, the Company has presented such past service cost as "Statutory impact of new Labour Codes" under "Exceptional Items" in the Statement of Profit and Loss for the year ended March 31, 2026.

43 Previous period figures have been regrouped/reclassified to conform to current year's classification as under:

Particulars	Previously reported amount - Year ended March 31, 2025	Effect of reclassification				Revised Amount
		Contract assets presented on the face of balance sheet	Retention monies reclassified to Contract assets	Offsetting of contract assets and contract liabilities	Other reclassifications	
Contract Assets (Current)	-	234.06	7,139.70	(6,539.66)	-	834.10
Other financial assets (Current)	352.33	(234.06)	-	-	-	118.27
Trade Receivables (Current)	12,863.78	-	(7,139.70)	-	-	5,724.08
Contract assets (Non-current)	-	221.71	-	-	-	221.71
Trade Receivables (Non-current)	221.71	(221.71)	-	-	-	-
Other liabilities (Current)	9,450.60	-	-	(6,539.66)	-	2,910.94
Other expenses	19,020.96	-	-	-	(16,205.26)	2,815.70
Site expenses and contract labour charges (presented on the face of the statement of profit and loss)	-	-	-	-	16,205.26	16,205.26

44 The Company has continued to incurr losses during the current year. As at March 31, 2026, the Company has accumulated losses of Rs. 14,488.82 lakhs which have significantly eroded the net worth of the Company. Further, the Company also has negative working capital as at the year end. The financial statements have been prepared on going concern basis in view of the support letter received from Thermax Limited, holding company, to confirm its continued financial support to the Company to enable the Company to meet its financial obligations, as they fall due, for a year of not less than twelve months from the date of signing of these financial statements.

DIRECTORS' REPORT

Dear Shareholder,

The Directors present the Fourth Annual Report of the Company for the year ended March 31, 2026.

FINANCIAL RESULTS

(Rs. lakh)

Particulars	2025-2026	2024-2025
Total income	8.37	1.23
Profit before depreciation and interest	(23.55)	(71.43)
Depreciation	-	-
Interest	36.43	-
Profit before tax	(59.98)	(71.43)
Provision for taxation (incl. deferred tax)	-	-
Profit after tax	(59.98)	(71.43)

STATE OF COMPANY'S AFFAIRS

Enernxt Private Limited was incorporated on 5th January, 2021 and there was no commercial business activity during the year. The Company earned a total income of Rs. 8.37 lakh mainly from other income sources.

During the Financial Year 2025-26, the Company has understood the challenges being faced by the other developers in stabilization of paddy straw based CNG Projects. The learnings are being implemented for which additional land, additional digestor, Shredding equipment from Austria and Agitators from Germany are being arranged. Required regulatory approvals from Government authorities for setting up the plant are under progress. Construction of the plant under progress and commissioning and stabilization will be completed in this financial year.

The decision to set up its first Bio CNG plant in Punjab is to partially address the perennial problem of rice stubble burning in Punjab causing pollution issues in North India every year.

The company, in line with its green energy initiative, will set up more such Bio CNG plants in future. With the increased attention on climate change and planned progressive renunciation of coal and other fossil fuels, the market for agro-waste based CNG solutions is expected to grow steadily.

HEALTH AND SAFETY

The Company will ensure focused and continuous improvement on its Safety and Health standards.

MATERIAL CHANGES AFFECTNG FINANCIAL POSITION OF THE COMPANY

No material changes and commitments have occurred after the close of the year till the date of this Report, which affect the financial position of the company.

DIVIDEND

The directors do not recommend any dividend on equity shares.

AMOUNT PROPOSED TO BE CARRIED TO RESERVES

The Company does not propose to carry any amount to reserves.

SHARE CAPITAL

During the year, the authorized share capital of the Company has increased from Rs. 35,00,00,000 divided into 3,50,00,000 equity shares of Rs. 10/- each to Rs. 55,00,00,000 divided into 5,50,00,000 equity shares of Rs. 10/- each as on March 31, 2026. Further, the Directors through circular resolution dated November 11, 2025 approved issuance of shares to the existing shareholders of the Company on a rights basis. However, the Company received renunciation letters from all other shareholders in favor of Thermax Onsite Energy Solutions Limited. Accordingly, the Company allotted a total of 1,00,00,000 equity shares, aggregating to Rs. 10,00,00,000 to Thermax Onsite Energy Solutions Limited. Thermax Onsite Energy Solutions Limited shareholding in the Company remains unchanged. The details of the rights issue are as follows:

Date of Issue	Number of Shares	Nominal value per share (Rs.)	Amount paid up (Rs.)	Allotted to
November 11, 2025	1,00,00,000	Rs. 10/-	10,00,00,000	Thermax Onsite Energy Solutions Limited

During the year under review, the Company has not issued shares with differential voting rights nor has granted any stock options or sweat equity.

PUBLIC DEPOSITS

The Company has not accepted any deposits under Chapter V of the Companies Act, 2013.

PARTICULARS OF LOANS, GUARANTEES OR INVESTMENTS

During the year under review, the Company did not give any loan or make an investment pursuant to the provisions of Section 186 of the Companies Act, 2013.

BUSINESS RISK MANAGEMENT

The Company is in the business of supply of Bio CNG to OMC (oil manufacturing Companies) by producing the same in Bio CNG plant. It is susceptible directly and indirectly to govt. policies, global trends related to renewable energy and conservation of natural resources.

The Company follows a structured risk management process supported by a Risk Management framework to manage risks emanating from external factors and internal actions. Risk Management is ingrained in the operations of the various functions of the company.

ADEQUACY OF INTERNAL FINANCIAL CONTROLS

Internal controls are reviewed by Internal Audit Department of the holding company on a periodical basis. Internal Audit is not applicable for the company as per section 138 of Companies Act and Rule 13 of the Companies (Accounts) Rules, 2014.

KEY MANAGERIAL PERSONNEL (KMP)

Following are the changes in the KMP during FY 2025-26.

Sr. No.	Name of KMP	Appointment/ Resignation	Effective date
1.	Mr. Mandar Dandekar, Chief Financial Officer	Appointment	April 1, 2025
2.	Ms. Kajal Kabra, Company Secretary & KMP	Resignation	June 20, 2025
3.	Ms. Akancha Bhadani, Company Secretary & KMP	Appointment	July 23, 2025

DIRECTORS

Currently, the Board of the Company comprises of Three Directors. In accordance with the provisions of the Companies Act, 2013 and the Company's Articles of Association, Mr. Deepak Joshi (DIN: 11004466), retires by rotation and being eligible, offers himself for re-appointment.

BOARD MEETINGS

The Board met four times on April 24, 2025, July 23, 2025, November 5, 2025 and January 27, 2026 during the year. The intervening gap between the Meetings was within the period prescribed under the Companies Act, 2013. Details of meetings attended by the members are as follows:

Board Members	Dates of the Board Meeting

INDEPENDENT AUDITOR'S REPORT

To the members of EnerNxt Private Limited

Report on the Audit of the Financial Statements

Opinion

We have audited the accompanying Financial Statements of **EnerNxt Private Limited** ("the Company"), which comprise the Balance Sheet As at March 31, 2025, the Statement of Profit and Loss including Other Comprehensive Income, the Statement of Cash Flows and the Statement of Changes in Equity for the year then ended, and a summary of material accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid Financial Statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under Section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015 as amended ("Ind AS") and other accounting principles generally accepted in India, of the state of affairs of the Company As at March 31, 2025, its loss and total comprehensive income, its changes in equity and its cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit of the Financial Statements in accordance with the Standards on Auditing specified under Section 143(10) of the Act (SAs). Our responsibilities under those Standards are further described in the 'Auditors' Responsibilities for the Audit of the Financial Statements' section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India ("the ICAI") together with the ethical requirements that are relevant to our audit of the Financial Statements under the provisions of the Act and the Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence obtained by us is sufficient and appropriate to provide a basis for our audit opinion on the Financial Statements.

Information Other than the Financial Statements and Auditors' Report thereon

The Company's Board of Directors is responsible for the other information. The other information comprises the Directors Report and the related annexures, but does not include the Financial Statements and our Auditors' Report thereon.

Our opinion on the Financial Statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the Financial Statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the Financial Statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of management for the Financial Statements

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Act with respect to the preparation of these Financial Statements that give a true and fair view of the financial position, financial performance including other comprehensive income, changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India.

This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Financial Statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the Financial Statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the Financial Statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Financial Statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit.

We also:

- Identify and assess the risks of material misstatement of the Financial Statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal financial control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under Section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the management.

- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the Financial Statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Company to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the Financial Statements, including the disclosures, and whether the Financial Statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the Financial Statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the Financial Statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the Financial Statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Report on other Legal and Regulatory requirements

1. As required by the Companies (Auditor's Report) Order, 2020 ("the Order"), issued by the Central Government of India in terms of sub-section (11) of Section 143 of the Act and on the basis of such checks of the books and records of the Company as we considered appropriate and according to the information and explanations given to us, we give in Annexure B, a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.

2. As required by Section 143(3) of the Act, we report that:

   (a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.

   (b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.

   (c) The Balance Sheet, the Statement of Profit and Loss including Other Comprehensive Income, the Statement of Changes in Equity and the Statement of Cash Flows dealt with by this report are in agreement with the books of account.

   (d) In our opinion, the aforesaid Financial Statements comply with the Accounting Standards specified under Section 133 of the Act.

   (e) On the basis of the written representations received from the directors as on March 31, 2024 taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2024 from being appointed as a director in terms of Section 164(2) of the Act.

   (f) With respect to the adequacy of the internal financial controls with reference to Financial Statements of the Company and the operating effectiveness of such controls, refer to our separate report in Annexure A. Our report expresses an unmodified opinion on the adequacy and operating effectiveness of the Company's internal financial controls with reference to Financial Statements.

   (g) In our opinion, the Company did not paid/provided managerial remuneration to its directors during the year and hence the provisions of section 197 read with Schedule V to the Act are not applicable.

   (h) With respect to the other matters to be included in the Auditors' Report in accordance with the requirements of Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as amended, in our opinion and to the best of our information and according to the explanations given to us:

      (i) The Company does not have any pending litigations which would impact its financial position

      (ii) The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses;

      (iii) There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Company.

   iv. (a) The management has represented that, to the best of its knowledge and belief, no funds have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Company to or in any other person(s) or entity(ies), including foreign entities ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, whether, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Company ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries;

      (b) The management has represented that, to the best of its knowledge and belief, no funds have been received by the Company from any person(s) or entity(ies), including foreign entities ("Funding Parties"), with the understanding, whether recorded in writing or otherwise, that the Company shall, whether, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries; and

      (c) Based on such audit procedures that we considered reasonable and appropriate in the circumstances, nothing has come to our notice that has caused us to believe that the representations under sub-clause (a) and (b) contain any material misstatement.

   (v) The Company has not declared and paid any dividend during the year.

   (vi) Based on our examination which included test checks, the Company has used accounting software for maintaining its books of account which have a feature of recording audit trail (edit log) facility and the same has operated throughout the year for all relevant transactions recorded in the software except that, audit trail feature is not enabled for certain transactions including master data and direct changes to data when using certain privileged access rights, as described in note 35(b) to the financial statements. Further, during the course of our audit we did not come across any instance of audit trail feature being tampered with in respect of accounting software wherever these elements are enabled.

Annexure A to the Independent Auditors' Report

[Referred to in paragraph 2(f) under 'Report on Other Legal and Regulatory Requirements' section of our report of even date]

Report on the Internal Financial Controls with reference to financial statements under Clause (i) of sub-section (3) of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls with reference to financial statements of **EnerNxt Private Limited** ("the Company") as of March 31, 2024 in conjunction with our audit of the Financial Statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business including adherence to the Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls with reference to financial statements of the Company based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting ("the Guidance Note") issued by the Institute of Chartered Accountants of India and the Standards on Auditing prescribed under Section 143(10) of the Act, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to financial statements was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system with reference to financial statements and their operating effectiveness. Our audit of internal financial controls with reference to financial statements included obtaining an understanding of internal financial controls with reference to financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system with reference to financial statements.

Meaning of Internal Financial Controls with reference to financial statements

A Company's internal financial control with reference to financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control with reference to financial statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorisations of management and directors of the Company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the Company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls with reference to financial statements

Because of the inherent limitations of internal financial controls with reference to financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to financial statements to future periods are subject to the risk that the internal financial control with reference to financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial controls system with reference to financial statements and such internal financial controls with reference to financial statements were operating effectively As at March 31, 2025, based on the criteria for internal financial control with reference to financial statements established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

ENERNXT PRIVATE LIMITED

ANNEXURE B TO THE INDEPENDENT AUDITOR'S REPORT

(Referred to in paragraph 1 under 'Report on Other Legal and Regulatory Requirements' section of our report of even date)

(1) i) According to the information and explanations given to us, the Company has maintained proper records showing full particulars, including quantitative details and situation of property, plant and equipment and investment properties.

ii) The property, plant and equipment and investment properties are physically verified by the Company once in two years. In our opinion, this periodicity of physical verification is reasonable having regard to the size of the Company and the nature of its property, plant and equipment and investment properties. In accordance with the programme, the Company has physically verified property, plant and equipment during the financial year and no material discrepancies were noted on such verification.

iii) According to the information and explanations given to us and based on the audit procedures performed by us, the title deed of immovable property is held in the name of the Company.

iv) According to the information and explanations given to us, the Company has not revalued any of its property, plant and equipment (including Right of use assets) or intangible assets or both during the year.

v) Based on the audit procedures performed by us and according to the information, explanations and representations given to us, no proceedings have been initiated or are pending against the Company for holding any benami property under the Benami Transactions (Prohibition) Act, 1988 (45 of 1988) and rules made thereunder.

2) i) According to the information and explanations given to us, the inventory comprising of Rice/paddy straw has been physically verified at reasonable interval by the management during the year. In our opinion, coverage and procedure of such verification is appropriate and no discrepancies of 10% or more in the aggregate for each class of inventory were noticed on such verification between the physical inventory and book records.

ii) According to the information and explanations given to us, the Company has not been sanctioned working capital limits in excess of five crore rupees, in aggregate from banks or financial institutions on the basis of security of current assets at any point of time during the year. Accordingly, the reporting under Clause 3 (ii) (b) is not applicable to the Company.

3) a) According to the information and explanations given to us, the Company has not made investments in or provided any guarantee or security or secured or unsecured loans to companies, firms, Limited Liability Partnerships or any other parties during the year. Accordingly, the reporting under Clauses 3(iii)(a) to 3(iii)(f) of the Order is not applicable to the Company.

4) According to the information and explanations given to us, the Company has not granted any loans or made any investments or provided any guarantees or security to the parties covered under Section 185 and 186 of the Act. Accordingly, the reporting under Clause 3(iv) of the Order is not applicable to the Company.

5) According to the information and explanation given to us, the Company has not accepted deposits under the provisions of section 73 to 76 or any other relevant provisions of the Act and the rules framed thereunder. Accordingly, the reporting under clause 3(v) of the order is not applicable to the Company.

6) The Company has not started its operations and hence reporting under Clause 3(vi) of the Order with respect to maintenance of cost records under sub-section (1) of Section 148 of the Act is not applicable to the Company.

7) i) According to the information and explanations given to us and on the basis of our examination of records of the Company, the amounts deducted / accrued in the books of account in respect of undisputed statutory dues pertaining to Income-tax have been regularly deposited during the year by the Company with the appropriate authorities. According to the information and explanations given to us and on the basis of our examination of records of the Company, there were no undisputed statutory dues payable in respect of Goods and Services tax, Provident Fund, Employees' State Insurance, Sales tax, Service tax, Duty of Customs, Duty of Excise and Value Added Tax.

ii) According to the information and explanations given to us and on the basis of our examination of records of the Company, there were no arrears of undisputed statutory dues in respect of Income Tax as on the last day of the year for a period of more than six months from the date they became payable.

iii) According to the information and explanation given to us and on the basis of our examination of records of the Company, there are no statutory dues in respect of Goods and Service Tax, Provident Fund, Employees State Insurance, Sales tax, Service tax, Duty of Customs, Duty of Excise, Value added tax, Cess as at 31 March 2024, which have not been deposited on account of any dispute.

8) According to the information and explanations given to us, there are no transactions not recorded in the books of account which have been surrendered or disclosed as income during the year in the tax assessments under the Income-tax Act, 1961. Accordingly, the reporting under Clause 3(viii) of the Order is not applicable to the Company.

9) a) According to the information and explanations given to us and based on the audit procedures performed by us, the company has not defaulted in repayment of borrowings or in the payment of interest thereon to any lender during the year.

b) b) According to the information and explanations given to us, the Company has not been declared a wilful defaulter by any bank or financial institution or any other lender till the date of our audit report.

c) In our opinion and according to the information and explanations given to us, the term loan has been applied for the purpose for which the loans were obtained.

d) In our opinion and according to information and explanations given to us and on overall examination of the Balance sheet of the Company, we report that company has not raised any short-term borrowings during the year. Hence reporting under clause (ix) (d) is not applicable to company.

e) According to the information and explanations given to us and on an overall examination of the Financial Statements of the Company, we report that the Company has not taken any funds from any entity or person on account of or to meet the obligations of its subsidiaries, associates or joint ventures.

f) According to the information and explanations given to us and based on the audit procedures performed by us, we report that the Company has not raised any loans during the year on the pledge of securities held in its subsidiaries, joint ventures or associate companies. Accordingly, the reporting under Clause 3(ix) (f) of the Order is not applicable to the Company.

10) a) According to the information and explanations given to us, the Company has not raised any moneys by way of initial public offer or further public offer (including debt instruments) during the year. Accordingly, the reporting under Clause 3(x)(a) of the Order is not applicable to the Company.

b) According to the information and explanation given to us, the Company has not made any preferential allotment or private placement of shares or convertible debentures (fully, partially or optionally convertible) during the year. Accordingly, the reporting under clause 3(x)(b) of the Order is not applicable to the Company.

11) a) During the course of our examination of the books and records of the Company, carried out in accordance with the generally accepted auditing practices in India and according to the information and explanations given to us, we have neither come across any instance of material fraud by the Company or on the Company by its officers or employees, noticed or reported during the year, nor have we been informed of any such case by the management.

b) There has been no report filed by us under sub-section (12) of Section 143 of the Act in Form ADT-4 as prescribed under Rule 13 of the Companies (Audit and Auditors) Rules, 2014 with the Central

Government. Accordingly, the reporting under Clause 3(xi) (b) of the Order is not applicable to the Company.

c) As represented to us by the management, no whistle blower complaints were received by the Company during the year.

12) According to the information and explanations given to us, the Company is not a Nidhi company and the Nidhi Rules, 2014 are not applicable to it. Accordingly, the reporting under Clause 3(xii) of the Order is not applicable to the Company.

13) In our opinion and according to the information and explanations given to us, the Company has entered into transactions with related parties in compliance with the provisions of Sections 177 and 188 of the Act. The details of such related party transactions have been disclosed in the financial statements as required by Indian Accounting Standard (Ind AS) 24, Related Party Disclosures specified under Section 133 of the Act.

14) a) In our opinion and according to the information and explanations given to us and based on our examination, internal audit system is not applicable to the Company. Hence reporting under clause 3(xiv) is not applicable to the Company.

15) In our opinion and according to the information and explanations given to us, the Company has not entered into any non-cash transactions with its directors or directors of its holding company or persons connected with them during the year and hence the provisions of Section 192 of the Act are not applicable to the Company. Accordingly, the reporting under Clause 3 (xv) of the Order is not applicable to the Company.

16) a) According to the information and explanations given to us, the Company is not required to be registered under Section 45-IA of the Reserve Bank of India Act, 1934. Accordingly, the reporting under Clause 3(xvi) of the Order is not applicable to the Company.

b) In our opinion and according to the information and explanations given to us, the Company has not conducted any Non-Banking Financial or Housing finance activities Accordingly, the reporting under Clause 3(xvi) (b) of the Order is not applicable to the Company.

c) In our opinion and according to the information and explanations given to us, the Company is not a Core Investment Company (CIC) as defined in the regulations made by the Reserve Bank of India. Accordingly, the reporting under Clauses 3(xvi) (c) of the Order is not applicable to the Company.

d) Based on the information and explanations given to us, we report that the Group has one Core Investment Company.

17) In our opinion and according to the information and explanations given to us, the Company has not incurred cash losses in the current financial year as well as in the immediately preceding financial year. Accordingly, the reporting under Clause 3(xvii) of the Order is not applicable to the Company.

18) There has been no resignation of the statutory auditors during the year. Accordingly, the reporting under Clause 3(xviii) of the Order is not applicable to the Company.

19) According to the information and explanations given to us and on the basis of the financial ratios, ageing and expected dates of realization of financial assets and payment of financial liabilities, other information accompanying the financial statements, our knowledge of the Board of Directors and management plans and based on our examination of the evidence supporting the assumptions, nothing has come to our attention, which causes us to believe that any material uncertainty exists as on the date of the audit report that the Company is not capable of meeting its liabilities existing at the date of Balance Sheet as and when they fall due within a period of one year from the Balance Sheet date. We, however, state that this is not an assurance as to the future viability of the company. We further state that our reporting is based on the facts up to the date of the audit report and we neither give any guarantee nor any assurance that all liabilities falling due within a period of one year from the Balance Sheet date, will get discharged by the Company as and when they fall due.

20) a) The Company is not required to comply with the provisions of Section 135 of the Companies Act. Accordingly, reporting under clause 3(xx) (a) & (b) is not applicable to the Company.

ENERNXT PRIVATE LIMITED

Notes to financial statements for the year ended March 31, 2026
(All amounts are in Rupees Lakh, except per share data and unless stated otherwise)

1. Corporate information

Enernxt Private Limited ('the Company') is a private limited Company incorporated and domiciled in India. The address of the registered office is Thermax House, 14, Mumbai Pune Road, Wakdewadi, Pune.

During the Financial Year 2025-26, the Company has obtained regulatory approvals (11 out of 17 Approvals) from Government authorities for setting up the plant. Balance 6 approvals shall be received before Plant start up from Sep 26. Temporary Construction Power has been obtained & Permanent Power for Plant operation shall be available from June'26. Construction of the plant under progress. Construction of the plant under progress.

The Board of Directors have authorized to issue these financial statements on Apr 29, 2026. The CIN of the Company is U40107PN2021PTC197447.

2. Significant accounting policies

2.1. Basis of preparation, measurement and transition to Ind AS

(a) Basis of preparation

These financials statements are prepared in accordance with Indian Accounting Standards (IND AS) under the historical cost convention on the accrual basis, except for certain financial instruments which are measured at fair values, the provisions of the Companies Act,2013 ('the Act') (to the extent notified) and the guidelines issued by the securities and exchange board of India (SEBI).The IND AS are prescribed under Section 133 of the Act read with Rule 3 of the Companies (Indian Accounting Standards) Rules, 2015, Companies (Indian Accounting Standards) Amendment Rules,2016 and 2017.

The preparation of the financial statements requires the use of certain critical accounting estimates and judgements. It also requires the management to exercise judgement in the process of applying the Company's accounting policies.

(b) Basis of measurement

The financial statements have been prepared on under historical cost convention.

The financial statements are presented in Indian Rupees (INR) and all values are rounded to the nearest lakh except when otherwise indicated.

2.3 Summary of significant accounting policies

a. Current and non-current classification

The Company presents assets and liabilities in the balance sheet based on current/ non-current classification. An asset is treated as current when it is:

- Expected to be realized or intended to be sold or consumed in the normal operating cycle
- Expected to be realized within twelve months after the reporting period, or
- Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period

All other assets are classified as non-current.

A liability is current when:

- It is expected to be settled in the normal operating cycle
- It is due to be settled within twelve months after the reporting period, or
- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period

The Company classifies all other liabilities as non-current.

Deferred tax assets and liabilities are classified as non-current assets and liabilities respectively.

The operating cycle is the time between the acquisition of assets for processing and their realization in cash and cash equivalents. The Company has identified twelve months as its operating cycle.

b. Financial instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

Financial Assets

Initial Recognition and measurement

All financial assets are recognized initially at fair value plus, in the case of financial assets not recorded at fair value through Profit and Loss, transactions costs that are attributable to the acquisition of the financial asset. Purchases or sales of financial assets that require delivery of assets within a time frame established by regulation or convention in the market place (regular way trades) are recognized on the trade date, i.e., the date that the Company commits to purchase or sell the asset.

Financial liabilities

Initial recognition and measurement

Financial liabilities are classified, at initial recognition, as financial liabilities at FVTPL, loans and borrowings, payables.

All financial liabilities are recognized initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs.

The Company's financial liabilities include trade and other payables.

Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the balance sheet if there is a currently enforceable legal right to offset the recognized amounts and there is an intention to settle on a net basis, to realize the assets and settle the liabilities simultaneously.

c. Cash and cash equivalents

Cash and cash equivalent in the balance sheet comprise cash at banks and short-term deposits with an original maturity of three months or less, which are subject to an insignificant risk of changes in value.

d. Earnings per Share (EPS)

The Company presents the basic and diluted EPS data for its equity shares. Basic EPS is computed by dividing the net profit for the year attributable to the equity shareholders of the Company by the weighted average number of equity shares outstanding during the year.

e. Revenue from Sale of goods

The Company recognizes revenue at a point-in-time. The point-in-time is determined when the control of the goods or services is transferred which is determined based on when the significant risks and rewards of ownership are transferred to the customer. Apart from this, the Company also considers its present right to payment, the legal title to the goods, the physical possession and the customer acceptance in determining the point in time where control has been transferred.

f. Interest Income

Interest income is recognized when it is probable that economic benefits will flow to the company and the amount of revenue can be measured reliably. Interest income is accrued on a time basis, by reference to the principal outstanding and the effective interest rate applicable.

Notes to financial statements for the year ended March 31, 2026
(All amounts are in Rupees Lakh, except per share data and unless stated otherwise)

g. Income tax

Current tax

Current tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted, at the reporting date. Current income tax relating to items recognized outside profit or loss is recognized either in OCI or in equity. Current tax items are recognized in correlation to the underlying transaction either in OCI or directly in equity. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate.

Deferred tax

Deferred tax is provided using the liability method on temporary differences between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes at the reporting date. Deferred tax assets are recognized for all deductible temporary differences, the carry forward of unused tax credits and any unused tax losses. Deferred tax assets are recognized to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilized.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilized. Unrecognized deferred tax assets are re-assessed at each reporting date and are recognized to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realized or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

Deferred tax relating to items recognized outside profit or loss is recognized outside profit or loss (either in OCI or in equity). Deferred tax items are recognized in correlation to the underlying transaction either in OCI or directly in equity.

Deferred tax assets and deferred tax liabilities are offset if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

h. Property, Plant and Equipment

Property, plant and equipment (PPE) is stated at cost of acquisition or construction net of accumulated depreciation and impairment loss, if any. All significant costs relating to the acquisition and installation of PPE are capitalized. Subsequent costs/replacement costs are included in the asset's carrying amount or recognized as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. The carrying amount of the replaced part is derecognized. All other repairs and maintenance are charged to the Statement of profit and loss during the financial year in which they are incurred.

The Company identifies and determines cost of each component/ part of the asset separately, if the component/ part has a cost which is significant to the total cost of the asset and has useful life that is materially different from that of the remaining asset.

Depreciation on PPE is calculated on a straight-line basis using the rates arrived at based on the useful lives estimated by the management. The identified components are depreciated separately over their useful lives; the remaining components are depreciated over the life of the principal asset.

3. Significant accounting judgments, estimates and assumptions.

The preparation of the Company's financial statements requires management to make judgments, estimates and assumptions that affect the reported amounts of revenue, expenses, assets and liabilities, and the accompanying disclosures and the disclosure of contingent liabilities as at the reporting date. However, uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in future periods.

3a. Recent Accounting Pronouncements

Ministry of Corporate Affairs ("MCA") notifies new standard or amendments to the existing standards under Companies (Indian Accounting Standards) Rules as issued from time to time. As on March 31 2026, MCA has not amended the Companies (Indian Accounting Standards) Amendment Rules , 2023 and hence reporting under this section is not applicable.

10 Inventories (valued at lower of cost and net realizable value)

Accounting policy

Inventories are stated at the lower of cost and net realisable value (NRV). Cost of inventory includes cost of purchase and other costs incurred in bringing the inventories to their present location and condition.

Net realizable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and estimated costs necessary to make the sale.

Particulars	March 31, 2026	March 31, 2025
Raw materials	-	-
Total	**-**	**-**

11 Cash and bank balances

Accounting policy

Cash and cash equivalent in the balance sheet comprise cash at banks and on hand and short-term deposits with an original maturity of three months or less, which are subject to an insignificant risk of changes in value.

For the purpose of the Consolidated Statement of cash flows, cash and cash equivalents consist of cash and short-term deposits, as defined above, net of outstanding bank overdrafts as they are considered an integral part of the Group's cash management.

Particulars	March 31, 2026	March 31, 2025

Date of valuation	Level 1	Level 2	Level 3
Financials Assets			
Investment	202.94		
Mutual Fund	**202.94**	**-**	**-**

28 Financial risk management

The Company's principal financial liabilities, comprise trade and other payables. The main purpose of these financial liabilities is to finance the Company's operations. The Company's principal financial assets include Interest accrued on bank deposits and cash and bank balances.

The Company is exposed to market risk, credit risk and liquidity risk. The Company's financial risk activities are governed by appropriate policies and procedures and the financial risks are identified, measured and managed in accordance with the Company's policies and risk objectives. The Board of Directors reviews and agrees policies for managing each of these risks, which are summarised below.

I Market risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises three types of risk: interest rate risk, currency risk and other price risk, such as equity price risk.

Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates.

II Credit risk

Credit risk is the risk that counterparty will not meet its obligations under a financial instrument or customer contract, leading to a financial loss. The Company is exposed to credit risk from its operating activities (primarily trade receivables) and from its financing activities, including deposits with banks and financial institutionsand other financial instruments.

Financial instruments and bank deposits

Credit risk from balances with banks and financial institutions is managed by the group treasury department in accordence with the Thermax group policy. Investments of surplus funds are made only with approved counterparties and within credit limits assigned to each counterparty. Counterparty credit limits are reviewed by the group's Board of Directors on an annual basis, and may be updated throughout the year subject to approval of the group's Finance Committee. The limits are set to minimise the concentration of risks and therefore mitigate financial loss through counterparty's potential failure to make payments.

III Liquidity risk

"Prudent liquidity risk management implies maintaining sufficient cash and marketable securities and the availability of funding through an adequate amount of committed credit facilities to meet obligations when due and to close out market positions. Due to the dynamic nature of the underlying businesses, company maintains flexibility in funding by maintaining availability under committed credit lines.

Management monitors rolling forecasts of the company's liquidity position (comprising the undrawn borrowing facilities below) and cash and bank balances, the basis of expected cash flows. This is generally carried out by the company in accordance with practice and limits set by the company. These limits vary by location to take into account the liquidity of the market in which the company operates.

(i) Maturities of financial liabilities

The tables below analyse the company's financial liabilities into relevant maturity profile on their contractual maturities for :

March 31, 2026	Note No.	< 1 year	1 to 3 years	3 to 5 years	> 5 years
Non- derivative					
Borrowings	14	505.53	899.29	401.67	76.66
Trade Payables	15	25.99	-	-	-
Capital Creditors	16	321.44	-	-	-

March 31, 2025	Note No.	< 1 year	1 to 3 years	3 to 5 years	> 5 years
Non- derivative					
Borrowings	14	342.98	685.96	158.82	-
Trade Payables	15	14.46	-	-	-
Capital Creditors	16	858.84	-	-	-

*Represents contractual undiscounted cash flows. Such undiscounted cash flows differ from the amount included in the balance sheet because the balance sheet amount is based on discounted cash flows.

29 Capital Management

The Company's objective for capital management is to maximise shareholder value, safeguard business continuity and support the growth of the Company. The Company determines the capital requirement based on annual operating plans and long- term and other strategic investment plans. The funding requirements are met through equity and operating cash flows generated. No changes were made in the objectives, policies or processes during the years ended March 31, 2026 and March 31, 2025. Capital represents equity attributable to equity holders of the Parent Company.

	March 31, 2026	March 31, 2025
Borrowings	1,883.16	342.98
Trade payables	25.99	14.46
Less: Cash and bank balances	102.97	57.22
Net debt	**1,806.18**	**300.21**
Equity	3,218.00	2,281.99
Capital and net debt	**5,024.18**	**2,582.20**
Gearing ratio	**35.95%**	**11.63%**

In order to achieve this overall objective, the Group's capital management, amongst other things, aims to ensure that it meets financial covenants attached to the interest-bearing loans and borrowings that define capital structure requirements. Breaches in meeting the financial covenants would permit the bank to immediately call loans and borrowings. There

have been no breaches in the financial covenants of any interest-bearing loans and borrowing in the current year.

30 Segment information

Revenue by geographical segment

The company has not started it's operations yet, thus no revenue from sales are generated during the year.

Particulars	March 31, 2026	March 31, 2025
Revenue from external customer (gross)		
India	1.08	-
Outside India	-	-
Total	**1.08**	**-**

Sales of Paddy straw kept for trials.

31 Key financial ratios

The following are analytical ratios for the year ended March 31, 2025 and March 31, 2023:

Particulars	Numerator	Denominator	FY 2025-26	FY 2024-25	Variance	Reason for variance
Current Ratio	Current assets	Current liabilities	1.11	0.60	85.76%	Due to increase in current assets on account of other amount recoverable and decrease in accounts payable.
Debt-Equity Ratio	Total debt i.e. Borrowings (Current+Non current)	Shareholder's equity	0.5852	0.6090	-3.9%	The debt during FY 2025-26 has increased as compared to FY 2024-25.
Return on equity ratio	Profit after tax	Average shareholder's equity	-0.0186	-0.0313	-40.45%	The company is not in operation, last year, we had a surplus fund which was parked in FD, fetching interest income. In the current year, we deployed all funds in capex, hence the ratio deteriorated.
Return on Investment	Unrealised Gain	Initial Investment	0.0342	0.0041	728.27%	Increase in Investment during the year
Return on capital employed (ROCE)	Profit before tax + finance cost	Capital employed	-0.02	-0.02	-2.15%	There is no substantiable FD income in current year compare to last year hence ratio is on lower side.

32 Struck off Companies

There are no shares held by struck off companies. Below are details of investment, receivable, payable and any other transactions outstanding with struck off companies

For the year ended Mar 31,2026

Name of Struck off Companies	Nature of Transaction	Transaction during the year	Balance oustanding at the year end	Relationship with the struck off company if any to be disclosed
-	-	-	-	-

33 Note on Going Concern

The Company has incurred a net loss/net cash loss during the current and previous years and Company's current assets exceeds its current liabilities as at the Balance sheet date . The operations of the Company yet to be initiated due to delay in capitalisation of the Project activities. The Company has noted positive net current assets of Rs. 97 Lacs with no operational income as on 31 March 26. However, in view of the mitigating factors , through the continuous financial support provided by the Parent Company and expected completion of the Project in FY 26, accompanying financial statement have been prepared on going concern basis.

Notes to financial statements for the year ended March 31, 2026
(All amounts are in Rupees Lakh, except per share data and unless stated otherwise)

34 Compliance with Section 143 (3) for Maintenance of Books of Account

Maintainence of Books of Accounts:

With effect from August 5, 2022, the Ministry of Corporate Affairs (MCA) has amended the Companies (Accounts) Rules, 2014, relating to maintenance of electronic books of account and other relevant books and papers. Pursuant to this amendment, the Company is required to maintain the books of account which are accessible in India at all times and their backup is to be kept on servers located in India on a daily basis. The Company has a process to take daily back-up of books of account maintained in electronic mode and along with the logs of the back-up of such books of account.

Requirements u/s 143(3) of the Act	Compliance/ remarks
Books of Account maintained on cloud/ servers physically located in India	Yes
Backup maintained in India on daily basis	Yes

Audit Trail:

The Company has used multiple accounting software for maintaining its books of account which has a feature of recording audit trail (edit log) facility and that has operated throughout the year for all relevant transactions recorded in the software. Also, management has not noticed any instances of audit trail feature being tampered with. Further, the audit trail, to the extent maintained in the prior year, has been preserved by the Company as per the statutory requirements for record retention.

State of Company's Affairs

The Company's Solar plant of 16MWp is in stable operation since commissioning in December 2022. 700 kWp capacity added for enhancing the generation. The Company has added 7 MWp capacity connected to the same Grid Substation under this SPV and has observed stable operations.

Material changes affecting the Financial Position of the Company

No material changes and commitments have occurred after the close of the year till the date of this Report, which affect the financial position of the Company.

Dividend

The directors do not recommend any dividend on equity shares.

Amount proposed to be carried to Reserves

During the year, the company has not transferred any amount to the General Reserve.

Share Capital

During the year there were changes in the capital structure of the Company. The Paid-up Share Capital of the Company is Rs. 23,04,40,000/- divided into 2,30,44,000 Equity shares of Rs.10/- each. During the year under review, the Company has made further issue of shares on preferential issue and private placement basis. Details of the further issue of shares are as follows:

Date of Issue	Number of Shares	Nominal value per share (Rs.)	Amount (Rs.)
01/04/2025	6,84,000	10	68,40,000
25/12/2025	3,60,000	10	36,00,000

The Company has not issued shares with differential voting rights nor has granted any stock options or sweat equity during the year.

Subsidiaries, Joint Ventures, and Associates

The Company does not have any Subsidiary, Joint Venture, or Associate Company as on March 31, 2026.

Deposits

The Company has not accepted any deposits under Chapter V of the Companies Act, 2013. It has no unpaid/unclaimed deposits as on March 31, 2026.

Particulars of Loans, Guarantees or Investments

The provisions of Section 186 of the Act, with respect to loan, guarantee, investment or security are not applicable to your Company. The details of loans, guarantee and investments made during the year under review, are given in the notes forming part of the financial statements.

Restriction on purchase by the Company or giving of Loans by it for purchase of its shares

Pursuant to the provisions of Section 67(3)(c) of the Companies Act, 2013, and rules made thereunder, the Company has not given any loan exceeding the limit mentioned therein, to persons in the employment of the Company, Directors, or Key Managerial Personnel, for purchase or to subscribe shares of the Company.

Business Risk Management

The Company has identified the below types of risks in its Renewable Energy business and has drawn a mitigation plan to address the same –

- Land Risk : The land title/ ownership data as per Government systems have certain degree of inaccuracies owing to prevalent old manual systems. This could result in delays in land acquisition and give rise to litigation. To mitigate this risk, the Company has an in-house Land expert and appointed a reputable legal agency to conduct Thirty Year Title Search Report (TSR) to clearly establish the ownership prior to land acquisition.
- Risk of Right of Way (RoW) and Resources : This type of risk involved the risk of delays due to RoW during construction and the availability of resources as per the plan. To cope with this risk the Company plans advance tie-up for land parcels and NOCs from respective agencies. It also collaborates with competent local infra partners and engages with experienced and capable service partners.
- Renewable Sources and Grid Availability : The risk identified by the Company is lower generation on account of lower radiation, wind speed, Grid curtailments and failures. The Company continuously studies the radiation levels and Wind Resources Assessment with historical data from reliable sources and accordingly sizes the plant and the financial models

for arriving at the right tariff for the available conditions. It also carries out Load Flow Analysis and studies the data on power availability and quality from the Grid.

- Plant Uptime and Soiling Losses : This type of risk involved the risk of revenue loss due to breakdowns and soiling due to the unavailability of water. This risk can be mitigated by selecting competent and credible service partners for Operations & Maintenance. The Company is also using waterless robotic technology for cleaning modules and therefore manpower dependency is reduced. The Board at its meetings periodically reviews and monitors these risks and their mitigation plan.

- Regulatory changes: Due to continuous change in regulatory frameworks at state and central level, the arrangement of power off take with industrial consumers gets affected. The Company mitigates this risk for itself and the off takers by continuously monitoring and anticipating changes in policies. The Company also keeps the off takers duly informed of such imminent changes, helping all stakeholders to discuss mitigation and timely execute amendments to off- takers contracts.

The Board at its meetings periodically reviews and monitors these risks and their mitigation plan.

Health and Safety

Across all its operational assets, sites and offices, the company implements policies that covers Health and safety .

The Company strives for continuous improvement and its objective is to establish the best safety practices at sites and operating assets.

During the year the Company took below health and safety initiatives:

- HSE Communication: HSE Moment/Lessons Learnt – Weekly HSE Moment is circulated to all employees and contractors and learnings are implemented.

- HSE Risk Management, Hazard Reporting and closure – Hazards are reported by employees and contractors, and closure is monitored and supported by Management.

- HSE Promotion, HSE Campaigns - National Safety Week and Road Safety Week, Sustainability Electrical Safety week was celebrated across the company involving contractors and employees and employee's family members.

- HSE Training: HSE training including Visitor Induction, Safety Induction and Risk based training is imparted to Contractors

- HSE Digitalization: HSE digital software implemented for hazard reporting, at risk behavior reporting.

Adequacy of Internal Financial Controls

The Company has adequate internal financial controls and those are operating effectively.

Directors & Key Managerial Personnel

In accordance with the provisions of the Companies Act, 2013 and Articles of Association of the Company, Ms. Anjali Lothe (DIN: 10134848) retires by rotation and being eligible offers herself for re-appointment. The proposal of re-appointment forms part of the Notice of the Fourth AGM of the Company.

During the year, the following changes took place in the Directors and Key Managerial Personnel(s) of the Company.

- Mr. Pranav Pimpale was appointed as Company Secretary and Key Managerial Personnel (KMP) of the Company with effect from April 30, 2025.

Policy on appointment and remuneration of directors and key managerial personnel

The Board has adopted a policy on the selection and appointment of Directors and remuneration of Directors, KMPs, and employees. The Directors do not receive any remuneration except independent directors who are entitled to sitting fees as approved by the Board for each Board/Committee meeting attended. A detailed policy is annexed herewith as Annexure 1 and forms part of this report.

Declaration by Independent Directors

The Company has received declarations from the Independent Directors confirming that they meet the criteria of independence as laid down under Section 149(6) of the Companies Act, 2013 and have also confirmed that their names have been added to the data bank maintained by the Indian Institute of Corporate Affairs for independent directors, in accordance with Rule 6 of the Companies (Appointment and Qualification of Directors) Rules, 2014.

Pursuant to the provisions of Rule 6 of the Companies (Appointment and Qualifications of Directors) Rules, 2014, every individual whose name is so included in the data bank shall pass an online proficiency self-assessment test. However, an individual who has fulfilled the criteria prescribed in Rule 6(4) of the said Rules, is exempted from passing the online proficiency self-assessment test. In view of the same, Mr. Sanjay Parande, having met the aforesaid criteria, was exempted from the proficiency self-assessment test and Mr. Ashok Joshi has passed the proficiency self-assessment test.

The Board is of the opinion that the Directors of the Company are eminent persons with integrity and have necessary expertise and experience to continue to discharge their responsibilities as Directors of the Company.

Board Meetings

During the year, the Board met four times on April 28, 2025, July 22, 2025, October 31, 2025 and January 23, 2026. The intervening gap between the meetings was within the period prescribed under the Companies Act, 2013.

Independent directors meeting

During the year under review, the independent directors met once on January 21, 2026, where all independent directors were present inter alia to review the performance of the Board and non-independent directors of the Company.

Committees of the Board

The Board has constituted the following committees viz. Audit Committee and Nomination and Remuneration Committee.

Audit Committee

The Audit Committee of the Board of Directors was constituted on December 23, 2022. The committee comprises of all directors being non-executive directors viz Mr. Sanjay Parande as the Chairman and Mr. Ashok Joshi & Ms. Anjali Lothe as members of the committee.

The committee met four times during the year on April 28, 2025, July 22, 2025, October 31, 2025, and January 23, 2026. Further, all the recommendations made by the audit committee were accepted by the Board.

Nomination & Remuneration Committee

The Nomination & Remuneration Committee of the Board of Directors was constituted on December 23, 2022. The committee as on March 31, 2026, comprises of all directors being non-executive directors viz Mr. Ashok Joshi as the Chairman and Mr. Sanjay Parande & Ms. Anjali Lothe as members of the committee. The committee met twice on April 28, 2025, and January 23, 2026.

Directors' Responsibility Statement

In terms of Section 134 of the Companies Act, 2013, the Directors of your Company, to the best of their knowledge and belief and according to the information and explanations obtained by them in the normal course of their work, state that, in all material respects:

a) In the preparation of the annual financial statements for the year ended March 31, 2026, the applicable accounting standards have been followed along with proper explanation relating to material departures, if any;

b) Appropriate accounting policies have been selected, applied consistently and judgment and estimates have been made that are reasonable and prudent to give a true and fair view of the state of affairs of the Company as on March 31, 2026, and of loss of the Company for the year ended on that date;

c) Proper and sufficient care has been taken for the maintenance of adequate accounting records in accordance with the provisions of the Companies Act, 2013 for safeguarding the assets of the Company and for

preventing and detecting fraud and other irregularities;

d) The annual financial statements have been prepared on a going concern basis;

e) Proper systems to ensure compliance with the provisions of all applicable laws and that such systems were adequate and operating effectively.

Secretarial Standards

Your Company is in compliance with the Secretarial Standards on Meetings of the Board of Directors (SS-1) and Secretarial Standards on General Meetings (SS-2) issued by the Institute of Company Secretaries of India (ICSI) as amended from time to time.

Details regarding frauds reported by Auditors under section 143(12)

During the year under review, there were no frauds reported by the auditors to the Board under section 143(12) of the Act.

Related Party Transactions (RPT)

All related party transactions that were entered into during the financial year were on an arm's length basis and were in the ordinary course of business. The related party transactions are placed before the Audit Committee for noting/ approval. The information on transactions with related parties pursuant to Sec 134(3)(h) of the Companies Act read with Rule 8(2) of the Companies (Accounts) Rules, 2014 is given as Annexure 2 in Form No. AOC-2 and the same forms part of this report.

Maintenance of Cost Records

Pursuant to Section 148(1) of the Companies Act, 2013, the requirement for maintenance of cost records is not applicable to the Company.

Conservation of energy and technological absorption

The Company is in the business of renewable energy. The Company aims to conserve the environment by bringing about significant change in methods of using energy through the application of Solar and associated Renewable energy generation sources for commercial & industrial customers.

As a part of its "Build-Green" initiatives, the Company has installed solar powered Robots to clean the solar modules at the Opex projects thus ensuring waterless cleaning. In the case of Technology absorption, the Company used higher rated (540 & 550Wp) Monoperc PV models with better efficiency. The structure is designed to withstand the wind load. Robot technology is being adopted for cleaning the modules and this will help to conserve water and reduce soiling losses.

In the case of Technology absorption, the Company used higher rated (>540Wp) Monoperc PV modules with better efficiency, a structure designed to string type Solar Inverters designed for outdoor installation.

Foreign Exchange Earnings and Outgo

There were no foreign exchange earnings and outgo during the year.

Particulars of Employees

The information required pursuant to Section 197 read with Rule 5 of the Companies (Appointment and Remuneration of Managerial Personnel) Rules, 2014 duly amended, in respect of employees of the Company will be provided upon request.

In terms of Section 136 of the Act, the Annual Report excluding the aforesaid information is being sent to all the members and others entitled to receive it. Any shareholder interested in obtaining such particulars may write to the company secretary. The information is also available for inspection at the registered office during working hours up to the date of the Annual General Meeting.

Significant and material orders passed by the Regulators or Courts

There are no significant or material orders passed by the Regulators / Courts.

Corporate Social Responsibility

The Company does not fall under the criteria defined under Section 135 of the Companies Act, 2013 as of March 31, 2026. Hence, the provisions related to Corporate Social responsibility do not apply to the Company.

Disclosure under Sexual Harassment of Women at Workplace (Prevention, Prohibition and Redressal) Act, 2013

Your Company is committed to providing employees with a safe and conducive work environment. No cases were pending at the beginning of the year/ filed during the year, according to the Sexual Harassment of Women at Workplace (Prevention, Prohibition and Redressal) Act, 2013.

Disclosure under Maternity Benefit Act, 1961

There were no cases to trigger a compliance for the Company under the provisions of the Maternity Benefit Act, 1961 during the year under report.

The Insolvency and Bankruptcy Code, 2016

Your Board confirms that there is no proceeding pending under the Insolvency and Bankruptcy Code, 2016.

Valuation

During the year under review, there is no instance of onetime settlement with any Bank or Financial Institution.

Vigil mechanism

The Company has adopted the Whistle Blower Policy of Thermax Limited, its Ultimate Holding Company, which enables directors and employees to report genuine concerns in an ethical and transparent manner.

Auditors

M/s Price Waterhouse Chartered Accountants LLP, (Firm Registration Number. 012754N/N500016) were appointed as Statutory Auditors of the Company for a period of Five year from the conclusion of the 1st Annual General Meeting (AGM) till the conclusion of the 6th AGM. The Auditors' Report for FY 2025-26 does not contain any qualification, reservation, or adverse remark.

Changes in the Regulatory Provisions and its impact on the business

During the year, the below changes were made to the Regulatory Provisions:

- The Ministry of Power notified an amendment to the Electricity Rules 2005 to clarify that the Minimum 26% equity and Minimum 51% consumption is to be maintained by SPVs as well, in addition to AoPs. Further, consumption by Holding Company or its subsidiaries in addition to the subsidiary of the SPV, shall qualify as captive consumption. The prevailing requirement of consumption proportional to the equity shareholding has been modified and the consumption is now required to be maximum equal to the equity shareholding. Any energy wheeled more than the equity share will be treated as non-captive and shall attract Cross Subsidy Surcharge and Additional Surcharge. As we have been following the 26-74% from the beginning and allocation of power is done by the SPV, this change has no impact on the captive compliance.

- Further, Tamil Nadu Electricity Regulatory Commission (TNERC) announced Industrial grid tariffs for FY 2025-26, wherein energy charges increased from Rs. 7.25/unit to Rs. 7.50/unit. Banking approved in 15-minute time slots, which was further challenged in Madras high court. Also introduced Time of Day charges (25% surcharge during peak hours) and night rebate (5% on energy charges). Captive savings continue to remain attractive for consumers.

Acknowledgments

The Directors wish to place on record their appreciation for the support extended by the Company's customers, vendors and bankers during the year and look forward to their continued support in the future as well. They also place on record their appreciation for the dedication and contributions made by all the employees for their commitment, hard work, and support.

Policy on Selection and Appointment of Directors and Remuneration of Directors, KMPs and Employees

The Nomination & Remuneration Committee (NRC) has prepared a "Terms of Reference" (TOR), which, inter alia, deals with laying down the criteria for the selection of Non-Executive Directors (NEDs), based on the requirements of the organization, including the qualifications, and determining the independence of Directors. The NRC has also laid down the criteria for the evaluation of the performance of the Board and guidelines for determining the remuneration of Directors. This Policy is based on the above TOR of NRC:

(1) Criteria for selection and appointment of Directors:

(a) The Director shall have relevant expertise and experience commensurate with the requirements of the Company to discharge the duties as a Director.

(b) While selecting a director, the emphasis be given to the qualifications, experience, and personal and professional standing of the incumbent.

(c) Assess the independence and nature of the appointment as Director vis-à-vis any conflict-of-interest w.r.t. any pecuniary relationship and procure necessary declaration.

(d) The Director is not disqualified for appointment u/s. 164 of the Companies Act, 2013.

(e) In the event of re-appointment of the Director, due emphasis be given to the performance evaluation of the Director during his tenure.

(2) Remuneration:

The remuneration payable to Directors shall be in accordance with Sec. 197 of the Companies Act, 2013 and other applicable provisions & rules made thereunder from time to time.

The Directors shall also be eligible to receive reimbursement of expenses for participation in the Board and Committee Meetings.

The Independent Directors shall be entitled to receive remuneration by way of sitting fees for attending the meetings of the Board as well as the Committees.

(3) Criteria for selection of MD, WTD & CEO:

For selection of the MD, WTD and CEO, the N&R Committee shall identify persons of integrity who possess relevant expertise, experience and leadership qualities required for the position and shall take into consideration recommendations, if any, received from any member of the Board. The Committee will also ensure that the incumbent fulfills such other criteria regarding age and other qualifications as laid down under the Companies Act, 2013 or other applicable laws.

(4) Remuneration for MD, WTD & CEO:

i. At the time of appointment or re-appointment, the Managing Director (MD), Whole Time Director (WTD) and Chief Executive Officer (CEO) shall be paid such remuneration as may be mutually agreed between the Company (which includes the N&R Committee and the Board of Directors) and the MD, WTD and CEO within the overall limits prescribed under the Companies Act, 2013.

ii. The remuneration shall be subject to the approval of the Members of the Company in the General Meeting.

iii. The remuneration of the MD, WTD and CEO is broadly divided into fixed and variable components. The fixed component comprises salary, allowances, perquisites, amenities and retiral benefits. The variable component comprises a performance bonus.

iv. In determining the remuneration (including the fixed increment and performance bonus) the N&R Committee shall ensure/consider the following:

a. the relationship of remuneration and performance benchmarks is clear.

b. balance between fixed and incentive pay reflecting short and long term performance objectives, appropriate to the working of the Company and its goals.

c. responsibility required to be shouldered by the MD, WTD and CEO, the industry benchmarks, and the current trends.

d. the Company's performance vis-à-vis the annual budget achievement and individual performance vis-à-vis the KRAs / KPIs.

(5) Remuneration Policy for Senior Management, KMPs and employees:

The NRC, while determining the remuneration of Senior Management/ employees and KMPs shall ensure the following:

(i) The remuneration is divided into Fixed component & Variable Component.

(ii) The division is based on the fixed salary and performance bonuses.

(iii) The division between fixed and variable is based on the roles & responsibilities, the Company's performance vis-à-vis KRA & KPIs, industry benchmark and current compensation trends in the market.

Based on the Annual Business Plan prepared, Individual Contribution Plan (ICP) is prepared by the Senior Management which is agreed upon. It broadly contains certain targets for strategic objectives, operational excellence-oriented initiatives, and business deliverables. The actual performance of individual repartee will be discussed by the MD and CEO at the year's end. Based on the appraisal and overall performance of the

Company and after considering the market trends, suitable increments/ variable pay shall be decided by the MD and CEO.

The MD & CEO will present a snapshot of the evaluation carried out to assess the performance of the Whole-time Director, while recommending the annual increment of the NRC, for its review and approval.

First Energy TN 1 Private Limited

Annexure 2

Form No. AOC-2

(Pursuant to clause (h) of sub-section (3) of section 134 of the Act and Rule 8(2) of the Companies (Accounts) Rules, 2014)

Form for disclosure of particulars of contracts/arrangements entered into by the company with related parties referred to in sub-section (1) of section 188 of the Companies Act, 2013 including certain arm's length transactions under third proviso thereto

1. **Details of contracts or arrangements or transactions not at arm's length basis:**

   The company has not entered into any contracts/arrangements with its related parties which are not in ordinary course of business or not at arm's length basis.

2. **Details of material contracts or arrangement or transactions at arm's length basis:**

   There are certain transactions entered into by the Company who are related within the meaning of Indian Accounting Standard (Ind AS) 24 and Sec 188 of the Act. The disclosure of transactions with such related parties are set out in Note No. 24 to the financial statements which forms an integral part of this report.

INDEPENDENT AUDITOR'S REPORT

To the Members of First Energy TN 1 Private Limited

Report on the Audit of the Financial Statements

Opinion

1. We have audited the accompanying financial statements of First Energy TN 1 Private Limited ("the Company"), which comprise the Balance Sheet as at March 31 2026, and the Statement of Profit and Loss (including Other Comprehensive Income), the Statement of Changes in Equity and the Statement of Cash Flows for the year then ended, and notes to the financial statements, including material accounting policy information and other explanatory information.

2. In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2026, and total comprehensive income (comprising of loss and other comprehensive income), changes in equity and its cash flows for the year then ended.

Basis for Opinion

3. We conducted our audit in accordance with the Standards on Auditing (SAs) specified under Section 143(10) of the Act. Our responsibilities under those Standards are further described in the "Auditor's Responsibilities for the Audit of the Financial Statements" section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Other Information

4. The Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Director's report, but does not include the financial statements and our auditor's report thereon.

   Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

   In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact.

   We have nothing to report in this regard.

Responsibilities of management and those charged with governance for the financial statements

5. The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Act with respect to the preparation of these financial statements that give a true and fair view of the financial position, financial performance, changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards specified under Section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

6. In preparing the financial statements, Board of Directors is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless Board of Directors either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

7. The Board of Directors is also responsible for overseeing the Company's financial reporting process.

Auditor's responsibilities for the audit of the financial statements

8. Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

9. As part of an audit in accordance with SAs, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

   - Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

   - Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under Section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls with reference to financial statements in place and the operating effectiveness of such controls.

   - Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.

   - Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.

   - Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

10. We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

11. We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

First Energy TN 1 Private Limited

Report on other legal and regulatory requirements

12. As required by the Companies (Auditor's Report) Order, 2020 ("the Order"), issued by the Central Government of India in terms of sub-section (11) of Section 143 of the Act, we give in the Annexure B a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.

13. As required by Section 143(3) of the Act, we report that:

    (a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.

    (b) In our opinion, proper books of account as required by law relating to preparation of the aforesaid financial statements have been kept by the Company so far as it appears from our examination of those books, except for the matters stated in paragraph 13(h)(vi) below on reporting under Rule 11(g) of the Companies (Audit and Auditors) Rules, 2014 (as amended).

    (c) The Balance Sheet, the Statement of Profit and Loss (including other comprehensive income), the Statement of Changes in Equity and the Statement of Cash Flows dealt with by this Report are in agreement with the books of account.

    (d) In our opinion, the aforesaid financial statements comply with the Indian Accounting Standards specified under Section 133 of the Act.

    (e) On the basis of the written representations received from the directors as on March 31, 2026, taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2026, from being appointed as a director in terms of Section 164(2) of the Act.

    (f) With respect to the maintenance of accounts and other matters connected therewith, reference is made to our remarks in paragraph 13(b) above and paragraph 13(h)(vi) below.

    (g) With respect to the adequacy of the internal financial controls with reference to financial statements of the Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure A".

    (h) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014 (as amended), in our opinion and to the best of our information and according to the explanations given to us:

        i. The Company does not have any pending litigations which would impact its financial position;

        ii. The Company was not required to recognise a provision as at March 31, 2026, under the applicable law or Indian Accounting Standards, as it does not have any material foreseeable losses on long-term contract. The Company did not have any long term derivative contracts as at March 31, 2026.

        iii. There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Company during the year ended March 31, 2026.

        iv. (a) The management has represented that, to the best of its knowledge and belief, as disclosed in Note 31(viii) to the financial statements, no funds have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Company to or in any other person(s) or entity(ies), including foreign entities ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, whether directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Company ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries;

            (b) The management has represented that, to the best of its knowledge and belief, as disclosed in the Note 31(viii) to the financial statements, no funds have been received by the Company from any person(s) or entity(ies), including foreign entities ("Funding Parties"), with the understanding, whether recorded in writing or otherwise, that the Company shall, whether directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries; and

            (c) Based on such audit procedures that we considered reasonable and appropriate in the circumstances, nothing has come to our notice that has caused us to believe that the representations under sub-clause (a) and (b) contain any material misstatement.

        v. The Company has not declared or paid any dividend during the year.

        vi. Based on our examination, which included test checks, the Company has used an accounting software for maintaining its books of account that has a feature of recording audit trail (edit log) facility and that has operated throughout the year for all relevant transactions recorded in the software except that the audit trail has not been enabled at the database level to log any direct data changes. During the course of performing our procedures, other than the aforesaid instance of audit trail not maintained where the question of our commenting does not arise, we did not notice any instance of audit trail feature being tampered with. Further, the audit trail, to the extent maintained in the prior year, has been preserved by the Company as per the statutory requirements for record retention.

14. The Company has paid for managerial remuneration in accordance with the requisite approvals mandated by the provisions of Section 197 read with Schedule V to the Act.

Annexure A to Independent Auditor's Report

Referred to in paragraph 13(g) of the Independent Auditor's Report of even date to the members of First Energy TN1 Private Limited on the financial statements as of and for the year ended March 31, 2026.

Report on the Internal Financial Controls with reference to Financial Statements under clause (i) of sub-section 3 of Section 143 of the Act

1. We have audited the internal financial controls with reference to financial statements of First Energy TN1 Private Limited ("the Company") as of March 31, 2026, in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

2. The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting ("the Guidance Note") issued by the Institute of Chartered Accountants of India ("ICAI"). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditor's Responsibility

3. Our responsibility is to express an opinion on the Company's internal financial controls with reference to financial statements based on our audit. We conducted our audit in accordance with the Guidance Note and the Standards on Auditing specified under Section 143(10) of the Act to the extent applicable to an audit of internal financial controls, both applicable to an audit of internal financial controls and both issued by the ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to financial statements was established and maintained and if such controls operated effectively in all material respects.

4. Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system with reference to financial statements and their operating effectiveness. Our audit of internal financial controls with reference to financial statements included obtaining an understanding of internal financial controls with reference to financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

5. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system with reference to financial statements.

Meaning of Internal Financial Controls with reference to financial statements

6. A company's internal financial controls with reference to financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial controls with reference to financial statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls with reference to financial statements

7. Because of the inherent limitations of internal financial controls with reference to financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to financial statements to future periods are subject to the risk that the internal financial controls with reference to financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

8. In our opinion, the Company has, in all material respects, adequate internal financial controls system with reference to financial statements and such internal financial controls with reference to financial statements were operating effectively as at March 31, 2026, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note issued by ICAI.

First Energy TN 1 Private Limited

Annexure B to Independent Auditors' Report

Referred to in paragraph 12 of the Independent Auditor's Report of even date to the members of First Energy TN 1 Private Limited on the financial statements as of and for the year ended March 31, 2026

In terms of the information and explanations sought by us and furnished by the Company, and the books of account and records examined by us during the course of our audit, and to the best of our knowledge and belief, we report that:

i. (a) (A) The Company is maintaining proper records showing full particulars, including quantitative details and situation, of Property, Plant and Equipment.

(B) The Company did not have any intangible assets during the year and, accordingly, reporting under clause 3(i)(a)(B) of the Order is not applicable to the Company.

(b) The Property, Plant and Equipment of the Company have been physically verified by the Management during the year and no material discrepancies have been noticed on such verification. In our opinion, the frequency of verification is reasonable.

(c) The title deeds of all the immovable properties (other than properties where the Company is the lessee and the lease agreements are duly executed in favour of the lessee), as disclosed in Note 3(a) to the financial statements, are held in the name of the Company.

(d) The Company has not revalued its Property, Plant and Equipment (including Right of Use assets) during the year. Consequently, the question of our commenting on whether the revaluation is based on the valuation by a Registered Valuer, or specifying the amount of change, if the change is 10% or more in the aggregate of the net carrying value of each class of Property, Plant and Equipment (including Right of Use assets) does not arise.

(e) No proceedings have been initiated on or are pending against the Company for holding benami property under the Prohibition of Benami Property Transactions Act, 1988 (as amended in 2016) (formerly the Benami Transactions (Prohibition) Act, 1988 (45 of 1988)) and Rules made thereunder, and therefore the question of our commenting on whether the Company has appropriately disclosed the details in the financial statements, does not arise.

ii. (a) The Company is in the business of generating power from renewable energy sources and, consequently, does not hold any inventory. Accordingly, reporting under clause 3(ii)(a) of the Order is not applicable to the Company.

(b) During the year, the Company has not been sanctioned working capital limits in excess of Rs. 5 crores, in aggregate from banks and financial institutions and, accordingly, the question of our commenting on whether the quarterly returns or statements are in agreement with the unaudited books of account of the Company does not arise.

iii. (a) The Company has made investments in seven mutual fund schemes during the year.

The Company has not granted secured/ unsecured loans/ advances in nature of loans, or stood guarantee, or provided security to any parties. Accordingly, to this extent, the reporting under clause 3(iii), (iii)(a), (iii)(b), (iii)(c), (iii)(d), (iii)(e) and (iii)(f) of the Order are not applicable to the Company.

(b) In respect of the aforesaid investments, the terms and conditions under which such investments were made are not prejudicial to the Company's interest.

iv. The Company has not granted any loans or made any investments or provided any guarantees or security to the parties covered under Sections 185 and 186. Therefore, the reporting under clause 3(iv) of the Order are not applicable to the Company.

v. The Company has not accepted any deposits or amounts which are deemed to be deposits referred in Sections 73, 74, 75 and 76 of the Act and the Rules framed there under. Accordingly, the reporting under clause 3(v) of the Order is not applicable to the Company.

vi. The Central Government of India has not specified the maintenance of cost records under sub-section (1) of Section 148 of the Act for any of the products and services of the Company. Accordingly, reporting under clause 3(vi) of the Order is not applicable to the Company.

vii. (a) In our opinion, the Company is regular in depositing the undisputed statutory dues, including goods and services tax, income tax and other statutory dues, as applicable, with the appropriate authorities.

(b) There are no statutory dues referred to in sub-clause (a) which have not been deposited on account of any dispute.

viii. There are no transactions previously unrecorded in the books of account that have been surrendered or disclosed as income during the year in the tax assessments under the Income-tax Act, 1961.

ix. (a) The Company has not defaulted in repayment of loans or other borrowings or in the payment of interest thereon to any lender during the year.

(b) On the basis of our audit procedures, we report that the Company has not been declared Wilful Defaulter by any bank or financial institution or government or any government authority.

(c) In our opinion, the term loans have been applied for the purposes for which they were obtained.

(d) According to the information and explanations given to us, and the procedures performed by us, and on an overall examination of the financial statements of the Company, we report that no funds raised on short-term basis have been utilised for long-term purposes by the Company.

(e) According to the information and explanations given to us and procedures performed by us, we report that the Company did not have any subsidiaries, joint ventures or associate companies during the year. Accordingly, reporting under clause 3(ix)(e) of the Order is not applicable to the Company.

(f) According to the information and explanations given to us and procedures performed by us, we report that the Company did not have any subsidiaries, joint ventures or associate companies during the year. Accordingly, reporting under clause 3(ix)(f) of the Order is not applicable to the Company.

x. (a) The Company has not raised any money by way of initial public offer or further public offer (including debt instruments) during the year. Accordingly, the reporting under clause 3(x)(a) of the Order is not applicable to the Company.

(b) The Company has made a private placement of shares during the year, in compliance with the requirements of Section 42 and Section 62 of the Act. The funds raised have been used for the purpose for which funds were raised.

xi. (a) During the course of our examination of the books and records of the Company, carried out in accordance with the generally accepted auditing practices in India, we have neither come across any instance of material fraud by the Company or on the Company, noticed or reported during the year, nor have we been informed of any such case by the Management. Accordingly, the reporting under clause 3(xi)(a) of the Order is not applicable to the Company.

(b) During the course of our examination of the books and records of the Company carried out in accordance with the generally accepted auditing practices in India, a report under Section 143(12) of the Act, in Form ADT-4, as prescribed under rule 13 of Companies (Audit and Auditors) Rules, 2014 was not required to be filed by us, as statutory auditors, with the Central Government. Accordingly, the reporting under clause 3(xi)(b) of the Order is not applicable to the Company.

(c) During the course of our examination of the books and records of the Company carried out in accordance with the generally accepted auditing practices in India, and as represented to us by the management, no whistle-blower complaints have been received during the year by the Company. Accordingly, the reporting under clause 3(xi)(c) of the Order is not applicable to the Company.

xii. As the Company is not a Nidhi Company and the Nidhi Rules, 2014 are not applicable to it, the reporting under clause 3(xii) of the Order is not applicable to the Company.

xiii. The Company has entered into transactions with related parties in compliance with the provisions of Sections 177 and 188 of the Act. The details of related party transactions have been disclosed in the financial statements as required under Indian Accounting Standard 24 "Related Party Disclosures" specified under Section 133 of the Act.

xiv. (a) The internal audit of the Company is covered under the group internal audit pursuant to which an internal audit is carried out every year. In our opinion, the Company's internal audit system is commensurate with the size and nature of its business.

(b) We were unable to obtain the Internal Audit Reports for the period January 01, 2026 to March 31, 2026 of the Company and, accordingly, the Internal Audit Reports have been considered by us for the purpose of our audit only to the extent those were made available to us.

xv. In our opinion, the Company has not entered into any non-cash transactions with its directors or persons connected with the director(s). Accordingly, the reporting on compliance with the provisions of Section 192 of the Act under clause 3(xv) of the Order is not applicable to the Company.

xvi. (a) The Company is not required to be registered under Section 45-IA of the Reserve Bank of India Act, 1934. Accordingly, the reporting under clause 3(xvi)(a) of the Order is not applicable to the Company.

(b) The Company has not conducted non-banking financial/ housing finance activities during the year. Accordingly, the reporting under clause 3(xvi)(b) of the Order is not applicable to the Company.

(c) The Company is not a Core Investment Company as defined in the regulations made by the Reserve Bank of India. Accordingly, the additional reporting under clause 3(xvi)(c) of the Order is not applicable to the Company.

(d) In our opinion, the Group as defined in the Reserve Bank of India (Core Investment Companies) Directions, 2025 has one CIC as part of the Group.

xvii. The Company has not incurred any cash losses in the financial year or in the immediately preceding financial year.

xviii. There has been no resignation of the statutory auditors during the year and, accordingly, the reporting under clause 3(xviii) of the Order is not applicable to the Company.

xix. On the basis of the financial ratios, ageing and expected dates of realisation of financial assets and payment of financial liabilities, other information accompanying the financial statements, our knowledge of the Board of Directors and management plans and based on our examination of the evidence supporting the assumptions, nothing has come to our attention, which causes us to believe that any material uncertainty exists as on the date of the audit report that the Company is not capable of meeting its liabilities existing at the date of balance sheet as and when they fall due within a period of one year from the balance sheet date. We, however, state that this is not an assurance as to the future viability of the Company. We further state that our reporting is based on the facts up to the date of the audit report and we neither give any guarantee nor any assurance that all liabilities falling due within a period of one year from the balance sheet date will get discharged by the Company as and when they fall due.

xx. The provisions relating to Corporate Social Responsibility under Section 135 of the Act are not applicable to the Company. Accordingly, reporting under clause 3(xx) of the Order is not applicable to the Company.

xxi. The Company does not have subsidiaries or joint ventures or associate companies and does not prepare Consolidated Financial Statements. Accordingly, the reporting under clause 3(xxi) of the Order is not applicable to the Company.

Notes to the Financial Statements for the year ended March 31, 2026
(All amounts are in Rupees Lakhs, except per share data and unless stated otherwise)

1. Corporate information

First Energy TN 1 Private Limited ("the Company") is a private limited company domiciled in India and incorporated on January 29, 2022 under the provisions of Indian Companies Act, 2013. It is a subsidiary of First Energy Private Limited. The Company is primarily engaged in the business as a producer of solar power.

The address of the Company's registered office is Fountainhead Tower 1, Viman Nagar, Pune – 411014, India. The Board of Directors have authorized to issue these financial statements on April 24, 2026. The CIN of the Company is U40108PN2022PTC208074.

2. Basis of preparation and summary of material accounting policies

This note provides a list of the material accounting policies adopted in the preparation of these financial statements. These policies have been consistently applied to all the years presented, unless otherwise stated.

2.1 Basis of preparation and measurement

(a) Basis of preparation

These financial statements have been prepared in accordance with the Indian Accounting Standards (Ind AS), notified under the section 133 of the Companies Act 2013 (the Act) [Companies (Indian Accounting Standards) Rules, 2015] and other relevant provisions of the act.

(b) Historical cost convention

The financial statements have been prepared on the historical cost convention;

All assets and liabilities have been classified as current or non-current as per the Company's operating cycle and other criteria set out in the Schedule III of the Companies Act, 2013. Based on the nature of products and services and the time between the acquisition of assets for processing and their realisation in cash and cash equivalents, the Company has ascertained its operating cycle as 12 months for the purpose of current and non-current classification of assets and liabilities.

2.2. Summary of material accounting policies

a. Revenue recognition

Revenue from Contracts with customers

Revenue from contracts with customers is recognized when control of the goods or services are transferred to the customer at the amount of the transaction price allocated to the performance obligation. Revenue is recognized when it has approval and commitment from both parties, the rights of the parties are identified, payment terms are identified, the contract has commercial substance and collectability of consideration is probable. The Company has concluded that it is the principal in all of its revenue arrangements since it is primarily responsible for fulfilling the promise to provide the specified good or service and has discretion in establishing the price for the specified good or service.

Revenue from Sale of power

Revenue from sale of power is recognised at transaction price and over time for each unit of electricity delivered at the contracted rate. Revenue recognized pertains to units of electricity supplied to the consumers on the basis of recording of consumption of energy by installed meters based on the applicable tariff agreed in power purchase agreement, which are recognized considering past trends of approval, management's probability estimate and when no significant uncertainty exists in such determination.

At the end of each reporting period, the Company updates the estimated transaction price to represent the circumstances present at the end of the reporting period and the changes in circumstances during the reporting period. The Company accounts for such changes in the transaction price (including claims). Consideration / claim payable to a customer includes cash amounts that an entity pays to the customer. The Company accounts for consideration payable to a customer as a reduction of the transaction price and, therefore, of revenue unless the payment to the customer is in exchange for a distinct good or service that the customer transfers to the entity. The consideration payable to a customer includes a variable amount.

Trade receivables: A receivable represents the Company's right to an amount of consideration that is unconditional (i.e., only the passage of time is required before payment of the consideration is due). Trade receivables are recognised initially at the transaction price as they do not contain significant financing components. The Company holds the trade receivables with the objective of collecting the contractual cash flows and therefore measures them subsequently at amortised cost using the effective interest method, less loss allowance. For trade receivables, the Company applies the simplified approach required by Ind AS 109, which requires expected lifetime losses to be recognised from initial recognition of the receivables.

Variable considerations

The contracts for sale of power provide customers with a right for compensation in case of delayed delivery or commissioning and in some contracts compensation for performance shortfall expected in future over the life of the guarantee. The Company estimates the amount of consideration to which it will be entitled in exchange for transferring the goods to the customer and netted off against the revenue.

b. Property, plant and equipment

Freehold land is carried at historical cost. All other items of property, plant and equipment and capital work in progress are stated at cost of acquisition or construction net of accumulated depreciation and impairment loss, if any.

Depreciation commences when the assets are ready for their intended use. Depreciation is calculated using the straight-line method to allocate their cost, net of their residual values, over their estimated useful lives as follows:

Asset category	Company's estimate of useful life (years)	Useful life as prescribed under Schedule II (years)
Plant and equipment	5 to 25	10 to 15
Building	3	3 to 30

c. Borrowing costs

Where the Company borrows funds specifically for the purpose of obtaining a qualifying asset, the borrowing costs eligible for capitalization are determined as the actual borrowing costs incurred on such specific borrowings during the period, less any investment income earned on the temporary investment of those borrowed funds pending their utilization on the qualifying asset; accordingly, the net borrowing costs, after deduction of such temporary investment income, are capitalized as part of the cost of the qualifying asset in accordance with IAS 23 – Borrowing Costs.

Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets are capitalized as part of the cost of the asset. All other borrowing costs are expensed in the period in which they occur. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds.

d. Deferred tax

Deferred tax is provided using the liability method on temporary differences between the tax bases of assets and liabilities and their

carrying amounts for financial reporting purposes at the reporting date.

Deferred tax assets are recognized for all deductible temporary differences, the carry forward of unused tax credits and any unused tax losses. Deferred tax assets are recognized to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilized.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognized deferred tax assets are re-assessed at each reporting date and are recognized to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

2.3. Summary of other accounting policies

a. Financial instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

Financial assets

All financial assets (excluding trade receivables which do not contain a significant financing component) are recognized initially at fair value plus, in the case of financial assets not recorded at fair value through Profit and Loss, transactions costs that are attributable to the acquisition of the financial asset. For all subsequent measurements, financial assets are classified in the following categories by the Company:

i. Debt instruments at amortized cost

A 'debt instrument' is measured at the amortized cost if both the following conditions are met:

(a) The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows, and

(b) Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

After initial measurement, such financial assets are subsequently measured at amortized cost using the effective interest rate (EIR) method. Amortized cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of EIR. The EIR amortization is included in finance costs/ income in the Statement of Profit and Loss. The losses arising from impairment are recognized in the Statement of Profit and Loss.

ii. Debt instrument at FVOCI

Fair value through other comprehensive income (FVOCI): Assets that are held for collection of contractual cash flows and for selling the financial assets, where the assets' cash flows represent solely payments of principal and interest, are measured at FVOCI. There are currently no debt securities which are carried at FVOCI.

iii. Debt instrument at FVTPL

Fair value through profit or loss (FVTPL): FVTPL is a residual category for debt instruments. Any debt instrument, which does not meet the criteria for categorization as at amortized cost or as FVTOCI is classified as FVTPL. Debt instruments included within the FVTPL category are measured at fair value with all changes recognized in the Statement of Profit and Loss. There are currently no debt securities which are carried at FVTPL.

Derecognition

A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is primarily derecognized when:

- The rights to receive cash flows from the asset have expired, or
- The Company has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a "pass-through" arrangement; and either (a) the Company has transferred substantially all the risks and rewards of the asset, or (b) the Company has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

Impairment of financial assets

For trade receivables, the Company follows 'simplified approach' for recognition of impairment loss and always measures the loss allowance at an amount equal to lifetime expected credit losses to measure the expected credit losses.

In case of other financial assets, the Company applies general approach for recognition of impairment losses wherein the Company uses judgement in considering the probability of default upon initial recognition and whether there has been a significant increase in credit risk on an ongoing basis throughout each reporting period.

Financial liabilities

All financial liabilities are recognized initially at fair value and in the case of borrowings, net of directly attributable transaction costs. The Company's financial liabilities include trade and other payables and borrowings.

Subsequent measurement of financial liabilities depends on their classification as fair value through profit and loss or at amortized cost. A financial liability is classified as at FVTPL if it is classified as held for trading, or it is a derivative or it is designated as such on initial recognition. Other financial liabilities are subsequently measured at amortised cost using the effective interest method. There are currently no financial liabilities classified as FVTPL.

All changes in fair value of financial liabilities classified as FVTPL is recognized in the Statement of Profit and Loss. Amortised cost category is applicable to loans and borrowings, trade and other payables. Gains and losses are recognized in profit and loss when the liabilities are derecognized as well as through effective interest method. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or cost that are integral part on effective interest rate (EIR). The EIR amortization is included as finance cost in the Statement of Profit and Loss.

Borrowings are classified as current liabilities unless, at the end of the reporting period, the group has a right to defer settlement of the liability for at least 12 months after the reporting period. Where there is a breach of a material provision of a long-term loan arrangement on or before the end of the reporting period with the effect that the liability becomes payable on demand on the reporting date, the entity does not classify the liability as current, if the lender agreed, after the reporting period and before the approval of the financial statements for issue, not to demand payment as a consequence of the breach.

Derecognition

A financial liability is derecognized when the obligation under the liability is discharged or cancelled or expires or when an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognized in the Statement of Profit and Loss.

Notes to the Financial Statements for the year ended March 31, 2026
(All amounts are in Rupees Lakhs, except per share data and unless stated otherwise)

Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the Balance Sheet if there is a currently enforceable legal right to offset the recognized amounts and there is an intention to settle on a net basis, to realize the assets and settle the liabilities simultaneously.

b. Fair value measurementt

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorized within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1 - Quoted (unadjusted) market prices in active markets for identical assets or liabilities
- Level 2 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable
- Level 3 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

For the purpose of fair value disclosures, the Company has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

c. Property, plant and equipment (PPE)

All significant costs relating to the acquisition and installation of PPE are capitalised. Subsequent costs/replacement costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. The carrying amount of the replaced part is derecognised.

The Company identifies and determines cost of each component/ part of the asset separately, if the component/ part has a cost which is significant to the total cost of the asset and has useful life that is materially different from that of the remaining asset. The identified components are depreciated separately over their useful lives; the remaining components are depreciated over the life of the principal asset.

The residual values, useful lives and methods of depreciation of PPE are reviewed on a regular basis and changes in estimates, when relevant, are accounted for on a prospective basis.

d. Income recognition

Interest income

For all financial instruments measured at amortized cost, interest income is recorded using the effective interest rate (EIR). EIR is the rate that exactly discounts the estimated future cash payments or receipts over the expected life of the financial instrument or a shorter period, where appropriate, to the gross carrying amount of the financial asset or to the amortized cost of a financial liability. Interest income is included in finance income in the Statement of Profit and Loss.

e. Cash and cash equivalents

Cash and cash equivalents includes cash on hand, balances with banks and other short-term, highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

f. Share capital

Equity shares issued to shareholders are classified as equity. Incremental costs directly attributable to the issue of new equity shares are recognized as a deduction from equity, net of any related income tax effects.

Cost for issuance of equity instruments:

The cost in issuing or acquiring Company's own equity instruments includes registration and other regulatory fees and stamp duties. These costs are accounted for as a deduction from equity (net of any related income tax benefit) to the extent they are incremental costs directly attributable to the equity transaction that otherwise would have been avoided.

g. Income tax

Current tax

Current tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted, at the reporting date.

Current income tax relating to items recognized outside profit or loss is recognized either in OCI or in equity. Current tax items are recognized in correlation to the underlying transaction either in OCI or directly in equity. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate.

Deferred tax

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

Deferred tax relating to items recognized outside profit or loss is recognized outside profit or loss (either in OCI or in equity). Deferred tax items are recognized in correlation to the underlying transaction either in OCI or directly in equity.

Deferred tax assets and deferred tax liabilities are offset if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

The Company determines whether to consider each uncertain tax treatment separately or together with one or more other uncertain tax treatments and uses the approach that better predicts the resolution of the uncertainty.

h. Impairment of non-financial assets

The Company assesses, at each reporting date, whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the Company estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's or Cash Generating Unit's (CGU) fair value less costs of disposal and its value in use. Recoverable amount is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or group of assets. When the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

Impairment losses are recognized in the Statement of Profit and Loss.

For assets, an assessment is made at each reporting date to determine whether there is an indication that previously recognized impairment losses no longer exist or have decreased. If such indication exists, the Company estimates the asset's or CGU's recoverable amount. The reversal is limited so that the carrying amount of the asset does not exceed its recoverable amount, nor exceed the carrying amount that would have been determined, net

of depreciation, had no impairment loss been recognized for the asset in prior years. Such reversal is recognized in the Statement of Profit and Loss unless the asset is carried at a revalued amount, in which case, the reversal is treated as a revaluation increase.

i. Provisions

Provisions are recognized when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. When the Company expects some or all of a provision to be reimbursed, for example, under an insurance contract, the reimbursement is recognized as a separate asset, but only when the reimbursement is virtually certain. The expense relating to a provision is presented in the Statement of Profit and Loss net of any reimbursement.

If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognized as a finance cost.

j. Segment reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker.

The Board of Directors of the Company has been identified as the chief operating decision maker of the Company.

k. Contingent liabilities

A disclosure for a contingent liability is made where there is a possible obligation that arises from past events and the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company or a present obligation that arises from the past events where it is either not probable that an outflow of resources will be required to settle the obligation or a reliable estimate of the amount cannot be made.

l. Earnings per share (EPS)

The Company presents the basic and diluted EPS data for its equity shares. Basic EPS is computed by dividing the net profit for the year attributable to the equity shareholders of the Company by the weighted average number of equity shares outstanding during the year. Diluted EPS is computed by adjusting the net profit for the year attributable to the equity shareholders and the weighted average number of equity shares considered for deriving basic EPS for the effects of all the equity shares that could have been issued upon conversion of all dilutive potential equity shares.

m. Rounding of amounts:

Amounts disclosed in the financial statements are presented in INR in lakhs rounded off to two decimal places as permitted by Schedule III to the Companies Act, 2013, unless otherwise stated.

2.4. Significant accounting judgments, estimates and assumptions

The preparation of financial statements requires the use of accounting estimates which, by definition, will likely differ from the actual results. Management also needs to exercise judgement in applying the Company's accounting policies.

This note provides an overview of the areas that involved a higher degree of judgement or complexity, and of items which are more likely to be materially adjusted due to final outcomes deviating from estimates and assumptions made.

i. Impairment of property, plant and equipment

Determining whether property, plant and equipment are impaired requires an estimation of the value in use of the relevant cash generating units. The value in use calculation is based on a Discounted Cash Flow model over the estimated useful life of the property, plant and equipment. Further, the cash flow projections are based on estimates and assumptions relating to expected generation based on past trends and the current and likely future state of the industry etc. which are considered reasonable by the Management. Any reasonable possible change in the underlying assumptions would lead to recoverable amount and conclusion on impairment assessment.

ii. Borrowing costs

The determination of whether an asset qualifies as a qualifying asset for the purpose of capitalization of borrowing costs involves significant management judgement, including assessment of factors such as the period of time necessary to get the asset ready for its intended use or sale, the nature of activities required during the construction or development phase, and prevailing industry practices; in the Company's case, the construction of projects typically involves a period ranging from 6 months to 10 months, and management evaluates each project individually to determine eligibility for borrowing cost capitalization based on these criteria.

iii. Useful lives of property, plant and equipment

The Company determines, based on technical assessment, the estimated useful lives of its property, plant and equipment for calculating depreciation and amortisation. This estimate is determined after considering the expected usage of the asset or physical wear and tear. Management reviews the residual value and useful lives annually and future depreciation and amortisation charge would be adjusted where the management believes the useful lives differ from previous estimates.

iv. Deferred taxes

At each balance sheet date, the Company assesses whether the realization of future tax benefits is sufficiently probable to recognize deferred tax assets. This assessment requires the use of significant estimates with respect to assessment of future taxable income. The recorded amount of total deferred tax assets could change if estimates of projected future taxable income or if changes in current tax regulations are enacted.

2.6. Recent Pronouncements:

The Ministry of Corporate Affairs vide notification dated 7 May 2025 and 13 August 2025 notified the Companies (Indian Accounting Standards) Amendment Rules, 2025 and Companies (Indian Accounting Standards) Second Amendment Rules, 2025, respectively, which amended certain accounting standards (see below), and are effective for annual reporting periods beginning on or after 1 April 2025:

1. Classification of Liabilities as Current or Non-current and Non-current Liabilities with Covenants – Amendments to Ind AS 1,
2. Supplier Finance Arrangements – Amendments to Ind AS 7 and Ind AS 107,
3. International Tax Reform – Pillar Two Model Rules – Amendments to Ind AS 12,
4. Lack of Exchangeability – Amendments to Ind AS 21,
5. Lease Liability in Sale and Leaseback – Amendments to Ind AS 116

These amendments did not have any material impact on the amounts recognised in prior periods and are not expected to significantly affect the current or future periods.

Notes to the Financial Statements for the year ended March 31, 2026
(All amounts are in Rupees Lakhs, except per share data and unless stated otherwise)

Particulars	As at March 31, 2026	As at March 31, 2025
Deferred tax assets		-
Losses available for offsetting against future taxable income	1,357.61	818.63
	1,357.61	**818.63**
Deferred tax liabilities		-
Property, plant and equipment	(1,352.36)	(813.38)
Ind AS impact on borrowings	(5.25)	(5.25)
	(1,357.61)	**(818.63)**
Total	**-**	**-**

The Company has tax losses of Rs. 83.10 lakhs (March 31, 2025: 5.82 lakhs) that are available for offsetting of future taxable profits. Deferred tax assets have not been recognised in respect of these losses as they may not be used to offset taxable profits elsewhere in the Company and there are no other tax planning opportunities or other evidence of recoverability in the near future. If the Company was able to recognise all unrecognised deferred tax assets, the profit for the year would increase by Rs. 14.26 lakhs (March 31, 2025: Rs. 1 lakh).

Particulars	Expiry date	As at March 31, 2026		As at March 31, 2025	
		Amount	Tax Impact	Amount	Tax Impact

H Terms and conditions for outstanding balances

All outstanding balances are unsecured, interest free except for borrowings, and payable in cash. For details of interest on borrowings, refer note 11.

The transactions and balances with the related parties disclosed above are inclusive of goods and services tax, wherever applicable.

25. Fair value measurements

Break up of financial liabilities carried at amortised cost

Particulars	As at March 31, 2026	As at March 31, 2025
Trade payables	104.98	59.30
Borrowing	9,001.82	8,135.41
Other liabilities	42.59	149.08
Total	**9,149.39**	**8,343.79**
Current liabilities	535.45	3,549.47
Non-current liabilities	8,613.94	4,794.32
Total	**9,149.39**	**8,343.79**

Break-up of financial assets carried at amortised cost

Particulars	As at March 31, 2026	As at March 31, 2025
Trade receivables	169.46	67.08
Cash and cash equivalents	79.32	36.95
Other bank balances	347.61	-
Other financial assets	174.93	369.13
Total	**771.32**	**473.16**
Current assets	771.32	442.82
Non-current assets	-	30.34
Total	**771.32**	**473.16**

The carrying value of trade receivables, cash and cash equivalents, bank balances, other financial assets, trade payables and other current liabilities are considered to be the same as their fair values, due to their short term nature.

The management has further assessed that carrying value of borrowings availed approximate their fair value largely due to the interest rates being variable or in case of fixed rate borrowings, movements in interest rates from the recognition of such financial instrument till period end not being material.

26. Financial risk management

The Company's principal financial liabilities comprise borrowings, trade and other payables. The main purpose of these financial liabilities is to finance the Company's operations. The Company's principal financial assets include trade and other receivables and cash and cash equivalents are derived directly from its operations.

Risk is inherent in the Company's activities but it is managed through a process of ongoing identification, measurement and monitoring, subject to risk limits and other controls. This process of risk management is critical to the Company's continuing operations. The Company is exposed to market risk, credit risk and liquidity risk.

The Management of the Company is ultimately responsible for the overall risk management approach and for approving the risk strategies and principles. The management of the Company reviews and agrees policies for managing each of these risks, which are summarised below.

I Market risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises three types of risk: interest rate risk and currency risk.

The management of the Company has implemented a risk management system that is monitored by the Board of Directors. Market risk is managed on the basis of pre-determined asset allocations across various asset categories, a continuous appraisal of market conditions and trends and management's estimate of long and short term changes in fair value.

The sensitivity analyses in the following sections relate to the position as at March 31, 2026 and March 31, 2025.

a Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company's exposure to the risk of changes in market interest rates relates primarily to the Company's long-term debt obligations with floating interest rates.

The exposure of the Company's borrowings to interest rate changes at the end of the reporting period are as follows:

Particulars	March 31, 2026	March 31, 2025
Variable rate borrowings	8,194.14	5,016.41

Interest rate sensitivity

The following table demonstrates the sensitivity to a reasonably possible change in interest rates on that portion of borrowings affected. With all other variables held constant, the Company's loss before tax is affected through the impact on floating rate borrowings, as follows:

	For the year ended March 31, 2026	For the year ended March 31, 2025
Interest rates - Increase by 25 basis points (March 31, 2025 - 25 basis points)	(11.97)	(12.91)
Interest rates - Decrease by 25 basis points (March 31, 2025 - 25 basis points)	17.19	12.91

b) Foreign currency risk

Foreign exchange risk arises when future commercial transactions and relevant assets and liabilities are denominated in a currency that is not the Company's functional currency. Foreign exchange risk is the risk that the value of a financial instrument will fluctuate due to changes in foreign exchange rates.

The Company has not entered into any foreign currency transaction during the current year and comparative period and hence not exposed to any foreign currency risk.

II Credit risk

Credit risk is the risk that counterparty will not meet its obligations under a financial instrument or customer contract, leading to a financial loss. The Company is exposed to credit risk primarily from trade receivables, security deposits and cash and cash equivalents and from its investing activities, including deposits with banks.

Risk Management:

Trade receivables

Customer credit risk is managed by the Company's established policy, procedures and control relating to customer credit risk management. Credit quality of a customer is assessed based on individual credit ratings and risk of potential default based on defined credit risk parameters. An impairment analysis is performed based on expected credit loss model at each reporting date. The calculation is based on losses as per historical data and forward looking information. The maximum exposure to credit risk at the reporting date is the carrying value of each class of financial assets disclosed in notes above. There is no charge of impairment to Statement of Profit and Loss in the current and previous year.

Balances with Banks

Credit risk from balances with banks is managed by the Parent Company's finance department in accordance with the Company's policy. Investments of surplus funds are made only with approved

Notes to the Financial Statements for the year ended March 31, 2026
(All amounts are in Rupees Lakhs, except per share data and unless stated otherwise)

counterparties to mitigate financial loss through counterparty's potential failure to make payments. Identified impairment loss for these assets is immaterial.

Other financial assets carried at amortised cost

The Company's other financial assets comprise security deposits held with state electricity authorities, which carry low credit risk. Accordingly, no loss allowance has been recognised..

III Liquidity risk

Prudent liquidity risk management implies maintaining sufficient cash and marketable securities and the availability of funding through an adequate amount of committed credit facilities to meet obligations.

Management monitors rolling forecasts of the Company's liquidity position and cash and cash equivalents on the basis of expected cash flows on a on-going basis. The Company's liquidity management policy involves projecting future cash flows and considering the level of liquid assets necessary to meet these and monitoring balance sheet liquidity ratios against internal requirements.

Maturities of financial liabilities

The tables below summarises the company's financial liabilities into relevant maturity profile based on contractual undiscounted payments :

March 31, 2026

Particulars	< 1 year	1 to 3 years	3 to 5 years	> 5 years	Total
Non- derivative					
Borrowings	387.88	1,524.83	792.21	6,329.06	9,033.98
Lease liabilities	0.90	0.90	1.04	21.07	23.90
Trade Payables	104.98	-	-	-	104.98
Other financial liabilities	42.59	-	-	-	42.59

March 31, 2025

Particulars	< 1 year	1 to 3 years	3 to 5 years	> 5 years	Total
Non- derivative					
Borrowings	3,364	448.98	469.30	3906.64	8,189.21
Trade Payables	59	-	-	-	59.30
Other financial liabilities	126	-	-	-	125.88

27. Analytical ratios

S. No.	Particulars	Numerator	Denominator	As at March 31, 2026	As at March 31, 2025	Variance	Reasons for variance of more than 25%
1	Current Ratio	Current Assets	Current Liabilities	1.51	0.19	700%	Refer note (i)
2	Debt-Equity Ratio	Total Debt	Shareholders' Equity	4.61	4.14	11%	Not applicable
3	Debt Service Coverage Ratio	Earnings available for debt service (Net loss after taxes + Non-cash operating expenses like depreciation and other amortizations + Interest + other adjustments like loss on sale of Fixed assets etc.)	Debt Service (Interest + Principal Repayments)	0.28	0.71	-61%	Refer note (iv)
4	Return on Equity	Net loss after taxes	Average Shareholder's Equity	-6.14%	-2.74%	-124%	Refer note (ii)
5	Return on Investment	Investment income	Average investment	5.07%	7.10%	-29%	Decrease in deposits interest rates resulted in decrease in ratio
6	Trade Receivables turnover Ratio	Total sales	Average Trade Receivable	9.67	14.84	-35%	Refer note (iii)
7	Trade payables turnover Ratio	Net credit purchases	Average Trade Payables	2.48	2.99	-17%	Not applicable
8	Net capital turnover Ratio	Total sales	Working Capital	4.16	-0.30	-1510%	Refer note (iii)
9	Return on Capital employed	Earning before interest and taxes	Capital Employed	5.15%	4.21%	22%	Not applicable
10	Net Profit Ratio	Net loss after taxes	Revenue	-10.52%	-6.40%	-64%	Refer note (ii)

Working Capital = Current assets less Current liabilities

Capital employed = Tangible Net worth + total debt

Average = (Opening + Closing)/2

Note:

(i) The increase in current ratio is attributable to higher cash and bank balances, resulting from fresh borrowings obtained through refinancing arrangements by the entity.

(ii) The return on equity and net profit ratio have been impacted due to an increase in overall expenses, primarily driven by higher finance costs and other expenses during the period.

(iii) Higher sales during the last months resulted in elevated trade receivables, consequently leading to a decline in the Trade Receivables Turnover Ratio.

(iv) Repayment of unsecured borrowing during the year, impacted debt service coverage ratio.

Notes to the Financial Statements for the year ended March 31, 2026
(All amounts are in Rupees Lakhs, except per share data and unless stated otherwise)

28. Capital Management

The Company's objective for capital management is to maximise long term shareholder value, safeguard business continuity and support the growth of the Company. The Company determines the capital requirement based on annual operating plans and long-term and other strategic investment plans. The funding requirements are met through borrowings, equity and operating cash flows generated. Capital represents equity attributable to equity holders of the Company.

Particulars	As at March 31, 2026	As at March 31, 2025
Borrowings including accrued interest	9,001.82	8,158.61
Lease liabilities	7.36	-
Less: Cash and cash equivalents (includes other bank balances)	426.93	36.95
Net debt	**8,582.25**	**8,121.66**
Equity	1,951.24	1,967.15
Net Debt to Equity	**4.40**	**4.13**

Net debt to equity has increased in current year on account of additional borrowings availed during the year for expansion project.

Loan Covenants

The Borrower shall, during the entire tenor of the Facility, ensure that its Debt Service Coverage Ratio does not fall below 1.10:1

There is no debt convenants breach during the year.

29. Details of dues to Micro and Small Enterprises as defined under MSMED Act, 2006

Dues to small-scale industrial undertakings have been worked out on the basis of information available with the Management.

Particulars	As at March 31, 2026	As at March 31, 2025
The principal amount and the interest due thereon remaining unpaid to any supplier as at the end of each accounting year		
- Principal amount outstanding(whether due or not) to micro and small enterprises*	29.22	12.21
- Interest due thereon	0.12	0.08
The amount of interest paid by the Company in terms of section 16 of the MSMED Act, 2006 along with the amounts of the payment made to the supplier beyond the appointed day during each accounting year	-	-
The amount of principal made to the supplier beyond the appointed day during the year	48.12	20.14
The amount of interest due and payable for the period of delay in making payment (which have been paid but beyond the appointed day during the year) but without adding the interest specified under the MSMED Act, 2006	0.80	0.27
The amount of interest accrued and remaining unpaid at the end of each accounting year	0.92	0.35
The amount of further interest remaining due and payable even in the succeeding years, until such date when the interest dues as above are actually paid to the small enterprise for the purpose of disallowance as a deductible expenditure under section 23 of the MSMED Act 2006.	1.76	0.84

*Amount due to Micro and Small enterprises are disclosed on the basis of information available with the Company regarding status of the suppliers as Micro and Small enterprises.

30. Segment reporting

The Chief Operating Decision Maker (CODM) evaluates the Company's performance and applies the resources to whole of the Company's business viz "Producer of power through renewable energy source". Hence the Company has only one reportable segment as per Ind AS - 108 "Operating Segments". The Company operates entirely in India. Hence, there is only one geographical segment.

Major Customers

Particulars	For the year ended March 31, 2026	For the year ended March 31, 2025
Customer A	273.04	209.14
Customer B	262.26	210.24
Customer C	366.23	278.66
Customer D	149.66	139.61
Total	**1,051.19**	**837.65**

31. Other Statutory Information

(i) No proceedings have been initiated on or are pending against the Company for holding benami property under the Benami Transactions (Prohibition) Act, 1988 (45 of 1988) and Rules made thereunder.

(ii) The Company does not have any charges or satisfaction which is yet to be registered with Registrar of Companies beyond the statutory period.

(iii) The Company has not traded or invested in crypto currency or virtual currency during the current and previous year.

(iv) There is no income surrendered or disclosed as income during the current year in the tax assessments under the Income Tax Act, 1961, that has not been recorded in the books of account.

(v) The Company has not been declared wilful defaulter by any bank or financial institution or other lender.

(vi) The Company has no transactions with the companies struck off under Companies Act, 2013 or Companies Act, 1956.

(vii) The Company has not entered into any scheme of arrangement which has an accounting impact on current or previous financial year.

(viii) Utilisation of borrowed funds and share premium

The Company has not advanced or loaned or invested funds to any other person(s) or entity(ies), including foreign entities (Intermediaries) with the understanding that the Intermediary shall:

a. directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Company (Ultimate Beneficiaries) or

b. provide any guarantee, security or the like to or on behalf of the ultimate beneficiaries

The Company has not received any fund from any person(s) or entity(ies), including foreign entities (Funding Party) with the understanding (whether recorded in writing or otherwise) that the Company shall:

a. directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party (Ultimate Beneficiaries) or

b. provide any guarantee, security or the like on behalf of the ultimate beneficiaries.

Notes to the Financial Statements for the year ended March 31, 2026
(All amounts are in Rupees Lakhs, except per share data and unless stated otherwise)

32. Compliance with Section 143 (3) for Maintenance of Books of Account

With effect from August 5, 2022, the Ministry of Corporate Affairs (MCA) has amended the Companies (Accounts) Rules, 2014, relating to maintenance of electronic books of account and other relevant books and papers. Pursuant to this amendment, the Company is required to maintain the books of account which are accessible in India at all times and their backup is to be kept on servers located in India on a daily basis.

The Company has a process to take daily back-up of books of account maintained in electronic mode on servers located in India.

33. Compliance with Section 143 (3) for Audit Trail

The primary accounting software used for maintaining its books of account has a feature of recording audit trail (edit log) facility and the same has operated throughout the year for all relevant transactions recorded in the software except that no audit trail has been enabled at the database level to log any direct data changes. Further the audit trail maintained in the prior year, has been preserved by the Company as per the statutory requirements of record retention.

DIRECTORS' REPORT

Dear Shareholder,

Your directors take pleasure to present the Fourth Annual Report, together with the audited financial statements of your Company for the year ended March 31, 2026.

FINANCIAL RESULTS

(Rs. in Lakh)

Particulars	2025-26	2024-25
Total income	429.49	438.22
Profit before finance cost, depreciation, and tax	353.39	369.75
Finance Cost	212.18	235.34
Profit before depreciation and tax	141.20	134.41
Depreciation and impairment	149.77	149.1
Profit/(Loss) before tax	(8.57)	(14.7)
Profit/(Loss) after tax	(8.57)	(14.7)

State of Company's Affairs

The Company's Solar plant of 7.5MWp has been in stable operation since commissioning in March 2023.

Material changes affecting the Financial Position of the Company

No material changes and commitments have occurred after the close of the year till the date of this Report, which affects the financial position of the Company

Dividend

The directors do not recommend any dividend on equity shares.

Amount proposed to be carried to Reserves

During the year, the company has not transferred any amount to the General Reserve.

Share Capital

During the year there were no changes in the capital structure of the Company. The Paid-up Share Capital of the Company is Rs. 11,53,50,050 divided into 1,15,35,005 Equity Shares of Rs.10 each. The Company has not issued shares with differential voting rights nor has granted any stock options or sweat equity during the year.

Subsidiaries, Joint Ventures, and Associates

The Company does not have any Subsidiary, Joint Venture or Associate Company as on March 31, 2026.

Deposits

The Company has not accepted any deposits under Chapter V of the Companies Act, 2013. It has no unpaid/unclaimed deposits as on March 31, 2026.

Particulars of Loans, Guarantees or Investments

The provisions of Section 186 of the Act, with respect to loan, guarantee, investment or security are not applicable to your Company. The details of loans, guarantee and investments made during the year under review are given in the notes forming part of the financial statements.

Restriction on purchase by the Company or giving of Loans by it for purchase of its shares

Pursuant to the provisions of Section 67(3)(c) of the Companies Act, 2013, and rules made thereunder, the Company has not given any loan exceeding the limit mentioned therein, to persons in the employment of the Company, Directors or Key Managerial Personnel, for purchase or to subscribe shares of the Company.

Business Risk Management

The Company has identified the below types of risks in its renewable energy business and has drawn a mitigation plan to address the same –

- **Land Risk :** The land title/ ownership data as per Government systems have certain degree of inaccuracies owing to prevalent old manual systems. This could result in delays in land acquisition and give rise to litigation. To mitigate this risk, the Company has an in-house Land expert and appointed a reputable legal agency to conduct Thirty Year Title Search Report (TSR) to clearly establish the ownership prior to land acquisition.
- **Risk of Right of Way (RoW) and Resources :** This type of risk involved the risk of delays due to RoW during construction and the availability of resources as per the plan. To cope with this risk the Company plans advance tie-up for land parcels and NOCs from respective agencies. It also contracts competent local infra partners having experience and capability.
- **Renewable Sources and Grid Availability :** The major risk identified by the Company is generation loss due to lower radiation and Grid failures. The Company continuously studies the radiation levels with historical data from reliable sources. It also carries out Load Flow Analysis and studies the data on power availability and quality from the Grid.
- **Plant Uptime and Soiling Losses :** This type of risk involves the risk of revenue loss due to breakdowns and soiling due to the unavailability of water. This risk can be mitigated by selecting competent and credible service partners for Operations & Maintenance. The Company is also using water cleaning modules at regular frequency.
- **Regulatory changes:** Due to continuous change in regulatory frameworks at state and central level, the arrangement of power off take with industrial consumers gets affected. The Company mitigates this risk for itself and the off takers by continuously monitoring and anticipating changes in policies. The Company also keeps the off takers duly informed of such imminent changes, helping all stakeholders to discuss mitigation and timely execute amendments to off- takers contracts.

The Board at its meetings periodically reviews and monitors these risks and their mitigation plan.

Health and Safety

Across all its operational assets, sites and offices, the company implements policies that covers Health and safety. The Company strives for continuous

improvement and its objective is to establish the best safety practices at sites and operating assets.

The Company strives for continuous improvement and its objective is to establish the best safety practices at sites and operating assets.

During the year the Company took below health and safety initiatives:

- HSE Communication : HSE Moment/Lessons Learnt : Weekly HSE Moment is circulated to all employees and contractors and learnings are implemented.
- HSE Risk Management, Hazard Reporting and closure : Hazards are reported by employees and contractors and closure is monitored and supported by Management.
- HSE Promotion, HSE Campaigns : National Safety Week and Road Safety Week, Sustainability, Electrical Safety week was celebrated across the company involving contractors and employees and employee's family members.
- HSE Training : HSE training including Visitor Induction, Safety Induction and Risk based training is imparted to Contractors.
- HSE Digitalisation : HSE digital software implemented for hazard reporting and risk behaviour reporting.

Adequacy of Internal Financial Controls

The Company has adequate internal financial controls and those are operating effectively.

Directors & Key Managerial Personnel

In accordance with the provisions of the Companies Act, 2013 and Articles of Association of the Company Mr. Sandeep Mandke (DIN: 09619581) retires by rotation and being eligible offers, himself for re-appointment. The proposal of re-appointment forms part of the Notice of the fourth AGM of the Company.

During the year, there were no changes in the Directors and Key Managerial Personnel(s) of the Company.

Policy on appointment and remuneration of directors and key managerial personnel

The Board has adopted a policy on selection and appointment of Directors and remuneration of Directors, KMPs and employees. The Directors do not receive any remuneration except independent directors who are entitled to sitting fees as approved by the Board for each Board/Committee meeting attended. A detailed policy is annexed herewith as Annexure 1 and forms part of this report.

Declaration by Independent Directors

The Company has received declarations from the Independent Directors confirming that they meet the criteria of independence as laid down under Section 149(6) of the Companies Act, 2013 and have also confirmed that their names have been added in the data bank maintained by the Indian Institute of Corporate Affairs for independent directors, in accordance with Rule 6 of the Companies (Appointment and Qualification of Directors) Rules, 2014.

Pursuant to the provisions of Rule 6 of the Companies (Appointment and Qualifications of Directors) Rules, 2014, every individual whose name is so included in the data bank shall pass an online proficiency self-assessment test. However, an individual who has fulfilled the criteria prescribed in Rule 6(4) of the said Rules, is exempted from passing the online proficiency self-assessment test. In view of the same, Mr. Sanjay Parande, having met the aforesaid criteria, was exempted from the proficiency self-assessment test and Mr. Ashok Joshi has passed the proficiency self-assessment test.

The Board is of the opinion that the Directors of the Company are eminent persons with integrity and have necessary expertise and experience to continue to discharge their responsibilities as Directors of the Company.

Board Meetings

During the year, the Board met four times on April 28, 2025, July 23, 2025, November 3, 2025 and January 22, 2026. The intervening gap between the meetings was within the period prescribed under the Companies Act, 2013.

Independent directors meeting

During the year under review, the independent directors met once on January 21, 2026 where all independent directors were present inter alia to review the performance of the Board and non-independent directors of the Company.

Committees of the Board

The Board has constituted the following committees viz. Audit Committee and Nomination and Remuneration Committee.

Audit Committee

The Audit Committee of the Board of Directors was constituted on May 9, 2023. The committee as on March 31, 2026 comprises of all directors being non-executive directors viz Mr. Sanjay Parande as the Chairman and Mr. Ashok Joshi & Mr. Sandeep Mandke as members of the committee. The committee met four times during the year on April 28, 2025, July 23, 2025, November 3, 2025 and January 22, 2026. Further, all the recommendations made by the audit committee were accepted by the Board.

Nomination & Remuneration Committee

The Nomination & Remuneration Committee of the Board of Directors was constituted on May 9, 2023. The committee comprises of all directors being non-executive directors viz Mr. Ashok Joshi as the Chairman and Mr. Sanjay Parande & Mr. Ravi Damaraju as members of the committee. The committee met once on January 22, 2026.

Director's Responsibility Statement

In terms of Section 134 of the Companies Act, 2013, the Directors of your Company, to the best of their knowledge and belief and according to the information and explanations obtained by them in the normal course of their work, state that, in all material respects:

a) In the preparation of the annual financial statements for the year ended March 31, 2026 the applicable accounting standards have been followed along with proper explanation relating to material departures, if any;

b) Appropriate accounting policies have been selected, applied consistently and judgment and estimates have been made that are reasonable and prudent to give a true and fair view of the state of affairs of the Company as on March 31, 2026 and of the loss of the Company for the year ended on that date;

c) Proper and sufficient care has been taken for the maintenance of adequate accounting records in accordance with the provisions of the Companies Act, 2013 for safeguarding the assets of the Company and for preventing and detecting fraud and other irregularities;

d) The annual financial statements have been prepared on a going concern basis;

e) Proper systems to ensure compliance with the provisions of all applicable laws and that such systems were adequate and operating effectively.

Secretarial Standards

Your Company is in compliance with the Secretarial Standards on Meetings of the Board of Directors (SS-1) and Secretarial Standards on General Meetings (SS-2) issued by the Institute of Company Secretaries of India (ICSI) as amended from time to time.

Details regarding frauds reported by Auditors under section 143(12)

During the year under review, there were no frauds reported by the auditors to the Board under section 143(12) of the Act.

Related Party Transactions (RPT)

All related party transactions that were entered into during the financial year were on an arm's length basis and were in the ordinary course of business. The related party transactions are placed before the Audit Committee for noting/ approval. The information on transactions with related parties pursuant to Sec 134(3)(h) of the Companies Act read with Rule 8(2) of the Companies (Accounts) Rules, 2014 is given as Annexure 2 in Form No. AOC-2 and the same forms part of this report.

First Energy 2 Private Limited

Maintenance of Cost Records

Pursuant to Section 148(1) of the Companies Act, 2013, the requirement for maintenance of cost records is not applicable to the Company.

Conservation of energy and technological absorption

The Company is in the business of renewable energy. The Company aims to conserve the environment by bringing about significant change in methods of using energy through the application of Solar and associated Renewable energy generation sources for commercial & industrial customers.

In the case of Technology absorption, the Company used higher rated (>540Wp) Monoperc PV modules with better efficiency, a structure designed to string type Solar Inverters designed for outdoor installation

Foreign Exchange Earnings and Outgo

There were no foreign exchange earnings and outgo during the year.

Particulars of Employees

The information required pursuant to Section 197 read with Rule 5 of the Companies (Appointment and Remuneration of Managerial Personnel) Rules, 2014 duly amended, in respect of employees of the Company will be provided upon request.

In terms of Section 136 of the Act, the Annual Report excluding the aforesaid information is being sent to all the members and others entitled to receive it. Any shareholder interested in obtaining such particulars may write to the company secretary. The information is also available for inspection at the registered office during working hours up to the date of the Annual General Meeting.

Significant and material orders passed by the Regulators or Courts

There are no significant or material orders passed by the Regulators / Courts.

Corporate Social Responsibility

The Company does not fall under the criteria defined under Section 135 of the Companies Act, 2013 as of March 31, 2026. Hence, the provisions related to Corporate Social responsibility do not apply to the Company.

Disclosure under Sexual Harassment of Women at Workplace (Prevention, Prohibition and Redressal) Act, 2013

Your Company is committed to providing employees with a safe and conducive work environment. No cases were pending at the beginning of the year/ filed during the year, according to the Sexual Harassment of Women at Workplace (Prevention, Prohibition and Redressal) Act, 2013.

Disclosure under Maternity Benefit Act, 1961

There were no cases to trigger a compliance for the Company under the provisions of the Maternity Benefit Act, 1961 during the year under report.

The Insolvency and Bankruptcy Code, 2016

Your Board confirms that there is no proceeding pending under the Insolvency and Bankruptcy Code, 2016.

Valuation

During the year under review, there is no instance of onetime settlement with any Bank or Financial Institution.

Changes in the Regulatory Provisions and its impact on the business

During the year, the below changes were made to the Regulatory Provisions:

- During the year, Ministry of Power notified an amendment to the Electricity Rules 2005 to clarify that the minimum 26% equity and minimum 51% consumption is to be maintained by Company as well, in addition to Association of Persons (AoPs). Further, consumption by Holding Company or its subsidiaries in addition to the subsidiary of the Company, shall qualify as captive consumption. The prevailing requirement of consumption proportional to the equity shareholding has been modified and the consumption is now required to be maximum equal to the equity shareholding. Any energy wheeled more than the equity share will be treated as non-captive and shall attract Cross Subsidy Surcharge and Additional Surcharge. Further, if any single consumer has more than 26% equity, excess consumption shall be allowed as well. As we have been following the 26-74% from the beginning and as the Company is a dedicated captive with single consumer, this change has no impact on the captive compliance of the Company/ Consumer due the change in said Rules.

- Maharashtra announced solar and non solar hours tariffs, with restricted banking provision to solar hours only in Q1 FY 26. The matter was immediately stayed in favour of the consumers. Maharashtra Electricity regulatory Commission (MERC) on directives of the Supreme Court had to re-open the regulatory stakeholder public hearing process on proposed changes, and meanwhile, banking provisions were maintained until further development. However, MERC has recently issued the revised Multi year tariff order (MYT Order) on 25th March 2026, enforcing the banking provisions. The matter has again been taken up at Appellate tribunal for electricity (APTEL) and currently hearings are being held since 20th April 2026 in this matter. Impact will be known once we have a final position on banking provisions and mitigations will be planned in accordance with the Captive Power agreement (CPA) Terms or mutual agreements with the consumers.

Auditors

Statutory Auditors

M/s Price Waterhouse Chartered Accountants LLP, (Firm Registration Number. 012754N/N500016) were appointed as Statutory Auditors of the Company for a period of Five year from the conclusion of the 1st Annual General Meeting (AGM) till the conclusion of the 6th AGM. The Auditors' Report for FY 2025-26 does not contain any qualification, reservation, or adverse remark.

Acknowledgments

The Directors wish to place on record their appreciation for the support extended by the Company's customers, vendors and bankers during the year and look forward to their continued support in the future as well. They also place on record their appreciation for the dedication and contributions made by all the employees for their commitment, hard work and support.

Annexure 1

Policy on Selection and Appointment of Directors and Remuneration of Directors, KMPs and Employees

The Nomination & Remuneration Committee (NRC) has prepared a "Terms of Reference" (TOR), which, inter alia, deals with laying down the criteria for the selection of Non-Executive Directors (NEDs), based on the requirements of the organization, including the qualifications, and determining the independence of Directors. The NRC has also laid down the criteria for the evaluation of the performance of the Board and guidelines for determining the remuneration of Directors. This Policy is based on the above TOR of NRC:

(1) Criteria for selection and appointment of Directors:

(a) The Director shall have relevant expertise and experience commensurate with the requirements of the Company to discharge the duties as a Director.

(b) While selecting a director, the emphasis be given to the qualifications, experience, and personal and professional standing of the incumbent.

(c) Assess the independence and nature of the appointment as Director vis-à-vis any conflict-of-interest w.r.t. any pecuniary relationship and procure necessary declaration.

(d) The Director is not disqualified for appointment u/s. 164 of the Companies Act, 2013.

(e) In the event of re-appointment of the Director, due emphasis be given to the performance evaluation of the Director during his tenure.

(2) Remuneration:

The remuneration payable to Directors shall be in accordance with Sec. 197 of the Companies Act, 2013 and other applicable provisions & rules made thereunder from time to time.

The Directors shall also be eligible to receive reimbursement of expenses for participation in the Board and Committee Meetings.

The Independent Directors shall be entitled to receive remuneration by way of sitting fees for attending the meetings of the Board as well as the Committees.

(3) Criteria for selection of MD, WTD & CEO:

For selection of the MD, WTD and CEO, the N&R Committee shall identify persons of integrity who possess relevant expertise, experience and leadership qualities required for the position and shall take into consideration recommendations, if any, received from any member of the Board. The Committee will also ensure that the incumbent fulfills such other criteria regarding age and other qualifications as laid down under the Companies Act, 2013 or other applicable laws.

(4) Remuneration for MD, WTD & CEO:

i. At the time of appointment or re-appointment, the Managing Director (MD), Whole Time Director (WTD) and Chief Executive Officer (CEO) shall be paid such remuneration as may be mutually agreed between the Company (which includes the N&R Committee and the Board of Directors) and the MD, WTD and CEO within the overall limits prescribed under the Companies Act, 2013.

ii. The remuneration shall be subject to the approval of the Members of the Company in the General Meeting.

iii. The remuneration of the MD, WTD and CEO is broadly divided into fixed and variable components. The fixed component comprises salary, allowances, perquisites, amenities and retiral benefits. The variable component comprises a performance bonus.

iv. In determining the remuneration (including the fixed increment and performance bonus) the N&R Committee shall ensure/consider the following:

a. the relationship of remuneration and performance benchmarks is clear.

b. balance between fixed and incentive pay reflecting short and long term performance objectives, appropriate to the working of the Company and its goals.

c. responsibility required to be shouldered by the MD, WTD and CEO, the industry benchmarks, and the current trends.

d. the Company's performance vis-à-vis the annual budget achievement and individual performance vis-à-vis the KRAs / KPIs.

(5) Remuneration Policy for Senior Management, KMPs and employees:

The NRC, while determining the remuneration of Senior Management/ employees and KMPs shall ensure the following:

(i) The remuneration is divided into Fixed component & Variable Component.

(ii) The division is based on the fixed salary and performance bonuses.

(iii) The division between fixed and variable is based on the roles & responsibilities, the Company's performance vis-à-vis KRA & KPIs, industry benchmark and current compensation trends in the market.

Based on the Annual Business Plan prepared, Individual Contribution Plan (ICP) is prepared by the Senior Management which is agreed upon. It broadly contains certain targets for strategic objectives, operational excellence-oriented initiatives, and business deliverables. The actual performance of individual repartee will be discussed by the MD and CEO at the year's end. Based on the appraisal and overall performance of the Company and after considering the market trends, suitable increments/ variable pay shall be decided by the MD and CEO.

The MD & CEO will present a snapshot of the evaluation carried out to assess the performance of the Whole-time Director, while recommending the annual increment of the NRC, for its review and approval.

First Energy 2 Private Limited

Annexure 2

Form No. AOC-2

(Pursuant to clause (h) of sub-section (3) of section 134 of the Act and Rule 8(2) of the Companies (Accounts) Rules, 2014)

Form for disclosure of particulars of contracts/arrangements entered into by the company with related parties referred to in sub-section (1) of section 188 of the Companies Act, 2013 including certain arm's length transactions under third proviso thereto

1. **Details of contracts or arrangements or transactions not at arm's length basis:**

   The company has not entered into any contracts/arrangements with its related parties which are not in ordinary course of business or not at arm's length basis.

2. **Details of material contracts or arrangement or transactions at arm's length basis:**

   There are certain transactions entered into by the Company who are related within the meaning of Indian Accounting Standard (Ind AS) 24 and Sec 188 of the Act. The disclosure of transactions with such related parties are set out in Note No. 22 to the financial statements which forms an integral part of this report.

INDEPENDENT AUDITOR'S REPORT

To the Members of First Energy 2 Private Limited

Report on the Audit of the Financial Statements

Opinion

1. We have audited the accompanying financial statements of First Energy 2 Private Limited ("the Company"), which comprise the Balance Sheet as at March 31, 2026, and the Statement of Profit and Loss (including Other Comprehensive Income), the Statement of Changes in Equity and the Statement of Cash Flows for the year then ended, and notes to the financial statements, including material accounting policy information and other explanatory information.

2. In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2026, and total comprehensive income (comprising of loss and other comprehensive income), changes in equity and its cash flows for the year then ended.

Basis for Opinion

3. We conducted our audit in accordance with the Standards on Auditing (SAs) specified under Section 143(10) of the Act. Our responsibilities under those Standards are further described in the "Auditor's Responsibilities for the Audit of the Financial Statements" section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Other Information

4. The Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Director's report, but does not include the financial statements and our auditor's report thereon.

   Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

   In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact.

   We have nothing to report in this regard.

Responsibilities of management and those charged with governance for the financial statements

5. The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Act with respect to the preparation of these financial statements that give a true and fair view of the financial position, financial performance, changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards specified under Section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

6. In preparing the financial statements, Board of Directors is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless Board of Directors either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

7. The Board of Directors is also responsible for overseeing the Company's financial reporting process.

Auditor's responsibilities for the audit of the financial statements

8. Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

9. As part of an audit in accordance with SAs, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

   - Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

   - Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under Section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls with reference to financial statements in place and the operating effectiveness of such controls.

   - Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.

   - Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.

   - Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

10. We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

11. We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

First Energy 2 Private Limited

Report on other legal and regulatory requirements

12. As required by the Companies (Auditor's Report) Order, 2020 ("the Order"), issued by the Central Government of India in terms of sub-section (11) of Section 143 of the Act, we give in the Annexure B a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.

13. As required by Section 143(3) of the Act, we report that:

    (a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.

    (b) In our opinion, proper books of account as required by law relating to preparation of the aforesaid financial statements have been kept by the Company so far as it appears from our examination of those books, except for the matters stated in paragraph 13(h)(vi) below on reporting under Rule 11(g) of the Companies (Audit and Auditors) Rules, 2014 (as amended).

    (c) The Balance Sheet, the Statement of Profit and Loss (including other comprehensive income), the Statement of Changes in Equity and the Statement of Cash Flows dealt with by this Report are in agreement with the books of account.

    (d) In our opinion, the aforesaid financial statements comply with the Indian Accounting Standards specified under Section 133 of the Act.

    (e) On the basis of the written representations received from the directors as on March 31, 2026, taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2026, from being appointed as a director in terms of Section 164(2) of the Act.

    (f) With respect to the maintenance of accounts and other matters connected therewith, reference is made to our remarks in paragraph 13(b) above and paragraph 13(h)(vi) below.

    (g) With respect to the adequacy of the internal financial controls with reference to financial statements of the Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure A".

    (h) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014 (as amended), in our opinion and to the best of our information and according to the explanations given to us:

        i. The Company does not have any pending litigations which would impact its financial position;

        ii. The Company was not required to recognise a provision as at March 31, 2026, under the applicable law or Indian Accounting Standards, as it does not have any material foreseeable losses on long-term contract. The Company did not have any long term derivative contracts as at March 31, 2026.

        iii. There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Company during the year ended March 31, 2026.

        iv. (a) The management has represented that, to the best of its knowledge and belief, as disclosed in Note 29(viii) to the financial statements, no funds have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Company to or in any other person(s) or entity(ies), including foreign entities ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, whether directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Company ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries;

            (b) The management has represented that, to the best of its knowledge and belief, other than as disclosed in the 29(viii) to the financial statements, no funds have been received by the Company from any person(s) or entity(ies), including foreign entities ("Funding Parties"), with the understanding, whether recorded in writing or otherwise, that the Company shall, whether directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries; and

            (c) Based on such audit procedures that we considered reasonable and appropriate in the circumstances, nothing has come to our notice that has caused us to believe that the representations under sub-clause (a) and (b) contain any material misstatement.

        v. The Company has not declared or paid any dividend during the year.

        vi. Based on our examination, which included test checks, the Company has used an accounting software for maintaining its books of account that has a feature of recording audit trail (edit log) facility and that has operated throughout the year for all relevant transactions recorded in the software except that the audit trail has not been enabled at the database level to log any direct data changes. During the course of performing our procedures, other than the aforesaid instance of audit trail not maintained where the question of our commenting does not arise, we did not notice any instance of audit trail feature being tampered with. Further, the audit trail, to the extent maintained in the prior year, has been preserved by the Company as per the statutory requirements for record retention.

14. The Company has paid for managerial remuneration in accordance with the requisite approvals mandated by the provisions of Section 197 read with Schedule V to the Act.

Annexure A to Independent Auditor's Report

Referred to in paragraph 13(g) of the Independent Auditor's Report of even date to the members of First Energy 2 Private Limited on the financial statements as of and for the year ended March 31, 2026

Report on the Internal Financial Controls with reference to Financial Statements under clause (i) of sub-section 3 of Section 143 of the Act

1. We have audited the internal financial controls with reference to financial statements of First Energy 2 Private Limited ("the Company") as of March 31, 2026, in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

2. The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting ("the Guidance Note") issued by the Institute of Chartered Accountants of India ("ICAI"). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditor's Responsibility

3. Our responsibility is to express an opinion on the Company's internal financial controls with reference to financial statements based on our audit. We conducted our audit in accordance with the Guidance Note and the Standards on Auditing specified under Section 143(10) of the Act to the extent applicable to an audit of internal financial controls, both applicable to an audit of internal financial controls and both issued by the ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to financial statements was established and maintained and if such controls operated effectively in all material respects.

4. Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system with reference to financial statements and their operating effectiveness. Our audit of internal financial controls with reference to financial statements included obtaining an understanding of internal financial controls with reference to financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

5. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system with reference to financial statements.

Meaning of Internal Financial Controls with reference to financial statements

6. A company's internal financial controls with reference to financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial controls with reference to financial statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls with reference to financial statements

7. Because of the inherent limitations of internal financial controls with reference to financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to financial statements to future periods are subject to the risk that the internal financial controls with reference to financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

8. In our opinion, the Company has, in all material respects, adequate internal financial controls system with reference to financial statements and such internal financial controls with reference to financial statements were operating effectively as at March 31, 2026, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note issued by ICAI.

First Energy 2 Private Limited

Annexure B to Independent Auditors' Report

Referred to in paragraph 12 of the Independent Auditor's Report of even date to the members of First Energy 2 Private Limited on the financial statements as of and for the year ended March 31, 2026.

In terms of the information and explanations sought by us and furnished by the Company, and the books of account and records examined by us during the course of our audit, and to the best of our knowledge and belief, we report that:

i. (a) (A) The Company is maintaining proper records showing full particulars, including quantitative details and situation, of Property, Plant and Equipment.

(B) The Company did not have any intangible assets during the year and, accordingly, reporting under clause 3(i)(a)(B) of the Order is not applicable to the Company.

(b) The Property, Plant and Equipment of the Company have been physically verified by the Management during the year and no material discrepancies have been noticed on such verification. In our opinion, the frequency of verification is reasonable.

(c) The title deeds of all the immovable properties , as disclosed in Note 3 to the financial statements, are held in the name of the Company.

(d) The Company has not revalued its Property, Plant and Equipment during the year. Consequently, the question of our commenting on whether the revaluation is based on the valuation by a Registered Valuer, or specifying the amount of change, if the change is 10% or more in the aggregate of the net carrying value of each class of Property, Plant and Equipment does not arise.

(e) No proceedings have been initiated on or are pending against the Company for holding benami property under the Prohibition of Benami Property Transactions Act, 1988 (as amended in 2016) (formerly the Benami Transactions (Prohibition) Act, 1988 (45 of 1988)) and Rules made thereunder, and therefore the question of our commenting on whether the Company has appropriately disclosed the details in the financial statements, does not arise.

ii. (a) The Company is in the business of generating power from renewable energy sources and, consequently, does not hold any inventory. Accordingly, reporting under clause 3(ii)(a) of the Order is not applicable to the Company.

(b) During the year, the Company has not been sanctioned working capital limits in excess of Rs. 5 crores, in aggregate from banks and financial institutions and, accordingly, the question of our commenting on whether the quarterly returns or statements are in agreement with the unaudited books of account of the Company does not arise.

iii. The Company has not made any investments, granted secured/ unsecured loans/ advances in nature of loans, or stood guarantee, or provided security to any parties. Therefore, the reporting under clause 3(iii), (iii)(a), (iii)(b), (iii)(c), (iii)(d), (iii)(e) and (iii)(f) of the Order are not applicable to the Company.

iv. The Company has not granted any loans or made any investments or provided any guarantees or security to the parties covered under Sections 185 and 186. Therefore, the reporting under clause 3(iv) of the Order are not applicable to the Company.

v. The Company has not accepted any deposits or amounts which are deemed to be deposits referred in Sections 73, 74, 75 and 76 of the Act and the Rules framed there under. Accordingly, the reporting under clause 3(v) of the Order is not applicable to the Company.

vi. The Central Government of India has not specified the maintenance of cost records under sub-section (1) of Section 148 of the Act for any of the products and services of the Company. Accordingly, reporting under clause 3(vi) of the Order is not applicable to the Company.

vii. (a) In our opinion, the Company is regular in depositing the undisputed statutory dues, including goods and services tax, income tax and other statutory dues, as applicable, with the appropriate authorities.

(b) There are no statutory dues referred to in sub-clause (a) which have not been deposited on account of any dispute.

viii. There are no transactions previously unrecorded in the books of account that have been surrendered or disclosed as income during the year in the tax assessments under the Income-tax Act, 1961.

ix. (a) The Company has not defaulted in repayment of loans or other borrowings or in the payment of interest thereon to any lender during the year.

(b) On the basis of our audit procedures, we report that the Company has not been declared Wilful Defaulter by any bank or financial institution or government or any government authority.

(c) The Company has not obtained any term loans during the year ended March 31, 2026 and there was no unutilized balance of term loan obtained in earlier years as on April 1, 2025. Accordingly, reporting under clause 3(ix)(c) of the Order is not applicable to the Company.

(d) According to the information and explanations given to us, and the procedures performed by us, and on an overall examination of the financial statements of the Company, we report that no funds raised on short-term basis have been utilised for long-term purposes by the Company.

(e) According to the information and explanations given to us and procedures performed by us, we report that the Company did not have any subsidiaries, joint ventures or associate companies during the year. Accordingly, reporting under clause 3(ix)(e) of the Order is not applicable to the Company.

(f) According to the information and explanations given to us and procedures performed by us, we report that the Company did not have any subsidiaries, joint ventures or associate companies during the year. Accordingly, reporting under clause 3(ix)(f) of the Order is not applicable to the Company.

x. (a) The Company has not raised any money by way of initial public offer or further public offer (including debt instruments) during the year. Accordingly, the reporting under clause 3(x)(a) of the Order is not applicable to the Company.

(b) The Company has not made any preferential allotment or private placement of shares or fully or partially or optionally convertible debentures during the year. Accordingly, the reporting under clause 3(x)(b) of the Order is not applicable to the Company.

xi. (a) During the course of our examination of the books and records of the Company, carried out in accordance with the generally accepted auditing practices in India, we have neither come across any instance of material fraud by the Company or on the Company, noticed or reported during the year, nor have we been informed of any such case by the Management. Accordingly, the reporting under clause 3(xi)(a) of the Order is not applicable to the Company.

(b) During the course of our examination of the books and records of the Company carried out in accordance with the generally accepted auditing practices in India, a report under Section 143(12) of the Act, in Form ADT-4, as prescribed under rule 13 of Companies (Audit and Auditors) Rules, 2014 was not required to be filed by us, as statutory auditors, with the Central Government. Accordingly, the reporting under clause 3(xi)(b) of the Order is not applicable to the Company.

(c) During the course of our examination of the books and records of the Company carried out in accordance with the generally accepted auditing practices in India, and as represented to us by the management, no whistle-blower complaints have been received during the year by the Company. Accordingly, the reporting under clause 3(xi)(c) of the Order is not applicable to the Company.

xii. As the Company is not a Nidhi Company and the Nidhi Rules, 2014 are not applicable to it, the reporting under clause 3(xii) of the Order is not applicable to the Company.

xiii. The Company has entered into transactions with related parties in compliance with the provisions of Sections 177 and 188 of the Act. The details of related party transactions have been disclosed in the financial statements as required under Indian Accounting Standard 24 "Related Party Disclosures" specified under Section 133 of the Act.

xiv. (a) The internal audit of the Company is covered under the group internal audit pursuant to which an internal audit is carried out every year. In our opinion, the Company's internal audit system is commensurate with the size and nature of its business.

(b) We were unable to obtain the Internal Audit Reports for the period January 01, 2026 to March 31, 2026 of the Company and, accordingly, the Internal Audit Reports have been considered by us for the purpose of our audit only to the extent those were made available to us.

xv. In our opinion, the Company has not entered into any non-cash transactions with its directors or persons connected with the director(s). Accordingly, the reporting on compliance with the provisions of Section 192 of the Act under clause 3(xv) of the Order is not applicable to the Company.

xvi. (a) The Company is not required to be registered under Section 45-IA of the Reserve Bank of India Act, 1934. Accordingly, the reporting under clause 3(xvi)(a) of the Order is not applicable to the Company.

(b) The Company has not conducted non-banking financial/ housing finance activities during the year. Accordingly, the reporting under clause 3(xvi)(b) of the Order is not applicable to the Company.

(c) The Company is not a Core Investment Company as defined in the regulations made by the Reserve Bank of India. Accordingly, the additional reporting under clause 3(xvi)(c) of the Order is not applicable to the Company.

(d) In our opinion, the Group as defined in the Reserve Bank of India (Core Investment Companies) Directions, 2025 has one CIC as part of the Group.

xvii. The Company has not incurred any cash losses in the financial year or in the immediately preceding financial year.

xviii. There has been no resignation of the statutory auditors during the year and, accordingly, the reporting under clause 3(xviii) of the Order is not applicable to the Company.

xix. On the basis of the financial ratios, ageing and expected dates of realisation of financial assets and payment of financial liabilities, other information accompanying the financial statements, our knowledge of the Board of Directors and management plans and based on our examination of the evidence supporting the assumptions, nothing has come to our attention, which causes us to believe that any material uncertainty exists as on the date of the audit report that the Company is not capable of meeting its liabilities existing at the date of balance sheet as and when they fall due within a period of one year from the balance sheet date. We, however, state that this is not an assurance as to the future viability of the Company. We further state that our reporting is based on the facts up to the date of the audit report and we neither give any guarantee nor any assurance that all liabilities falling due within a period of one year from the balance sheet date will get discharged by the Company as and when they fall due.

xx. The provisions relating to Corporate Social Responsibility under Section 135 of the Act are not applicable to the Company. Accordingly, reporting under clause 3(xx) of the Order is not applicable to the Company.

xxi. The Company does not have subsidiaries or joint ventures or associate companies and does not prepare Consolidated Financial Statements. Accordingly, the reporting under clause 3(xxi) of the Order is not applicable to the Company.

Notes to the Financial Statements for the year ended March 31, 2026
(All amounts are in Rupees Lakhs, except per share data and unless stated otherwise)

1. Corporate information

First Energy 2 Private Limited ("the Company") is a private limited company domiciled in India and incorporated on March 30, 2022, under the provisions of Indian Companies Act, 2013. It is a subsidiary of First Energy Private Limited. The Company is primarily engaged in business as a producer of solar power.

The address of the Company's registered office is 7th Floor, fountainhead Tower 1, Viman Nagar, Pune - 411014 India. The Board of Directors have authorized to issue these financial statements on April 23, 2026. The CIN of the Company is U40300PN2022PTC209863.

2. Basis of preparation and summary of material accounting policies

This note provides a list of the material accounting policies adopted in the preparation of these financial statements. These policies have been consistently applied to all the years presented, unless otherwise stated.

2.1 Basis of preparation and measurement

(a) Basis of preparation

These financial statements have been prepared in accordance with the Indian Accounting Standards (Ind AS), notified under the section 133 of the Companies Act 2013 (the Act) [Companies (Indian Accounting Standards) Rules, 2015] and other relevant provisions of the act.

(b) Historical cost convention

The financial statements have been prepared on the historical cost convention.

All assets and liabilities have been classified as current or non-current as per the Company's operating cycle and other criteria set out in the Schedule III of the Companies Act, 2013. Based on the nature of products and services and the time between the acquisition of assets for processing and their realisation in cash and cash equivalents, the Company has ascertained its operating cycle as 12 months for the purpose of current and non-current classification of assets and liabilities.

2.2. Summary of material accounting policies

a. Revenue recognition

Revenue from Contracts with customers

Revenue from contracts with customers is recognized when control of the goods or services are transferred to the customer at the amount of the transaction price allocated to the performance obligation. Revenue is recognized when it has approval and commitment from both parties, the rights of the parties are identified, payment terms are identified, the contract has commercial substance and collectability of consideration is probable. The Company has concluded that it is the principal in all of its revenue arrangements since it is primarily responsible for fulfilling the promise to provide the specified good or service and has discretion in establishing the price for the specified good or service.

Revenue from Sale of power

Revenue from sale of power is recognised at transaction price and over time for each unit of electricity delivered at the contracted rate. Revenue recognized pertains to units of electricity supplied to the consumers to consumers on the basis of recording of consumption of energy by installed meters based on the applicable tariff agreed in power purchase agreement, which are recognized considering past trends of approval, management's probability estimate and when no significant uncertainty exists in such determination.

At the end of each reporting period, the Company updates the estimated transaction price to represent the circumstances present at the end of the reporting period and the changes in circumstances during the reporting period. The Company accounts for such changes in the transaction price (including claims). Consideration / claim payable to a customer includes cash amounts that an entity pays to the customer. The Company accounts for consideration payable to a customer as a reduction of the transaction price and, therefore, of revenue unless the payment to the customer is in exchange for a distinct good or service that the customer transfers to the entity. The consideration payable to a customer includes a variable amount.

Variable consideration

The contracts for sale of power provide customers with a right for compensation in case of delayed delivery or commissioning and in some contracts compensation for performance shortfall expected in future over the life of the guarantee. The Company estimates the amount of consideration to which it will be entitled in exchange for transferring the goods to the customer and netted off against the revenue.

Trade receivables: A receivable represents the Company's right to an amount of consideration that is unconditional (i.e., only the passage of time is required before payment of the consideration is due). Trade receivables are recognised initially at the transaction price as they do not contain significant financing components. The Company holds the trade receivables with the objective of collecting the contractual cash flows and therefore measures them subsequently at amortised cost using the effective interest method, less loss allowance. For trade receivables, the Company applies the simplified approach required by Ind AS 109, which requires expected lifetime losses to be recognised from initial recognition of the receivables.

b. Property, plant and equipment

Freehold land is carried at historical cost. All other items of property, plant and equipment are stated at cost of acquisition or construction net of accumulated depreciation and impairment loss, if any.

Depreciation commences when the assets are ready for their intended use. Depreciation is calculated using the straight-line method to allocate their cost, net of their residual values, over their estimated useful lives as follows:

Asset category	Company's estimate of useful life (years)	Useful life as prescribed under Schedule II (years)
Plant and equipment	10 to 25	10 to 15

c. Borrowing costs

Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets are capitalized as part of the cost of the asset. All other borrowing costs are expensed in the period in which they occur. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds.

Borrowing costs pertaining to qualifying assets are presented as part of financing activities in Statement of Cash Flows.

d. Deferred Tax

Deferred tax assets are recognized for all deductible temporary differences, the carry forward of unused tax credits and any unused tax losses. Deferred tax assets are recognized to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilized.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilized. Unrecognized deferred tax assets

are re-assessed at each reporting date and are recognized to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

2.3. Summary of other accounting policies

a. Financial instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

Financial assets

All financial assets (excluding trade receivables which do not contain a significant financing component) are recognized initially at fair value plus, in the case of financial assets not recorded at fair value through Profit and Loss, transactions costs that are attributable to the acquisition of the financial asset. For all subsequent measurements, financial assets are classified in the following categories by the Company:

i. Debt instruments at amortized cost

A 'debt instrument' is measured at the amortized cost if both the following conditions are met:
